Subsection (c) of section 122 provides for assessment of costs against a complainant in cases where the court concludes after a hearing that the complaint was filed with a frivolous or malicious intent. This does not mean, however, that costs may be assessed against a complainant simply because the defendant was acquitted; it must appear that the complaint was entirely without substance. This provision is intended to complement section 101(c) of this code providing for an initial screening of complaints and presumably the two together will eliminate cases of a frivolous nature. Subsection (c) is intended to apply where the complainant's sworn, uncontested statement does establish the necessary cause to believe that an offense has been committed, but it is later determined upon clear convincing evidence that the complaint was entirely without merit and the complainant knew it.

SEC. 123. *Trial procedure.* (a) The time and place of court sessions, and all other details of judicial procedure shall be set out in rules of court approved by the tribal council.

(b) The court shall not be bound by common law rules of evidence, or the rules of evidence which pertain in state or federal courts.

COMMENTARY

One of the areas in which there has been a good deal of confusion and apprehension over exactly what the Indian Bill of Rights (25 U.S.C. 1302) requires of tribal courts is in the identification of standards for criminal trial procedure. Some persons have expressed fears that the act was intended to require tribal courts to adopt all of the standards and technical requirements which apply to the trial of criminal cases in non-Indian courts. They object that doing so will result in a breakdown of the tribal court system. Imposing American judicial precedents on tribal courts might indeed cause great problems, however, such a requirement apparently was neither intended nor expected by Congress when passing the Indian Bill of Rights. Respect for the broad principles of due process and equal protection of the law is required of tribal courts, but the specific interpretation of those principles found in the case law of American courts does not bind the tribal courts in precisely the same way or to the same degree. That interpretation may be made by tribal courts within the framework of basic fairness and sensitivity for the more traditional Indian approaches to administering justice.

Rules of trial procedure are generally set by the court itself. This affords maximum flexibility for each court to establish rules which take into account the case load of the court, the extent of staff and facilities which are available to the court, and the level of expertise of the staff. Accordingly, no attempt has been made to include in this code specific provisions dealing with trial procedure. Rather, there is discussed briefly the broad principles involved, some of the potential problems for which tribes should be on the lookout, and a few suggestions are made; but the drafting of actual code provisions or court rules are left to the individual tribes as is fitting their particular situations. Likewise this commentary does not explain in detail the sequential steps of a criminal trial in American courts. A review of these steps might be useful for tribes as a starting point in devising their own procedures, but these steps are readily available from other sources, such as the Criminal Court Procedures Manual prepared by the National American Indian Court Judges Association.

Some issues which are relevant to trial procedure have been discussed in the commentaries following other provisions of this code and these should be consulted when appropriate. (See sections 101–111, 124 and 128 of this code on complaints, arrest, search and seizure, arraignments, jury trials and trial records.) But the following provisions of the Indian Bill of Rights bear directly on trial procedure in tribal courts:

(1) No tribal government may "compel any person in any criminal case to be a witness against himself." (25 U.S.C. 1302(4).)

This provision, along with the due process of law requirement (25 U.S.C. 1302(8)), constitutes the foundation for the right to remain silent with which most tribal governments are already familiar. It means that from the moment that a person is arrested through the period of his trial and sentencing he may not be compelled to make any statement unless he does so voluntarily. The point at which this right most often becomes crucial for the accused is immediately after his arrest because then the pressures to confess, either psychological or otherwise, are usually the strongest. Moreover, afraid and usually without representation, the accused is most susceptible to those pressures.

As discussed in the commentaries following arrest (p. 22) and search procedures (p. 30), the police may not coerce an incriminating statement from the accused nor conduct an illegal search, and the tribal judge has the ultimate responsibility of insuring that they do not. In the federal system, any issue involving the possibility of an involuntary confession or illegal search is argued and ruled upon at a "suppression hearing" which usually is held long before trial.

Clearly some mechanism should exist in tribal courts to resolve questions concerning the use of illegally obtained confessions or physical evidence but a formal pre-trial suppression hearing as held in federal courts is not mandatory, unless a tribal government elects to make it so. Other possible alternatives to such a hearing might include: (a) A verbal inquiry by the judge of the parties immediately before trial or at arraignment as to whether there is any confession or other seized evidence which will be presented in the case; and if so, whether there is any objection to its admissibility; or (b) simply proceeding with the trial until such time as the suspect evidence is offered and then hearing argument on its admissibility; or (c) discussing the question informally in a pre-trial conference.

The pre-trial conference can be a useful procedure not only for disposing of questions of evidence but also for dealing with any other matters which might serve to expedite trial. It should be used, however, only when the defendant is represented by counsel. For those tribes which may be interested in including a provision for pre-trial conferences in their criminal procedure codes, it is suggested that they use language similar to the following:

At any time after arraignment the court, at the request of any party or upon its own motion, may order one or more conferences to consider such matters as will promote a fair and expeditious trial. Such a conference shall be held only if the defendant is represented by an attorney or spokesman to act in his behalf. At the conclusion of the conference the court shall prepare and file a memorandum of the matters agreed upon and any orders that the court deems appropriate to the case.

(2) No tribal government may "deny to any person in a criminal proceeding the right to a speedy and public trial, to be informed of the nature and cause of the accusation, to be confronted with the witnesses against him, to have compulsory process for obtaining witnesses in his favor, and at his own expense to have the assistance of counsel for his defense." (25 U.S.C. 1302(6)).

Since trials are frequently held on the same day as arraignment in many tribal courts or at the most within a couple of weeks and since they are usually open to the public, tribes should have no difficulty in complying with the "speedy and public" trial requirement. Likewise if the tribes use some form of arrangement proceeding as described in sections 111–113 of this code they should not be vulnerable to an accusation of failing to inform the defendant of the charges against him. And if they have a subpoena procedure similar to that set forth in sections 119–122 of this code they have provided the defendant with "compulsory process."

The right to be "confronted with the witnesses against him" means not only that the accused has the right to see and hear the evidence against him but that he also be given the opportunity to question his accusers and the witnesses they bring forth. This is the vitally important right in an Anglo court to cross-examine the prosecution's witnesses in order to test their recollection of events and the truthfulness of their statements. Although the right itself to be confronted with witnesses may not be abrogated, the manner in which it is exercised and specifically the role the attorney plays in that exercise may be at variance with non-Indian procedure in order to be consistent with the generally more informal nature of trials in Indian courts. Thus the same adversary system so familiar to every non-Indian attorney would not necessarily have to be employed in Indian courts. As an alternative, the judge may play a more direct role in which he himself thoroughly questions the complaining witnesses and defendant and allows the jurors (if it is a jury trial) to direct questions themselves. In such a scheme, the counsel or advocate would be permitted to question witnesses only after the court had completed its own examination. Proceeding in this manner might well eliminate the many objections and legal arguments which so characterize trials in American courts, but still guarantee a fair trial.

(3) No tribal government may "deny to any person within its jurisdiction the equal protection of its laws or deprive any person of liberty or property without due process of law." (25 U.S.C. 1302(8))

The "due process of law" clause operates as probably the most sweeping check on governmental actions recognized in Anglo courts today. And its impact has been particularly noticeable in the area of criminal procedure where, using the test of "fundamental fairness," the courts in recent years have taken bold steps to oversee police activities as well as supervise the functioning of the judiciary itself. Thus, whereas the precise interpretation of both the due process and equal protection clauses by non-Indian courts is not necessarily binding on tribal governments, it is important that tribes be cognizant of the potential impact of these two legal catch-alls when they are formulating their own rules for criminal trial procedure.

Equal protection of the laws means simply that the law shall be applied equally to every person in like circumstances, regardless of his race, color, creed or class. And in the context of trial procedure, due process of law, in its barest essence, means that an accused person shall: (a) Be advised of the charges against him; (b) be given notice of the time and place where his case will be heard; (c) have an opportunity to confront his accusers; (d) have the opportunity to present evidence in his own behalf; (e) and have the question of guilt or innocence decided by a trier of facts whose decision is based solely on the evidence presented in the case and not on any preconceived notions, regardless of whether trial is by the judge or by a jury. All of these principles must be observed in a spirit of fairness and impartiality but not necessarily with the formality common to federal or state courts. Clearly the prosecution has the burden of proving the accused's guilt beyond a reasonable doubt, including the facts that the court has jurisdiction over the case, that a crime has actually been committed, and that the defendant committed it with the requisite intent (when intent is an element of the offense required by the tribal code). In response the defense may challenge the jurisdiction of the court, or show that the defendant did not commit the acts charged or that his acts were justified, or that his acts were excused by some mental incapacity. Beyond these broad guidelines, however, tribes should feel free to experiment with procedures which guarantee fundamental fairness to both parties but which also facilitate the prompt, efficient and economical dispensation of justice.

In fact, some tribes have already adopted measures to insure that all of the technical rules of procedure used in Anglo courts are not viewed as binding on tribal courts. For example, at least one tribe has adopted its own code provision setting forth vastly simplified and streamlined rules of evidence for its courts. Other tribes have specifically stated either in their codes or in court rules that the rules of evidence pertaining in state and federal courts do not apply in their courts. Both approaches are considered to be sensible and realistic solutions to a potentially difficult problem for tribal judges.

SEC. 124. *Jury trial.* (a) Any person accused of a crime for which imprisonment is a possible penalty may be granted a jury trial, upon his or her request made at time of arraignment. A jury shall consist of at least six members of the tribe selected at random from a list of eligible jurors prepared each year by the tribal council or other appropriate body.

(b) An eligible juror is a tribal member who has reached the age of ____ years, has not been convicted of a felony, and is not otherwise unqualified according to standards established by the tribal court under its general rule-making authority.

(c) Each party shall have the right to challenge an unlimited number of jurors for cause on the basis of lack of qualifications, partiality, or otherwise acceptable reason. Whether or not cause exists shall be determined by the judge in all instances. In addition, each party shall have the right to a maximum of three peremptory challenges for jurors, for which no reasons need be given and which the judge may not refuse to grant.

(d) The judge shall instruct the jury with regard to the applicable law and the jury shall decide all questions of fact on the basis of that law.

(e) The jury shall deliberate in secret and return a verdict of guilty or not guilty. The judge shall render judgment in accordance with the jury verdict.

(f) Each juror shall be paid out of tribal funds the sum of $____ for each day of service, plus ____ cents a mile for his transportation costs to and from court.

COMMENTARY

The Indian Bill of Rights states that a tribe may not "deny to any person accused of an offense punishable by imprisonment the right, upon request, to a trial by jury of not less than six persons." (25 U.S.C. 1302(10)). A literal reading of this language is that anytime a defendant is charged with any offense whatsoever under the tribal code or the Code of Federal Regulations which may subject him to a jail sentence, regardless of how brief, then the tribal court is required to grant him a jury trial upon his request.

The impact of such an interpretation could be devastating because it would mean that prosecution in tribal courts of many minor offenses, including those traditionally thought of as petty in American law, may involve the necessity of a trial by jury. Prosecution for disturbing the peace, public drunkenness,

V 40 72 APR 14 75 XUM

failing to send one's children to school, and violations of the game and traffic laws, all of which in some tribal codes are punishable by short jail terms, may be burdened by the added expense, time, cumbersome procedures and strain on courtroom facilities inherent in a jury trial.

"Petty offenses" have been defined by Congress and in many federal court decisions as those offenses which have a maximum penalty of six months imprisonment. And despite the clear language of the Constitution that all "crimes" (Art. 3, section 2) and all "criminal prosecutions" (Sixth Amendment) shall be tried by a jury, allowance has always been made in American law for denying the right to a jury trial to defendants charged with petty offenses even though they may be imprisoned upon conviction. This exception has long been recognized in both federal and state courts and frequently justified on the basis that the rights of the individual defendant as well as the public interest are best served by the prompt, inexpensive disposition of minor offenses which is afforded by relatively informal non-jury trials.

Fairness and reason dictate that because of the maximum sentence of six months which tribal courts have jurisdiction to impose and because of the "petty" nature of many of the offenses tried in those courts this exception to the general right to a jury trial is even more appropriate in Indian court systems. Yet a literal reading of the Indian Bill of Rights would not allow for this exception.

Tribes may, for this reason, interpret section 1302(10) as not granting an absolute right to a jury trial for all tribal offenses, even though the defendant may request it and even though imprisonment may be a possible penalty. To do otherwise would ignore the frequently expressed intention of Congress and the courts alike to avoid any unnecessary interference with the cultural and governmental autonomy of Indian tribes. For it is difficult to imagine a more striking example of interference than that of requiring jury trials, a concept essentially alien to Indian systems of justice, for all criminal offenses tried in tribal courts.

By the use of "may" instead of "shall" subsection (a) of this provision reflects this analysis that the tribe has some discretion in granting jury trials. Whether a tribe adopts this provision though or something similar it should consider the advisability of adding more specifics as to exactly when a jury trial is a right and when it may be denied, if at all. Two possible criteria which have been used in federal courts, for example, are (1) the nature of the offense, or (2) the maximum length of sentence. By the first standard a jury trial was a right for those offenses which were historically considered "serious" in nature. And in actuality the second standard was thought of as only a modification of the first in that the maximum authorized sentence was viewed as an indication of the seriousness of the offense. A third possible criterion is that used in the Code of Federal Regulations (25 CFR 11.7C(a)) providing that whether there is a "substantial question of fact" in the case determines if a jury trial may be demanded or not. Of the three alternatives the Code of Federal Regulations provision is the least consistent with section 1302(10) of the Indian Bill of Rights. While it is not necessarily invalid, it would appear that a court would have considerable difficulty in denying that a substantial question of fact was presented in the face of a not guilty plea.

The other elements of this model provision deal with areas in which there is clearly considerable room for discretion and individual tailoring by the tribes. Accordingly subsections (b) through (f) should be viewed as general expressions of rights in criminal procedure and examples of what can be done but not necessarily what is required.

There is a great deal of discretion permitted in the setting of qualifications for jurors and in devising a selection method but the provisions which may be adopted are not free of legal restraints for they must be reasonable and may not discriminate against any particular group or segment of the community contrary to the equal protection of the laws mandate. In this regard it should be noted that although federal courts have long interpreted the equal protection clause of the Constitution as prohibiting discrimination in selection of jurors on the basis of race, color, natural origin or class, it does not follow that the same clause in the Indian Bill of Rights proscribes selection of tribal court juries from Indians only. This is because Indian communities are separate political entities. Just as a state may establish citizenship and residency requirements in the selection of jurors, so may an Indian community require tribal membership.

Subsection (b) sets forth two juror qualifications used consistently throughout tribal codes: age and no felony record. The majority of tribal codes examined specify twenty-one as the minimum age for jurors. There is no reason, however, why any other reasonable age could not be used by tribes. Other proper and frequently prescribed qualifications are those requiring mental and physical alertness, language facility, and residency in a specified geographic area.

Both due process of law and the right to a jury trial would inherently require that jurors be impartial and able to reach a judgment on the evidence presented in court. The right afforded to both the prosecution and the defendant to challenge jurors serves as a means to protect these interests. If a juror does not meet the qualifications established by the tribe or if it can be shown that because of some relationship to a party, prior knowledge of the case, or other factor he cannot render a fair and impartial judgment, then he should be excused from serving on the jury. The judge, however, makes the ultimate decision when a juror is challenged for cause.

There is nothing particularly mandatory about the number of peremptory challenges which may be permitted each side. Subsection (c) specifies three solely because that is the number most often used in tribal codes, but a tribe may increase or decrease this number as it sees fit.

Some tribal codes grant to the judge the power to subpoena jurors and the power to excuse them from serving at all when the personal hardship would be too great. In view of the difficulty on some reservations with insuring that jurors report for service when they are called, the subpoena power might be essential for efficient operation of a jury system. This again, however, is a matter which should be decided locally and which could be drafted in a simple form.

SEC. 125. *Sentencing.* (a) Any person who has been convicted in the tribal court of a criminal offense may be sentenced to one or a combination of the following penalties:

(1) Imprisonment for a period not to exceed the maximum permitted by the code provision defining the offense, which in no case shall be greater than six months.

(2) A money fine in an amount not to exceed the maximum permitted by the code provision defining the offense, which in no case shall be greater than five-hundred dollars ($500.00).

(3) Labor for the benefit of the tribe.

(4) Rehabilitative measures.

(b) In addition to or in lieu of the penalties provided in subsection (a) above, the court may require a convicted offender who has inflicted injury upon the person or property of another to make restitution or compensate the injured person by means of the surrender of property, payment of money damages, or the performance of any other act for the benefit of the injured party.

(c) If, solely because of indigency, a convicted offender is unable to pay forthwith a money fine assessed under this section or costs assessed under section 122(b) of this code, the court shall allow him a reasonable period of time to pay the entire sum or allow him to make reasonable installment payments to the clerk of the court at specified intervals until the entire sum is paid. If the offender defaults on such payments the court may find him in contempt of court and imprison him accordingly.

SEC. 126. *Probation.* (a) Where a sentence of imprisonment has been imposed on a convicted offender the tribal court may, in its discretion, suspend the serving of such sentence and release the person on probation under any reasonable conditions deemed appropriate by the court, provided that the period of prabation shall not exceed the maximum term of sentence set for such offense in the tribal code of law and order.

(b) Any person who violates the terms of his probation may be required by the court to serve the sentence originally imposed or such part of it as the court may determine to be suitable giving consideration to all the circumstances, provided that such revocation of probation shall not be ordered without a hearing before the court at which the offender shall have the opportunity to explain his actions.

SEC. 127. *Parole.* (a) Any person sentenced by the court to detention or labor shall be eligible for parole at such time and under such reasonable conditions as set by the court.

(b) Any person who violates the conditions of his parole may be required by the court to serve the whole of the original sentence, provided that such revocation of parole shall not be ordered without a hearing before the court at which the offender shall have the opportunity to explain his actions.

COMMENTARY

The Indian Bill of Rights provides that no tribal government may "impose excessive fines, inflict cruel and unusual punishments, and in no event impose for conviction of any one offense any penalty or punishment greater than imprisonment for a term of six months or a fine of $500, or both." (25 U.S.C. 1302(7)). Generally as long as tribes comply with the six-months and/or $500 fine limitations they should have little difficulty in making their tribal codes consistent with this Indian Bill of Rights prohibition. In fact, in the currently existing tribal codes which were surveyed few potential problems with the sentencing provisions were found and they were used as a pattern to some degree for the above sections.

The allowance in section 125(a) (3) and (4) above for penalties in the form of performing labor which benefits the tribe or of certain rehabilitative measures, which are intended to benefit the offender as well, is a general expression of the sentencing alternatives which may be made available to a judge besides imprisonment or a fine. A tribe may wish to make the alternatives more specific by listing the various options which may be considered by a sentencing judge, such as work of a particular nature or identifying the rehabilitative step, if any, or it may wish to eliminate them entirely. Certainly the Indian Bill of Rights does not prohibit any of these approaches as long as the sentence imposed does not appear to be "cruel and unusual."

Subsection (b) of section 125 is similar to a provision included in the Code of Federal Regulations (25 CFR 11.33(c)) and is intended here as a statutory recognition of the sentencing approach which is perhaps the most firmly rooted in Indian tradition and sense of justice—that of compensating the victim for the injury he suffered at the hands of a criminal offender. Even though this concept is unfamiliar to American jurisprudence no compelling reason was discerned why, if so desired, it cannot legally be used by Indian courts, as long as the restitution ordered is reasonable and fair.

Subsection (c) of section 125 is intended to insure that a convicted person who is unable to pay a fine or costs solely because of his financial situation is not denied the equal protection of the laws because of his indigency. This does not mean that an indigent defendant may not be sentenced to imprisonment upon conviction. Nor does it mean that he may not be imprisoned for nonpayment of a fine. It does mean, however, that if he is fined but is unable to pay the fine immediately, then rather than being incarcerated for nonpayment he must first be given some alternative means to satisfy the debt. Under this code provision those alternative means are the allowance of time to raise the money or the permission to make installment payments until the total sum is satisfied. If the defendant still does not pay the fine, then he may be jailed; and such imprisonment may be required in addition to any sentence which may have been served for conviction of the original offense. It would seem, however, if the additional imprisonment ordered by the court exceeds the maximum term authorized by the statute defining the original offense, a denial of equal protection or due process of the law might result.

It should be noted additionally that the power of a court to impose a jail sentence for nonpayment of a fine appears to be in the nature of a contempt power which is premised on a willful act or omission. Thus even though there is no present requirement for any additional hearing when the defendant fails to meet his installments, it may be advisable for the court to make some additional inquiry as to the cause of nonpayment by the defendant before imposing a jail sentence.

This code provision does not include any specifics as to what factors a tribal judge must consider in fixing a sentence. The tribe may wish to leave this unspecified or it may wish to draft its own list of detailed requirements in this area. Whichever approach is chosen, however, we would suggest that, in exercising his sentencing discretion, factors such as the following would be logical and helpful to a judge:

(1) The previous conduct of the defendant, including his reputation in the community and any prior arrest record.

(2) The circumstances under which the offense was committed, including any indications of a malicious or willful state of mind.

(3) Any efforts made on the offender's own initiative to make amends to an injured party.

(4) The extent of the defendant's personal resources and whether the needs of his dependents may be affected by the type of sentence imposed.

Section 126 provides that a tribal judge has the discretion to place a convicted offender on probation instead of jailing him, but that such probation cannot exceed the maximum term of sentence set forth in the code. This period was selected solely because it is the one used in the majority of tribal codes surveyed and is the one used in the Code of Federal Regulations (25 CFR 11.34(a)). However, probation is different from incarceration so it does not appear that the limitation on the sentencing authority placed on the tribes (maximum of six months imprisonment) by the Indian Bill of Rights (25 U.S.C. 1302(7)) limits their authority in providing for terms of probation. Further, it is common practice under both federal and state law to permit judges to impose periods of probation exceeding the term of imprisonment provided for the offense. Thus tribes should feel free to adopt code provisions extending the authorized period of probation beyond the limitations contained in this provision.

In both section 126 (Probation) and section 127 (Parole) there is included a requirement for the holding of a hearing before probation or parole may be revoked and the offender incarcerated. Although this probably represents a departure from most present tribal codes it is included here because of the possibility that a denial of due process of law might result if probation or parole is revoked summarily without explaining to the offender why or giving him any opportunity to contest the action. The hearing contemplated must be conducted by the judge but it need not be particularly formal in nature, provided that adequate explanation is given to the offender as to what is at stake and he is allowed to present his position. Moreover as with all proceedings before the court, it is desirable that some record be prepared of the hearing so that a tribal judge may be able to justify his actions if the need should ever arise to do so.

Section 127 provides for a general right to parole but leaves entirely to the tribal judge the question of when that right becomes available to a defendant and under what conditions. In the Federal system responsibility for granting or denying parole rests with a non-judicial Board of Parole; and some tribes also use an executive body for this purpose, such as the law and order committee, or some combination of judges, tribal council members, and members of the community. Questions of parole are perhaps best decided by some body other than the court but most tribal codes surveyed specify "the court" and there is nothing in the Indian Bill of Rights which prevents this solution. To avoid at least the appearance of bias, however, it is recommended that if tribal judges consider questions of parole, the judge originally sentencing the defendant not be allowed to participate in the decision.

In the federal system a person usually becomes eligible for parole after serving one-third of his sentence although he may not necessarily be granted parole at that time. Under the Code of Federal Regulations one sentenced in a Court of Indian Offenses must serve one-half of his sentence before he is eligible for parole (25 CFR 11.35(a)). There is nothing in the Indian Bill of Rights, however, which requires that either of these standards be used. Thus a tribe may draft its own standard in this area or it may leave it up to the judge's discretion as does this section. Both approaches have their advantages, and tribes should assess those advantages in light of their individual court systems.

SEC. 128. *Appeals.* (a) An appeal may be granted to any person convicted of a

V 40 172 APR 14 75 XUM

violation of the tribal code of law and order who, within ____ days of his conviction, files a written notice of appeal with the court outlining substantial grounds for the granting of such an appeal.

(b) In all criminal convictions the determination as to the sufficiency of the grounds for an appeal shall be made by the appeals body and shall be final. The appeals body shall notify the appealing party in writing whether the appeal has been granted or denied.

COMMENTARY

An appellate process is not an express requirement of the Indian Bill of Rights (25 U.S.C. 1302) but it is provided for here for the following reasons: Nearly every tribe currently has provision in their code for an appeals process and in the hearings on the Indian Bill of Rights Congress expressed a keen interest in insuring that those processes function. Moreover, where there has occurred or allegedly occurred violations of the defendant's rights under the Indian Bill of Rights failure to provide a mechanism for an appeal within the tribal court system increases the probability of federal court intervention in the functioning of the tribal court. This is because a defendant who feels that he did not get a fair trial and who has no avenue of appeal available to him in the tribal structure is more likely to file a habeas corpus petition in federal court to challenge his conviction and detention. Such a result can serve only to weaken the tribal court system and ultimately to weaken the concept of tribal sovereignty. Therefore the above rather minimal provision has been drafted as an encouragement for tribal governments to assess and strenghen their appellate processes.

Section 128 above is not a definitive treatment of the subject of appeals; rather, it is intended as a skeletal provision showing who may appeal, when, and how. The tribe, of course, can establish any reasonable time limit it desires for the filing of a notice of appeal required in subsection (a). The limit, however, should be long enough after trial to allow a party time to consider his course of action and, if so desired, retain an attorney, but it should not be so long as to unnecessarily drag out the appeals process.

No mention is made in this provision of the composition of the appellate body, the exact form which an appeal must take, or the grounds upon which an appeal may be founded. Nor is any provision made for a filing fee. Again, these are questions which should be answered by each individual tribe in light of what is most easily and fairly adaptable to its situation, but the following comments might be helpful.

Each tribe must make essentially three principal decisions in order to establish an appellate process: (1) Who hears the appeal and what is the composition of the appellate body; (2) what form the appeal takes; and (3) what constitutes grounds for appeal. Among the tribal codes now containing appeal provisions a common solution to the first question is establishing a panel consisting of all the judges of the tribal court except the one who presided over the trial. Besides a panel of judges other bodies sometimes employed in tribal codes for hearing appeals are the tribal council, the tribal law and order committee, the tribal attorney, or an appellate court entirely separate in composition and function from the trial courts.

Tribal governments have used essentially one of two procedures for the form of an appeal—appellate hearing or new trial. The hearing often consists of reviewing in detail the original trial in order to determine if prejudicial errors occurred of such a nature that they deprived the trial of fairness and impartiality. The appellate body may make such a review on the basis of the trial record alone or it may also consider oral and/or written arguments presented by all parties. The new trial approach used by some tribes means that an entirely new trial is granted of all the factual and legal issues which were involved in the original trial. This "appellate trial" is conducted just as if the first trial never occurred and the appellate body finds its verdict solely on the basis of the evidence presented in the new trial.

An appeal may be either an absolute right or the appeals body may review all notices and decide whether to grant or deny the appeal. Some tribal codes do not identify any particular grounds for an appeal; it is granted automatically upon demand. Others state that there must have been "prejudicial error" before an appeal may be taken and still others specify certain grounds, such as perjury, evidence which was not available in the original trial, or particular errors of law or procedure. Section 128 above provides an absolute right to file a notice of appeal but the appellate body has the discretion as to whether to grant the appeal or not. This procedure is intended as a device to minimize the burden to an appellate body of having to hear large numbers of frivolous appeals based on unfounded claims. Although this is something which is apparently not much of a problem for tribes now it could be if a functioning and popularly recognized appellate system is set up on reservations. Section 128 also provides that the appealing party be notified in writing of whether his appeal has been granted or not. If it is granted and if the appeals process includes a hearing or new trial, the appealing party should be notified in writing of the date set. Even though the Indian Bill of Rights does not establish a right to appeal, it should be recognized that if an appellate process is provided it must afford due process and equal protection of the law.

No judgments are made on which of these schemes or others should be used by the tribes to set up or strengthen an appellate system. A design which is efficient and fair in one tribal setting may be totally unworkable in another. But whichever method is selected, the appellate process should be so designed that it can effectively function when called upon. Unless the appellate process provides for a new trial, some form of record-keeping must be instituted in order to provide material for the appellate body to review. Such a record might be provided by an actual recording or stenographic notes of the trial proceeding, or by a written statement of the proceedings agreed to by the trial judge and all parties. By providing a workable appellate system, tribes will not only preclude any potential non-compliance with the Indian Bill of Rights but they will also minimize the possibilities of intervention by a federal court and the attendant disruptions of the tribal court system which that could bring.

SEC. 129. *Qualifications and training of judges of courts of Indian offenses.* (a) No person shall be eligible to serve as a judge of the Court of Indian Offenses if: (1) He or she has ever been convicted of a felony; or (2) has been convicted of a misdemeanor within one year previous to assuming office.

(b) No judge of the Court of Indian Offenses shall be qualified to preside over any matter wherein he has any direct interest or wherein any relative by marriage or blood in the first or second degree is a party.

(c) Each judge of the Court of Indian Offenses shall, be appointed by a two-thirds vote of the tribal council, subject to the approval of the Commissioner of Indian Affairs.

(d) The tribal council shall set forth such other qualifications for judges of the Court of Indian Offenses as it deems appropriate, subject to the approval of the Commissioner.

(e) The tribal council shall also establish requirements for the training of judges of courts of Indian offenses as it deems appropriate, subject to the approval of the Commissioner.

COMMENTARY

There is nothing in the Indian Bill of Rights (25 U.S.C. 1302) which establishes qualifications for judges or, for that matter, even requires the establishment of such qualifications. However, the legislative history of the 1968 Civil Rights Act reveals that this subject was a matter of concern to Congress and this led to the requirement that the Model Code "establish proper qualifications for the office of judge of the court of Indian offenses." (25 U.S.C. 1311(3)). Thus section 129 above is mandatory for Code of Federal Regulations courts and—as is true for all other provisions for this code—voluntary for tribal courts.

Despite the fact that qualifications of judges were discussed in the hearings preceding the passage of the 1968 Civil Rights Act, the record is devoid of any suggestion on the qualifications which might be developed. Standards that are "proper" and attainable for one tribe may be not only improper but impossible of attainment for another. The diversity in tribal cultures, the variance in resources available to the individual tribes, and the differences in the role played by judges in the tribal communities are too great to set meaningful standards which apply to all Indian courts alike.

Notwithstanding these comments, in order to comply with the statutory mandate and to provide a starting point for those tribes wishing to evaluate their present codes, section 129 above was drafted. This provision is a modified version of the 1974 edition of the Code of Federal Regulations (25 CFR 11.3(d)), which contains three requirements: (1) That the judge be a member of a tribe under the jurisdiction of the court in which he will preside; (2) that he has never been convicted of a felony; and (3) that he has not been convicted of a misdemeanor within the last year. In addition, the Code of Federal Regulations contains a conflict of interest provision from which section 129(b) above is adapted. (25 CFR 11.3(e)). Subsection (c) is also adapted from the current Code of Federal Regulations provision (25 CFR 11.3(b)) except that the principal responsibility for the selection of judges rests with the tribal council, subject to approval of the Commissioner of Indian Affairs. This sequence in the exercise of authority conforms with that set forth in subsections (a), (b), (d) and (e) of section 129 above.

In section 129, the Code of Federal Regulations requirement that the judge be a member of the tribe was dropped. Several tribes follow the practice of employing professional attorneys to sit on contested cases in their courts. A requirement of tribal membership would prohibit this practice. Also, it is not uncommon for a judge of one court to ask a judge of a neighboring tribe to sit on a case which may have divisive consequences in the tribe or where his own impartiality might be questioned, such as in election disputes or issues involving family matters in a tightly knit community. If a judge were required by the code to be a member of the tribe, this practice would be legally questionable.

Review of tribal codes discloses that many tribes track the Code of Federal Regulations provisions on judicial qualifications; others contain more restrictions as to education, character, age, or training. Still others do not state any qualifications at all, leaving it to the tribal council or the election process to select qualified judges.

Certainly all of these considerations are reasonable for some tribes but tribal diversity makes it impractical to set forth such detailed requirements for all Indian courts. For example, lack of a high school diploma is not uncommon among the older members of the Indian community. Thus a requirement involving formal educational attainment might well bar a highly qualified candidate. One of the most highly respected judges in the National American Indian Court Judges Association could not meet such an educational requirement.

Subsection (e) of section 129 was drafted to comply with the statutory requirement that the Model Code contain a provision for "the establishment of educational classes for the training of judges of court of Indian offenses." (25 U.S.C. 1311(4)).

In 1969 the National American Indian Court Judges Association was incorporated and in 1970 that Association undertook the establishment of a training program for all Indian court judges who cared to participate. Much of this endeavor was financed by grants from the Law Enforcement Assistance Agency; the Bureau of Indian Affairs lent one of its law and order specialists to the project for one year; and in 1973 and 1974 various moneys were funneled to that association by the Bureau of Indian Affairs on the basis of contracts for the development of training projects in selected areas of law. Thus since 1970 both the Department of the Interior and the Department of Justice have encouraged and contributed to the financing of a judicial training program which was developed and operated by the Indian people themselves. The Association's program involves the skills of professional attorneys and law professors and encompasses frequent training programs in selected regions scattered throughout the western half of the United States.

In view of this program, it is recommended that tribes consider requiring in their codes that candidates for judicial office declare their willingness to attend available training programs if they are elected or appointed to office. However, even this requirement presents difficulties which the tribe should consider. Traveling to and from these training programs can be expensive. The pay of most Indian court judges is simply not adequate to cover these expenses and thus provision should be made in the tribal budget (whether from tribal or federal funds) to cover the costs of attending these training programs. Even then many judges may find it impossible to attend. With the exception of the larger tribes, most judges sit only part-time. Their principal means of income is thus derived from other employment, often from jobs such as cattle ranching where they frequently cannot get away for the three or four days necessary to reach the site of the training program and return home.

In considering such a code requirement the tribes should weigh the value to be derived by paying the costs for their judges to attend these training sessions. By communicating with other judges and observing trial procedures at such training sessions a judge acquires skill and gains self-confidence in his job. This skill and confidence is all the more necessary as the jurisdictional reach of Indian courts expands and the presence of professional attorneys in them increases.

APPENDIX OF OPTIONAL FORMS

The following forms have been prepared for use in criminal proceedings by those tribes which presently may not have any forms of their own. They are derived largely from the type used in federal district courts but they have been simplified and, in some cases, substantially altered to conform more closely with the format currently being followed by some tribes and which are particularly well drafted.

Substantively, the following forms are entirely consistent with the requirements of the Indian Bill of Rights but their use is in no way mandatory. As long as they contain essentially the same information now provided in them, tribes may alter them where desired in order to meet the needs of any particular reservation.

It should be noted that with the use of any forms written in the English language some accommodation should be made for the defendant who does not understand English. This is particularly important in the case of Form 7 (Acknowledgement of Rights) in which the defendant swears that he understands the contents of the form. It is suggested that if another person is used to translate in such a case then the translator himself should sign the form at the bottom and certify that he has read the document to the defendant in his native language and that the defendant understood its contents.

FORM NO. 1. COMPLAINT

TRIBAL COURT OF ---------- TRIBE

---------- Tribe v. ----------
(name of accused)

Criminal Complaint No. ------

The undersigned complainant swears that: On or about ----------, 19-- at ----------
(date) (location of ----------, within the jurisdiction of this incident)
Court, ---------- did
(name or description of accused)

(description of incident)
----
in violation of Section ____ of the Code of Law and Order of the --------- Tribe.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

CRANBERRIES GROWN IN THE STATES OF MASSACHUSETTS, RHODE ISLAND, CONNECTICUT, NEW JERSEY, WISCONSIN, MICHIGAN, MINNESOTA, OREGON, WASHINGTON, AND LONG ISLAND IN THE STATE OF NEW YORK

Order Directing That a Referendum Be Conducted; Determination of Representative Period for Voter Eligibility; and Designation of Referendum Agents To Conduct the Referendum

Pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 929, as amended (7 CFR Part 929), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), it is hereby directed that a referendum be conducted within the period May 1 through May 31, 1975, among the growers who, during the period September 1, 1974, through April 30, 1975 (which period is hereby determined to be a representative period for the purposes of such referendum), were engaged, in the States of Massachusetts, Rhode Island, Connecticut, New Jersey, Wisconsin, Michigan, Minnesota, Oregon, Washington, and Long Island in the State of New York, in the production of cranberries for market to ascertain whether such growers favor the continuance of said amended marketing order. George B. Dever, Jr. and Robert W. Forney, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated as referendum agents of the Secretary of Agriculture to conduct said referendum. The procedure applicable to the referendum shall be the "Procedure for the Conduct of Referenda in Connection with Marketing Orders for Fruits, Vegetables, and Nuts Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended (7 CFR 900.400 *et seq.*)."

Copies of the text of the aforesaid amended marketing order may be examined in the office of the referendum agents or of the Director, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250.

Ballots to be cast in the referendum may be obtained from the referendum agents and from their appointees.

Dated: April 9, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

Farmers Home Administration

[Notice of Designation No. A186]

ARKANSAS

Designation of Emergency Area

The Secretary of Agriculture has found that a general need for agricultural credit exists in Desha County, Arkansas, as a result of a natural disaster consisting of excessive rainfall, flooding, and below normal temperatures from August 26 to September 2, 1974, and excessive rainfall from October 15 to November 20, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 93–237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor David H. Pryor that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and December 29, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 8th day of April, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[Notice of Designation No. A187]

COLORADO

Designation of Emergency Area

The Secretary of Agriculture has found that a general need for agricultural credit exists in Las Animas County, Colorado, as a result of a natural disaster consisting of drought May 1 through September 30, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Public Law 93–237, and the provisions of 7 CFR 1832.3 (b) including the recommendation of former Governor John D. Vanderhoof that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and December 29, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 8th day of April 1975.

COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

Notice of Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III 1973), notice is hereby given that a meeting of the Computer Systems Technical Advisory Committee will be held on Tuesday, May 13, 1975 at 9:30 a.m. in Room 5230, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) (Supp. III, 1973) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer systems, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee meeting agenda has five parts:

GENERAL SESSION

(1) Opening remarks by the Chairman.

(2) Presentation of papers or comments by the public.

(3) Review of past year's effort, including report on the work programs dealing with safeguards, foreign availability, performance characteristics, technology transfer, and licensing procedures.

(4) Discussion of work program for the coming twelve months.

EXECUTIVE SESSION

(5) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available to the public. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on December 16, 1974, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Minutes of the open portion of the meeting will be available upon written request addressed to the Central Reference and Records Inspection Facility, Room 7043, U.S. Department of Commerce.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1620, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202/967-4196.

In accordance with paragraph (4) of the Order of the United States District Court for the District of Columbia in Aviation Consumer Action Project, et al., *v.* C. Langhorne Washburn, et al., September 10, 1974 as amended, September 23, 1974 (Civil Action No. 1838-73), the Complete Notice of Determination to close portions of the series of meetings of the Computer Systems Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER (40 FR 2243, appearing in the issue of January 10, 1975).

Dated: April 9, 1975.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.

National Oceanic and Atmospheric Administration

ENDANGERED SPECIES

Receipt of Permit Application for Scientific Purposes

Notice is hereby given that the following applicants have applied in due form for a permit to take endangered species for scientific purposes as authorized by the Endangered Species Act of 1973 (16 U.S.C. 1531–1543) and the NMFS Regulations Governing Endangered Fish or Wildlife Permits (50 CFR 222) as published in the November 27, 1974 FEDERAL REGISTER at page 41375.

Douglas Wartzok and G. Carleton Ray, Department of Pathobiology, The Johns Hopkins University, 615 North Wolfe Street, Baltimore, Maryland 21205, have applied to take, by tagging, fifty (50) bowhead whales (*Balaena mysticetus*) for the purpose of scientific research.

The whales will be tagged by the applicants, by means of implantable radio transmitters, and tracked from ships, airplanes and fixed ground stations. The proposed research will be conducted, over a three-year period, in the areas of the Bering, Chukchi, and Beaufort Seas.

The radio tags will be implantable projectiles which can be attached to the animals from distances of up to 50 meters. The transmitter and battery pack will be about 1.5 by 20 centimeters, and will be buried in the blubber of the whales with a flexible antenna projecting outwards about 45 centimeters. The projectile radio tags will be fired into the whales, by means of a gun, from aircraft or boats.

The proposed research is directed towards a determination of the distribution, abundance and movements of bowhead whales in the area under consideration, and the influence of sea ice on these factors.

The applicants have submitted a separate application for a permit, to conduct the proposed research, under the Marine Mammal Protection Act of 1972.

Documents submitted in connection with the above application are available for review at the following locations: Office of the Director, National Marine Fisheries Service, Washington, D.C., 20235, and the Offices of the Regional Director, Northeast Region, National Marine Fisheries Service, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930 and the Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99801.

Written data or views, or requests for a public hearing on this application should be submitted to the Director, National Marine Fisheries Service, Washington, D.C. 20235 on or before May 15, 1975. The holding of such a hearing is at the discretion of the Director.

All statements and opinions contained in this notice in support of this application are summaries of those of the Applicants and do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: April 9, 1975.

JACK W. GEHRINGER,
Acting Director,
National Marine Fisheries Service.

[DOO 25-2; Amdt. 1]

MARITIME ADMINISTRATION

Organization and Authority

This order, effective March 20, 1975, amends the material appearing at 38 FR 30757 of November 7, 1973.

Department Organization Order 25-2, dated October 23, 1973, is hereby amended as follows:

1. SECTION 10. *Assistant Administrator for Commercial Development.* Paragraph .05, the Office of Ports and Intermodal Systems, is renamed "Office of Port and Intermodal Development."

2. The organization chart of the Maritime Administration is amended by changing the Office of Ports and Intermodal Systems to "Office of Port and Intermodal Development," under the box headed Assistant Administrator for Commercial Development.

ROBERT J. BLACKWELL,
Assistant Secretary for Maritime Affairs.

Approved: GUY W. CHAMBERLIN, JR.,
Acting Assistant Secretary for Administration.

[DOO 30-3B; Amdt. 1]

PATENT AND TRADEMARK OFFICE

Authority and Organization

This order, effective January 2, 1975, amends the material appearing at 40 FR 3627 of January 23, 1975.

Department Organization Order 30-3B, dated December 31, 1974, is hereby amended as follows:

1. The name "Patent Office" and the title "Commissioner of Patents" appearing in this order are changed, respectively, to read "Patent and Trademark Office" and "Commissioner of Patents and Trademarks."

2. SECTION 3. *Office of the Commissioner,* Paragraph a. is changed to read as follows:

"a. The Deputy Commissioner shall assist the Commissioner in the direction of the Patent and Trademark Office and shall perform the duties of the Commissioner in the latter's absence."

3. The organization chart, attached to this amendment, reflects the changed name "Patent and Trademark Office" and title "Commissioner of Patents and Trademarks" and supersedes the organization chart dated December 31, 1974. A copy of the organization chart is attached to the original of this document on file in the Office of the Federal Register.

C. MARSHALL DANN,
Commissioner of Patents and Trademarks.

DAVID B. CHANG,
Acting Assistant Secretary for Science and Technology.

Approved: GUY W. CHAMBERLIN, Jr.,
Acting Assistant Secretary for Administration.

PATENT AND TRADEMARK OFFICE

Authority and Organization

This order, effective January 2, 1975, supersedes the material appearing at 38 FR 1068 of January 8, 1973; and 40 FR 3236 of January 20, 1975.

SECTION 1. *Purpose.* .01 This order delegates authority to the Commissioner of Patents and Trademarks and prescribes the functions of the Patent and Trademark Office.

.02 This revision of the order incorporates changes in nomenclature required by recent legislation.

SEC. 2. *Status and line of authority.* .01 The Patent and Trademark Office is hereby continued as a primary operating unit of the Department of Commerce. First established by the general revision of patent laws enacted by Congress July 4, 1836 (5 Stat. 117) as the Patent Office, an independent bureau under the direction of a Commissioner of Patents, it became a part of the Department of Commerce by Executive Order of April 1, 1925, in accordance with the authority contained in the Act of February 14, 1903 (32 Stat. 830). When the patent laws were codified as Title 35, United States Code, effective January 1, 1953, the Patent Office was continued as an office in the Department of Commerce. By Public Law 93-596, effective January 2, 1975, the name of the Patent Office was changed to "Patent and Trademark Office" and the Commissioner of Patents was designated as the "Commissioner of Patents and Trademarks."

.02 The Commissioner of Patents and Trademarks (hereinafter called the Commissioner), who is appointed by the President by and with the advice and consent of the Senate, shall be the head of the Patent and Trademark Office. He shall be principally assisted by a Deputy Commissioner, three Assistant Commissioners, whose titles and status are specified below, and a Solicitor. The Deputy Commissioner and the first two Assistant Commissioners are provided for by 35 U.S.C. 3, as amended by Public Law 93-601, January 2, 1975, and are appointed by the President by and with the advice and consent of the Senate.

a. The Deputy Commissioner.

b. The Assistant Commissioner for Patents (an Assistant Commissioner under 35 U.S.C. 3).

c. The Assistant Commissioner for Trademarks (an Assistant Commissioner under 35 U.S.C. 3).

d. The Assistant Commissioner for Administration.

.03 The Deputy Commissioner, or, in the event of a vacancy in that office, the Assistant Commissioner appointed under 35 U.S.C. 3 who is senior in date of appointment, shall act as Commissioner during a vacancy in that office. In the absence of the Commissioner, the Deputy Commissioner shall act as Commissioner. If the Deputy Commissioner is likewise absent or that office is vacant, one of the Assistant Commissioners appointed under 35 U.S.C. 3 or the Solicitor of the Patent and Trademark Office, or the Assistant Commissioner for Administration shall act as Commissioner in an order of precedence prescribed by the Commissioner.

.04 The Commissioner shall report and be responsible to the Assistant Secretary for Science and Technology.

SEC. 3. *Delegation of Authority.* .01 Pursuant to the authority vested in the Secretary of Commerce by 35 U.S.C. 3 and Reorganization Plan No. 5 of 1950, the functions of the Patent and Trademark Office and its officers specified in Title 35 of the U.S. Code, as amended, are hereby vested in the Secretary of Commerce and redelegated to the Commissioner of Patents and Trademarks.

.02 Pursuant to the authority vested in the Secretary of Commerce by law, the Commissioner of Patents and Trademarks is hereby delegated authority to perform the following functions vested in the Secretary of Commerce:

a. The functions in Title 15, Chapter 22 of the U.S. Code, which pertain to trademarks.

b. The functions in Executive Order 10096 (except section 5) and Executive Order 10930, in so far as these functions relate to determining the ownership of patents and rights to inventions made by Government employees.

c. The functions in 42 U.S.C. 2181 and 2182, which pertain to inventions relating to atomic weapons, and in 42 U.S.C. 2457, which pertain to property rights in inventions made in performance of work under contract for the National Aeronautics and Space Administration.

d. Such functions under other authorities of the Secretary of Commerce as are applicable to performing the functions assigned in this order.

.03 Exercise of the functions delegated in paragraphs .01 and .02 of this section shall be subject to such policies or directives as may be prescribed by the Secretary of Commerce or the Assistant Secretary for Science and Technology.

.04 The Commissioner of Patents and Trademarks may, except as precluded by law or regulation, redelegate his authority to employees of the Patent and Trademark Office subject to such conditions in the exercise of the delegated authority as he may prescribe.

V 40-72
APR 14 75

SEC. 4. *Functions.* The Patent and Trademark Office shall perform the following functions:

.01 Examine applications for patent to determine if they meet the requirements of law for the issuance of patents and, upon such determination, grant patents.

.02 Administer special laws and regulations as to secrecy of certain inventions, licenses for foreign filing, and those relating to atomic energy and space technology.

.03 Decide the ownership of patents and the rights to inventions made by Government employees, as provided by Executive Orders 10096 and 10930.

.04 Provide for the publication, storage, dissemination, and exchange of patents and related documentation.

.05 Maintain systems and facilities providing appropriate access to U.S. and foreign patents and other technical literature for use of the examiners and the public.

.06 Examine applications for the registration of trademarks to determine their entitlement to registration under the law; give public notice of trademarks allowed for registration and publish registered trademarks; maintain the Principal and Supplemental registers of trademark registrations, and provide for public access to such registers and related trademark records.

.07 Issue patents and certificates of trademark registration.

.08 Reissue defective patents and issue certificates of correction of patents and trademark registrations.

.09 Maintain records as to proprietary interests in patents and trademark registrations and applications therefor.

.10 Carry on or authorize studies and programs, separately or in coordination with other United States, foreign, and international agencies, regarding domestic and international patent and trademark law.

.11 Perform other functions required, or which the Commissioner deems necessary and proper, in exercising the authority delegated herein.

GUY W. CHAMBERLIN, Jr.,
Acting Assistant Secretary for Administration.

IMMUNIZATION PRACTICES ADVISORY COMMITTEE

Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Center for Disease Control announces the following Committee meeting:

Name: Immunization Practices Advisory Committee.

Dates: May 14-15, 1975.

Place: Room 307, Building 1, Center for Disease Control, 1600 Clifton Road, NE., Atlanta, Georgia 30333.

Time: 8:30 a.m.

Type of Meeting: Open.

Contact Person: H. Bruce Dull, M.D., Executive Secretary of Committee, Building 1, Room 2116, Center for Disease Control, 1600 Clifton Road, NE., Atlanta, Georgia 30333.

Purpose: The Committee is charged with advising on the appropriate uses of immunizing agents for public health practice.

Agenda: The Committee will consider the current status of influenza vaccine in the prevention and control of epidemic influenza in the United States. It will also continue its regular review of recommendations on the use of vaccines in public health practice.

Agenda items are subject to change as priorities dictate.

The meeting is open to the public for observation and participation. A roster of members and other relevant information regarding the meeting may be obtained from the contact person listed above.

Dated: April 4, 1975.

WILLIAM C. WATSON, Jr.,
Assistant Director for Operations, Center for Disease Control.

PLASTIC BOTTLES FOR CARBONATED BEVERAGES AND BEER

Availability of Draft Environmental Impact Statement

The Commissioner of Food and Drugs issued a notice that was published in the FEDERAL REGISTER of September 7, 1973 (38 FR 24291) in which he concluded that an environmental impact statement is necessary for FDA actions on food additive petitions for substances intended for use in the fabrication of plastic bottles for carbonated beverages and beer.

Notice is hereby given that a document entitled, "Draft Environmental Impact Statement—Plastic Bottles for Carbonated Beverages and Beer" has been prepared and issued by the Food and Drug Administration. Copies of the statement are available from the Office of the Assistant Commissioner for Public Affairs, Rm. 15B-32, or the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852.

All interested persons are requested to submit comments in quintuplicate on this draft statement to the Hearing Clerk at the above address on or before June 13, 1975. All comments received shall be available for public inspection during working hours, Monday through Friday at the office of the Hearing Clerk.

This notice is issued pursuant to provisions of the National Environmental Policy Act of 1969, Pub. L. 91-190 (sec. 102(2)(C), 83 Stat. 853; 42 U.S.C. 4332), the Council on Environmental Quality guidelines published in the FEDERAL REGISTER of August 1, 1973 (38 FR 20550), Executive Order 11514 of March 5, 1970 (35 FR 4247), the Food and Drug Administration's environmental regulations (21 CFR Part 6), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: April 2, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

Health Services Administration

MATERNAL AND CHILD HEALTH RESEARCH GRANTS REVIEW COMMITTEE

Meeting

Pursuant to the Federal Advisory Committee Act (5 U.S.C. Appendix I), the Administrator, Health Services Administration, announces the meeting dates and other required information for the following National Advisory body scheduled to assemble during the month of May 1975:

MATERNAL AND CHILD HEALTH RESEARCH GRANTS REVIEW COMMITTEE

May 13-16, 1975, 9:00 a.m., Conference Room L, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland. Open on May 13, 9:00 a.m. to 10:00 a.m. Closed remainder of meeting.

Purpose. The committee is charged with the review of all research grant applications in the program areas of maternal and child health administered by the Bureau of Community Health Services.

Agenda. During the open portion of the meeting, the committee will receive Opening Remarks. During the closed session, the committee will be reviewing research grant applications relating to the program areas of maternal and child health. Therefore, that portion of the meeting will not be open to the public, in accordance with the provisions set forth in section 552(b)(4), (5), and (6), Title 5, U.S. Code and the Determination by the Administrator, Health Services Administration, pursuant to Public Law 92-463, section 10(d).

Anyone wishing to attend, obtain a roster of members or other relevant information should contact Mrs. Gloria Wackernah, Parklawn Building, Room 12A-08, 5600 Fishers Lane, Rockville, Maryland 20852, Telephone (301) 443-2190.

Agenda items are subject to change as priorities dictate.

The portion of the meeting so indicated is open to the public for observation and participation.

Dated: April 8, 1975.

ANDREW J. CARDINAL,
Associate Administrator for Management, Health Services Administration.

PRESIDENT'S BIOMEDICAL RESEARCH PANEL

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the President's Biomedical Research Panel on April 28 and 29, 1975, in the Cayo Biscayno Room, Royal Biscayne Hotel, 550 Ocean Drive, Key Biscayne, Florida.

The meeting will be open to the public from 10 a.m. to 5 p.m. on April 28 and from 9 a.m. to 5 p.m. on April 29. The meeting will be closed from 9 a.m. until 10 a.m. on April 28, following which the Panel will deal with issues pertaining to the assignment and implementation of studies previously identified by the Panel as being germane to its Congressional mandate. The afternoon of April 28 will be given over to testimony from invited witnesses bearing on broad aspects of the interplay between federal and extra-federal institutions in the genesis, funding, and execution of biomedical and behavioral research.

The morning of April 29 will be concerned with delineation and discussion of prospective tasks identified as falling within the Panel's mandate, as well as related administrative issues. The afternoon of April 29 will be devoted to additional testimony from invited witnesses representing medical schools of this country, directed primarily toward the goal of informing the Panel as to their perceptions of the current impact of federal research support on their institutions. Attendance by the public will be limited to space available.

In accordance with the provision set forth in Section 10(d) of Pub. L. 92-463 (5 U.S.C. Appendix 1) the meeting will be closed to the public from 9 a.m. to 10 a.m. on April 28 for the review, discussion, and evaluation of the qualifications and performance of personnel of the National Institutes of Health and the Alcohol, Drug Abuse, and Mental Health Administration and the internal expression of views by Panel members with regard to such qualifications and performance.

All requests for information, including the roster of the Panel members should be directed to Ms. Anne Ballard (301-496-7526), Room 125, Westwood Building, 9000 Rockville Pike, Bethesda, Maryland 20014.

Substantive program information will be provided by Dr. Charles U. Lowe, Executive Director of the Panel (301-496-5035), Building 31B, Room 4B-59, 9000 Rockville Pike, Bethesda, Maryland 20014.

Dated: April 3, 1975.

CHARLES U. LOWE,
Executive Director.

MISSISSIPPI

Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on April 4, 1975, the President declared an emergency as follows:

I have determined that the impact of heavy rains and flooding on the State of Mississippi, beginning about March 24, 1975, is of sufficient severity and magnitude to warrant a declaration of an emergency under Public Law 93-288. I therefore declare that such an emergency exists in the State of Mississippi. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285, I hereby appoint Mr. Thomas P. Credle, HUD Region IV, to act as the Federal Coordinating Officer for this declared emergency.

I do hereby determine the following areas in the State of Mississippi to have been adversely affected by this declared emergency:

The Counties of:

Issaquena	Warren
Yazoo	Sharkey

Federal Insurance Administration

[Docket No. N-75-283]

NATIONAL FLOOD INSURANCE PROGRAM

Limits of Available Insurance Coverage

The following guidelines present the current views of the Federal Insurance Administration with respect to the mandatory purchase of flood insurance under section 102 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234, December 31, 1973, hereinafter referred to as the "Act"), and are in addition to, and do not supersede, the Guidelines published on July 17, 1974, in the FEDERAL REGISTER at 39 FR 26186-93. Where the provisions of the earlier Guidelines may conflict with this notice, the provisions of this notice apply.

The National Flood Insurance Program is authorized by 42 U.S.C. 4001-4128. The purpose of these guidelines is to provide additional guidance to the many Federal agencies and private lending institutions responsible for compliance with the Act's flood insurance purchase requirements, which became effective on March 2, 1974.

The Act requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally supervised, approved, regulated, or insured financial assistance for acquisition or construction purposes in an identified Special Flood Hazard Area that is located within any community currently participating in the National Flood Insurance Program. The participation of the community is mandatory in order for individuals or the community to receive such assistance for acquisition or construction purposes in the identified Special Flood Hazard Area on and after July 1, 1975, unless the Special Flood Hazard Area was identified after June 30, 1974. Then the requirement is imposed one year after that later date.

Under both paragraphs (a) and (b) of section 102 of the Act, the maximum coverage made available with respect to the particular type of property under the National Flood Insurance Program provides a limitation on the amount of insurance required under that section. Further, no insurance purchase requirement exists for certain kinds of properties.

The following are examples of structures and contents for which coverage is not available for the purposes of the Act:

1. Retaining walls, seawalls, bulk heads, wharves, piers, docks, except as these structures are an integral part of an insurable structure.

2. Fences, outdoor swimming pools, bridges, other structures located on or partially over water.

3. Personal property in the open, including building materials not within an enclosed structure located on the described premises or adjacent thereto, intended for use in the construction, alteration, or repair of such structure.

4. Real property, including lawns, trees, shrubs or plants, growing crops, or livestock, underground structures or underground equipment, and those portions of walks, driveways, and other paved surfaces outside the foundation walls of the structure.

5. Accounts, bills, currency, deeds, evidences of debt, money, securities, bullion, manuscripts or other valuable papers, or records, numismatic or philatelic property.

6. Animals, birds, fish, aircraft, motor vehicles (other than motorized equipment pertaining to the service of the premises and not licensed for highway use), trailers on wheels, watercraft including their furnishings and equipment.

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968); effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended; (42 U.S.C. 4001-4128) and Secretary's delegation of authority to the Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969, as amended 39 FR 2787, Jan. 24, 1974.)

Issued: April 8, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

AVIATION REVIEW CONFERENCE

Notice of Meeting

The purpose of this notice is to announce the seventh annual Aviation Review Conference. (The establishment of annual consultative planning procedures was originally documented and publicized in 33 FR 19205, dated December 24, 1968, and 35 FR 17798, dated November 19, 1970.)

The Department of Transportation announces that the seventh annual Aviation Review Conference will be held May 19, 20, and 21, 1975, at the Sheraton National Motor Hotel, Arlington, Virginia. On the first day, government spokesmen will discuss current activities and forecast future developments. On the second day, user panels will assess current aviation plans and the National Airspace System with the aviation community. The third day will focus on discussions of environmental issues.

It is also planned to have prominent luncheon speakers on Monday, May 19, and Tuesday, May 20. Details will be announced at a later date; however, a cost of seven dollars has been established for each luncheon.

The following proposed topics have been developed in meetings with representatives of government, industry, and user groups:

Topics:

(1) FAA Plans and Policy
(2) Aviation Forecasting
(3) Aviation Economics
(4) National Airspace System
(5) Energy
(6) Key Issues

The Department of Transportation invites comments on agenda topics.

These comments should be submitted not later than May 1, 1975, to:

Associate Administrator for Policy Development and Review, Attn: ASP-10
Federal Aviation Administration
800 Independence Avenue, SW
Washington, D.C. 20591

The National Aviation System Ten Year Plan will be available for purchase at the conference.

To receive a registration card for the seventh annual Aviation Review Conference and a reservation form for the luncheons, please write to the following address giving: (1) name, (2) address, (3) company or affiliation:

Office of Aviation System Plans, Attn: ASP-10
Federal Aviation Administration
800 Independence Avenue, SW
Washington, D.C. 20591

[Order 75-4-46; Docket 26494; Agreement C.A.B. 25028, R-1 through R-3]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Passenger Fares

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers embodied in the resolutions of Traffic Conference 2 of the International Air Transport Association (IATA). The agreement, adopted by mail vote, has been assigned the above C.A.B. agreement number.

The agreement would amend certain fares within Africa to reflect introduction of Zambia/Mozambique service. The fares are combinable with fares to/from U.S. points and thus have indirect application in air transportation as defined by the Act.

Pursuant to authority duly delegated by the Board in the Board's regulations 14 CFR 385.14:

It is not found that the following resolutions, incorporated in Agreement C.A.B. 25028 as indicated, and which have indirect application in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act:

Agreement CAB	*IATA resolution*
25028:	
R-1	200(Mail 237)052 within Africa).
R-2	200(Mail 237)062 (within Africa).
R-3	200(Mail 237)072b (within Africa).

Accordingly, *It is ordered*, That:

Agreement C.A.B. 25028, R-1 through R-3, be and hereby is approved.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

CONSUMER PRODUCT SAFETY COMMISSION

CHEMICAL FORMULATIONS FOR SPECIFIED CONSUMER PRODUCTS

General Order for Submission

The Consumer Product Safety Commission hereby orders manufacturers of certain categories of consumer products (listed below) to complete and return the product ingredient questionnaire (CPSC Form No. 183 with instructions [1]) no later than May 15, 1975 to Auerbach Associates, Inc., Philadelphia, Pennsylvania. Auerbach Associations, Inc., a private contractor, has been authorized by the Commission to collect the chemical formulation information called for in the questionnaire for Commission use in readily evaluating any real or potential hazards associated with the subject products or their composite ingredients.

Auerbach Associates, Inc., is legally required to hold any trade secret or proprietary information confidential. If a manufacturer believes that any information furnished in response to the questionnaire is trade secret or proprietary information, it should follow the instructions accompanying the questionnaire for claiming confidential treatment. Information claimed as trade secret or proprietary will be received and handled in a confidential manner. It will not be placed in a public file and will not initially be made available to the public on request. If the Commission receives a request for disclosure of the information, the determination whether to release or not to release it would be based on the most recent judicial interpretation of the Freedom of Information Act at the time the request is received.

Those manufacturers who have already fully responded to the questionnaires sent to them by Auerbach Associates, Inc. are not subject to this general order.

The categories of consumer products covered by this general order are:

Cleaning Agents and Compounds (Soap, Cleanser, Laundry Detergent)
Dishwasher Detergent
Fuel for Chafing Dishes, Fondue Pots, and Similar Items
Paints, Varnish, Shellac, Rust Preventative, etc.
Flame Retardant Chemicals
Aerosols—Household
Water Softeners and conditioners
Chemical Deodorizers
Photographic Chemicals
Solvent Based Cleaning and Sanitizing Products (Cleaning Fluid, Spot Removers, etc.)
Rust Removers
Chemistry Sets
Fireworks
Swimming Pool Chemicals
Caustics, Lye, Drain Cleaners

Those manufacturers who are in doubt whether their products fall under the jurisdiction of the Commission are required to complete and submit the questionnaires (CPSC Form No. 183). The submission of data in doubtful cases does not waive a manufacturer's right to maintain that its products do not fall within the jurisdiction of the Commission. Assertions that products are not under the jurisdiction of the Commission or that jurisdiction is doubtful should accompany the submission.

Manufacturers are not required to complete the questionnaire as to products otherwise subject to this order which have been neither manufactured nor sold within the year prior to the date of this order.

The product ingredient questionnaire (CPSC Form No. 183) with instructions is required to be completed by the manufacturers subject to this order.

Those manufacturers who have not received the questionnaire or who have any questions about the subject of this general order, should contact: Ms. Lynn Neufeld, Auerbach Associates, Inc., 121 North Broad Street, Philadelphia, Pennsylvania 19107 (Area Code (215) 491-8333) or Mr. Irvin Weiss, Bureau of Biomedical Science, Consumer Product Safety Commission, Washington, D.C. 20207 (Area Code (301) 496-7766).

The general order is promulgated pursuant to section 27(b)(1) of the Consumer Product Safety Act. (15 U.S.C. 2076(b)(1)).

Dated: April 9, 1975.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 358-1]

COLORADO

Notice of Approval of Program for Control of Discharges of Pollutants to Navigable Waters

Notice is given hereby that the U.S. Environmental Protection Agency has granted the State of Colorado's request for approval of its program for controlling discharges of pollutants to navigable waters in accordance with the National Pollutant Discharge Elimination System (NPDES), pursuant to section 402(b) of the Federal Water Pollution Control Act, as amended (Pub. L. 92-500, 86 Stat. 816, 33 U.S.C. 1251; the Act).

Section 402 of the Act establishes a permitting system, known as the National Pollutant Discharge Elimination System, under which the Administrator of the U.S. Environmental Protection Agency (EPA) may issue permits for the discharge of any pollutant, upon condition that the discharge meets the applicable requirements of the Act. Section 402(b) provides that any State desiring to administer its own permit program for discharges into navigable waters within its jurisdiction may submit such program to the Administrator. If the Administrator determines that the State has adequate authority to carry out the requirements of the Act, he shall approve the submitted program and suspend the issuance of permits as to those navigable waters subject to such program. Guidelines specifying procedural and other elements for State NPDES programs appear at 40 CFR Part 124 (as amended by 38 FR 18000, July 5, 1973, and 38 FR 19894, July 24, 1973).

On December 27, 1974, Colorado submitted a program for carrying out the NPDES. On January 30, 1975, EPA conducted a public hearing on the proposed approval in Denver, Colorado. After a thorough review of the Colorado program, the accompanying legal certification, and all comments submitted by the public during and following the public hearing, the Administrator determined that the State's authority was adequate to carry out the requirements of the Act, and so informed Governor Richard D. Lamm in a letter dated March 27, 1975.

As of March 28, 1975, the Colorado NPDES permit program is being administered by the Colorado Department of Health, 4210 East 11th Avenue, Denver, Colorado 80220 (telephone (303) 388-6111). Dr. Edward Dreyfus is the Executive Director of the Colorado Department of Health. The Colorado program is being administered in accordance with Colorado statutes and regulations and a Memorandum of Agreement between Colorado and the EPA Region VIII Office, 1860 Lincoln Street, Denver, Colorado 80203 (telephone (303) 837-3895). All pertinent documents are available for inspection at the Colorado State

V 40 72 APR 14 75 XUM

agency and EPA Regional Office at the addresses given above and EPA Headquarters in Room 3201, Waterside Mall, 401 M Street, SW., Washington, D.C. 20460.

RICHARD H. JOHNSON,
Acting Assistant Administrator for Enforcement.

NATIONAL DRINKING WATER ADVISORY COUNCIL

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that a meeting of the National Drinking Water Advisory Council established under Pub. L. 93-523, the "Safe Drinking Water Act," will be held at 8:30 a.m. on April 30 and May 1, 1975 in Conference Room 1101, West Tower, Environmental Protection Agency, Waterside Mall, 401 M Street, SW., Washington, D.C. 20460.

The purpose of the meeting will be to discuss Drinking Water Strategy, draft State Program and Underground water regulations and other information items.

The meeting will be open to the public. Any member of the public wishing to attend or submit a written statement should contact the Acting Executive Secretary, William N. Long, Water Supply Division (WH-550), Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460, by April 24, 1975.

The telephone number is Area Code: 202/426-8847.

Dated: April 9, 1975.

JAMES L. AGEE,
Assistant Administrator for Water and Hazardous Materials.

[FR Doc.75-9685 Filed 4-10-75;8:45 am]

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

SOLAR HEATING AND COOLING PROGRAM

Interim Report to Congress

APRIL 10, 1975.

The Energy Research and Development Administration and the Department of Housing and Urban Development submitted to Congress on April 7, 1975, an interim report describing a plan for conducting nationwide solar heating and cooling demonstrations. The National Solar Heating and Cooling of Buildings Program is one element of the National Solar Energy Research, Development, and Demonstration Program. Authorizing legislation for these programs includes: The Solar Heating and Cooling Demonstration Act of 1974 (Pub. L. 93-409); The Energy Reorganization Act of 1974 (Pub. L. 93-438); The Solar Energy Research, Development, and Demonstration Act of 1974 (Pub. L. 93-473); and The Federal Non-Nuclear Energy Research and Development Act of 1974 (Pub. L. 93-577).

The goal of the program is to stimulate a commercial capability to produce and distribute solar heating and cooling systems for use in residential and commercial buildings in an effort to reduce the demand on present fuel supplies. The plan calls for the demonstration of solar heating by late 1977 and the demonstration of combined solar heating and cooling by late 1979. A major objective is to provide consumers with prompt, reliable information on which they can evaluate whether the added benefits of solar heating and cooling are worth the extra cost when compared with conventional energy sources.

The demonstration program will be organized in a series of cycles to allow new ideas and new technologies to be fed into the demonstrations in later cycles. Solar energy systems and individual demonstration projects will be selected on the basis of competitive solicitations. Locations for these projects will be selected to provide a wide variety of climatic conditions in various types of communities around the nation. In general, project proposals will be solicited on a local basis from developers and builders who will have full responsibility to provide the land, construct the buildings, buy and install the solar systems, and market the product.

Under the plan, contracts would be awarded to provide available systems for immediate use in the demonstrations. Contracts would also be awarded to develop systems from currently available subsystems and to develop new systems that have a high potential for application of low-cost mass production techniques. Also, the development effort will include engineering studies and research and development on new subsystems, materials compatibility, heat transfer fluids and the development of advanced analytical tools and procedures.

The final number of units to be demonstrated will not be determined until the results of early work have been analyzed. However, three alternative levels have been examined to provide a preliminary range of estimates of units to be in place by 1979. The first level includes 350 residential units and 50 commercial units at a preliminary funding estimate of $109 million over the Fiscal Years 1975 to 1979 period. The second level includes 1,000 residential units and 200 commercial units at an estimate of $208 million and the third level calls for 2,000 residential units and 400 commercial units at an estimate of $306 million.

Under the plan, Federal funding would be used in a variety of ways to stimulate research, development and demonstrations in support of the program goal. The intent of the plan is that the Government would support the long-term high risk activities essential to introduction and use of this technology until such activities have reached the stage at which there is adequate incentive for private investment.

The plan was developed by an interagency task force led by the Energy Research and Development Administration (ERDA) and is designed to foster the policy and purpose of the Solar Heating and Cooling Demonstration Act of 1974.

ERDA has overall responsibility for management and coordination of the program. The Department of Housing and Urban Development (HUD) shares with ERDA responsibility for management and coordination of the residential demonstation program. ERDA will assume direct responsibility for managing the research and development on new and improved solar heating and cooling systems and subsystems and for managing and coordinating the commercial demonstration program. ERDA working with HUD will develop a data bank for the widespread dissemination of information on solar heating and cooling.

The Federal Energy Administration will support the demonstration by investigating possible constraints to the use of solar heating and cooling systems and making policy recommendations on incentives to remove these constraints. The National Aeronautics and Space Administration (NASA) will support ERDA and HUD responsibilities through testing, evaluation and integration of systems and subsystems as well as assistance in systems and subsystems development, as requested by ERDA. The Department of Defense will conduct a substantial number of residential and commercial demonstrations on military installations. Other Federal agencies will also play important supporting roles.

The interim report will be circulated widely to solar energy specialists and industry groups, and other interested parties for comment. Persons desiring to submit written comments on the Interim Report on the National Plan for Solar Heating and Cooling of Buildings, should submit them by May 1, 1975, to the Division of Solar Energy, Energy Research and Development Administration, Washington, D.C. 20545. Comments received by May 1, 1975, will be considered in the preparation of ERDA's June 30, 1975, report to Congress for a Solar Energy Research, Development and Demonstration Plan mandated by Pub. L. 93-473. Comments received after May 1, 1975, will be considered for incorporation in later iterations of this plan. Copies of the interim report may be obtained by writing to the ERDA Technical Information Center, P.O. Box 62, Oak Ridge, Tennessee 37830, and requesting Document ERDA 23.

JOHN M. TEEM,
Assistant Administrator for Solar, Geothermal, and Advanced Energy Systems.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 75-342; Docket Nos. 20327, 20328; File Nos. 5218-C2-P-72, 7416-C2-P-72]

AIRSIGNAL INTERNATIONAL OF PITTSBURGH, PENNSYLVANIA, INC. AND ALLEGHENY MOBILE TELEPHONE CO., INC.

Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

1. The Commission has before it for consideration (a) an application filed February 11, 1972, by Airsignal International of Pittsburgh, Pennsylvania (Airsignal-Pittsburgh) for a construction permit to establish a new one-way paging station in the Domestic Public Land Mobile Radio Service (DPLMRS) at Pittsburgh, Pennsylvania on the 158.70 MHz guard band channel; (b) an application filed April 17, 1972, by Allegheny Mobile Telephone Co., Inc. (Allegheny) for a construction permit to add the base station frequency 158.70 MHz to its existing paging services at Pittsburgh, Pennsylvania; (c) Airsignal-Pittsburgh's Petition to Dismiss or Deny Allegheny's application filed May 24, 1972; (d) Allegheny's Opposition to Airsignal-Pittsburgh's petition, filed June 16, 1972; and (e) Airsignal-Pittsburgh's Reply filed July 5, 1972.

2. Airsignal-Pittsburgh and Allegheny each request authorization to provide essentially similar communications services on the same base station guard band frequency 158.70 MHz, in the same geographical area. Accordingly, a comparative hearing is required to determine which of the two mutually exclusive applications should, if at all, be granted.

3. Airsignal-Pittsburgh is the licensee of Station KGA 805, a one-way paging station in the DPLMRS at Pittsburgh, Pennsylvania, providing tone-only and voice repetitive paging services on the frequencies in the 35 MHz band. The instant application requests a construction permit to establish a new one-way paging station to provide automatic, direct-dial access tone-plus voice paging services.

4. The application of Allegheny proposes to add the frequency 158.70 MHz to its existing one-way paging service on guard band frequency 152.24 MHz.

5. In its Petition to Deny, Airsignal-Pittsburgh states that the Commission, on March 19, 1971, granted, in part, an application of Allegheny authorizing construction of one-way signaling facilities on frequency 152.24 MHz and simultaneously denied its request to also operate on frequency 158.70 MHz in the Pittsburgh market.[1]

6. It contends that the refiling by Allegheny of the subject application for use of frequency 158.70 MHz should be denied or dismissed either because a grant thereof would contravene established Commission policy relative to the assignment of guard band frequencies, or be declared a strike application in light of the fact that it was filed just over one year from the date of the partial denial of its prior application and shortly after the filing of Airsignal-Pittsburgh's subject application. As regards the Commission's policy relative to the assignment of guard band frequencies, Airsignal-Pittsburgh relies upon Mobile Radio Communications, Inc., 29 FCC 2d 62, (1971) and In re Pattersonville Telephone Company, 34 FCC 2d 258, reconsideration denied, 35 FCC 2d 745 (1972), aff'd sub. nom. Capitol Telephone Co., Inc. v. F.C.C., 498 F. 2d 734 (D.C. Cir. 1974). In substance, Airsignal-Pittsburgh maintains that the foregoing Commission decisions bar the grant of the available guard band frequencies in the same market to a single applicant. In view of the fact that Allegheny presently operates on one of the two available guard band frequencies in the Pittsburgh area, Airsignal-Pittsburgh asserts that a grant to Allegheny of the remaining guard band frequency would defeat the Commission's policy of fostering competition in the provision of paging services.

7. Finally, Airsignal-Pittsburgh disputes Allegheny's contention, contained in its application, that on the basis of present growth rate projections, it will require an additional channel in the near future. It maintains that Allegheny's existing operation of 1,122 units can be greatly enlarged by simply changing its terminal system.

8. Allegheny in its opposition contends that the Commission's policy relative to the assignment of guard band frequencies does not prevent full comparative consideration of its application pursuant to section 309(e) of the Communications Act. As regards Mobile Radio Communications, Inc. and Pattersonville Telephone Company it stresses that these cases involved new applicants for initial grants of both available guard band frequencies under circumstances which allowed the issuance of partial grants to the competing applicants, not dismissals of bona fide applications. Accordingly, Allegheny insists that the Commission's policy of not awarding a single applicant the available guard band frequencies simultaneously in a given area does not preclude a licensee operating on one of two available guard band frequencies from subsequently seeking a grant of the remaining frequency upon an appropriate showing. Further, Allegheny states that its subject application bears little resemblance to the former filing for the 158.70 MHz frequency and cannot be construed simply as a re-filing intended to block Airsignal-Pittsburgh's efforts to effectively compete with Allegheny in the Pittsburgh market. Allegheny insists that its application is a bona fide measure to alleviate existing channel loading and to accommodate projected demand for additional spectrum space. In response to the claim of lack of need for an additional frequency, Allegheny contends that its election to obtain authorization to operate on frequency 158.70 MHz rather than to increase its existing capacity through additional terminals represents the more efficient course of providing its proposed service. Allegheny also contends that Airsignal-Pittsburgh lacks standing to prosecute its Petition to Deny on the ground that the allegations of fact contained in the Petition to Deny, except those of which official notice may be taken, are not supported by an affidavit of a person with personal knowledge thereof as required by section 309(d)(1) of the Communications Act. In this connection, we note that whatever deficiencies may appear in the affidavit affixed to Airsignal-Pittsburgh's petition are fully cured in the affidavit affixed to its reply pleading. Accordingly, Allegheny's contention in this regard is denied. Additionally, Airsignal-Pittsburgh's Reply provides no basis for persuading us that the application of Allegheny should be denied or dismissed without hearing. Accordingly, we shall forego any discussion of the points raised therein.

9. *Discussion.* Initially, we note that Airsignal-Pittsburgh has failed to raise a substantial and material issue of fact as to whether Allegheny's application is intended to frustrate or impede Airsignal-Pittsburgh's efforts to effectively compete in the Pittsburgh market in the provision of DPLMRS. The mere assumption that Allegheny's application is motivated by invidious designs, absent some factual showing, is insufficient to demonstrate *prima facie* that grant of Allegheny's application would contravene the public interest.

10. Airsignal next claims that Allegheny's application is not entitled to consideration because a grant thereof would defeat our policy of fostering competition in the provision of DPLMRS. Airsignal cites Mobile Radio Communications, Inc. and Patterson Telephone Company[2] in support of this argument. Briefly, in these decisions we provided that where one applicant seeks authorization to operate on all available guard band frequencies assigned to a given area, while another qualified applicant is seeking a single guard band frequency, the Commission will treat the multiple applications of the applicant seeking all available guard band frequencies as a single application and issue a partial grant thereof so as to provide the remaining frequencies to other qualified applicants.[3] Through the frequency assignments made in these decisions we attempted to promptly provide needed service by avoiding delays inherent in the comparative hearing and to foster

[1] File No. 2200-C2-P-69.

[2] 29 F.C.C. 2d 62 (1971) and 34 F.C.C. 2d 458, reconsideration denied, 35 F.C.C. 2d 745 (1972), affd. sub. nom. Capitol Telephone Co., Inc. v. F.C.C., 498 F. 2d 734 (D.C. Cir. 1974).

[3] However, the applicant for multiple frequencies can reject a partial grant and request a full comparative hearing. See Rules, Section 21.29 and *Mobile Radio Communications, Inc., supra.*, at page 63.

V 40 I 72 APR 14 75 XUM

diversity in the types of service offered by making grants to as many applicants as possible.

11. Under the Ashbacker doctrine[4] we have traditionally designated a comparative hearing where two or more mutually exclusive applications are directed toward authorization of the same facility. The applications before us present such a situation, notwithstanding that Allegheny presently operates on one of the two available guard band frequencies in the Pittsburgh area. The prior grant to Allegheny was made under circumstances where no other applications were before us and hence we were not faced with competing requests for the available frequencies. While it is true that we have already granted Allegheny one of the two available guard band frequencies, we do not presently view that grant as precluding Allegheny from filing a subsequent application for authorization to operate on the remaining guard band frequency.[5]

12. We, therefore, will adhere to our traditional approach and order a comparative hearing because we have before us two applications which are electrically mutually exclusive. Accordingly, we will require that Allegheny and Airsignal-Pittsburgh each demonstrate a public need for their proposed additional services. As we said in New York Telephone Company, 47 FCC 2d 488 (1974), this showing of public need should be made by one of the alternative methods set forth in Long Island Paging, 30 FCC 2d 405 (1971). Further, we will require that Allegheny and Airsignal-Pittsburgh each demonstrate why their existing facilities are inadequate to meet the public need for their services, and why it is infeasible or undesirable to modify these existing facilities to meet all public need for their services.

13. It appears that except for the matters placed in issue herein, both applicants are legally, financially and technically qualified to render the proposed services.

14. *Accordingly, it is ordered*, pursuant to the provisions of section 309(e) of the Communications Act of 1934, as amended, that the captioned applications are designated for hearing in a consolidated proceeding, at the Commission's offices in Washington, D.C. on a date to be specified upon the following issues:

a. To determine on a comparative basis the nature and extent of the services proposed by each applicant.

b. To determine the total area and population to be served by Airsignal International of Pittsburgh, Pennsylvania, Inc. within the 43 dbu contour of its proposed station based upon the standards set forth in section 21.504 of the F.C.C. rules and regulations, and to determine the need for its proposed service in that area.

c. To determine the total area and population to be served by Allegheny Mobile Telephone Co., Inc. within the 43 dbu contour of its proposed station based upon the standards set forth in section 21.504 of the F.C.C. rules and regulations, and to determine the need for its proposed service in that area.

d. To determine the present and prospective channel loading by Airsignal International of Pittsburgh, Pennsylvania, Inc. of its presently assigned one-way paging frequency.

e. To determine the present and prospective channel loading by Allegheny Mobile Telephone Co., Inc. of its presently assigned one-way paging frequency.

f. To determine, in light of the evidence adduced pursuant to the foregoing issues, what disposition of the above-captioned applications would best serve the public interest, convenience and necessity.

15. *It is further ordered*, That the burden of proof on issues (a) and (f) is placed on the respective applicants herein, on issues (b) and (d) is placed on Airsignal International of Pittsburgh, Pennsylvania, Inc., and on issue (c) and (e) is placed on Allegheny Mobile Telephone Co., Inc.

16. *It is further ordered*, That the parties desiring to participate herein shall file Notices of Appearance in accordance with the provisions of Section 1.221 of the Commission's rules.

17. *It is further ordered*, That the Chief, Common Carrier Bureau is made a party to the proceeding.

18. *It is further ordered*, That the petition of Airsignal-Pittsburgh to deny the application of Allegheny *is denied*.

Adopted: March 25, 1975.

Released: April 10, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[Report No. 748]

COMMON CARRIER SERVICES INFORMATION[1]

Domestic Public Radio Services Applications Accepted for Filing[2]

APRIL 7, 1975.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's Rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to Section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to §§ 21.27 of the Commission's Rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

21659-C2-P-74, DPRS, Inc. t/a Zipcall (KCB890), C.P. to add standby facilities to operate on 43.58 MHz at Loc. #9: Wood Hill, Andover, Massachusetts.

21301-CD-P-75, Peninsula Telephone & Telegraph Company (KOK283), C.P. to change frequencies from 152.72 MHz to 152.81 MHz at Loc. #1: Mt. Ellis, Lookout, Washington; and Loc. #2: 28 miles from Forks, Washington in SE. direction, Mt. Octopus, Washington.

21373-CD-R-75, Bell Telephone Company of Nevada (KD9271) (Developmental), Renewal of Developmental station expiring April 27, 1975. Term: 4/27/75-4/27/76.

21374-CD-P-(2)-75, Southern Bell Telephone & Telegraph Company (KIY518), C.P. to replace transmitter operating on 152.63 MHz located 3.3 miles NNW. of Bishop, North Carolina and replace transmitter operating on 157.89, test, located at 102 North Fourth Street, Wilmington, North Carolina.

21375-CD-P-75, Rogers Radio Communications Service, Inc. (KYB204), C.P. to add antenna Loc. #7 to operate on 152.24 MHz to be located on Burnett Rd., 0.6 mile W. of junction of Darrell Rd. & Burnett Rd., near Island Lake, Illinois.

21376-CD-P-75, W. L. and R. L. Meadow d.b.a. Jacksonville Radio Dispatch Service (KLF632), C.P. to add antenna Loc. #5 to operate on 152.24 MHz to be located at 1 Independent Plaza, Jacksonville, Florida.

21377-CD-P-75, Airsignal of Colorado, Inc. (KAA276), C.P. for additional facilities to operate on 152.06 MHz at Loc. #2: 1616 Glenarm Place Security Life Building, Denver, Colorado.

21378-CD-P-75, RCC of Virginia, Inc. (KUO622), C.P. to add antenna Loc. #3 to operate on 152.12 MHz to be located at Monticello Avenue, Williamsburg, Virginia.

21379-CD-P-75, Irving Seltzer d.b.a. Altoona Telephone Message Center. (New), C.P. for a new 1-way station to operate on 152.24 MHz to be located at Wopsy Lookout, Altoona, Pennsylvania.

21380-CD-P-75, Radio & Electronics Service Company, Inc. (KLF542), C.P. to relocate facilities operating on 152.15 MHz to be located at 3101 North "R" St., Pensacola, Florida.

21381-CD-P-75, ComNav, Inc. d.b.a. Radio Telephone of Maine (KRS712), C.P. for additional facilities to operate on 158.70 MHz located at Copeland Hill, approximately 3 miles West of East Holden, Maine.

21382-CD-P-(6)-75, South Central Bell Telephone Company (KIA960), C.P. to change antenna system and relocate facilities operating on 152.60, 152.63, 152.66, 152.72, 152.75, and 152.78 MHz to be located at 1500 Beacon Parkway, East, Birmingham, Alabama.

21383-CD-P-75, South Central Bell Telephone Company (KRS688), C.P. to change antenna system and relocate facilities operating on 152.84 MHz at Loc. #1: 1500 Beacon Parkway, East, Birmingham, Alabama.

Corrections

20821-CD-ML-75, Airsignal of California, Inc., Fresno, California (KMA267), Correct to add Mod. of Lic. to change frequency from 2171.6 MHz to 2121.6 MHz, repeater facilities at Loc. #1: KFTV Tower, Bald Mountain, 3 miles East of Auberry, approx. 32 NE. of Fresno, California. All other particulars to remain as reported on PN #740 dated February 10, 1975.

21309-CD-AL-75, M. O. Bobes d.b.a. Mobile Telephone Service of Wheeling, West Virginia. Correct file number to read 21372-CD-AL-(2)-75. All other particulars to remain as reported on PN #747 dated March 31, 1975.

POINT-TO-POINT MICROWAVE RADIO SERVICE

2526-CF-P-75, Central Nebraska Telephone Company (KPP27), 10 Miles South of Sutherland, Nebraska. Lat. 41°01'21" N., Long. 101°09'14" W. C.P. to change antenna system and azimuth for frequency 5945.2H MHz toward Sutherland Passive Reflector on azimuth 156°12' and from Passive Reflector to Station KPP31 near Sutherland on azimuth 04°16'.

STANDARD BROADCAST APPLICATIONS

Availability for Processing

Notice is hereby given, pursuant to section 1.571(c) of the Commission's rules, that on May 20, 1975, the standard broadcast applications listed in the attached Appendix will be considered as ready and available for processing. Pursuant to section 1.227(b)(1) and section 1.591(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on May 19, 1975, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C., by the close of business on May 19, 1975.

The attention of any party in interest desiring to file pleadings concerning any pending standard broadcast applications, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to section 1.580 (i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings. Attachment.

Adopted: April 4, 1975.

Released: April 8, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

WARC CONFERENCE WORKING GROUP MEETING

Meeting

APRIL 4, 1975.

In preparation for the 1979 World Administrative Radio Conference

[4] Ashbacker Radio Corp. v. F.C.C., 326 U.S. 327 (1946).

[5] We are, however, considering a rulemaking proceeding which will focus on possible modification of the present Commission policy in regard to guard band frequency allocation.

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's Rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the Rules).

V 40 N 72 APR 14 75 XUM

(WARC), three conference preparatory Working Groups under the Safety and Special Radio Services Bureau will be meeting at the Commission during the week of May 5, 1975.

The Land Mobile Working Group, headed by Neal Pike, will meet on Wednesday, May 7, at 9 A.M. in Room 8210; the Amateur Radio Working Group, headed by A. Prose Walker, will meet on Thursday, May 8, at 9 A.M. in Room 8210; and the Private Microwave Working Group, headed by Joseph Johnson, will meet on Friday, May 9, at 9 A.M. in Room 8009. These three meetings will be held in the Commission's offices at 2025 M Street, NW., Washington, D.C. The meetings will be for the purpose of organizing the Working Groups, and for establishing Task Forces, if necessary, for developing requirements for spectrum allocations in the various services.

A total of 23 Working Groups have been formed by the Commission to investigate the spectrum needs of the United States to the year 2000. The outputs of the various working groups will be channeled to one or more of four functional committees which will examine spectrum requirements and give recommendations based on these requirements to the FCC Steering Committee. The Steering Committee, composed of high level members of each of the Commission's Bureaus and Offices, will be responsible for formulating the Commission's basic spectrum recommendations for use at the 1979 Conference.

Members of industry and the public may participate as observers at the Working Group level of activity. Persons wishing to attend the above three meetings who have not previously registered for WARC participation may complete their registration forms at the time of the meetings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

FEDERAL ENERGY ADMINISTRATION

NATURAL GAS TRANSMISSION AND DISTRIBUTION ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Natural Gas Transmission and Distribution Advisory Committee will meet Thursday, May 1, 1975, at 10:00 a.m., Room 3400, 12th & Pennsylvania Avenue, NW., Washington, D.C.

This Committee was established to provide independent advice and review to the Federal Energy Administration with respect to transmission and distribution and with respect to the implementation of programs that affect gas transmission and distribution activities.

The agenda for the meeting is as follows:

1. Liquefied Natural Gas (LNG) Imports—Pros and Cons.
2. Allocation of Petroleum Feedstocks for Synthetic Natural Gas (SNG) Plants.
3. Rolled-in vs. Incremental Pricing for Natural Gas—Pros and Cons.
4. Legislative Remedies for Gas Utilities' Financial Requirements.
5. Problems Involved with Offshore Drilling on the North Atlantic Coast.
6. Low Btu vs. High Btu Gas and Related Research.
7. Priority Allocation of Natural Gas Supplies.
8. Update Report on Natural Gas Curtailments.

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Office (202) 961-7022 at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on April 10, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

[FR Doc.75-9758 Filed 4-10-75;2:58 pm]

WHOLESALE PETROLEUM ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given that the Wholesale Petroleum Advisory Committee will meet Monday, May 5, 1975, at 9 a.m., in the "Northwest Room," Hilton Seattle Airport Hotel, 17620 Pacific Highway South, Seattle, Washington.

The Committee was established to provide advice and information to the Federal Energy Administration concerning the wholesale trade of selling heating oil, residual fuel, and gasoline.

The agenda for the meeting is as follows:

1. Discussion of the Extension of the Emergency Petroleum Allocation Act of 1973.
2. Discussion of Class of Purchaser.
3. Discussion of Surplus Product.
4. Legislative Remedies for Gas Utilities' Fi-
5. Problems Involved with Offshore Drilling Base Period.
6. Discussion of Rents and Leasing.
7. Remarks from the Floor (10 minute rule).

The meeting is open to the public. The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Office, (202) 961-7022 at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on April 9, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

VOLUNTARY AGREEMENT AND PROGRAM RELATING TO THE INTERNATIONAL ENERGY PROGRAM

Approval by the Administrator of General Services and the Attorney General

Correction

In FR Doc. 75-9018, appearing at page 16042 in the issue for Tuesday, April 8, 1975, make the following changes:

1. The last sentence of the first paragraph (preamble) should read as set forth below:

• • • Set forth below are the text of the Agreement, the letter of the Administrator of FEA to the Administrator of General Services recommending approval, dated March 6, 1975 (Appendix A), the letter of the Administrator of General Services to the Administrator of FEA, dated March 26, 1975, approving the Agreement (Appendix B), and the letter of the Attorney General to the Administrator of General Services, dated March 28, 1975, approving the Agreement (Appendix C).

2. In the text of the "Voluntary Agreement • • •", in the paragraph which follows the center heading "11. Withdrawal from Agreement", in the 14th line, the word "be" should be changed to read "by".

FEDERAL MARITIME COMMISSION

BARBER LINES A/S AND BLUE SEA LINE CO.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before May 5, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreement Filed by:

Milton J. Levitt, Esq.
Palmer Series & Baar
Attorneys at Law
120 Broadway
New York, New York 10005

Agreement No. 10137-1, between Barber Lines A/S and the Blue Sea Line Companies, modifies the approved basic agreement by amending Article 1 thereof and the Appendix thereto to designate with greater specificity certain areas in the Far East and Southeast Asia presently covered by the agreement, and to include certain other ports within the scope of the agreement, as set forth in the Appendix thereto.

By Order of the Federal Maritime Commission.

Dated: April 9, 1975.

FRANCIS C. HURNEY,
Secretary.

PACIFIC/INDONESIAN CONFERENCE

Notice of Petition Filed

Notice is hereby given that the following petition has been filed with the Commission for approval pursuant to section 14b of the Shipping Act, 1916, as amended (75 Stat. 762, 46 U.S.C. 813a).

Interested parties may inspect a copy of the current contract form and of the petition, reflecting the changes proposed to be made in the language of said contract, at the Washington office of the Federal Maritime Commission, 1100 L Street, NW, Room 10126 or at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments with reference to the proposed changes and the petition, including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, 1100 L Street, NW, Washington, D.C., 20573, on or before April 24, 1975. Any person desiring a hearing on the proposed modification of the contract form and/or the approved contract system shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the petition, (as indicated hereinafter), and the statement should indicate that this has been done.

[Docket No. CI75-577]

AMERADA HESS CORP.

Application

APRIL 7, 1975.

Take notice that on March 27, 1975, Amerada Hess Corporation (Applicant), 1200 Milam, 6th Floor, Houston, Texas 77002, filed in Docket No. CI75-577 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Northern Natural Gas Company (Northern) from four wells located in the Eunice and Monument Fields, Lea County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposed to sell approximately 78,128 Mcf of natural gas per month to Northern for a period of one year within the contemplation of section 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell the gas to Northern at 60.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment. Applicant states it seeks authorization for this limited term sale to ascertain the volumes of gas available for future sales.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 25, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if

V 40 72 APR 14 75 XUM

the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9632 Filed 4-11-75;8:45 am]

[Docket No. CP74-320]

COLORADO INTERSTATE GAS CO.

Extension of Procedural Dates

APRIL 7, 1975.

On March 31, 1975, Colorado Interstate Gas Company a division of Colorado Interstate Corporation (CIG) filed a motion to extend the procedural dates fixed by order issued March 14, 1975 in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of CIG and Supporting Intervenor Testimony, April 29, 1975.
Hearing: May 20, 1975 (10:00 a.m. e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc. 75-9633 Filed 4-11-75;8:45 am]

[Docket No. RP75-86]

COLORADO INTERSTATE GAS CO.

Proposed Changes in Rates and Charges

APRIL 7, 1975.

Take notice that Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (CIG), on March 31, 1975, tendered for filing proposed changes in its FPC Gas Tariff, Second Revised Volume No. 1. CIG states that the proposed rates would include revenues from jurisdictional sales and service by $6.8 million over those rates presently being collected subject to refund in Docket No. RP74-77, inclusive of appropriate PGA adjustments. CIG further states that there is an agreement in principle in the above-mentioned docket, between CIG, the Staff, and intervenors proposing settlement of the case and that if the settlement agreement, when filed, is approved, the proposed current increase will amount to approximately $13.4 million. CIG states that the proposed increase is based on the twelve-month period ended December 31, 1974, adjusted for known and measurable changes which will occur within the nine months subsequent to that date, as provided for in the Commission's regulations.

CIG states that the jurisdictional rates filed herewith are designed to enable CIG to recover increases in its jurisdictional cost of service attributable primarily to additional facilities, additional advances for gas supplies, increased return requirements, an increase in depreciation rates, and a change from flow-through to normalized accounting for the tax benefit of liberalized depreciation.

Copies of this filing were served upon the Company's jurisdictional customers and interested public bodies.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 21, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9634 Filed 4-11-75;8:45 am]

[Dockets No. RP74-82 and RP74-81]

COLUMBIA GAS TRANSMISSION CORP. AND COLUMBIA GULF TRANSMISSION CO.

Settlement Conference

APRIL 7, 1975.

Take notice that on Tuesday, April 22, 1975 and Wednesday, April 23, 1975, a conference of all interested parties in the above-referenced dockets will be convened at 10 a.m., in a conference room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. See the bulletin board on the second floor for the room number.

The conference will be held pursuant to section 1.18 (Conferences, Offers of Settlement) of the Commission's rules of practice and procedure (18 CFR 1.18). Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, such attendance at the conference will not be deemed to authorize such intervention as a party in the proceedings.

In accordance with the provisions of section 1.18 of the Rules, all parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of Columbia Gas Transmission Corporation and Columbia Gulf Transmission Company's proposed tariff changes, any procedural matters preparatory to a full evidentiary hearing, or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference. Failure to attend the conference shall constitute a waiver of all objections to stipulations and agreements reached by the parties in attendance at the conference.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9635 Filed 4-11-75;8:45 am]

[Docket No. RP72-89]

COLUMBIA GAS TRANSMISSION CORP.

Motion for Six Month Extension of Interim Curtailment Plan

APRIL 7, 1975.

Take notice that Columbia Gas Transmission Corporation (Columbia), on April 1, 1975, filed a motion requesting the Commission to extend its currently effective interim curtailment plan, with certain modifications, for a period of six months from May 1, 1975 through October 31, 1975. The modification is intended to exclude the so-called compensation features contained in the interim plan due to Commission orders in this proceeding holding them to be unlawful.

Columbia contends that the extension of its interim plan would maintain the *status quo* to the extent possible, pending the outcome of the extensive hearing in progress on Columbia's permanent plan in the above-entitled proceeding. Columbia alleges that the requested extension will avoid an unreasonable disruption of its customers' planning based on the annual entitlement feature for the twelve-month period ending October, 1975, contained in the interim plan.

Columbia asserts that without a grant of its motion, because of the Commission's warnings on the risks involved in implementing a plan not in conformity with Order No. 467-B, it would have to implement such a plan on May 1, 1975. Columbia alleges that this would be unlawful without consideration of the very extensive record being developed in the ongoing hearings. Columbia further asserts that curtailments pursuant to Order No. 467-B should not be implemented using the unverified data presently available, which has also been the subject of extensive cross-examination at the hearings.

In further support of its motion, Columbia refers to recent court decisions which, according to Columbia, hold that the Commission may not modify or replace a pipeline's existing curtailment plan without findings based on a full record, which is presently being compiled in this proceeding, that such plan is in violation of the Natural Gas Act.

Columbia claims that its interim plan has operated extremely well during the 1974-1975 winter season when Columbia curtailed at a level of approximately 20%, and that the Commission was not required to grant any petitions for extraordinary relief.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of comments and petitions to intervene. Therefore, any person desiring to be heard or to protest said motion should, on or before April 16,

1975, file such comment or petition to intervene with the Federal Power Commission, Washington, D.C. 20426, in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. Persons that have previously filed a notice or petition for intervention in this proceeding need not file additional notices or petitions to become parties with respect to the instant filing. The filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9636 Filed 4-11-75;8:45 am]

[Docket Nos. RP72-157, PGA75-5 et al.]

CONSOLIDATED GAS SUPPLY CORP., ET AL.

Order Accepting for Filing PGA Rate Increases To Track Increased Gas Costs Resulting From Opinion No. 699-H

APRIL 7, 1975.

Pursuant to Opinion No. 669-H in Docket No. R-389-B, issued on December 4, 1974, any jurisdictional pipeline company having a purchase gas adjustment clause in effect on June 21, 1974, and thereafter, was permitted to file on or before March 3, 1975, a special rate increase to track the rates prescribed in § 2.56a (18 CFR § 2.56(a)) of our Regulations effective as of the date of the filing, provided such rates are in effect pursuant to filings made by natural gas producers pursuant to § 2.56a(j) on or before January 31, 1975.

In accordance with those sections mentioned above many pipelines have filed special rate increases to track the rates as prescribed in Opinion No. 699-H. Of those pipelines the eighteen listed in Appendix A[1] are the subject of this order. The facts surrounding those filings are as follows:

Texas Gas Transmission Corporation, RP72-156, PGA75-3. On February 18, 1975, Texas Gas filed an increase (1) to reflect increased purchased gas costs of $21,748,215, including increases totalling $17,868,000 from Texas Eastern and United Gas and (2) a surcharge to recoup $6,416,698 in the deferred purchase gas cost account. The proposed effective date is March 1, 1975.

Texas Eastern Transmission Corporation, RP74-41, PGA75-6. On February 24, 1975, Texas Eastern filed an increase (1) to reflect increased purchased gas costs of $43,416,056 and (2) a surcharge to recoup $8,426,330 in the deferred account. The proposed effective date is March 1, 1975. The increase tracks, among other things, an increase by Southern Natural.

Lawrenceburg Gas Transmission Corporation, RP37-23, PGA75-3. On February 27, 1975, Lawrenceburg filed an increase of $203,435 to track an increase from Texas Gas to be effective March 1, 1975.

United Gas Pipe Line Company, RP72-133, PGA75-2. On February 21, 1975, United filed an increase (1) to reflect increased purchased gas costs of $55,400,000 and (2) a surcharge to recoup $20,300,000 in the deferred purchased gas cost account. The proposed effective date is March 1, 1975.

Panhandle Eastern Pipe Line Company, RP73-36, PGA75-3. On February 27, 1975, Panhandle filed an increase (1) to reflect an increase of $6,288,956 by Trunkline and an increase of $4,427,968 from producer suppliers and (2) a surcharge to recoup $3,057,864 in the deferred account. The proposed effective date is April 1, 1975.

Trunkline Gas Company, RP73-35, PGA75-2. On February 27, 1975, Trunkline filed an increase (1) to reflect increased gas costs of $7,389,068 and (2) a surcharge to recoup $2,148,140 in the deferred account. The proposed effective date is April 1, 1975.

Tennessee Gas Pipe Line Company, RP73-114, PGA75-2. On February 28, 1975, Tennessee Gas filed an increase (1) to reflect an increase of $60,483,940 and (2) a surcharge to recoup $36,985,165 in the deferred account. The proposed effective date is March 1, 1975.

Alabama-Tennessee Natural Gas Company, RP73-77, PGA75-5. On February 28, 1975, Alabama-Tennessee filed an increase of $22,630,000 to track an increase by Tennessee to be effective March 1, 1975.

East Tennessee Natural Gas Company, RP71-15, PGA75-4. On February 28, 1975, East Tennessee filed an increase of $14,060,000 to track an increase by Tennessee Gas to be effective March 1, 1975.

Granite State Gas Transmission, Inc., RP73-17, PGA75-4. On March 3, 1975, Granite State filed an increase of $602,000 to track an increase by Tennessee Gas to be effective March 1, 1975.

Tennessee Natural Gas Lines, Inc., RP71-11, PGA75-3. On March 3, 1975, Tennessee Natural filed an increase of $3,497,000 to track an increase by Tennessee Gas (reported herein) to be effective March 1, 1975.

Consolidated Gas Supply Corporation, RP72-157, PGA75-5. On February 26, 1975, Consolidated filed an increase (1) to track increases totalling $51,200,000 from Texas Eastern, Tennessee Gas and Texas Gas to be effective March 1, 1975, and (2) a surcharge to recoup $800,000 in the deferred account.

North Penn Gas Company, RP73-8, PGA75-5. On February 28, 1975, North Penn filed an increase to track increases totalling $3,314,577 from Con Gas and Tennessee Gas proposed to be effective March 1, 1975.

Mississippi River Transmission Corporation, RP72-149, PGA75-7. On February 21, 1975, MRT filed an increase to track rate increases totalling $27,527,980 from United Gas and Natural Gas Pipeline proposed to be effective March 1, 1975.

Mid Louisiana Gas Company, RP73-43, PGA75-3. On February 25, 1975, Mid Louisiana filed an increase (1) to reflect increased costs totalling $1,712,110 from United Gas and producer suppliers. The proposed effective date is March 1, 1975.

Sea Robin Pipeline Company, RP73-89, PGA75-2. On February 21, 1975, Sea Robin filed an increase (1) to reflect increased purchased gas costs of $12,777,775 by its producer supplier and (2) a surcharge to recoup $14,697,301 in its deferred account. The proposed effective date is March 1, 1975.

Arkansas Louisiana Gas Company, RP74-61, PGA75-2. On March 4, 1975,[2] Arkansas Louisiana filed an increase to reflect increased purchased gas costs of $529,269 from its producer suppliers. The proposed effective date is March 1, 1975.

Cities Service Gas Company, RP72-142, PGA75-4. On February 18, 1975, Cities filed a rate increase of 0.94¢ per Mcf or $3,119,121 to track increased rates by its producer suppliers to be effective February 23, 1975.

On the dates given in Appendix A, notice was issued in these eighteen filings. Pursuant to these notices no comments were received to date with the exception discussed below.

On March 17, 1975, a group of customers (Customers)[3] of Algonquin Gas Transmission Company, which is in turn, a customer of Texas Eastern, filed a protest objecting to (1) any waiver of Texas Eastern's tariff provisions with respect to the 45-day notice period and (2) any waiver of the Commission's Regulations with respect to the requested effective date of March 1, 1975.[4] Customers indicate that Texas Eastern filed its increase on February 24, 1975, only 4 days before the proposed effective date. They further state that to give the Texas Eastern filing the proposed March 1, 1975, effective date would jeopardize Customers' ability to track all of the increase because of "strictives placed upon them by the regulatory authorities in the states in which they are located."

Texas Eastern made its filing pursuant to Ordering Paragraph D of Opinion No. 699-H[5] which provides as follows:

(D) Notwithstanding the provisions of § 154.38(d)(4)(iv) of the Regulations Under

[1] Appendix A filed as part of the original document.

[2] This filing was received by the March 3, 1975, date specified by Opinion No. 699-H, but was not stamped in until 8:19 a.m. on March 4, 1975.

[3] See Appendix B.

[4] Customers filed a similar protest to Algonquin's filing dated March 3, 1975, which proposed to track Texas Eastern's filing as of March 1, 1975.

[5] ____ FPC ____ issued December 4, 1974, in Docket No. R-389-B.

V 40 N 72 APR 14 75

the Natural Gas Act (18 CFR § 154.38(d)(4)(iv)), any jurisdictional pipeline company having a purchased gas adjustment clause in effect on June 21, 1974, and thereafter, pursuant to § 154.38(d)(4), may file on or before March 3, 1975, a special rate increase to track the rates prescribed in § 2.56a (18 CFR § 2.56(a)) effective as of the date of the filing, provided such rates are in effect pursuant to filings made by natural gas producers pursuant to § 2.56a(j) on or before January 31, 1975.

The Commission found (mimeo p. 64) that good cause existed to waive the normal 45-day notice requirements set forth in § 154.38(d)(4) of the Regulations and in pipeline's tariffs in order to preclude undue delay in recovery of these costs by pipelines subject to our jurisdiction. While we are cognizant of the difficulties which distributors may sometimes encounter in passing through purchased gas cost increases of its wholesale suppliers, such problems relate to matters not within our jurisdiction and do not constitute grounds for delay in the establishment and implementation of just and reasonable rates.[1]

Alternatively, Customers propose that Texas Eastern's effective date be delayed until April 1, 1975, with the amount for March being placed in its deferred purchased gas cost account, with interest. We do not believe good cause has been shown to adopt this proposal.[2] Accordingly, we shall deny Customer's protest and shall not adopt Customers' alternate proposal.

Our review of the subject PGA increases indicated that the increases comply with the PGAG in the tariffs and with Opinion No. 699-H. Accordingly, we shall accept the PGA increases effective as of the dates listed herein. In the cases where the underlying rates are subject to refund the rates filed herein shall also be subject to refund. The rates effectuated herein shall be subject to change to reflect any adjustments in the underlying supplier rates. This action is also subject to any rate adjustments and/or refunds which may be required as a result of further orders in Docket No. R-389-B or of any appeals of such orders to the Courts. Such rate adjustments and/or refunds shall, of course, be governed by the provisions of the respective pipelines' PGA clauses and Section 154.38(d)(4) of the Regulations.

The Commission finds: The PGA increases herein described comply with the PGAC in the tariffs and with Opinion No. 699-H and should be accepted for filing and made effective as hereinafter conditioned.

The Commission orders: (A) The PGA filings herein described are accepted for filing and shall become effective on the dates proposed by the respective companies. This action is subject to any rate adjustments and/or refunds which may be required as a result of further orders in Docket No. R-389-B or of any appeals of such orders to the Courts.

(B) The companies which have underlying rates, which are subject to refund, shall have their PGA increase also subject to refund.

(C) The rates effectuated herein shall be subject to change and refund to reflect any adjustments in the underlying suppliers rates.

(D) This acceptance for filing shall not be construed as a waiver of the requirements of section 7 of the Natural Gas Act, as amended; nor shall it be construed as constituting approval of the referenced filings or of any rate, charge, classification, or any rule, regulation or practice affecting such rate or service contained in the respective tariffs; nor shall such acceptance be deemed as recognition of any claimed contractual right or obligation associated therewith; and such acceptance is without prejudice to any findings or orders which have been or may hereafter be made by the Commission in any proceeding now pending or hereafter instituted by or against the respective pipelines.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

EASCOGAS LNG, INC. ET AL.

Hearing in Providence, R.I.

APRIL 2, 1975.

Eascogas LNG, Incorporated, Algonquin LNG, Incorporated, Algonquin Gas Transmission Company, New England LNG Company, Incorporated.

In accordance with Commission's Order of March 21, 1975, a hearing session in these cases will commence at 10:30 a.m. on May 15, 1975, in room 234 of the U.S. Post Office Building, 318 Federal Building, Providence, Rhode Island 02903.

This session will be limited to submittals concerning the LNG tanks proposed in Docket No. CP73-139. These submittals may be in the form of unsworn statements of position or opinion which may be read or copied into the record in order to reflect the concerns of local citizens with the safety and environmental impacts of the project. However, these unsworn statements will not be considered as evidence in the proceeding, unless the submittals are made under oath and an opportunity is accorded all parties for cross-examination thereon. The sworn submittals should be mailed to the parties by May 1, 1975.

ALLEN C. LANDE,
Presiding Administrative Law Judge.

[FR Doc.75-9631 Filed 4-11-75;8:45 am]

[Docket No. E-9349]

KANSAS GAS AND ELECTRIC CO.

Notice of Tariff Change

APRIL 7, 1975.

Take notice that Kansas Gas and Electric Company (KG & E), on April 2, 1975, tendered for filing proposed changes in its FPC Electric Service Tariff FWM-173, Public Utility Resale (FPC Rate Schedule Nos. 32, 55, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, and 133). The proposed change would increase revenues from jurisdictional sales and service by $400,909 based on the twelve-month period ending December 31, 1974. In addition, Applicant is filing a fuel adjustment clause rider applicable to the above FPC rate schedules conforming to Docket No. R-479, Order No. 517, which amends Section 35.14 of the Regulations under the Federal Power Act.

Applicant states its present revenues are inadequate to provide, by any reasonable test, a fair return on its investment. KG & E also states its earnings must be increased to assure continued confidence in the financial integrity of the business which will enable it to maintain its credit and attract the necessary additional capital on reasonable terms to finance its approximate $545 million construction program through 1979. This program must be completed in order to provide a continuous supply of electricity, now and in the future, to its customers including the growing resale requirements.

Copies of the filing were served upon the jurisdictional customers and the Kansas Corporation Commission.

Any person desiring to be heard or to protest said Application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 25, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this Application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI74-194]

KWB OIL PROPERTY MANAGEMENT, INC.

Order Accepting Settlement, Granting Special Relief, and Permitting Intervention

APRIL 7, 1975.

By order issued June 17, 1974, KWB Oil Property Management, Inc.'s (KWB's) petition for special relief pursuant to Section 2.76 of the Commission's general policy and interpretations (hereinafter § 2.76)[1] was set for prehearing conference to commence on July 15, 1974. After various continuances, the instant proceeding was indefinitely postponed by the Presiding Administrative Law Judge (Tr. Vol. II, p. 12) on September 19, 1974.

On January 21, 1975, KWB met with the Commission Staff in an informal conference pursuant to letter notice of December 26, 1974, to all parties. At this informal conference, KWB submitted certain data, in addition to that submitted on previous occasions, which staff utilized in preparing an independent cost of service study. The results of this study, attached as Appendix A to a Staff statement (*see infra* p. 2) supporting the proposed settlement, indicate that a proposed settlement rate of 35 cents per Mcf at 14.65 psia for KWB's sales of natural gas to Cities from the V. L. Cook 1-A and McCracken No. 1 wells located in the North Hardtner Field, Barber County, Kansas, is justified.

Pursuant to notice issued February 20, 1975, a hearing was convened in Docket No. RI74-194 on February 26, 1975, at which time statements by KWB and Cities accepting a rate of 35 cents per Mcf and a Commission Staff Statement in Support of Proposed Stipulation and Settlement Agreement were copied into the record. On February 28, 1975, the Presiding Administrative Law Judge certified the record of the February 26, 1975 proceeding, including the proposed settlement, to the Commission. Notice of the certification was issued on March 11, 1975, and appeared in the Federal Register at 40 FR 12322 on March 18, 1975. Previously, on April 29, 1974, Cities petitioned to intervene in support of KWB's original petition for special relief in which KWB sought a rate of 40 cents per Mcf for the instant sales.

A petitioner pursuant to § 2.76 is required to establish the economic justification for the relief it seeks, including information on additional costs, the unit price, and the amount of gas to be recovered and sold in the interstate market. We find that KWB has satisfied the evidentiary burden of § 2.76.

The Commission finds: (1) The proposed settlement rate of 35 cents per Mcf at 14.65 psia is just and reasonable.

(2) Good cause exists to allow Cities to intervene in these proceedings.

The Commission orders: (A) KWB is granted special relief and is authorized to charge 35 cents per Mcf at 14.65 psia for its sales of natural gas to Cities from the V. L. Cook 1-A and the McCracken No. 1 wells located in the North Hardtner Field, Barber County, Kansas.

(B) Said rate is to be effective as of the date of issuance of this order provided that, within 30 days hereof, KWB files a copy of its contract amendment with Cities allowing it to charge 35 cents per Mcf at 14.65 psia for the subject sales.

(C) Cities is permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders of the Commission entered in these proceedings, and *Provided, further,* That such intervenor shall accept the record as it has been established in the proceedings to date.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-8252]

NORTHERN STATES POWER CO. (MINNESOTA)

Notice of Compliance Filing

APRIL 7, 1975.

By order issued February 21, 1975, the Commission approved a settlement proposal in this proceeding. Ordering paragraph (B) of that order required Northern States Power Company (Northern States) to file with the Commission, within thirty days of the issuance of the order, revised tariff sheets in conformity with the terms of the approved settlement agreement.

On March 24, 1975, Northern States tendered for filing Second Revised Schedule A's to its Firm Power Service Resale Agreements and Supplemental Agreements to its Firm Power Service Resale Agreements in compliance with the Commission order's directive.

Northern States states that upon Commission acceptance of the schedules and supplemental agreements it will make refunds to its customers and report the same to the Commission.

Northern States states that copies of the filing have been served on each of its total requirements wholesale customers.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure. All such petitions or protests should be filed on or before April 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-8 PGA75-9]

NORTH PENN GAS CO.

Notice of Proposed Changes in FPC Gas Tariff

MARCH 31, 1975.

Take notice that North Penn Gas Company (North Penn) on March 24, 1975, tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, pursuant to its PGA clause for rates to be effective May 1, 1975. The proposed rate change will decrease jurisdictional revenues based on the twelve-month period ending February 28, 1975, by $51,600 annually, according to North Penn.

North Penn states that the PGA filing was triggered by a rate decrease filed by Consolidated Gas Supply Corporation, March 18, 1975 to become effective May 1, 1975.

North Penn is requesting a waiver of the 45-day notice requirement contained

[1] 18 C.F.R. § 2.76.

V 40 N 72 APR 14 75 XUM

in its PGA clause since it did not receive its supplier's revised rates in sufficient time to make a timely filing and further asks for a waiver of any other of the Commission's rules and regulations in order to permit the proposed rates to go into effect on May 1, 1975.

North Penn states that copies of this filing were served upon North Penn's jurisdictional customers, as well as interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9642 Filed 4-11-75;8:45 am]

[Docket No. CI75-406]

PHILLIPS PETROLEUM CO.

Order Establishing Procedures and Setting Hearing Date

APRIL 1, 1975.

On December 30, 1974, Phillips Petroleum Company (Applicant) filed an application pursuant to section 7(c) of the Natural Gas Act, for a limited term certificate of public convenience and necessity for a period of one year with pregranted abandonment authorizing the sale of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation (Transco) from the Read "B" No. 1 well located in Evangeline Parish, South Louisiana. The Applicant proposes to sell the gas at a rate of 85.0 cents per Mcf (15.025 psia) subject to upward and downward Btu adjustments from a base of 1,000.

Applicant commenced an emergency sale of the gas on December 17, 1974, at the proposed rate pursuant to § 159.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and has been continuing deliveries since February 15, 1975, the expiration date of the 60-day exempt period at the rate subject to refund pursuant to Opinion No. 699-B.

Applicant proposes to continue the sale for one calendar year commencing on February 15, 1975, (the expiration date of the 60-day exempt period) within contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70) for such quantities that the seller has available on a best efforts basis, and that the buyer desires to purchase with an estimated daily quantity of 350 Mcf/d, and a maximum of 3,000 Mcf/d.

In support of its limited-term certificate application, Applicant stated that the subject well was drilled as an exploratory well. Applicant allegedly entered into a one year contract dated November 6, 1974, in order to test the well under producing conditions at pipeline pressure. During the proposed one year sale, Applicant proposes to evaluate the underlying reserves and determine whether additional development is necessary. Applicant further states that until the well can be tested and reserves evaluated, the supply of gas will be available only for the limited period for which certification is sought.

In Opinion No. 699-B (52 FPC ____) which reinstated the limited term certificate provisions of § 2.70(b)(3) of the Commission's General Policy and Interpretations, the Commission stated that applicants for limited term certificates "will have the burden of demonstrating by substantial evidence that the price for which certification is sought is the lowest price at which that particular supply of gas may be obtained for the interstate market, and that the supply of gas is available for the limited period for which certification is sought" (Mimeo. page 6). By letter dated January 21, 1975, Applicant was requested to supplement its application in accordance with Opinion No. 699-B to demonstrate by substantial evidence these required facts.

In response Applicant by letter filed on February 10, 1975, advised that it had received an offer from Continental Oil Company to purchase the gas from the subject well at an initial rate of 85.0 cents per MMBtu with escalation of 10.0 cents per MMBtu at the beginning of the second and third years of such proposed sale, but that such sale would have required Applicant to construct approximately 3 miles of line to deliver the gas to Continental Oil Company. Therefore, in view of the construction costs, the limited reserve data, and the time involved in pipeline construction, Applicant elected to enter into a 60-day emergency sale and a subsequent one-year limited-term sale with Transco.

No affiliation of record exists between buyer and seller.

After due notice of the application in the FEDERAL REGISTER on January 21, 1975, (40 FR 3337) no protests or interventions were filed within the period designated for such filings which expired on February 4, 1975. No further petitions to intervene, notices of intervention, or protests to the granting of the application have been filed as of this date of issuance.

Based upon the pleadings before us, we believe that justification for the rate and term of sale as well as other public interest issues, should be established by substantial evidence in a formal record. Accordingly, we will set this application for formal expeditious hearing.

The Commission finds. It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be the subject of a formal evidentiary hearing in accordance with the procedures as set forth below.

The Commission orders. Pursuant to the authority of the Natural Gas Act, particularly Sections 7 and 15 thereof, the Commission's Rules of Practice and Procedures, and the Regulations under the Natural Gas Act, a public hearing shall be held on May 1, 1975, at 10 a.m. (EDT) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 concerning the issue of whether a certificate of public convenience and necessity should be granted as requested by Phillips Petroleum Company in the application filed December 30, 1974.

(B) On or before April 14, 1975, Phillips Petroleum Company and any supporting party shall file with the Commission and serve on all parties, including Commission Staff, their testimony and exhibits in support of their positions.

(C) An Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority (18 CFR 3.5(d))—shall preside at, and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-9347]

PUBLIC SERVICE CO. OF INDIANA, INC.

Change in Interconnection Agreement

APRIL 7, 1975.

Take notice that on March 31, 1975, Public Service Company of Indiana, Inc. (PSCI) tendered for filing the fourth supplemental agreement to the Interconnection Agreement between PSCI and Southern Indiana Gas and Electric Company (SIGECO). The Interconnection Agreement is designated PSCI Rate Schedule FPC No. 207. The proposed effective date is April 1, 1975. The supplemental agreement will increase the demand charge for Short Term Power.

Filed concurrently was a Certificate of Concurrence on behalf of SIGECO which expresses SIGECO's assent and concurrence with the changes. A copy of the filing has been sent to SIGECO.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 25, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person

wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9644 Filed 4-11-75;8:45 am]

[Docket No. RP75-84]

SOUTHERN NATURAL GAS CO.

Proposed Changes in FPC Gas Tariff

APRIL 7, 1975.

Take Notice that Southern Natural Gas Company (Southern), on March 31, 1975, tendered for filing proposed changes in its FPC Gas Tariff, Sixth Revised Volume No. 1. The proposed changes are based on the 12-month period ending December 31, 1974, as adjusted, and would increase jurisdictional revenues by $91,080,244.

Southern states that the principal reasons for the proposed rate increase are to reflect (1) an increase in the overall rate of return of 10.69 percent; (2) an increase in the composite book depreciation rates of 8.5 percent for Southern's supply system and 5.25 percent for Southern's transmission system; (3) to adjust Southern's plant for Construction Work in Progress; (4) to reflect increased operation and maintenance expenses, including purchased gas costs and expenses for gas from Company-owned production and from independent producers; and (5) to reflect increased levels of advance payments to producers.

Copies of the filing have been served upon Southern's jurisdictional customers and interested state public service commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 25, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

FOREIGN-TRADE ZONES BOARD

[Docket No. 2-75]

CHICAGO, ILLINOIS

Application for a Foreign-Trade Zone; Public Hearing

Notice is hereby given that an application has been submitted to the Foreign-Trade Zones Board (the Board) by the Chicago Regional Port District, Chicago, Illinois, requesting a grant of authority for the establishment of a foreign-trade zone in Chicago, a Customs port of entry. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act of 1934, as amended (19 U.S.C. 81) and the regulations of the Board (15 CFR Part 400). It was formally filed on April 8, 1975. Under Illinois law (Act of June 6, 1951, sec. 8.01), the Chicago Regional Port District, a municipal corporation, has authority to apply for the right to establish, operate and maintain foreign-trade zones within the State.

The proposal calls for a foreign-trade zone of 25 acres within an industrial park site owned by the applicant and located in Chicago's Lake Calumet Harbor area. An adjacent warehouse with 72,000 square feet of usable space would be included in the zone. The warehouse is located on the Harbor's sea channel and is served by a 45 foot wharf. The industrial park would be prepared for the construction of such individual plants as are required by zone tenants, with a general use building being constructed if user interest warrants. The area is also served by rail and highway and O'Hare International Airport is 25 miles distant.

The application includes information and economic data concerning the basis for a zone facility to serve the special Customs needs of the area's business community. The proposed zone is intended to augment the Port District's overall efforts for industrial development in the Lake Calumet Harbor area. Operator of the zone complex for the Port District would be CCS International, a limited Partnership under Illinois law. The firm was selected under the Chicago Regional Port District's bidding procedures. Interested zone users include: an electronics firm; a distributor of foreign bicycles and sporting goods; a manufacturer of printing presses; and, a textile retailer.

In accordance with the Board's regulations an examiners committee has been appointed to investigate the application and report thereon to the Board. The committee consists of: Gerald M. Marks (Chairman), Acting Regional Director, U.S. Department of Commerce Regional Office, 1406 Mid Continental Plaza Building, 55 E. Monroe Street, Chicago, Illinois 60603; Donald E. Grimwood, Director, Inspection and Control Division, U.S. Customs Service, Region IX, 55 E. Monroe Street, Chicago, Illinois 60603; and Colonel James M. Miller, District Engineer, U.S. Army Engineer District Chicago, 219 S. Dearborn Street, Chicago, Illinois 60604.

In connection with its investigation of the proposal the examiners committee will hold a public hearing beginning at 9:30 a.m., local time, May 14, 1975, at the Dirksen Federal Office Building (Room 1644), 219 S. Dearborn Street, Chicago, Illinois. The purpose of the hearing is to help inform interested persons about the proposal, to provide an opportunity for their expression of views, and to obtain information useful to the examiners committee.

Interested persons are invited to present their views at the hearing. They should notify the Board's Executive Secretary in writing by May 7 at the address below of their desire to be heard. In lieu of an oral presentation, written statements may be submitted to the examiners committee through the Executive Secretary at any time from the date of this notice through May 29, 1975. A copy of the application and accompanying exhibits will be available during this time for public inspection at each of the following locations:

Office of the Director
Inspection and Control Division (Suite 1501)
U.S. Customs Service, Region IX
55 E. Monroe Street
Chicago, Illinois 60603

Office of the Chicago Regional Port District
12800 Butler Drive
Lake Calumet Harbor
Chicago, Illinois 60633

Office of the Executive Secretary
Foreign-Trade Zones Board
U.S. Department of Commerce (Room 6886B)
Washington, D.C. 20230

Dated: April 8, 1975.

JOHN J. DA PONTE, Jr.,
Executive Secretary,
Foreign-Trade Zones Board.

OFFICE OF THE FEDERAL REGISTER

FREEDOM OF INFORMATION INDEX REQUIREMENTS

Guide to Agency Material; January-March, 1975

5 U.S.C. 552 (commonly called the Freedom of Information Act) requires agencies to maintain and make available for public inspection and copying current indexes providing identifying information for the public as to any matter issued, adopted, or promulgated after July 4, 1967, and required to be made available or published (5 U.S.C. 552(a)(2)). Recent amendments (Pub. L. 93-502, November 21, 1974, 88 Stat. 1561) require the publication (with some exceptions) and distribution of these indexes at least quarterly. This guide has been compiled by the Office of the Federal Register from information submitted by agencies for the first quarter of 1975 in order to notify the public of the availability of these indexes for sale and/or public inspection.

FEDERAL RESERVE SYSTEM

THE CITIZENS AND SOUTHERN CORP.

Order Approving Retention of Carolina National Mortgage Investment Company and CN Mortgages, Inc.

The Citizens and Southern Corporation, Charleston, South Carolina, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to retain all of the voting shares of Carolina National Mortgage Investment Company, Inc. ("Carolina Mortgage"), and its indirect subsidiary, CN Mortgages, Inc., both located in Charleston, South Carolina.[1]

Carolina Mortgage would, upon approval, continue to engage directly in the activities of a mortgage banking company and, through its ownership of CN Mortgages, Inc., to engage indirectly in the activities of a second mortgage lender. Carolina Mortgage would also continue to act as agent in the sale of credit life, accident and health insurance to its borrowing customers. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1), (3) and (9)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors has been duly published (40 FR 7007). The time for filing comments and views has expired, and the Board has considered all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act. (12 U.S.C. 1843(c)(8)).

Applicant controls one banking subsidiary, Citizens and Southern National Bank of South Carolina ("C&S Bank"), with deposits of approximately $461 million, representing 12.3 per cent of the deposits in commercial banks in South Carolina, and is the second largest banking organization and bank holding company in the State.[2] In addition to Carolina Mortgage, Applicant has five nonbanking subsidiaries respectively engaged in data processing, holding bank premises, community rehabilitation, mobile home financing, and providing bank management advisory services.

C&S Bank is engaged in making mortgage loans for its own account. It appears, however, that most of its loans at the time it acquired Carolina Mortgage were construction loans and loans on nonresidential property. At the time of acquisition, though, C&S was engaged in making some 1-4 family residential mortgage loans.

Although it also originated construction loans and mortgages on nonresidential property, Carolina Mortgage's loan originations during 1970 were to a great degree comprised of mortgages on 1-4 family residences. The major geographic markets affected by the acquisition are approximated by the Charleston, Columbia, and Greenville Standard Metropolitan Statistical Areas and Spartanburg County, all in South Carolina. At the time of the acquisition and thereafter, the economy of these areas was expanding with an attendant rise in housing demand and growth. During the period 1970 to 1973, these areas were among the fastest growing in the country. Carolina Mortgage accounted for approximately 5.7, 2.3, and 3.6 per cent of 1-4 family residential mortgage loan originations during 1970 in the first three markets respectively.[3] C&S Bank's market shares in those markets were approximately 2.5, 0.5, and 0.3 per cent, respectively, at the time. As of June 30, 1971, Carolina Mortgage was the 174th largest mortgage company in the country, based on a servicing volume of $119 million. Its mortgage servicing portfolio has increased by $76 million since it ceased operating as an independent mortgage company.

It is estimated that there were 18, 23, and 26 residential mortgage competitors respectively in the Charleston, Columbia,

[1] On December 15, 1970, Applicant acquired Carolina Mortgage and merged it into Citizens Mortgage Corporation, a wholly-owned subsidiary of Applicant. At the same time, Applicant indirectly acquired shares of CN Enterprises, Inc., Charleston, South Carolina, a 49 percent owned subsidiary of CN Mortgages, Inc. CN Enterprises, Inc. engages in real estate development. Applicant is not seeking approval to retain CN Enterprises, Inc. which is subject to the prohibitions in § 4(a)(2) of the Act. It is the intention of Applicant to divest the assets of CN Enterprises, Inc. by December 31, 1980.

[2] Unless otherwise indicated, all banking data are as of June 30, 1974, and reflect bank holding company formations and acquisitions approved through February 28, 1975.

[3] Market shares are based upon Applicant's estimates of total 1-4 family mortgage originations. No such estimate is available for Spartanburg County.

V 40 72 APR 14 75 XUM A

and Greenville markets in 1970. Considering the number of residential mortgage banking competitors already in those markets and the respective market shares of C&S Bank and Carolina Mortgage, Applicant's acquisition of Carolina Mortgage had only slightly adverse effects on competition in the origination of 1–4 family residential mortgage loans.[4] The slight adverse competitive effect of the acquisition is outweighed by the public benefits which appear to have resulted from Applicant's acquisition of Carolina Mortgage. Affiliation has provided greater access to capital markets for Carolina Mortgage and thereby increased the amount of its available funds to meet the growing credit demands for housing and other construction in its respective mortgage markets. The Board concludes that the potential public benefits outweigh the adverse effect resulting from the affiliation at the time of the acquisition.

The Board's review of the record of affiliation indicates that public benefits have continued to outweigh the slight adverse effect on competition. Through Applicant's support, Carolina Mortgage has increased its servicing volume to nearly $197 million, and it is now the 151st largest mortgage company in the country. During the post-acquisition period (1970 to 1973), Carolina Mortgage increased its originations by nearly 247 per cent. In addition, Carolina Mortgage has entered *de novo*, thereby stimulating competition, two new geographic markets: Atlanta, Georgia, and Knoxville, Tennessee. The Board believes that the affiliation is sufficiently likely to continue to produce public benefits in the foreseeable future so that, on balance, divestiture would be contrary to the public interest.

Carolina Mortgage also sells credit-related insurance on the loans it originates. Due to the limited nature and scope of its insurance activities, it does not appear that the acquisition of Carolina Mortgage's insurance activities had any significant effect on either existing or potential competition. The activities of CN Mortgages, Inc. (total assets of $4.8 million) are likewise so limited in scope that its acquisition did not have any significant competitive effects.

There is no evidence in the record to indicate that the proposed retentions would lead to an undue concentration of resources, conflicts of interests, unsound banking practices, or other adverse effects upon the public interest.

Based upon the foregoing and other considerations reflected in the record, the Board has determined, in accordance with the provisions of section 4(c)(8), that consummation of this proposal can reasonably be expected to result in benefits to the public that outweigh possible adverse effects. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, and to prevent evasion thereof.

By order of the Board of Governors,[5] effective April 2, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75–9596 Filed 4–11–75;8:45 am]

[4] It appears that the acquisition also eliminated competition between C&S Bank and Carolina Mortgage in the origination of construction loans and the origination of mortgages upon nonresidential property. Geographic markets for these services are regional in scope and the amount of competition eliminated is not deemed significant.

[5] Voting for this action: Vice Chairman Mitchell and Governors Bucher, Holland, and Wallich. Absent and not voting: Chairman Burns and Governors Sheehan and Coldwell.

DAUPHIN DEPOSIT CORP.

Formation of Bank Holding Company

In FR document 75–8636 appearing at page 15009 of the issue for Thursday, April 3, 1975, the name of the bank to be acquired should read "Dauphin Deposit Trust Company, Harrisburg, Pennsylvania, with a resultant name change to Dauphin Deposit Bank and Trust Company."

Board of Governors of the Federal Reserve System, April 8, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt and Approval of Proposal

The following request for clearance of a report form intended for use in collecting information from the public was accepted by the Regulatory Reports Review Staff, GAO, on March 4, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the Federal Register is to inform the public of such receipt and the action taken by GAO.

FEDERAL ENERGY ADMINISTRATION

Request was made for approval of revised FEA–P105–S–0, Complainant's Report. This is a revision of the FEO–1. This form is to be filed for any type of complaint relating to the Mandatory Petroleum Allocation and Price Regulations. Potential applicants are expected to number about 20,000.

Based on the nature of the revisions which eliminated certain questions and revised instructions, GAO believes the burden has been reduced. Therefore, GAO provided expedited clearance of revised form FEA–P105–S–0 under number B–181254 (R0171). This clearance expires June 30, 1976.

CARL F. BOGAR,
Regulatory Reports Review.

[FR Doc.75–9660 Filed 4–11–75;8:45 am]

REGULATORY REPORTS REVIEW

Receipt of Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on April 4, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed FTC forms are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed forms, comments (in triplicate) must be received on or before April 28, 1975 and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street, NW., Washington, D.C. 20548.

Further information may be obtained from the Regulatory Reports Review Officer, 202–376–5425.

FEDERAL TRADE COMMISSION

Request for review and clearance of a new single-time questionnaire, "Used Car Study". The questionnaire is a single-time collection of information concerning used motor vehicle sales and warranty practices from private consumer protection organizations. The survey will be a form letter sent to consumer organizations in all of the 54 states and territories. Response will be voluntary. The information obtained may be utilized in a subsequent rulemaking proceeding mandated by sections 109(b) and 112(c) of Pub. L. 93–637. The average respondent burden is estimated at five hours for each of the approximately 100 recipients.

Request for review and clearance of a new single-time questionnaire, "Used Car Study". The questionnaire is a single-time collection of information concerning used motor vehicle sales and warranty practices from State, Territorial, and Local Consumer Protection Officials. The survey will be a form letter sent to Consumer Protection Officials in all of the 54 states and territories. Response will be voluntary. The information obtained may be utilized in a subsequent rulemaking proceeding mandated by sections 109(b) and 112(c) of Pub. L. 93–637. The average respondent burden is estimated at five hours for each of the approximately 200 recipients.

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

National Endowment for the Arts

MUSIC PROGRAM

Guidelines for Fellowship-Grants to Composers/Librettists

The following are guidelines for grants made under the Music Program of the National Endowment for the Arts, an independent agency of the Federal government which makes grants to organizations and individuals concerned with the arts throughout the United States.

Notice is hereby given that the deadline date for Fellowship-Grants to Composers/Librettists is May 15, 1975.

Interested persons should contact Walter Anderson, Director, Music Program, National Endowment for the Arts, Washington, D.C. 20506, (202) 634–6390 for further information and application forms. Only the Music Program office may distribute application forms.

Signed at Washington, D.C. on March 20, 1975.

FANNIE TAYLOR,
Director,
Program Information.

FELLOWSHIP-GRANTS TO COMPOSERS/LIBRETTISTS PERIOD OF SUPPORT: JANUARY 1976–DECEMBER 1976

In Fiscal Year 1976 (July 1, 1975–June 30, 1976) the National Endowment for the Arts plans to award grants to assist composers and librettists.

In recommending this program two years ago, the National Council on the Arts designated this program a bicentennial activity in recognition of the enormous wealth of individual creative talent America possesses. The Council believed then, as now, that these Fellowship-Grants within the disciplines of composition and the writing of librettos will aid the building of a greater American musical legacy.

DEADLINE

Applications must be postmarked no later than May 15, 1975. Generally, the proposed period of grant support should not begin prior to January 1, 1976 but may extend through December 31, 1976.

The deadline will be adhered to strictly. Applications and other materials postmarked later than May 15, 1975 will not be considered under this fiscal allocation. Failure to submit all materials by this date may result in the return of the application to the sender.

Notices of approval or rejection will not be sent before December 15, 1975.

Applications may be obtained by writing to the Music Program, National Endowment for the Arts, Washington, D.C. 20506, and requesting Individual Application Forms, NEA–2 (Rev.), for the Composer/Librettist Program.

Application forms will be sent only to the individual applying; organizations may not request forms on behalf of individuals.

The completed application forms, in triplicate, and accompanying information should be returned to the Grants Office, National Endowment for the Arts, Washington, D.C. 20506.

GENERAL PURPOSE

The purpose of this program in support of individuals is to encourage:

(1) The creation of new composition or the completion of works in progress;

(2) The creation of new librettos or the completion of librettos in progress;

(3) The professional development of the composer or librettist.

ELIGIBILITY

By statute, the National Endowment for the Arts limits its fellowship programs to the awarding of grants to individuals of exceptional talent. Eligibility is further limited to individuals who can give evidence of the successful completion of the necessary foundations in training.

Please note that the Endowment funds a separate program to benefit composers of jazz. It may be advisable for these composers to request the Jazz/Folk/Ethnic Program Guidelines from the Music Program, National Endowment for the Arts, Washington, D.C. 20506.

LIMITATIONS

(1) This program funds the individual musician or librettist and does not fund production costs or fees of other persons associated with production elements such as lighting design, choreography, costuming, scenic design or non-musical graphic representation. For information regarding other areas of support within the Endowment, contact specific Programs or request *Guide to Programs* by writing to the Program Information Office, National Endowment for the Arts, Washington, D.C. 20506.

(2) Although the Endowment seeks information regarding plans for recording, it should be noted that, at the current time, it is not the policy of the Endowment to support recording costs.

(3) This program is for active composers and librettists; support is not intended to provide assistance to develop or complete master's degree theses or doctoral dissertations.

(4) The Music Program of the Endowment does not fund creative endeavor associated with the fields of music generally known as "rock" and "popular" in recognition of their commercial viability.

(5) Applications will be returned to the applicant if the individual does not meet the eligibility criteria or the proposed project does not fall within the scope of these guidelines. If, however, a valid application has been submitted in the wrong category, the Endowment may change that application to the correct category and will notify the applicant of such action.

(6) No request exceeding the stated maximums within each category will be considered.

(7) The applicant may submit application in one category only. It is preferred that, for larger idioms, only one new work be included in the project description for applicants in Categories I and II.

V 40 I 72
APR 14 75

(8) Generally, fellowship-grants will not be awarded to the same individual in consecutive years.

CATEGORIES OF SUPPORT

CATEGORY I

Non-matching fellowship-grants of *up to* $10,000 to exceptionally talented composers for the creation of new works or the completion of works in progress. Such support will be inclusive of the individual's time, copying and reproduction costs, or other services necessary to complete the work(s).

CATEGORY II

Non-matching fellowship-grants of *up to* $7,500 to exceptionally talented librettists for the creation of new works or the completion of works in progress. Applicants must show evidence of expertise in the opera/lyric theater styles. Such assistance will be limited to the support of the individual's time, copying and reproduction costs, or other services necessary to complete the work(s).

CATEGORY III

Non-matching fellowship-grants of *up to* $2,500 to aid the professional development of the composer or librettist of exceptional talent. Such assistance will be limited to:

(1) Expenses necessary to provide time for research and limited expenses for the purchase of other composers' scores or librettos in order that the aspiring composer or librettist may have continuing rapport with the field, be knowledgeable concerning new technological developments, and be in a position to study and explore the current trend toward new aesthetic concepts;

(2) Copying and reproduction costs of scores and parts of completed works;

(3) Expenses necessary to prepare tape recordings or excerpts of works for the purpose of providing samples for the review of performers, publishers, or recording firms;

(4) Transportation costs and lodging expenses required to discuss work(s) with conductors, artistic directors, and publication and/or recording representatives.

CATEGORY IV

On a pilot basis, a *limited* number of non-matching fellowship-grants of *up to* $10,000 will be awarded to nationally recognized composers of established ability to allow the individual composer to have free time for working at his/her discretion. This time might include experimenting in new media. Assistance will be inclusive of the individual's time, copying costs, travel and other expenses.

Note for All Categories: Applicants should indicate clearly on the application form the category under which support is requested.

Because of the limited funds available and the anticipated number of applications, generally fellowship-grants will be awarded in amounts *less* than the stated maximums within each category of support.

REQUIREMENTS FOR COMPLETION OF THE APPLICATION

INDIVIDUAL APPLICATION FORM NEA-2 (REV.)

All application forms must be typed and submitted in triplicate. All essential elements of the proposal must be included in a concise project description in the space provided on the first page of the application. If additional space is needed, no more than one additional 8½" x 11" page may be attached to each of the application forms.

Only information requested on the application form itself is submitted in triplicate. Applicants should send only one copy of reviews, supporting statements, letters (s) of interest and samples of previous works.

Applicants are asked to retain copies of all recordings, librettos and musical scores as the Endowment cannot accept responsibility for loss of materials.

While the entire form must be completed we ask that particular attention be paid to the following information requested on the application:

(1) Address, including dates of any temporary mailing address;

(2) All applicable telephone numbers;

(3) Project description in the space provided:

(a) Description of the work(s) or project(s) to be composed or completed;

(b) Detailed information on costs of supplies and costs of equipment needed to carry out the project (to be shown as materials);

(c) Categories I and II:

(i) specific medium involved

(ii) duration

(iii) performing forces required (size)

(d) Category IV—Individuals wishing to be considered for fellowship-grants in this category should indicate under "Description of Proposed Activity" what might be done if a fellowship-grant is awarded. A specific project is not obligatory, but a project should be described if the applicant has one in mind.

For assistance with opera/lyric theater collaborative projects, each applicant should submit a separate application. Composers and librettists applying for aid for collaborative projects should not submit a joint application. Instead, each applicant should enclose with his/her application a letter of intent with regard to collaboration from the other applicant. However, both applications directed toward the same project will be screened jointly and considered as a single project.

The Music Staff advises applicants to study carefully, point by point, the "General Purpose" and "Categories of Support," as described earlier, before they submit their applications. Applicants are urged to retain duplicates of any materials sent to the agency.

ADDITIONAL REQUIRED MATERIALS

Required of Applicants in All Categories Unless Otherwise Indicated:

(1) Reviews of previous performances. Include sources and dates of reviews. Such reviews are requested to validate public performances and specific context of the performance. If reviews are not available, the applicant should state so. (Not required of applicants in Category IV.)

(2) Supporting statements from two recognized authorities in the field directed toward works of recent date. Supporting statements are requested to affirm the applicant's professional standing as evidenced by other professionals in the field. Such statements, which will remain in the Endowment's files, are confidential and should be sent directly by the writer to the Composer/Librettist Music Program, National Endowment for the Arts, Washington, D.C. 20506. (Not required of applicants in Category IV)

(3) Written evidence of interest.

(a) *Categories I and II*—Written evidence of performance interest should be submitted from a performer, producer, conductor, director or other person charged with production responsibilities.

(b) *Category III*—Written evidence of interest should be submitted from a proposed consultant, e.g., an authority in the field, a publication and/or recording representative. If the project is research, the applicant should prepare a statement indicating where the research is to be conducted, its purpose, specific subject matter, and whether the research is independent or with a designated authority.

A statement of interest is requested to show that funded projects will be publicly performed or published. At the least, the document submitted should state that the completed project will be examined with performance in mind. Such statements are confidential and should be sent directly by the writer to the Composer/Librettist Music Program, National Endowment for the Arts, Washington, D.C. 20506.

(4) Letters indicating collaborative effort:

(a) Each applicant applying for aid of collaborative opera/lyric theatre projects in Categories I and II should request a letter from the collaborating partner to indicate interest in the proposed collaboration;

(b) Such letters should be submitted whether or not the other member(s) of the team has applied for assistance;

(c) All such letters will be used in cross-referencing the applications so that applications concerned with collaborative effort can be considered as one project.

(5) Samples of recent work(s).

The examining committee prefers that all samples of previous work be indicative of the applicants ability to comprehend the medium and to work successfully in the idiom as presented in the application.

At least one score (or libretto) and one tape or recording must be submitted for review in the following manner:

(a) One score (or libretto) properly labelled with the applicant's name, the date of composition, and the title of work. Instrumentation should be specified. If possible, scores of the recorded or taped work should be send *and*

(b) One tape, 7" reel, 7½ ips, leader tape of sufficient length between compositions to quickly locate separate works, head out, in a tape box, properly labelled with the applicant's name, the work(s) enclosed, the date of the recording, the date of composition, and the name of performer(s) or ensemble *or*

(c) One recording, properly labelled with the applicant's name, date of composition, and date of recording.

Because of the increasing number of applications, all applicants are asked to be selective when submitting materials for examination by the Music Advisory Panel.

(6) Category II, only:

(a) The name of the composer involved;

(b) Information concerning previous successful use of librettos by the applicant;

(c) A synopsis of the work involved;

(d) Evidence that rights to adapt the literary work have been obtained.

NOTE: For *all* applicants in the operatic/lyric theater mediums: A requirement of the application file is the submission of a short sample of the libretto for which support is requested. A sample of the libretto set to music would be helpful although it is not required.

GENERAL INFORMATION

APPLICATION PROCESSING

The application, if not completed properly, will be returned to the applicant for corrections. The Endowment cannot accept responsibility for delays occasioned by the late arrival of applications or requests which have been improperly submitted.

Incomplete application files—If an application form is incomplete and/or if all additional required material has not been submitted, the application may be rejected because of insufficient information for review.

Tapes, scores, recordings, and manuscripts received at the Endowment will be returned although the Endowment cannot accept responsibility for losses incurred en route. In addition, applicants should re-examine the statement on responsibility for articles submitted for review, found on page 4.

APPLICATION REVIEW

After an application with all necessary information has been received, the file will be reviewed as follows:

(1) The Endowment Music staff, the Composer/Librettist Advisory Panel, and the National Council on the Arts successively review the application;

(2) The applicant is notified concerning final action taken by the Chairman of the Endowment.

All applications are judged on the quality of the works submitted for review. At no time does the length or medium of the proposed project become a determining factor in the deliberations of the reviewing bodies.

Notices of conditional approval or rejection will be sent only as the Chairman authorizes. Applicants are requested not to seek information on the status of their requests. While the Endowment welcomes expressions of interest in a project, extraordinary pressures beyond direct negotiations are not helpful.

FINAL REPORTS

At the conclusion of the grant period, the Endowment requires final reports from all grantees. Complete instructions on final reporting will accompany the fellowship-grant letter. All grantees are required to submit the following:

(1) A narrative report describing what was accomplished during the grant period;

(2) A copy of the score created as a result of the grant and, if a performance takes place, a copy of a tape of the work, if possible.

PERFORMANCE OF CONTEMPORARY MUSIC

The Endowment is investigating the possibility of establishing contemporary performance institutes throughout the country to bring the composer, performer, conductor, and critic into a working relationship for creative exchange and expanded understanding. Through workshop sessions devoted to the reading of the composer's work it is hoped that these exchanges might result in the increased programming of American compositions in American performance halls.

TAXABILITY OF FELLOWSHIP-GRANTS

The Internal Revenue Code regulations provide that certain fellowships to individuals who are not candidates for degrees are deductible, but only up to a certain amount and for a limited period of time.

A pamphlet entitled *Tax Information for American Scholars in the U.S. and Abroad* will be supplied on request. Generally, this booklet is available at any Internal Revenue Service office. The booklet might be helpful in preparing an application for a proposed fellowship.

The Endowment cannot advise you as to the deductibility of all or any portion of a fellowship, should one be awarded to you. Advice should be sought from your own tax counselor or local Internal Revenue Service office.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-510 and 50-511]

GULF STATES UTILITIES CO. BLUE HILLS STATION, UNITS 1 AND 2

Application for Construction Permits and Facility Licenses

Gulf States Utilities Company (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed August 23, 1974, for authorization to construct and operate two generating units utilizing two pressurized water nuclear reactors. Following a preliminary review for completeness, the application was accepted for docketing on July 30, 1974. Docket Nos. 50-510 and 50-511 have been assigned to the application and should be referenced in any correspondence relating to the application.

The proposed nuclear facility, designated by the applicant as the Blue Hills Station, Units 1 and 2, is located in Newton County, Texas, 9 miles west of the Texas-Louisiana border on the Toledo Bend Reservoir, and each unit is designed for initial operation at 2814 megawatts thermal, with a net electrical output of 930 megawatts.

The Nuclear Regulatory Commission staff has commenced the radiological safety review of the application. However, the applicant's environmental report has not been accepted as of this date. After the environmental report is docketed, a separate notice will be published announcing the availability of the environmental report. It is anticipated that the NRC staff's review of the application, including the yet undocketed environmental report, will span two to three years. Under these circumstances, it has been determined at this time that the soonest practicable time for issuance of the Notice of Hearing is October 1975.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555, and at the Newton County Library, Newton, Texas.

Dated at Bethesda, Maryland, this 7th day of April 1975.

For the Nuclear Regulatory Commission.

KARL KNIEL,
Chief, Light Water Reactors Branch 2-2, Division of Reactor Licensing.

[FR Doc.75-9658 Filed 4-11-75;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS' SUBCOMMITTEE ON EMERGENCY CORE COOLING SYSTEMS

Notice of Meeting

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards Subcommittee on Emergency Core Cooling Systems, will hold a meeting on April 29, 1975, in Room 1046, 1717 H Street, NW., Washington, D.C. The purpose of this meeting will be to discuss analytical models formulated by the Westinghouse Electric Company to meet current ECCS criteria.

The agenda for the subject meeting shall be as follows:

Tuesday, April 29, 1975, 9 a.m. until the conclusion of business. The Subcommittee will hear presentations by representatives of the NRC Staff and the Westinghouse Electric Company and will discuss with these groups analytical models formulated by the Westinghouse Electric Company to meet current ECCS criteria including the use of experimental data, participation in the Standard Problem Program and programs to improve the effectiveness of ECCS.

In connection with the above agenda item, the subcommittee will hold executive sessions, not open to the public, at 8:30 a.m. and at the end of the day to consider matters relating to the above application. These sessions will involve an exchange of opinions and discussion of preliminary views and recommendations of Subcommittee Members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the executive sessions, the Subcommittee may hold closed sessions with representatives of the NRC Staff and the Westinghouse Electric Company for the purpose of discussing privileged information such as that contained in WCAP-8202 concerning SATAN-VI Code, WCAP-8170 concerning WREFLOOD Code, WCAP-8301 concerning LOCTA-1V Code, WCAP-8200 Rev. 2 concerning WFLASH Code, WCAP-8327 concerning COCO Code, and WCAP-8341 concerning sensitivity studies.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the above-noted executive sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552 (b) and that a closed session may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portion of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Subcommittee operation, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, postmarked no later than April 22, 1975 to the Executive Secretary, Advisory Committee on Reactor Safeguards, Nuclear Regulatory Commission, Washington, D.C., 20555. Such comments shall

V 40172 APR 14 75

be based upon related documents on file and available for public inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee between the hours of 2 p.m. and 3 p.m.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for opportunity to present oral statements, and the time alloted, can be obtained by a prepaid telephone call on April 28, 1975 to the Office of the Executive Secretary of the Committee (telephone 202–634–1374) between 8:15 a.m. and 5 p.m., eastern time (Attn: Mr. T. G. McCreless).

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street NW., Washington, D.C. 20555, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available for inspection on or after April 30, 1975 at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street NE., Washington, D.C. 20002 (telephone 202–547–6222) upon payment of appropriate charges.

(j) On request, copies of the minutes of the meeting will be made available for inspection at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555 after July 29, 1975. Copies may be obtained upon payment of appropriate charges.

Dated: April 11, 1975.

JOHN C. HOYLE,
Acting Advisory Committee Management Officer.

[Docket No. 50-309]

MAINE YANKEE ATOMIC POWER CO.

Notice of Proposed Issuance of Amendment to Facility Operating License

The Nuclear Regulatory Commission (the Commission) is considering the issuance of an amendment to Facility Operating License No. DPR-36 issued to Maine Yankee Atomic Power Company (the licensee) for operation of the Maine Yankee Atomic Power Station (the facility), located in Lincoln County, Maine.

In accordance with the licensee's application for a license amendment dated March 27, 1975, the amendment would add provisions in the Technical Specifications relating to the design of the spent fuel storage racks. The licensee proposes to replace the existing spent fuel storage racks which have a capacity of 318 assemblies with anodized aluminum fixed-poison (Boral) curtain racks which have a capacity of 953 assemblies. This increased capacity would be accomplished as a result of the reduced center-to-center spacing of assemblies in the design of the proposed spent fuel storage racks. Fixed neutron absorbing material is to be used to compensate for the effects of the reduced spacing.

Prior to issuance of the proposed license amendment, the Commission will have made the findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

By May 14, 1975, the licensee may file a request for a hearing and any person whose interest may be affected by the proceeding may file a request for a hearing in the form of a petition for leave to intervene with respect to the issuance of the amendment to the subject facility operating license. Petitions for leave to intervene must be filed under oath or affirmation in accordance with the provisions of § 2.714 of 10 CFR Part 2 of the Commission's regulations. A petition for leave to intervene must set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions with respect to the proposed licensing action. Such petitions must be filed in accordance with the provisions of this FEDERAL REGISTER notice and § 2.714, and must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section by the above date. A copy of the petition and/or request for a hearing should be sent to the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 and to John A. Ritsher, Esquire, and Thomas G. Dignan, Jr., Esquire, Ropes and Gray, 225 Franklin St., Boston, Massachusetts 02110, attorneys for the licensee.

A petition for leave to intervene must be accompanied by a supporting affidavit which identifies the specific aspect or aspects of the proceeding as to which intervention is desired and specifies with particularity the facts on which the petitioner relies as to both his interest and his contentions with regard to each aspect on which intervention is requested. Petitions stating contentions relating only to matters outside the Commission's jurisdiction will be denied.

All petitions will be acted upon by the Commission or licensing board designated by the Commission or by the Chairman of the Atomic Safety and Licensing Board Panel. Timely petitions will be considered to determine whether a hearing should be noticed or another appropriate order issued regarding the disposition of the petitions.

In the event that a hearing is held and a person is permitted to intervene, he becomes a party to the proceeding and has a right to participate fully in the conduct of the hearing. For example, he may present evidence and examine and cross-examine witnesses.

For further details with respect to this action, see the application for amendment dated March 27, 1975, which is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and at the Wiscasset Public Library Association, High Street, Maine. The license amendment and the Safety Evaluation, when issued, may be inspected at the above locations and copies may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 10th day of April 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch No. 1, Division of Reactor Licensing.

POSTAL RATE COMMISSION

[Docket No. MC73-1]

MAIL CLASSIFICATION SCHEDULE, 1973

Notice of Further Conferences

APRIL 9, 1975.

Notice is hereby given that the Administrative Law Judge has scheduled the following informal Phase I Settlement Conferences, in the above-designated proceeding, to be held at the times, places, and for the purposes stated:

1. April 15, 1975 (Technical Conference), at 10 a.m., in the offices of the U.S. Postal Service, 475 L'Enfant Plaza West, SW, Washington, D.C., to discuss depreciation systems and cost ascertainment systems.

2. April 16, 1975, at 10 a.m., in the Postal Rate Commission hearing room, Suite 500, 2000 L Street, NW, Washington, D.C., to discuss the non-standard and minimum-size proposals.

The formal hearing in this proceeding will resume on April 14, 1975, at 10 a.m., Postal Rate Commission hearing room.

JAMES R. LINDSAY,
Secretary of the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-5655]

ALLEGHENY POWER SYSTEM, INC., ET AL.

Proposed Issue and Sale of Common Stock; Capital Contribution; Proposed Amendment of Articles of Incorporation

APRIL 7, 1975.

In the matter of Allegheny Power System, Inc., 320 Park Avenue, New York, New York, 10022, Monongahela Power Company, 1310 Fairmont Avenue, Fairmont, West Virginia, 26554, the Potomac Edison Company, Downsville Pike, Hagerstown, Maryland, 21740, West Penn Power Company, Cabin Hill, Greensburg, Pennsylvania, 15601.

Notice is hereby given that Allegheny Power System, Inc. ("APS"), a registered holding company, and three of its public-utility subsidiary companies, Monongahela Power Company ("Monongahela"), The Potomac Edison Company ("PE"), and West Penn Power Company ("West Penn"), have filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6, 7, 9, 10 and 12 thereof and Rule 50(a)(3) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

APS proposes to acquire additional shares of common stock of Monongahela and PE and to make a further investment in the equity of West Penn by means of a capital contribution, in the amounts not to exceed those set forth in the table below, from time to time prior to December 31, 1975.

Subsidiary and title of issue	Shares	Cash consideration
Monongahela:		
Common stock—$50 par	300,000	$15,000,000
PE:		
Common stock—no par	500,000	10,000,000
West Penn:		
Capital contributions		15,000,000

The net proceeds of the issuance and sale of common stock by Monongahela and PE and of the cash capital contributions to West Penn will be used by each of them for their construction programs. For the year 1975, construction expenditures in the case of Monongahela, PE, and West Penn are estimated at $52 million, $34 million, and $56 million, respectively. All of the presently outstanding common stock of Monongahela, PE, and West Penn is owned by APS.

Monongahela proposes to amend its charter to increase the number of shares of common stock which it is authorized to issue from 1,960,000 to 2,960,000 shares. PE proposes to amend its charter to increase the number of shares of common stock which it is authorized to issue from 4,625,000 shares to 5,125,000 shares.

It is estimated that total expenses, including legal fees to be incurred by APS, Monongahela, PE, and West Penn, will not exceed $3,500. Prior authorization of the West Virginia Public Service Commission and the Ohio Public Utilities Commission in the case of Monongahela, and the Virginia State Corporation Commission, the Maryland Public Service Commission, and the West Virginia Public Service Commission in the case of PE, and the Maryland Public Service Commission as to the acquisition of the PE common stock by APS is required in connection with the proposed transactions. Registration by the Pennsylvania Public Utility Commission of a Securities Certificate with respect to the PE issuance of common stock is also required. It is stated that no other state or federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than April 29, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[File No. 811-118]

AXE-HOUGHTON STOCK FUND, INC.

Filing of Application

APRIL 8, 1975.

Notice is hereby given that Axe-Houghton Stock Fund, Inc. ("Stock Fund-Maryland"), 400 Benedict Avenue, Tarrytown, New York 10591, registered under the Investment Company Act of 1940 ("Act") as a management open-end investment company, filed an application on February 21, 1975, pursuant to section 8(f) of the Act for an order declaring that its predecessor, Axe-Houghton Stock Fund, Inc. ("Stock Fund—Delaware"), has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The application represents that Stock Fund—Delaware was merged on September 13, 1974, into Stock Fund—Maryland and that thereupon the corporate existence of Stock Fund—Delaware ceased and all of its assets and liabilities were transferred by operation of law to Stock Fund—Maryland.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than May 5, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponement thereof.

V 40 172 APR 14 75 XUM

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[File No. 811-282]

AXE-HOUGHTON FUND A, INC.

Filing of Application

APRIL 8, 1975.

Notice is hereby given that Axe-Houghton Fund A, Inc. ("Fund A-Maryland"), 400 Benedict Avenue, Tarrytown, New York, 10591, registered under the Investment Company Act of 1940 ("Act") as a management open-end investment company, filed an application on February 21, 1975, pursuant to section 8(f) of the Act for an order declaring that its predecessor, Axe-Houghton Fund A, Inc. ("Fund A-Delaware"), has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The application represents that Fund A-Delaware was merged on March 15, 1974, into Fund A-Maryland and that thereupon the corporate existence of Fund A-Delaware ceased and all of its assets and liabilities were transferred by operation of law to Fund A-Maryland.

Section 8(f) of the Act provides, in pertinent part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than May 5, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. [File No. 70-5415]

MIDDLE SOUTH UTILITIES, INC., ET AL.

Post-Effective Amendment Regarding Fuel Transportation Program

APRIL 7, 1975.

In the matter of Middle South Utilities, Inc., P.O. Box 61005, New Orleans, Louisiana 70161, Arkansas Power & Light Company, Ninth and Louisiana Streets, Little Rock, Arkansas 72203, Louisiana Power & Light Company, 142 Delaronde Street, New Orleans, Louisiana 70174, Mississippi Power & Light Company, P.O. Box 1640, Jackson, Mississippi 39205, New Orleans Public Service, Inc., P.O. Box 60340, New Orleans, Louisiana 70160, System Fuels, Inc., P.O. Box 61532, New Orleans, Louisiana 70161.

Notice is hereby given that System Fuels, Inc. ("SFI"), a jointly-owned nonutility subsidiary company of Arkansas Power & Light Company, Louisiana Power & Light Company, Mississippi Power & Light Company, and New Orleans Public Service, Inc., each an electric utility subsidiary company of Middle South Utilities, Inc., a registered holding company, have filed with this Commission a post-effective amendment to the application-declaration in this proceeding pursuant to sections 9(a) and 10 of the Public Utility Holding Company Act of 1935 ("Act") regarding the following proposed transaction. All interested persons are referred to the amended application-declaration, which is summarized below, for a complete statement of the proposed transactions.

By order in this proceeding dated December 17, 1973 (HCAR No. 18221), the Commission, among other things, authorized SFI to expend and finance not more than $2,000,000 as its 50 percent share of the then estimated $4,000,000 total cost of a comprehensive feasibility study relating to a coal slurry pipeline to extend from the State of Wyoming to the State of Arkansas. The other parties to the study now are three nonaffiliated entities which have agreed to supply the balance of the total cost. By supplemental order dated January 23, 1975 (HCAR No. 18785), SFI was authorized to make additional expenditures, through March 31, 1975, of $500,000, its proportional 50 percent share of an aggregate $1,000,000 cost over-run.

By a further post-effective amendment, it is now stated that additional expenditures through the end of 1975, prior to determining project feasibility, could be as much as $1.7 million or as little as $800,000 depending upon the date of the disposition of outstanding issues of feasibility, and SFI may need authorization to finance its 50 percent share thereof. Presently, however, SFI requests authorization to make additional expenditures for the study in the amount of $200,000, towards the estimated costs during the period April 1 through June 30, 1975. On or prior to July 1, 1975, SFI will advise the Commission of the status of the feasibility study and will seek such further Commission authorization as may be necessary at that time.

No State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than May 1, 1975, request in writing; that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulation promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

STANDARDS ADVISORY COMMITTEE ON COKE OVEN EMISSIONS

Notice of Meetings

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Standards Advisory Committee on Coke Oven Emissions, established under section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656), will meet on April 28, 29 and 30, 1975, in Birmingham, Alabama; on May 12, 13 and 14, 1975, in Arlington, Virginia; and on May 20, 21 and 22, 1975, in Washington, D.C. The meetings are open to the public and all interested persons are encouraged to attend. It should be noted that the Committee will complete its activity by May 24, 1975, which may necessitate the addition of supplemental meeting dates. Notice of such additional dates will be announced as soon as a determination has been made that it will be necessary in order for the Committee to complete its deliberations and recommendations. Similarly, if the Committee does not need the dates already scheduled in order to complete its activities, the meetings will be cancelled and notice will be given immediately. Interested persons are encouraged to maintain communication with the Committee Management Office (address given below) in order to verify the schedule as Committee activities progress.

1. *Meeting schedule.* The meeting, which will begin at 11:30 a.m. on April 28 in the Tudor Room of the Parliament House Hotel, 420 South Twentieth Street, Birmingham, Alabama, will be followed by a Committee field trip later that same day. The meeting will continue at 9 a.m. at the same location on April 29 and 30.

The field trip on April 28 to the U.S. Steel coke oven facility in Fairfield, Alabama, was requested unanimously by the Committee at its meeting on March 5, 1975. The field trip will be conducted at the invitation of U.S. Steel in accordance with guidelines described below to which U.S. Steel has agreed. In order to provide for an adequate record consistent with the Committee's request, and in order to provide for reasonable public participation, the following guidelines have been established for this field trip:

(a) The Committee resolution requested that a proper stenographic record be made. Arrangements have been made for a court reporter to accompany the Committee with a tape recorder, and for the reporter to prepare a verbatim transcript of the taped remarks.

(b) The Committee resolution requested that a proper photographic record be maintained. Arrangements have been made for U.S. Steel to provide a company photographer to take such photographs as the Committee requests. Other cameras will not be permitted.

(c) An opportunity will be provided for reasonable participation by the public. It has been determined that a total of 20 persons would be a maximum feasible number of participants in the group, given the practical limitations imposed by the nature of the field trip, for example, the size of the coke oven batteries, the hazards from moving equipment on the batteries and the possible interference with the operation of the batteries. This number includes Committee members, Occupational Safety and Health Administration (OSHA) support staff, and the court reporter, which leaves approximately seven members of the public who can be included in the field trip. In order to determine which members of the public will be included, the OSHA will select on a random basis (drawing) the names of the public participants from among the names submitted. Therefore, persons interested in attending must submit their name, address and phone number either in writing, by telephone, or in person to:

Ms. Jeanne W. Ferrone
Committee Management Office
U.S. Department of Labor—OSHA
1726 M. Street, NW., Room 200
Washington, D.C. 20210
(Phone: 202/961-3181)

The statement of intention to participate in the field trip must be received at the above office no later than close of business on Monday, April 21, 1975, in order that the names may be selected and the persons notified prior to the meeting and the trip. The drawing will be held at 9 a.m. on April 22 and letters of confirmation will immediately be mailed to those selected. The office will also attempt to notify, by phone, those who were selected. If a chosen member of the public is unable to participate, no substitutions will be allowed. Rather, the Department of Labor will notify the next eligible of his opportunity to participate.

2. *May meeting schedules and locations.* The meeting on May 12 will begin at 10 a.m. in the Georgetown Room of the Key Bridge Marriott Hotel, 1401 Lee Highway, Arlington, Virginia. The meeting will continue on May 13 and 14, beginning at 9 a.m. each day.

The meeting on May 20 will begin at 10 a.m. in the Dupont Room of the Dupont Plaza Hotel, 1616 New Hampshire Avenue, NW., Washington, D.C. Subsequent meetings on May 21 and 22 will begin at 9 a.m. All of these meetings will be open to the public.

3. *Agenda items.* Committee activity will be directed by the Chairwoman and will consist of discussing and formulating recommendations to the Assistant Secretary of Labor. These deliberations will encompass a broad range of topics (for example, medical surveillance, training, education, labeling and posting requirements, personal protective equipment, sampling and analytical methods, engineering and administrative controls, etc.). It is impossible to predict a more precise work schedule at this time.

4. *General information.* These meetings will be the ninth, tenth and eleventh of this ad hoc committee which began its deliberations on November 6, 1974. The Committee will submit its recommendations within 200 days from the date of its initial meeting.

Although persons desiring to make an oral presentation to the Committee may submit a written request to be heard to the Committee Management Office at least three days prior to the meeting date at which the person wishes to appear, these parties are encouraged to submit such comments in writing rather than request oral presentations because oral presentations will necessarily be restricted due to time constraints.

V 40 I 72 APR 14 75 XUM

Any member of the public wishing to submit written presentations to the Committee may do so by filing such a statement, together with 20 duplicate copies, with the Committee Management Officer. Such submissions will be provided to the members of the Committee and will be included in the record of the meeting.

The Committee has previously requested relevant information or data regarding the Committee's task. It is important that the Committee receive any such information as quickly as possible. Communications should be addressed to Ms. Jeanne W. Ferrone at the address listed above. All materials which have been submitted to, or developed by, the Committee since the beginning of its deliberations, as well as the official record of all Committee proceedings, are available for public inspection and copying at that same location.

NOTE: It was not possible to meet the requirement for 15 days' advance notice for the April 28–30, 1975, meeting of this advisory committee. Final details and arrangements for the field trip on April 28th were not completed until the end of the day at the April 8, 1975, meeting of this advisory committee, in Washington, D.C.

Signed at Washington, D.C., this 9th day of April, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[AB 1 (Sub-No. 30)]

CHICAGO AND NORTH WESTERN TRANSPORTATION CO.

Abandonment Between Blue Earth and Elmore, in Faribault County, Minnesota

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

It appearing, That no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, *et seq.*; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Faribault County, Minn., on or before April 23, 1975, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the Federal Register.

Dated at Washington, D.C., this 1st day of April, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

[AB 1 (Sub-No. 30)]

CHICAGO AND NORTH WESTERN TRANSPORTATION COMPANY ABANDONMENT BETWEEN BLUE EARTH AND ELMORE, IN FARIBAULT COUNTY, MINNESOTA

The Interstate Commerce Commission hereby gives notice that by order dated April 1, 1975, it has been determined that the proposed abandonment by the Chicago and North Western Transportation Company of its line of railroad between Milepost 34.5 near Blue Earth to Milepost 43.5 near Elmore, a distance of 9 miles, all in Faribault County, Minn., if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, *et seq.*, and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because (1) the low amount of traffic handled on the subject line, (2) the presence of U.S. Highway 169 and other adequate highways in the area, and (3) the availability of at least two nearby rail service sites. In addition, if the abandonment be approved, the Minnesota Department of Natural Resources as well as any other public agency will have the opportunity to offer to purchase all or part of the right-of-way property for public use.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 8, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75-9676 Filed 4-11-75;8:45 am]

[Finance Docket Nos. 27608, 27609]

PB R.R., INC.

Construction and Operation, Comal County, Texas; Securities

Upon consideration of the record in the above-entitled proceedings, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

It appearing, That no environmental impact statement need be issued in these proceedings because these proceedings do not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. §§ 4321, *et seq.*; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby directed to publish the appended notice in a newspaper of general circulation in Comal County, Texas on or before April 24, 1975 and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 2d day of April.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

PB R.R., INC., CONSTRUCTION AND OPERATION—COMAL COUNTY, TEXAS

PB R.R., INC., SECURITIES

The Interstate Commerce Commission hereby gives notice that by order dated April 2, 1975, it has been determined that the proposed construction and operation of a line of railroad by the PB R.R. located southwest of the city of New Braunfels, in Comal County, Texas, a distance of 1.95 miles, and the proposed issuance of securities to finance such construction, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. §§ 4321, *et seq.*, and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the environmental effects of these action are insignificant because the rail line will not represent a use incompatible with the surrounding land use. The tributary territory is devoted almost exclusively to quarry mining and cattle grazing. There are very few residential homes in the vicinity. Construction of this line will result in only a minimal disruption to the land because the line will be placed on an abandoned railroad bed. The secondary impacts associated with the proposed construction will be environmentally beneficial to the extent it encourages economic development in this section of Comal County.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before May 9, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

DISCOVERY RULES

Policy Regarding Interrogatories

APRIL 7, 1975.

Since the effective date of the Commission's Discovery rules promulgated in Ex Parte No. 55 (Sub-No. 3) and published in 346 I.C.C. 603, the Commission has received a number of pleadings resulting from the use of written interrogatories as provided by Rule 62. In order to avoid misunderstanding by persons affected by these rules, the following policy is hereby adopted.

Under Rule 62, all interrogatories are to be answered unless objected to, in which case the objection is to be stated in lieu of the answer. The replies to interrogatories, whether containing answers or objections, are to be served upon the party submitting the interrogatories within the time limits set forth. A motion to strike interrogatories will not be considered appropriate in lieu of the procedure provided by Rule 62 and will not be received. Petitions for protective orders with respect to interrogatories are deemed premature and will not be considered unless there is pending (a) an order of the Commission pursuant to Rule 67 requiring that answers be furnished or (b) a motion to compel an answer.

[SEAL] ROBERT L. OSWALD,
Secretary.

ASSIGNMENT OF HEARINGS

APRIL 9, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC-C-9436, Connecticut Limousine Service, Inc. V. Hyman Levine D.B.A. Hy's Livery Service, now assigned April 21, 1975, at Hartford, Connecticut, has been postponed to May 19, 1975, at Hartford, Connecticut in Room 301 U.S. Post Office, 135 High Street.

I & S, Coal Transfer Charges at Lake Erie Ports, now being assigned May 20, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

No. 35794, Northville Dock Pipe Line Corp. and Consolidated Petroleum Terminal, Inc.—Petition for Declaratory Order or Investigation, and No. 35852, Northville Dock Pipe Line Corp., Northville Industries Corp., Consolidated Petroleum Terminal, Inc. and Total Resources, Inc.—Investigation of Operation, now assigned April 8, 1975, is postponed to April 28, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

Finance Docket No. 26223, New Hope and Ivyland Railroad Company Reorganization, now being assigned May 20, 1975 (4 days), at Philadelphia, Pa., in Room 3240, William J. Green, Jr. Federal Building, 600 Arch Street.

FOURTH SECTION APPLICATION FOR RELIEF

APRIL 9, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before April 29, 1975.

FSA No. 42971—*Joint Water-Rail Container Rates—Japan Line, Ltd.* Filed by Japan Line, Ltd., (No. 7), for itself and interested rail carriers. Rates on general commodities, from rail stations on the U.S. Atlantic and Gulf Seaboard, to ports in Peoples Republic of China. Grounds for relief—Water competition.

By the Commission.

[Notice No. 264]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

APRIL 14, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before May 5, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75627. By order of March 27, 1975, the Motor Carrier Board approved the transfer to Hi-Cube Transport, Inc., Wales, Mass., of a portion of the operating rights in Certificate No. MC 135127 issued March 25, 1971, to Green Brook Transportation Co., Inc., Green Brook, N.J., authorizing the transportation of general commodities, with exceptions, and specified commodities between specified points and areas in Massachusetts, Rhode Island, Connecticut, New York, and New Jersey. David M. Marshall, 135 State St., Springfield, Mass., 01103, attorney for applicants.

No. MC-FC-75692. By order of March 14, 1975, the Motor Carrier Board approved the transfer to Charles N. Bucholz, doign business as Bucholz Transportation, Watertown, S. Dak., of the operating rights in Permit No. MC 127526 issued June 25, 1970, to Cecil N. Bucholz, Watertown, S. Dak., authorizing the transportation of malt beverages and, in connection therewith, supplies and advertising matter, from Minneapolis, Minn., to Watertown, S. Dak., under continuing contract with Kahnke Beverage Co., and Brewster Distributing Co., both of Watertown. Thomas J. Green, 17 Second Avenue SW., Watertown, S. Dak. 57201, attorney for applicants.

No. MC-FC-75702. By order entered March 17, 1975, the Motor Carrier Board approved the transfer to Wil-Com Truck Line, Inc., Mebane, N.C., of the operating rights set forth in permit No. MC 136471 (Sub-No. 1), issued August 28, 1973, to Claiborn F. Wilkerson, Jr., and Burch C. Compton, doing business as Wil-Com Truck Lines, Mebane, N.C., authorizing the transportation of plastic pipe, from points in Orange County, N.C., to points in South Carolina, Georgia, Alabama, Mississippi, Tennessee, Virginia, Maryland, Florida, Louisiana, West Virginia, Ohio, Delaware, Kentucky, Pennsylvania, and New Jersey; and from Findley, Ohio, Cordele, Ga., and Halls, Tenn., to points in Orange County, N.C., under a continuing contract, or contracts, with Hancor, Inc., of Mebane, N.C.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Applications

APRIL 7, 1975.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's gateway elimination rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of verified statements in

V 40 172 APR 14 75 XUM

opposition with the Interstate Commerce Commission on or before May 15, 1975. (This procedure is outlined in the Commission's report and order in Gateway Elimination, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

MC 1647 (Sub-No. 6G), filed June 4, 1974. Applicant: READDING VAN & STORAGE CO., INC., 1846 North West Boulevard, Vineland, N.J. 08360. Applicant's representative: Robert J. Gallagher, 1776 Broadway, New York, N.Y. 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in New Jersey, Pennsylvania, Delaware, Maryland, New York, and the District of Columbia; and (2) between the above-named points on the one hand, and, on the other, points in Massachusetts, Rhode Island, Connecticut, Georgia, North Carolina, South Carolina, Ohio, West Virginia, Florida, and Virginia. The purpose of this filing is to eliminate the gateway at Egg Harbor, N.J.

No. MC 1872 (Sub-No. 82G), filed June 4, 1974. Applicant: ASHWORTH TRANSFER, INC., 1528 South 700 West, Salt Lake, City, Utah 84104. Applicant's representative: P. Robert Reeder, P.O. Box 11898, 79 South State St., Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Contractors equipment and supplies*, Between points in Utah and Coconino County, Ariz. north of an east-west line extending through The Gap, Arizona on the one hand, and, on the other, points in Nebraska, Kansas, Missouri, Iowa, Colorado, Wyoming, and South Dakota. The purpose of this filing is to eliminate the gateways at points in Utah, Uinta and Sweetwater Counties, Wyo.

(2) *Contractors equipment, materials, and supplies* when also self-propelled articles, each weighing 15,000 pounds or more, and *related machinery, tools, parts and supplies* moving in connection there with, Between points in Nebraska, Kansas, Missouri, Iowa, Colorado, Wyoming, South Dakota, Montana, Nevada, Utah, Idaho, Arizona, New Mexico, Oregon, and Washington, on the one hand, and, on the other, points in Nebraska, Kansas, Missouri, Iowa, Colorado, Wyoming, South Dakota, Montana, Nevada, Utah, Idaho, Arizona, New Mexico, Oregon, and Washington.

(3) *Contractors equipment, materials, and supplies* when also commodities as require special equipment or handling by reason of size or weight when also commodities which do not require the use of special equipment, when moving in mixed loads and on the same bill of lading with commodities which because of size or weight require the use of special equipment, Between points in Nebraska, Kansas, Missouri, Iowa, Colorado, Wyoming, South Dakota, Montana, Nevada, Utah, Idaho, Arizona, New Mexico, Oregon and Washington, on the one hand, and, on the other, points in Nebraska, Kansas, Missouri, Iowa, Colorado, Wyoming, South Dakota, Montana, Nevada, Utah, Idaho, Arizona, New Mexico, Oregon and Washington. The purpose of this filing is (2) and (3) above is to eliminate the gateways at Utah, Montana, Colorado, and Wyoming.

(4) *Lumber and lumber products*, (4) (a) Between Salt Lake City, Utah, and points in Utah within 50 miles of Salt Lake City, Utah, on one hand, and, on the other, points in Teton, Sublette, Lincoln, Uinta Counties, Wyoming points in Nevada, Colorado, and points in Idaho (except points north of the Salmon River). The purpose of this filing is to eliminate the gateways at points in Teton, Sublette, Lincoln, and Uinta Counties, Wyo. and points in Idaho.

(4) (b) From points in Idaho and Montana, to points in Colorado, Utah, and Nevada and points in Teton, Sublette, Lincoln, and Uinta Counties, Wyo. The purpose of this filing is to eliminate the gateways at points within 50 miles of Salt Lake City, Utah and Teton, Lincoln, Sublette, Uinta Counties, Wyo.

(5) *Lumber and lumber products* when also contractors materials and supplies, Between points in Utah, Wyoming, Colorado, Nebraska, Kansas, Iowa, Missouri, South Dakota, Nevada, Idaho (except points north of the Salmon River), and Coconino County, Ariz. (north of the east-west line extending through The Gap, Arizona.) The purpose of this filing is to eliminate the gateways at points in Uinta and Sweetwater Counties, Wyo., and points in Utah. (B) From points in Idaho and Montana to points in Nevada, Utah, Coconino County, Arizona, Wyoming, Colorado, Nebraska, Kansas, Iowa, Missouri, and South Dakota. The purpose of this filing is to eliminate the gateways at Salt Lake City and 50 miles thereof and points in Wyoming.

(6) *Lumber and lumber products* when also building materials, between points in Utah, and Idaho (except points north of the Salmon River), points in Coconino County, Ariz. and Sweetwater and Uinta Counties, Wyo. The purpose of this filing is to eliminate the gateway at Salt Lake City and 50 miles thereof.

(7) *Lumber* and *Lumber products* when also commodities which do not require the use of special equipment, when moving in mixed loads on the same bill of lading with commodities which because of size or weight require the use of special equipment. (7) (a) Between points in Washington, Oregon, Nevada, Utah, Wyoming, Idaho (south of but not including Idaho County, Idaho), points in that part of Arizona north and west of the Colorado River, points in that part of Colorado on and west of U.S. Highway 85, and points in that part of Idaho south of, but not including, Idaho County, Idaho. (7) (b) From points in Idaho and Montana, to points in Washington, Oregon, Nevada, Wyoming, points in that part of Arizona north and west of the Colorado River and points in that part of Colorado on and west of U.S. Highway 85.

(8) *Self-propelled articles*, each weighing 15,000 pounds or more, *and related machinery, tools, parts and supplies* moving in connection therewith, Between points in Arizona, Colorado, Idaho, Montana, Nevada, Utah, Wyoming, New Mexico, Oregon and Washington on the one hand, and, on the other, points in Montana, Nevada, Utah, Wyoming, Idaho, Colorado, Arizona, New Mexico, Oregon, and Washington.

(9) *Such commodities* as require special equipment or handling by reason of size or weight *and of related machinery parts and related materials and supplies*, when the transportation thereof is incidental to the transportation by said carrier of such commodities when also commodities which do not require the use of special equipment, when moving in mixed loads and on the same bill of lading with commodities which because of size or weight require the use of special equipment, Between points in Montana, Nevada, Utah, Wyoming, Idaho, Colorado, Arizona, New Mexico, Oregon, and Washington on the one hand, and, on the other, points in Montana, Nevada, Utah, Wyoming, Idaho, Colorado, Arizona, New Mexico, Oregon, and Washington.

(10) *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carriers Certificates*, 61 M.C.C. 209 when such articles are also commodities which require special equipment or handling because of size or weight when also commodities which do not require the use of special equipment, when moving in mixed loads and on the same bill of lading with commodities which because of size or weight require the use of special equipment, Between points in Arizona, Colorado, Idaho, Montana, New Mexico, Nevada, Wyoming, Utah, Oregon and Washington. The purpose of this filing is (7), (8), (9), and (10), above is to eliminate the gateways at points in Utah and Montana.

(11) *Sand*, when also building materials, From Hamilton, Wash., to Utah, Nev. points in Sweetwater and Uinta Counties, Wyo., and Coconino County, Ariz. The purpose of this filing is to eliminate the gateway at Salt Lake City, Utah.

(12) *Sand* when also contractors supplies, From Hamilton, Wash., to points in Nebraska, Kansas, Missouri, Iowa, Colorado, Wyoming, South Dakota, Utah and Coconino County, Ariz. The purpose of this filing is to eliminate the gateways at Salt Lake City, Utah, and points in Uinta and Sweetwater Counties, Wyo.

(13) (a) Between points in Utah, and Nevada, and points in Sweetwater and Uinta Counties, Wyo., and Coconino County, Ariz., north of an east-west line extending through The Gap, Ariz. (13) (b) Between points in Utah, and Idaho

(except points north of the Salmon River), points in Sweetwater, and Uinta Counties, Wyo., and Coconino County, Ariz., and east-west line extending through The Gap, Arizona. The purpose of this filing is (13) (a) and (13) (b) above is to eliminate the gateway at Salt Lake City, Utah and 50 miles thereof. (13) (c) From Great Falls and Black Eagle, Montana, and Vancouver, Wash., to points in Utah, Sweetwater, and Uinta Counties, Wyo., and Coconino County, Ariz., north of an east-west line extending through The Gap, Ariz. The purpose of this filing is to eliminate the gateway at points in Idaho and Utah.

(13) (d) From points in Utah, on the one hand, and, on the other, points in Montana. (13) (e) From Coconino County, Arizona, north of an east-west line extending through The Gap, Arizona, to points in Montana. (13) (f) From Sweetwater and Uinta Counties, Wyo. to points in Montana. The purpose of this filing in (13) (d), (13) (e), and (13) (f), above is to eliminate the gateways at Boise, Idaho, and Salt Lake City, Utah.

(14) *Building materials* when also contractors materials and supplies, (14) (a) Between points in Utah, Wyoming, Colorado, Nebraska, Kansas, Iowa, Missouri, South Dakota, Nevada, and Idaho (except points north of the Salmon River). The purpose of this filing is to eliminate the gateway at Salt Lake City, Utah, and 50 miles thereof, and points in Uinta and Sweetwater Counties, Wyo. (14) (b) From points in Nebraska, Kansas, Missouri, Iowa, South Dakota, Colorado, and Wyoming to points in Montana. The purpose of this filing is to eliminate the gateways at Boise, Idaho, Salt Lake City, Utah, and 50 miles thereof, and points in Uinta and Sweetwater Counties, Wyo. (14) (c) From Great Falls and Black Eagle, Montana, and Vancouver, Wash., on the one hand, and, on the other points in Wyoming, Colorado, Nebraska, Kansas, Missouri, Iowa, and South Dakota. The purpose of this filing is to eliminate the gateways at Boise, Idaho, and Salt Lake City, Utah, and 50 miles thereof, and points in Teton, Sublette, Lincoln, Uinta, and Sweetwater Counties, Wyo.

(15) *Building materials* when also contractors materials and supplies when also commodities which do not require the use of special equipment when moving in mixed loads and on the same bill of lading with commodities which because of size or weight require the use of special equipment, Between points in Nebraska, Kansas, Iowa, Missouri, South Dakota, Nevada, Idaho, south of, but not including Idaho County, Idaho, Coconino County, Ariz., Wyoming, Colorado, Montana, Washington, Utah, Oregon, and in the part of Arizona north and west of the Colorado River. The purpose of this filing is to eliminate the gateways at points in Wyoming, Colorado, west of U.S. Highway 85, Montana and Utah.

(D) *Frozen foods*, from points in Ohio, to points in California. The purpose of this filing is to eliminate the gateways of Detroit, Mich. and Columbus, Ohio.

(E) *Meats*, from Goodlettsville, Tenn., to points in California. The purpose of this filing is to eliminate the gateways of Atlanta, Ga., and Bristol, Tenn.

(F) *Meats*, from Chicago, Ill., to Los Angeles, Calif. The purpose of this filing is to eliminate the gateway of Atlanta, Ga.

(G) *Meats*, from Chicago, Ill., to points in California, Oregon, and Washington. The purpose of this filing is to eliminate the gateway of Bristol, Tenn.

(H) *Frozen foods*, from California, Oregon and Washington, to points in Louisiana. The purpose of this filing is to eliminate the gateways of Mississippi and Florence, Ala.

No. MC 109397 (Sub-No. 299G), filed June 3, 1974. Applicant: TRI-STATE MOTOR TRANSIT CO., a corporation, P.O. Box 113, Joplin, Mo. 64801. Applicant's representative: Charles O. Gillogly (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Radioactive materials and radioactive material handling containers*, between points in the United States (except Alaska and Hawaii), on the one hand, and, on the other, points in Illinois. The purpose of this filing is to eliminate the gateway of Morris, Ill.

(2) *source, special nuclear and by-product materials*, when requiring special handling, between Dickerson, Md., on the one hand, and, on the other, points in the Lower Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Lucas County, Ohio.

(3) *radioactive materials and radioactive material handling containers* when requiring special handling, from points in the United States (except Alaska and Hawaii), to points in Kentucky. The purpose of this filing is to eliminate the gateways of Lynchburg (Campbell County), Va., Wilmington (New Hanover County), N.C., Morris (Grundy County), Ill., and Quehanna, Pa.

No. MC 111594 (Sub-No. 59G), filed May 31, 1974. Applicant: C W TRANSPORT, INC., 610 High Street, Wisconsin Rapids, Wis. 54494. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferric Chloride*, in bulk, in rubber lined tank vehicles, from the plant site and storage facilities of K A Steel Chemicals, Inc., located at Lemont, Ill. to points in Indiana; to points in Michigan on, west, and south of a line beginning at the junction of Interstate Highway 75 and the town of Mackinaw City; thence south on Interstate Highway 75 to junction Michigan Highway 76; thence southeast over Michigan Highway 76 to West Branch; thence east over Michigan Highway 55 to Lake Huron; points in the Upper Peninsula of Michigan on and south of a line beginning at the junction of U.S. Highway 2 and the town of Ironwood; thence east over U.S. Highway 2 to the junction of Michigan Highway 134; thence east over Michigan Highway 134 to Lake Huron; and points in Wisconsin on, south and east of a line beginning at the junction of U.S. Highway 53 and the town of La Crosse; thence north over U.S. Highway 53 to junction U.S. Highway 10; thence east over U.S. Highway 10 to junction Wisconsin Highway 73; thence north over Wisconsin Highway 73 to junction Wisconsin Highway 64; thence east over Wisconsin Highway 64 to Merrill; thence north over U.S. Highway 51 to junction U.S. Highway 8; thence east over U.S. Highway 8 to the Wisconsin-Michigan State line. The purpose of this filing is to eliminate the gateway at Waukegan, Ill.

No. MC 111940 (Sub-No. 60G), filed June 3, 1974. Applicant: SMITH'S TRUCK LINES, P.O. Box 88, Muncy, Pa. 17756. Applicant's representative: John M. Musselman, P.O. Box 1146, 410 North Third Street, Harrisburg, Pa. 17108. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: (1) *Agricultural commodities*, between points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia and the District of Columbia, on the one hand, and, on the other, points in New York, New Jersey, Maryland, and the District of Columbia and (2) *new and used empty containers* used in the transportation of agricultural commodities, from points in Maryland, New Jersey, New York and the District of Columbia, to points in Delaware, Maryland, New Jersey, New York, Pennsylvania, and the District of Columbia. The purpose of this filing is to eliminate the gateway of Muncy, Pa. and points within 25 miles of Muncy, Pa.

No. MC 112304 (Sub-No. 81G), filed June 4, 1974. Applicant: ACE DORAN HAULING & RIGGING CO., a corporation, 1601 Blue Rock Street, Cincinnati, Ohio 45223. Applicant's representative: R. F. Baum (same address as applicant). Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation of which because of size or weight, requires special handling and the use of special equipment, (a) between points in Kentucky on and west of U.S. Highway 127, on the one hand, and, on the other, points in Illinois and Wisconsin, (b) between points in West Virginia, on the one hand, and, on the other, points in New Jersey, New York and Pennsylvania, (c) between points in Michigan on and west of U.S. Interstate Highway 75 beginning at Mackinaw City, to its junction with U.S. Highway 27 thence via U.S. Highway 27 to the Michigan-Indiana State Line, on the one hand, and, on the other, points in Illinois and Wisconsin, and (d) between points in that portion of Pennsylvania on and west of U.S. Highway 219 to its junction with U.S. Highway 119 at or near DuBois thence via U.S. Highway 119 to the Pennsylvania-West Virginia State line, on the one hand, and, on the other, points in Virginia, Maryland and the District of Columbia and (2) *self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* moving in connection therewith, between points in Kentucky, on the one hand, and, on the other, points in Virginia, restricted to the transportation of commodities as described in (1) above. The purpose of this filing is to eliminate the gateways of points in Ohio and/or Clarksburg, W. Va. and/or points within 50 miles of Clarksburg, W. Va.

No. MC 112617 (Sub-No. 318G), filed May 31, 1974. Applicant: LIQUID TRANSPORTERS, INC., P.O. Box 21395, 1292 Fern Valley Road, Louisville, Ky. 40221. Applicant's representative: Leonard A. Jaskiewicz, Suite 501, 1730 M Street NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Chemicals and petroleum products*, in bulk, in tank vehicles from Louisville, Ky., to points in Champaign, Clark, Clay, Coles, Cook, Crawford, Cumberland, Douglas, Edgar, Edwards, Effingham, Ford, Iroquois, Jasper, Kankakee, Fayette, Lawrence, Moultrie, Piatt, Richland, Shelby, Vermilion, Wabash, Wayne and Will Counties, Ill., Indiana (except points in Perry, Warrick, and Spencer Counties); Michigan (except points in and north of Oceana, Newaygo, Mecosta, Isabella, Gratiot, Saginaw, Genesee, Jasper and St. Clair Counties); Ohio (except points in Ashtabula County); Greene and Washington Counties, Pa., Tennessee (except points west of Campbell, Union, Knox, Jefferson and Cocke Counties); Buchanan, Dickenson, Lee, Russell, Tazewell and Wise Counties, Va., and West Virginia (except points in Berkeley, Grant, Hampshire, Hardy, Jefferson, Mineral, Monongalia, Morgan, Pendleton, Preston, Randolph and Tucker Counties). The purpose of this filing is to eliminate the gateway of points in Kentucky within five miles of Brandenburg, Ky., excluding Brandenburg and Ekron, Ky.

(2) *liquefied petroleum gas*, in bulk, in tank vehicles, from The Terminal of Warren Petroleum Co. at or near Crossville, Ill., to points in Kentucky west of Todd, Logan, Warren, Barren, Hart, Hardin, Breckinridge and Hancock Counties. The purpose of this filing is to eliminate the gateway of the pipeline terminal site of the Texas Eastern Transmission Corp. at or near Princeton (Gibson County), Ind.

No. MC 113495 (Sub-No. 64G), filed June 4, 1974. Applicant: GREGORY HEAVY HAULERS, INC., 51 Oldham Street, P.O. Box 60628, Nashville, Tenn. 37206. Applicant's representative: Wilmer B. Hill, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (I) (1) *Heavy road construction machinery and equipment*, which because of size or weight requires the use of special equipment, and (2) *such self-propelled articles*, each weighing 15,000 pounds or more, which may be included in heavy road construction machinery and equipment, and *related supplies* (except petroleum products and coal tar products, in bulk, in tank vehicles, and except coal) moving in connection therewith, from points in Illinois to points in West Virginia.

Restriction: The operations authorized herein are restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateways in Kentucky west of the Tennessee River.

(II) *Road-construction machinery, equipment, and supplies* (except petroleum products and coal tar products, in bulk, in tank vehicles, and except coal), from points in Ohio to points in West Virginia. The purpose of this filing is to eliminate the gateway in Virginia.

(III) *Road construction machinery and equipment* as described in Appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from points in Illinois (except Peoria, Joliet, Decatur, Aurora, Morton, Mossville, Springfield, Deerfield, Harvey, Beardstown, and DeKalb and points within 10 miles of each) to points in West Virginia.

Restriction: The authority granted herein shall be restricted against the transportation of commodities which because of size or weight require the use of special equipment. The purpose of this filing is to eliminate the gateway in Virginia.

(IV) *Road construction machinery and equipment* as described in Appendix VIII

V 40 172 APR 14 75 XUM

to the reports in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, the transportation of which because of size or weight requires the use of special equipment, from points in Illinois (except Peoria, Joliet, Decatur, Aurora, Morton, Mossville, Springfield, Deerfield, Harvey, Beardstown, and DeKalb, and points within 10 miles of each) to points in West Virginia.

Restriction: The authority granted above is restricted to the transportation of the described commodities when moving in the same vehicle with shipments of such commodities which do not require the use of special equipment. The purpose of this filing is to eliminate the gateway in Virginia on or west of U.S. Highway 220.

(V) (1) *Heavy road construction machinery and equipment*, the transportation of which, because of size or weight, requires the use of special equipment (excluding any transportation in connection with the stringing or picking up of pipeline materials or equipment), and (2) *Such self-propelled articles*, each weighing 15,000 pounds or more, which may be included in heavy road construction machinery and equipment, and *related supplies* (except petroleum products and coal tar products, in bulk, in tank vehicles, and except coal) moving in connection therewith, between points in Tennessee, Kentucky, and those in that portion of North Carolina on and west of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 220 to Rockingham, N.C., and thence along U.S. Highway 1 to the North Carolina-South Carolina State line, on the one hand, and, on the other, points in West Virginia.

Restriction: The operations authorized herein are restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateway in Virginia on or west of U.S. Highway 220.

(VI) (1) *Earth-moving, construction, mining, and maintenance machinery and equipment, and parts thereof* when moving with the above commodities, from the plant site of Athey Products Corporation at or near Wake Forest, N.C., to points in Indiana, Illinois, and Arkansas.

Restriction: (1) Restricted to traffic originating at the above-named plant site, and (2) restricted to the transportation of (a) heavy machinery and contractors' equipment which because of their size or weight require the use of special equipment or special handling, or (b) such self-propelled articles, each weighing 15,000 pounds or more, which may be included in heavy machinery and contractors' equipment, further restricted to commodities which are transported on trailers.

The purpose of this filing is to eliminate the gateway in Kentucky west of the Tennessee River.

(2) *Earth-moving, construction, mining, and maintenance machinery and equipment*, from the plant site of Athey Products Corporation at or near Wake Forest, N.C., to points in Tennessee and that portion of Virginia on and west of U.S. Highway 220.

Restriction: (1) Restricted to traffic originating at the above-named plant site, and (2) restricted to the transportation of (a) heavy machinery and construction equipment, the transportation of which, because of size or weight, requires the use of special equipment (excluding any transportation in connection with the stringing of equipment), or (b) such self-propelled articles, each weighing 15,000 pounds or more which may be included in heavy machinery and construction equipment (excluding any transportation in connection with the stringing or picking up of pipeline materials or equipment) further restricted to commodities which are transported on trailers.

(3) *Heavy road-construction machinery and equipment*, which either requires the use of special equipment because of size or weight, or is self-propelled, each article weighing 15,000 pounds or more, and is transported on trailers (excluding any transportation in connection with the stringing or picking up of pipeline materials or equipment), from the plant site of Athey Products Corporation at or near Wake Forest, N.C., to points in West Virginia.

Restriction: Restricted to traffic originating at the above-named plant site.

The purpose of this filing is to eliminate the gateway at any point in Kentucky.

(4) *Heavy mining machinery and equipment*, which either requires the use of special equipment because of size or weight, or is self-propelled, each article weighing 15,000 pounds or more, and is transported on trailers from the plant site of Athey Products Corporation at or near Wake Forest, N.C., to points in Ohio, Pennsylvania, Virginia, and West Virginia.

Restriction: Restricted to traffic originating at the above-named plant site.

The purpose of this filing is to eliminate the gateway in Kentucky west of the Tennessee River.

(VII) (A) (1) *Heavy road construction machinery and equipment*, which because of size or weight requires the use of special equipment (excluding any transportation in connection with the stringing or picking-up of pipeline materials or equipment), and

(2) *such self-propelled articles*, each weighing 15,000 pounds or more, which may be included in heavy road construction machinery and equipment (excluding any transportation in connection with the stringing or picking-up of pipeline materials or equipment), and which are transported on trailers, from points in Ohio to points in Tennessee, Kentucky, and that portion of North Carolina on and west of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 220 to Rockingham, N.C., and thence along U.S. Highway 1 to the North Carolina-South Carolina State line. The purpose of this filing is to eliminate the gateway in Virginia on or west of U.S. Highway 220.

(VII) (B) (1) *Heavy road construction machinery and road constriction contractors' equipment*, which because of their size or weight require the use of special equipment (excluding any transportation in connection with the stringing or picking up of pipeline materials or equipment), and

(2) *such self-propelled articles*, each weighing 15,000 pounds or more, which may be included in heavy road construction machinery and road construction contractors' equipment (excluding any transportation in connection with the stringing or picking up of pipeline materials or equipment), and which are transported on trailers, from points in Ohio to points in Indiana, Illinois, Missouri, and Arkansas. The purpose of this filing is to eliminate the gateways in that part of Kentucky west of the Tennessee River and at a point in Virginia on or west of U.S. Highway 220.

(VIII) (1) *Structural steel*, from points in Tennessee, Kentucky, that portion of Virginia on and west of U.S. Highway 220, and those in that portion of North Carolina on and west of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 220 to Rockingham, N.C., and thence along U.S. Highway 1 to the North Carolina-South Carolina State line, to points in Arkansas, Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Missouri, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, West Virginia, and the District of Columbia, and

(2) *structural steel*, which because of size or weight require special equipment or special handling, from points in Indiana, Illinois, Missouri, and Arkansas to points in the states named in (1) above. The purpose of this filing is to eliminate the gateways at Preston, Franklin, Dickson, Chattanooga, Springfield, and Nashville, Tenn.

(IX) *Heavy material handling equipment, winches, compaction and road-making equipment, rollers, and mobile cranes*, which because of size or weight require the use of special equipment, or which are self-propelled, each article weighing 15,000 pounds or more, between the plant sites of Hyster Company, located at or near Danville, Kewanee, and Peoria, Ill., on the one hand, and, on the other, points in Kentucky, Missouri, and Arkansas.

Restriction: The operations authorized herein are restricted to the transportation of shipments originating at or destined to the above-named plant sites. The purpose of this filing is to eliminate the gateway at points in Kentucky west of the Tennessee River.

(X) (1) *Trucks* designed for off-highway use, which are included in road construction machinery and equipment, in initial movements, in truckaway service, from Decatur, Ill., to points in West Virginia, and

(2) *trucks* designed for off-highway use, which are included in heavy machinery and construction and contractors' equipment, in initial movements, in truckaway service, from Decatur, Ill., to points in Kentucky, Missouri, and Arkansas.

Restriction: (1) Restricted against any transportation in connection with the stringing or picking up of pipeline materials or equipment, and (2) restricted to the transportation of commodities which require the use of special equipment because of size or weight, or which are self-propelled, each weighing 15,000 pounds or more. The purpose of this filing is to eliminate the gateway at points in Kentucky west of the Tennessee River.

(XI) (A) (1) *Structural steel, heavy machinery, and such equipment* as is both construction and contractors' equipment, which because of size or weight require the use of special equipment (excluding any transportation in connection with the stringing or picking up of pipeline materials or equipment), and

(2) *such self-propelled articles*, each weighing 15,000 pounds or more, which may be included in heavy machinery and such equipment as is both construction and contractors' equipment (excluding any transportation in connection with the stringing or picking up of pipeline materials or equipment), restricted to commodities which are transported on trailers, between points in Tennessee, Kentucky, that portion of Virginia on and west of U.S. Highway 220, and those in that portion of North Carolina on and west of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 220 to Rockingham, N.C., and thence along U.S. Highway 1 to the North Carolina-South Carolina State line, on the one hand, and, on the other, points in Indiana, Illinois, Missouri, and Arkansas.

(XI) (B) (1) *Heavy road construction machinery and equipment* which because of size or weight requires the use of special equipment (excluding any transportation in connection with the stringing or picking up of pipeline materials or equipment), and

(2) *such self-propelled articles*, each weighing 15,000 pounds or more, which may be included in heavy road construction machinery and equipment (excluding any transportation in connection with the stringing or picking up of pipeline materials or equipment), restricted to commodities which are transported on trailers, between points in West Virginia, on the one hand, and, on the other, points in Indiana, Illinois, Missouri, and Arkansas. The purpose of this filing is to eliminate the gateway at points in that part of Kentucky west of the Tennessee River and at a point in Virginia on or west of U.S. Highway 220.

(XII) (1) *Heavy mining machinery and equipment*, which because of size or weight require the use of special equipment, and (2) *such self-propelled articles*, each weighing 15,000 pounds or more, which may be included in heavy mining machinery and equipment, restricted to commodities which are transported on trailers, from points in Arkansas, Missouri, Illinois, Indiana, Kentucky, Tennessee, that portion of Virginia on and west of U.S. Highway 220, and those in that portion of North Carolina on and west of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 220 to Rockingham, N.C., and thence along U.S. Highway 1 to the North Carolina-South Carolina State line, to points in Illinois, Indiana, Kentucky, Ohio, Pennsylvania, Virginia, and West Virginia. The purpose of this filing is to eliminate the gateway at a point in Kentucky west of the Tennessee River.

(XIII) *Heavy self-propelled road construction machinery and equipment*, as described in Appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, each weighing 15,000 pounds or more, which may be included in heavy machinery and construction equipment, and parts of the above-described commodities moving in connection therewith, from points in Illinois (except Peoria, Joliet, Decatur, Aurora, Morton, Mossville, Springfield, Deerfield, Harvey, Beardstown, and De Kalb, and points within 10 miles of each) to points in Kentucky.

Restriction: The authority granted herein shall be restricted (1) against the transportation of commodities, which because of size or weight, require the use of special equipment, (2) against the transportation of commodities in connection with the stringing or picking up of pipeline materials or equipment, and (3) restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateway point in Tennessee.

(XIV) *Heavy road construction machinery and equipment* as described in Appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, the transportation of which because of size or weight requires the use of special equipment, from points in Illinois (except Peoria, Joliet, Decatur, Aurora, Morton, Mossville, Springfield, Deerfield, Harvey, Beardstown and De Kalb, and points within 10 miles of each), to points in Kentucky.

Restriction: The authority granted above is restricted to the transportation of the described commodities when moving in the same vehicle with shipments of such commodities which do not require the use of special equipment. The purpose of this filing is to eliminate the gateway point in Tennessee.

(XV) (A) (1) *Road construction machinery and equipment* as described in Appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, the transportation of which because of size or weight, require the use of special equipment, and parts of the above-described commodities moving in connection therewith, from points in Illinois (except Peoria, Joliet, Decatur, Aurora, Morton, Mossville, Springfield, Deerfield, Harvey, Beardstown, and De Kalb, and points within 10 miles of each) to points in Kentucky.

(2) *Such self-propelled heavy road construction machinery and equipment*, which because of size or weight, require the use of special equipment, and parts of the above-described commodities moving in connection therewith, from points in Illinois (except Peoria, Joliet, Decatur, Aurora, Morton, Mossville, Springfield, Deerfield, Harvey, Beardstown, and De Kalb, and points within 10 miles of each) to points in Kentucky.

Restriction: The authority granted above is restricted to the transportation of the described commodities when moving in the same vehicle with shipments of such commodities which do not require the use of special equipment.

(XV) (B) *Such self-propelled heavy road construction machinery and equipment*, each weighing 15,000 pounds or more, which may be included in heavy machinery and contractors' equipment, the transportation of which because of size or weight do not require the use of special equipment, restricted to commodities which are transported on trailers, from points in Ohio to points in that part of Kentucky west of the Tennessee River. The purpose of this filing is to eliminate the gateway point in Tennessee.

(XVI) (1) *Heavy road construction machinery and equipment* as described in Appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, the transportation of which because of size or weight requires the use of special equipment (excluding any transportation in connection with the stringing or picking up of pipeline materials or equipment), and

(2) *Such self-propelled heavy road construction machinery and equipment*, each weighing 15,000 pounds or more, which may be included in heavy machinery and contractors' equipment, the transportation of which because of size or weight requires the use of special equipment, restricted to commodities which are transported on trailers (excluding any transportation in connection with the stringing or picking up of pipeline materials or equipment), from points in Illinois (except Peoria, Joliet, Decatur, Aurora, Morton, Mossville, Springfield, Deerfield, Harvey, Beardstown and De Kalb, and points within 10 miles of each), to points in Indiana, Missouri and Arkansas.

Restriction: The above described authority is restricted to the transportation of the described commodities when moving in the same vehicle with shipments of commodities which do not require the use of special equipment. The purpose of this filing is to eliminate the gateway point in Tennessee and at a point in Kentucky west of the Tennessee River.

(XVII) *Such self-propelled road construction machinery and equipment*, as described in Appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, each weighing 15,000 pounds or more, which may be included in heavy construction machinery and equipment, the transportation of which because of size or weight requires the use of special equipment, from points in Illinois (except Peoria, Joliet, Decatur, Aurora, Morton, Mossville, Springfield, Deerfield, Harvey, Beardstown and De Kalb, and points within 10 miles of each) to points in Kentucky.

V 40 172 APR 14 75 XUM

RESTRICTION The authority granted above is restricted to the transportation of the described commodities when moving in the same vehicle with shipments of such commodities which do not require the use of special equipment.

The purpose of this gateway is to eliminate the gateway point in Tennessee or at a point in Virginia on or west of U.S. Highway 220 or at a point in North Carolina on or west of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 220 to Rockingham, N.C., and thence along U.S. Highway 1 to the North Carolina-South Carolina State line.

(XVIII) *Such self-propelled road construction machinery and equipment* as described in Appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, the transportation of which because of size or weight does not require the use of special equipment, from points in Ohio to points in Kentucky, Indiana, Illinois, Missouri, and Arkansas.

Restriction: (1) The operations authorized above are restricted against the transportation of commodities in connection with the stringing or picking up of pipeline materials or equipment, and (2) the operations authorized herein as restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateway at a point in Tennessee and at a point in Kentucky west of the Tennessee River.

(XIX) *Structural steel*, (1) from Peotone, Decatur, and Sterling, Ill. to points in Kentucky, that portion of Virginia on and west of U.S. Highway 220, and that portion of North Carolina on and west of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 220 to Rockingham, N.C. and thence along U.S. Highway 1 to the North Carolina-South Carolina State line, and

(2) from Preston, Franklin, Dickson, Chattanooga, Springfield and Nashville, Tenn. to points in that portion of North Carolina on and west of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 220 to Rockingham, N.C. and thence along U.S. Highway 1 to the North Carolina-South Carolina State line. The purpose of this filing is to eliminate the gateways at Preston, Franklin, Dickson, Chattanooga, Springfield and Nashville, Tenn., and a point in Tennessee (except Memphis and points in the Commercial Zone).

(XX) *Such self-propelled heavy construction machinery, and equipment*, each weighing 15,000 pounds or more, which because of size or weight requires the use of special equipment, from points in Illinois to points in Tennessee, Kentucky, and those in North Carolina on and west of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 220 to Rockingham, N.C. and thence along U.S. Highway 1 to the North Carolina-South Carolina State line.

Restriction: (1) The operations authorized above are restricted against the transportation of commodities in connection with the stringing or picking up of pipeline materials or equipment, and (2) the operations authorized herein are restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateway point in Virginia on and west of U.S. Highway 220.

(XXI) (A) *Cast iron pressure pipe, cast iron pressure pipe fittings, and materials and accessories* used in the installation and maintenance of cast iron pressure pipe and cast iron pressure pipe fittings, (1) from Lynchburg, Va. to points in that part of Kentucky west of the Tennessee River, and (2) from Radford, Va. to points in that part of Kentucky west of the Tennessee River.

(XXI) (B) *Cast iron soil pipe, cast iron soil pipe fittings, and materials and accessories* used in the installation and maintenance of cast iron soil pipe and cast iron soil pipe fittings, from Lynchburg, Va. to points in that part of Kentucky west of the Tennessee River. The purpose of this filing is to eliminate the gateway point in Illinois.

(XXII) *Such self-propelled articles*, each weighing 15,000 pounds or more, which may be included in heavy construction machinery and equipment, and *related machinery, tools, parts, and supplies* moving in connection therewith, from points in Illinois to points in Tennessee, Kentucky, and that part of North Carolina on and west of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 220 to Rockingham, N.C. and thence along U.S. Highway 1 to the North Carolina-South Carolina State line.

Restriction: (1) The operations authorized above are restricted against the transportation of commodities in connection with the stringing or picking up of pipeline materials or equipment, and (2) the operations authorized herein are restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateway at a point in Virginia on or west of U.S. Highway 220.

No. MC 113843 (Sub-No. 208G), filed June 4, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Francis P. Barrett, P.O. Box 238, 60 Adams Street, Milton, Mass. 02187. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen foods*, from points in Connecticut, Massachusetts, and Rhode Island, (a) to points in Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia and the District of Columbia. The purpose of this filing is to eliminate the gateway of Elmira, N.Y. (b) to points in Arkansas, Colorado, Kansas, Minnesota, Nebraska, Oklahoma, Grand Forks, N. Dakota and Sioux Falls, S. Dakota. The purpose of this filing is to eliminate the gateway of Dundee, N.Y. (c) to points in Iowa and Wisconsin. The purpose of this filing is to eliminate the gateways of Morton, Brockport or LeRoy, N.Y. (d) to points in Tennessee. The purpose of this filing is to eliminate the gateways of Elmira, N.Y. and Detroit, Mich.

(2) *Frozen fruits, frozen berries, and vegetables*, from points in Connecticut, Massachusetts, and Rhode Island, to Springfield, Ill., Louisville, Ky., Kenosha, Wis., Kansas City and Winita Park, Mo., Williamsburg and Norfolk, Va. The purpose of this filing is to eliminate the gateway of Dundee, N.Y.

(3) *Frozen juice, frozen berries*, from points in Connecticut, Massachusetts and Rhode Island, to points in Delaware, Maryland, Kentucky, North Carolina, South Carolina, W. Virginia and Virginia (except those points in Virginia other than Hampton, Norfolk and Richmond, on, east and south of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 301 to Richmond, thence along Virginia Highway 33 to Glenns, Va., thence along U.S. Highway 17 to Saluda, Va., thence along Virginia Highway 227 to Harmony Village, Va., thence along Virginia Highway 200 to the Rappahannock River, at or near Locklies, Va.). The purpose of this filing is to eliminate the gateways of Dundee or Penn Yan, N.Y.

(4) *Frozen fruits and berries, frozen fruit and berry concentrates*, from points in Connecticut, Massachusetts, and Rhode Island, to points in Arkansas, Colorado, Iowa, Kansas, Kentucky, Minnesota, Missouri, Nebraska, Oklahoma, Texas and Wisconsin. The purpose of this filing is to eliminate the gateway of Geneva, Penn Yan, Elmira and/or Dundee, N.Y.

(5) *Frozen fruit juices and fruit concentrates*, from points in Connecticut, Massachusetts, and Rhode Island, to points in Delaware, Maryland, Virginia and the District of Columbia. The purpose of this filing is to eliminate the gateway of Geneva, N.Y.

(6) *Frozen fruit concentrates*, from points in Connecticut, Massachusetts, and Rhode Island, to points in Delaware, Maryland, Virginia and the District of Columbia. The purpose of this filing is to eliminate the gateway of Dundee or Penn Yan, N.Y.

(7) *Frozen fruit juices*, from Connecticut, Massachusetts and Rhode Island, to points in Virginia (other than Hampton, Norfolk and Richmond, on, east and south of a line beginning at the North Carolina-Virginia State line and extending along U.S. Highway 301 to Richmond, Virginia, thence along Virginia Highway 33 to Glenns, Va., thence along U.S. Highway 17 to Saluda, Va., and thence along Virginia Highway 227 to Harmony Village, Va., thence along Virginia Highway 200 to the Rappahannock River at or near Locklies, Va.). The purpose of this filing is to eliminate the gateway of Dundee or Penn Yan, N.Y.

(8) *Fresh, cooked, preserved, salted and smoked meats*, from Boston, Mass., and points within ten miles of Boston,

to points in Cattaraugus, Chautauqua, and Erie Counties, N.Y.; Philadelphia and Middletown, Pa.; Camden, Newark, and Jersey City, N.J. and Baltimore, Md. The purpose of this filing is to eliminate the gateway of Buffalo, N.Y.

(9) *Meats, meat products, and meat byproducts*, as described by the Commission, except liquid commodities, in bulk, in tank vehicles, from Boston, Mass., to Chicago, Ill., Erie and Philadelphia, Pa.; Cleveland, Ohio, Cincinnati, Ohio; Detroit, Mich., Baltimore and Salisbury, Md., Roanoke and Richmond, Va., and the District of Columbia. The purpose of this filing is to eliminate the gateways of Rochester, N.Y., and Detroit, Mich.

(10) *Meats, meat products, and meat byproducts*, as described in Section A of Appendix 1 to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles and except frozen), from Boston, Mass., to points in Illinois, Indiana, Michigan, and Kentucky. The purpose of this filing is to eliminate the gateways of Hamlin (Monroe County) or Williamson (Wayne County) N.Y.

(11) *Canned meats, meat products and meat byproducts*, as described in Section A of Appendix 1 to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except liquid commodities in bulk, in tank vehicles), from Boston, Mass., to points in Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin. The purpose of this filing is to eliminate the gateways of plant-site or storage facilities of Duffy-Mott Co., Inc., at or near Hamlin, N.Y. or Williamson, N.Y.

(12) *Paper bags and materials* used in closing paper bags, from E. Pepperell, Mass., to points in Cattaraugus, Chautauqua and Erie Counties, N.Y.

(13) *Fish and seafood*, from Boston, Gloucester, and Provincetown, Mass., to points in Cattaraugus, Chautauqua, and Erie Counties, N.Y. The purpose of this filing is to eliminate the gateway of Buffalo, N.Y.

(14) *Meats, meat products, and meat by-products* (except liquid commodities, in bulk, in tank vehicles) as described in Section A of Appendix 1 to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, from Boston and Worcester, Mass., to Buffalo, N.Y. The purpose of this filing is to eliminate the gateway of Gowanda, N.Y.

(15) *Frozen meats, meat products, and meat by-products*, as described in Section A of Appendix 1 to the report in Descriptions in Motor Carrier Certificates 61 M.C.C. 209 and 766 (except liquid commodities in bulk, in tank vehicle), from Boston and Southboro, Mass., to Baltimore, Md., the District of Columbia, Hampton and Richmond, Va.; Huntington, W. Va., Chicago, Ill., New York, N.Y.; Green Bay and Milwaukee, Wis., and points in Indiana, Michigan, New Jersey, Ohio, and Pennsylvania. The purpose of this filing is to eliminate the gateway of Syracuse, N.Y.

(16) *Frozen meats, meat products and by-products* as described in Section 2 of Appendix 1 to the Report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, (except liquid commodities, in bulk, in tank vehicles), from Boston, Mass., (a) to Chicago, Ill., Green Bay and Milwaukee, Wis., and points in Indiana, Michigan, New Jersey, Ohio and Pennsylvania. The purpose of this filing is to eliminate the gateway of Buffalo, N.Y.

(b) To points in Delaware, Kentucky and W. Virginia. The purpose of this filing is to eliminate the gateway of Syracuse, N.Y.

(c) To points in Kentucky, and W. Virginia. The purpose of this filing is to eliminate the gateway of Brockport (Monroe County), N.Y.

(d) To points in Illinois, Indiana, Kentucky, Michigan, Missouri, New Jersey, New York, Ohio and Pennsylvania. The purpose of this filing is to eliminate the gateway of Elmira (Chemung County), N.Y.

(e) To points in Arkansas, Colorado, Kansas, Minnesota, Nebraska, and Oklahoma. The purpose of this filing is to eliminate the gateway of Dundee, N.Y.

(f) To points in Colorado, Iowa, Minnesota, Nebraska, and Wisconsin. The purpose of this filing is to eliminate the gateway of Brockport (Monroe County), N.Y.

(17) *Frozen fish*, from New Bedford and Tiverton, Mass., to Cincinnati and Dayton, Ohio. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC 114457 (Sub-No. 196G), filed June 4, 1974. Applicant: DART TRANSIT COMPANY, 780 N. Prior Avenue, St. Paul, Minn. 55104. Applicant's representative: Michael P. Zell (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Canned goods*, from points in Wisconsin, to points in Montana, North Dakota, South Dakota, Nebraska, Kansas, Iowa, Illinois, and Missouri. The purpose of this filing is to eliminate the gateway at Chanhassen, Minn.

(2) *Canned goods*, from Omaha, Nebr., to points in North Dakota. The purpose of this filing is to eliminate the gateway at Chanhassen, Minn.

(3) *Canning factory supplies*, from points in Wisconsin, to points in Kansas. The purpose of this filing is to eliminate the gateways at Faribault or Minneapolis, Minn.

(4) *Canning factory supplies*, between Missouri and Wisconsin. The purpose of this filing is to eliminate the gateways at Faribault or Minneapolis, Minn.

No. MC 114604 (Sub-No. 30G), filed February 7, 1975. Applicant: CAUDELL TRANSPORT, INC., State Farmers Market, Bldg. 33, Forest Park, Ga. 30050. Applicant's representative: Frank D. Hall, 3384 Peachtree Rd., NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from Charleston, S.C., to Greenville, S.C., and points in its commercial zone. The purpose of this filing is to eliminate the gateway of Atlanta, Ga.

No. MC 115523 (Sub-No. 171G), filed June 4, 1974. Applicant: CLARK TANK LINES COMPANY, a corporation, 1450 Beck Street, Salt Lake City, Utah 84116.

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ammonium nitrate and ammonium sulfate*, from Geneva, Utah, to points in Colorado. The purpose of this filing is to eliminate the gateway of Kemmerer, Wyo.

No. MC 117313 (Sub-No. 7G) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER issue of January 27, 1975, and republished in part as corrected this issue. Applicant: TRYON TRUCKING, INC., P.O. Box 68, Fairless Hills, Pa. 19030. Applicant's representative: John P. McMahon, Suite 1800, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tin plate, sheet metal, tinners' and roofers' supplies*, which because of size or weight require the use of special equipment, between points in Ohio, those in Pennsylvania on and west of a line beginning at the Pennsylvania-New York State line near Millerton, Pa., and extending in a southerly direction through Williamsport, Pa., to the Pennsylvania-Maryland State line near West Manheim, Pa., and those in Delaware and the District of Columbia, on the one hand, and, on the other, points in New Jersey, Maryland, New York, and those in Pennsylvania east of a line beginning at the Pennsylvania-New York State line near Millerton, Pa., and extending in a southerly direction through Williamsport, Pa., to the Pennsylvania-Maryland State line near West Manheim, Pa. The purpose of this filing is to eliminate the gateway at Philadelphia, Pa.

NOTE.—The purpose of this republication is to modify the territorial description to correctly indicate the nature of the between movement requested. The rest of the notice remains as previously published.

No. MC 118959 (Sub-No. 114G) filed June 4, 1974. Applicant: JERRY LIPPS, INC., 130 South Frederick Street, Cape Girardeau, Mo. 63701. Applicant's representative: William P. Jackson, Jr., 919 Eighteenth Street, NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Building materials* (except commodities in bulk), from Chicago, Ill., to points in Indiana, Ohio, West Virginia, Virginia, Mississippi, Missouri, Arkansas, Louisiana, Kansas, Oklahoma, Texas, Colorado, New Mexico, Utah, Arizona, California, and Alabama, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Springfield, Ky.

(2) *building, wall or insulating boards, and materials and supplies* used in the

V 40 172 APR 14 75 XUM

installation of building, wall or insulating boards (except commodities in bulk), (a) from Pensacola, Fla., to points in Arizona, with no transportation for compensation on return except as otherwise authorized and (b) from the plant site of the Armstrong Cork Company, at or near Macon, Ga., to points in Virginia, New York, Massachusetts, New Jersey, Maryland, and Delaware, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Springfield, Ky.

(3) *iron and steel building materials and supplies* (except commodities in bulk), from the plant sites of Laclede Steel Company and Standard Pipe Protection, Inc., of Alton, Ill., to points in Louisiana and Oklahoma, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Springfield, Ky.

(4) *plastic pipe and cement asbestos pipe* (except those articles which because of size and weight require the use of special equipment), from St. Louis, Mo. (except the plant site of Shepard Engineering Company), to points in Florida, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Social Circle, Ga.

No. MC 124078 (Sub-No. 598G), filed June 3, 1974. Applicant: SCHWERMAN TRUCKING CO., 611 South 28th Street, Milwaukee, Wis. 53246. Applicant's representative: Richard H. Prevette (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Chemicals* (except hydrofluosilic acid, such naval stores as are chemicals, crude tall oil, sulphate, black liquor skimmings and liquid alum) in bulk, in tank or hopper type vehicles, from Atlanta, Ga., to points in Kentucky in and east of Bracken, Harrison, Scott, Fayette, Jessamine, Garrard, Lincoln, Pulaski, Russell, Cumberland, and Monroe Counties, Ky.; points in North Carolina west of Caswell, Alamance, Chatham, Moore, and Richmond Counties, N.C.; and points in South Carolina west of Chesterfield, Kershaw, Fairfield, Newberry, Saluda, and Edgefield Counties, S.C. The purpose of this filing is to eliminate the gateways at Springfield, Tenn. (Robertson County) and Augusta (Richmond County), Ga.

(2) *Petrochemicals*, liquid, in bulk, in tank vehicles, from Tucker, Ga., to points in North Carolina east of Caswell, Alamance, Chatham, Moore, and Richmond Counties, N.C., and points in Virginia (except points in Lee, Scott, Wise, Russell, Dickenson, Buchanan, Tazewell, Bland, Giles, Pulaski, Montgomery, Roanoke, Botetourt, Craig, Alleghany, Bath, and Highland Counties). The purpose of this filing is to eliminate the gateways at Atlanta, Ga.; Richmond County, Ga. or Robertson County, Tenn. and Chattanooga, Tenn.

(3) *Naval stores*, in bulk, in tank vehicles (1) from Savannah, Ga., to points in West Virginia, Massachusetts, New York, points in North Carolina east and south of Warren, Vance, Granville, Durham, Chatham, Randolph, Rowan, Cabarrus and Mecklenburg Counties, N.C.; and (2) from Brunswick, Ga., to points in Mississippi south of Monroe, Clay, Webster, Montgomery, Carroll, Leflore, Sunflower and Washington Counties. Restriction: Transportation to points in Mississippi and North Carolina restricted to liquid chemicals. The purpose of this filing is to eliminate the gateways at Moultrie, Ga. and Augusta (Richmond County), Ga.

No. MC 124947 (Sub-No. 32G), filed September 5, 1974. Applicant: MACHINERY TRANSPORTS, INC., P.O. Box 417, Stroud, Okla. 74079. Applicant's representative: Rufus H. Lawson, 106 Bixler Building, 2400 N.W. 23rd Street, Oklahoma City, Okla. 73107. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: (1) *Commodities*, the transportation of which because of size or weight requires the use of special equipment and of related articles and supplies when their transportation is incidental to the transportation of commodities which by reason of size or weight require special equipment, (a) between points in Illinois, Kentucky, Indiana, Ohio, Missouri, and Arkansas, on the one hand, and, on the other, Beloit and Turtle, Wis. The purpose of this filing is to eliminate the gateways of points in Williamson, Franklin or Saline Counties, Ill. and points in Winnebago County, Ill. (b) between points in Illinois, on the one hand, and, on the other, points in Kentucky, Indiana, Ohio, Missouri, and Arkansas. The purpose of this filing is to eliminate the gateways of points in Williamson, Franklin or Saline Counties, Ill.

(2) *wire and wire products*, fencing materials and accessories, nails, staples, rods, joists, angles, and bars which because of size or weight require the use of special equipment, from points in Arkansas, Missouri, and Illinois, to points in Wisconsin. The purpose of this filing is to eliminate the gateways of points in Williamson, Franklin or Saline Counties, Ill. and the plant site of Keystone Steel and Wire Company located at Barton, Ill.

(3) *pipe*, which because of size or weight require the use of special equipment, from Memphis, Tenn., to points in Illinois and Beloit and Turtle, Wis. The purpose of this filing is to eliminate the gateways of points in Williamson, Franklin or Saline Counties, Ill. and Winnebago County, Ill.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's gateway elimination rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before April 24, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 5649 (Sub-No. E1), filed May 31, 1974. Applicant: KULP & GORDON, P.O. Box 628, Phoenixville, Pa. 19466. Applicant's representative: Sylvan D. Einhom (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Empty paint containers*, (a) from Trenton, N.J., to Wilmington, Del., (2) from Commack, N.Y., to Deepwater, N.J., (3) from the District of Columbia to Wrightstown, and Asbury Park, N.J., and (4) from Baltimore, Md., to New Brunswick, Burlington, Millville, Morristown, Mt. Holly, Hammonton, Asbury Park, and Atlantic City, N.J., and Norristown, Pottstown, Easton, Bethlehem, Allentown, and Doylestown, Pa.; (B) *Machinery*, used or useful in the manufacture of furniture, metal and wooden furniture, mattresses, springs, padding, paint, and advertising material, pertaining to such commodities, (1) from Baltimore, Md., to Easton, Bethlehem, Allentown, Norristown, and Pottstown, Pa., and Hammonton, Atlantic City, Burlington, Millville, Morristown, Mt. Holly, and New Brunswick, N.J., and (2) from Elizabeth, N.J., to Phoenixville, Pa.; (C) *Cotton, cotton batts and tufts, padding, burlap, sisal, sisal and cotton waste, linters*, and *advertising material*, pertaining to such commodities, from Baltimore, Md., to Doylestown, Easton, Bethlehem, Allentown, Norristown, and Pottstown, Pa., and Hammonton, Atlantic City, Burlington, Millville, Morristown, Mt. Holly, and New Brunswick, N.J.;

(D) *Iron and steel* products, (1) from Baltimore, Md., to Doylestown, Easton, Bethlehem, Allentown, Norristown, and Pittstown, Pa., and Hammonton, Boonton, Burlington, Millville, Morristown, Mt. Holly, and New Brunswick, N.J., (2) from Asbury Park, N.J., to Allentown and Bethlehem, Pa.; (3) from Annapolis, Md., to Allentown and Bethlehem, Pa., and Asbury Park, Atlantic City, and Boonton, N.J., (4) from Dover, Wilmington, Seaford, and Newark, Del., Salisbury and Sparrows Point, Md., Toms River, Wrightstown, Deepwater, Hammonton, and Millville, N.J., and the District of Columbia to Allentown, Pa., (5) from Atlantic City, N.J., to Bethlehem, Pa., (6) from Bouton, N.J., to Coatesville, Pa., (7) from Burlington, N.J., to Phoenixville, Pa., (8) from Cape May, N.J., to Downingtown, Pa., (9) from Hammonton, N.J., to Lancaster, Pa., (10) from Millville, N.J., to Reading, Pa., (11)

from Dover, Del., to Doylestown, Pa., and Hammonton, N.J., (12) from New York, N.Y., to Lancaster, Pa., and (13) from the District of Columbia to Pottstown, Pa., and Wrightstown and New Brunswick, N.J.; (E) *Structural steel and iron*, (1) from Baltimore, Md., to Catskill, Commack, Cortland, Deposit, Endicott, Geneva, Birmingham, Hornell, Hudons, Ithaca, Kingston, Narrowsburg, Newburgh, Norwich, Nyack, Owego, Patchogue, Peekskill, Port Jervis, Poughkeepsie, Riverhead, and New York, N.Y., and East Orange, Fort Lee, Boonton, Netcong, Newark, New Brunswick, Patterson, and Somerville, N.J., (2) from Deepwater, N.J., to Deposit, N.Y., (3) from Hammonton, N.J., to Hudson, N.Y., (4) from Atlantic City, N.J., to Binghamton, N.Y., and (5) from Asbury Park, N.J., to Baltimore, Md.; (F) *Iron and steel machinery parts and castings*, from Baltimore, Md., to Somerville and Patterson, N.J.; and (G) *Insulating materials*, from Camden, N.J., to Nyack, N.Y. The purpose of this filing is to eliminate the gateways in A through D: Philadelphia, Pa., in E: Philadelphia, Coatesville and Phoenixville, Pa., in F: Philadelphia and Downingtown, Pa., and in G: Port Kennedy, Pa.

No. MC 18088 (Sub-No. E2) (Correction), filed May 13, 1974, republished in the FEDERAL REGISTER March 10, 1975. Applicant: FLOYD & BEASLEY TRANSFER CO., INC., P.O. Drawer 8, Sycamore, Ala. 35149. Applicant's representative: Charles Ephraim, 1250 Connecticut Ave., N.W., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Textiles* and *textile products*, and *machinery*, *machinery parts*, *equipment*, *materials*, and *supplies* used in or in connection with the operation of textile mills and warehouses (except commodities the transportation of which because of size or weight require the use of special equipment for the transportation thereof), restricted to the transportation of shipments originating at or destined to sites of mills or plants for the production of textiles or textile products, or of warehouses operated in connection with such mills or plants, (a) between points in South Carolina (except Oconee County), on the one hand, and, on the other, points in that part of Tennessee in and west of Giles, Maury, Hickman, Dickson, Houston, and Stewart Counties, and (b) between points in Oconee County, S.C., on the one hand, and, on the other, points in that part of Tennessee in and west of Giles, Lewis, Hickman, Dickson, and Montgomery Counties. The purpose of this filing is to eliminate the gateway of the plant site of Vulcan Binder and Cover, division of Ebsco Industries, Inc., at Vincent, Ala. The purpose of this partial correction is to correct the territorial descriptions in (a) above. The remainder of this letter-notice remains as previously published.

No. MC 21170 (Sub-No. E181), filed June 4, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushi (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*; (a) from points in that part of Minnesota west of a line beginning at the Minnesota-South Dakota State line extending along U.S. Highway 75 to junction Minnesota Highway 68, thence along Minnesota Highway 68 to junction U.S. Highway 59 thence along U.S. Highway 59 to the Iowa-Minnesota State line, (1) to points in that part of Illinois on and south of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 24 to junction Illinois Highway 103, thence along Illinois Highway 103 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Illinois Highway 125, thence along Illinois Highway 125 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 10, thence along Illinois Highway 10 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Indiana State line, (2) to points in that part of Pennsylvania on, south, and east of a line beginning at the Pennsylvania-West Virginia State line extending along U.S. Highway 70 to junction unnumbered highway, thence along unnumbered highway to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pennsylvania Highway 56, thence along Pennsylvania Highway 56 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction Pennsylvania Highway 869, thence along Pennsylvania Highway 869 to junction Pennsylvania Highway 36.

Thence along Pennsylvania Highway 36 to junction Pennsylvania Highway 26, thence along Pennsylvania Highway 26 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 171, thence along Pennsylvania Highway 171 to junction Pennsylvania Highway 370, thence along Pennsylvania Highway 370 to the Pennsylvania-New York State line, (3) to points in the District of Columbia, (4) to points in Maryland, (5) to points in Delaware, (6) to points in New Jersey, (7) to points in New York on and east of a line beginning at the Pennsylvania-New York State line extending along New York Highway 17 to junction New York Highway 8, thence along New York Highway 8 to junction New York Highway 12, thence along New York Highway 12 to the United States-Canada International Boundary line, (8) to points in Connecticut, (9) to points in Rhode Island, (10) to points in Massachusetts, (11) to points in Vermont, (12) to points in New Hampshire, (13) to points in Maine (except points north of Maine Highway 25); (b) from points in that part of Minnesota on and west of a line beginning at the Minnesota-North Dakota State line extending along U.S. Highway 52 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Minnesota Highway 55, thence along Minnesota Highway 55 to junction Minnesota Highway 104, thence along Minnesota Highway 104 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 71 thence along U.S. Highway 71 to junction Minnesota Highway 19.

Thence along Minnesota Highway 19 to junction Minnesota Highway 4, thence along Minnesota Highway 4 to junction Minnesota Highway 30, thence along Minnesota Highway 30 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Minnesota-Iowa State line, (1) to points in that part of Illinois on and south of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 24 to junction Illinois Highway 99, thence along Illinois Highway 99 to junction Illinois Highway 104, thence along Illinois Highway 104 to junction Illinois Highway 29, thence along Illinois Highway 29 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction U.S. Highway 150, thence along U.S. Highway 150 to the Illinois-Indiana State line, (2) to points in that part of Pennsylvania on, south, and east of a line beginning at the Pennsylvania-West Virginia State line extending along U.S. Highway 70 to junction Pennsylvania Highway 711, thence along Pennsylvania Highway 711 to junction Pennsylvania Highway 271, thence along Pennsylvania Highway 271 to junction Pennsylvania Highway 56, thence along Pennsylvania Highway 56 to junction U.S. Highway 219, thence along U.S. Highway 219 to junction Pennsylvania Highway 53, thence along Pennsylvania Highway 53 to junction U.S. Highway 22, thence along U.S. Highway 22 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 11, thence along U.S. Highway 11 to junction U.S. Highway 81, thence along U.S. Highway 81 to the New York-Pennsylvania State line, (3) to points in the District of Columbia, (4) to points in Maryland, (5) to points in Delaware, (6) to points in New Jersey, (7) to points in that part of New York on and east of a line beginning at the New York-Pennsylvania State line extending along U.S. Highway 81 to the United States-Canada International Boundary line, (8) to points in Connecticut, (9) to points in Rhode Island, (10) to points in Massachusetts, (11) to points in Vermont, (12) to points in New Hampshire, and (13) to points in Maine (except points north of Maine Highway 25); (c) from points in that part of Minnesota on or bounded by a line beginning at the Minnesota-Iowa State line extending along U.S. Highway 169 to junction U.S. Highway 14.

Thence along U.S. Highway 14 to junction Minnesota Highway 15, thence along Minnesota Highway 15 to junction U.S.

V 40 172 APR 14 75 XUM

Highway 52, thence along U.S. Highway 52 to junction Minnesota Highway 28, thence along Minnesota Highway 28 to junction Minnesota Highway 104, thence along Minnesota Highway 104 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Minnesota Highway 19, thence along Minnesota Highway 19 to junction Minnesota Highway 4, thence along Minnesota Highway 4 to junction Minnesota Highway 30, thence along Minnesota Highway 30 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Minnesota-Iowa State line, (1) to points in that part of Illinois south of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 24 to junction Illinois Highway 103, thence along Illinois Highway 103 to junction Illinois Highway 125, thence along Illinois Highway 125 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Illinois Highway 133, thence along Illinois Highway 133 to junction U.S. Highway 150, thence along U.S. Highway 150 to the Illinois-Indiana State line, (2) to points in that part of Pennsylvania on and east of a line beginning at the New York-Pennsylvania State line extending along Pennsylvania Highway 434 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Pennsylvania Highway 507, thence along Pennsylvania Highway 507 to junction U.S. Highway 81E.

Thence along U.S. Highway 81E to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Pennsylvania-Maryland State line, (3) to points in the District of Columbia, (4) to points in Maryland, (5) to points in Delaware, (6) to points in New Jersey, (7) to points in that part of New York on and east of a line beginning at the United States-Canada International Boundary line extending along New York Highway 56 to junction New York Highway 3, thence along New York Highway 3 to junction New York Highway 30, thence along New York Highway 30 to junction New York Highway 17, thence along New York Highway 17 to junction New York Highway 55, thence along New York Highway 55 to the New York-Pennsylvania State line, (8) to points in Connecticut, (9) to points in Rhode Island, (10) to points in Massachusetts, (11) to points in Vermont, (12) to points in New Hampshire, and (13) to points in Maine (except points north of Maine Highway 25); (d) from points in that part of Minnesota on or bounded by a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 65 to junction Minnesota Highway 18, thence along Minnesota Highway 18 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Minnesota Highway 55, thence along Minnesota Highway 55 to junction Minnesota Highway 28, thence along Minnesota Highway 28 to junction U.S. Highway 52.

Thence along U.S. Highway 52 to junction Minnesota Highway 15, thence along Minnesota Highway 15 to the Iowa-Minnesota State line, thence along the Iowa-Minnesota State line to point of origin, (1) to point in that part of Illinois on and south of a line beginning at the Illinois-Missouri State line extending along U.S. Highway 24 to junction Illinois Highway 99, thence along Illinois Highway 99 to junction Illinois Highway 104, thence along Illinois Highway 104 to junction Illinois Highway 29, thence along Illinois Highway 29 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction Illinois Highway 32, thence along Illinois Highway 32 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Illinois-Indiana State line, (2) to points in that part of Pennsylvania on and south of a line beginning at the Pennsylvania-Maryland State line extending along U.S. Highway 15 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 222, thence along U.S. Highway 222 to junction U.S. Highway 422, thence along U.S. Highway 422 to junction U.S. Highway 202, thence along U.S. Highway 202 to the Pennsylvania-New Jersey State line, (3) to points in the District of Columbia, (4) to points in that part of Maryland on and east of a line beginning at the Pennsylvania-Maryland State line extending along U.S. Highway 15 to the Maryland-Virginia State line, (5) to points in Delaware, (6) to points in that part of New Jersey on, south, and east of a line beginning at the New York-New Jersey State line extending along the Garden State Parkway to junction U.S. Highway 22, thence along U.S. Highway 22 to junction U.S. Highway 202, thence along U.S. Highway 202 to the Pennsylvania-New Jersey State line, (7) to points in that part of New York on and east of a line beginning at the United States-Canada International Boundary line extending along U.S. Highway 9 to junction New York Highway 22, thence along New York Highway 22 to junction U.S. Highway 4, thence along U.S. Highway 4 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 9, thence along U.S. Highway 9 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction New York Highway 45, thence along New York Highway 45 to the New York-New Jersey State line, (8) to points in Connecticut, (9) to points in Rhode Island, (10) to points in Massachusetts, (11) to points in Vermont, (12) to points in New Hampshire, and (13) to points in Maine (except points north of Maine Highway 25). The purpose of this filing is to eliminate the gateways of Carrollton, Macon, Marshall, Moberly, and Milan, Mo.

No. MC 21170 (Sub-No. E182), filed June 29, 1974. Applicant: BOS LINES, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Gene R. Prohushi (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766, except commodities in bulk, in tank vehicles, and hides, restricted to food products, from the facilities of Cornland Dressed Beef Company at or near Lexington, Nebraska, (A) to points in that part of Illinois south and east of a line beginning at the Illinois-Missouri State line extending along Illinois Highway 104 to junction Illinois Highway 99, thence along Illinois Highway 99 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Illinois Highway 103, thence along Illinois Highway 103 to junction Illinois Highway 100, thence along Illinois Highway 100 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Illinois Highway 116, thence along Illinois Highway 116 to junction Illinois Highway 115, thence along Illinois Highway 115 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction unnumbered highway, thence along unnumbered highway to the Illinois-Indiana State line, (B) to points in that part of Indiana south and east of a line beginning at the Indiana-Illinois State line extending along Indiana Highway 14 to junction Indiana Highway 55, thence along Indiana Highway 55 to junction Indiana Highway 10. Thence along Indiana Highway 10 to junction Indiana Highway 19, thence along Indiana Highway 19 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Indiana Highway 9, thence along Indiana Highway 9 to junction Indiana Highway 8, thence along Indiana Highway 8 to junction Indiana Highway 3, thence along Indiana Highway 3 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Indiana Highway 427, thence along Indiana Highway 427 to junction Indiana Highway 1, thence along Indiana Highway 1 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Indiana-Ohio State line, (C) to points in that part of Ohio south and east of a line beginning at the Ohio-Indiana State line extending along U.S. Highway 20 to junction Ohio Highway 49, thence along Ohio Highway 49 to the Ohio-Michigan State line, (D) to points in that part of Michigan north and east of a line beginning at the Michigan-Ohio State line extending along Michigan Highway 99 to junction Michigan Highway 34, thence along Michigan Highway 34 to junction U.S. Highway 127, thence along U.S. Highway 127 to junction Michigan Highway 50 to junction Michigan Highway 91, thence along Michigan Highway 91 to junction Michigan Highway 46, thence along Michigan Highway 46 to junction Michigan Highway 82, along Michigan Highway 120 to Lake Michigan, (E) to points in Kentucky, Pennsylvania, West Virginia, Virginia, Maryland, Delaware, District of Columbia, New York, New Jersey, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, and Maine. The purpose of this filing is to eliminate the gateway of the facilities of Ralston Purina Co., located at or near California, Mo.

No. MC 29886 (Sub-No. E31), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample St., South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Heavy machinery*, which because of size or weight require the use of special equipment or special handling, except automobiles, trucks, buses, trailers, cabs, chassis, and cement in bulk, (1) between points in Michigan, on the one hand, and, on the other, those points in Ohio on and east of a line beginning at the Michigan-Ohio State line and extending along Ohio Highway 23 to junction Interstate Highway 475, thence along Interstate Highway 475 to junction U.S. Highway 25, thence along U.S. Highway 25 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction U.S. Highway 30N, thence along U.S. Highway 30N to junction U.S. Highway 30, thence along U.S. Highway 30 to the Ohio-West Virginia State line (Toledo, Ohio)*; (2) between those points in Michigan on and east of a line beginning at the Ohio-Michigan State line and extending along U.S. Highway 23 to junction Michigan Highway 76, thence along Michigan Highway 76 to junction Michigan Highway 72, thence along Michigan Highway 72 to junction Michigan Highway 37, thence along Michigan Highway 37 to Lake Michigan, and those points in Ohio on and north of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 30 to junction U.S. Highway 30N, thence along U.S. Highway 30N to junction U.S. Highway 30.

Thence along U.S. Highway 30 to the Ohio-West Virginia State line (Toledo, Ohio)*; (3) between points in Michigan, on the one hand, and, on the other, New York, New Jersey, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, and Maine (Toledo, Ohio, and those points in that part of New York on and west of a line beginning at Rochester, N.Y. and extending along U.S. Highway 15 to junction New York Highway 245, thence along New York Highway 245 to junction New York Highway 39, thence along New York Highway 39 to junction U.S. Highway 219, thence along U.S. Highway 219 to the New York-Pennsylvania State line)*; and (4) between points in Iowa, on the one hand, and, on the other, points in New Jersey and the District of Columbia (those points in that part of Michigan on, south and west of a line beginning at Lake Michigan and extending along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., to junction Business Interstate Highway 96, to junction U.S. Highway 127, thence along U.S. Highway 127 to Jackson, Mich., thence along unnumbered highway to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Michigan-Ohio State line (Toledo, Ohio and Centre County, Pa.)*. The purpose of this filing is to eliminate the gateways as indicated by asterisks above.

No. MC 29886 (Sub-No. E32), filed May 23, 1974. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, Ind. 46627. Applicant's representative: Charles Pieroni (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *heavy machinery*, the transportation of which, because of size or weight, require the use of special equipment or special handling, except automobiles, trucks, buses, trailers, cabs, chassis, and cement in bulk, between points in Iowa, on the one hand, and, on the other, points in New York, Vermont, New Hampshire, Maine, Massachusetts, Connecticut, and Rhode Island (those points in that part of Michigan on, south and west of a line beginning at Lake Michigan and extending along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., to junction Business Interstate Highway 96, to junction U.S. Highway 127, thence along U.S. Highway 127 to Jackson, Mich., thence along unnumbered highway (formerly portion of U.S. Highway 127) to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Michigan-Ohio State line; (Toledo, Ohio, and those points in that portion of New York on and west of a line beginning at Rochester, N.Y., and extending along U.S. Highway 15 to junction New York Highway 245, thence along New York Highway 245 to junction New York Highway 39, thence along New York Highway 39 to junction U.S. Highway 219, thence along U.S. Highway 219 to the New York-Pennsylvania State line)*;

(2) *heavy machinery*, which because of size or weight, require the use of special equipment or special handling, (a) between points in Iowa, on the one hand, and, on the other, points in Pennsylvania (those points in that portion of Michigan on, south and west of a line beginning at Lake Michigan and extending along the northern boundaries of Allegan, Barry, and Eaton Counties, Mich., to junction Business Interstate Highway 96, to junction U.S. Highway 127, thence along U.S. Highway 127 to Jackson, Mich., thence along unnumbered highway (formerly portion of U.S. Highway 127) to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Michigan-Ohio State line, and Toledo, Ohio)*, and (b) between points in Indiana, on the one hand, and, on the other, points in New York, Vermont, New Hampshire, Maine, Massachusetts, Connecticut, and Rhode Island (Toledo, Ohio, and New York)*; (3) *heavy machinery*, (a) between points in Indiana, on the one hand, and, on the other, points in New Jersey (Toledo, Ohio, and Centre County, Pa.)*, (b) between points in Indiana, on the one hand, and, on the other, points in Pennsylvania, on and north of a line beginning at the Ohio-Pennsylvania State line and extending along Interstate Highway 80 to junction Pennsylvania Highway 93, thence along Pennsylvania Highway 93 to junction Pennsylvania Turnpike, thence along Pennsylvania Turnpike to junction Pennsylvania Highway 100, thence along Pennsylvania Highway 100 to the Pennsylvania-New Jersey State line (Toledo, Ohio)*, and (c) between points in Indiana, on and north of a line beginning at the Indiana-Illinois State line and extending along Indiana Highway 26 to junction Interstate Highway 69, thence along Interstate Highway 69 to junction Indiana Highway 14, thence along Indiana Highway 14 to the Ohio-Indiana State line, on the one hand, and, on the other, points in Pennsylvania (Toledo, Ohio)*. The purpose of this filing is to eliminate the gateways as indicated by asterisks above.

No. MC 30280 (Sub-No. E96), filed January 22, 1975. Applicant: WATKINS CAROLINA EXPRESS, INC., P.O. Box 1636, Atlanta, Georgia 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between (a) points in Lunenburg, Mecklenburg, Halifax, Charlotte, Prince Edward, and Nottoway Counties, Va., on the one hand, and, on the other, points in Anderson, Cherokee, Greenville, Oconee, Pickens, and Spartanburg Counties, S.C., (b) points in that part of York County, S.C., on and west of South Carolina Highway 49, (c) points in that part of Chester County, S.C., on and north of South Carolina Highway 9, and (d) points in that part of Union County, S.C., on and north of South Carolina Highway 9. The purpose of this filing is to eliminate the gateways of (1) Burlington, N.C., and (2) Charlotte, N.C.

No. MC 51146 (Sub-No. E4), filed May 1, 1974. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, Wis. 54306. Applicant's representative: D. F. Martin (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Precast concrete products*, from Utica, Ill., to points in the Upper Peninsula of

V 40 172 APR 14 75 XUM

Michigan, and Minnesota (except points south of a line beginning at the South Dakota-Minnesota State line and extending along Minnesota Highway 19 to the junction of U.S. Highway 63, thence along U.S. Highway 63 to the Mississippi River at Red Wing, Minn.) (Oshkosh, Wis.)*; (2) *New furniture*, crated, as is manufactured or distributed by manufacturers or distributed by manufacturers or converters of cellulose materials and products, and paper products, from St. Charles, Ill., to points in Washington, Oregon, California, Nevada, Idaho, Arizona, Montana, Utah (except points in Daggett, Uintah, and Grand Counties, Utah), and Wyoming (except points south of a line beginning at the South Dakota-Wyoming State line and extending along U.S. Highway 16 to junction U.S. Highway 20, thence along U.S. Highway 20 to the junction of U.S. Highway 26, thence along U.S. Highway 26 to the Wyoming-Idaho State line) (Green Bay, Wis.)*; (3) *New furniture* crated, from St. Charles, Ill. to points in North Dakota (except points south and east of a line beginning at the Minnesota-North Dakota State line and extending along U.S. Highway 2 to junction U.S. Highway 281, thence along U.S. Highway 281 to the North Dakota-South Dakota State line), and South Dakota (except points south and east of a line beginning at the North Dakota-South Dakota State line and extending along U.S. Highway 281 to junction U.S. Highway 12, thence along U.S. Highway 12 to the junction of U.S. Highway 83, thence along U.S. Highway 83 to the junction of U.S. Highway 212, thence along U.S. Highway 212 to the South Dakota-Wyoming State line (Menominee, Mich.)*;

(4) *Paper* and *paper products* (except commodities in bulk), from the facilities of Union Camp Corporation at or near Savannah, Ga., to points in Washington, Oregon, Nevada, Idaho, Utah, Montana, Wyoming, Colorado, North Dakota, South Dakota, Nebraska, Missouri (except points south of U.S. Highway 24), Kansas (except points south of a line beginning at the Missouri-Kansas State line and extending along Interstate Highway 65 to junction U.S. Highway 56, thence along U.S. Highway 56 to the Kansas-Oklahoma State line), Arizona (except points south of U.S. Highway 66), and California (except points in Imperial County, Calif.) restricted against the transportation of pulpboard, pulpboard products, waste paper and cardboard cartons, and restricted to the transportation of traffic originating at the above-named facilities (Middlesboro, Ky., and Muncie, Ind.)*; (5) *Paper* and paper products (except commodities in bulk), from the facilities of Union Camp Corporation at or near Savannah, Ga., to points in Minnesota, Iowa, Wisconsin, Michigan, Illinois (except points in the Chicago, commercial zone, as defined by the Commission, points in that part of the St. Louis-East St. Louis commercial zone within Illinois and points in Illinois on and south of U.S. Highway 460), Indiana (except points in the Evansville commercial zone as defined by the Commission), Ohio, Kentucky (except points on and east of Interstate Highway 75, and points in Kentucky south of a line beginning at the Missouri-Kentucky State line and extending along Kentucky Highway 80 to junction Interstate Highway 65, thence along Interstate Highway 65 to the Kentucky-Tennessee State line), restricted against the transportation of (a) pulpboard, pulpboard products, and waste paper to points in Illinois, Indiana, Ohio, Kentucky, Minnesota, and points in that part of Michigan on and south of Michigan Highway 21, and (b) cardboard cartons to the points in Minnesota, Wisconsin, Iowa, Illinois, Indiana, Ohio, and Michigan, and restricted to the transportation of traffic originating at the above-named facilities (Middlesboro, Ky.)*;

(6) *Paper* and *paper products* (except commodities in bulk), from the facilities of Union Camp Corporation at or near Savannah, Ga., to points in Massachusetts, Connecticut, Rhode Island, New York (except points west of a line beginning at Lake Erie at Dunkirk, N.Y., and extending along New York Highway 60 to junction U.S. Highway 62, thence along U.S. Highway 62 to the New York-Pennsylvania State line), and New Jersey (except points south of a line beginning at the Pennsylvania-New Jersey State line and extending along U.S. Highway 22 to junction Interstate Highway 78, thence along Interstate Highway 78 to the New Jersey-New York State line, restricted to the transportation of traffic originating at the above-named facilities (Cumberland, W. Va., and Paximos, Pa.)*; (7) *Paper* and *paper products* (except commodities in bulk), from the facilities of Union Camp Corporation at or near Savannah, Ga., to points in Pennsylvania, restricted to the transportation of traffic originating at the above-named facilities (Cumberland, W. Va.)*; (8) *Paper* and *paper products* (except those commodities of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), from the facilities of Union Camp Corporation at or near Savannah, Ga., to Chicago, Ill., restricted against the transportation of pulpboard, pulpboard products, waste paper, and cardboard cartons, and restricted to the transportation of traffic originating at the above-named facilities (Middlesboro, Ky., and Chicago Heights, Ill.)*; (9) *Paper* and *paper products* (except commodities in bulk), from the plant site and storage facilities of Union Camp Corporation in Isle of Wight County, Va., at or near Franklin, Va., to points in Minnesota, Iowa, Michigan, Indiana (except points in the Evansville commercial zone as defined by the Commission), and Ohio (except points east of Interstate Highway 77 commencing at Lake Erie at Cleveland and extending south to the Ohio-West Virginia State line), restricted to the transportation of traffic originating at the above-specified plant site and storage facilities (Lewisburg, W. Va.)*;

(10) *Paper* and *paper products* (except commodities in bulk), from the plant site and storage facilities of Union Camp Corporation in Isle of Wight County, Va., at or near Franklin, Va., to points in Tennessee (except points east of a line beginning at the Kentucky-Tennessee State line and extending along U.S. Highway 25E to junction Interstate Highway 40, thence along Interstate Highway 40 to the Tennessee-North Carolina State line), restricted to the transportation of traffic originating at the above-specified plant site and storage facilities (Middlesboro, Ky.)*; (11) *Paper* and *paper products* (except commodities in bulk), from the plant site and storage facilities of Union Camp Corporation in Isle of Wight County, Va., at or near Franklin, Va., to points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma (except points south and east of a line beginning at the Arkansas-Oklahoma State line and extending along Interstate Highway 40 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Oklahoma-Texas State line Texas (except points east of Interstate Highway 35), and points in Crawford, Washington, Benton, Madison, Carroll, Newton, Boone, Searcy, Marion, and Baxter Counties, Ark., restricted to the transportation of traffic originating at the above-specified plant site and storage facilities (Lewisburg, W. Va., and Muncie, Ind.)*; (12) *Paper* and *paper products* (except commodities in bulk), from the plant site and storage facilities of Union Camp Corporation in Isle of Wight County, Va., at or near Franklin, Va., to points in that part of Ohio east of U.S. Highway 77, and that part of Pennsylvania on and west of U.S. Highway 220, restricted to the transportation of traffic originating at the above-specified plant site and storage facilities (Cumberland, Md.)*;

(13) *Paper* and *paper products* (except those commodities of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), from the plant site and storage facilities of Union Camp Corporation in Isle of Wight County, Va., at or near Franklin, Va., to Chicago, Ill., restricted to the transportation of traffic originating at the above-specified plant site and storage facilities (Chicago Heights, Ill.)*; (14) *Canning and harvesting machinery and equipment*, and *cannery supplies* utilized by food business houses (except commodities in bulk), between Kent City, Mich., on the one hand, and, on the other, points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, North Dakota, Wisconsin (except points south of a line beginning at Lake Michigan and extending along U.S. Highway 10 to junction Wisconsin Highway 54, thence along Wisconsin Highway 54 to the Wisconsin-Minnesota State line), Minnesota (except points south

and east of a line beginning at the Wisconsin-Minnesota State line and extending along U.S. Highway 14 to the junction of U.S. Highway 218, thence along U.S. Highway 218 to the Minnesota-Iowa State line), South Dakota (except points south of U.S. Highway 16), Wyoming (except points south and east of a line beginning at the Nebraska-Wyoming State line, and extending along U.S. Highway 20 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to the Wyoming-Colorado State line), Colorado (except points east of a line beginning at the Wyoming-Colorado State line and extending along Colorado Highway 789 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 285, thence along U.S. Highway 285 to the Colorado-New Mexico State line), and New Mexico (except points east of U.S. Highway 285) (Green Bay, Wis.)*;

(15) *Canned goods*, from Antigo, Wis., to points in Alabama and points in Missouri (except points north and west of a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 24 to junction Missouri Highway 5, thence along Missouri Highway 5 to junction Missouri Highway 52, thence along Missouri Highway 52 to the Missouri-Kansas State line) (Milford, Ill.)*; (16) *Canned goods*, from Antigo, Wis., to points in Tennessee (Hoopeston, Ill., and Fowler, Ind.)*; (17) *Canned goods*, from Antigo, Wis., to points in Pennsylvania and West Virginia (Hoopeston, Ill.)*; (18) *Canned goods*, from Antigo, Wis., to points in Kentucky, Indiana (except points north of U.S. Highway 24), Ohio (except points north of U.S. Highway 24) (Milford, Ill.)*; (19) *Canned goods*, from Hoopeston and Milford, Ill., to points in the Upper Peninsula of Michigan (Fowler, Ind., and Shawano, Wis.)*; (20) *Canned goods*, from Fowler, Klandike, and Trafalgar, Ind., to points in the Upper Peninsula of Michigan (except points east of a line beginning at Lake Superior at Grand Marais, Mich., and extending along Michigan Highway 77 to junction U.S. Highway 2, thence along U.S. Highway 2 to Gulliver, Mich., thene from Gulliver, Mich., over unnumbered highway to Lake Michigan) (Shawano, Wis.)*; (21) *New upholsterd furniture*, in containers, from the facilities of La-Z-Boy Chair Company in Newton, Miss., to points in Minnesota, the Upper Peninsula of Michigan, Indiana (except points south of U.S. Highway 6), and Ohio (except points south of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 6 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Ohio-Michigan State line) (St. Charles, Ill.)*; (22) *New upholstered furniture*, in containers, from the facilities of La-Z-Boy Chair Company in Newton, Miss., to points in North Dakota and the Lower Peninsula of Michigan (except points south of Michigan Highway 32) (St. Charles, Ill., and Menominee, Mich.)*;

(23) *New upholstered furniture*, in containers, from the facilities of La-Z-Boy Chair Company in Neosho, Mo., to points in the Upper Peninsula of Michigan, Indiana (except points south of Indiana Highway 14), and Ohio (except points south of U.S. Highway 30) (St. Charles, Ill.)*; (24) *New upholstered furniture*, in containers, from the facilities of La-Z-Boy Chair Company in Neosho, Mo., to points in the Lower Peninsula of Michigan (except points south of Michigan Highway 32) (St. Charles, Ill., and Menominee, Mich.)*; (25) *New upholstered furniture*, in containers, from the facilities of the La-Z-Boy Chair Company in Monroe, Mich., to points in Minnesota and the Upper Peninsula of Michigan (except points east of a line beginning at Lake Superior at Marquette, Mich., and extending along U.S. Highway 41 to junction Michigan Highway 95, thence along Michigan Highway 95 to the Michigan-Wisconsin State line) (St. Charles, Ill.)*; (26) *New upholstered furniture*, in containers, from the facilities of the La-Z-Boy Chair Company in Monroe, Mich., to points in North Dakota, and South Dakota (except points south of U.S. Highway 212), (St. Charles, Ill., and Menominee, Mich.)*; (27) *New upholstered furniture*, in containers, from the facilities of La-Z-Boy Chair Company in Redlands, Calif., to points in Indiana, Ohio, and the Upper Peninsula of Michigan (St. Charles, Ill.)*; (28) *New upholstered furniture*, in containers, from the facilities of La-Z-Boy Chair Company in Redlands, Calif., to points in the Lower Peninsula of Michigan, Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Maryland, and Pennsylvania (except points south and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to junction Interstate Highway 76, thence along Interstate Highway 76 to the Pennsylvania-Maryland State line (St. Charles, Ill., and Menominee, Mich.)*;

(29) (a) *Paper* and *paper products* (except commodities in bulk), from the plant site of the West Virginia Pulp and and Paper Company located at or near Wickliffe, Ky., to points in Maine, Vermont, and New Hampshire, and (b) *Materials* and *supplies* used in the manufacture and processing of paper and paper products (except commodities in bulk), from the destination points specified in (a) above to the plant site of West Virginia Pulp and Paper Company located at or near Wickliffe, Ky. (Muncie, Ind.)*; (30) (a) *Paper* and *paper products* (except commodities in bulk, from the plantsite of the West Virginia Pulp and Paper Company located at or near Wickliffe, Ky., to points in Louisiana and Arkansas (except points north and east of a line beginning at the Oklahoma-Arkansas State line and extending along Interstate Highway 40 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Arkansas-Louisiana State line), and (b) *Materials* and *supplies* used in the manufacture and processing of paper and paper products (except commodities in bulk), from the destination points specified in (a) above to the plant site of West Virginia Pulp and Paper Company located at or near Wickliffe, Ky. (Neelys Landing, Mo.)*; (31) (a) *Paper* and *paper products*, from the plant site of the West Virginia Pulp and Paper Company located at or near Wickliffe, Ky., to points in North Dakota, South Dakota, and Nebraska (except points south of U.S. Highway 20), and (b) *Materials* and *supplies* used in the manufacture and processing of paper and paper products (except commodities in bulk), from the destination points specified in (a) above to the plant site of West Virginia Pulp and Paper Company located at or near Wickliffe, Ky. (Sibley, Iowa)*;

(32) (a) *Paper* and *paper products*, from the plant site of the West Virginia Pulp and Paper Company located at or near Wickliffe, Ky., to points in Washington, Montana, Idaho (except points south of U.S. Highway 20), Oregon (except points south of U.S. Highway 20), and Wyoming (except points south of U.S. Highway 20), and (b) *Materials* and *supplies* used in the manufacture of paper and paper products (except commodities in bulk and commodities which because of size or weight require the use of special equipment), from the destination points specified in (a) above to the plant site of West Virginia Pulp and Paper Company located at or near Wickliffe, Ky. (Wisconsin Rapids, Wis.)*; (33) (a) *Paper* and *paper products* (except commodities in bulk), from the plant site of the West Virginia Pulp and Paper Company located at or near Wickliffe, Ky., to points in California, Nevada, Arizona, Idaho (except points north and east of a line beginning at the Oregon-Idaho State line and extending along U.S. Highway 20 to junction U.S. Highway 91, thence along U.S. Highway 91 to the Idaho-Utah State line), Oregon (except points on and north of U.S. Highway 20), and Utah (except points north and east of a line beginning at the Idaho-Utah State line and extending along U.S. Highway 91 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Utah-Colorado State line), and (b) *Materials* and *supplies* used in the manufacture of paper and paper products (except commodities in bulk and commodities which because of size or weight require the use of special equipment), from the destination points specified herein to the plant site of West Virginia Pulp and Paper Company located at or near Wickliffe, Ky. (Neelys Landing, Mo., and Little River County, Ark.)*;

(34) *Paper* and *paper products* (except commodities in bulk and chemicals), from Luke, Md., to points in North Dakota, South Dakota, Nebraska, Missouri, Arkansas, Mississippi, Kansas, Oklahoma, Texas, New Mexico, Colorado, Wyoming, Montana, Washington, Oregon, California, Nevada, Louisiana, Idaho, Utah, and Arizona (Muncie, Ind.)*; (35) *Paper* and *paper products* (except commodities in bulk and chemicals), from Luke, Md., to points in Kentucky (except points east of a line beginning at the

V 40 72 APR 14 75 XUM

Indiana-Kentucky State line and extending along U.S. Highway 421 to the junction of U.S. Highway 127, thence along U.S. Highway 127 to the Kentucky-Tennessee State line), and Tennessee (except points in Tennessee in the Memphis commercial zone, and except points east of U.S. Highway 231) (Madison, Ind.)*; (36) *Paper* and *paper products* (except commodities in bulk and chemicals, from Luke, Md., to points in Ohio 9 (except points north and east of a line beginning at the Kentucky-Ohio State line and extending along Interstate Highway 75 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Indiana-Ohio State line), restricted against the transportation of pulpboard, pulpboard products and waste paper (Richmond, Ind.)*; (37) *Paper* and *paper products* (except commodities in bulk and chemicals), from Covington, Va., to points in Missouri (Columbus, Ind.)*; (38) *Paper* and *paper products* (except commodities in bulk and chemicals), from Covington, Va., to points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas (except points east of a line beginning at the Arkansas-Texas State line and extending along U.S. Highway 59 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Gulf of Mexico at Galveston, Tex.), restricted against the transportation of pulpboard, pulpboard products, and waste paper (Muncie, Ind., and Boston, Ind.)*; (39) *Paper* and *paper products* (except commodities in bulk and chemicals), from Covington, Va., to Milwaukee, Wis., restricted against the transportation of pulpboard, pulpboard products, and waste paper (Racine, Wis.)*;

(48) *Paper* and *paper products*, from Green Bay and DePere, Wis., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Minnesota, Missouri, Arkansas, Louisiana, Mississippi, Tennessee, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, West Virginia (except points north of U.S. Highway 22), Pennsylvania (except points west of a line beginning at Lake Erie at Erie, Pa., and extending along Interstate Highway 79 to junction U.S. Highway 22, thence along U.S. Highway 22 to the Pennsylvania-West Virginia State line), Iowa (except points east of a line beginning at the Wisconsin-Iowa State line and extending along U.S. Highway 18 to the junction of Iowa Highway 13, thence along Iowa Highway 13 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Illinois State line), Illinois (except points east of a line beginning at the Iowa-Illinois State line and extending along U.S. Highway 67 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction Illinois Highway 127, thence along Illinois Highway 127 to the Illinois-Missouri State line), and the District of Columbia (Port Edwards, Wis.)*; (49) *Paper* and *paper products*, from Appleton and Kaukauna, Wis., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Minnesota, Missouri, Arkansas, Louisiana, Mississippi, Tennessee, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, West Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, Iowa (except points east of U.S. Highway 218), Illinois (except points north and east of a line beginning at the Missouri-Illinois State line and extending along Illinois Highway 140 to junction Illinois Highway 127, thence along Illinois Highway 127 to the Illinois-Missouri State line), and the District of Columbia (Port Edwards, Wis.)*;

(50) *Paper and paper products*, from Menasha and Neenah, Wis., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Minnesota, Missouri, Arkansas, Louisiana, Mississippi, Tennessee, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, Iowa (except points east of U.S. Highway 63), Pennsylvania (except points west of a line beginning at Lake Erie at Erie, Pa., and extending along Interstate Highway 79 to junction US Highway 22, thence along US Highway 22 to the Pennsylvania-West Virginia State line), West Virginia (except points in Jackson, Mason, Pleasants, Tyler, Wetzel and Wood Counties, W. Va.), and the District of Columbia (Port Edwards, Wis.)*; (51) *Paper and paper products*, from Milwaukee, Wis., to points in North Dakota, South Dakota, Nebraska (except points east of US Highway 81, Kansas (except points east of US Highway 81), Oklahoma (except points east of Interstate Highway 35), Texas (except points east of US Highway 69), and Minnesota (except points in Fillmore, Houston, and Winona Counties, Minn.) (Port Edwards, Wis.)*; (52) *Paper and paper products*, from Peshtigo, Wis., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Iowa, Missouri, Arkansas, Louisiana, Mississippi, Tennessee, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, West Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, Maine, Kentucky (except points north of a line beginning at the West Virginia-Kentucky State line extending along US Highway 119 to junction Kentucky Highway 80, thence along Kentucky Highway 80 to the Kentucky-Missouri State line), Minnesota (except points east of a line beginning at the Kentucky-Missouri State line), Minnesota (except points east of a line beginning

at the United States-Canada International Boundary line and extending along U.S. Highway 71 to junction U.S. Highway 10, thence along U.S. Highway 10 to the Minnesota-Wisconsin State line), Illinois (except points east of a line beginning at the Iowa-Illinois State line and extending along U.S. Highway 67 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction Illinois Highway 127, thence along Illinois Highway 127 to the Illinois-Missouri State line), and the District of Columbia (Port Edwards, Wis.)*;

(53) *Paper* and *paper products*, between Port Edwards, Peshtigo, Green Bay, DePere, Kaukauna, Appleton, Menasha, Neenah, and Milwaukee, Wis., on the one hand, and, on the other, points in Arizona, New Mexico, Colorado, Utah, Nevada, California, Oregon, Washington, Idaho, Montana, and Wyoming, restricted against the transportation of paper and paper products from Los Angeles and San Francisco, Calif., and points in the respective commercial zones, and Los Angeles Harbor, Calif., commercial zone as defined by the Commission (Appleton, Wis.)*; (54) *Paper* and *paper products*, from South Bend, Ind., to points in Arizona (except points north of U.S. Highway 66) and California (except points north and east of a line beginning at the Arizona-California State line and extending along U.S. Highway 66 to the junction of California Highway 58, thence along California Highway 58 to junction California Highway 99, thence along California Highway 99 to junction California Highway 132, thence along California Highway 132 to junction Interstate Highway 580, thence along Interstate Highway 580 to the Pacific Ocean at San Francisco, Calif.) (Little River County, Ark.)*; (55) *Paper* and *paper products* (except commodities in bulk), from the plants and storage facilities of Menasha Corporation at or near Neenah and Menasha, Wis., to points in Maine, New Hampshire, Vermont, New York, Massachusetts, Connecticut, Rhode Island, New Jersey, Delaware, Maryland, Virginia, North Carolina, Mississippi, Kentucky (except points west of U.S. Highway 431), and the District of Columbia (Muncie, Ind.)*;

(56) *Paper* and *paper products*, from the plants and storage facilities of Menasha Corp. at or near Neenah and Menasha, Wis., to points in North Dakota (except points north of U.S. Highway 212), Nebraska (except points east of U.S. Highway 75), Kansas (except points east of U.S. Highway 75), Oklahoma (except points east of U.S. Highway 75) and Texas (except points east of a line beginning at the Oklahoma-Texas State line and extending along U.S. Highway 271 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Gulf of Mexico at Port Arthur, Tex.) (Sibley, Iowa)*; (57) *Paper* and *paper products* (except commodities in bulk), from the plant and storage facilities of Menasha Corporation at Neenah and Menasha, Wis., to points in Arkansas (except points in the Blytheville commercial zone as defined by the Commission), Louisiana, Mississippi, and that part of Alabama on and north of U.S. Highway 78 (including points in the commercial zones of points in U.S. Highway 78) (Neelys Landing, Mo.)*;

(58) *Veneer*, as is manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products, from High Point and Linwood, N.C., to points in Washington, Oregon, Idaho, Montana, Wyoming, Colorado (except points south of a line beginning at the Utah-Colorado State line and extending along U.S. Highway 40 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Interstate Highway 80S, thence along Interstate Highway 80S to the Colorado-Nebraska State line), Utah (except points south of a line beginning at the Arizona-Utah State line and extending along U.S. Highway 91 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Utah-Colorado State line), Nevada (except points south of a line beginning at the Pacific Ocean at Los Angeles, Calif., and extending along Interstate Highway 10 to junction Interstate Highway 15, thence along Interstate Highway 15 to the California-Nevada State line (Green Bay, Wis.)*; and (59) *Veneer*, as is manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products, from Martinsburg, W. Va., and New Freedom, Pa., to points in Washington, Oregon, California, Idaho, Nevada, Utah, Arizona, Montana, Wyoming, and Colorado (except points east of a line beginning at the Nebraska-Colorado State line and extending along Interstate Highway 80S, to junction U.S. Highway 285, thence along U.S. Highway 285 to the Colorado-New Mexico State line) (Green Bay, Wis.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 61403 (Sub-No. E28) (Correction), filed May 31, 1974, published in the FEDERAL REGISTER March 6, 1975. Applicant: THE MASON AND DIXON TANK LINES, INC., P.O. Box 969, Kingsport, Tenn. 37662. Applicant's representative: Charles E. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (4) *Liquid acids*, in bulk, in tank vehicles, from the plant site of American Cyanamid Co., at Avondale, La., to points in Wisconsin, Minnesota, those in Iowa on, east, and north of a line beginning at the Iowa-Missouri State line and extending along U.S. Highway 169 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 141, thence along Iowa Highway 141 to junction Interstate Highway 29, thence along Interstate Highway 29 to the Iowa-South Dakota State line, and those in North Dakota and South Dakota on and east of U.S. Highway 85 (Marshall, Ill.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this partial correction is to include (4) above. The remainder of this letter-notice remains as previously published.

No. MC 66900 (Sub-No. E3), filed May 30, 1974. Applicant: HOUFF TRANSFER INCORPORATED, P.O. Box 91, Weyers Cave, Va. 24486. Applicant's representative: Harold G. Hernly, Jr., 118 N. St. Asaph St., Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except uncrated household goods, explosives and dangerous articles, bank bills, currency, or money, deeds, drafts, or valuable papers, postage stamps, precious metals or stones or other articles manufactured therefrom, jewelry or other articles of extraordinary value, articles exceeding 20 feet in length or 6 feet in height, or 7 feet in width, except by special arrangements, green hides, slaughter house offal, tanner's fleshings, or any other articles offensive in odor, which are liable to impregnate other freight or cause damage thereto, and livestock and articles requiring refrigeration, (1) between points in that part of Virginia located on and east of a line beginning at the North Carolina-Virginia State line, thence along U.S. Highway 15 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 522, thence along U.S. Highway 522 to the Virginia-West Virginia State line on the one hand, and, on the other, points in Hardy, Grant, Mineral, Hampshire, Morgan, Jefferson, and Berkeley Counties, W. Va. (2) between points in that part of Virginia located on and south of a line beginning at the Atlantic Ocean, thence along Interstate Highway 64 to junction U.S. Highway 522, thence along U.S. Highway 522 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 15, thence along U.S. Highway 15 to the Virginia-North Carolina State line, except points within 80 miles of Staunton, Va. on the one hand, and, on the other points in that part of West Virginia located north of Hardy County, W. Va. and east of U.S. Highway 220. The purpose of this filing is to eliminate the gateway of points in that part of Virginia located within 50 miles of Washington, D.C.

No. MC 66900 (Sub-No. E6), filed May 24, 1974. Applicant: HOUFF TRANSFER, INC., P.O. Box 91, Weyer Cave, Va. 24486. Applicant's representative: Harold G. Hernly, Jr., 118 N. St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale or retail hardware (1) from Philadelphia, Pa. to points in West Virginia located on and north of U.S. Highway 33. The purpose of this filing is to eliminate the gateway of points in Clarke and Frederick Counties, Va.

(2) From Philadelphia, Pa. to points in Ohio and Pennsylvania within 30 miles of Wheeling, W. Va. The purpose of this filing is to eliminate the gateway of points in Clarke and Frederick Counties,

V 40172 APR 14 75

Va., and points in West Virginia within 30 miles of Wheeling, W. Va.

(3) From Philadelphia, Pa. to Washington, D.C. Bethesda, Frederick, and Cumberland, Md. and points in Maryland within 50 miles of Washington, D.C. that are on and west of Maryland Highway 4 and those points that are on and west of Interstate Highway 70–S and Interstate Highway 70. The purpose of this filing is to eliminate the gateway of points in Virginia within 50 miles of Washington, D.C.

No. MC 66900 (Sub-No. E7), filed May 24, 1974. Applicant: HOUFF TRANSFER, INC., P.O. Box 91, Weyers Cave, Va. 24486. Applicant's representative: Harold G. Hernly, Jr., 118 N. St. Asaph Street, Alexandria, Va. 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and commodities which because of size or weight require special equipment, between points in Chesterfield County, Va. and points in Virginia located on and east of U.S. Highway 1 on the one hand, and, on the other, points in Botetourt, Craig, Alleghany, Rockbridge, Highland, Rockingham, Page, Shenandoah, and Warren Counties, Va. and those portions of Frederick and Clarke Counties, Va. within 80 miles of Staunton, Va.

Restriction: No service will be performed between points on and west of a line beginning at Petersburg, Va. and extending southward along Interstate Highway 95 and U.S. Highway 301 to the Virginia-North Carolina State line on the one hand, and, on the other, points in Virginia within 80 miles of Staunton, Va. on and south of a line beginning at the West Virginia-Virginia State line and thence eastward along Interstate Highway 64. The purpose of this filing is to eliminate the gateway of points in Augusta County, Va.

No. MC 78228 (Sub-No. E14) (correction), filed September 12, 1974, published in the FEDERAL REGISTER March 12, 1975. Applicant: J. MILLER EXPRESS, INC., 152 Wabash Street, Pittsburgh, Pa. 15220. Applicant's representative: Thomas M. Mulroy (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (3) *Coke*, in dump vehicles, from Harriet, N.Y., to points in Maryland, Virginia, and West Virginia. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa. The purpose of this partial correction is to include (3) above. The remainder of this letter-notice remains as previously published.

By the Commission.

SOCIAL SERVICE PROGRAM

Individual and Family Services

V 40-72 APR 14 75 XUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social and Rehabilitation Service

[45 CFR Part 228]

SOCIAL SERVICE PROGRAM FOR INDIVIDUALS AND FAMILIES

Implementation of Title XX of the Social Security Act

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare.

These proposed regulations are for implementation of Title XX of the Social Security Act, enacted by Pub. L. 93–647, effective October 1, 1975. They contain the following provisions:

1. Subpart A contains a brief overview of the services program and contains definitions of terms used throughout this Part.

2. Subpart B contains requirements for the contents and approval of the State plan, and for reports, maintenance of effort and compliance.

3. Subpart C details the contents of the Comprehensive Annual Services Program Plan and the process by which it is made available to the public. The primary purpose of this process is to provide the citizenry of each State comprehensive understanding of the State's services plan so that they, as an informed citizenry, can interact with the State decision-making process. The plan must contain three services (selected by the State) for SSI recipients, and at least one service directed at each of the five goals.

4. Subparts D, E, and F set forth the limitations on Federal financial participation with respect to specified services, rates and conditions for matching, and eligible individuals. Subpart E contains a definition of what family planning services are matchable at 90 percent under the program. It is anticipated that the final definition will be developed consistent with the Department's positions which will be reflected in the final title XIX regulations.

5. Subpart G details the rules governing purchase of services.

6. Subpart H contains the description of who may be trained and the conditions under which grants are made to educational institutions and financial assistance is provided to students.

7. Subpart I lists the administrative expenditures for which FFP is available.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are received in writing by the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, P.O. Box 2382, Washington, D.C. 20013 on or before May 14, 1975. Comments will be available for public inspection in Room 5326 of the Department's offices at 301 C Street SW., Washington, D.C., on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202–245–0950).

(Catalog of Federal Domestic Assistance Program No. 13.754 Public Assistance—Social Services)

Dated: April 4, 1975.

JAMES S. DWIGHT, Jr.,
Administrator, Social and Rehabilitation Service.

Approved: April 4, 1975.

CASPAR W. WEINBERGER,
Secretary.

Chapter II, Title 45 of the Code of Federal Regulations is amended by adding a new Part 228 as follows:

PART 228—SOCIAL SERVICES PROGRAMS FOR INDIVIDUALS AND FAMILIES: TITLE XX OF THE SOCIAL SECURITY ACT

Subpart A—Scope and Definitions

Sec.
228.0 Scope of program.
228.1 Program definitions.

Subpart B—State Plan Requirements, Reports, Maintenance of Effort, Compliance

228.5 State plan requirements.
228.6 Appropriate State agency.
228.7 State financial participation.
228.8 Statewide operation.
228.9 Merit system.
228.10 Safeguarding information.
228.11 Residency requirements.
228.12 Standards for institutions or foster homes.
228.13 Standards for child day care services.
228.14 Fair hearings.
228.15 Amendments to State plan.
228.16 Submittal of State plan and amendments for approval by the Secretary.
228.17 Reports and maintenance of records.
228.18 Maintenance of effort.
228.19 Non-compliance.

Subpart C—Comprehensive Annual Services Program Plan

228.20 General.
228.21 Establishment of program year, effective dates.
228.22 Services plan.
228.23 Program goals and objectives.
228.24 Individuals to be served.
228.25 Availability of services by geographic area.
228.26 Services.
228.27 Estimations of individuals to be served and expenditures.
228.28 Program resources.
228.29 Program coordination and utilization.
228.30 Organizational structure.
228.31 Needs assessment.
228.32 Planning, evaluation and reporting.
228.33 Proposed services plan.
228.34 Final services plan.
228.35 Amendments to final services plan.

Subpart D—Limitations: Services

228.39 General.
228.40 Medical and remedial care.
228.41 Room or board.
228.42 Child care standards.
228.43 Educational services.
228.44 Services to individuals living in hospitals, skilled nursing facilities, intermediate care facilities (including hospitals or facilities for mental diseases or for the mentally retarded), or prisons.
228.45 Services provided by foster family homes or foster care institutions.
228.46 Emergency shelter.

Subpart E—Limitations: Financial

228.50 Services and individuals covered in the services plan.
228.51 Matching rates.
228.52 Allotments to States.
228.53 Public sources of State's share.
228.54 Private sources of State's share.
228.55 Family Planning Services.
228.56 Fifty Percent Rule.

Subpart F—Limitations: Individuals Served, Eligibility and Fees

228.60 Persons eligible.
228.61 Determination of eligibility.
228.62 Fees for services.
228.63 Individual client record.
228.64 Information and referral services.
228.65 Services directed at the goal of preventing or remedying neglect, abuse, or exploitation of children or adults unable to protect their own interests.

Subpart G—Purchase of Service

228.70 Written contract.
228.71 Rates.

Subpart H—Training or Retraining

228.80 General.
228.81 Who may be trained.
228.82 Grants to educational institutions.
228.83 Financial assistance to students.
228.84 Activities and costs matchable as training expenditures.
228.85 Activities and costs not matchable as training expenditures.

Subpart I—General Administrative Provisions

228.90 Expenditures for which Federal financial participation is available.
228.91 Expenditures for which Federal financial participation is not available.

AUTHORITY: Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302).

Subpart A—Scope and Definitions

§ 228.0 Scope of program.

(a) Federal financial participation is available, in accordance with title XX of the Social Security Act and this Part, with respect to expenditures under a State program for the provision of services, to low income individuals and families, directed at the goals of:

(1) Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency;

2. Achieving or maintaining self-sufficiency, including reduction or prevention of dependency;

(3) Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests, or preserving, rehabilitating, or reuniting families;

(4) Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care, or

(5) Securing referral or admission for institutional care when other forms of care are not appropriate, or providing services to individuals in institutions.

§ 228.1 Program definitions.

As used in this Part:

Act means the Social Security Act, as amended.

Administrator means the Administrator of the Social and Rehabilitation Service of the U.S. Department of Health, Education, and Welfare.

Fiscal year as used in this Part means the Federal fiscal year unless otherwise specified.

FFP means Federal financial participation.

Geographic area means any identifiable area encompassed within the State so long as every political subdivision of the State, including Indian reservations, is a part of one or more such areas.

Medical or remedial care means medical care or remedial care for a medical condition.

Monthly gross income means the monthly sum of income received from the following sources that are identified by the U.S. Census Bureau in computing median income:

(1) Money wages or salary;
(2) Net income from farm self-employment;
(3) Net income from non-farm self-employment;
(4) Dividends, interest, rental income or royalties;
(5) Pensions and annuities;
(6) Alimony;
(7) Child support;
(8) Unemployment compensation;
(9) Veterans pensions;
(10) Workmen's Compensation;
(11) Public Assistance or welfare payments;
(12) Social Security payments including pensions; and
(13) Survivor's benefits, permanent disability payments and railroad retirement.

Secretary means the Secretary of the U.S. Department of Health, Education, and Welfare.

Services plan means the State Comprehensive Annual Services Program Plan under section 2004 of the Act.

SSI (Supplemental Security Income benefits) means monthly cash payments made by the Social Security Administration to an aged, blind or disabled individual who meets the requirements for such aid under title XVI of the Act.

State means the 50 States and the District of Columbia.

State agency means the State agency, designated by the chief executive officer of the State or as otherwise provided by the laws of the State, to administer or supervise the administration of the State's program, and except where the context otherwise requires, includes local agencies administering the program under the supervision of the State agency.

State plan means the State plan under section 2003 of the Act.

State supplementary payment means any cash payment made by a State on a regular basis to an individual receiving Supplemental Security Income benefits under title XVI of the Act, or who would but for his income be eligible to receive such benefits, as assistance based on need in supplemention of such benefits.

Title XX when used in this Part refers to title XX of the Social Security Act.

Subpart B—State Plan Requirements, Reports, Maintenance of Effort, Compliance

§ 228.5 State plan requirements.

Each State which establishes a services plan under title XX shall operate it pursuant to a State plan, approved as meeting the requirements of §§ 228.6 through 228.16.

§ 228.6 Appropriate State agency.

(a) *Designation of appropriate State agency.* The State plan shall provide for the designation, by the chief executive officer of the State or as otherwise provided by the laws of the State, of a State agency with authority to administer or supervise the administration of the State's program under title XX.

(1) If on December 1, 1974, a separate agency administered or supervised the service program for the blind under title VI, such agency may continue to do so for title XX. The program year for that agency shall be the same as for the title XX agency.

(b) *Legal authority.* The Attorney General of the State shall submit a certification identifying the State agency and certifying the legal authority under which such agency administers or supervises the administration of the State program including the authority to make rules and regulations governing the administration of the program.

(c) *Authority and responsibility of the agency.* There shall be maintained within the State agency the authority and responsibility for:

(1) The State plan;
(2) The services plan;
(3) The projection of estimated expenditures;
(4) The accountability for Federal funds;
(5) The establishing and maintaining of standards for the determination of eligibility;
(6) The administration or supervision of the administration for the provision of services;
(7) Operating the program on a Statewide basis;
(8) Complying with any program reporting Requirements;
(9) Cooperating with the Secretary; and
(10) Overall supervision, control and oversight of title XX activities.

(d) *Conditions for implementing the requirement of this section.* In carrying out the responsibilities under paragraph (c) of this section, the State agency may enter into agreements with public or private entities to provide support services.

(e) *Administration of title IV–B of the Act.* Under title IV–B of the Act, the State agency shall administer title IV–B of the Social Security Act unless, prior to December 1, 1974, title IV–A and IV–B of the Act were administered by separate agencies.

§ 228.7 State financial participation.

A State plan under title XX shall provide that State funds will be used in meeting the cost of the program.

§ 228.8 Statewide operation.

A State plan shall provide that it shall be in effect in every political subdivision of the State. Every part of every political subdivision shall be part of a geographic area described in the services plan.

§ 228.9 Merit system.

(a). The State plan shall provide that methods of personnel administration will be established and maintained in the State agency administering or supervising the administration of the State plan and in local agencies administering the State plan in conformity with the standards for a Merit System of Personnel Administration, 45 CFR Part 70. The State plan shall also conform with standards prescribed by the U.S. Civil Service Commission pursuant to section 208 of the Intergovernmental Personnel Act of 1970, modifying or superseding such standards. Under this requirement, laws, rules, regulation, and policy statements effectuating such methods of personnel administration are a part of the State plan. Statements of acceptance of these standards by all official local agencies included in the State plan must be obtained and methods must be established by the State to assure compliance by local jurisdictions. These statements and citations of applicable State laws, rules, regulations, and policies which provide assurance of conformity to the standards in 45 CFR Part 70 must be submitted to the Department of Health, Education, and Welfare for determination as to adequacy. Copies of the materials cited and of similar local materials maintained by a State official responsible for compliance by local jurisdictions must be furnished to the Department on request.

(b) Neither the Civil Service Commission nor the Secretary will exercise authority with respect to the selection, tenure of office, or compensation of any individual employed in accordance with such methods.

(c) The State plan shall provide that the State agency will develop and implement an affirmative action plan for equal employment opportunity in all aspects of personnel administration as specified in 45 CFR Part 70.4. The affirmative action plan will provide for specific action steps and timetables to assure such equal opportunity. The plan shall be made available for review upon request.

§ 228.10 Safeguarding information.

The State plan shall contain provisions regarding safeguarding the use and disclosure of information on applicants and recipients in accordance with 45 CFR 205.50.

§ 228.11 Residency requirements.

The State plan shall provide that no requirements as to duration of residence or citizenship will be imposed as a condition of participation in the State's program for the provision of services.

V 40 I 72 APR 14 75 XUM

§ 228.12 Standards for institutions or foster homes.

Where a services plan includes services to individuals living in institutions or foster homes, the State plan shall provide for the establishment or designation of a State authority or authorities, that may include Indian tribal councils on Indian reservations, which shall be responsible for establishing and maintaining standards which are reasonably in accord with recommended standards of national standard setting organizations concerned with standards for such institutions or homes including standards related to admissions policies, safety, sanitation, and protection of civil rights.

§ 228.13 Standards for child day care services.

Where a services plan provides for child day care services, the State plan shall provide for the establishment or designation of a State authority or authorities, that may include Indian tribal councils on Indian reservations, which shall be responsible for establishing and maintaining standards for such services which are reasonably in accord with recommended standards of national standard setting organizations for such services including standards related to admissions policies for facilities providing such services, safety, sanitation and protection of civil rights.

§ 228.14 Fair hearings.

The State plan shall provide for a system of hearings under which applicants or recipients, or an individual acting on behalf of an applicant or recipient, may appeal denial or termination of a service, or failure to act upon a request for service with reasonable promptness. Under this requirement, the procedures and provisions of 45 CFR 205.10 shall apply.

§ 228.15 Amendments to State plan.

The State plan shall provide that it will be amended whenever necessary to reflect new or revised Federal statutes or regulations, or material change in any State law, organization, policy, or State agency operation.

§ 228.16 Submittal of State plan and amendments for approval by the Secretary.

Upon adoption by the State of a State plan, or an amendment to a State plan, it shall be certified by a duly authorized officer of the State agency and submitted to the Social and Rehabilitation Service in accordance with 45 CFR Part 201.

§ 228.17 Reports and maintenance of records.

(a) Each State which participates in the program shall maintain or supervise the maintenance of records necessary for the proper and efficient operation of the program, including records regarding applications, determination of eligibility, the provision of services, and administrative cost; and statistical, fiscal and other records necessary for reporting and accountability required by the Secretary; and shall retain such records for such periods as are prescribed by the Secretary.

(b) The State agency shall make such reports in such form and containing such information, as the Secretary may from time to time require, and comply with such provisions as he finds necessary to assure the correctness and verification of such reports.

§ 228.18 Maintenance of effort.

Each State which participates in the program shall assure that the aggregate expenditures from appropriated funds from the State and political subdivisions for the provision of services during each services program year with respect to which payment is made under this Part is not less than the aggregate expenditures from such appropriated funds for the provision of those services during the fiscal year ending June 30, 1973, or the fiscal year ending June 30, 1974, with respect to which payment was made under the plan of the State approved under title I, VI, X, XIV, or XVI, or Part A of title IV, whichever is less, except that the requirements of this subsection shall not apply to any State for any services program year if the payment to the State under this Part, for each fiscal year any part of which is included in that services program year, with respect to expenditures, other than expenditures for personnel training or retraining directly related to the provision of services, equals the allotment of the State for that fiscal year under § 228.52 of this Part. Where such sum totals appropriated include privately donated funds that are identifiable and documented, such donated funds must be deducted in arriving at the aggregate expenditures from appropriated funds.

§ 228.19 Noncompliance.

(a) *Withholding of payment.* If the Secretary, after reasonable notice and opportunity for a hearing to the State, in accordance with 45 CFR 213, finds that the plan of the State no longer complies with any of the requirements of § 228.6 through § 228.15, that in the administration of the plan, there is a substantial failure to comply with any of those requirements, or that there is a substantial failure to comply with the requirements of §§ 228.17 or 228.18, he shall, except as provided in paragraph (b) of this section, notify the State that further payments will not be made to the State under this Part until he is satisfied that there will no longer be any such failure to comply.

(b) *Alternate three percent penalty.* The Secretary may suspend implementation of any termination of payments under paragraph (a) of this section and, alternatively, reduce the amount otherwise payable to the State under this Part for expenditures during that period by three percent for each requirement set forth in § 228.6 through § 228.18 with respect to which there was a finding of noncompliance.

Subpart C—Comprehensive Annual Services Program Plan

§ 228.20 General.

For purposes of § 228.50, the State's services planning must meet the requirements of this Subpart.

§ 228.21 Establishment of program year, effective dates.

(a) The State shall establish a service program year which comports with the fiscal year of either the Federal or State government.

(b) The initial program year shall begin October 1, 1975.

(1) States using the Federal fiscal year may have an initial program year of either 12 or 24 months.

(2) States using a State fiscal year which does not coincide with the Federal fiscal year may have an initial program year of less than 12 months ar more than 12 but less than 24 months.

§ 228.22 Services plan.

The State agency shall prepare a Comprehensive Annual Services Program Plan (services plan) prior to the beginning of each services program year. The services plan shall provide a comprehensive description for each item required in §§ 228.21 through 228.32. Where the State has no process for any item in §§ 228.29, 228.31 and 228.32, the services plan must so state. The services plan shall also describe the State agency's public review process as set forth in §§ 228.33, 228.34 and 228.35.

§ 228.23 Program goals and objectives.

(a) The services plan shall provide that services offered are directed at the goals of:

(1) Achieving or maintaining economic self-support to prevent, reduce, or eliminate dependency;

(2) Achieving or maintaining self-sufficiency, including reduction or prevention of dependency;

(3) Preventing or remedying neglect, abuse, or exploitation of children and adults unable to protect their own interests, or preserving, rehabilitating, or reuniting families;

(4) Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care; or

(5) Securing referral or admission for institutional care when other forms of care are not appropriate, or providing services to individuals in institutions.

(b) The objectives to be achieved under the program shall be directed to the goals in paragraph (a) of this section, and shall be stated in the services plan in measurable terms so that an assessment may be made of the extent to which they are achieved.

§ 228.24 Individuals to be served.

(a) The services plan shall:

(1) Specify which of the categories of individuals, in accordance with Subpart F, shall be provided services in the forthcoming program year and describe the income levels, if any, which the State has established;

(2) Identify categories of individuals described in paragraph (a)(1) of this section to whom a fee will be charged; and include the fee schedules; and

(3) Specify if the State plans to offer any service defined in § 228.64 or § 228.65.

§ 228.25 Availability of services by geographic area.

(a) For the purpose of delivering services described in the services plan, the State agency may divide the State into geographic areas. *Geographic area* means any identifiable area encompassed with the State so long as every political subdivision of the State, including Indian reservations, is a part of one or more such areas. The services plan shall describe the geographic areas.

(b) The services plan shall provide that services described in § 228.26(b) (1) and (2) will be available to eligible individuals in every geographic area.

(c) Notwithstanding the requirement under paragraph (b) of this section, the State may provide different services in different geographical areas, but within a geographic area eligible individuals must be offered the same services.

§ 228.26 Services.

(a) Each service offered under the services plan shall:

(1) Be described as a separately identifiable service. (For this purpose, clusters of services—e.g., child welfare services, protective services, services to the mentally retarded are not acceptable. If the State provides medical or remedial care or room or board as an integral but subordinate part of a service, as described in § 228.40 and § 228.41, the services plan shall identify and describe components of such subordinate parts in relation to the separately identifiable service.);

(2) Be described as to method of delivery—i.e., directly by the State agency, by a public or private provider under contract, or both;

(3) Be described in terms of its relationship to:

(i) One or more of the program goals in § 228.23; and

(ii) One or more of the objectives in § 228.23; and

(4) Be identified with respect to:

(i) Each of the categories of eligible individuals to whom the service is to be provided; and

(ii) Each of the geographic areas described in the services plan in which the service is to be offered to each category of individuals.

(b) The State agency shall include and identify in its services plan:

(1) At least three services for SSI recipients who need such services;

(2) At least one service directed at each of the goals described in § 228.23. A service may be directed at one or more goals.

Family planning services as described in § 228.55 to all AFDC recipients (including minors who can be considered sexually active) who request them should be provided in the services plan if the State has an AFDC program. Failure to provide these services will reduce the amount of FFP to the State for its AFDC program, in accordance with section 403(f) of the Act.

(c) The State agency may include in its services plan other services of its choice which are consistent with the program goals and objectives described in § 228.23, and with the limitations described in Subparts D and F.

§ 228.27 Estimations of individuals to be served and expenditures.

(a) The services plan shall provide:

(1) An estimate of the number of individuals by category to be offered each service in each geographic area;

(2) An estimate of the expenditures for each service to be provided, each of the categories of individuals to whom the service is to be provided, and each of the geographic areas in which each service is provided to each category;

(3) An estimated expenditure for all services for the forthcoming program year;

(4) A comparison between estimated aggregate non-Federal expenditures for the proposed program year and those of the preceding program year.

§ 228.28 Program resources.

These resources are the funds with which the State intends to finance its program in anticipation of FFP. The services plan shall itemize such funds and identify the sources.

§ 228.29 Program coordination and utilization.

(a) The services plan shall describe how the planning and the provision of services under the program will be coordinated with and utilize the following programs:

(1) Under the Social Security Act:

(i) title IV-A, AFDC;

(ii) title IV-B, Child Welfare Services;

(iii) title XVI, SSI; and

(iv) title XIX, Medical Assistance (Medicaid); and

(2) Related human service programs—e.g., for the aging, children, developmentally disabled; alcohol and drug abusers; programs in corrections, public education, vocational rehabilitation, housing, medical and public health, employment and manpower.

(b) The description shall include the steps taken to assure maximum feasible utilization of services under these programs to meet the needs of the low income population.

§ 228.30 Organizational structure.

The services plan shall describe the organizational structure of the State agency through which the program will be administered including where individuals may apply for services and have their eligibility determined, and how volunteers will be involved in the provision of services.

§ 228.31 Needs assessment.

(a) The services plan shall describe how the needs of all residents of, and all geographic areas in, the State were taken into account in developing the services plan. The description of the needs assessment process shall include at least the following:

(1) Data sources used (or to be used);

(2) Public and private organizations consulted (or to be consulted) for their assessment of needs; and

(3) The manner in which the results of the needs assessment were utilized in development of the services plan.

§ 228.32 Planning, evaluation and reporting.

(a) The services plan shall describe the planning, evaluation, and reporting activities for implementing the program, including all significant activities, together with their purpose, funding, and staff resources as follows:

(1) *Planning.* The description shall include at least:

(i) The relationship of planning to the State budget process and the legislative cycle;

(ii) Coordination with and input from other State, regional, or local planning organizations;

(iii) How the needs assessment described under § 228.31 was considered in the planning process;

(iv) How services resources in the State were inventoried, gaps identified, and plans made to fill the gaps; and

(v) Procedures used to establish priorities and set objectives for the program.

(2) *Evaluation.* The description shall include at least:

(i) Specific evaluations the State agency is conducting of its service program, or plans to conduct;

(ii) Identify the entities that conduct the evaluation;

(iii) Purpose and scope of each evaluation; and

(iv) Schedules for such evaluations and the procedure by which their results are disseminated.

(3) *Reporting.* Reporting activities described in the services plan are in addition to reports provided to the Social and Rehabilitation Service. The description shall address any formal reports to elected officials and the public, including schedules for such reports.

§ 228.33 Proposed services plan.

(a) At least 90 days before the beginning of the State's program year, the Governor or such other official as the laws of the State provide, shall approve publish and make generally available to the public the State's proposed services plan prepared by the State agency for the provision of services for the forthcoming program year. The primary purpose of this plan is to provide the citizenry of each State comprehensive and meaningful insight into each State's services plan so that they, as an informed citizenry can interact with the State decisionmaking process. In order to achieve this purpose, the State shall meet the following requirements.

(b) A news release shall be issued by the approving official on the proposed services plan prior to its publication as

V 40 172
APR 14 75

described in paragraph (c) of this section.

(c) A description of the proposed services plan shall be published as a display advertisement in the newspaper of widest circulation (and in foreign language newspapers, as appropriate) in each geographic area described in the proposed services plan for three consecutive days in daily newspapers; in three consecutive editions if published other than daily. Publication of the proposed services plan shall begin at least 90 days prior to the beginning of the program year. The published description shall contain as a minimum:

(1) A brief description of the State's services program;

(2) Categories of individuals to whom services will be offered and eligibility criteria;

(3) The amount of Federal allotment, and estimated Federal, State and local funds to be utilized for the program for the forthcoming program year;

(4) The period for public comment;

(5) The method and location where the public may comment on the proposed services plan and how a detailed summary may be obtained without charge, upon request;

(6) A toll-free telephone number where the public may request a copy of the detailed summary;

(7) Addresses of local public offices where the detailed summary is available and where copies of the complete proposed services plan are available for public review, and for purchase at a reasonable cost.

(d) The detailed summary of the proposed services plan shall be distributed to the public without charge, upon request, including at least the information required under each item under § 228.23 through § 228.28, and a summary of information required under § 228.29 through § 228.32.

(e) A copy of the complete proposed services plan shall be made available to the public for inspection or for purchase at a reasonable cost at local public offices and shall be retained there throughout the program year.

(f) Written comments shall be accepted from the public for a period of at least 45 days from the initial date of publication at the State agency and/or through scheduled public hearings at which a record of the proceedings is kept and which is available for review.

(g) Comments on the proposed services plan shall be retained for a period of at least three years for inspection by the public and Federal officials.

(h) The proposed services plan shall be transmitted to the Social and Rehabilitation Service for review for acceptability with respect to FFP under this Part.

§ 228.34 Final services plan.

(a) At least 45 days following publication of the proposed services plan and prior to the start of the program year, the Governor or such other official as the laws of the State provide, shall approve and publish a final services plan prepared by the State agency. In so doing, the State shall meet the following requirements.

(b) A news release shall be issued by the approving official on the final services plan prior to its publication.

(c) A description of the final services plan shall be published as a display advertisement in at least one edition of the newspaper of widest circulation (and in foreign language newspapers, as appropriate) in each geographic area described in the services plan, prior to the beginning of the State's program year. The display advertisement shall include:

(1) The information described in paragraph (c) (1), (2), and (3) of § 228.33;

(2) An explanation of differences between the proposed and final services plan, and the reasons therefor;

(3) A toll-free telephone number where the public may obtain information on the plan and where to apply for services, or the address of the local public offices where application for services will be accepted; and

(4) Address of local public offices where the final services plan and the public comments are available for public review and where copies of the final plan are available for purchase at a reasonable charge.

(d) A copy of the final services plan shall be retained in local public offices throughout the program year for review. The final services plan must include an explanation of differences between the proposed and final services plan and the reasons therefor, including a summary of the public comments.

(e) The final services plan shall be transmitted to the Social and Rehabilitation Service at time of its publication, for review for acceptability with respect to FFP under this Part. A certification shall be submitted with the plan which contains a minimum:

(1) Dates of publication of the proposed services plan, names of newspapers and geographic areas in the services plan covered by them, and a copy of one of the ads;

(2) Description of the manner in which the proposed services plan was made available to the public, including locations and dates of hearings, if any; and

(3) Date of publication of the final services plan, names of newspapers and geographic areas in the services plan covered by them, and a copy of one of the ads.

§ 228.35 Amendments to final services plan.

Any amendment to the final services plan shall be prepared by the State agency and approved, published, and made generally available to the public by the Governor or such other official as the laws of the State provide in a manner similar to the process described in §§ 228.33 and 228.34 except that the public comment period for the proposed amendment shall be for at least 30 days following the date of initial publication.

Subpart D—Limitations—Services

§ 228.39 General.

The services provided to eligible individuals pursuant to the State's services plan shall meet the requirements set forth in the following sections of this Subpart.

§ 228.40 Medical and remedial care.

(a) FFP is available for medical or remedial care, other than family planning services, only when it is an integral but subordinate part of a service described in the services plan.

(b) Medical or remedial care is an integral but subordinate part of a service only when:

(1) The particular service cannot be provided effectively without the essential medical or remedial care component;

(2) Recipients of the service usually receive the medical or remedial care components;

(3) The medical or remedial care does not exceed 25 percent of the total amount for which reimbursement is made for providing the service of which it is a part;

(4) The medical or remedial care is not available to the individual under the State's approved title XIX plan and neither the individual nor the provider is eligible to receive payment under title XVIII; and

(5) The medical or remedial care is explicitly included in the definition of the service which is a part of the services plan.

§ 228.41 Room or board.

(a) FFP is available for room or board, except for emergency shelter under § 228.46, under a services plan only when provided to an individual who is receiving a service of which room or board is an integral but subordinate part and only for a period of six consecutive months.

(b) Room or board is an integral but subordinate part of a service only when:

(1) It is essential to the effective provision of a particular service;

(2) Recipients of the particular service usually receive room or board;

(3) Room (shelter only) or board (food, food preparation and serving only) does not exceed 20 percent of the total amount for which reimbursement is made for providing the service of which it is a part, or where room and board are both included, cost does not exceed 30 percent of the total amount; and

(4) The services plan explicitly identifies room or board in the definition of the service of which it is a part.

(c) Room or board under this Part may not be provided in foster family homes or foster care institutions except for emergency shelter under § 228.46.

§ 228.42 Child care standards.

(a) FFP is available for child care services provided under a services plan only where the following standards are met:

(1) *In-home care.* (i) When homemaker service is utilized for this purpose, it meets standards established by the State which are reasonably in accord with recommended standards of national standard setting organizations concerned with this type of home care for children.

(ii) When other caretakers are utilized for this purpose, such care meets standards established by the State which, as a minimum, cover the caretaker's age, health, capacity and available time to properly care for children; minimum and maximum hours to be allowed per 24 hour day for such care; maximum number of children that may be cared for the home at any one time; and proper feeding and health care of the children.

(2) *Out-of-home care.* (i) Facilities used to provide day care outside a child's own home are licensed by the State or approved as meeting the standards for such licensing.

(ii) Such facilities and care meet the 1968 Federal Interagency Day Care Requirements, except that:

(A) Subdivision III of such requirements with respect to educational services is recommended but not required.

(B) Required staffing standards for children under age 3 in day care centers and group day care homes are: 1 adult for each child under 6 weeks of age; 1 adult to 3 children, ages 6 weeks to 18 months; and 1 adult to 4 children, ages 18 months through 36 months.

(C) A family day care home serving children from infancy to age 6 may care for no more than two children under age 3 (infancy through 36 months), and no more than five children under age 14, including the family day care mother's own children.

(D) Required staffing standards for school age children in day care centers are: 1 adult to 15 children, ages 6–10; and 1 adult to 20 children, ages 10–14.

(b) The requirements in paragraph (a) (2) (ii) of this section are in lieu of otherwise applicable requirements under section 522(d) of the Economic Opportunity Act of 1964 with respect to child day care services under title XX.

§ 228.43 Educational services.

FFP is not available for any educational service made available through any State or local educational agency to residents of the State without cost and without regard to their income. To the extent a fee is imposed on any resident, FFP is available only for such fee.

§ 228.44 Services to individuals living in hospitals, skilled nursing facilities, intermediate care facilities (including any such hospitals or facilities for mental diseases or for the mentally retarded), or prisons.

(a) FFP is available for services to individuals living in hospitals, skilled nursing facilities, intermediate care facilities (including any such hospitals or facilities for mental diseases or for the mentally retarded), or prisons only under the following conditions:

(1) The services provided are separately identifiable in the services plan (generalized description such as "services to nursing home patients" or "services to increase socialization skills" are unacceptable under this provision).

(2) Such services are provided by other than the facility in which the individual is living. This requirement is not met if the services are provided by:

(i) Staff or contractors who are under the professional direction or direct supervision of the facility; the facility exercises control of the employment, tenure or compensation of such staff or contractors or makes assignments or alters the service regimen provided by them; or

(ii) Staff of like facilities under reciprocal arrangement.

(3) Such services are also provided to individuals who:

(i) Are not living in a hospital, skilled nursing facility, intermediate care facility (including any such hospitals or facilities for mentally retarded), or prison; and

(ii) Are residents of any part of a geographic area that is within the catchment area of such facility.

(4) Such services do not include:

(i) Inherent responsibilities of a facility such as food, clothing, shelter, general supervision and care; or

(ii) Activities that are intrinsic to the purpose of such facility, such as training in self care in a facility for the mentally retarded.

(5) For purposes of this Part, "prison" means any State or local correctional institution or facility for the confinement of individuals charged with or convicted of criminal offenses, except that no community based residential service facility, including half-way houses, irrespective of auspices or the status of individuals who live in it is included in the definition.

§ 228.45 Services provided by foster family homes or foster care institutions.

(a) *Definitions:*

(1) *Basic foster care* includes parenting responsibilities in the case of children, or benign oversight responsibilities in the case of adults.

(2) *Foster family home* is a home licensed or approved by appropriate State or local authority.

(3) *Foster care institution* is a facility which is licensed or approved by the State for providing basic foster care for children or adults.

(b) *Special services provided by foster family home.* FFP is available for services provided by a foster family home to an individual living in that home, only upon documentation, by an appropriately qualified independent professional person who is other than the placement worker or the immediate supervisor of such worker, that:

(1) The individual requires an identified special service because of a health (physical or mental) condition, an emotional or behavioral problem;

(2) The caregivers are capable by virtue of training of providing the needed service; and

(3) The service is in addition to basic foster care.

(c) *Services provided by foster care institution.* A foster care institution may, under a purchase of service contract in accordance with Subpart G, provide, in addition to basic foster care, any service contained in the State's services plan.

§ 228.46 Emergency shelter.

(a) FFP is available for emergency shelter as a part of a protective service to any child, including runaways, only under the following conditions:

(1) The child is in clear and present danger of abuse, neglect or exploitation;

(2) The need for emergency shelter is documented by personnel authorized by State law to place children, and such documentation is included in the individual client record; and

(3) Emergency shelter is provided for not in excess of 30 days in any 12 month period, which may be consecutive or may accumulate over more than one stay.

§ 228.47 Cash payments for a service.

(a) FFP is available for a service provided by making cash available to reimburse an individual only upon presentation of receipts for a service that:

(1) Is specifically identified in the services plan;

(2) Is approved by the agency prior to purchase; and

(3) Is secured by the individual within an authorized period at an authorized cost.

Subpart E—Limitations—Financial

§ 228.50 Services and individuals covered in the services plan.

(a) FFP is available with respect to any expenditures for the provision of any service for any individual only when:

(1) The State's services plan meets the requirements of Subpart C, and

(2) The final services plan in effect when the service is provided to the individual includes the provision of that service to a category of individuals which includes that individual.

§ 228.51 Matching rates.

(a) *Seventy-five percent FFP.* FFP is available at the 75 percent rate for service costs and for personnel training and retraining directly related to the provision of services under the services plan.

(b) *Ninety percent FFP.* Notwithstanding paragraph (a) of this section, FFP is available at the 90 percent rate for family planning services provided under the services plan.

§ 228.52 Allotments to States.

(a) The amount of Federal funds payable to the 50 States and the District of Columbia under this Part for any fiscal year with respect to expenditures for services under the services plan (other than expenditures for personnel training or retraining directly related to the provision of services) may not exceed the allotment set forth in this section.

(b) Allotments for fiscal year beginning July 1, 1975. The allotment of each State for the fiscal year beginning July 1,

V 40 172 APR 14 75 XUM

1975, shall be the allotment of the State for that fiscal year as determined under section 1130 of the Act. In determining, for the purposes of that limitation, the total amount of the payments made to any State with respect to expenditures during that fiscal year, there shall be included the amount of any payments made to the State that are chargeable against the allotment of the State for the fiscal year beginning July 1, 1975, under section 1130.

(c) Allotments for fiscal years beginning after June 30, 1976. (1) The allotment of each State for each fiscal year beginning after June 30, 1976, shall be an amount which bears the same ratio to $2,500 million as the population of such State bears to the population of all the States.

(2) The allotment for each State will be promulgated for each fiscal year by the Secretary prior to the first day of the third month of the preceding fiscal year, on the basis of the population of each State and of all the States as determined on the basis of the most recent satisfactory data available from the Department of Commerce.

(d) Certification of allotment need. (1) Each fiscal year, each State shall certify to the Secretary whether the amount of its allotment is greater than the amount needed by the State for such fiscal year and, if so, the amount by which the amount of such allotment is greater than such need.

(2) If any State certifies, in accordance with subparagraph (1), that the amount of its allotment for any fiscal year is in excess of its need for such year, the amount of the limitation of such State for such year shall be adjusted downward by the amount of such excess.

(3) Of the amounts made available pursuant to subparagraph (2), the Secretary shall allot to the jurisdiction of Puerto Rico $15,000,000, to the jurisdiction of Guam $500,000, and to the jurisdiction of the Virgin Islands $500,000, which shall be available to each such jurisdiction in addition to amounts available under Section 1108 of the Act for the purpose of matching the expenditures of such jurisdictions for services prsuant to sections 3(a) (4) and (5), 403(a)(3), 1003(a) (3) and (4), 1403(a) (3) and (4), and 1603(a) (4) and (5) of the Act, except that if the amounts made available pursuant to subparagraph (2) are less than $16,000,000, such amounts as are available shall be allotted to each of the three jurisdictions in proportion to their respective populations.

(e) For purposes of this section, expenditures for services are ordinarily considered to be incurred on the date on which the cash transactions occur or the date to which allocated in accordance with 45 CFR Part 74 and cost allocation procedures in accordance with 45 CFR 205.150. In the case of local administration, the date of expenditures by the local agency governs. In the case of purchase of services from another public agency, the date of expenditure by such other public agency governs. Different rules may be applied with respect to a State, either generally or for particular classes of expenditures, only upon justification by the State to the Administrator and approval by him. In reviewing State requests for approval, the Administrator will consider generally applicable State law, consistency of State practice, particularly in relation to periods prior to July 1, 1975, and other factors relevant to the purposes of this section.

§ 228.53 Public sources of State's share.

(a) *Funds available for matching.* Public funds, other than those derived from private resources, used by the State or local agency for its services programs may be considered as the State's share in claiming FFP only where such funds are:

(1) Appropriated directly to the State or local agency; or

(2) Funds of another public agency which are:

(i) Transferred to the State or local agency and are under its administrative control; or

(ii) Certified by the contributing public agency as representing expenditures for services eligible for FFP under this Part.

(b) *Funds not available for matching.* Notwithstanding paragraph (a) of this section, public funds used by the State or local agency for its services programs may not be used as the State's share in claiming FFP where such funds are:

(1) Federal funds not authorized by Federal law to be used to match other Federal funds; or

(2) Used to match other Federal funds.

This paragraph does not preclude FFP for expenditures for the cost of an otherwise federally subsidized service where the cost covers only the contribution made to obtain the Federal subsidy, but only if the Federal subsidy is provided on a diminishing basis over a fixed period and the project level is maintained.

§ 228.54 Private sources of State's share.

(a) *Funds available for matching.* Funds donated from private sources for services may be considered as State funds in claiming FFP only where such funds are:

(1) Transferred to the State or local agency and under its administrative control;

(2) Donated to the State, without restrictions as to use, other than restrictions as to the services with respect to which the funds are to be used imposed by a donor who is not a sponsor or operator of a program to provide those services, or the geographic area in which the services with respect to which the contribution is used are to be provided; and

(3) Not used to purchase services from the donor unless the donor is a nonprofit organization and it is an independent decision of the State agency to purchase services from the donor.

§ 228.55 Family planning services.

(a) For purposes of this Part, family planning services means counseling, educational and medical services (including diagnosis, treatment, drugs, supplies, devices and related counseling furnished, prescribed by, or under the supervision of a physician) to enable individuals of childbearing age (including minors) to limit voluntarily their family size or to space their children.

(b) Where a State authorizes sterilization as a family planning service, it must comply with the provisions of 45 CFR 205.35.

§ 228.56 Fifty Percent Rule.

(a) FFP is available with respect to expenditures for services under this Part only to the extent that one half of the total amount of Federal funds paid under title XX to any State for any fiscal year does not exceed the amount of the aggregate State and Federal expenditures made in behalf of individuals:

(1) Who are receiving aid under the plan of the State approved under part A of title IV or who are eligible to receive such aid; or

(2) Whose needs are taken into account in determining the needs of an individual who is receiving aid under the plan of the State approved under part A of title IV, or who are eligible to have their needs taken into account in determining the needs of an individual who is receiving or is eligible to receive such aid; or

(3) With respect to whom supplementary security income benefits under title XVI or State supplementary payments, are being paid, or who are eligible to have such benefits or payments paid with respect to them; or

(4) Whose income and resources are taken into account in determining the amount of supplemental security income benefits or State supplementary payments; being paid with respect to an individual, or whose income and resources would be taken into account in determining the amount of such benefits or payments to be paid with respect to an individual who is eligible to have such benefits or payments paid with respect to him, or

(5) Who are eligible for medical assistance under the plan of the State approved under title XIX.

(b) In accounting for information and referral services (§ 228.64) and protective services costs (§ 228.65) to meet the requirements of paragraph (a) of this section, States must adhere to the cost allocation requirements of 45 CFR 205.150.

(c) A determination of "who is eligible to receive" aid under title IV–A or benefit or State supplemental payment under title XVI of the Act must be based on a State procedure for gathering sufficient information to permit a reasonable person to make a judgment that the circumstances (social, economic and physical) of such an individual approximate the conditions that could qualify him for such benefits.

Subpart F—Limitations—Individuals Served, Eligibility and Fees

§ 228.60 Persons eligible.

FFP is available only for services to individuals who are determined to be eligible under the following provisions of this section and § 228.61.

(a) *Income maintenance status.* The following individuals are eligible on the basis of income maintenance status:

(1) Recipients of AFDC; and

(2) Those persons whose needs were taken into account in determining the needs of AFDC recipients; and

(3) Recipients of SSI benefits or State supplementary payments.

(b) *Income status.* Individuals other than those described in paragraph (a) of this section, are eligible if the family's monthly gross income is less than 115 percent (or, at State option, a lower percentage) of the median income of a family of four in the State adjusted for size of family, subject to the limitations set forth in § 228.62.

(c) *Median income.* (1) On or before December 1 of each year, beginning with calendar year 1975, the Secretary will promulgate the median income for a family of four to be used by the States for the purpose of establishing income levels for determining eligibility and establishing fee schedules under the services plan in the following fiscal year. (For purposes of the first program year, the Secretary will promulgate the median income on or before June 1, 1975.)

(2) A State may establish an income level:

(i) At a lower level than 115 percent of the median income;

(ii) At different levels for specific services under the services plan; or

(iii) At different levels for different categories of individuals.

(3) A State shall not establish an income level which is in excess of 115 percent of the median income.

(4) All median income figures used for eligibility and the imposition of fees in accordance with this paragraph shall be adjusted by family size according to the following percentages of the State median income for a family of four:

(i) One person—36 percent.

(ii) Two person family—60 percent.

(iii) Three person family—82 percent.

(iv) Four person family—100 percent.

(v) Five person family—116 percent.

(vi) Six person family—131 percent.

(vii) For each additional family member above six persons, add 1 percentage point to the percentage for a family of six.

(d) *Services without regard to eligibility.* Notwithstanding paragraphs (a) and (b) of this section, information or referral services under § 228.64 or services directed at the goal of preventing or remedying neglect, abuse, or exploitation of children or adults under § 228.65 may, if provided under the services plan, be provided to all individuals who need them.

(e) *Responsibility of State agency.* FFP is available only for services provided to individuals who are eligible when the service is delivered. The State agency shall be responsible for the continued eligibility of individuals to whom services are provided for which FFP is claimed.

§ 228.61 Determination of eligibility.

(a) *What constitutes a determination.* A determination of eligibility means a decision, reflected in the individual client record, as defined in § 228.63, based on sufficient information obtained from or on behalf of an individual which would lead a reasonable person to conclude that the criteria set forth in § 228.60 have been met.

(b) *The determination process.* No determination shall be made solely on the basis of the applicant's declaration as to income maintenance status or current family monthly gross income. Applications for services based on income maintenance status shall be supported by documentation or ascertained from the appropriate source of the income maintenance benefit or payment. Applications based on income status shall be supported by documentation of current family monthly gross income based on the items used by the Census Bureau in defining median income. (See § 228.1) Whether the determination of eligibility is made by the State or the provider, the State shall establish procedures to verify the determinations. An adequate sampling procedure may be used.

(c) *When determination shall be made.* Determination of eligibility shall be made prior to delivery of services except in emergency situations. In an emergency situation, documented in the individual client record, eligibility shall be established within five (5) working days of the commencement of services.

(d) *Who makes the determination.* Determinations of eligibility may be made by the State agency, or pursuant to written contract in accordance with Subpart G, by providers. Where the State retains the function of determining eligibility it may request a provider to obtain and transmit to the agency the necessary data upon which to make the determination.

§ 228.62 Fees for services.

(a) *Mandatory fees.* FFP is available for a service provided to an individual whose eligibility is based on income status if his family's monthly gross income is between 80 percent of the median income of a family of four in the State or the median income of a family of four in all States, whichever is less, and 115 percent of the median income of a family of four in the State, adjusted as to family size, only if a fee or other charge, based on a fee schedule in accordance with paragraph (c) of this section, is imposed.

(b) *Discretionary fees.* A State may impose a fee or other charge for any service to any individual who is eligible for services based on income maintenance status or is eligible based on income status and whose family's monthly gross income is less than 80 percent of the median income of a family of four in the State, adjusted for family size, or the median income for a family of four in all States, adjusted for family size, whichever is less, but only if the fee or other charge is based on a fee schedule in accordance with paragraph (c) of this section.

(c) *Criteria for fee schedules.* Any fee schedule:

(1) May not impose a fee designed to discourage utilization of needed services;

(2) May be different for different services;

(3) Shall provide that fees shall be positively related to the individual's ability to pay the fee;

(4) Shall not allow a fee which exceeds the cost of the service;

(5) Shall include methods for the collection of any fee or other charge imposed and evidence of a reasonable effort to collect such fee; and, if a fee or other charge for any service for any individual eligible on income maintenance status is imposed, it shall be the same as the fee imposed on an individual whose eligibility is based on income and whose family has the same monthly gross income.

§ 228.63 Individual client record.

FFP is available for a service provided to an individual only if the State agency maintains for that individual an individual client record which contains identifying information about the client, the basis for determining eligibility for the service, the goal to which the service is directed, and other documentation as required by this Part.

§ 228.64 Information and referral services.

For purposes of this Part, *information and referral services* means information about services provided under title XX and related service programs, brief assessment (but not diagnosis and evaluation) to facilitate appropriate referral, and referral to and follow-up with those community resources which provide or make available such services, when provided by an agency that has information and referral as a specific recognized function and that has a staff with identifiable tasks relating to information and referral.

§ 228.65 Services directed at the goal of preventing or remedying neglect, abuse, or exploitation of children or adults unable to protect their own interests.

(a) For purposes of this Part, *services directed at the goal of preventing or remedying neglect, abuse or exploitation of children and adults unable to protect their own interests* means:

(1) With respect to children, only the following services and only when provided with respect to an individual under the age of 18 harmed or threatened with harm by a person responsible for the individual's health or welfare, through non-accidental physical or mental injury, sexual abuse (as defined by State law); or negligent treatment or maltreatment, including the failure to provide adequate food, clothing, or shelter:

V 40-72
APR 14 75

(i) Identification and diagnosis;
(ii) Receipt of reports and investigation thereof;
(iii) Determination that the individual is vulnerable or at risk of neglect, abuse, or exploitation;
(iv) Counseling and therapy, and training courses for parents of the individual;
(v) Emergency shelter under § 228.46;
(vi) Legal representation of the individual;
(vii) Arranging for the provision of services; and
(2) With respect to adults unable to protect their own interests, only the following services and only when provided with respect to individuals 18 years of age or older unable to protect their own interests, harmed or threatened with harm through action or inaction by another individual or through their own actions due to ignorance, incompetence or poor health; resulting in physical or mental injury, neglect or maltreatment, failure to receive adequate food, shelter, or clothing, deprivation of entitlements due them, or dimunition of their resources:
(i) Identifying such adults who need assistance or who have no one willing and able to assist them responsibly;
(ii) Providing prompt response and investigation upon request of adults at risk or other persons acting on their behalf;
(iii) Diagnosing the individual's situation and service needs;
(iv) Providing counseling to such adults, their families, other responsible persons or to surrogates such as representatives payees, on handling the affairs of such adults;
(v) Arranging for appropriate alternate living arrangements in the community or in an institution;
(vi) Assisting in the location of medical care, legal services, and other resources in the community;
(vii) Arranging for guardianship, commitment, or other protective placement as needed; and
(viii) Providing advocacy, including legal services, to assure receipt of rights and entitlements due to adults at risk.

Subpart G—Purchase of Service

§ 228.70 Written contract.

(a) FFP is available when services are purchased by the State agency from an agency or organization other then the State agency only when the State agency negotiates a written contract in accordance with requirements under this Part and 45 CFR Part 74 with the agency or organization from which services are purchased. The contract shall:
(1) Include all terms of the contract in one instrument, be dated, and be executed by authorized representatives of all parties to the contract prior to the date of implementation;
(2) Have a definite effective and termination date;
(3) Contain a detailed description of the services to be provided and of the methods to be used by the provider in carrying out its obligations under the contract;
(4) If eligibility determinations are to be made by the provider, contain criteria in accordance with Subpart F which shall be used by the provider for such determinations;
(5) Provide for a stated number of units of service at a specific dollar rate, or for a specific dollar amount, or for costs to be determined in accordance with acceptable cost allocation methods;
(6) Specify the method and source of payment to the provider;
(7) Include a statement that the provider meets State or Federal standards as specified in this Part;
(8) Specify the locations of facilities to be used in providing services;
(9) Provide for informing individuals of the right to fair hearing in accordance with § 228.14 where the provider determines eligibility;
(10) Provide that the provider will comply with the requirements of the Civil Rights Act of 1964, Executive Order 11246, and for safeguarding information in accordance with § 228.10;
(11) Provide that all subcontracts shall be subject to the requirements of this Part; and that the provider is responsible for the performance of any subprovider;
(12) Specify requirements for fiscal and program responsibility, billing, records, controls, reports, and monitoring procedures; and
(13) Provide for access to financial and other records pertaining to the program by State and Federal officials.
(b) The provisions to this section do not apply to services provided to service recipients who are reimbursed by the State agency pursuant to § 228.47.

§ 228.71 Rates of payment.

FFP is available for expenditures for services provided under purchase of service contracts only where the rates of payment for services do not exceed the amounts reasonable and necessary to assure the quality of service, and where services are purchased from other public agencies, are in accord with costs reasonably assignable to such services, and records are available which describe and support the rates of payment and the methods used to establish and maintain such rates.

Subpart H—Training and Retraining

§ 228.80 General.

FFP is available only in accordance with the requirements of this Subpart for personnel training (including retraining) directly related to the provision of services under the program, including both short and long-term training at educational institutions through grants to such institutions or by direct financial assistance to students enrolled in such institutions. Funds for such training are outside the State's allotment for services and are available at the 75% rate.

§ 228.81 Who may be trained.

FFP is available for training only the following individuals:
(a) Persons employed by the State agency, who are:
(1) Agency personnel employed in all classes of positions which directly relate to operation of and provision of services under the program;
(2) Volunteers attached to the State agency and supervised by it in relation to their performing duties directly related to the program;
(b) Service delivery personnel of providers when there is a purchase of service contract in accordance with Subpart G in effect, only if such training is directly related to and benefits the provision of services during the contract period;
(c) Individuals, other than those described under paragraph (b) of this section, who provide services to service recipients who are reimbursed by the State agency pursuant to § 228.47, but only if the training is directly related to such services.

§ 228.82 Grants to educational institutions.

(a) Notwithstanding § 228.81, FFP is available for grants to educational institutions but only if such grants are for periods of not more than 3 years, and only if:
(1) Such grants are made for the purpose of developing, expanding, or improving training for agency employees (or providers), but participation in such programs need not be limited to such employees;
(2) They are available only to graduate and undergraduate educational institutions and programs that are accredited by an appropriate accrediting body; and
(3) The State agency has written policies establishing conditions and procedures for such grants.

§ 228.83 Financial assistance to students.

FFP is available for expenditures for payments for training to students employed by the State agency or by a provider only in accordance with § 228.81 and only if there is a commitment by the student to continue to work in the agency or the provider for a period of time equal to the period for which financial assistance is granted.

§ 228.84 Activities and costs matchable as training expenditures.

Such costs, include, but are not limited to:
(a) Salaries (including fringe benefits), travel, costs of education (including tuition, books and supplies) of State agency employees who are in attendance full-time at training programs for eight consecutive work weeks or longer, and where such employees are not engaged in service delivery except as students in field placement; and, with the exception of salaries, the same costs for provider employees in training;
(b) Payment of travel, per diem and educational expenses of employees while they are attending training programs for less than eight consecutive work weeks;
(c) Payment of educational expenses (tuition, books, supplies) for employees on part-time educational leave (part of the working week, evenings, mornings);

(d) Payment of salaries for State agency training personnel, including clerical and other staff, travel, per diem, rent, postage, equipment, teaching materials (including purchase of developing teaching materials), and teaching aides. (Costs for training personnel spending less than full time on title XX training must be allocated.);
(e) Payments to experts to develop or conduct special programs, including costs of salaries (and fringe benefits), travel and per diem;
(f) Costs of rental of space attributable to training activities as defined in this Part; and
(g) Grants to educational institutions as defined in § 228.82 for classroom instruction and related field instruction, including salaries and fringe benefits, clerical assistance, necessary travel, and teaching materials and equipment, such as books and audiovisual aids.

§ 228.85 Activities and costs not matchable as training expenditures.

FFP is not available for the following as training expenditures:
(a) Salaries of newly-employed workers in the State agency or a provider agency while they are in orientation;
(b) Salaries of State agency employees who attend training programs less than full-time for a period of less than eight consecutive work weeks;
(c) Salaries of supervisors (day-to-day supervision of staff is not a training activity);
(d) Attendance at meetings or conferences of professional organizations;
(e) Summer training for students who are not employed in the State agency; and
(f) Sabbatical leave for long-term employees for the State agency.

Subpart I—General Administrative Provisions

§ 228.90 Expenditures for which Federal financial participation is available.

(a) Federal financial participation is available only for expenditures which are identified and allocated in accordance with 45 CFR Part 74 and a cost allocation plan in accordance with 45 CFR 205.150.
(b) Under this Part, expenditures for the following are considered appropriate for the effective and efficient administration of the program:
(1) Salary, fringe benefits and travel costs of staff engaged in carrying out service work or service related work;
(2) Costs of related expenses, such as equipment, furniture, supplies, communications, and office space;
(3) Costs of State advisory committees on services, including expenses of members in attending meetings, supportive staff, and other technical assistance;
(4) Costs of agency staff attendance at meetings pertinent to the development or implementation of Federal and State service policies and programs;
(5) Cost to the agency for the use of volunteers in the program;
(6) Costs of operation of agency facilities used solely for the provision of services, except that appropriate distribution of costs is necessary when other agencies also use such facilities in carrying out their functions;
(7) Costs of administrative support activities furnished by other public agencies or other units within the single State agency which are properly cost allocated;
(8) Costs of technical assistance, data collection, surveys and studies performed by other public agencies, private organizations or individuals to assist the agency in developing, planning, monitoring, and evaluating the services program; and
(9) Costs of public liability and other insurance protection.

§ 228.91 Expenditures for which Federal financial participation is not available.

(a) Federal financial participation is not available under this Part in expenditures for:
(1) Carrying out any maintenance assistance payments functions or any other functions or activities which are not related to services under this Part;
(2) The purchase, construction, or major modification of any land, building or other facility, or fixed equipment;
(3) Housing and relocation costs, including construction, renovation or repair or winterization, moving of families or individuals, rent, deposits, and home purchase;
(4) Goods or services provided in-kind by a private organization.

ENVIRONMENTAL PROTECTION AGENCY

Preparation of Environmental Impact Statements

■

Final Regulations

V 40-72 APR 14 75 XUM

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

[FRL 327-5]

PART 6—PREPARATION OF ENVIRONMENTAL IMPACT STATEMENTS

Final Regulation

The National Environmental Policy Act of 1969 (NEPA), implemented by Executive Order 11514 of March 5, 1970, and the Council on Environmental Quality's (CEQ's) Guidelines of August 1, 1973, requires that all agencies of the Federal Government prepare detailed environmental impact statements on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment. NEPA requires that agencies include in their decision-making process an appropriate and careful consideration of all environmental aspects of proposed actions, an explanation of potential environmental effects of proposed actions and their alternatives for public understanding, a discussion of ways to avoid or minimize adverse effects of proposed actions and a discussion of how to restore or enhance environmental quality as much as possible.

On January 17, 1973, the Environmental Protection Agency (EPA) published a new Part 6 in interim form in the FEDERAL REGISTER (38 FR 1696), establishing EPA policy and procedures for the identification and analysis of environmental impacts and the preparation of environmental impact statements (EIS's) when significant impacts on the environment are anticipated.

On July 17, 1974, EPA published a notice of proposed rulemaking the FEDERAL REGISTER (39 FR 26254). The rulemaking provided detailed procedures for applying NEPA to EPA's nonregulatory programs only. A separate notice of administrative procedure published in the October 21, 1974, FEDERAL REGISTER (39 FR 37419) gave EPA's procedures for voluntarily preparing EIS's on certain regulatory activities. EIS procedures for another regulatory activity, issuing National Pollutant Discharge Elimination System (NPDES) discharge permits to new sources, will appear in 40 CFR 6. Associated amendments to the NPDES operating regulations, covering permits to new sources, will appear in 40 CFR 125.

The proposed regulation on the preparation of EIS's for nonregulatory programs was published for public review and comment. EPA received comments on this proposed regulation from environmental groups; Federal, State and local governmental agencies; industry; and private individuals. As a result of the comments received, the following changes have been made:

(1) Coastal zones, wild and scenic rivers, prime agricultural land and wildlife habitat were included in the criteria to be considered during the environmental review.

The Coastal Zone Management Act and the Wild and Scenic Rivers Act are intended to protect these environmentally sensitive areas; therefore, EPA should consider the effects of its projects on these areas. Protection of prime agricultural lands and wildlife habitat has become an important concern as a result of the need to further increase food production from domestic sources as well as commercial harvesting of fish and other wildlife resources and from the continuing need to preserve the diversity of natural resources for future generations.

(2) Consideration of the use of floodplains as required by Executive Order 11296 was added to the environmental review process.

Executive Order 11296 requires agencies to consider project alternatives which will preclude the uneconomic, hazardous or unnecessary use of floodplains to minimize the exposure of facilities to potential flood damage, lessen the need for future Federal expenditures for flood protection and flood disaster relief and preserve the unique and significant public value of the floodplain as an environmental resource.

(3) Statutory definitions of coastal zones and wild and scenic rivers were added to § 6.214(b).

These statutes define sensitive areas and require states to designate areas which must be protected.

(4) The review and comment period for negative declarations was extended from 15 days to 15 working days.

Requests for negative declarations and comments on negative declarations are not acted on during weekends and on holidays. In addition, mail requests often take two or three days to reach the appropriate office and several more days for action and delivery of response. Therefore, the new time frame for review and response to a negative declaration is more realistic without adding too much delay to a project.

(5) Requirements for more data in the negative declaration to clarify the proposed action were added in § 6.212(b).

Requiring a summary of the impacts of a project and other data to support the negative declaration in this document improves its usefulness as a tool to review the decision not to prepare a full EIS on a project.

(6) The definitions of primary and secondary impacts in § 6.304 were clarified.

The definitions were made more specific, especially in the issue areas of induced growth and growth rates, to reduce subjectivity in deciding whether an impact is primary or secondary.

(7) Procedures for EPA public hearings in Subpart D were clarified.

Language was added to this subpart to distinguish EPA public hearings from applicant hearings required by statute or regulation, such as the facilities plan hearings.

(8) The discussion of retroactive application (§ 6.504) was clarified and abbreviated.

The new language retains flexibility in decision making for the Regional Administrator while eliminating the ambiguity of the langauge in the interim regulation.

(9) The criteria for writing an EIS if wetlands may be affected were modified in § 6.510(b).

The new language still requires an EIS on a project which will be located on wetlands but limits the requirements for an EIS on secondary wetland effects to those which are significant and adverse.

(10) A more detailed explanation of the data required in environmental assessments (§ 6.512) was added.

Requiring more specific data in several areas, including energy production and consumption as well as land use trends and population projections, from the applicant will provide a more complete data base for the environmental review. Documentation of the applicant's data will allow EPA to evaluate the validity of this data.

(11) Subpart F, Guidelines for Compliance with NEPA in Research and Development Programs and Activities, was revised.

ORD simplified this subpart by removing the internal procedures and assignments of responsibility for circulation in internal memoranda. Only the general application of this regulation to ORD programs was retained.

(12) The discussions of responsibilities and document distribution procedures were moved to appendices attached to the regulations.

These sections were removed from the regulatory language to improve the readability of the regulation and because these discussions are more explanatory and do not need to have the legal force of regulatory language.

(13) Consideration of the Endangered Species Act of 1973 was incorporated into the regulation.

EPA recognizes its responsibility to assist with implementing legislation which will help preserve or improve our natural resources.

The major issues raised on this regulation were on new and proposed criteria for determining when to prepare an EIS and the retroactive application of the criteria to projects started before July 1, 1975. In addition to the new criteria which were added, CEQ requested the addition of several quantitative criteria for which parameters have not been set. These new criteria are being discussed with CEQ and may be added to the regulation at a future date. Changes in the discussion of retroactive application of the criteria are described in item 8 above.

EPA believes that Agency compliance with the regulations of Part 6 will enhance the present quality of human life without endangering the quality of the natural environment for future generations.

Effective date: This regulation will become effective April 14, 1975.

Dated: April 3, 1975.

RUSSELL E. TRAIN,
Administrator.

Subpart A—General

§ 6.100 Purpose and policy.

(a) The National Environmental Policy Act (NEPA) of 1969, implemented by Executive Order 11514 and the Council on Environmental Quality's (CEQ's) Guidelines of August 1, 1973 (38 FR 20550), requires that all agencies of the Federal Government prepare detailed environmental impact statements on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment. NEPA requires that agencies include in the decision-making process appropriate and careful consideration of all environmental effects of proposed actions, explain potential environmental effects of proposed actions and their aternatives for public understanding, avoid or minimize adverse effects of proposed actions and restore or enhance environmental quality as much as possible.

(b) This part establishes Environmental Protection Agency (EPA) policy and procedures for the identification and analysis of the environmental impacts of EPA nonregulatory actions and the preparation and processing of environmental impact statements (EIS's) when significant impacts on the environment are anticipated.

§ 6.102 Definitions.

(a) "Environmental assessment" is a written analysis submitted to EPA by its grantees or contractors describing the environmental impacts of proposed actions undertaken with the financial support of EPA. For facilities or section 208 plans as defined in § 6.102 (j) and (k), the assessment must be an integral, though identifiable, part of the plan submitted to EPA for review.

(b) "Environmental review" is a formal evaluation undertaken by EPA to determine whether a proposed EPA action may have a significant impact on the environment. The environmental assessment is one of the major sources of information used in this review.

(c) "Notice of intent" is a memorandum, prepared after the environmental review, announcing to Federal, regional, State, and local agencies, and to interested persons, that a draft EIS will be prepared.

(d) "Environmental impact statement" is a report, prepared by EPA, which identifies and analyzes in detail the environmental impacts of a proposed EPA action and feasible alternatives.

(e) "Negative declaration" is a written announcement, prepared after the environmental review, which states that EPA has decided not to prepare an EIS and summarizes the environmental impact appraisal.

(f) "Environmental impact appraisal" is based on an environmental review and supports a negative declaration. It describes a proposed EPA action, its expected environmental impact, and the basis for the conclusion that no significant impact is anticipated.

(g) "NEPA-associated documents" are any one or combination of: notices of intent, negative declarations, exemption certifications, environmental impact appraisals, news releases, EIS's, and environmental assessments.

(h) "Responsible official" is an Assistant Administrator, Deputy Assistant Administartor, Regional Administrator or their designee.

(i) "Interested persons" are individuals, citizen groups, conservation organizations, corporations, or other nongovernmental units, including applicants for EPA contracts or grants, who may be interested in, affected by, or technically competent to comment on the environmental impacts of the proposed EPA action.

(j) "Section 208 plan" is an areawide waste treatment management plan prepared under section 208 of the Federal Water Pollution Control Act (FWPCA), as amended, under 40 CFR Part 126 and 40 CFR Part 35, Subpart F.

(k) "Facilities plan" is a preliminary plan prepared as the basis for construction of publicly owned waste treatment works under Title II of FWPCA, as amended, under 40 CFR 35.917.

(l) "Intramural project" is an in-house project undertaken by EPA personnel.

(m) "Extramural project" is a project undertaken by grant or contract.

§ 6.104 Summary of procedures for implementing NEPA.

(a) *Responsible official.* The responsible official shall utilize a systematic, interdisciplinary approach to integrate natural and social sciences as well as environmental design arts in planning programs and making decisions which are subject to NEPA review. His staff may be supplemented by professionals from other agencies, universities or consultants whenever in-house capabilities are insufficiently interdisciplinary.

(b) *Environmental assessment.* Environmental assessments must be submitted to EPA by its grantees and contractors, as required in Subparts E, F, G, and H of this part. The assessment is used by EPA to decide if an EIS is required and to prepare one if necessary.

(c) *Environmental review.* Environmental reviews shall be made of proposed and certain ongoing EPA actions as required in § 6.106(c). This process shall consist of a study of the action to identify and evaluate the environmental impacts of the action. Types of grants, contracts and other actions requiring study are listed in the subparts following

V 40 172 APR 14 75 A XUM

V 40 172 APR 14 75 A XUM

Subpart D. The process shall include a review of any environmental assessment received to determine whether any significant impacts are anticipated, whether any changes can be made in the proposed action to eliminate significant adverse impacts, and whether an EIS is required. EPA has overall responsibility for this review, although its grantees and contractors will contribute to the review through their environmental assessments.

(d) *Notice of intent and EIS's.* When an environmental review indicates that a significant environmental impact may occur and the significant adverse impacts cannot be eliminated by making changes in the project, a notice of intent shall be published, and a draft EIS shall be prepared and distributed. After external coordination and evaluation of the comments received, a final EIS shall be prepared and distributed. EIS's should be prepared first on those proposed actions with the most adverse effects which are scheduled for earliest implementation and on other proposed actions according to priorities assigned by the responsible official.

(e) *Negative declaration and environmental impact appraisal.* When the environmental review indicates no significant impacts are anticipated or when the project is changed to eliminate the significant adverse impacts, a negative declaration shall be issued. For the cases in Subparts E, F, G, and H of this part, an environmental impact appraisal shall be prepared which summaries the impacts, alternatives and reasons an EIS was not prepared. It shall remain on file and be available for public inspection.

§ 6.106 Applicability.

(a) *Administrative actions covered.* This part applies to the administrative actions listed below. The subpart referenced with each action lists the detailed NEPA procedures associated with the action. Administrative actions are:

(1) Development of EPA legislative proposals;

(2) Development of favorable reports on legislation initiated elsewhere and not accompanied by an EIS, when they relate to or affect matters within EPA's primary areas of responsibility;

(3) For the programs under Title II of FWPCA, as amended, those administrative actions in § 6.504;

(4) For the Office of Research and Development, those administrative actions in § 6.604;

(5) For the Office of Solid Waste Management Programs, those administrative actions in § 6.702;

(6) For construction of special purpose facilities and facility renovations, those administrative actions in § 6.804; and

(7) Development of an EPA project in conjunction with or located near a project or complex of projects started by one or more Federal agencies when the cumulative effects of all the projects will be major allocations of resources or foreclosures of future land use options.

(b) *Administrative actions excluded.* The requirements of this part do not apply to environmentally protective regulatory activities undertaken by EPA, nor to projects exempted in § 6.504, § 6.604, and § 6.702.

(c) *Application to ongoing actions.* This regulation shall apply to uncompleted and continuing EPA actions initiated before the promulgation of these procedures when modifications of or alternatives to the EPA action are still available, except for the Title II construction grants program. Specific application for the construction grants program is in § 6.504(c). An EIS shall be prepared for each project found to have significant environmental effects as described in § 6.200.

(d) *Application to legislative proposals.* (1) As noted in paragraphs (a) (1) and (2) of this section, EIS's or negative declarations shall be prepared for legislative proposals or favorable reports relating to legislation which may significantly affect the environment. Because of the nature of the legislative process, EIS's for legislation must be prepared and reviewed according to the procedures followed in the development and review of the legislative matter. These procedures are described in Office of Management and Budget (OMB) Circular No. A–19.

(2) A working draft EIS shall be prepared by the EPA office responsible for preparing the legislative proposal or report on legislation. It shall be prepared concurrently with the development of the legislative proposal or report and shall contain the information required in § 6.304. The EIS shall be circulated for internal EPA review with the legislative proposal or report and other supporting documentation. The working draft EIS shall be modified to correspond with changes made in the proposal or report during the internal review. All major alternatives developed during the formulation and review of the proposal or report should be retained in the working draft EIS.

(i) The working draft EIS shall accompany the legislative proposal or report to OMB. EPA shall revise the working draft EIS to respond to comments from OMB and other Federal agencies.

(ii) Upon transmittal of the legislative proposal or report to Congress, the working draft EIS will be forwarded to CEQ and the Congress as a formal legislative EIS. Copies will be distributed according to procedures described in Appendix C.

(iii) Comments received by EPA on the legislative EIS shall be forwarded to the appropriate Congressional Committees. EPA also may respond to specific comments and forward its responses with the comments. Because legislation undergoes continuous changes in Congress beyond the control of EPA, no final EIS need be prepared by EPA.

§ 6.108 Completion of NEPA procedures before starting administrative action.

(a) No administrative action shall be taken until the environmental review process, resulting in an EIS or a negative declaration with environmental appraisal, has been completed.

(b) *When an EIS will be prepared.* Except when requested by the responsible official in writing and approved by CEQ, no administrative action shall be taken sooner than ninety (90) calendar days after a draft EIS has been distributed or sooner than thirty (30) calendar days after the final EIS has been made public. If the final text of an EIS is filed within ninety (90) days after a draft EIS has been circulated for comment, furnished to CEQ and made public, the minimum thirty (30) day period and the ninety (90) day period may run concurrently if they overlap. The minimum periods for review and advance availability of EIS's shall begin on the date CEQ publishes the notice of receipt of the EIS in the FEDERAL REGISTER. In addition, the proposed action should be modified to conform with any changes EPA considers necessary before the final EIS is published.

(c) *When an EIS will not be prepared.* If EPA decides not to prepare an EIS on any action listed in this part for which a negative declaration with environmental appraisal has been prepared, no administrative action shall be taken for at least fifteen (15) working days after the negative declaration is issued to allow public review of the decision. If significant environmental issues are raised during the review period, the decision may be changed and a new environmental appraisal or an EIS may be prepared.

§ 6.110 Responsibilities.

See Appendix B for responsibilities of this part.

Subpart B—Procedures

§ 6.200 Criteria for determining when to prepare an EIS.

The following general criteria shall be used when reviewing a proposed EPA action to determine if it will have a significant impact on the environment and therefore require an EIS:

(a) *Significant environmental effects.* (1) An action with both beneficial and detrimental effects should be classified as having significant effects on the environment, even if EPA believes that the net effect will be beneficial. However, preference should be given to preparing EIS's on proposed actions which, on balance, have adverse effects.

(2) When determining the significance of a proposed action's impacts, the responsible official shall consider both its short term and long term effects as well as its primary and secondary effects as defined in § 6.304(c). Particular attention should be given to changes in land use patterns; changes in energy supply and demand; increased development in floodplains; significant changes in ambient air and water quality or noise levels; potential violations of air quality, water quality and noise level standards; significant changes in surface or groundwater quality or quantity; and encroachments on wetlands, coastal zones, or fish and wildlife habitat, especially when threatened or endangered species may be affected.

(3) Minor actions which may set a precedent for future major actions with significant adverse impacts or a number of actions with individually insignificant but cumulatively significant adverse impacts shall be classified as having significant environmental impacts. If EPA is taking a number of minor, environmentally insignificant actions that are similar in execution and purpose, during a limited time span and in the same general geographic area, the cumulative environmental impact of all of these actions shall be evaluated.

(4) In determining the significance of a proposed action's impact, the unique characteristics of the project area should be carefully considered. For example, proximity to historic sites, parklands or wild and scenic rivers may make the impact significant. A project discharging into a drinking water aquifier may make the impact significant.

(5) A proposed EPA action which will have direct and significant adverse effects on a property listed in or eligible for listing in the National Register of Historic Places or will cause irreparable loss or destruction of significant scientific, prehistoric, historic or archaeological data shall be classified as having significant environmental impacts.

(b) *Controversial actions.* An EIS shall be prepared when the environmental impact of a proposed EPA action is likely to be highly controversial.

(c) *Additional criteria for specific programs.* Additional criteria for various EPA programs are in Subpart E (Title II Wastewater Treatment Works Construction Grants Program), Subpart F (Research and Development Programs), Subpart G (Solid Waste Management Programs) and Subpart H (Construction of Special Facilities and Facility Renovations).

§ 6.202 Environmental assessment.

Environmental assessments must be submitted to EPA by its grantees and contractors as required in Subparts E, F, G, and H of this part. The assessment is to ensure that the applicant considers the environmental impacts of the proposed action at the earliest possible point in his planning process. The assessment and other relevant information are used by EPA to decide if an EIS is required. While EPA is responsible for ensuring that EIS's are factual and comprehensive, it expects assessments and other data submitted by grantees and contractors to be accurate and complete. The responsible official may request additional data and analyses from grantees or other sources any time he determines they are needed to comply adequately with NEPA.

§ 6.204 Environmental review.

Proposed EPA actions, as well as ongoing EPA actions listed in § 6.106(c), shall be subjected to an environmental review. This review shall be a continuing one, starting at the earliest possible point in the development of the project. It shall consist of a study of the proposed action, including a review of any environmental assessments received, to identify and evaluate the environmental impacts of the proposed action and feasible alternatives. The review will determine whether significant impacts are anticipated from the proposed action, whether any feasible alternatives can be adopted or changes can be made in project design to eliminate significant adverse impacts, and whether an EIS or a negative declaration is required. The responsible official shall determine the proper scope of the environmental review. The responsible official may delay approval of related projects until the proposals can be reviewed together to allow EPA to properly evaluate their cumulative impacts.

§ 6.206 Notice of intent.

(a) *General.* (1) When an environmental review indicates a significant impact may occur and significant adverse impacts cannot be eliminated by making changes in the project, a notice of intent, announcing the preparation of a draft EIS, shall be issued by the responsible official. The notice shall briefly describe the EPA action, its location, and the issues involved (Exhibit 1).

(2) The purpose of a notice of intent is to involve other government agencies and interested persons as early as possible in the planning and evaluation of EPA actions which may have significant environmental impacts. This notice should encourage agency and public input to a draft EIS and assure that environmental values will be identified and weighed from the outset rather than accommodated by adjustments at the end of the decision-making process.

(b) *Specific actions.* The specific actions to be taken by the responsible official on notices of intent are:

(1) When the review process indicates a significant impact may occur and significant adverse impacts cannot be eliminated by making changes in the project, prepare a notice of intent immediately after the environmental review.

(2) Distribute copies of the notice of intent as required in Appendix C.

(3) Publish in a local newspaper, with adequate circulation to cover the area affected by the project, a brief public notice stating that an EIS will be prepared on a particular project, and the public may participate in preparing the EIS (Exhibit 2). News releases also may be submitted to other media.

(c) *Regional office assistance to program offices.* Regional offices will provide assistance to program offices in taking these specific actions when the EIS originates in a program office.

§ 6.208 Draft EIS's.

(a) *General.* (1) The responsible official shall assure that a draft EIS is prepared as soon as possible after the release of the notice of intent. Before releasing the draft EIS to CEQ, a preliminary version may be circulated for review to other offices within EPA with interest in or technical expertise related to the action. Then the draft EIS shall be sent to CEQ and circulated to Federal, State, regional and local agencies with special expertise or jurisdiction by law, and to interested persons. If the responsible official determines that a public hearing on the proposed action is warranted, the hearing will be held after the draft EIS is prepared, according to the requirements of § 6.402.

(2) Draft EIS's should be prepared at the earliest possible point in the project development. If the project involves a grant applicant or potential contractor, he must submit any data EPA requests for preparing the EIS. Where a plan or program has been developed by EPA or submitted to EPA for approval, the relationship between the plan and the later projects encompassed by its shall be evaluated to determine the best time to prepare an EIS. Whenever possible, an EIS will be drafted for the total program at the initial planning stage. Then later component projects included in the plan will not require individual EIS's unless they differ substantially from the plan, or unless the overall plan did not provide enough detail to fully assess significant impacts of individual projects. Plans shall be reevaluated by the responsible official to monitor the cumulative impact of the component projects and to preclude the plans' obsolescence.

(b) *Specific actions.* The specific actions to be taken by the responsible official on draft EIS's are:

(1) Distribute the draft EIS according to the procedures in Appendix C.

(2) Inform the agencies to reply directly to the originating EPA office. Commenting agencies shall have at least forty-five (45) calendar days to reply, starting from the date of publication in the FEDERAL REGISTER of lists of statements received by CEQ. If no comments are received during the reply period and no time extension has been requested, it shall be presumed that the agency has no comment to make. EPA may grant extensions of fifteen (15) or more calendar days. The time limits for review and extensions for State and local agencies; State, regional, and metropolitan clearinghouses; and interested persons shall be the same as those available to Federal agencies.

(3) Publish a notice in local newspapers stating that the draft EIS is available for comment and listing where copies may be obtained (Exhibit 2), and submit news releases to other media.

(4) Include in the draft EIS a notice stating that only those Federal, State, regional, and local agencies and interested persons who make substantive comments on the draft EIS or request a copy of the final EIS will be sent a copy.

(c) *Regional office assistance to program office.* If requested, regional offices will provide assistance to program offices in taking these specific actions when the EIS originates in a program office.

V 40 172 APR 14 75 A XUM V

§ 6.210 Final EIS's.

(a) Final EIS's shall respond to all substantive comments raised through the review of the draft EIS. Special care should be taken to respond fully to comments disagreeing with EPA's position. (See also § 6.304(g).)

(b) Distribution and other specific actions are described in Appendix C. If there is an applicant, he shall be sent a copy. When the number of comments on the draft EIS is so large that distribution of the final EIS to all commenting entities appears impractical, the program or regional office preparing the EIS shall consult with OFA, which will consult with CEQ about alternative arrangements for distribution of the EIS.

§ 6.212 Negative declaration and environmental impact appraisals.

(a) *General.* When an environmental review indicates there will be no significant impact or significant adverse impacts have been eliminated by making changes in the project, the responsible official shall prepare a negative declaration to allow public review of his decision before it becomes final. The negative declaration and news release must state that interested persons disagreeing with the decision may submit comments for consideration by EPA. EPA shall not take administrative action on the project for at least fifteen (15) working days after release of the negative declaration and may allow more time for response. The responsible official shall have an environmental impact appraisal supporting the negative declaration available for public review when the negative declaration is released for those cases given in Subparts E, F, G, and H.

(b) *Specific actions.* The responsible official shall take the following specific actions on those projects for which both a negative declaration and an impact appraisal will be prepared:

(1) *Negative declaration.* (i) Prepare a negative declaration immediately after the environmental review. This document shall briefly summarize the purpose of the project, its location, the nature and extent of the land use changes related to the project, and the major primary and secondary impacts of the project. It shall describe how the more detailed environmental impact appraisal may be obtained at cost. (See Exhibit 3.)

(ii) Distribute the negative declaration according to procedures in Appendix C. In addition, submit to local newspapers and other appropriate media a brief news release with a negative declaration attached, informing the public that a decision not to prepare an EIS has been made and a negative declaration and environmental impact appraisal are available for public review and comment (Exhibit 2).

(2) *Environmental impact appraisal.* (i) Prepare an environmental impact appraisal concurrently with the negative declaration. This document shall briefly describe the proposed action and feasible alternatives, environmental impacts of the proposed action, unavoidable adverse impacts of the proposed action, the relationship between short term uses of man's environment and the maintenance and enhancement of long term productivity, steps to minimize harm to the environment, irreversible and irretrievable commitments of resources to implement the action, comments and consultations on the project, and reasons for concluding there will be no significant impacts. (See Exhibit 4.)

(ii) Distribute the environmental impact appraisal according to procedures in Appendix C.

§ 6.214 Additional procedures.

(a) *Historical and archaeological sites.* EPA is subject to the requirements of section 106 of the National Historic Preservation Act of 1966, 16 U.S.C. 470 *et seq.*, Executive Order 11593, the Archaeological and Historic Preservation Act of 1974, 16 U.S.C. 469 *et seq.*, and the regulations promulgated under this legislation. These statutes and regulations establish environmental review procedures which are independent of NEPA requirements.

(1) If an EPA action may affect properties with historic, architectural, archaeological or cultural value which are listed in the National Register of Historic Places (published in the FEDERAL REGISTER each February with supplements on the first Tuesday of each month), the responsible official shall comply with the procedures of the Advisory Council on Historic Preservation (36 CFR 800), including determining the need for a Memorandum of Agreement among EPA, the State Historic Preservation Officer and the Advisory Council. If a Memordandum of Agreement is executed, it shall be included in an EIS whenever one is prepared on a proposed action. See § 6.512(c) of this part for additional procedures for the construction grants program under Title II of the FWPCA, as amended.

(2) If an EPA action may cause irreparable loss or destruction of significant scientific, prehistoric, historic or archaeological data, the responsible official shall consult with the State Historic Preservation Officer in compliance with the Archaeological and Historic Preservation Act (P.L. 93–291).

(b) *Wetlands, floodplains, coastal zones, wild and scenic rivers, fish and wildlife.* The following procedures shall be applied to all EPA administrative actions covered by this part that may affect these environmentally sensitive resources.

(1) If an EPA action may affect wetlands, the responsible official shall consult with the appropriate offices of the Department of the Interior, Department of Commerce, and the U.S. Army Corps of Engineers during the environmental review to determine the probable impact of the action on the pertinent fish and wildlife resources and land use of these areas.

(2) If an EPA action may directly cause or induce the construction of buildings or other facilities in a floodplain, the responsible official shall evaluate flood hazards in connection with these facilities as required by Executive Order 11296 and shall, as far as practicable, consider alternatives to preclude the uneconomic, hazardous or unnecessary use of floodplains to minimize the exposure of facilities to potential flood damage, lessen the need for future Federal expenditures for flood protection and flood disaster relief and preserve the unique and significant public value of the floodplain as an environmental resource.

(3) If an EPA action may affect coastal zones or coastal waters as defined in Title III of the Costal Zone Management Act of 1972 (Pub. L. 92–583), the responsible official shall consult with the appropriate State offices and with the appropriate office of the Department of Commerce during the environmental review to determine the probable impact of the action on coastal zone or coastal water resources.

(4) If an EPA action may affect portions of rivers designated wild and scenic or being considered for this designation under the Wild and Scenic Rivers Act (Pub. L. 90–542), the responsible official shall consult with appropriate State offices and with the Secretary of the Interior or, where national forest lands are involved, with the Secretary of Agriculture during the environmental review to determine the status of an affected river and the probable impact of the action on eligible rivers.

(5) If an EPA action will result in the control or structural modification of any stream or other body of water for any purpose, including navigation and drainage, the responsible official shall consult with the United States Fish and Wildlife Service (Department of the Interior), the National Marine Fisheries Service of the National Oceanic and Atmospheric Administration (Department of Commerce), the U.S. Army Corps of Engineers and the head of the agency administering the wildlife resources of the particular State in which the action will take place with a view to the conservation of wildlife resources. This consultation shall follow the procedures in the Fish and Wildlife Coordination Act (Pub. L. 85–624) and shall occur during the environmental review of an action.

(6) If an EPA action may affect threatened or endangered species defined under section 4 of the Endangered Species Act of 1973 (Pub. L. 93–205), the responsible official shall consult with the Secretary of the Interior or the Secretary of Commerce, according to the procedures in section 7 of that act.

(7) Requests for consultation and the results of consultation shall be documented in writing. In all cases where consultation has occurred, the agencies consulted should receive copies of either the notice of intent and EIS or the negative declaration and environmental appraisal prepared on the proposed action. If a decision has already been made to prepare an EIS on a project and wetlands, floodplains, coastal zones, wild and scenic rivers, fish or wildlife may be affected, the required consultation may be deferred until the preparation of the draft EIS.

§ 6.216 Availability of documents.

(a) EPA will print copies of draft and final EIS's for agency and public distribution. A nominal fee may be charged for copies requested by the public.

(b) When EPA no longer has copies of an EIS to distribute, copies shall be made available for public inspection at regional and headquarters Offices of Public Affairs. Interested persons also should be advised of the availability (at cost) of the EIS from the Environmental Law Institute, 1356 Connecticut Avenue NW., Washington, D.C. 20036.

(c) Lists of EIS's prepared or under preparation and lists of negative declarations prepared will be available at both the regional and headquarters Offices of Public Affairs.

Subpart C—Content of Environmental Impact Statements

§ 6.300 Cover sheet.

The cover sheet shall indicate the type of EIS (draft or final), the official project name and number, the responsible EPA office, the date, and the signature of the responsible official. The format is shown in Exhibit 5.

§ 6.302 Summary sheet.

The summary sheet shall conform to the format in Exhibit 6, based on Appendix I of the August 1, 1973, CEQ Guidelines, or the latest revision of the CEQ Guidelines.

§ 6.304 Body of EIS.

The body of the EIS shall identify, develop, and analyze the pertinent issues discussed in the seven sections below; each section need not be a separate chapter. This analysis should include, but not be limited to, consideration of the impacts of the proposed project on the environmental areas listed in Appendix A which are relevant to the project. The EIS shall serve as a means for the responsible official and the public to assess the environmental impacts of a proposed EPA action, rather than as a justification for decisions already made. It shall be prepared using a systematic, interdisciplinary approach and shall incorporate all relevant analytical disciplines to provide meaningful and factual data, information, and analyses. The presentation of data should be clear and concise, yet include all facts necessary to permit independent evaluation and appraisal of the beneficial and adverse environmental effects of alternative actions. The amount of detail provided should be commensurate with the extent and expected impact of the action and the amount of information required at the particular level of decision making. To the extent possible, an EIS shall not be drafted in a style which requires extensive scientific or technical expertise to comprehend and evaluate the environmental impact of a proposed EPA action.

(a) *Background and description of the proposed action.* The EIS shall describe the recommended or proposed action, its purpose, where it is located and its time setting. When a decision has been made not to favor an alternative until public comments on a proposed action have been received, the draft EIS may treat all feasible alternatives at similar levels of detail; the final EIS should focus on the alternative the draft EIS and public comments indicate is the best. The relationship of the proposed action to other projects and proposals directly affected by or stemming from it shall be discussed, including not only other EPA activities, but also those of other governmental and private organizations. Land use patterns and population trends in the project area and the assumptions on which they are based also shall be included. Available maps, photos, and artists' sketches should be incorporated when they help depict the environmental setting.

(b) *Alternatives to the proposed action.* The EIS shall develop, describe, and objectively weigh feasible alternatives to any proposed action, including the options of taking no action or postponing action. The analysis should be detailed enough to show EPA's comparative evaluation of the environmental impacts, commitments of resources, costs, and risks of the proposed action and each feasible alternative. For projects involving construction, alternative sites must be analyzed in enough detail for reviewers independently to judge the relative desirability of each site. For alternatives involving regionalization, the effects of varying degrees of regionalization should be addressed. If a cost-benefit analysis is prepared, it should be appended to the EIS and referenced in the body of the EIS. In addition, the reasons why the proposed action is believed by EPA to be the best course of action shall be explained.

(c) *Environmental impacts of the proposed action.* (1) The positive and negative effects of the proposed action as it affects both the national and international environment should be assessed. The attention given to different environmental factors will vary according to the nature, scale, and location of proposed actions. Primary attention should be given to those factors most evidently affected by the proposed action. The factors shall include, where appropriate, the proposed action's effects on the resource base, including land, water quality and quantity, air quality, public services and energy supply. The EIS shall describe primary and secondary environmental impacts, both beneficial and adverse, anticipated from the action. The description shall include short term and long term impacts on both the natural and human environments.

(2) Primary impacts are those that can be attributed directly to the proposed action. If the action is a field experiment, materials introduced into the environment which might damage certain plant communities or wildlife species would be a primary impact. If the action involves construction of a facility, such as a sewage treatment works, an office building or a laboratory, the primary impacts of the action would include the environmental impacts related to construction and operation of the facility and land use changes at the facility site.

(3) Secondary impacts are indirect or induced changes. If the action involves construction of a facility, the secondary impacts would include the environmental impacts related to:

(i) induced changes in the pattern of land use, population density and related effects on air and water quality or other natural resources;

(ii) increased growth at a faster rate than planned for or above the total level planned by the existing community.

(4) A discussion of how socioeconomic activities and land use changes related to the proposed action conform or conflict with the goals and objectives of approved or proposed Federal, regional, State and local land use plans, policies and controls for the project area should be included in the EIS. If a conflict appears to be unresolved in the EIS, EPA should explain why it has decided to proceed without full reconciliation.

(d) *Adverse impacts which cannot be avoided should the proposal be implemented and steps to minimize harm to the environment.* The EIS shall describe the kinds and magnitudes of adverse impacts which cannot be reduced in severity or which can be reduced to an acceptable level but not eliminated. These may include water or air pollution, undesirable land use patterns, damage to fish and wildlife habitats, urban congestion, threats to human health or other consequences adverse to the environmental goals in section 101(b) of NEPA. Protective and mitigative measures to be taken as part of the proposed action shall be identified. These measures to reduce or compensate for any environmentally detrimental aspect of the proposed action may include those of EPA, its contractors and grantees and others involved in the action.

(e) *Relationship between local short term uses of man's environment and the maintenance and enhancement of long term productivity.* The EIS shall describe the extent to which the proposed action involves tradeoffs between short term environmental gains at the expense of long term gains or vice-versa and the extent to which the proposed action forecloses future options. Special attention shall be given to effects which narrow the range of future uses of land and water resources or pose long term risks to health or safety. Consideration should be given to windfall gains or significant decreases in current property values from implementing the proposed action. In addition, the reasons the proposed action is believed by EPA to be justified now, rather than reserving a long term option for other alternatives, including no action, shall be explained.

(f) *Irreversible and irretrievable commitments of resources to the proposed action should it be implemented.* The EIS shall describe the extent to which

V 40 72 APR 14 75 XUM

the proposed action requires commitment of construction materials, person-hours and funds to design and implement the project, as well as curtails the range of future uses of land and water resources. For example, induced growth in undeveloped areas may curtail alternative uses of that land. Also, irreversible environmental damage can result from equipment malfunctions or industrial accidents at the project site. Therefore, the need for any irretrievable and significant commitments of resources shall be explained fully.

(g) *Problems and objections raised by other Federal, State and local agencies and by interested persons in the review process.* Final EIS's (and draft EIS's if appropriate) shall summarize the comments and suggestions made by reviewing organizations and shall describe the disposition of issues raised, e.g., revisions to the proposed action to mitigate anticipated impacts or objections. In particular, the EIS shall address the major issues raised when the EPA position differs from most recommendations and explain the factors of overriding importance overruling the adoption of suggestions. Reviewer's statements should be set forth in a "comment" and discussed in a "response." In addition, the source of all comments should be clearly identified, and copies of the comments should be attached to the final EIS. Summaries of comments should be attached when a response has been exceptionally long or the same comments were received from many reviewers.

§ 6.306 Documentation.

All books, research reports, field study reports, correspondence and other documents which provided the data base for evaluating the proposed action and alternatives discussed in the EIS shall be used as references in the body of the EIS and shall be included in a bibliography attached to the EIS.

Subpart D—EPA Public Hearings on EIS's

§ 6.400 General.

While EPA is not required by statute to hold public hearings on EIS's, the responsible official should hold a public hearing on a draft EIS whenever a hearing may facilitate the resolution of conflicts of significant public controversy. This hearing may be in addition to public hearings held on facilities plans or section 209 plans. The responsible official may take special measures to involve interested persons through personal contact.

§ 6.402 Public hearing process.

(a) When public hearings are to be held, EPA shall inform the public of the hearing, for example, with a notice in the draft EIS. The notice should follow the summary sheet at the beginning of the EIS. The draft EIS shall be available for public review at least thirty (30) days before the public hearing. Public notice shall be given at least fifteen (15) working days before the public hearing and shall include:

(1) Publication of a public notice in a newspaper which covers the project area, identifying the project, announcing the date, time and place of the hearing and announcing the availability of detailed information on the proposed action for public inspection at one or more locations in the area in which the project will be located. "Detailed information" shall include a copy of the project application and the draft EIS.

(2) Notification of appropriate State and local agencies and appropriate State, regional and metropolitan clearinghouses.

(3) Notification of interested persons.

(b) A written record of the hearing shall be made. A stenographer may be used to record the hearing. As a minimum, the record shall contain a list of witnesses with the text of each presentation. A summary of the record, including the issues raised, conflicts resolved and unresolved, and any other significant portions of the record, shall be appended to the final EIS.

(c) When a public hearing has been held by another Federal, State, or local agency on an EPA action, additional hearings are not necessary. The responsible official shall decide if additional hearings are needed.

(d) When a program office is the originating office, the appropriate regional office will provide assistance to the originating office in holding any public hearing if assistance is requested.

Subpart E—Guidelines for Compliance With NEPA in the Title II Wastewater Treatment Works Construction Grants Program and the Areawide Waste Treatment Management Planning Program

§ 6.500 Purpose.

This subpart amplifies the general EPA policies and procedures described in Subparts A through D with detailed procedures for compliance with NEPA in the wastewater treatment works construction grants program and the areawide waste treatment management planning program.

§ 6.502 Definitions.

(a) "Step 1 grant." A grant for preparation of a facilities plan as described in 40 CFR 35.930–1.

(b) "Step 2 grant." A grant for preparation of construction drawings and specifications as described in 40 CFR 35.930–1.

(c) "Step 3 grant." A grant for fabrication and building of a publicly owned treatment works as described in 40 CFR 35.930–1.

§ 6.504 Applicability.

(a) *Administrative actions covered.* This subpart applies to the administrative actions listed below:

(1) Approval of all section 208 plans according to procedures in 40 CFR 35.1067–2;

(2) Approval of all facilities plans except those listed in paragraph (a)(5) of this section;

(3) Award of step 2 and step 3 grants, if an approved facilities plan was not required;

(4) Award of a step 2 or step 3 grant when either the project or its impact has changed significantly from that described in the approved facilities plan, except when the situation in paragraph (a)(5) of this section exists;

(5) Consultation during the NEPA review process. When there are overriding considerations of cost or impaired program effectiveness, the Regional Administrator may award a step 2 or a step 3 grant for a discrete segment of the project plans or construction before the NEPA review is completed if this project segment is noncontroversial. The remaining portion of the project shall be evaluated to determine if an EIS is required. In applying the criteria for this determination, the entire project shall be considered, including those parts permitted to proceed. In no case may these types of step 2 or step 3 grants be awarded unless both the Office of Federal Activities and CEQ have been consulted, a negative declaration has been issued on the segments permitted to proceed, and the grant award contains a specific agreement prohibiting action on the segment of planning or construction for which the NEPA review is not complete. Examples of consultation during the NEPA review process are: award of a step 2 grant for preparation of plans and specifications for a large treatment plant, when the only unresolved NEPA issue is where to locate the sludge disposal site; or award of a step 3 grant for site clearance for a large treatment plant, when the unresolved NEPA issue is whether sludge from the plant should be incinerated at the site or disposed of elsewhere by other means.

(b) *Administrative actions excluded.* The actions listed below are not subject to the requirements of this part:

(1) Approval of State priority lists;

(2) Award of a step 1 grant;

(3) Award of a section 208 planning grant;

(4) Award of a step 2 or step 3 grant when no significant changes in the facilities plan have occurred;

(5) Approval of issuing an invitation for bid or awarding a construction contract;

(6) Actual physical commencement of building or fabrication;

(7) Award of a section 206 grant for reimbursement;

(8) Award of grant increases whenever § 6.504(a)(4) does not apply;

(9) Awards of training assistance under FWPCA, as amended, section 109(b).

(c) *Retroactive application.* The new criteria in § 6.510 of this subpart do not apply to step 2 or step 3 grants awarded before July 1, 1975. However, the Regional Administrator may apply the new criteria of this subpart when he considers it appropriate. Any negative declarations issued before the effective date of this regulation shall remain in effect.

§ 6.506 Completion of NEPA procedures before start of administrative actions.

See § 6.108 and § 6.504.

§ 6.510 Criteria for preparation of environmental impact statements.

In addition to considering the criteria in § 6.200, the Regional Administrator shall assure that an EIS will be prepared on a treatment works facilities plan, 208 plan or other appropriate water quality management plan when:

(a) The treatment works or plan will induce significant changes (either absolute changes or increases in the rate of change) in industrial, commercial, agricultural, or residential land use concentrations or distributions. Factors that should be considered in determining if these changes are significant include but are not limited to: the vacant land subject to increased development pressure as a result of the treatment works; the increases in population which may be induced; the faster rate of change of population; changes in population density; the potential for overloading sewage treatment works; the extent to which landowners may benefit from the areas subject to increased development; the nature of land use regulations in the affected area and their potential effects on development; and deleterious changes in the availability or demand for energy.

(b) Any major part of the treatment works will be located on productive wetlands or will have significant adverse effects on wetlands, including secondary effects.

(c) Any major part of the treatment works will be located on or significantly affect the habitat of wildlife on the Department of Interior's threatened and endangered species lists.

(d) Implementation of the treatment works or plan may directly cause or induce changes that significantly:

(1) Displace population;

(2) Deface an existing residential area; or

(3) Adversely affect significant amounts of prime agricultural land or agricultural operations on this land.

(e) The treatment works or plan will have significant adverse effects on parklands, other public lands or areas of recognized scenic, recreational, archaeological or historic value.

(f) The works or plan may directly or through induced development have a significant adverse effect upon local ambient air quality, local ambient noise levels, surface or groundwater quantity or quality, fish, wildlife, and their natural habitats.

(g) The treated effluent is being discharged into a body of water where the present classification is too lenient or is being challenged as too low to protect present or recent uses, and the effluent will not be of sufficient quality to meet the requirements of these uses.

§ 6.512 Procedures for implementing NEPA.

(a) *Environmental assessment.* An adequate environmental assessment must be an integral, though identifiable, part of any facilities or section 208 plan submitted to EPA. (See § 6.202 for a general description.) The information in the facilities plan, particularly the environmental assessment, will provide the substance of an EIS and shall be submitted by the applicant. The analyses that constitute an adequate environmental assessment shall include:

(1) *Description of the existing environment without the project.* This shall include for the delineated planning area a description of the present environmental conditions relevant to the analysis of alternatives or determinations of the environmental impacts of the proposed action. The description shall include, but not be limited to, discussions of whichever areas are applicable to a particular study: surface and groundwater quality; water supply and use; general hydrology; air quality; noise levels, energy production and consumption; land use trends; population projections, wetlands, floodplains, coastal zones and other environmentally sensitive areas; historic and archaeological sites; other related Federal or State projects in the area; and plant and animal communities which may be affected, especially those containing threatened or endangered species.

(2) *Description of the future environment without the project.* The future environmental conditions with the no project alternative shall be forecast, covering the same areas listed in § 6.512(a)(1).

(3) *Documentation.* Sources of information used to describe the existing environment and to assess future environmental impacts should be documented. These sources should include regional, State and Federal agencies with responsibility or interest in the types of impacts listed in § 6.512(a)(1). In particular, the following agencies should be consulted:

(i) Local and regional land use planning agencies for assessments of land use trends and population projections, especially those affecting size, timing, and location of facilities, and planning activities funded under section 701 of the Housing and Community Development Act of 1974 (Pub. L. 93–383);

(ii) The HUD Regional Office if a project involves a flood risk area identified under the Flood Disaster Protection Act of 1973 (Pub. L. 93–234);

(iii) The State coastal zone management agency, if a coastal zone is affected;

(iv) The Secretary of the Interior or Secretary of Agriculture, if a wild and scenic river is affected;

(v) The Secretary of the Interior or Secretary of Commerce, if a threatened or endangered species is affected;

(vi) The Fish and Wildlife Service (Department of Interior), the Department of Commerce, and the U.S. Army Corps of Engineers, if a wetland is affected.

(4) *Evaluation of alternatives.* This discussion shall include a comparative analysis of feasible options and a systematic development of wastewater treatment alternatives. The alternatives shall be screened with respect to capital and operating costs; significant primary and secondary environmental effects; physical, legal or institutional constraints; and whether or not they meet regulatory requirements. Special attention should be given to long term impacts, irreversible impacts and induced impacts such as development. The reasons for rejecting any alternatives shall be presented in addition to any significant environmental benefits precluded by rejection of an alternative. The analysis should consider, when relevant to the project:

(i) Flow and waste reduction measures, including infiltration/inflow reduction;

(ii) Alternative locations, capacities, and construction phasing of facilities;

(iii) Alternative waste management techniques, includign treatment and discharge, wastewater reuse and land application;

(iv) Alternative methods for disposal of sludge and other residual waste, including process options and final disposal options;

(v) Improving effluent quality through more efficient operation and maintenance;

(vi) For assessments associated with section 208 plans, the analysis of options shall include in addition:

(A) Land use and other regulatory controls, fiscal controls, non-point source controls, and institutional arrangements; and

(B) Land management practices.

(5) *Environmental impacts of the proposed action.* Primary and secondary impacts of the proposed action shall be described, giving special attention to unavoidable impacts, steps to mitigate adverse impacts, any irreversible or irretrievable commitments of resources to the project and the relationship between local short term uses of the environment and the maintenance and enhancement of long term productivity. See § 6.304 (c), (d), (e), and (f) for an explanation of these terms and examples. The significance of land use impacts shall be evaluated, based on current population of the planning area; design year population for the service area; percentage of the service area currently vacant; and plans for staging facilities. Special attention should be given to induced changes in population patterns and growth, particularly if a project involves some degree of regionalization. In addition to these items, the Regional Administrator may require that other analyses and data, which he determines are needed to comply with NEPA, be included with the facilities or section 208 plan. Such requirements should be discussed during preapplication conferences. The Regional Administrator also may require submission of supplementary information either before or after a step 2 grant or before a step 3 grant award if he determines it is needed for compliance with NEPA. Requests for supplementary information shall be made in writing.

(6) *Steps to minimize adverse effects.* This section shall describe structural and

V 40 172 APR 14 75 XUM

nonstructural measures, if any, in the facilities plan to mitigate or eliminate significant adverse effects on the human and natural environments. Structural provisions include changes in facility design, size, and location; nonstructural provisions include staging facilities as well as developing and enforcing land use regulations and environmentally protective regulations.

(b) *Public hearing.* The applicant shall hold at least one public hearing before a facilities plan is adopted, unless waived by the Regional Administrator before completion of the facilities plan according to § 35.917-5 of the Title II construction grants regulations. Hearings should be held on section 208 plans. A copy of the environmental assessment should be available for public review before the hearing and at the hearing, since these hearings provide an opportunity to accept public input on the environmental issues associated with the facilities plan or the 208 water quality management strategy. In addition, a Regional Administrator may elect to hold an EPA hearing if environmental issues remain unresolved. EPA hearings shall be held according to procedures in § 6.402.

(c) *Environmental review.* An environmental review of a facilities plan or section 208 plan shall be conducted according to the procedures in § 6.204 and applying the criteria of § 6.510. If deficiencies exist in the environmental assessment, they shall be identified in writing by the Regional Administrator and must be corrected before the plan can be approved.

(d) *Additional procedures.* (1) Historic and archaeological sites. If a facilities or section 208 plan may affect properties with historic, architectural, archaeological or cultural value which are listed in or eligible for listing in the National Register of Historic Places or may cause irreparable loss or destruction of significant scientific, prehistoric, historic or archaeological data, the applicant shall follow the procedures in § 6.214(a).

(2) If the facilities or section 208 plan may affect wetlands, floodplains, coastal zones, wild and scenic rivers, fish or wildlife, the Regional Administrator shall follow the appropriate procedures described in § 6.214(b).

(e) *Notice of intent.* The notice of intent on a facilities plan or section 208 plan shall be issued according to § 6.206.

(f) *Scope of EIS.* It is the Regional Administrator's responsibility to determine the scope of the EIS. He should determine if an EIS should be prepared on a facilities plan(s) or section 208 plan and which environmental areas should be discussed in greatest detail in the EIS. Once an EIS has been prepared for the designated section 208 area, another need not be prepared unless the significant impacts of individual facilities or other plan elements were not adequately treated in the EIS. The Regional Administrator should document his decision not to prepare an EIS on individual facilities.

(g) *Negative declaration.* A negative declaration on a facilities plan or section 208 plan shall be prepared according to § 6.212. Once a negative declaration and environmental appraisal have been prepared for the facilities plan for a certain area, grant awards may proceed without preparation of additional negative declarations, unless the project has changed significantly from that described in the facilities plan.

§ 6.514 Content of environmental impact statements.

EIS's for treatment works or plans shall be prepared according to § 6.304.

Subpart F—Guidelines for Compliance With NEPA in Research and Development Programs and Activities

§ 6.600 Purpose.

This subpart amplifies the general EPA policies and procedures described in Subparts A through D by providing procedures for compliance with NEPA on actions undertaken by the Office of Research and Development (ORD).

§ 6.602 Definitions.

(a) "Work plan." A document which defines and schedules all projects required to fulfill the objectives of the program plan.

(b) "Program plan." An overall planning document for a major research area which describes one or more research objectives, including outputs and target completion dates, as well as person-year and dollar resources.

(c) "Appropriate program official." The official at each decision level within ORD to whom the Assistant Administrator delegates responsibility for NEPA compliance.

(d) "Exemption certification." A certified statement delineating those actions specifically exempted from NEPA compliance by existing legislation.

§ 6.604 Applicability.

The requirements of this subpart are applicable to administrative actions undertaken to approve program plans, work plans, and projects, except those plans and projects excluded by existing legislation. However, no administrative actions are excluded from the additonal procedures in § 6.214 of this part concerning historic sites, wetlands, coastal zones, wild and scenic rivers, floodplains or fish and wildlife.

§ 6.606 Criteria for determining when to prepare EIS's.

(a) An EIS shall be prepared by ORD when any of the criteria in § 6.200 apply or when:

(1) The action will have significant adverse impacts on public parks, wetlands, floodplains, coastal zones, wildlife habitats, or areas of recognized scenic or recreational value.

(2) The action will significantly deface an existing residential area.

(3) The action may directly or through induced development have a significant adverse effect upon local ambient air quality, local ambient noise levels, surface or groundwater quality; and fish, wildlife or their natural habitats.

(4) The treated effluent is being discharged into a body of water where the present classification is being challenged as too low to protect present or recent uses, and the effluent will not be of sufficient quality to meet the requirements of these uses.

(5) The project consists of field tests involving the introduction of significant quantities of: toxic or polluting agricultural chemicals, animal wastes, pesticides, radioactive materials, or other hazardous substances into the environment by ORD, its grantees or its contractors.

(6) The action may involve the introduction of species or subspecies not indigenous to an area.

(7) There is a high probability of an action ultimately being implemented on a large scale, and this implementation may result in significant environmental impacts.

(8) The project involves commitment to a new technology which is significant and may restrict future viable alternatives.

(b) An EIS will not usually be needed when:

(1) The project is conducted completely within a laboratory or other facility, and external environmental effects have been minimized by methods for disposal of laboratory wastes and safeguards to prevent hazardous materials entering the environment accidentally; or

(2) The project is a relatively small experiment or investigation that is part of a non-Federally funded activity of the private sector, and it makes no significant new or additional contribution to existing pollution.

§ 6.610 Procedures for compliance with NEPA.

EIS related activities for compliance with NEPA will be integrated into the decision levels of ORD's research planning system to assure managerial control. This control includes those administrative actions which do not come under the applicability of this subpart by assuring that they are made the subject of an exemption certification and filed with the Office of Public Affairs (OPA). ORD's internal procedures provide details for NEPA compliance.

(a) *Environmental assessment.* (1) Environmental assessments shall be submitted with all grant applications and all unsolicited contract proposals. The assessment shall contain the same information required for EIS's in § 6.304. Copies of § 6.304 (or more detailed guidance when available) and a notice of the requirement for assessment shall be included in all grant application kits and attached to letters concerning the submission of unsolicited proposals.

(2) In the case of competitive contracts, assessments need not be submitted by potential contractors since the NEPA procedures must be completed before a request for proposal (RFP) is issued. If there is a question concerning the need for an assessment, the potential contractor should contact the official responsible for the contract.

(b) *Environmental review.* (1) At the start of the planning year, an environmental review will be performed for each program plan with its supporting substructures (work plans and projects) before incorporating them into the ORD program planning system, unless they are excluded from review by existing legislation. This review is an evaluation of the potentially adverse environmental effects of the efforts required by the program plan. The criteria in § 6.608 shall be used in conducting this review. Each program plan with its supporting substructures which does not have significant adverse impacts may be dismissed from further current year environmental considerations with a single negative declaration. Any supporting substructures of a program plan which cannot be dismissed with the parent plan shall be reviewed at the appropriate subordinate levels of the planning system for NEPA compliance.

(i) All continuing program plans and supporting substructures, including those previously dismissed from consideration, will be reevaluted annually for NEPA compliance. An environmental review will coincide with the annual planning cycle and whenever a major redirection of a parent plan is undertaken. All NEPA-associated documents will be updated as appropriate.

(ii) All approved program plans and supporting substructures, less budgetary data, will be filed in the OPA with a notice of intent or negative declaration and environmental appraisal.

(iii) Later plans and/or projects, added to fulfill the mission objectives but not identified at the time the program plans were approved, will be subjected to the same NEPA requirements for environmental assessments and/or reviews.

(iv) Those projects subjected to environmental assessments as outlined in paragraph (a) of this section and not exempt under existing legislation also shall undergo an environmental review before work begins.

(c) *Notice of intent and EIS.*

(1) If the reviews conducted according to paragraph (b) of this section reveal a potentially significant adverse effect on the environment and the adverse impact cannot be eliminated by replanning, the appropriate program official shall, after making sure the project is to be funded, issue a notice of intent according to § 6.206, and through proper organizational channels, shall request the Regional Administrator to assist him in the preparation and distribution of the EIS.

(2) As soon as possible after release of the notice of intent, the appropriate program official shall prepare a draft EIS using the criteria in Subpart B, § 6.208 and Subpart C. Through proper organizational channels, he shall request the Regional Administrator to assist him in the preparation and distribution of the draft EIS.

(3) The appropriate program official shall prepare final EIS's according to criteria in Subpart B, § 6.210 and Subpart C.

(4) All draft and final EIS's shall be sent through the proper organizational channels to the Assistant Administrator for ORD for approval. The approved statements then will be distributed according to the procedures in Appendix C.

(d) *Negative declaration and environmental impact appraisal.* If an environmental review conducted according to paragraph (b) of this section reveals that proposed actions will not have significant adverse environmental impacts, the appropriate program official shall prepare a negative declaration and environmental impact appraisal according to Subpart B, § 6.212. Upon assurance that the program will be funded, the appropriate program official shall distribute the negative declaration as described in § 6.212 and make copies of the negative declaration and appraisal available in the OPA.

(e) *Project start.* As required by § 6.108, a contract or grant shall not be awarded for an extramural project, nor for continuation of what was previously an intramural project, until at least fifteen (15) working days after a negative declaration has been issued or thirty (30) days after forwarding the final EIS to the Council on Environmental Quality.

Subpart G—Guidelines for Compliance With NEPA in Solid Waste Management Activities

§ 6.700 Purpose.

This subpart amplifies the general policies and procedures described in Subparts A through D by providing additional procedures for compliance with NEPA on actions undertaken by the Office of Solid Waste Management Programs (OSWMP).

§ 6.702 Criteria for the preparation of environmental assessments and EIS's.

(a) *Assessment preparation criteria.* An environmental assessment need not be submitted with all grant applications and contract proposals. Studies and investigations do not require assessments. The following sections describe when an assessment is or is not required for other actions:

(1) *Grants.* (i) *Demonstration projects.* Environmental assessments must be submitted with all applications for demonstration grants that will involve construction, land use (temporary or permanent), transport, sea disposal, any discharges into the air or water, or any other activity having any direct or indirect effects on the environment external to the facility in which the work will be conducted. Preapplication proposals for these grants will not require environmental assessments.

(ii) *Training.* Grant applications for training of personnel will not require assessments.

(iii) *Plans.* Grant applications for the development of comprehensive State, interstate, or local solid waste management plans will not require environmental assessments. A detailed analysis of environmental problems and effects should be part of the planning process, however.

(2) *Contracts.* (i) *Sole-source contract proposals.* Before a sole-source contract can be awarded, an environmental assessment must be submitted with a bid proposal for a contract which will involve construction, land use (temporary or permanent), sea disposal, any discharges into the air or water, or any other activity that will directly or indirectly affect the environment external to the facility in which the work will be performed.

(ii) *Competitive contract proposals.* Assessments generally will not be required on competitive contract proposals.

(b) *EIS preparation criteria.* The responsible official shall conduct an environmental review on those OSWMP projects on which an assesment is required or which may have effects on the environment external to the facility in which the work will be performed. The criteria in § 6.200 shall be utilized in determining whether an EIS need be prepared.

§ 6.704 Procedures for compliance with NEPA.

(a) *Environmental assessment.* (1) Environmental assessments shall be submitted to EPA according to procedures in § 6.702. If there is a question concerning the need for an assessment, the potential contractor or grantee should consult with the appropriate project officer for the grant or contract.

(2) The assessment shall contain the same sections specified for EIS's in § 6.304. Copies of § 6.304 (or more detailed guidance when available) and a notice alerting potential grantees and contractors of the assessment requirements in § 6.702 shall be included in all grant application kits, attached to letters concerning the submission of unsolicited proposals, and included with all RFP's.

(b) *Environmental review.* An environmental review will be conducted on all projects which require assessments or which will affect the environment external to the facility in which the work will be performed. This review must be conducted before a grant or contract award is made on an extramural project or before an intramural project begins. The guidelines in § 6.200 will be used to determine if the project will have any significant environmental effects. This review will include an evaluation of the assessment by both the responsible official and the appropriate Regional Administrator. The Regional Administrator's comments will include his recommendations on the need for an EIS. No detailed review or documentation is required on projects for which assessments are not required and which will not affect the environment external to a facility.

(c) *Notice of intent and EIS.* If any of the criteria in § 6.200 apply, the responsible official will assure that a notice

V 40 172 APR 14 75 XUM

of intent and a draft EIS are prepared. The responsible official may request the appropriate Regional Administrator to assist him in the distribution of the NEPA-associated documents. Distribution procedures are listed in Appendix C.

(d) *Negative declaration and environmental impact appraisal.* If the environmental review indicated no significant environmental impacts, the responsible official will assure that a negative declaration and environmental appraisal are prepared. These documents need not be prepared for projects not requiring an environmental review.

(e) The EIS process for the Office of Solid Waste Management Programs is shown graphically in Exhibit 7.

Subpart H—Guidelines for Compliance With NEPA in Construction of Special Purpose Facilities and Facility Renovations

§ 6.800 Purpose.

This subpart amplifies general EPA policies and procedures described in Subparts A through D by providing detailed procedures for the preparation of EIS's on construction and renovation of special purpose facilities.

§ 6.802 Definitions.

(a) "Special purpose facility." A building or space, including land incidental to its use, which is wholly or predominantly utilized for the special purpose of an agency and not generally suitable for other uses, as determined by the General Services Administration.

(b) "Program of requirements." A comprehensive document (booklet) describing program activities to be accomplished in the new special purpose facility or improvement. It includes architectural, mechanical, structural, and space requirements.

(c) "Scope of work." A document similar in content to the program of requirements but substantially abbreviated. It is usually prepared for small-scale projects.

§ 6.804 Applicability.

(a) *Actions covered.* These guidelines apply to all new special purpose facility construction, activities related to this construction (e.g., site acquisition and clearing), and any improvements or modifications to facilities having potential environmental effects external to the facility, including new construction and improvements undertaken and funded by the Facilities Management Branch, Facilities and Support Services Division, Office of Administration; by a regional office; or by a National Environmental Research Center.

(b) *Actions excluded.* This subpart does not apply to those activities of the Facilities Management Branch, Facilities and Support Services Division, for which the branch does not have full fiscal responsibility for the entire project. This includes pilot plant construction, land acquisition, site clearing and access road construction where the Facilities Management Branch's activity is only supporting a project financed by a program office. Responsibility for considering the environmental impacts of such projects rests with the office managing and funding the entire project. Other subparts of this regulation apply depending on the nature of the project.

§ 6.808 Criteria for the preparation of environmental assessments and EIS's.

(a) *Assessment preparation criteria.* The responsible official shall request an environmental assessment from a construction contractor or consulting architect/engineer employed by EPA if he is involved in the planning, construction or modification of special purpose facilities when his activities have potential environmental effects external to the facility. Such modifications include but are not limited to: facility additions, changes in central heating systems or wastewater treatment systems, and land clearing for access roads and parking lots.

(b) *EIS preparation criteria.* The responsible official shall conduct an environmental review of all actions involving construction of special purpose facilities and improvements to these facilities. The guidelines in § 6.200 shall be used to determine whether an EIS shall be prepared.

§ 6.810 Procedures for compliance with NEPA.

(a) *Environmental review and assessment.* (1) An environmental review shall be conducted when the program of requirements or scope of work has been completed for the construction, improvement, or modification of special purpose facilities. For special purpose facility construction, the Chief, Facilities Management Branch, shall request the assistance of the appropriate program office and Regional Administrator in the review. For modifications and improvements, the appropriate responsible official shall request assistance in making the review from other cognizant EPA offices.

(2) Any assessments requested shall contain the same sections listed for EIS's in § 6.304. Contractors and consultants shall be notified in contractual documents when an assessment must be prepared.

(b) *Notice of intent, EIS, and negative declaration.* The responsible official shall decide at the completion of the environmental review whether there may be any significant environmental impacts. If there could be significant environmental impacts, a notice of intent and an EIS shall be prepared according to the procedures in § 6.206. If there may not be any significant environmental impacts, a negative declaration and environmental impact appraisal shall be prepared according to the procedures in § 6.212.

(c) *Project start.* As required by § 6.108, a contract shall not be awarded or construction-related activities begun until at least fifteen (15) working days after release of a negative declaration, or until thirty (30) days after forwarding the final EIS to the Council on Environmental Quality.

EXHIBIT 1

NOTICE OF INTENT TRANSMITTAL MEMORANDUM SUGGESTED FORMAT

_____ (Date)

ENVIRONMENTAL PROTECTION AGENCY

_____ (Appropriate Office)

_____ (Address, City, State, Zip Code)

To All Interested Government Agencies and Public Groups:

As required by guidelines for the preparation of environmental impact statements (EIS's), attached is a notice of intent to prepare an EIS for the proposed EPA action described below:

_____ (Official Project Name and Number)

_____ (City, State)

If your organization needs additional information or wishes to participate in the preparation of the draft EIS, please advise the (appropriate office, city, State).

Very truly yours,

_____ (Appropriate EPA Official)

(List Federal, State, and local agencies to be solicited for comment.)

(List public action groups to be solicited for comment.)

NOTICE OF INTENT SUGGESTED FORMAT

NOTICE OF INTENT—ENVIRONMENTAL PROTECTION AGENCY

1. Project location:
   City _____
   County _____
   State _____
2. Proposed EPA action:
   _____
   _____
   _____
3. Issues involved:
   _____
   _____
   _____
   _____
4. Estimated project costs:
   Federal Share (total)_____ $_____
   Contract $_____ Grant $_____ Other $_____
   Applicant share (if any):
   (Name) _____$_____
   Other (specify)_____$_____
   Total _____$_____
5. Period covered by project:
   Start date:_____
   (Original date, if project covers more than one year)
   Dates of different project phases:_____
   Approximate end date:_____
6. Estimated application filing date:_____

EXHIBIT 2

PUBLIC NOTICE AND NEWS RELEASE SUGGESTED FORMAT

PUBLIC NOTICE

The Environmental Protection Agency (originating office) (will prepare, will not prepare, has prepared) a (draft, final) environmental impact statement on the following project:

_____ (Official Project Name and Number)

_____ (Purpose of Project)

_____ (Project Location, City, County, State)

_____ (Where EIS or negative declaration and environmental impact appraisal can be obtained)

This notice is to implement EPA's policy of encouraging public participation in the decision-making process on proposed EPA actions. Comments on this document may be submitted to (full address of originating office).

EXHIBIT 3

NEGATIVE DECLARATION SUGGESTED FORMAT

_____ (Date)

ENVIRONMENTAL PROTECTION AGENCY

_____ (Appropriate Office)

_____ (Address, City, State, Zip Code)

To All Interested Government Agencies and Public Groups:

As required by guidelines for the preparation of environmental impact statements (EIS's), an environmental review has been performed on the proposed EPA action below:

_____ (Official Project Name and Number)

_____ (Potential Agency Financial Share)

_____ (Project Location: City, County, State)

_____ (Other Funds Included)

PROJECT DESCRIPTION, ORIGINATOR, AND PURPOSE

(Include a map of the project area and a brief narrative summarizing the growth the project will serve, the percent of vacant land the project will serve, major primary and secondary impacts of the project, and the purpose of the project.)

The review process did not indicate significant environmental impacts would result from the proposed action or significant adverse impacts have been eliminated by making changes in the project. Consequently, a preliminary decision not to prepare an EIS has been made.

This action is taken on the basis of a careful review of the engineering report, environmental impact assessment, and other supporting data, which are on file in the above office with the environmental impact appraisal and are available for public scrutiny upon request. Copies of the environmental impact appraisal will be sent at cost on your request.

Comments supporting or disagreeing with this decision may be submitted for consideration by EPA. After evaluating the comments received, the Agency will make a final decision; however, no administrative action will be taken on the project for at least fifteen (15) working days after release of the negative declaration.

Sincerely,

_____ (Appropriate EPA Official)

EXHIBIT 4

ENVIRONMENTAL IMPACT APPRAISAL SUGGESTED FORMAT

A. Identify Project.
   Name of Applicant:_____
   Address: _____
   Project Number:_____

B. Summarize Assessment.
   1. Brief description of project:_____
   _____
   2. Probable impact of the project on the environment: _____
   _____
   _____
   3. Any probable adverse environmental effects which cannot be avoided:_____
   _____
   4. Alternatives considered with evaluation of each:_____
   _____
   _____
   5. Relationship between local short-term uses of man's environment and maintenance and enhancement of long-term productivity: _____
   _____
   6. Steps to minimize harm to the environment: _____
   _____
   7. Any irreversible and irretrievable commitment of resources:_____
   _____
   8. Public objections to project, if any, and their resolution: _____
   _____
   9. Agencies consulted about the project: _____
   _____
   State representative's name:_____
   Local representative's name:_____
   Other: _____

C. Reasons for concluding there will be no significant impacts.

_____ (Signature of appropriate official) (Date)

EXHIBIT 5

EXHIBIT 7

FLOWCHART FOR OSWDP

PROCEDURE FOR DETERMINING IF AN EIS IS REQUIRED ON OSWDP PROJECTS

APPENDIX A

CHECKLIST FOR ENVIRONMENTAL REVIEWS

Areas to be considered, when appropriate, during an environmental review include, but are not limited to, the items on this checklist, based on Appendix II of the CEQ guidelines for the preparation of environmental impact statements which appeared in the FEDERAL REGISTER August 1, 1973. The classification of items is not mandatory.

I. *Natural environment.* Consider the impacts of a proposed action on air quality, water supply and quality, soil conservation and hydrology, fish, and wildlife populations, fish and wildlife habitats, solid waste disposal, noise levels, radiation, and hazardous substances use and disposal.

II. *Land use planning and management.* Consider the impacts of a proposed action on energy supply and natural resources development; protection of environmentally critical areas, such as floodplains, wetlands, beaches and dunes, unstable soils, steep slopes and aquifer recharge areas, coastal area land use; and redevelopment and construction in built-up areas.

III. *Socioeconomic environment.* Consider the impacts of a proposed action on population density changes, congestion mitigation, neighborhood character and cohesion, low income populations, outdoor recreation, industrial/commercial/residential development and tax ratables, and historic, architectural and archaeological preservation.

APPENDIX B

RESPONSIBILITIES

I. *General responsibilities.* (a) *Responsible official.* (1) Requires contractors and grantees to submit environmental assessments and related documents needed to comply with NEPA, and assures environmental reviews are conducted on proposed EPA projects at the earliest possible point in EPA's decision-making process.

(2) When required, assures that draft EIS's are prepared and distributed at the earliest possible point in EPA's decision-making process, their internal and external review is coordinated, and final EIS's are prepared and distributed.

(3) When an EIS is not prepared, assures that negative declarations and environmental appraisals are prepared and distributed for those actions requiring them.

(4) Consults with appropriate officials identified in § 6.214 of this part.

(5) Consults with the Office of Federal Activities on actions involving unresolved conflicts with other Federal agencies.

(b) *Office of Federal Activities.* (1) Provides EPA with policy guidance and assures that EPA offices establish and maintain adequate administrative procedures to comply with this part.

(2) Monitors the overall timeliness and quality of the EPA effort to comply with this part.

(3) Provides assistance to responsible officials as required.

(4) Coordinates the training of personnel involved in the review and preparation of EIS's and other NEPA-associated documents.

(5) Acts as EPA liaison with the Council on Environmental Quality and other Federal and State entities on matters of EPA policy and administrative mechanisms to facilitate external review of EIS's, to determine lead agency and to improve the uniformity of the NEPA procedures of Federal agencies.

(6) Advises the Administrator and Deputy Administrator on projects which involve more than one EPA office, are controversial, are nationally significant, or "pioneer" EPA policy, when these projects have had or should have an EIS prepared on them.

(c) *Office of Public Inquiries.* Assists the Office of Federal Activities and responsible officials by answering the public's queries on the EIS process and on specific EIS's and by directing requests for copies of specific documents to the appropriate regional office or program.

(d) *Office of Public Affairs.* Analyzes the present procedures for public participation, and develops and recommends to the Office of Federal Activities a program to improve those procedures and increase public participation.

(e) *Regional Office Division of Public Affairs.* (1) Assists the responsible official or his designee on matters pertaining to negative declarations, notices of intent, press releases, and other public notification procedures.

(2) Assists the responsible official or his designee by answering the public's queries on the EIS process and on specific EIS's, and by filling requests for copies of specific documents.

(f) *Offices of the Assistant Administrators and Regional Administrators.* (1) Provides specific policy guidance to their respective offices and assures that those offices establish and maintain adequate administrative procedures to comply with this part.

(2) Monitors the overall timeliness and quality of their respective office's efforts to comply with this part.

(3) Acts as liaison between their offices and the Office of Federal Activities and between their offices and other Assistant Administrators or Regional Administrators on matters of agencywide policy and procedures.

(4) Advises the Administrator and Deputy Administrator through the Office of Federal Activities on projects or activities within their respective areas of responsibilities which involve more than one EPA office, are controversial, are nationally significant, or "pioneer" EPA policy, when these projects have had or should have an EIS prepared on them.

(g) *The Office of Legislation.* (1) Provides the necessary liaison with Congress.

(2) Coordinates the preparation of EIS's required on reports or legislation originating outside EPA. (See § 6.106(d)).

(h) *The Office of Planning and Evaluation.* Coordinates the preparation of EIS's required on EPA legislative proposals. (See § 6.106 (d)).

II. *Responsibilities for Title II Construction Grants Program (Subpart E).* (a) *Responsible official.* The responsible official for EPA actions covered by this subpart is the Regional Administrator. The responsibilities

of the Regional Administrator in addition to those in Appendix B.I. are to:

(1) Assist the Office of Federal Activities in coordinating the training of personnel involved in the review and preparation of NEPA-associated documents.

(2) Require grant applicants and those who have submitted plans for approval to provide the information the regional office requires to comply with these guidelines.

(3) Consult with the Office of Federal Activities concerning works or plans which significantly affect more than one regional office, are controversial, are of national significance or "pioneer" EPA policy, when these works have had or should have had an EIS prepared on them.

(b) *Assistant Administrator.* The responsibilities of the Office of the Assistant Administrator, as described in Appendix B.I, shall be assumed by the Assistant Administrator for Water and Hazardous Materials for EPA actions covered by this subpart.

(c) Oil and Special Materials Control Division, Office of Water Program Operations, coordinates all activities and responsibilities of the Office of Water Program Operations concerned with preparation and review of EIS's. This includes providing technical assistance to the Regional Administrators on EIS's and assisting the Office of Federal Activities in coordinating the training of personnel involved in the review and preparation of NEPA-associated documents.

(d) *Public Affairs Division, Regional Offices.* The responsibilities of the regions' Public Affairs Divisions, in addition to those in Appendix B.I, are to:

(1) Assist the Regional Administrator in the preparation and dissemination of NEPA-associated documents.

(2) Collaborate with the Headquarters Office of Public Affairs to analyze procedures in the regions for public participation and to develop and recommend to the Office of Federal Activities a program to improve those procedures.

III. *Responsibilities for Research and Development Programs (Subpart F).* The Assistant Administrator for Research and Development, in addition to those responsibilities outlined in Appendix B.I(a), will also assume the responsibilities described in Appendix B.I(f).

IV. *Responsibilities for Solid Waste Management Programs (Subpart G).* (a) *Responsible Official.* The responsible official for EPA actions covered by this subpart is the Deputy Assistant Administrator for Solid Waste Management Programs. The responsibilities of this official, in addition to those in Appendix B.I(a), are to:

(1) Assist the Office of Federal Activities in coordinating the training of personnel involved in the review and preparation of all NEPA-associated documents.

(2) Advise the Assistant Administrator for Air and Waste Management concerning projects which significantly affect more than one regional office, are controversial, are nationally significant, or "pioneer" EPA policy.

V. *Responsibilities for Special Purpose Facilities and Facility Renovation Programs (Subpart H).*

(a) *Responsible official.* The responsible official for new construction and modification of special purpose facilities is as follows:

(1) The Chief, Facilities Management Branch, Data and Support Systems Division, shall be the responsible official on all new construction of special purpose facilities and on all improvement and modification projects for which the Facilities Management Branch has received a funding allowance.

(2) The Regional Administrator shall be the responsible official on all improvement and modification projects for which the regional office has received the funding allowance.

(3) The Center Directors shall be the responsible officials on all improvement and modification projects for which the National Environmental Research Centers have received the funding allowance.

(b) The responsibilities of the responsible officials, in addition to those in Appendix B.I, are to:

(1) Ensure that environmental assessments are submitted when requested, that environmental reviews are conducted on all projects, and EIS's are prepared and circulated when there will be significant impacts.

(2) Assist the Office of Federal Activities in coordinating the training of personnel involved in the review and preparation of NEPA-associated documents.

APPENDIX C

DISTRIBUTION AND AVAILABILITY OF DOCUMENTS

I. *Negative Declaration.* (a) The responsible official shall distribute two copies of each negative declaration to:

(1) The appropriate Federal, State and local agencies and to the appropriate State and areawide clearinghouses.

(2) The Office of Legislation, the Office of Public Affairs and the Office of Federal Activities.

(3) The headquarters EIS coordinator for the program office originating the document. When the originating office is a regional office and the action is related to water quality management, one copy should be forwarded to the Oil and Special Materials Control Division, Office of Water Program Operations.

(b) The responsible official shall distribute one copy of each negative declaration to:

(1) Local newspapers and other local mass media.

(2) *Interested persons on request.* If it is not practical to send copies to all interested persons, make the document available through local libraries or post offices, and notify individuals that this action has been taken.

(c) The responsible official shall have a copy of the negative declaration and any documents supporting the negative declaration available for public review at the originating office.

II. *Environmental Impact Appraisal.* (a) The responsible official shall have the environmental impact appraisal available when the negative declaration is distributed and shall forward one copy to the headquarters EIS coordinator for the program office originating the document and to any other Federal or State agency which requests a copy.

(b) The responsible official shall have a copy of the environmental impact appraisal available for public review at the originating office and shall provide copies at cost to persons who request them.

III. *Notice of Intent.* (a) The responsible official shall forward one copy of the notice of intent to:

(1) The appropriate Federal, State and local agencies and to the appropriate State, regional and metropolitan clearing houses.

(2) Potentially interested persons.

(3) The Offices of Federal Activities, Public Affairs and Legislation.

(4) The headquarters Grants Administration Division, Grants Information Branch.

(5) The headquarters EIS coordinator for the program office originating the notice. When the originating office is a regional office and the action is related to water quality management, one copy should be forwarded to the Oil and Special Materials Control Division, Office of Water Program Operations.

IV. *Draft EIS's.* (a) The responsible official shall send two copies of the draft EIS to:

(1) The Office of Federal Activities.

(2) The headquarters EIS coordinator for the program office originating the document. When the originating office is a regional office and the project is related to water quality management, send two copies to the Oil and Special Materials Control Division, Office of Water Program Operations.

(b) If none of the above offices requests any changes within ten (10) working days after notification, the responsible official shall:

(1) Send five copies of the draft EIS to CEQ.

(2) Send two copies of the draft EIS to the Office of Public Affairs and to the Office of Legislation.

(3) Send two copies of the draft EIS to the appropriate offices of reviewing Federal agencies that have special expertise or jurisdiction by law with respect to any impacts involved. CEQ's guidelines (40 CFR 1500.9 and Appendices II and III) list those agencies to which draft EIS's will be sent for official review and comment.

(4) Send two copies of the draft EIS to the appropriate Federal, State, regional and metropolitan clearinghouses.

(5) Send one copy of the draft EIS to public libraries in the project area and interested persons. Post offices, city halls or courthouses may be used as distribution points if public library facilities are not available.

(c) The responsible official shall make a copy of the draft EIS available for public review at the originating office and at the Office of Public Affairs.

V. *Final EIS.* (a) The responsible official shall distribute the final EIS to the following offices, agencies and interested persons:

(1) Five copies to CEQ.

(2) Two copies to the Office of Public Affairs, Legislation and Federal Activities.

(3) Two copies to the headquarters EIS coordinator for the program office originating the document.

(4) One copy to Federal, State and local agencies and interested persons who made substantive comments on the draft EIS or requested a copy of the final EIS.

(5) One copy to a grant applicant.

(b) The responsible official shall make a copy of the final EIS available for public review at the originating office and at the Office of Public Affairs.

VI. *Legislative EIS.* Copies of the legislative EIS shall be distributed by the responsible official according to the procedures in section IV(b) of this appendix. In addition, the responsible official shall send two copies of the EIS to the Office of Federal Activities and the EIS coordinator of the originating office.

an invaluable reference tool

1974–75 Edition

This official guidebook provides useful information about U.S. Government agencies, including:

- Major programs and functions
- Listings of key officials
- Organization charts for many agencies

Most agency descriptions include a "Sources of Information" section that gives addresses and telephone numbers for obtaining specifics on employment, government contracts, environmental programs, small business opportunities, publications, speakers and films available to civic and educational groups, and other topics of public interest.

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

NOTE: There are no items eligible for inclusion in the list of RULES GOING INTO EFFECT.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

PROCLAMATION 4367

Small Business Week, 1975

By the President of the United States of America

A Proclamation

Small business has been a vital part of American life from the very beginning. The colonial traders, craftsmen and merchants of two centuries ago have been replaced by an enormous range of dealers in goods and services of all kinds, but the original opportunity, and the determination to excel, remain. Small business in America is still the free enterprise system's gateway to opportunity—the means by which millions of Americans continue to build a better life for themselves and their families.

Out of the estimated 9.7 million businesses in America today, more than 9 million are small. They account for nearly half of the gross business product and more than half of the business labor force. Our American success story could never have been achieved, and would not continue, without this impressive contribution by small business.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby designate the week beginning May 25, 1975, as Small Business Week. I ask all Americans to share with me during this week a solemn pride in the great achievements of our Nation's small business men and women, and in the contributions they have made to our free way of life.

IN WITNESS WHEREOF, I have hereunto set my hand this fourteenth day of April, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

Gerald R. Ford

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 2]

PART 728—WHEAT

Subpart—Wheat Program for Crop Years 1974–77

1976 WHEAT ALLOTMENT

On February 19, 1975, a notice of proposed rule making regarding determinations with respect to the 1976 national allotment for wheat was published in the FEDERAL REGISTER (40 FR 7099). Interested persons were invited to submit written data, views and recommendations regarding the determinations. The comments and recommendations received have been duly considered.

A new § 728.4b is issued in accordance with the Agricultural Adjustment Act of 1938, as amended, to determine and proclaim the 1976 national allotment for wheat.

Pursuant to section 379c(a)(1) of the Agricultural Adjustment Act of 1938, as amended by the Agriculture and Consumer Protection Act of 1973, the Secretary is required to proclaim a national wheat acreage allotment not later than April 15 of each calendar year for the crop harvested in the next succeeding calendar year. Such allotment shall be the number of acres he determines on the basis of the estimated national average yield for the crop for which the determination is being made will produce the quantity (less imports) that he estimates will be utilized domestically and for export during the marketing year for such crop. If the Secretary determines that carryover stocks are excessive or an increase in stocks is needed to assure a desirable carryover, he may adjust the allotment by the amount he determines will accomplish the desired decrease or increase in carryover stocks.

The determination in § 728.4b of the 1976 national wheat allotment is based on the estimated yield and usage set out therein. The determination has been made on the basis of the latest available statistics of the Federal Government.

Part 728 is amended by adding a new § 728.4b to read as follows:

§ 728.4b 1976 national wheat allotment.

Based on an estimated national yield of 33.1 bushels per acre and estimated total utilization (less imports) for the 1976–77 marketing year of 2,040 million bushels, the 1976 national wheat allotment is determined to be 61.6 million acres and a national allotment of that amount is hereby proclaimed. The estimated total utilization (less estimated imports of 1 million bushels) is based on estimated domestic use of 841 million bushels and estimated exports of 1,200 million bushels. Since carryover stocks at the end of the marketing year will be adequate but not excessive, no adjustment in the allotment for the purpose of increasing or decreasing carryover stocks was determined to be necessary.

(Sec. 379c, 87 Stat. 227, (7 U.S.C. § 1379c))

Effective date. This amendment shall be effective April 15, 1975.

Signed at Washington, D.C. on April 10, 1975.

EARL L. BUTZ,
Secretary of Agriculture.

[FR Doc.75-9795 Filed 4-14-75;8:45 am]

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Q]

PART 217—INTEREST ON DEPOSITS

Withdrawal of Savings Deposits by Telephone

The Board has re-examined the issue of the manner in which member banks may accept instructions from owners of savings deposits. Upon review of this issue and in light of technological innovations which minimize the problems of record-keeping and security, the Board has decided to rescind its policy, announced in 1936, against withdrawals from savings accounts by telephone (1936 Fed. Res. *Bulletin* 624).

Part 217 is amended by adding the following new section:

§ 217.152 Withdrawals of savings deposits by telephone.

(a) The Board of Governors has been asked to reconsider its view, adopted in 1936, that a member bank may not permit a depositor to withdraw funds from his savings account by means of a telephone or other oral order (1936 Fed. Res. *Bulletin* 624). That position was based upon the Board's concern for member bank security and also upon its concern that unrestricted telephone access to savings accounts might lead depositors to treat such accounts as extensions of their checking accounts and destroy the distinction between the accounts.

(b) The Board has studied the telephone withdrawal systems currently being developed by several member banks and feels that the security and record-keeping devices made possible by new technology and incorporated into these systems will keep errors and unauthorized use to a minimum.

(c) The Board recognizes that the telephone has become an accepted medium for transmitting financial data and that the telephone merely provides the customer with an additional method of communicating instructions regarding his account to his bank. In fact, numerous other depository institutions including nonmember commercial banks and savings and loan associations have for some time been permitted to offer telephone withdrawal services.

Therefore, the Board withdraws its policy against the offering of telephone withdrawal services while advising member banks to safeguard such transfers with proper procedures and internal control.

(Interprets and applies 12 U.S.C. 371b)

By order of the Board of Governors, effective April 7, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-9710 Filed 4-14-75;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75-CE-8-AD; Amdt. 39-2171]

PART 39—AIRWORTHINESS DIRECTIVES

Beech Pressurized Model 65, 90 and 100 Series Airplanes

There have been instances of window failures and subsequent cabin depressurization in Beech Model 90 and 100 series airplanes. Since this condition is likely to exist or develop in other airplanes of the same type design, an Airworthiness Directive (AD) is being issued applicable to Beech Pressurized Model 65, 90 and 100 series airplanes with two or more years time in service, which requires inspection of the windows for crazing and cracks within the next 50 hours' time in service, recurrent inspections and replacement of windows where cracks exceed specified criteria. The AD further provides that the cabin pressurization system must be deactivated until defective windows are replaced.

Since a situation exists which requires expeditious adoption of the amendment,

V 40 I 73 APR 15 75 XUM

notice and public procedure hereon are impracticable and good cause exists for making the amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new AD.

BEECH. Applies to Beech Models 65–88, 65–90, 65–A90, B90, C90, E90, 100 and A100 series airplanes with two or more years time in service.

Compliance: Required as indicated, unless already accomplished.

To prevent decompression resulting from window failure, within the next 50 hours' time in service after the effective date of this AD, accomplish the following:

(A) 1. Visually inspect each round cabin window and each non-openable side window in the crew compartment for crazing and cracks in accordance with the procedures and sketches in Beechcraft Service Instruction 0711–110 or later approved revisions.

2. If, as a result of these inspections, a crack or craze is discovered that is ¾ inch in length or greater, replace the window prior to further flight in accordance with the aforementioned service instruction, or alternatively deactivate the cabin pressurization system as follows:

a. Secure the "Test/Dump" switch in the "Dump" position.

b. Install a placard on the control panel adjacent to the pressurization system controls which reads:

"CABIN PRESSURIZATION PROHIBITED"

and operate the aircraft in accordance with this limitation.

c. Insert a copy of this AD in the "Limitations" section of the airplane flight manual.

3. For windows with cracks or craze lengths less than ¾ inch, reinspect in accordance with Paragraph (A)1 at 100 hour intervals and accomplish Paragraph (A)2 as applicable.

4. Reinspect windows without cracks or crazes in accordance with Paragraph A above at 500 hour intervals.

NOTE: Windows with minor scratches (less than .030 inches in depth) need not be replaced but the scratches should be removed in accordance with the aforementioned Beechcraft Service Instructions.

(B) Any equivalent method of compliance or equivalent replacement parts must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

This amendment becomes effective April 21, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Kansas City, Missouri, on April 4, 1975.

C. R. MELUGIN, Jr.,
Director, Central Region.

[FR Doc.75-9721 Filed 4-14-75;8:45 am]

[Airworthiness Docket No. 75-WE-22-AD; Amdt. 39-2172]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed L-1011-385-1-193L Series Airplanes

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted on March 18, 1975, and distributed by telegram dated March 18, 1975, to the United States operator and owner of the Lockheed-California Company L-1011-385-1-193L Series airplanes involved. The directive imposes a limitation prohibiting the occupancy of the underfloor lower lounge until the conformity of the underfloor lower lounge floor boards and the related applicable components to the approved type design configuration is verified. The existing condition of non-conformity of the underfloor lower lounge design configuration results in degradation of structural integrity below the minimum acceptable level.

Since it was found that immediate corrective action was required, notice and public procedure hereon was impractical and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to the operator of Lockheed-California Company L-1011-385-1-193L series airplanes, Serial Numbers 1064, 1079, 1114, 1120 and 1125 by telegram dated March 18, 1975. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER to make it effective as to all persons.

LOCKHEED-CALIFORNIA COMPANY. Applies to L-1011-385-1-193L airplanes, Serial Nos. 1064, 1079, 1114, 1120, and 1125, certificated in all categories. After receipt of this AD, occupancy of the under floor lounge is prohibited until the conformity of the under floor lower lounge floor boards and the related applicable components is verified to establish adherence to the configuration defined by FAA Sealed Drawing List L-1011-385-1, No. 385-1, supplement entitled, "FAA List for Model L Peculiars" and "Model L Peculiars Drawing List Addendum," dated May 10, 1974, or FAA-approved equivalent configuration. The conformity inspection shall be accomplished by the Chief, Aircraft Engineering Division, FAA Western Region, or his authorized representative.

This amendment becomes effective April 21, 1975, for all persons except those to whom it was made effective by telegram, dated March 18, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, California on April 4, 1975.

LYNN L. HINK,
Acting Director,
FAA Western Region.

[FR Doc.75-9722 Filed 4-14-75;8:45 am]

[Airspace Docket No. 74-GL-54]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On Page 4153 of the FEDERAL REGISTER dated January 28, 1975, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation regulations so as to designate a transition area at Monee, Illinois.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective May 29, 1975.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois, on March 18, 1975.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.181 (39 FR 440), the following transition area is added:

MONEE, ILLINOIS

That airspace extending upward from 700 feet above the surface within a five mile radius of Sanger Airport (Latitude 41°22'39" N., Longitude 87°41'03" W.); within one and one-half miles either side of the 039° radial of the Peotone VORTAC extending from the five mile radius area to the VORTAC, excluding that portion that overlies the Chicago, Illinois transition area.

[FR Doc.75-9720 Filed 4-14-75;8:45 am]

Title 15—Commerce and Foreign Trade

CHAPTER IX—NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

PART 920—COASTAL ZONE MANAGEMENT PROGRAM DEVELOPMENT GRANTS

State Application Procedures

The National Oceanic and Atmospheric Administration on November 29, 1973, published final guidelines pursuant to section 305 of the Coastal Zone Management Act of 1972 (Pub. L. 92–583, 86 Stat. 1280), hereafter referred to as the "Act," for the purpose of defining the procedures by which states can qualify to receive development grants under section 305 of the Act and policies for development of their management programs.

The guidelines are for grants under section 305 to develop a management program that will meet the requirements of section 306 of the Act. Section 305 provides guidelines as to what must be considered in a management program while section 306 sets forth requirements that must be met before the Secretary can approve a state management program for administrative grants.

The National Oceanic and Atmospheric Administration is publishing herewith amendments to the section 305 regulations issued November 29, 1973 (15 CFR Part 920). The purpose for amending these regulations is to further clarify the application procedure used by a state in applying for section 305 development grant. Furthermore, these amendments have been promulgated on the basis of the Office of Coastal Zone Management's experience during the past year in reviewing and processing section 305 grant applications. The following amendments will more fully complement the section 306 regulations published January 9, 1975, in the FEDERAL REGISTER (15 CFR Part 923). These amendments shall become effective on April 15, 1975.

E. *Application for Development Grants.* Section 920.40 *General,* Published November 29, 1973, is hereby repealed and the following substituted therefore:

§ 920.40 General.

(a) The primary purpose of development grants made under Section 305 of the Act is to assist a state in developing a comprehensive management program for their coastal zone that can be approved by the Secretary. The purpose of these guidelines is to define clearly the processes by which grantees apply for and administer grants under the Act. These guidelines shall be used and interpreted in conjunction with the Grants Management Manual for Grants under the Coastal Zone Management Act, hereinafter referred to as the "Manual." This Manual contains procedures and guidelines for the administration of all grants covered under the Coastal Zone Management Act of 1972, as amended. It has been designed as a tool for grantees, although it also addresses the responsibilities of the National Oceanic and Atmospheric Administration and its Office of Coastal Zone Management, which is responsible for administering programs under the Act. The Manual incorporates a wide range of Federal requirements, including those established by the Office of Management and Budget, the General Services Administration, the Department of the Treasury, the General Accounting Office and the Department of Commerce. In addition to specific policy requirements of these agencies, the Manual includes recommended policies and procedures for a grantee to use in submitting a grant application. Inclusion of recommended policies and procedures for grantees does not limit the choice of grantees in selecting those most useful and applicable to local requirements and conditions. Grants given to the State must be expended for the development of a management program that meets the requirements of the Act. The grants shall not exceed two-thirds of the total cost of the development programs. Federal funds received from other sources cannot be used to match OCZM grants. No more than three annual management program development grants can be awarded to a State.

(b) Section 305(c) of the Act in part, provides:

In order to qualify for a grant under this section, the State must demonstrate to the satisfaction of the Secretary that such a grant will be used to develop a management program consistent with the requirements set forth in section 306 of the Act. After making the initial grant to a coastal State, no subsequent grant shall be made under this section unless the Secretary finds that the State is satisfactorily developing such a management program.

Section 920.45 *Application for the initial management program development grant,* Published November 29, 1973 is hereby repealed and the following substituted therefore:

§ 920.45 Application for the initial management program development grant.

(a) The Form CD–288, Preapplication for Federal Assistance, required only for the initial grant, should be submitted 120 days prior to the beginning date of the requested grant. The preapplication shall include documentation, signed by the Governor, designating the State office, agency or entity to apply for and administer the grant.

(b) All applications are subject to the provisions of OMB Circular A–95 (revised). The Form CD–288, Preapplication for Federal Assistance, will be transmitted to the appropriate clearinghouses at the time it is submitted to the Office of Coastal Zone Management (OCZM). If the application is determined to be Statewide or broader in nature, a statement to that effect shall be attached to the Preapplication form submitted to OCZM. Such a determination does not preclude the State clearinghouse from involving areawide clearinghouses in the review. In any event, whether the application is considered to be Statewide or not, the Preapplication form shall include an attachment indicating the date copies of the Preapplication form were transmitted to the State clearinghouse and if applicable, the identity of the areawide clearinghouse(s) receiving copies of the Preapplication form and the date(s) transmitted. The Preapplication form may be used to meet the project notification and review requirements of OMB Circular A–95 with the concurrence of the appropriate clearinghouses. In the absence of such concurrence the project notification and review procedures, established by State and areawide clearinghouses, should be implemented simultaneously with the distribution of the Preapplication form.

(c) Costs claimed as charges to the grant project must be beneficial and necessary to the objectives of the grant project. As used herein the terms costs and grant project pertain to both the Federal grant and the matching share. The allowability of costs will be determined in accordance with the provisions of FMC 74–4: Cost Principles Applicable to Grants and Contracts with State and Local Governments.

(d) The Form CD–292, Application for Federal Assistance (Non-Construction Programs), constitutes the formal application and must be submitted 60 days prior to the desired grant beginning date. The application must be accompanied by evidence of compliance with A–95 requirements including the resolution of any problems raised by the proposed project. The OCZM will not accept applications substantially deficient in adherence to A–95 requirements.

(e) In Part IV, Program Narrative, of the Form CD–292, the applicant should respond to the following requirements. Applicants are urged to be clear and brief.

(1) Summarize the State's past and current activities in its coastal zone and describe the current status of coastal management and related activities.

(2) Discuss and rank by general order of importance the major coastal zone related problems and issues facing the State.

(3) Identify the goals the State expects to achieve by development of its coastal zone management program, and the objectives it has set to meet those goals.

(4) Describe the overall program design for developing the management program. This should be an outline of the State's plan of action, identifying the work to be accomplished, for developing an approvable management program. Briefly and generally describe how the overall program design is intended to meet the requirements set forth in §§ 920.11, 920.12, 920.13, 920.14, 920.15, 920.16 of Subpart B of this part. In developing the overall program design the applicant should also give early consideration to the more specific requirements for approval of a management program as set forth in 15 CFR Part 923, Subparts B, C, D and E. The applicant will also find in Subpart A, § 923.4 a general description of the factors considered in the evaluation of management programs submitted for approval. In addition the program design should specifically include:

(i) An identification of existing information and sources of information;

(ii) A projection as to additional information must be acquired;

(iii) A description of methods to insure public participation;

(iv) A description of the intergovernmental process by which the State intends to involve various levels of government in the development of the management program;

(v) A mechanism for coordination with agencies administering excluded Federal lands that are in the coastal zone;

(vi) A tentative approximation of the boundaries of the State's coastal zone;

(vii) Identification of any other Federal and State planning, programming or activity which may have a significant impact on the State's coastal zone. Such planning, programming or activities includes work accomplished or to be undertaken by any Federal, State, areawide, local, regional or interstate agencies, regardless of source of funding. Additionally the application shall reflect, and the coastal zone management program as it is developed will provide methods to integrate Federally assisted programs. Programs such as, but not limited to, those listed below as well as any Federally supported land use program which may be hereafter enacted should be considered. (The program numbers and titles listed on the next page are those contained in the 1974 Catalog of Federal Domestic Assistance).

(5) Set forth a work program describing the work to be accomplished during the grant period. The work program should be consistent with the phasing of the overall program design and should include:

(i) A precise description of each major task to be undertaken, how it will be accomplished and who will do it.

(ii) For each task identify any "Other Entities" as defined in the "Manual," that will be allocated responsibility for carrying out all or portions of the task, and indicate the estimated cost of the subcontract/grant for each allocation. Identify, if any, that portion of the task that will be carried out under contract with consultants and indicate the estimated cost of such contract(s).

(iii) For each task indicate the estimated total cost. Also indicate the estimated total man-months, if any, allocated to the task from the applicant's staff.

(iv) For each task indicate the percent estimated to be completed during the grant period.

(6) The sum of all task costs in subparagraph (5) of this paragraph should equal the total estimated grant project costs.

(7) Using two categories, Professional and Clerical, indicate the total number of personnel in each category on the applicant's staff, that will be assigned to the grant project. Also indicate the number assigned full time and the number assigned less than full time in the two categories. Additionally indicate the number of new positions created in the two categories, as a result of the grant project.

(f) States may elect to utilize only two annual grants in developing a management program. In such cases the overall program design must encompass the requirements set forth in 920.45, 920.48 and 920.49 within a two year time frame. States should consult with OCZM early in the design stage of such programs for advice and guidance relative to meeting all requirements.

Section 920.46 *Approval of applications*, published November 29, 1973 is hereby repealed and the following substituted therefore:

§ 920.46 Approval of applications.

(a) The application for a management program development grant of any coastal State which complies with the policies and requirements of the Act and these guidelines, shall be approved by OCZM, assuming available funding.

(b) Should an application be found deficient, OCZM will notify the applicant in writing, setting forth in detail the manner in which the application fails to conform to the requirements of the Act or this subpart. Conferences may be held on these matters. Corrections or adjustments to the application will provide the basis for resubmittal of the application for further consideration and review.

(c) OCZM may, upon finding of extenuating circumstances relating to applications for assistance, waive appropriate administrative requirements contained herein.

Section 920.47 *Amendments*, Published November 29, 1973 is hereby repealed and the following substituted therefore:

§ 920.47 Amendments.

Amendments to an approved application must be submitted to, and approved by, the OCZM prior to initiation of the change contemplated. Requests for substantial changes should be discussed with OCZM well in advance. It is recognized that, while all amendments must be approved by OCZM, most such requests will be relatively minor in scope; therefore, approval may be presumed for minor amendments if the State has not been notified of objections within 30 working days of date of postmark of the request.

Section 920.48 *Application for second year grants*, published November 29, 1973 is hereby repealed and the following substituted therefor:

§ 920.48 Application for second year grants.

(a) Second year development grant applications will follow the procedures set forth in § 920.45 (c), (d), (e) (5), (6), (7) with the exception that the preapplication form may be used at the option of the applicant. If used, the procedures set forth in § 920.45(b) will be followed. In any event the A-95 project notification and review procedures established by State and areawide clearinghouses should be followed. Additionally, the program design (§ 920.45(e)(4)) shall be updated to:

(1) Describe how the past year's work and products contributed to the accomplishment of the overall program design and to meeting the requirements set forth in § 920.45(e). At this point clearly establish and identify the relationship between the tasks set out in the overall program design and the criteria established for approval of a coastal zone management program as set forth in 15 CFR Part 923, Subparts B, C, D and E.

(2) Examine and assess the need, if any, to modify the overall program design or the management program development goals and objectives or both in view of the above or of any emerging opportunities or problems.

(b) In evaluating whether a State is making satisfactory progress in the development of a management program to determine eligibility for the second year grant, the Secretary will consider among other things:

(1) The progress made toward meeting management program goals and objectives;

(2) The progress demonstrated in completing the first year work program;

(3) The relationship identified between the program design and meeting the criteria required for Final approval of a coastal zone management program.

(4) The effectiveness of mechanisms for insuring public participation and consultation with affected Federal, State, regional and local agencies.

(c) If the overall program design provides for developing a management program in two years, the application for a second year grant should be prepared in accordance with 920.49.

Section 920.49 *Application for third year grants*, published November 29, 1973 is hereby repealed and the following substituted therefore:

§ 920.49 Application for third year grants.

(a) Third year development grant applications will follow the procedures set forth in § 920.45 (c), (d), (e) (5), (6), (7) with the exception that the preapplication form may be used at the option of the applicant. If used, the procedures set forth in § 920.45(b) will be followed. In any event the A-95 project notification and review procedures established by State and areawide clearinghouses should be followed. Additionally the program design (§ 920.45(e)(4)) shall be updated to:

(1) Describe how the second year's work and products contributed to the accomplishment of the overall program design and specifically to meeting the criteria established for approval of a coastal zone management program as set forth in 15 CFR Part 923, Subparts B, C, D and E.

(2) Examine and assess the need, if any, to modify the overall program design or the management program development goals and objectives or both in view of the above or of any emerging opportunities or problems.

(3) A projection as to when the State will submit a management program to the Secretary for review and Final approval or when a management program will be submitted for preliminary approval in accordance with the provisions of 15 CFR Part 923, Subpart A, § 923.3 (b).

(b) In evaluating whether a State is making satisfactory progress towards completion of a management program to determine the eligibility for the third year grant, the Secretary will consider among other things:

(1) The progress made toward meeting management program goals and objectives;

(2) The progress demonstrated in completing the second year work program;

(3) The cumulative progress, demonstrated during the first and second grant periods, toward meeting the criteria required for Final approval of a coastal zone management program.

(4) The applicability of the third year work program to the achievement of all criteria required for Final approval of a coastal zone management program.

(5) The effectiveness of mechanisms for insuring public participation and consultation with affected Federal, State, regional and local agencies.

R. L. CARNAHAN,
Acting Assistant Administrator for Administration.

ALCOHOL, TOBACCO, AND FIREARMS

Transfer of Functions

CROSS REFERENCE: For a document which transfers Parts 170–299 from 26 CFR Chapter I to 27 CFR Chapter I, see FR Doc. 75-9726, Title 27, *infra*.

Title 27—Alcohol, Tobacco Products and Firearms

CHAPTER I—BUREAU OF ALCOHOL, TOBACCO AND FIREARMS, DEPARTMENT OF THE TREASURY

[Regs. No. 1]

ALCOHOL, TOBACCO, AND FIREARMS

Recodification

The Bureau of Alcohol, Tobacco and Firearms was established by Treasury Department Order 221, dated June 6, 1972, effective July 1, 1972, which was published at 37 FR 11696. The purpose of this order was to transfer the functions, powers and duties of the Internal Revenue Service arising under laws relating to alcohol, tobacco, firearms, and explosives (including the Alcohol, Tobacco and Firearms Division of the Internal Revenue Service) to the Bureau of Alcohol, Tobacco and Firearms.

On request of the Director of the Office of the Federal Register pursuant to his authority to assure orderly development of the Code of Federal Regulations (1 CFR 8.2), the regulations formerly codified as 26 CFR Parts 170 through 299 (Subchapter E—Alcohol, Tobacco and other Excise Taxes, of Chapter 1) are redesignated as 27 CFR Parts 170 through 299, (Subchapter M—Alcohol, Tobacco and Other Excise Taxes) with the clarifications set forth below.

Wherever references to a part or other subdivision of Title 26 CFR appear in the following types of issuances, the reference shall mean a reference to the same part or other subdivision of Title 27 CFR:

(1) In Title 26 CFR Part 170 through and including Part 299.

(2) In published official ATF Procedures.

(3) In published official ATF Rulings.

(4) On ATF public use forms.

(5) In any other official Bureau publication, pamphlet, circular, or document.

(6) In any written Bureau correspondence or communication with members of the regulated industries or the public at large.

Because this document involves only a redesignation of existing regulations, it is effective April 15, 1975.

Dated: April 7, 1975.

WILLIAM R. THOMPSON,
Acting Director, Bureau of Alcohol, Tobacco and Firearms.

Approved:

Dated: April 9, 1975.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-540]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128).

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 39 FR 26186-93). A list of servicing companies is also available from the Federal Insurance Administration, HUD, 451 Seventh Street SW., Washington, D.C. 20410.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified flood plain area having special hazards that is located within any community currently participating in the National Flood Insurance Program.

Until July 1, 1975, the statutory requirement for the purchase of flood insurance does not apply until and unless the community enters the program and the special flood hazards have been identified. However, on July 1, 1975, or one year after the identification of the community as flood prone, whichever is later, the requirement will apply to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and flood insurance has been purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. Therefore notice and public procedure under 5 U.S.C. 553(b) are impracticable, unnecessary, and contrary to the public interest.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in the order to designate (1) the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program; (2) the effective date on which the community became ineligible for the sale of flood insurance because of its failure to submit land use and control measures as required pursuant to § 1909.24(a); or (3) the effective date of a community's formal reinstatement in the program pursuant to § 1909.24(b). These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. 551. The entry reads as follows:

§ 1914.4 Status of participating communities.

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001–4128).

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 39 FR 26186–93). A list of servicing companies is also available from the Federal Insurance Administration, HUD, 451 Seventh Street, SW., Washington, D.C. 20410.

V 40 173 APR 15 75 XUM

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified flood plain area having special hazards that is located within any community currently participating in the National Flood Insurance Program.

Until July 1, 1975, the statutory requirement for the purchase of flood insurance does not apply until and unless the community enters the program and the special flood hazards have been identified. However, on July 1, 1975, or one year after the identification of the community as flood prone, whichever is later, the requirement will apply to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and flood insurance has been purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. Therefore notice and public procedure under 5 U.S.C. 553(b) are impracticable, unnecessary, and contrary to the public interest.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in the order to designate (1) the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program; (2) the effective date on which the community became ineligible for the sale of flood insurance because of its failure to submit land use and control measures as required pursuant to § 1909.24(a); or (3) the effective date of a community's formal reinstatement in the program pursuant to § 1909.24(b). These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. 551. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001–4128).

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 39 FR 26186–93). A list of servicing companies is also available from the Federal Insurance Administration, HUD, 451 Seventh Street, SW., Washington, D.C. 20410.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance on and after March 2, 1974, as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in an identified flood plain area having special hazards that is located within any community currently participating in the National Flood Insurance Program.

Until July 1, 1975, the statutory requirement for the purchase of flood insurance does not apply until and unless the community enters the program and the special flood hazards have been identified. However, on July 1, 1975, or one year after the identification of the community as flood prone, whichever is later, the requirement will apply to all identified special flood hazard areas within the United States, so that, after that date, no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program and flood insurance has been purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. Therefore notice and public procedure under 5 U.S.C. 553(b) are impracticable, unnecessary, and contrary to the public interest.

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in the order to designate (1) the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program; (2) the effective date on which the community became ineligible for the sale of flood insurance because of its failure to submit land use and control measures as required pursuant to § 1909.24 (a); or (3) the effective date of a community's formal reinstatement in the program pursuant to § 1909.24(b). These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. 551.

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas; Correction

On January 8, 1972, in 37 FR 281, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Hazard Boundary Maps were available for public inspection. This list included Fairfax County, Virginia, as an eligible community and included Map No. H 515525 19 which indicates that Lot 35, Block 42, Section 3, Monticello Forest, Fairfax County, Virginia, as recorded in Volume 1233, Pages 212-213 of the land records of Fairfax County, Virginia, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional, recently acquired flood information, that the above property is not within the Special Flood Hazard Area. Accordingly, effective June 17, 1970, Map No. H 515525 19 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974)

Issued: April 1, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

[FR Doc.75-9732 Filed 4-14-75;8:45 am]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas; Correction

On August 17, 1971, in 36 FR 15532, the Federal Insurance Administrator published a list of communities with Special Flood Hazard Areas and the map number and locations where Flood Insurance Rate Maps were available for public inspection. This list included the City of Tulsa, Oklahoma, as an eligible community and included Map No. H 405381 16 which indicates that Lot No. 9, Block No. 13, Tanglewood Addition, Tulsa, Oklahoma, as recorded in Volume 2983, Page 588, in the office of the Clerk of Tulsa County, Oklahoma, is in its entirety within the Special Flood Hazard Area. It has been determined by the Federal Insurance Administration, after further technical review of the above map in light of additional recently acquired flood information, that the above property is within Zone C, and not within the Special Flood Hazard Area. Accordingly, effective November 20, 1970, Map No. H 405381 16 is hereby corrected to reflect that the above property is not within the Special Flood Hazard Area.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended, 42 U.S.C. 4001–4128; and Secretary's delegation of authority to Federal Insurance Administrator 34 FR 2680, February 27, 1969, as amended by 39 FR 2787, January 24, 1974.)

Issued: April 1, 1975.

J. ROBERT HUNTER,
Acting Federal Insurance Administrator.

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

North Carolina Plan; Level of Federal Enforcement

1. *Background.* Part 1954 of Title 29, Code of Federal Regulations, sets out procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for the evaluation and monitoring of State plans which have been approved under section 18(c) of the Act and 29 CFR Part 1902. Section 1954.3 of this chapter provides guidelines and procedures for the exercise of discretionary Federal enforcement authority under section 18(e) of the Act with regard to Federal standards in issues covered under an approved State plan. In accordance with § 1954.3(b) of this chapter, Federal enforcement authority will not be exercised as to occupational safety and health issues covered under a State plan where a State is operational. A State is determined to be operational under § 1954.3 (b) of this chapter when it has provided for the following requirements: enacted enabling legislation, approved State standards, a sufficient number of qualified enforcement personnel and provisions for the review of enforcement actions. In determining whether and to what extent a State plan meets the operational guidelines, the results of evaluations conducted under 29 CFR Part 1954 are taken into consideration. Once this determination has been made, under § 1954.3(f) of this chapter, a notice of the determination of the operational status of a State plan as described in an agreement setting forth the Federal-State responsibility is to be published in the FEDERAL REGISTER.

2. *Notice of North Carolina Operational Agreement.* (a) In accordance with the provisions of § 1954.3 of this chapter, notice is hereby given that it has been determined that North Carolina has met the following conditions for operational status:

(1) Enactment of the Occupational Safety and Health Act of North Carolina (hereinafter referred to as OSHANC) (Senate Bill 342, Chapter 295, North Carolina State Code) by the North Carolina General Assembly effective July 1, 1973;

(2) Promulgation under section 6, OSHANC, of general industry and construction standards by the Commissioner, North Carolina Department of Labor, initially effective June 4, 1973, with revisions through January 16, 1975. The maritime standards of 29 CFR 1910.13 through 1910.16 are excluded as North Carolina has chosen not to assume jurisdiction over maritime or longshoring activities covered by those standards. The general industry and construction standards were found in the professional judgment of the Assistant Regional Director to be identical to the Federal standards in 29 CFR Part 1910 and 29 CFR Part 1926, and to provide overall protection equal to the comparable Federal standards in such issues. Notice of approval of the North Carolina standards by the Assistant Regional Director was published on March 11, 1975 (40 FR 11420);

(3) A sufficient number of qualified safety and health personnel employed under an approved merit system: namely, thirty-four (34) safety inspectors and seven health inspectors as of February 1, 1975;

(4) Operation of a review and appeals system before the North Carolina Occupational Safety and Health Review Board providing the mechanism for employers and employees to contest enforcement actions and/or abatement dates. Appeals are processed by the Board under rules and regulations effective as of January 9, 1975;

(5) State enforcement since July 1, 1973, of the State standards described in (2) above by the North Carolina Department of Labor monitored under Subpart C of 29 CFR Part 1954, including two semi-annual evaluations, covering the period from July 1, 1973, to June 30, 1974.

(b) In addition, the State has provided under its plan for:

(1) Notification to employers and employees since December 4, 1974, of rights and responsibilities under OSHANC by requiring the display of a State poster in workplaces covered by the plan;

(2) Occupational accident and illness recordkeeping and reporting by employers covered under the plan (NCSC, Chapter 295, section 18);

(3) Responding to complaints filed with the North Carolina Department of Labor for violations of the prohibition against discrimination by employers against employees for

(4) Assurance of the rights of employers and employees and their representatives consistent with the provisions of the Federal Act and its implementing regulations.

Pursuant to this finding, an agreement effective February 20, 1975, and incorporated as part of the North Carolina plan has been entered into between William C. Creel, Commissioner of the North Carolina Department of Labor, and Donald E. MacKenzie, Assistant Regional Director for Occupational Safety and Health of the U.S. Department of Labor providing that Federal enforcement activity under section 18(e) of the Act will not be initiated with regard to Federal occupational safety and health standards in issues covered under 29 CFR Part 1910 and 29 CFR Part 1926 wherever North Carolina occupational safety and health standards are in effect and operational.

Under the agreement, Federal responsibility under the Act will continue to be exercised, among other things, with regard to complaints about violations of the discrimination provisions of section 11 (c) of the Act (29 U.S.C. 660(c)); enforcement of standards promulgated under the Act subsequent to the agreement where necessary to protect employees, as in the case of standards promulgated under section 6(c) of the Act (29 U.S.C. 665(c)), until such time as the State shall have adopted equivalent standards in accordance with Subpart C of 29 CFR Part 1953; enforcement of Federal standards in the maritime and longshoring issues covered by 29 CFR 1910.13 through 1910.16 which issues have been specifically excluded from coverage under the plan; and investigations and inspections for the purpose of evaluating the State plan under sections 18(e) and (f) of the Act (29 U.S.C. 667 (e) and (f)).

The agreement is subject to revision or termination by the Assistant Secretary of Labor for Occupational Safety and Health upon substantial failure by the State to comply with any of its provisions, or when the results of evaluation under 29 CFR Part 1954 reveal that State operations covered by the agreement fail in a substantial manner to be at least as effective as the Federal program.

In accordance with this agreement and effective as of February 20, 1975, Subpart I of 29 CFR Part 1952 is hereby amended as set forth below.

Section 1952.152 is revised to read as follows:

§ 1952.152 Level of Federal enforcement.

Pursuant to §§ 1902.20(b)(1)(iii) and 1954.3 of this chapter under which an agreement has been entered into with North Carolina, effective February 20, 1975, and based on a determination that North Carolina is operational in issues covered by the North Carolina occupational safety and health plan, discretionary Federal enforcement authority under section 18(e) of the Act (29 U.S.C. 667(e)) will not be initiated with regard to Federal occupational safety and health standards in issues covered under 29 CFR Part 1910 and 29 CFR Part 1926. The U.S. Department of Labor will continue to exercise authority, among other things, with regard to: Complaints filed with the U.S. Department of Labor about violations of the discrimination provisions of section 11(c) of the Act (29 U.S.C. 660(c)); Federal standards promulgated subsequent to the agreement where necessary to protect employees, as in the case of temporary emergency standards promulgated under section 6 (c) of the Act (29 U.S.C. 665(c)), in the issues covered under the plan and the agreement until such time as North Carolina shall have adopted equivalent standards in accordance with Subpart C of 29 CFR Part 1953; Standards in 29 CFR 1910.13 through 1910.16, which issues have been specifically excluded from coverage under North Carolina plan; and investigations and inspections for the purpose of the evaluation of the North Carolina plan under sections 18 (e) and (f) of the Act (29 U.S.C. 667 (e) and (f)). The Assistant Regional Director for Occupational Safety and Health will make a prompt recommendation for resumption of exercise of Federal enforcement authority under section 18(e) of the Act (29 U.S.C. 667(c)) whenever,

V 40 173 APR 15 75 XUM

and to the degree, necessary to assure occupational safety and health protection to employees in North Carolina.

(Secs. 8(g)(2), 18, 84 Stat. 1600, 1608 (29 U.S.C. 257(g)(2), 667))

Signed at Washington, D.C. this 9th day of April, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

Title 31—Money and Finance: Treasury

CHAPTER I—MONETARY OFFICES, DEPARTMENT OF THE TREASURY

GOLD REGULATIONS AND GOLD LICENSING FUNCTIONS, PROCEDURES, AND FORMS

Termination

Pub. L. 93-110, 87 Stat. 352, and Pub. L. 93-373, 88 Stat. 445, provide that, effective December 31, 1974, sections 3 and 4 of the Gold Reserve Act of 1934 (31 U.S.C. 442 and 443) are repealed and no provision of any law, and no rule, regulation, or order in effect on that date may be construed to prohibit any person from purchasing, holding, selling, or otherwise dealing with gold in the United States or abroad.

On December 31, 1974, President Ford promulgated Executive Order 11825 (40 FR 1003) revoking prior Executive orders and provisions of Executive orders insofar as they pertained to the regulation of the acquisition of, holding of, or other transactions in gold.

Accordingly, the Gold Regulations (31 CFR Part 54) providing for the prohibition, regulation and licensing of the acquisition of, holding of, or other transactions in gold by persons subject to the jurisdiction of the United States ceased to have any legal force and effect as of December 31, 1974. In conformity with the legal termination of the gold restrictions, the Gold Regulations are formally revoked herein. Therefore, the gold licensing functions, procedures, and forms of the Office of Domestic Gold and Silver Operations contained in Part 93 are unnecessary and are accordingly revoked as provided herein.

Section 121.25 of the Emergency Banking Regulations, relating to gold for use in trade, profession, or art, was superseded by Treasury licensing procedures and is revoked consistent with the revocation of such procedures in Part 93. Finally, certain conforming amendments are made to §§ 90.6 and 100.4 of this chapter to eliminate references to the gold restrictions.

All of the foregoing amendments constitute technical implementation of the termination of the gold restrictions and remove legally obsolete provisions from the Code of Federal Regulations. In that these provisions implement section 3 of Pub. L. 93-110, as amended by Pub. L. 93-373, which took effect on December 31, 1974, and relieve restrictions, it is deemed that notice and public procedures are unnecessary and impractical.

The revocation or amendment of any regulation herein shall not be deemed to authorize retroactively any act or omission not authorized by such regulation, or any license issued pursuant thereto, as in effect at any time prior to the date hereof, and shall not affect any act done, or any right accruing or accrued, or any suit or proceeding had or commenced in any civil or criminal cause prior to said date, but all such liabilities, penalties, and forfeitures shall continue and may be enforced in the same manner as if said revocation or amendment had not been made.

Specifically, the provisions of section 4 of the Gold Reserve Act of 1934 (31 U.S.C. 443), providing for forfeiture and a double penalty for violation of the Act or any regulation thereunder, and section 5(b) of the Trading with the Enemy Act (12 U.S.C. 95a), providing for a $10,000 fine and 10 years in prison for any willful violation of any regulation or order promulgated pursuant thereto, shall apply to any violation occurring prior to the effective date hereof whether or not such violation was on such date the subject of an investigation or proceeding. Part 406 of Chapter IV of this title, providing for seizure by the Secret Service and forfeiture of gold for violations of the Gold Reserve Act of 1934 and the Gold Regulations, is not being revoked and will remain in effect.

PART 54—GOLD REGULATIONS

1. Part 54 is revoked in its entirety.

PART 90—TABLE OF CHARGES AND REGULATIONS OF THE MINTS AND ASSAY OFFICES OF THE UNITED STATES FOR PROCESSING SILVER AND ASSAYING BULLION, METALS AND ORES

2. Section 90.6 is revised to read as follows:

§ 90.6 Charges for special assays and assays of ores and fine gold certification.

(a) *Bullion Special Assays:* Gold or silver bullion samples for special assay will be accepted at the U.S. Assay Office in New York and at the U.S. Mint in Denver. Charges will be in accordance with the following table of charges:

Charges per assay

	Gold or silver bullion (under 900 base metal)	Plated or filled goods and white gold
Gold	$11	$12
Silver	11	12
Gold and silver (same sample)	19	20
Additional charge when the sample contains any of the platinum group metals	5	6

(b) *Assay of ores:* Assays of ore samples will be made at the U.S. Mint in Denver. The charge for each metal determined will be:

	Charge
Gold	$5
Silver	5
Gold and silver (same sample)	8
Lead	8
Zinc	8
Copper	7

PART 93—OFFICE OF DOMESTIC GOLD AND SILVER OPERATIONS PROCEDURES AND DESCRIPTIONS OF FORMS

§ 93.1–93.3, 93.10, 93.41–93.62 [Revoked]

3. Part 93 is amended by the revocation of §§ 93.1–93.3, 93.10, and 93.41–93.62.

PART 100—EXCHANGE OF PAPER CURRENCY AND COIN

4. Section 100.4 is revised to read as follows:

§ 100.4 Gold coin and gold certificates in general.

Gold coins, and gold certificates of the type issued before January 30, 1934, are exchangeable, as provided in this part, into other currency or coin which may be lawfully issued.

PART 121—EMERGENCY BANKING REGULATIONS

§ 121.25 [Revoked]

5. Section 121.25 is revoked.

Dated: April 7, 1975.

[SEAL] JACK F. BENNETT,
Under Secretary for Monetary Affairs.

[FR Doc.75-9734 Filed 4-14-75;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

[FRL 341-3]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Missouri: Approval of Compliance Schedules

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved portions of State plans for implementation of the national ambient air quality standards.

During May, June, and November 1974, the State of Missouri submitted to the Environmental Protection Agency compliance schedules to be considered as proposed revisions to the approved plan pursuant to 40 CFR 51.6. These schedules were adopted by the State and submitted to the Environmental Protection Agency for review after notice and public hearings. The public hearings were held in accordance with the procedural requirements of 40 CFR 51.4 and 51.6 and the substantive requirements of 40 CFR 51.15 pertaining to compliance schedules. The approvable compliance schedules have been reviewed and determined to be consistent with the approved control strategies of Missouri.

Accordingly, the Administrator proposed approval of these schedules on January 9, 1975, in the FEDERAL REGISTER at 40 FR 1711. The proposed approval of these schedules published in the January 9, 1975, FEDERAL REGISTER provided for a 30-day comment period. No comments concerning these schedules were received.

Set forth below are specific compliance schedules which the Administrator approved pursuant to 40 CFR 51.8.

Each approved revision establishes a new date by which the individual source must comply with the applicable emission limitation in the federally approved State Implementation Plan. This date is indicated in the table below, under the heading "Final Compliance Date." In all cases, the schedules include incremental steps toward compliance with the applicable emission limitations. While the tables below do not include these interim dates, the actual compliance schedules do. The "Effective Date" column in the table refers to the date the compliance schedule becomes effective for purposes of federal enforcement.

In the indication of approval of individual compliance schedules, the individual schedules are included by reference only. In addition, since the large number of compliance schedules preclude setting forth detailed reasons for approval of each individual schedule in the FEDERAL REGISTER, an evaluation report has been prepared for each individual compliance schedule. These evaluation reports are available for public inspection at the Environmental Protection Agency Regional Office, 1735 Baltimore, Kansas City, Missouri. The compliance schedules and the State Implementation Plans are available for public inspection at the Environmental Protection Agency Regional Office; the Environmental Protection Agency, Division of Stationary Source Enforcement, 401 M Street, Washington, D.C.; and the Missouri Department of Natural Resources, State Office Building, Jefferson City, Missouri.

This rulemaking will become effective immediately upon publication. The Agency finds that good cause exists for not deferring the effective date of this rulemaking because the compliance schedules are already in effect under State law and federal approval imposes no new burdens.

This rulemaking is promulgated pursuant to the authority of section 110 of the Clean Air Act of 1970, as amended, 42 U.S.C. 1857c-5.

Date: April 8, 1975.

JOHN QUARLES,
Acting Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart AA—Missouri

1. In § 52.1335, the table in paragraph (a) is amended by adding the following:

§ 52.1335 Compliance schedules.

[FRL 350-6]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

National Capital Region Transportation Control Plans

On December 6, 1973 (38 FR 33702), the Environmental Protection Agency (EPA), pursuant to section 110(a)(2)(B) of the Clean Air Act, approved in part and promulgated in part for the National Capital Interstate Air Quality Control Region a transportation control plan which included measures requiring the elimination of free employee parking (40 CFR §§ 52.476(f), 52.1080(f), 52.2435(d)), the institution of commercial parking rates at federal facilities (40 CFR §§ 52.486, 52.1085, 52.2437), and the imposition of certain parking surcharges (40 CFR §§ 52.476(d), 52.1080(d), 52.2435(b)).

On January 15, 1974 (39 FR 1848), the EPA withdrew all surcharge regulations from the federally promulgated portions of the transportation control plans due to the intent of Congress, as expressed in the draft Conference report on the Energy Emergency Act, to prohibit the imposition of parking surcharges by EPA, but to allow approval of locally-adopted measures. Subsequently, the Energy Supply and Environmental Coordination Act of 1974 (ESECA) amended the Clean Air Act to provide in section 110(c)(2)(B) that no parking surcharge may be required by the EPA Administrator, though one could be approved; and to provide in section 110(c)(2)(D)(i) that

> The term "parking surcharge regulation" means a regulation imposing or requiring the imposition of any tax, surcharge, fee, or other charge on parking spaces, or any other area used for the temporary storage of motor vehicles.

While EPA has understood that the federally-promulgated aspects of the provisions for charging commercial rates and for eliminating free employee parking were voided by these provisions, the federally-promulgated regulations have never been formally revoked by EPA. Therefore, the Administrator is now revoking from the transportation control plans of the District of Columbia, Maryland, and Virginia, the compliance schedule requirements for eliminating free employee parking and the federal requirement for instituting commercial parking rates at federal facilities. The approval of the local measure remains unchanged.

(Secs. 110, 301 of the Clean Air Act (42 U.S.C. 1857c-5 and 1857g))

Date: April 9, 1975.

JOHN QUARLES,
Acting Administrator.

V 40 73 APR 15 75 XUM

Part 52 of Chapter 1, Title 40 of the Code of Federal Regulations is amended by revoking and reserving the following sections or specified paragraphs:

a. In subpart J, § 52.486 and paragraph (f) of § 52.476.

b. In subpart V, § 52.1085 and paragraph (f) of § 52.1080.

c. In subpart VV, § 52.2437 and paragraph (d) of § 52.2435.

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Ex Parte 262 (Sub-No. 1)]

PART 1036—INCENTIVE PER DIEM CHARGES ON BOXCARS

Incentive Per Diem Charge—1968

By order dated April 24, 1973, this Commission reopened the proceeding for reconsideration of certain issues which are:

1. To determine whether the funds now earmarked for boxcars should be permitted to be drawn down for the acquisition of other types of cars in demand, like covered hoppers, and whether such modification would increase the number of boxcars available for general use.

2. To determine whether the existing test period average should be modified in any respect.

3. To determine whether a specified period should be prescribed within which incentive funds must be expended or committed to the acquisition of general service boxcars.

4. To determine whether carriers which fail to acquire their normal complement of such cars and, consequently, are unable to draw down the incentive funds within a specified period, should be required to return the funds collected to the debtor carriers.

5. To determine other methods to facilitate the use of the accrued incentive per diem funds for the purchase, building, or rebuilding of general service, unequipped boxcars.

6. To determine whether any group of carriers should be exempt from the payment of incentive per diem.

Upon consideration of these six issues, based on an oral hearing, and numerous verified statements, replies, and briefs, an initial decision was rendered by Administrative Law Judge Forest Gordon on July 23, 1974, recommending certain changes in the regulations governing incentive per diem. The report on exceptions, the Commission issued a report and order implementing changes in these regulations.

At a General Session of the INTERSTATE COMMERCE COMMISSION, held at its office in Washington, D.C. on the 31st day of March 1975

Upon consideration of the record in the above-captioned proceeding, including (1) the reports and orders of the Commission, 327 I.C.C. 183,337, I.C.C. 217,339, I.C.C. 327, and 343, I.C.C. 49; (2) various petitions for reconsideration, for reopening, for modification, for suspension or recision of the outstanding orders, replies, and statements of position supporting or opposing these petitions; (3) the Commission's order of April 24, 1973, reopening this proceeding for reconsideration of certain issues raised by these pleadings which are set forth in our report on exceptions herein of this date; (4) the responses thereto filed by numerous parties on various dates, the oral hearing, and the initial decision of the Administrative Law Judge served July 23, 1974; and (5) the exceptions and replies to the initial decision filed by numerous parties on various dates; and

It appearing, That the Administrative Law Judge in his initial decision recommended certain changes in §§ 1036.3 and 1036.4 of Subchapter A, Chapter X, Title 49 of the Code of Federal Regulations; and that, in the light of the exceptions and replies, some of his recommended changes should be prescribed, some recommended changes should not be prescribed, and certain additional changes in the same regulations should be prescribed; wherefore:

It is ordered, That §§ 1036.3 and 1036.4 of Subchapter A, Chapter X, Title 49 of the Code of Federal Regulations, be, and they are hereby, amended to read as set forth below.

It is further ordered, That, as described in the report on exceptions herein, the motion to strike of the Chicago, Milwaukee, St. Paul and Pacific Railroad Company be, and it is hereby, granted; and the request to strike of the Chicago, Rock Island and Pacific Railroad Company be, and it is hereby, denied.

It is further ordered, That a copy of this order shall be delivered to the Director, Office of the Federal Register, for publication therein.

And it is further ordered, That this order shall become effective 35 days from the date of service and continue in full force and effect until the further order of the Commission.

This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

In 49 CFR Part 1036, §§ 1036.3 and 1036.4 are revised to read as follows:

§ 1036.3 Earmarking.

Each common carrier by railroad shall segregate in Account 716, Capital and Other Reserve Funds, and shall transfer from Account 796, Retain Income, Unappropriated to Account 797, Retained Income, Appropriated, an amount equal to the net credit balance resulting from any incentive per diem settlement involving boxcars subject to this part. The carrier shall maintain a separate bank account for the segregated funds. Canadian carriers shall transfer a net balance after taxes to a U.S. designee, which may be either a United States class I railroad or a United States corporation established solely to purchase, hold title to, and control general service, unequipped boxcars subject to the Department of Transportation's safety regulations and the Interstate Commerce Commission's rules pertaining to per diem and car service, and to any reporting requirements determined to be applicable by the Commission's Bureau of Accounts. If the designee of Canadian carriers is a United States railroad, it shall maintain a separate account for funds received on Canadian-owned boxcars. All boxcars purchased or built by such designee or such other corporation with incentive per diem funds earned on Canadian boxcars must be built in the United States. Any United States taxes incurred after transfer of a net balance to such designee may be deducted from the transferred amount for the purpose of determining a final net balance for investment. The earmarked funds shall be reduced by the amount of the additional income tax paid as the result of increasing taxable income by inclusion of net incentive per diem earnings. The funds in such account shall be used to purchase, lease, or build new, unequipped boxcars for general service or to rebuild general service, unequipped boxcars with code numbers and mechanical designations set forth in § 1036.1 for addition to such carrier's or designee's fleet in accordance with this part. The unexpended funds remaining in the accounts of the carriers may be invested in Government bonds or other interest-bearing, temporary securities. The interest earned thereafter shall become part of the earmarked fund.

§ 1036.4 Use of funds.

The net credit balances resulting from incentive per diem settlements, which are earmarked in accordance with § 1036.3, may be drawn down in whole or in part at any time by the carrier to build, lease equivalent of purchase, or purchase, in whole or in part, new unequipped boxcars for general service described in § 1036.1, *provided*, The carrier has in the same calendar year built, leased, or purchased its 1964–68 average acquisitions of such boxcars and made up an arrearage in having failed to maintain such average each year this order is in effect. Earmarked funds may also be used in whole or in part to lease any number of new unequipped boxcars for general service described in § 1036.1, in which the carrier is not acquiring an equity interest, *provided*, The carrier has in the same calendar year leased its 1964–68 average number of such boxcars and made up any arrearage in having failed to maintain such average each year the order is in effect. Nonequity leases must be at least 10 years in duration, and, in connection with such leases, earmarked funds must not be used for the cost of maintenance. Earmarked funds may be used in whole or in part to rebuild any number or portion of general service, unequipped boxcars described in § 1036.1, *provided*, The carrier

has in the same calendar year rebuilt its 1964–68 average number of such boxcars and made up any arrearage in having failed to maintain such average each year the order is in effect. Net balances on Canadian-owned cars may be drawn down without regard to prior acquisitions, but where the designee is a class I United States carrier such drawdowns shall not affect that carrier's accumulation of arrearages resulting from prior failure to build, rebuild, lease, or purchase its 1964–68 arrearages. However, upon application, including a showing that all parties to the proceeding herein have been notified by the carrier of such application and a showing of good cause why any carrier is unable to draw down in whole or in part the net credit balance resulting from incentive per diem settlements because it cannot comply with the above test period average requirements of having in the same calendar year built, rebuilt, leased, or purchased its 1964–68 average number of such boxcars and made up any arrearage in having failed to maintain such average each year this order is in effect, the Commission may, in its discretion, after consideration of all views regarding the application, modify the test period average to the extent consistent with the public interest and the national transportation policy. Such modification, as a minimum, shall require that a carrier match the earmarked funds it will use with an equal amount of its own funds. Earmarked funds must be put to use within 18 months after the end of the calendar year in which the funds are collected and result in a net credit balance for the building, rebuilding, leasing, or purchasing of general service, unequipped boxcars described in § 1036.1 for addition to such carrier's or designee's fleet in accordance with this part. Upon a showing of good cause an application, including a showing that the parties to the proceeding herein have been notified by the carrier of such application may be made to the Commission for waiver of the said 18-month period, which may, in the Commission's discretion, be granted after consideration of all views regarding the application. If the earmarked funds are not used within the 18-month period, they may be voluntarily surrendered to Rail Box whose establishment and operation was approved in Finance Docket No. 27589, *American Rail Box Car Company and Trailer Train Company, et al.—For Approval of the Pooling of Car Service with Respect to Box Cars*. If the carrier fails within the stated period to put to use collected earmarked funds which result in a net credit balance, has not obtained relief from that requirement, and has not surrendered such funds to Rail Box, the Commission will investigate the matter to determine what, if any, corrective action is warranted. Appropriate corrective action would include section 16(12) remedies among others. Carriers may make temporary investments of unexpended funds in Government bonds or other liquid securities. Such securities must be readily convertible to cash so that funds remain available for boxcar purchases. Interest earned must become part of the earmarked fund. As used in this section, "build," "rebuild," "lease," or "purchase" refer to a commitment to build, rebuild, lease, or purchase which results in the acquisition of a car on line ready for use within 10 months from the date of commitment, except that in extraordinary cases beyond the control of the carrier or the car supplier, a car that is delivered after 10 months from the date of commitment may qualify if approved by the Bureau of Accounts of this Commission.

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

PART 5A-2—PROCUREMENT BY FORMAL ADVERTISING

"All or None" Bids

This revision to the General Services Administration Procurement Regulations (GSPR), incorporates into one section the "all or none" bid provisions.

The table of contents for part 5A-2 is amended to delete § 5A-2.407-50.

Subpart 5A-2.2—Solicitation of Bids

Section 5A-2.201-73 is revised as follows:

§ 5A-2.201-73 "All or None" bids.

The following clause (included in GSA Form 1424) applies to all definite quantity and indefinite quantity solicitations. The provisions of this clause shall be followed by contracting officers in their bid evaluations. (See FPR 1-2.404-5 for additional instructions, and GSPR 5A-2.201-54 for Weighting of Items for aggregate awards (indefinite quantity contracts)).

"ALL OR NONE" BIDS

(a) (Applicable to Definite Quantity contracts). A bid submitted on an "all or none" or similar basis will be evaluated as follows: The lowest acceptable bid exclusive of the "all or none" bid will be selected with respect to each item (or group of items when the solicitation provides for aggregate awards) and the total cost of all items thus determined shall be compared with the total of the lowest acceptable "all or none" bid. Award will be made so as to result in the lowest total cost to the Government.

(b) (Applicable only to Requirements and Indefinite Quantity contracts). A bid submitted on an "all or none" or similar basis will not be considered unless the bid is low on each item to which the "all or none" bid is made applicable. The term "item" as used in this clause refers only to items which, under the terms of the solicitation, may be independently awarded and does not include any group of items on which an award is to be made in the aggregate.

(End of Clause)

Subpart 5A-2.4—Opening of Bids and Award of Contract

§ 5A-2.407-50 [Removed]

Section 5A-2.407-50 is deleted.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. These regulations are effective on the date shown below.

Dated: March 20, 1975.

M. J. TIMBERS, *Commissioner, Federal Supply Service*.

PART 5A-7—CONTRACT CLAUSES

PART 5A-16—PROCUREMENT FORMS

GSA Form 2952, General Provisions (Transportation Contract)

This change to the General Services Administration Procurement Regulations (GSPR) prescribes the use of GSA Form 2952 in connection with contracts for freight transportation services as defined in § 1-7.700.

The table of contents for Part 5A-7 is amended to add the following new entry:

Sec.
5A-7.703 Required clauses in transportation contracts.

Subpart 5A-7.7—Transportation Contracts

Section 5A-7.703 is added as follows:

§ 5A-7.703 Required clauses in transportation contracts.

Pending issuance of standard forms for use in those contracts for transportation services enumerated in § 1-7.700, Standard Form 33, Solicitation, Offer, and Award, and Standard Form 33A, Solicitation Instructions and Conditions (both illustrated in Subpart 1-16.9), shall be used for transportation contracts; however, these forms shall be modified to include the required transportation contract clauses contained in GSA Form 2952, General Provisions (Transportation Contract), illustrated in § 5A-16.950-2952. This form includes all required clauses enumerated in §§ 1-7.703-1 through 1-7.703-21.

The table of contents for Part 5A-16 is amended to add the following new entry:

Sec.
5A-16.950-2952 GSA Form 2952, General Provisions (Transportation Contract).

. . . . . .

NOTE: A copy of the form illustrated in § 5A-16.950-2952 is filed with the original document.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

V 40 I 73 APR 15 75 XUM

Effective date. These regulations are effective on the date shown below.

Dated: March 20, 1975.

M. J. TIMMERS,
Commissioner,
Federal Supply Service.

[FR Doc.75-9178 Filed 4-14-75;8:45 am]

CHAPTER 9—ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

[ERDA-PR Temporary Reg. No. 9]

PART 9-9—PATENTS AND COPYRIGHTS

Appendix A—Modification, in Part, of ERDA-PR Part 9-9, Patents and Copyrights

APRIL 11, 1975.

The following Appendix A is added to 41 CFR Part 9-9:

1. *Purpose.* This regulation modifies, in part, ERDA-PR Part 9-9, Patents and Copyrights, and provides additional temporary instructions to implement the two legislative enactments governing the patent contracting and waiver policies of the Energy Research and Development Administration (ERDA) set forth in section 152 of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2182) and in section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (Pub. L. 93-577).

2. *Effective date.* This regulation is effective April 15, 1975.

3. *Expiration date.* This regulation will remain in effect until cancelled and replaced by a permanent ERDA Procurement Regulation.

4. *Background.* The Energy Research and Development Administration (ERDA) was established by the Energy Reorganization Act of 1974 (Pub. L. 93-438), and the establishment of ERDA was made effective January 19, 1975 by Executive Order 11834 dated January 15, 1975, which Executive Order was published January 17, 1975 at 40 FR 2971. Pursuant to the authority contained in Section 105 of the Energy Reorganization Act of 1974 and 5 U.S.C. 552, all rules and regulations in Chapter 9 of Title 41, Code of Federal Regulations, were adopted by ERDA for all ERDA activities under the Energy Reorganization Act of 1974, the Federal Nonnuclear Energy Research and Development Act of 1974, (Pub. L. 93-577), and other applicable law, to the extent the rules and regulations were not inconsistent with applicable law and were redesignated as the Energy Research and Development Administration Procurement Regulations (ERDA-PR). However, Part 9-9 of the ERDA Procurement Regulations does not fully implement section 9 of Pub. L. 93-577 and the legislative history of that Section with regard to harmonizing the nuclear and nonnuclear patent policies of ERDA to the extent feasible. Accordingly, this regulation provides guidance to implement section 9 of Pub. L. 93-577 and procedures whereby initial steps are taken to harmonize ERDA's two patent policies.

5. *Explanation of changes.* Part 9-9 of the ERDA Procurement Regulations is modified as follows:

FOREGROUND PATENT RIGHTS CLAUSES FOR NONNUCLEAR ENERGY CONTRACTS

For contracts which include nonnuclear energy research, development, or demonstration work, contracting authorities may use appropriate clause language from:

(a) The proposed patent regulations of the Federal Procurement Regulations (Title 41, Chapter 1, FPR Part 1-9); or

(b) Part 9-9 of the ERDA Procurement Regulations; or

(c) For those contracting activities transferred to ERDA from agencies other than AEC, appropriate clause language from their former agencies,

as long as the substantive and procedural rights required by section 9 of the Federal nonnuclear Energy R&D Act are obtained, and the rights are not inconsistent with section 9. Normally, such clauses should acquire title in the Government and allow the contractor to retain a non-exclusive, revocable royalty-free license in the United States, and the right to file and retain title in any foreign country in which the Government does not elect to seek patent protection, and the contractor wishes to do so and requests such rights. Such foreign rights shall be subject to the rights in the Government called for in subsection 9(f)(2). Permitting the contractor to retain rights greater than these shall be considered a waiver.

In view of the fact that such clauses may not be uniform throughout the ERDA, a provision may be included to permit, after adoption of the permanent revision of Part 9-9, ERDA-PR, a renegotiation of the patent clause in accordance with the revised regulations if the contractor so requests.

FOREGROUND PATENT RIGHTS CLAUSES FOR NUCLEAR ENERGY CONTRACTS

For contracts which include nuclear energy research, development or demonstration work, contracting authorities shall use Part 9-9 of the ERDA Procurement Regulations, with the following exceptions:

(a) The E Type patent provisions of § 9-9.5004, modified to allow the contractor to retain a *revocable* license rather than a non-exclusive *irrevocable* license, may be used in all contracts except those calling for the operation of a Government-owned facility.

(b) The C Type clause acquires title, or exclusive rights, to inventions on behalf of the Government only in the nuclear field, or in the field of production or utilization of special nuclear material or atomic energy. This clause, therefore, is not commensurate with the total mission of ERDA. Pending revised regulations, it would be preferable in most cases, if the C Type clause specified those fields in which the contractor retains exclusive rights rather than the field in which the Government retains these rights. In any event, the Type C clause should be treated as a waiver. As stated in subparagraph (a) above, the non-exclusive license provided to the contractor should also be *revocable* rather than *irrevocable*.

(c) Language may be included to permit the contractor to retain title to inventions in foreign countries in which the Government does not elect to seek patent protection, and the contractor wishes to do so and requests such rights. Such foreign rights shall be subject to the type of conditions set forth in § 9-9.5006.

In contracts calling for nuclear energy work, a provision may also be included to permit, after adoption of the permanent revision of Part 9-9, ERDA-PR, a renegotiation of the patent clause in accordance with the revised regulations if the contractor so requests.

PATENT RIGHTS CLAUSE FOR OPERATING CONTRACTS

For contracts calling for the operation of a Government-owned facility, whether nuclear or nonnuclear energy research, development or demonstration work is to be undertaken, a Type A patent clause of § 9-9.5003 of the ERDA Procurement Regulations shall be used.

BACKGROUND PATENT AND DATA RIGHTS CLAUSES

Consideration should be given to including background patent and data rights clauses in all contracts involving nuclear or nonnuclear energy research, development, or demonstration work. Guidance primarily designed for nuclear energy R&D is provided in § 9-9.5006 of the ERDA-PR, and this section may be used for nonnuclear energy research, development or demonstration work by applying its concepts to the field of energy in general. For those contracting activities transferred to ERDA from agencies other than AEC, the policies and clause language of their former agencies may be utilized to the extent they are not inconsistent with § 9-9.5006.

The need for background patent and data rights and the particular rights that should be obtained for either the Government or the public will depend upon the type, purpose, and scope of the contract effort, the end use intended for the contract results, and the cost to the Government of obtaining such rights. Accordingly, these clauses, when found to be necessary, should be individually negotiated for either nuclear or nonnuclear contracts. In general, the same type of factors should be considered as those set forth for waivers in subsection 9(d) of the Federal Nonnuclear Energy R&D Act. The need and amount of anticipated future use by the Government and/or the public should be determining factors, and of particular concern is the need to insure reasonable public availability or accessibility of background technology necessary to practice the results of contracts for the design, development or demonstration of energy systems or processes ultimately intended for public use.

SUBCONTRACT CLAUSES

In contracts for nonnuclear energy research, development or demonstration work, the prime contract foreground patent rights clause should not be made applicable, pro forma, to subcontracts including research, development or demonstration work unless the prime contract clause calls for title to inventions to vest in the Government with the contractor retaining a non-exclusive, revocable license. Section 9 of the Federal Nonnuclear Energy R&D Act applies to subcontracts as well as prime contracts, and a determination that a prime contractor is entitled to a waiver does not necessarily mean that the subcontractor is so entitled. A waiver for a subcontractor must be subject to a separate determination by ERDA. Background patent and data rights clauses should be applied to subcontracts including research, development, or demonstration work to the extent necessary to fulfill the purpose of the prime contract.

Similarly, subcontracts under nuclear energy prime contracts should not automatically include the prime's foreground patent rights clause unless that clause calls for title to inventions to vest in the Government with the contractor retaining a non-exclusive revocable license. A separate decision must be made regarding the applicability of a waiver to a subcontractor. As under nonnuclear subcontracts, background patent and data rights clauses should be applied to nuclear subcontracts to the extent necessary to fulfill the purpose of the prime contract.

WAIVERS

a. *Nonnuclear Energy Contracts.* Requests for advance waiver of rights in inventions made under ERDA contracts may be received by ERDA contracting officers or by contractors for their subcontractors in the course of contract negotiations, or their review of proposals or bids. Requests may also be received for case by case waivers after inventions have been reported to the ERDA. All

such waiver requests should be referred to the ERDA Patent Counsel assisting the contracting activity, together with any reference or supporting documents provided by the requestor and supporting or opposing documents provided by ERDA Staff at the activity. Field Patent Counsel will coordinate actions on advance waivers with the Chief Counsel of the Field Office concerned as required by local procedures.

The Patent Counsel will prepare a supporting Statement of Considerations which reviews the considerations listed in subsections 9(d) and 9(e) of the Federal Nonnuclear Energy Research and Development Act of 1974 and applies them to the facts surrounding the individual waiver situation. Each of the factors listed in the appropriate section shall be considered and the Statement shall so state, but only those considerations determinative of the recommendation need be discussed in detail. Patent Counsel shall conclude the Statement with a recommendation on the waiver request, and the request and Statement will be forwarded to the Assistant General Counsel for Patents, Headquarters, to serve as a basis for the waiver decision by the Administrator or his designee. In situations where time does not permit a delay in contract negotiations for the preparation and mailing to ERDA Headquarters of full written Statements, Field Patent Counsel may submit verbal recommendations for waivers to the Assistant General Counsel for Patents and request verbal interim waiver approval from the Administrator or his designee.

b. *Nuclear Energy Contracts.* In order to achieve as much consistency as possible in the patent operations throughout ERDA, the waiver procedures discussed above will be followed for nuclear as well as nonnuclear energy contracts in any situation where the contractor or inventor retains more than: (a) a non-exclusive, revocable license in the United States; and (b) foreign rights in countries where the Government elects not to seek patent protection, or foreign rights in accordance with § 9-9.5006 of the ERDA-PR. In addition to the considerations set forth in subsections 9(d) and 9(e) of the Federal Nonnuclear Energy R&D Act, consideration should also be given to the extent to which the contract (or the invention) involves "• • • the production or utilization of special nuclear material or atomic energy" (Section 152 of the Atomic Energy Act of 1954, as amended).

c. *Irrevocable Licenses.* Although allowing the contractor to retain an irrevocable non-exclusive license is not a waiver under Section 9 of the Federal Nonnuclear Energy R&D Act, the House-Senate Conference Committee Report recognizes that such licenses will interfere with ERDA's licensing program which is intended to assist commercial utilization of inventions resulting from Government R&D. For this reason, the Conference Report stated that the Administrator should carefully exercise his discretion in granting irrevocable licenses. Accordingly, requests by a contractor for an irrevocable license should be handled in the same manner as a waiver pending issuance of revised regulations.

d. *Approval of University Technology Transfer Programs. Paragraph* (11) of subsection 9(d) of the Federal Nonnuclear Energy R&D Act provides that in waiver determinations, consideration should be given to the extent to which universities have technology transfer capabilities and programs approved by the Administrator. Pending the development of an approval process within ERDA for university capabilities and programs, consideration may be given to the approval of such programs of a university approval by another agency will not meet the statutory requirement of approval by the Administrator, approval by other agencies will be relevant information to be considered by the Administrator.

e. *Waiver Approval and Documentation.* The Assistant General Counsel for Patents will advise contractors and contracting officers, through Field Patent Counsel and the Chief Counsel where appropriate, of the decision of the Administrator or his designee on the waiver request. A copy of the Statement of Considerations must be furnished with the Patent Information Sheet required by ERDA-PR 9-9.5014 for each contract where verbal approval of a waiver was obtained. Copies of all Statements of Considerations received by the Administrator or his designee will be made available to the public in accordance with subsection 9(c) of the Federal Nonnuclear Energy R&D Act.

(Sec. 105, Energy Reorganization Act of 1974 (Pub. L. 93-438); sec. 9, Federal Nonnuclear Energy Research and Development Act of 1974 (Pub. L. 93-577); sec. 205, Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, 40 U.S.C. 486)

JOSEPH L. SMITH,
Director of Procurement.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

[32 CFR Part 641]

[ER 405-1-663]

UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES

Miscellaneous Amendments

Notice is hereby given that the Department of the Army (acting through the Chief of Engineers) proposes to amend its regulations in Title 32, Part 641, Code of Federal Regulations, governing administration of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (84 Stat. 1894, 42 USC 4601).

The proposed amendment incorporates certain revisions in the guidelines for agency implementation of the above act issued in General Services Administration Federal Management Circular 74-8, published in the FEDERAL REGISTER October 21, 1974. In addition, the proposed amendment incorporates a change in procedure relating to the replacement housing payment in farm land condemnation cases.

It is the policy of the Department of the Army, whenever practicable to afford the public the maximum opportunity to participate in the rule making process. Accordingly, interested persons may submit their written comments, suggestions, or objections with respect to the proposed changes to Headquarters, Department of the Army (ATTN: DAEN-REH-O) WASH DC 20314 on or before June 2, 1975.

Dated: April 10, 1975.

For the Chief of Engineers.

RUSSELL J. LAMP,
Colonel, Corps of Engineers,
Executive.

Subpart A of Part 641 of Subchapter J of Chapter V of Title 32 of the Code of Federal Regulations is amended as follows:

Section 641.33 is revised to read:

§ 641.33 Dwelling.

"Dwelling" means the place of permanent or customary and usual abode of a person. It includes a single-family building; a one-family unit in a multifamily building; a unit of a condominium or cooperative housing project; any other residential unit, including a mobile home which is either considered to be real property under State law, or cannot be moved without substantial damage or unreasonable cost or is not a decent, safe, and sanitary dwelling.

Subpart D of Part 641 of Subchapter J of Chapter V of Title 32 of the Code of Federal Regulations is amended as follows:

1. Section 641.82 is revised to read:

§ 641.82 Businesses—Eligibility.

(a) A person displaced from his business, as defined in subsection 101(7) (A), (B), and (C), is eligible under subsection 202(c) to receive a fixed payment in lieu of moving and related expenses. Care must be exercised in each instance, however, to assure that such payments are made only in connection with a bona fide business.

(b) A payment in lieu of actual reasonable moving expenses may be made under section 202(c) to the displaced owner of a business only if the District Engineer determines that during the two taxable years prior to displacement, or during such other period as he may determine to be more equitable, the business:

(1) Had average annual gross receipts of at least $2,000 in value; or

(2) Had average annual net earnings of at least $1,000 in value; or

(3) Contributed at least 33⅓ percent of the average gross annual income of the owner(s), including income from all sources, such as welfare.

(c) Those businesses, described in subsection 101(7) (D) are not eligible under subsection 202(c) for a payment in lieu of moving and related expenses.

(d) Where a person is displaced from his place of business, no payment shall be made under subsection 202(c) until after the District Engineer determines:

(1) That the business is not part of a commercial enterprise having at least one other establishment not being acquired, which is engaged in the same or similar business, and

(2) That the business cannot be relocated without a substantial loss of existing patronage. The determination of loss of existing patronage shall be made by the District Engineer only after consideration of all pertinent circumstances, including but not limited to the following factors:

(i) Type of business conducted by the displaced concern;

(ii) Nature of the clientele of the displaced concern; and

(iii) Relative importance of the present and proposed location to the displaced business and the availability of a suitable replacement location for the displaced person who operates the business.

2. Section 641.83 is revised to read:

§ 641.83 Farms—Partial taking.

(a) *Eligibility.* A payment in lieu of actual reasonable moving expenses may be made to the displaced owner of a farm operation according to the criteria established for displaced owners of businesses (§ 641.82(b)). Such a payment may be made to the displaced operator of a farm operation only if the District Engineer determines that the farm operator has discontinued his entire farm operation at the present location or has relocated the entire farm operation.

(b) *Partial taking.* In the case of a partial taking, the operator will be considered to have been displaced from a farm operation if:

(1) The part taken met the definition of a farm operation prior to the taking; or

(2) The taking caused the operator to be displaced from the farm operation on the remaining land; or

(3) The taking caused such a substantial change in the nature of the existing farm operation as to constitute a displacement.

Subpart E of Part 641 of Subchapter J of Chapter V of Title 32 of the Code of Federal Regulations is amended as follows:

1. The first paragraph of § 641.104 is revised to read:

§ 641.104 Differential payment for replacement housing.

The amount established as the differential payment for the replacement housing sets the upper limit of such payment. The District Engineer may determine the amount, if any, which when added to the acquisition cost of the dwelling acquired is necessary to purchase a comparable replacement dwelling either by establishing a schedule or by using a comparative method. The displaced person is bound by the method selected for use by the District Engineer.

* * * * *

2. Section 641.105 is revised to read:

§ 641.105 Increased interest payments.

The District Engineer shall determine the amount, if any, necessary to compensate a displaced person for any increased interest costs, including points paid by the purchaser. Such amount shall be paid only if the acquired dwelling was encumbered by a bona fide mortgage. The following shall be considered:

(a) The payment shall be equal to the excess in the aggregate interest and other debt service costs of the amount of the principal of the mortgage on the replacement dwelling which is equal, to the unpaid balance of the bona fide mortgage on the acquired dwelling, at the time of acquisition, over the remaining term of the mortgage on the acquired dwelling, reduced to discounted present value.

(b) The discount rate shall be the prevailing interest rate paid on savings deposits by commercial banks in the general area in which the replacement dwelling is located.

(c) A "bona fide mortgage" is one which was a valid lien on the acquired dwelling for not less than 180 days prior to the initiation of negotiations. All bona fide mortgages on the dwelling acquired by the Corps of Engineers will be used to compute the increased interest cost portion of the replacement housing payment.

(d) "The computation of the payment for increased interest costs will be based on the actual term of the new mortgage or the remaining term of the old mortgage, whichever is the lesser, and the computation will be based on the actual amount of the new mortgage or the amount of the old mortgage, whichever is the lesser.

(1) Seller's points are not to be included in the interest computation.

(2) The actual interest rate of the new mortgage will be used in the computation.

(3) Purchaser's points and/or loan origination fees will be added to the computed interest payment.

(e) However, the interest payment shall be based on the present value of the reasonable cost of the interest differential, including points paid by the purchaser, on the amount of the unpaid debt on the acquired dwelling for its remaining term.

(f) See format for computation of interest payment below:

REQUIRED INFORMATION

1. Outstanding balance of mortgage on acquired dwelling ---------- $——
2. Outstanding balance of mortgage on replacement dwelling ---------- $——
3. Lesser of Line 1 or Line 2 ---------- $——
4. Number of months remaining until last payment is due for mortgage on acquired dwelling ---------- ——
5. Number of months remaining until last payment is due for mortgage on replacement dwelling ---------- ——
6. Lesser of Line 4 or Line 5 ---------- ——
7. Annual interest rate of mortgage on acquired dwelling (percent) ---------- ——
8. Annual interest rate of mortage on replacement dwelling (or, if it is lower, the prevailing annual interest rate currently charged by mortgage lending institutions in the general area in which the replacement dwelling is located) (percent) ---------- ——
9. Prevailing annual interest rate paid on standard passbook savings accounts by commercial banks (percent) ---------- ——
10. If applicable, any debt service costs on the loan on the replacement dwelling, such as points paid by the purchaser which are not reimbursable as an incidental expense ---------- $——

DEVELOPMENT OF MONTHLY PAYMENT FIGURES

A. Monthly payment required to amortize a loan of $——— in ——— (Line 3) (Line 6) months at an annual interest rate of ——— percent ---------- $—— (Line 7)

B. Monthly payment required to amortize a loan of $——— in ——— (Line 3) (Line 6) months at an annual interest rate of ——— percent ---------- —— (Line 8)

C. Monthly payment required to amortize a loan of $——— in ——— (Line 3) (Line 6) months at an annual interest rate of ——— percent ---------- —— (Line 9)

CALCULATION OF INTEREST PAYMENT

Step 1. Subtract A from B:

Monthly payment based on rate for replacement dwelling (B) ---------- $——
Monthly payment based on rate for acquired dwelling (A) ---------- $——
Result (difference) ---------- $——

Step 2. Divide result (difference) of Step 1 by C (carry to 6 decimal places):

Result (difference) from Step 1 ---------- $——
Monthly payment based on savings rate (C) ---------- $——
Result (quotient) ---------- $——

Step 3. Multiply outstanding balance of mortgage on acquired dwelling by result (quotient) of Step 2:

Outstanding Balance (from Line 3) ---------- $——
Result (quotient) of Step 2 ---------- $——
Result (product) ---------- $——

Step 4. Add to result (product) of Step 3 any debt service costs on the loan on the replacement dwelling:

Result (product) of Step 3, first mortgage ---------- $——
Result (product) of Step 3, second mortgage[1] ---------- $——
Sum of difference, as applicable[1] ---------- $——
Add debt service costs on loan on replacement dwelling (Line 10) ---------- $——
Amount of interest payment ---------- $——

[1] If there is more than one outstanding mortgage on an acquired dwelling, the discounted value of each mortgage must be determined. To do this, a separate computation is made to such mortgage through Step 3. A consolidated Step 4 is then completed.

3. Section 64.109 is revised to read:

§ 641.109 Advance replacement housing payment in condemnation cases.

No property owner should be deprived of the earliest possible payment of the replacement housing amounts to which he is rightfully due. The following procedure shall be used in cases involving condemnation except as indicated in (c) below:

(a) An advance replacement housing payment can be computed and paid to a property owner if the determination of the acquisition price will be delayed pending the outcome of condemnation proceedings. The District Engineer may make a provisional replacement housing payment to the displaced homeowner based on the Government's maximum offer for the property, provided the homeowner enters into an agreement with the Government that:

(1) Upon final determination of the condemnation proceedings, the replacement housing payment will be recomputed using the acquisition price determined by the court as compared to the actual price paid or the amount determined necessary to acquire a comparable, decent, safe, and sanitary dwelling; and

(2) If the amount awarded in the condemnation proceedings as the fair market value of the property acquired plus the amount of the recomputed replacement housing payment exceeds the price paid for, or the District Engineer's determined cost of a comparable dwelling, he will refund to the Government, an amount equal to the amount of the excess. However, in no event shall he be required to refund more than the amount of the replacement housing payment advanced.

(b) If the property owner does not agree to such adjustment, the replacement housing payment shall be deferred until the case is finally adjudicated and computed on the basis of the final determination, using the award as the acquisition price.

(c) The above procedure shall not be applied to acquisition of farm land which includes a dwelling. In such cases, condemnation awards in excess of the amount deposited with the court shall be allocated entirely to farm land exclusive of the dwelling portion of the farm.

Subpart F of Part 641 of Subchapter J of Chapter V of Title 32 of the Code of Federal Regulations is amended as follows:

In § 641.132 the introductory text of (a), (a) (5), and (b) are revised to read:

§ 641.132 Computation and method of payment.

(a) *Rental supplement housing payment.* The District Engineer may determine the amount necessary to rent a comparable replacement dwelling either by establishing a schedule or by using a comparative method; provided, however, that in computing the rental replacement housing payment under either method, the actual or economic rent of the acquired dwelling shall be subtracted from the lesser of the amount of rent actually paid for the replacement dwelling; or the amount determined necessary to rent a comparable replacement dwelling.

* * * * *

(5) *Method of payment.* The amount of the rental payments under section 204 (1) shall be determined and paid in a lump sum, except that it shall be paid in installments if the displaced person so requests.

(b) *Purchases—Replacement housing payment.* If the displaced person elects to purchase instead of renting, the payment shall be computed by determining the amount necessary to enable him to make a down payment and to cover incidental expenses on the purchase of replacement housing, as follows:

(1) The amount of the down payment shall be the lesser of:

(i) The amount that would be required as a down payment for financing a conventional loan on a comparable dwelling; or

(ii) The amount required as a down payment for financing a conventional

V 40 I 73 APR 15 75 XUM

loan on the replacement dwelling actually purchased.

The amount determined shall be added to the amount required to be paid by the purchaser as points and/or origination or loan service fees, if such fees are normal to real estate transactions in the area, on the comparable dwelling or the replacement dwelling, whichever is the lesser.

(2) Incidental expenses of closing the transaction are those as described in § 641.106.

(3) The maximum payment shall not exceed $4,000 except that if more than $2,000 is required, the tenant must match any amount in excess of $2,000 by an equal amount in making the down payment.

(4) The full amount of the replacement housing payment must be applied to the purchase price and incidental costs shown on the closing statement.

(Pub. L. 91-646, 2 January 1971 (84 Stat. 1894; 42 USC 4601))

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 982]

[Docket No. AO 205-A4]

FILBERTS GROWN IN OREGON AND WASHINGTON

Hearing on Proposed Amendments to Marketing Agreement and Order

Notice is hereby given of a public hearing to be held April 29, 1975, in the Conference Room, Washington Building, 1218 SW Washington St., Portland, Oregon, beginning at 9 a.m., local time, with respect to proposed amendments to the marketing agreement, as amended, and to the order, as amended, regulating the handling of filberts grown in Oregon and Washington.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

PROPOSED BY THE FILBERT CONTROL BOARD

PROPOSAL NO. 1

Amend § 982.17 by designating the current section as paragraph (a) thereof and adding a new paragraph (b) to read as follows:

§ 982.17 Fiscal year and marketing policy year.

(a) "Fiscal year" means the 12 months from August 1 to the following July 31, both inclusive.

(b) "Marketing policy year" means the 12 months from August 1 to the following July 31, both inclusive, or such other period of time as may be recommended by the Board and established by the Secretary.

PROPOSAL NO. 2

§§ 982.16, 982.50, 982.52, 982.54, 982.71, 982.86 [Amended]

Pursuant to proposal 1, change all references to "fiscal year" to read "marketing policy year" in § 982.16; § 982.50 (c) and (d); § 982.52(a) and (d); § 982.54(a), (c), and (e); § 982.71; and § 982.86(b)(3).

PROPOSAL NO. 3

Amend § 982.40 to read as follows:

§ 982.40 Board's estimates and recommendations.

(a) Each marketing policy year, prior to the time the new crop filberts are available for handling, the Board shall hold a meeting for the purpose of recommending to the Secretary a marketing policy for that year. The recommendation shall include the following:

(1) *Inshell allocation.* (i) The Board's estimate of the quantity of merchantable filberts expected to be produced that year.

(ii) The Board's estimate of the inshell handler carryover on the first day of the marketing policy year, segregated as to the quantity subject to regulation and not subject to regulation.

(iii) The Board's recommendation, if any, for handler carryover of inshell filberts on the last day of the marketing policy year, which may be available for handling as inshell filberts thereafter.

(iv) The Board's estimate of the trade demand for inshell filberts for that year, taking into consideration trade carryover at the beginning and end of the year, imports, prices, prospective shelled filbert market conditions and other factors affecting trade demand for inshell filberts during the year.

(v) The Board's recommendation as to a free percentage and a restricted percentage to be established for that year. Whenever the Board recommends those percentages it may make an adjustment in its estimate of merchantable filberts expected to be produced to protect against any error in estimation of that production. As soon as practicable after the official estimate of production is released in November, the Board shall meet to determine if changes in the free and restricted percentages are necessary to release the quantity of merchantable filberts equal to its estimate of the trade demand for those filberts for that year.

* * * * *

(b) At any time prior to February 15 of any year, the Board, or two or more handlers who during the preceding marketing policy year (or fiscal year, when appropriate) handled at least 10 percent of all filberts handled, may recommend to the Secretary revision in the marketing policy for that year.

PROPOSAL NO. 4

§ 982.40 [Amended]

In lieu of the proposal contained in number 3, amend § 982.40 to provide that the Board shall, early in the marketing policy year, recommend a release of 90 percent of the estimated trade demand for inshell filberts by means of establishment of a preliminary free percentage. Then, no later than November 15, the Board would be required to recommend a free percentage which would tend to release a quantity equal to the estimated trade demand for inshell filberts for that year.

PROPOSAL NO. 5

Revise § 982.41 to read as follows:

§ 982.41 Free and restricted percentages.

Whenever the Secretary finds, on the basis of the Board's recommendation or other information, that limiting the quantity of merchantable filberts which may be handled during a marketing policy year would tend to effectuate the declared policy of the act, he shall establish a free percentage or change the free percentage, as applicable, to prescribe the portion of those filberts which may be handled as inshell filberts and a restricted percentage to prescribe that portion that must be withheld from such handling. In establishing such percentages the Secretary shall consider the ratio of (a) the estimated inshell trade demand, less that portion of the inshell handler carryover at the beginning of the marketing policy year not subject to regulation to (b) the estimated supply of merchantable filberts subject to regulation and other relevant factors. In the same manner the free percentage may be increased and the restricted percentage may be decreased by the Secretary, and these revised percentages shall remain in effect for that marketing policy year until superseded.

PROPOSAL NO. 6

Revise the first sentence of § 982.46(a) to read as follows:

§ 982.46 Inspection and certification.

(a) Before or upon handling any filberts, or before any inshell or shelled filberts are credited (under §§ 982.50 or 982.51) in satisfaction of a restricted obligation, each handler shall, at his own expense, cause such filberts to be inspected and certified by the Federal-State Inspection Service as meeting the then effective grade and size regulations or, if inshell or shelled filberts are withheld under § 982.51, the applicable requirements specified in that section. * * *

PROPOSAL NO. 7

Revise § 982.50(a) to read as follows:

§ 982.50 Restricted obligation.

(a) No handler shall handle inshell filberts unless prior to or upon shipment thereof, he (1) has withheld from handling a quantity, by weight, of certified merchantable filberts determined by dividing the quantity handled, or to be handled, by the free percentage and multiplying the quotient by the restricted percentage; (2) has withheld from handling an equivalent quantity of creditable ungraded inshell filberts under § 982.51(a), or; (3) has, under § 982.51 (b), declared in lieu of a quantity of certified merchantable filbers, the equivalent quantity, by weight as determined under that section, of shelled filberts certified as meeting the standards in effect for Oregon No. 1 grade for shelled filberts as contained in Oregon Grade Standards for Filbert (Hazelnut) Kernels or such other standards as may be recommended by the Board and established by the Secretary. Withholding may be temporarily deferred under the bonding provisions in § 982.54. The quantity of filberts required to be withheld shall be the restricted obligation. Certified merchantable filberts handled in accordance with this subpart shall be deemed to be the handler's quota fixed by the Secretary within the meaning of section 8a(5) of the act.

* * * * *

PROPOSAL NO. 8

Amend § 982.51 by changing the heading, designating the current section as paragraph (a) of the proposed new section, and adding a new paragraph (b). The new section would read as follows:

§ 982.51 Restricted credit for ungraded inshell filberts and for shelled filberts.

* * * * *

(b) A handler may withhold, in accordance with § 982.50(a), shelled filberts in lieu of merchantable filberts in satisfaction of his restricted obligation subject to such terms and conditions as are recommended by the Board and established by the Secretary. The inshell equivalent of any such filberts shall be determined by multiplying the weight of the shelled filberts by 250 percent. This percent may be changed upon recommendation of the Board and approval of the Secretary.

PROPOSAL NO. 9

§ 982.54 [Amended]

Section 982.54(a) should be amended to change the date contained therein from "January 31" to "April 30".

PROPOSAL NO. 10

Amend the first sentence of § 982.65 to read as follows:

§ 982.65 Carryover reports.

On or before January 15 and August 5, of each year and within 10 days following the end of a marketing policy year, respectively, each handler shall report to the Board his inventory of inshell and shelled filberts as of January 1, August 1, and the first day of the marketing policy year, respectively. * * *

PROPOSED BY THE FRUIT AND VEGETABLE DIVISION, AGRICULTURAL MARKETING SERVICE.

PROPOSAL NO. 11

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Portland Marketing Field Office, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, 1218 SW Washington St., Portland, OR 97205, or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on April 9, 1975.

JOHN C. BLUM,
Associate Administrator.

[FR Doc.75-9794 Filed 4-14-75;8:45 am]

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1952]

HAWAII PLAN

Proposed Supplement

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and Part 1902 of this chapter. On January 4, 1974, a notice was published in the FEDERAL REGISTER of the approval of the Hawaii plan and of the adoption of Subpart Y of Part 1952 containing the decision of approval (39 FR 1010). On December 23 and 24, 1974 the State of Hawaii submitted supplements to the plan involving developmental changes (see Subpart B of 29 CFR Part 1953).

The decision approving the Hawaii plan incorporated a developmental schedule setting forth time frames for the implementation of various components of the Hawaii plan. Among other things, the schedule provides for the complete implementation of the State's occupational health program by December 1974, and the implementation of the State's Management Information System in late 1974.

2. *Description of the supplements.* The Hawaii occupational health program was approved by the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter referred to as the Assistant Secretary), subject to certain assurances, on December 27, 1974 (39 FR 44752). As part of the decision approving the occupational health program, the developmental schedule for Hawaii was revised to provide for complete implementation of the program by January 1975. By letter dated December 23, 1974, the State requested that the implementation date for its occupational health plan be changed to July 1975. This delay is due to difficulties the State has had in personnel hiring and a recent move to new offices. The supplement includes a series of intermediate steps leading to full implementation of the occupational health program by July 1975, including recruitment and hiring in March 1975, and orientation and on-the-job training from April to June 1975.

By letter dated December 27, 1974, the State requested that the developmental schedule for implementation of the Management Information System be changed from December 1974 to December 1975. The State has experienced some technical difficulties with the computer program and some staffing problems which made implementation before the end of 1974 impossible. The implementation schedule for the Management Information System includes a proposed time schedule leading to full implementation by December 1975.

3. *Location of the plan and its supplement for inspection and copying.* A copy of this supplement, along with the approved plan may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room 850, 1726 M Street NW., Washington, D.C. 20210; Office of the Assistant Regional Director, Occupational Safety and Health Administration, Room 9470, Federal Office Building, 450 Golden Gate Avenue, San Francisco, California 94102; and Department of Labor and Industrial Relations, Room 308, 825 Milani Street, Honolulu, Hawaii 96813.

4. *Public participation.* Interested persons are hereby given until May 15, 1975, in which to submit written data, views and arguments concerning whether the supplement should be approved. Such submissions should be addressed to the Associate Assistant Secretary for Regional Programs at his address as set forth above where they will be available for inspection and copying.

Any interested person may request an informal hearing concerning the proposed supplements, by filing particularized written objections with respect thereto within the time allowed for comments with the Associate Assistant Secretary for Regional Programs. If in the opinion of the Assistant Secretary substantial objections are filed, which warrant further public discussion, a formal or informal hearing on the subjects and issues involved may be held.

The Assistant Secretary shall consider all revelant comments, arguments and requests submitted in accordance with this notice and shall thereafter issue his decision as to approval or disapproval of the supplements, make appropriate amendments to Subpart Y of Part 1952 and initiate further appropriate proceedings if necessary.

(Secs. 8(g), 18, Pub. L. 91-596, 84 Stat. 1600, 1608 (29 U.S.C. 657(g), 667))

Signed at Washington, D.C. this 9th day of April 1975.

JOHN STENDER,
Assistant Secretary of Labor.

V 40 I 73
APR 15 75

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 75-CE-9-AD]

GATES LEARJET 23, 24, AND 25 SERIES AIRPLANES

Proposed Airworthiness Directive

The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an Airworthiness Directive (AD) applicable to certain serial numbers of Gates Learjet 23, 24 and 25 series airplanes. Inspections performed by the manufacturer on upper main landing gear struts of these series airplanes have revealed forging tears which could affect the fatigue life of these components. While these flaws do not affect the static strength of the parts and the design fatigue life is based on a relatively high number of landings and sink speeds, the deteriorating effects of these flaws must be corrected. Accordingly, an AD is being proposed that will require appropriate inspections of the upper main landing gear struts, and removal of any flaws or replacement of the struts if the flaws reach a certain magnitude. The proposed compliance time is 600 hours time in service after the AD's effective date, but not later than September 30, 1976.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the Federal Aviation Administration, Office of the Regional Counsel, 1558 Federal Building, 601 East 12th Street, Kansas City, Missouri 64106. All communications received on or before May 15, 1975 will be considered before action is taken upon the proposed rule. The proposals contained in this notice may be changed in light of the comments received. All comments will be available, both before and after the closing date for comments, in the Airworthiness Rules Docket for examination by interested persons.

Sections 313(a), 601, 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423), section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new AD.

GATES LEARJET. Applies to 23 (Serial Numbers 23-003 thru 23-009); 24 (Serial Numbers 24-100 thru 24-297); and 25 (Serial Numbers 25-003 thru 25-182) series airplanes.

Compliance: Required as indicated unless already accomplished in accordance with Gates Learjet Service Bulletin No. SB 23/24/25-259A or later approved revision.

To check for flaws in the upper main landing gear struts, accomplish the following:

(A) Within the next 600 hours' time in service after the effective date of this AD, but not later than September 30, 1976, using eddy current or ultrasonic inspection equipment and procedures, inspect the left and right upper main landing gear struts for flaws in accordance with the instructions and sketches outlined in Gates Learjet Service Bulletin No. SB 23/24/25-259A or later approved revisions, or alternatively, remove the left and right upper landing gear struts from the airplane, disassemble, clean, and inspect the struts for flaws in accordance with the aforementioned Service Bulletin.

(B) If, as a result of the inspections referred to in Paragraph A, flaws are detected, within the next 50 hours' time in service, accomplish the following:

1. Remove any flaw in an upper main landing gear strut with a depth less than 0.025 inches in accordance with the procedures outlined in the aforementioned Service Bulletin.

a. After flaw removal, reinspect using eddy current or ultrasonic methods to assure complete removal of the flaw and then treat and paint the affected area in accordance with the aforementioned Service Bulletin.

2. For flaws that exceed a depth of 0.025 inches, modify the upper main landing gear strut in accordance with instructions provided by the manufacturer or alternatively, replace with an airworthy part.

(C) Any equivalent method of compliance with this AD must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

NOTE: Aircraft inspected and in compliance with Gates Learjet Service Bulletin SB 23/24/25-259 (i.e., the original Service Bulletin on this subject) are considered to have complied with the requirements of this AD.

Issued in Kansas City, Missouri, on April 4, 1975.

C. R. MELUGIN, JR.,
Director, Central Region.

[14 CFR Part 71]

[Airspace Docket No. 75-SW-21]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to designate a 700-foot transition area at Mason, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Forth Worth, Texas 76101. All communications received on or before May 15, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Forth Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

MASON, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Mason County Airport (latitude 30°43'54" N., longitude 99°11'06" W.).

The proposed transition area will provide controlled airspace for aircraft executing the proposed VOR/DME-A, Original, instrument approach procedure.

This notice will also serve to advise interested persons that Mason County Airport is changed from a VFR to an IFR category airport.

Section 307(a) Federal Aviation Act of 1958 (49 U.S.C. 1348), section 6(c) Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Forth Worth, Tex., on April 4, 1975.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 72-26; Notice 2]

MOTOR VEHICLE SAFETY STANDARDS

Foam-Filled Tires; Withdrawal of Proposal

This notice withdraws an advance notice of proposed rulemaking published November 23, 1972 (37 FR 24908), requesting comments and suggestions on possible requirements for passenger car and truck tires filled with foam.

The NHTSA has decided to withdraw the advance notice on the basis that it has not discovered in the course of the rulemaking the existence of safety problems associated with the use of foam-filled tires. Moreover, the comments have indicated that these tires have limited application in the field and their expense is sufficiently high when compared to air-filled tires to preclude widespread use. It is unlikely, therefore, that benefits to be achieved from special requirements for them would justify the costs associated with compliance.

The NHTSA has further determined, following a review of the comments, that tires filled with foam or similar materials should not be considered pneumatic tires subject to Federal Motor Vehicle Safety Standards Nos. 109 and 119 (49 CFR 571.109, 571.119). This interpretation modifies the interpretation published in the advance notice of November 23, 1972, that such tires were subject to the standards. The requirements of those standards are based on the performance capabilities of tires filled with air, and their application without restriction to tires filled with foam or foam-like substances cannot be based on the information presently available to the agency. However, such tires are motor vehicle equipment and are subject to the provisions of the National Traffic and Motor Vehicle Safety Act. The NHTSA would consider the imposition of requirements on these tires in the future should a need for such requirements be demonstrated.

(Secs. 103, 112, 119, 201, Pub. L. 89-563, 88 Stat. 718; 15 U.S.C. 1392, 1401, 1407, 1421, delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on April 7, 1975.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

GENERAL SERVICES ADMINISTRATION

[34 CFR Part 235]

INVENTORY OF FEDERAL LABORATORIES

Establishment and Use

This notice offers interested parties an opportunity to comment on a proposed regulation developed to provide better management of Federal laboratory space. The regulation proposes (1) the establishment of a management system to ensure the compilation and maintenance of a Government-wide inventory of Federal laboratory space and (2) the promulgation of policies and procedures to ensure that the laboratory inventory is consulted during the evaluation process when Federal agencies are considering the need for additional laboratory facilities.

The proposed regulation is the product of an interagency task group. Its purpose is to protect against the overbuilding of laboratory space by requiring the assemblage of data sufficient for a meaningful central review of requests for new laboratory facilities.

Interested persons should submit their comments in triplicate to the General Services Administration (AMP), Washington, D.C. 20405. All relevant material should be received by May 16, 1975.

Dated: April 9, 1975.

R. E. ZECHMAN,
Associate Administrator.

This is a Federal Management Circular requiring all Federal agencies to adopt standard administrative requirements for evaluating the need to acquire additional laboratory facilities. Authority for issuance of the circular is provided under provisions of Executive Order 11717.

As proposed 34 CFR Part 235 will read as follows:

PART 235—ESTABLISHMENT AND USE OF THE INVENTORY OF FEDERAL LABORATORIES

Sec.
235.1 Purpose.
235.2 Background.
235.3 Applicability and definitions.
235.4 Policies and procedures.
235.5 Agency directives.
235.6 Inquiries.

AUTHORITY: Executive Order 11717.

§ 235.1 Purpose.

This part establishes policy and procedures to achieve more efficient use of existing Federal laboratories and to prevent the unneeded acquisition of new laboratory facilities.

§ 235.2 Background.

Federal laboratories, because of their specialized nature, are generally under the exclusive control of the occupant agency. There is a consequent lack of information about the availability of laboratory space on a Government-wide basis. This part is issued in recognition of the need for managers to have available in a central location certain basic information regarding Federal laboratory facilities. This part is issued pursuant to Executive Order 11717 of May 9, 1973, Transferring Certain Functions from the Office of Management and Budget to the General Services Administration and the Department of Commerce.

§ 235.3 Applicability and definitions.

The provisions of the part apply to all executive departments and establishments. The term "agency" throughout the part is synonymous with the term "departments and establishments" as defined in Subpart 200.5. The terms "laboratory" or "laboratory facility" mean any Government-owned or -leased building containing 10,000 square feet or more, or an area of 10,000 square feet or more within such a building, that is equipped and/or used for scientific research, testing, or analysis.

§ 235.4 Policies and procedures.

Federal agencies shall ensure that laboratories under their control are efficiently utilized and to that end shall cooperate in making underutilized facilities available to other agencies having a requirement. Laboratory facilities or parts thereof that are underutilized shall be reported promptly to the General Services Administration in accordance with the provisions of Part 231.

(a) *Inventory of Federal laboratories.* The General Services Administration (GSA) shall assemble and maintain a current printed inventory of all Federal laboratories. The complete inventory or selective information contained therein will be made available to Federal agencies upon request. To enable GSA to prepare and maintain the inventory the headquarters office of each agency shall submit a completed GSA Form 3252, Federal Laboratory Report to GSA for each laboratory it owns or controls." Completed copies of all report forms shall be submitted to the General Services Administration (PR), Washington, DC 20405, by August 1, 1975. Thereafter, additional reports shall be submitted to GSA each time a significant change (plus or minus 10 percent) occurs in the occupancy of a previously reported laboratory. Agencies may obtain their initial supply of GSA Form 3252 from General Services Administration (3FNDD), Union and Franklin Streets Annex, Building 11, Alexandria, VA 22314. Agency field offices should submit all future requirements to their Washington headquarters office which will forward consolidated annual requirements to the General Services Administration (BRAF), Washington, DC 20405.

(b) *Agency use of inventory.* Agencies shall review the inventory of Federal laboratories to identify existing underutilized laboratory space when studying requirements for the acquisition of new laboratory space, including replacement of existing facilities. Agency files shall be thoroughly documented to reflect the precise reasons that existing laboratories having sufficient space available to accommodate an agency's need were not utilized instead of acquiring new space. In addition, cost analyses shall be made and retained in agency files showing the comparative costs of occupying available existing space vs. acquiring new space vs. contracting the performance of the laboratory work to a private firm or another government agency.

(c) *Special reports.* Agencies may request special reports on laboratory facilities from GSA. Reports can be provided on combinations of most of the data elements specified on the GSA Form 3252. For example, reports listing all vacant or underutilized laboratory space within a specific city, State, or zip code area can be provided. Request to GSA for special reports will be handled on a cost reimbursable basis. Such requests should be directed to the General Services Administration (PR), Washington, DC 20405, telephone: 202-343-4730.

(d) *GSA and OMB use of inventory.* GSA will use the inventory of Federal laboratories in screening requests for laboratory space received from agencies which it serves. OMB will use the inventory, and studies and analyses developed under (b), in reviewing agency budgetary requests for construction funds for new laboratory facilities.

§ 235.5 Agency directives.

Heads of agencies are responsible for promulgating such regulations, controls, and review actions as are necessary to comply fully with the provisions of this circular. Such regulations and controls shall ensure that accurate and complete GSA Forms 3252 are submitted to GSA

V 40 173 APR 15 75 XUM

in a timely manner and that significant changes are reported. Copies of all implementing documents, upon issuance, will be provided to the General Services Administration (AM), Washington, D.C. 20405.

§ 235.6 Inquiries.

Further information concerning this part may be obtained by contacting:

General Services Administration (AMP), Washington, D.C. 20405. Telephone: IDS 183-7528, FTS 202-343-7528.

APPENDIX A

FEDERAL LABORATORY REPORT

1. BUILDING NAME	
2. BUILDING ADDRESS (Street, city, State, ZIP code)	
3. BUILDING TYPE ☐ GOVERNMENT-OWNED ☐ LEASED	4. AGENCY CONTROLLING BUILDING (Name, address, ZIP code)
5. PERSON TO CONTACT ABOUT LABORATORY SPACE	(A) NAME (B) TELEPHONE NUMBER
6. OCCUPIABLE AREA OF BUILDING	SQUARE FEET
7. AMOUNT OF LABORATORY SPACE CONTAINED IN BUILDING	SQUARE FEET
8. AMOUNT OF VACANT OR UNDERUTILIZED LABORATORY SPACE AVAILABLE	SQUARE FEET
9. NUMBER OF PERSONS OCCUPYING LABORATORY SPACE	NUMBER
10. YEAR BUILDING CONSTRUCTED	YEAR
11. YEAR LABORATORY SPACE LAST RENOVATED OR MODERNIZED	YEAR
12. IS CONTROLLING AGENCY WILLING TO CONSIDER HAVING THIS LABORATORY PERFORM WORK FOR OTHER AGENCIES ON A COST REIMBURSABLE OR OTHER BASIS?	☐ YES ☐ NO
13. IS IT ANTICIPATED THAT THIS LABORATORY OR A PART OF IT MAY BECOME EXCESS TO THE NEEDS OF THE OCCUPANT AGENCY WITHIN THE NEXT 1-3 YEARS?	☐ YES ☐ NO

14. DESCRIPTION OF LABORATORY MISSION AND CAPABILITIES (Including name of occupant agency)

GENERAL SERVICES ADMINISTRATION GSA FORM 3252 (4-75)

INSTRUCTIONS FOR COMPLETING FEDERAL LABORATORY REPORT, GSA FORM 3252

This form should be completed and submitted to the General Services Administration in accordance with the Section a of FMC 75-?

Block 1. Enter the name of the building, if any, containing the laboratory. If there is no building name enter the name of the laboratory.

Block 2. Enter the address of the building. Abbreviations should not be used in providing the names of cities and states. The zip code must be provided.

Block 3. Indicate whether the building is owned by the Government or leased from a private person or company.

Block 4. The agency controlling the building is the agency responsible for the operation, maintenance and upkeep of the building. In leased buildings the controlling agency is that agency that issues the rent check.

Block 5. Furnish the name and telephone number of the person to contact about the laboratory space.

Block 6. The occupiable area of the building should be determined in accordance with subsection 101-17.003-27 of the Federal Property Management Regulations. Approximations are permitted where measurements are not available.

Block 7. Enter the amount of laboratory space contained in the building. Do not include office, storage or support space. Indicate only the amount of space specifically used for laboratory purposes.

Block 8. Indicate the amount of vacant or underutilized laboratory space that is currently available within the building.

Block 9. Enter the number of persons (scientists, technicians and others) who occupy the laboratory space.

Block 10. The year the building was constructed should be entered in this block. Approximations are permitted if the exact year is not known.

Block 11. Indicate the year the laboratory space was modernized or renovated. Approximations may be given when the exact year is not known.

Block 12. The controlling agency is the agency responsible for administering and conducting the programs of the laboratory.

Block 13. Indicate whether the laboratory will become excess within the next 1 to 3 years. Excess generally means that the property will not be required for programs of the agency.

Block 14. Provide a brief description of the mission and prime functions currently being performed by the laboratory. Also, furnish name of occupant agency.

[Public Notice CM-5/34]

OVERSEAS SCHOOLS ADVISORY COUNCIL

Meeting

The Executive Committee of the Overseas Schools Advisory Council, Department of State, will meet Monday, May 12, 1975, 10 a.m. in the Twelfth Floor Conference Room at the U.S. Mission to the United Nations, 799 United Nations Plaza, New York, New York 10017.

Agenda items scheduled for discussion are as follows:

I. Discussion of Second Phase of Council's Program.

A. Letter from Dr. E. Mannino of December 19, 1974, to the Overseas Schools.

B. Assistant Secretary John Thomas' Letter to U.S. Chiefs of Mission.

C. Communications from Schools Regarding Council's Second Phase.

D. Communications from U.S. Corporations and Foundations Regarding Same.

E. Local Fund-Raising Efforts and Strategies by the Schools.

II. Report by Eugene Lopez of Meeting in Copenhagen with the European Council of International Schools.

III. Report by R. C. Axtmann of Meeting in Tegucigalpa with the Inter Regional Center.

IV. Suggestions by Participants Regarding Methods and Mechanics of Local Fund Raising.

V. Advice to U.S. Corporations and Foundations of the "Fair Share" Contributed by U.S. Government to Each of the Schools.

A. Discussion of Whether Schools Should Be Asked if They Wish Council to Do So.

B. Discussion of Whether Corporations and Foundations Should Be Advised as to What the Government Is Doing, Solely for Guideline Purposes.

VI. Status Report.

VII. Strengthening Membership of Local School Boards by Addition of Senior Corporate Representation.

VIII. Selection of Date for Full Council Meeting.

For purposes of fulfilling building security requirements, anyone wishing to attend the meeting should call Ms. Judy Knott, Office of Overseas Schools, Department of State, Washington, D.C., Area Code 703–235–9601, prior to May 12.

Dated April 7, 1975.

ERNEST N. MANNING,
Executive Secretary, Overseas Schools Advisory Council.

[Public Notice CM-5/33]

SHIPPING COORDINATING COMMITTEE SUBCOMMITTEE ON SAFETY OF LIFE AT SEA

Meeting

The working group on Standards of Training and Watchkeeping of the U.S. Subcommittee on Safety of Life at Sea will hold an open meeting at 10 a.m. on Friday, May 9, 1975 in Room 8334 of the Department of Transportation, 400 7th Street, SW, Washington, D.C.

The purpose of this meeting will be to discuss the agenda for the Sixth Session of the Subcommittee on Standards of Training and Watchkeeping of the Intergovernmental Maritime Consultative Organization scheduled to meet June 9–13, 1975 in London.

Requests for further information on the meeting should be directed to Captain J. V. Caffrey, United States Coast Guard. He may be reached by telephone on (area code 202) 426–1500.

RICHARD K. BANK,
Chairman, Shipping Coordinating Committee.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

CHIEF COUNSEL'S ADVISORY COMMITTEE ON RULES OF PROFESSIONAL CONDUCT

Open Meeting

Notice is hereby given that pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92–463, a meeting of the Chief Counsel's Advisory Committee on Rules of Professional Conduct will be held on May 15, 1975, beginning at 9 a.m. in Room 3313, Internal Revenue Building, 1111 Constitution Avenue, NW, Washington, D.C. 20224. The agenda will include various topics concerning the rules of professional conduct governing tax practice with particular emphasis on problems generated by representation of taxpayers by former Internal Revenue Service employees.

The meeting will be open to the public. It is to be held in a room accommodating, in addition to members of the Committee, 25 people. Time permitting, after discussion of agenda subjects by Committee Members, interested persons may make statements germane to these subjects. Persons wishing to make oral statements should advise the Committee Manager in writing prior to the meeting to aid in scheduling the time available and should submit the written text, or, at a minimum, an outline of comments they propose to make orally. Such comments will be restricted to ten minutes in length. Any interested persons may file a written statement for consideration by the Committee by sending it to the Committee Manager, Chief Counsel's Advisory Committee, Room 3034, Internal Revenue Building, 1111 Constitution Avenue, NW, Washington, D.C. 20224.

MEADE WHITAKER,
Chief Counsel.

Office of the Secretary

DEFENSE SCIENCE BOARD TASK FORCE ON "ELECTRONIC TEST EQUIPMENT"

Advisory Committee Meeting

Pursuant to the provisions of Pub. L. 92–463, notice is hereby given that the Defense Science Board Task Force on "Electronic Test Equipment" will meet in open session on May 8 and 9, 1975, in Room 9W67, National Center Building #1, 2511 Jefferson Davis Highway, Arlington, Virginia. The session will commence at 9 a.m. each day.

The mission of the Defense Science Board is to advise the Secretary of Defense and Director of Defense Research and Engineering on overall research and engineering and to provide long-range guidance in these areas to the Department of Defense.

The primary responsibility of the Task Force is to examine the greater use of the Department of Defense of privately-developed, commercially-available, off-the-shelf electronic test equipment, including modifications thereof, with the goal of achieving economy and reliability benefits for the several Armed Services and to recommend policies and procedures which will maximize these benefits.

This will be the third meeting of the Task Force. The planned agenda will cover three general areas:

1. Determination of Electronic Test Equipment Needs.
2. Translation of Electronic Test Equipment Needs.
3. Acquisition and Use of Electronic Test Equipment.

The meeting is open to the public. Persons wishing to attend are advised that a reasonable quantity of seating for observers will be available on a first-come, first-seated basis. No specific arrangements or notification of desire to attend is necessary.

The Executive Secretary for the Task Force is Mr. Rudolph J. Sgro, OASD (I&L) WS, Room 2A318, Pentagon, Washington, D.C. 20301.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

APRIL 10, 1975.

DEPARTMENT OF JUSTICE

U.S. V. TOM'S FOODS LTD.

Proposed Consent Judgment

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16 (b) through (h), that a proposed consent judgment, agreed to by the United States and Tom's Foods Ltd., and a competitive impact statement have been filed with the United States District Court for the Middle District of Georgia, Columbus Division (Civil No. 75–28–COL). The complaint, filed simultaneously with the proposed judgment, alleges that Tom's violated section 1 of the Sherman Act by agreeing with other snack food manufacturers that these manufacturers would not, without Tom's approval, sell products of their manufacture, or offer price discounts, to Tom's distributors. The proposed judgment will enjoin Tom's from agreements with any independent manufacturer which restrict the quantity or price of any products that they sell to Tom's independent distributors. Tom's will also be restrained, for a ten year period, from agreements with its distributors which restrict the quantity or price of products that they purchase from independent manufacturers.

Public comment is invited on or before June 9, 1975. Such comments and responses thereto will be published in the FEDERAL REGISTER and filed with the Court. Comments should be directed to Gerald A. Connell, Chief, General Litigation Section, Antitrust Division, Department of Justice, Washington, D.C. 20530.

Dated: April 8, 1975.

THOMAS E. KAUPER,
Assistant Attorney General, Antitrust Division.

UNITED STATES DISTRICT COURT

MIDDLE DISTRICT OF GEORGIA

COLUMBUS DIVISION

In the matter of: United States of America, Plaintiff, versus Tom's Foods Ltd., Defendant; Civil Action No. 75–28–COL; Filed: April 8, 1975.

Stipulation. It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. A Final Judgment in the form hereto attached may be filed and entered by the Court, upon the motion of either party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act, (15 U.S.C. § 16) and without further notice to either party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendant and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this stipulation, this stipulation shall be of no effect whatever and the making of this stipulation shall be without prejudice to plaintiff and defendant in this and any other proceeding.

For the Plaintiff:

UNITED STATES OF AMERICA.
THOMAS E. KAUPER,
Assistant Attorney General.
BADDIA J. RASHID,
GERALD A. CONNELL,
ROBERT J. LUDWIG,
GARY M. COHEN,
LARRY R. PATTON,
Attorneys,
United States Department of Justice.

For the Defendant.
Tom's Foods Ltd.

UNITED STATES DISTRICT COURT

MIDDLE DISTRICT OF GEORGIA

Columbus Division

In the matter of United States of America, Plaintiff, versus Tom's Foods Ltd., Defendant; Civil Action No. 75–28–COL; filed: April 8, 1975.

Final Judgment. Plaintiff, United States of America, having filed its complaint herein on April 8, 1975, and the parties hereto, by their respective attorneys having consented to the making and entry of this Final Judgment without trial or adjudication of any issue of fact or law herein, and without admission by either party in respect to any issue;

Now, therefore, before any testimony has been taken herein and upon consent of the parties hereto, it is hereby,

Ordered, Adjudged and Decreed as follows:

I. This court has jurisdiction over the subject matter of this action and of the parties hereto. The Complaint states claims upon which relief may be granted against the defendant under section 1 of the Act of Congress of July 2, 1890, as amended (15 U.S.C. section 1), commonly known as the Sherman Act.

II. As used in this Final Judgment

(A) "Distributor" shall mean any person who buys "snack foods" or other products for resale.

(B) "Snack Foods" shall mean food products which are intended for immediate consumption or away-from-home eating and include, but are not limited to, such items as candies, peanut items, baked goods, potato chips, pretzels and sandwiches.

(C) "Manufacturer" shall mean any person manufacturing and/or selling or offering to sell snack foods or other products to Distributors.

(D) "Person" shall mean any partnership, firm, corporation, individual or any other business or legal entity.

III. The provisions of this Final Judgment applicable to the defendant shall also apply to each of its directors, officers, agents, employees, subsidiaries, successors and assigns, and to all persons in active concert or participation with any of them who receive actual notice of this Final Judgment by personal service or otherwise.

IV. The defendant, Tom's Foods Ltd., is enjoined and restrained from:

(A) Entering into, adhering to, enforcing or claiming any right under any contract, agreement understanding, plan or program with any Manufacturer that directly or indirectly,

(1) Restricts, prevents, limits or interferes with the sale of any product to any Distributor; or

(2) Restricts, limits, fixes, stabilizes or interferes with the price, price discounts, or other terms or conditions for the sale of any product to any Distributor.

(B) The provisions of section IV(A) above shall not apply to those products manufactured by another Manufacturer under Tom's Foods Ltd. trademarks solely for sale to Tom's Foods Ltd.

V. The defendant, Tom's Foods Ltd., is enjoined and restrained, for a period of ten years following the date of entry of this Final Judgment, from:

(A) Entering into, adhering to, enforcing or claiming any right under any contract, agreement, understanding,

V 40 73 APR 15 75 XUM

plan or program with any Distributor that, directly or indirectly,

(1) Restricts, prevents, limits or interferes with the purchase of snack foods by any Distributor from any other Manufacturer, or

(2) Restricts, limits, fixes, stabilizes or interferes with the price, price discounts, or other terms or conditions for the purchase of snack foods by any Distributor from any other Manufacturer.

VI. (A) The defendant is directed and ordered to provide within sixty (60) days from the date of entry of this Final Judgment, by registered mail, all current Distributors and Manufacturers (to the extent known to the defendant) with a letter containing the following statement:

As a result of a Consent Judgment entered by the United States District Court for the Middle District of Georgia in *United States* v. *Tom's Foods Ltd.*, Civil No. ———, each distributor is free to select any manufacturer or supplier of snack food products for resale, and to determine the quantity, price or kind of each product he will purchase without interference from Tom's Foods Ltd.

Manufacturers and suppliers are free to offer to distributors any product, or any price discount or promotion for any product, without the approval of Tom's Foods Ltd., except for those products bearing the Tom's Foods Ltd. trademark that they manufacture solely for sale to Tom's.

(B) The defendant is directed and ordered to file with the Court and serve upon plaintiff, within ninety (90) days from the date of entry of this Final Judgment, a report stating the manner of its compliance with the provisions of paragraph A of this section VI.

VII. For the purposes of determining or securing compliance with the Final Judgment, duly authorized representatives of the Department of Justice shall, upon written request of the Attorney General, or the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to defendant, made to its principal office, be permitted, subject to any legally recognized claim of privilege, (a) access during the office hours of defendant to all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession, custody, or control of defendant relating to any matters contained in this Final Judgment and (b) subject to the reasonable convenience of defendant, but without restraint or interference from it, to interview officers, directors, agents, or employees of the defendant, who may have counsel present, regarding any such matter. Upon the written request of the Attorney General, or the Assistant Attorney General in charge of the Antitrust Division, defendant shall submit such written reports with respect to any of the matters contained in this Final Judgment as from time to time may be requested. No information obtained by the means provided in this section VII shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch, except in the course of legal proceedings to which the United States is a party, for the purpose of securing compliance with this Final Judgment, or as otherwise required by law.

VIII. For a period of five (5) years from the date of entry of this Final Judgment, defendant shall submit annually on the anniversary date of this Final Judgment a written report to the plaintiff setting forth the steps taken during the preceding year to inform its officers, directors, agents and employees of its and their obligations under this Final Judgment.

IX. Jurisdiction is retained for the purpose of enabling either of the parties to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the modification, construction or carrying out of this Final Judgment, for the enforcement of compliance therewith, and the punishment of violations thereof. Entry of this Final Judgment is in the public interest.

———————————,
United States District Judge.

UNITED STATES DISTRICT COURT

MIDDLE DISTRICT OF GEORGIA

Columbus Division

In the matter of United States of America, Plaintiff, v. Tom's Foods Ltd., Defendant; Civil Action No. 75-28-COL; Filed: April 8, 1975.

Proposed Consent Judgment: Competitive Impact Statement. Pursuant to section 2(b) of the *Antitrust Procedures and Penalties Act* (15 U.S.C. 16(b)), the United States of American hereby files its Competitive Impact Statement relating to the proposed consent judgment submitted for entry in this civil antitrust proceeding.

I. NATURE AND PURPOSE OF THE PROCEEDING

This is a civil antitrust action by the United States Department of Justice against Tom's Foods Ltd., of Macon, Georgia, a wholly-owned subsidiary of General Mills, Inc., of Minneapolis, Minnesota, to prevent and restrain alleged violations of section 1 of the Sherman Act.

II. PRACTICES AND EVENTS GIVING RISE TO THE ALLEGED VIOLATION OF THE ANTITRUST LAWS

Tom's Foods Ltd. ("Tom's") is engaged in the manufacture and sale of snack food products which are sold primarily to a network of approximately 500 independent distributors who in turn resell them through retail outlets and vending machines. Snack foods, as used in the complaint and defined in the proposed judgment, mean food products which are intended for immediate consumption or away-from-home eating and include, but are not limited to, such items as candies, peanut items, baked goods, potato chips, pretzels and sandwiches.

Tom's has entered into contracts with a number of competing snack food manufacturing companies which provide that these firms may supply specific products to Tom's distributors. Tom's has agreed with some of these competing snack food manufacturers that they are not to sell any of their products to Tom's distributors without Tom's prior approval. These agreements have been enforced by Tom's to prevent competing snack food companies from selling to distributors products which Tom's considers to be directly comparable to those it manufactures. As to products which are "approved" by Tom's, the competing snack food manufacturing companies must receive Tom's authorization for any price discounts or other promotional activity to be offered to Tom's distributors.

The complaint alleges that these contracts, agreements and understandings between Tom's and competing snack food manufacturing companies unreasonably restrain trade in violation of section 1 of the Sherman Act. These agreements restrain trade because they foreclose competing snack food manufacturing companies from selling to Tom's distributors and limit price competition between Tom's and these companies in the sale of snack food products to Tom's distributors.

III. EXPLANATION OF THE PROPOSED CONSENT JUDGMENT

Prior to filing the complaint, the United States and the defendant have agreed that the consent judgment, in a form negotiated by the parties, may be entered by the Court at any time after compliance with the Antitrust Procedures and Penalties Act. The stipulation provides that there has been no admission by either party with respect to any issue of fact or law. Under the provisions of section 2(e) of the Antitrust Procedures and Penalties Act, entry of said judgment by the Court is conditioned upon a determination by the Court that the proposed judgment is in the public interest.

A. *Prohibited Conduct*—Under the proposed consent judgment, Tom's is prohibited from entering into any contract or agreement with any manufacturer that directly or indirectly restricts or interferes with the sale of any product to any distributor or which fixes or interferes with the price, price discounts, or other terms or conditions for the sale of any product to any distributor. These injunctions apply to all products with the exception of those which are manufactured under the Tom's Foods Ltd. trademark solely for sale to Tom's. This exception allows Tom's to contract with other manufacturers to produce, for Tom's, products bearing the Tom's Foods trademark. The manufacturer can ship these products either directly to Tom's or to those persons to whom Tom's directs that the products be shipped. This exception is appropriate since Tom's is entitled to this degree of control over the manufacture and sale of its own trademarked products.

Despite the prohibition in the proposed decree of agreements between Tom's and competing manufacturers that restrict the latter's sales to Tom's distributors, it was recognized that Tom's could continue to limit access to its distributors. This could be achieved by imposing limitations on the products that the distributors could purchase from competing manufacturers. Section V of the proposed final judgment prevents Tom's from restricting or interfering with its distributors' purchasing decisions, or with the price and other terms and conditions under which they purchase products from other manufacturers. The section V injunctions have a ten year application. A perpetual injunction was deemed unnecessary because the Department of Justice had no evidence that Tom's has to date interfered with or restricted its distributors' purchasing decisions.

B. *Scope of the Proposed Judgment*—The terms of the consent judgment shall apply to each of Tom's directors, officers, agents, employees, subsidiaries, successors and assigns. [section III]. Within sixty (60) days from the date the proposed judgment is entered, Tom's must send a letter to all current distributors and manufacturers of snack foods that contains the following statement:

As a result of a Consent Judgment entered by the United States District Court for the Middle District of Georgia in *United States* v. *Tom's Foods Ltd.*, Civil No. each distributor is free to select any manufacturer or supplier of snack food products for resale, and to determine the quantity, price or kind of each product he will purchase without interference from Tom's Foods Ltd.

Manufacturers and suppliers are free to offer to distributors any product, or any price discount or promotion for any product, without the approval of Tom's Foods Ltd., except for those products bearing the Tom's Foods Ltd. trademark that they manufacture solely for sale to Tom's.

Section VII provides the United States access to Tom's records and the right to interview Tom's officials and employees for the purposes of determining or securing compliance with the proposed judgment.

Section VIII requires that Tom's provide the government for a period of five years an annual statement setting forth the steps taken during the preceding year to inform its personnel of its and their obligations under the proposed judgment.

C. *Competitive Effect of the Proposed Consent Judgment*—The proposed consent judgment will have the effect of allowing competing manufacturers to sell to Tom's distributors and of encouraging competition between Tom's and these companies. Tom's distributors will have the opportunity to purchase products of other manufacturers without interference from Tom's. Such products will thus be available to consumers from more sources and at prices competitive to the prices of similar products manufactured by Tom's.

IV. REMEDIES AVAILABLE TO POTENTIAL PRIVATE PLAINTIFFS

Section 4 of the Clayton Act (15 U.S.C. 15) provides that any person who has been injured as a result of conduct prohibited by the antitrust laws may bring suit in federal court to recover three times the damages such person has suffered, as well as costs and reasonable attorney fees. The entry of the proposed final judgment will not have any effect on the right of any potential private plaintiffs who claim they have been damaged by the alleged violation to sue for monetary damages or any other legal or equitable remedies. However, this judgment may not be used as *prima facie* evidence in private litigation pursuant to section 5(a) of the Clayton Act, as amended (15 U.S.C. 16(a)).

V. PROCEDURES AVAILABLE FOR MODIFICATION OF THE PROPOSED JUDGMENT

During the period of time provided for in the Antitrust Procedures and Penalties Act (a minimum of 60 days between the filing of the proposed consent judgment and its entry) interested persons may file comments with Gerald A. Connell, Chief, General Litigation Section, Antitrust Division, Department of Justice, Washington, D.C. 20530, urging that the decree not be entered in the form proposed. These comments, and the response to them, will be filed with the Court and published in the FEDERAL REGISTER. All comments will be given appropriate consideration by the Government, which remains free to withdraw its consent to the proposed consent judgment at any time prior to its entry if it should conclude that some modification of it is necessary. In addition, the proposed judgment provides for retention of jurisdiction of this section by the Court to permit, among other things, the parties to apply to the Court for such orders as may be necessary or appropriate for modification of the judgment.

VI. ALTERNATIVE REMEDIES ACTUALLY CONSIDERED

The only alternative remedy actually considered by the Department of Justice was whether to extend the ten year application of section V of the Judgment to a perpetual injunction. As discussed in section III(A) of this statement, a perpetual injunction was not believed to be appropriate because the Department had no evidence that Tom's has to date interfered with or restricted its distributors' purchasing decisions.

The Department of Justice considers the substantive language of the proposed decree to be of sufficient scope and effect to make litigation unnecessary. The relief contained in this proposed judgment is, in the Department's view, consonant with the relief prayed for in paragraph VI of the complaint.

VII. DETERMINATIVE DOCUMENTS

No materials and documents of the type described in section (b) of the *Antitrust Procedures and Penalties Act* (15 U.S.C. 16(b)) were considered in formulating this proposed judgment.

GARY M. COHEN,
LARRY R. PATTON,
Attorneys,
United States Department of Justice.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

IDAHO

Modification of Grazing District Boundaries

Pursuant to the authority vested in the Secretary of the Interior by the Taylor Grazing Act of June 28, 1934 (48 Stat. 1269) as amended, and delegated to the Director, Bureau of Land Management by 235 DM 1.1, the Departmental Orders dated April 8, 1935, November 3, 1936, and December 4, 1940, establishing the Boise, Idaho Falls, Shoshone and Coeur d'Alene District, respectively, are hereby amended as follows:

1. The north boundary of Idaho Grazing District No. 1, is adjusted so as to eliminate the following described land from Idaho Grazing District No. 1 and these lands are hereby placed under the administrative jurisdiction of the Coeur d'Alene District Office:

All vacant, unappropriated public land in:

BOISE MERIDIAN, IDAHO

T. 21 N., R. 1 E.,
Secs. 1, 2, 3, 10 to 15 inclusive, 22 to 27 inclusive, 34, 35, and 36.
T. 22 N., R. 1 E.,
Secs. 1, 2, 3, 4, 9 to 16 inclusive, 21 to 28 inclusive, 33, 34, 35, and 36.
T. 23 N., R. 1 E.,
Secs. 1 to 18 inclusive;
Sec. 19, E½;
Secs. 20 to 29 inclusive;
Sec. 30, NE¼;
Sec. 32, E½;
Secs. 33, 34, 35 and 36.
T. 24 N., R. 1 E.,
All that portion south and west of Salmon River.
T. 24 N., R. 2 E.,
All that portion south of Salmon River.
T. 24 N., R. 3 E.,
All that portion south of Salmon River.
T. 24 N., R. 5 E.,
Secs. 7, 8, 9, 10, 15 to 22 inclusive and 27 to 34 inclusive.
T. 24 N., R. 1 W.,
Sec. 25, S½;
Sec. 36, All.

2. The west boundary of Idaho Grazing District No. 3, Bureau of Land Management, is adjusted so as to transfer administrative responsibility for all public land within the following described legal subdivisions from Grazing District No. 3 (Idaho Falls) to Grazing District No. 5 (Shoshone).

All vacant, unappropriated public land in:

BOISE MERIDIAN, IDAHO

T. 1 N., R. 24 E.,
Secs. 4, 5, 8, 9, 16, 17, 20, 21, 28, 29, 32, and 33.

V 40 73 APR 15 75 XUM

T. 2 N., R. 24 E.,
Sec. 26, that portion of lots 2, 3, 4 W½ NE¼, NW¼ within Butte County.
Sec. 32 that portion within Butte County.
Sec. 33, that portion within Butte County.

The transfer of jurisdiction from the Boise to the Coeur d'Alene District will involve a change from grazing use and management under section 3 of the Taylor Grazing Act to section 15 of the Taylor Grazing Act. The jurisdiction transfers will otherwise not affect the status or use of the public lands in any way. The transfer will become effective April 15, 1975.

Dated: April 8, 1975.

GEORGE L. TURCOTT,
Associate Director.

Sec. 35, N½.

2. The boundaries establishing administrative jurisdication of National Resource Lands and interagency coordination of other lands are adjusted to transfer responsibility from the Boise District to the Coeur d'Alene District of the Bureau of Land Management. The present southern boundary of the Coeur d'Alene District starting from the Snake River at the north boundary of Township 24 North thence east along the township line to where it intersects with the Salmon River; thence following the Salmon River east to the Lemhi County line, will now be located on a proposed new line starting from the Snake River at the north boundary of Township 20 North; thence east along the township line to the Valley County line; thence north and east along the Valley County line to the Middle Fork of the Salmon River which is also the west boundary of Lemhi County. The land between these east-west lines and the west boundary of Lemhi County on the east and the Snake River on the west constitutes the new area of responsibility of management and/or interagency coordination for the Coeur d'Alene District.

This transfer of jurisdiction will not affect the status or use of the public lands and shall become effective April 15, 1975.

GEORGE L. TURCOTT,
Associate Director.

NEW MEXICO

Application

APRIL 7, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for one 4½ inch natural gas pipeline right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN,
NEW MEXICO

T. 32 N., R. 10 W.,
Sec. 30, lots 14 and 19.

This pipeline will convey natural gas across 0.091 miles of national resource lands in San Juan County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, 3550 Pan American Freeway, NE, Albuquerque, NM 87107.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

Farmers Home Administration

[Notice of Designation Number A074, Amdt. 1]

ARKANSAS

Designation of Emergency Area

The Secretary of Agriculture has found that a general need for agricultural credit exists in Monroe County, Arkansas, as a result of a natural disaster consisting of excessive rainfall October 1, 1974, through January 31, 1975, and a tornado February 22, 1975.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor David Pryor that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and December 29, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 9th day of April 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[Notice of Designation Numbers A093, Amdt. 2, and A127, Amdt. 2]

MISSISSIPPI

Designation of Emergency Areas

The Secretary of Agriculture has found that an additional general need for agricultural credit exists in the following counties in Mississippi as a result of natural disasters consisting of:

Alcorn—Frost October 3, 1974.
Lafayette—Frost October 3, 16, 21, and 22, 1974. Excessive rainfall November 15 through December 31, 1974.
Quitman—Excessive rainfall October 1 through December 31, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor William L. Waller that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and December 29, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C. this 9th day of April 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

[FR Doc.75-9797 Filed 4-14-75;8:45 am]

[Notice of Designation Number A168]

NEW MEXICO

Designation of Emergency Area

The Secretary of Agriculture has found that a general need for agricultural credit exists in Rio Arriba County, New Mexico, as a result of a natural disaster consisting of drought from January 1 through November 30, 1974, and a late freeze May 19 and 20, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Jerry Apodaca that such designation be made.

Applications for Emergency loans must be received by this Department no later than May 27, 1975, for physical losses and December 29, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 9th day of April 1975.

Forest Service

MT. HOOD, ROGUE RIVER AND WILLAMETTE NATIONAL FORESTS, OREG.

Vegetation Management; Availability of Draft Addendum

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft addendum to the final environmental statement for vegetation management using selective herbicides on the Mt. Hood, Rogue River, and Willamette National Forests, Oregon, for the period July 1, 1975 through June 30, 1976 (USDA-FS-R6-DES(Adm) 75-15).

The draft addendum concerns a proposed use of herbicides 2,4-D, 2,4-DP, 2,4,5-T, silvex, amitrole, picloram and dicamba to reduce the competition from native vegetation where it hampers forest management activities in Oregon. The proposed uses of the herbicides are for reforestation site preparation, release and thinning of conifers, range improvement work, recreation sites, administrative sites, right-of-way maintenance and by permittees, licensees and grantees for highway, powerline and railroad right-of-way maintenance.

This draft addendum was transmitted to CEQ on April 7, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agricultural Bldg., Room 3231
12th & Independence Ave., S.W.
Washington, D.C. 20250

USDA, Forest Service
Pacific Northwest Region
319 S.W. Pine Street
Portland, Oregon 97208

Mt. Hood National Forest
3440 S.E. 199th
Portland, Oregon 97233

Rogue River National Forest
Federal Building
P.O. Box 520
Medford, Oregon 97501

Willamette National Forest
Federal Building
P.O. Box 10607
Eugene, Oregon 97401

A limited number of single copies are available upon request to Regional Forester T. A. Schlapfer, Pacific Northwest Region, P.O. Box 3623, Portland, Oregon 97208.

Copies of the draft addendum have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

Written comments are invited from the public, and from state and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Written comments concerning the proposed action and requests for additional information should be addressed to Mr. T. A. Schlapfer, Pacific Northwest Region, P.O. Box 3623, Portland, Oregon 97208. Comments must be received by June 7, 1975, in order to be considered in the preparation of the final addendum.

CURTIS L. SWANSON,
Regional Environmental Coordinator, Planning, Programming and Budgeting.

Soil Conservation Service

SOUTH FORK WATERSHED PROJECT, ARKANSAS

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, United States Department of Agriculture, has prepared a draft environmental impact statement for the South Fork Watershed Project, Montgomery County, Arkansas, USDA-SCS-EIS-WS-(ADM)-75-2-(D)-AR.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and municipal and industrial water supply. The planned works of improvement provide for conservation land treatment, supplemented by two single-purpose floodwater retarding structures and one multiple-purpose structure (flood prevention and municipal and industrial water supply).

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, Post Office Box 2323, Little Rock, Arkansas 72203.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to M. J. Spears, State Conservationist, Soil Conservation Service, Post Office Box 2323, Little Rock, Arkansas 72203.

Comments must be received on or before June 2, 1975, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program Number 10.904, National Archives Reference Services.)

Dated April 4, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before May 5, 1975.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00434-50-41700. Applicant: Desert Research Institute, University of Nevada System, SAGE Bldg., Stead Campus, Reno, Nevada 89507. Article: System 100 Dye Laser. Manufacturer: Electro-Photonics, Ltd., United Kingdom. Intended use of article: The article is intended to be used for the study of properties of the atmosphere, clouds and air pollution by providing a means of obtaining the optical backscatter from the atmosphere and thereby measuring the composition of the atmosphere including gases, particulates and cloud structure. It will supply intense illumination which can be tuned to specific wavelengths with the aid of the grating. The article will also be used to train graduate students in the technology of optical radar and remote sensing techniques including resonance, Raman and other wavelength dependent effects. Application received by Commissioner of Customs: March 19, 1975.

Docket Number: 75-00435-25-65500. Applicant: U.S. National Bureau of Standards, Chemistry Department, Room B-353, Building 222, Washington, D.C. 202234. Article: Potentiometer, Manufacturer: Automatic Systems Laboratories, United Kingdom. Intended use of article: The article is intended to be used to automatically make accurate measurements of the value and changes in value of the resistance of a resistance thermometer, the variable resistor, with the highest possible sensitivity and stability when the resistance of the variable resistor is changing rapidly with time. Application received by Commissioner of Customs: March 24, 1975.

Docket Number: 75-00436-33-46500. Applicant: The University of Texas Health Science Center at San Antonio, 7703 Floyd Curl Drive, San Antonio, Texas 78284. Article: Ultramicrotome, Model Om U3. Manufacturer: C. Reichert Optische Werke AG, Austria. Intended use of article: The article is intended to be used in experiments dealing with:

(1) Changes in the motor end-plate region of frog skeletal muscle associated with desensitization of the muscle membrane.

(2) Studies of cultivated vascular smooth muscle cells for onset of synthetic activity of mucopolysaccharides, elastin and collagen.

(3) Comparison of any noted changes in the lining of respiratory epithelium in baboons habituated to inhalation of tobacco smoke to the functional studies also performed on these animals. The article will also be used in the teaching of resident and graduate students in pathology and physiology and for the training of postdoctoral fellows in specialized techniques related to studies in ultrastructure as well as for teaching the required skills for the electron microscope course offered to Histology students, and others taking the course. Application received by Commissioner of Customs: March 24, 1975.

Docket Number: 75-00437-33-46070. Applicant: LCCP, Gerontology Research Center, NICHD, Baltimore City Hospitals, Baltimore, Maryland 21224. Article: Scanning Electron Microscope, Model HFS-2. Manufacturer: Hitachi Perkin-Elmer, Japan. Intended use of article: The article is intended to be used to study the receptor molecules on individual lymphoid cells. For pilot studies, viruses, keyhole limpet hemocyanin and ferritin (size range 30-250A) will be employed to label receptor sites in an attempt to ascertain changes in membrane topology of human T and B lymphocytes with age. Application received by Commissioner of Customs: March 24, 1975.

Docket Number: 75-00438-18-80050. Applicant: National Radio Astronomy Observatory, Associated Universities, Inc., 2015 Ivy Road, Charlottesville, Virginia 22901. Article: 3313 TE$_{01}$ Mode Circular Waveguides and 3410 Coupling Sleeves. Manufacturer: Sumitomo Electric, Ltd., Japan. Intended use of article: The article is intended to be used as part of the Very Large Array radio telescope to transmit radio wavelength radiation received from extraterrestrial objects to recording apparatus. The study of this radiation enables astronomers to study the sources of energy, origin, and evolution of the universe. Application received by Commissioner of Customs: March 24, 1975.

Docket Number: 75-00439-33-46500. Applicant: Atlanta University, 223 Chestnut Street, S.W., Atlanta, GA 30314. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for ultrastructural studies on normal and pathologic plant and animal tissues, developmental studies on fungal systems, cyto- and histo-logical studies on enzyme and subcellular organelle localization in cells and tissues, membrane interactions at host-parasite interfaces, and subcellular changes in cells induced by changes in their biochemical and physical environments. The article will also be used in the courses, Ultrastructure and Cytochemistry to train students in the use and application of electron microscopy and to use the electron microscope in solving individual research problems. Application received by Commissioner of Customs: March 24, 1975.

Docket Number: 75-00440-33-46500. Applicant: University of Massachusetts Medical School, 55 Lake Street, Worcester, MA 01605. ARTICLE: Ultramicrotome, Model LKB 8800A. MANUFACTURER: LKB Produkter AB, Sweden. INTENDED USE OF ARTICLE: The article is intended to be used for experiments conducted on monolayer tissue culture systems which will include a morphological and structural survey of differences in tumors related to invasiveness and malignancy. Experiments related to changes in membrane properties and their morphological changes will be conducted. Application received by Commissioner of Customs: March 24, 1975.

DUKE UNIVERSITY MEDICAL CENTER

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3602 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00267-33-43780. Applicant: Duke University Medical Center, Box 3715, Durham, N.C. 27710. Article: Echocardiovisor 0-1 Two dimensional Real Time Echochardiography System. Manufacturer: Organon Teknik, BV, The Netherlands. Intended use of article: The article is intended to be used for research aimed at producing a method for diagnosis of congenital heart disease in children which is as good as cardiac catheterization yet is noninvasive and therefore much safer than is catheterization. Patients will undergo echocardiographic examination prior to anticipated cardiac catheterization and these results then will be compared with those results obtained at catheterization. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated March 25, 1975 that the two-dimensional real time imaging of the foreign article is pertinent to the applicant's use in clinical test and evaluation of the article as a method for diagnosis of congenital heart disease in children in which test results are to be compared with indications obtained at catheterization. HEW also advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of

V 40 173 APR 15 75 XUM

equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

ERDA HEALTH & SAFETY LABORATORY ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before May 5, 1975.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00420-84-46040. Applicant: Health and Safety Laboratory, U.S. Energy Research & Development Administration, Health Protection Engineering Division, 376 Hudson Street, New York, N.Y. 10014. Article: Electron Microscope, Model JEM 100C/SEG. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for the investigation of laboratory produced and environmental aerosols, and track etch films to improve capabilities to assess and control exposures of the general population to hazardous substances. The investigations are designed to: (a) develop fundamental information about airborne particles and measurement techniques for environmental study, (b) examine the behavior and hazard of contaminants, (c) develop and/or evaluate systems to provide basic information about stratospheric aerosols. Application received by Commissioner of Customs: March 13, 1975.

Docket Number: 75-00421-33-57000. Applicant: University of Oregon Medical School, 3181 S. W. Sam Jackson Road, Portland, Oregon 97201. Article: Anaerobic Cell Assembly. Manufacturer: Dr. Kiyohiro Imai, Osaka Univ., Japan. Intended use of article: The articles are intended to be used for studies of oxygen equilibrium properties of normal and abnormal human hemoglobin and selected animal hemoglobins under various conditions of temperature, pH, ionic strength and allosteric effector concentrations. Application received by Commissioner of Customs: March 13, 1975.

Docket Number: 75-00422-33-30950. Applicant: Univ. of Southern California School of Medicine, Dept. of Anatomy, 2025 Zonal Avenue, Los Angeles, California 90033. Article: #18-2024 R2 BAF 301 High Vacuum Freeze Etch Unit. Manufacturer: Balzers AG, W. Germany. Intended use of article: The article is intended to be used for electron microscopic examination of biological materials in studies of the surfaces of cells and their contained organelles after rapid preservation by freezing and subsequent fracture. The article will also be used in analysis of regenerating muscle and the study of attachment mechanisms between adjacent heart muscle cells. The investigations help in achieving a broader understanding of the structural mechanism by which cells adhere to each other and provide themselves with the necessary support to meet the stresses of their environment. Application received by Commissioner of Customs: March 13, 1975.

Docket Number: 75-00423-00-00500. Applicant: University of Rochester, Nuclear Structure Research Laboratory, River Campus Station, Rochester, New York 14627. Article: Seven (7) Accelerator Tubes. Manufacturer: Dowlish Development Ltd., United Kingdom. Intended use of article: The articles are newly designed essential components to an existing Van de Graaff accelerator which is being used in a variety of nuclear studies. Application received by Commissioner of Customs: March 13, 1975.

Docket Number: 75-00424-80-90500. Applicant: University of California, Los Alamos Scientific Laboratory, P.O. Box 990, Los Alamos, New Mexico 87544. Article: Automatic Bar Machine. Manufacturer: Andre Bechler Ltd., Switzerland. Intended use of article: The article is intended to be used in the fabrication of meteorized detonator components needed and requested for the Laboratory weapons program. Application received by Commissioner of Customs: March 19, 1975.

Docket Number: 75-00425-33-46040. Applicant: Yale University, Dept. of Biology, Kline Biology Tower, 219 Prospect St., New Haven, Conn. 06520. Article: Electron Microscope, Model EM 201C. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for bio-medical research which will include studies of animals cells, subcellular components, and aggregates of cellular molecules. The processes which will be investigated include: (1) the mechanism of cell division in animal cells; (2) the role of filamentous structures in the development, maintenance and function of nerve cells; (3) ultrastructural aspects of nerve tumor cell development in tissue culture; and (4) the assembly of filamentous structures responsible for movements of subcellular particles. The experiments to be conducted are devised to give insight into each of the topics mentioned above with the objective of obtaining a full understanding of mechanism by which normal and tumor cells divide, the mechanism by which nerve cells develop and maintain their long axons and dendrites, and the mechanism by which filamentous structures operate to move the chromosomes apart during cell division. Other experiments are designed to determine how these same filamentous structures operate to cause sperm motility. The article will also be used for advanced training in research for graduate students, postdoctoral fellows, and research associates. Application received by Commissioner of Customs: March 19, 1975.

Docket Number: 75-00426-33-90000. Applicant: The Johns Hopkins Hospital, 601 North Broadway, Baltimore, Maryland 21205. Article: EMI Scanner System with Magnetic Tape System and High Definition Display Units. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used to provide the following information on brain tissue abnormalities:

(1) Accurate indication of the nature of a lesion,

(2) Location of the lesion within the head

(3) Detection of minute variations in soft tissue density.

The article will also be used in the teaching of post-doctoral fellows, in Neurology, Neurosurgery, Radiology and medical students. In addition, the article will be invaluable in stimulating clinical research programs relating to stroke, epilepsy, head injuries and brain tumors. Application received by Commissioner of Customs: March 19, 1975.

Docket Number: 75-00427-33-46040. Applicant: Veterans Administration Hospital, 4150 Clement Street, San Francisco, Calif. 94121. Article: Electron Microscope, Model EM 201S and accessories. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for studies of biological specimens for identification of viruses, quantitation and high resolution study of cell-to-cell junctions, and examination of fine microfilaments in the cytoplasm of cells. These studies will contribute to the understanding of the abnormal growth properties and structure of malignant cells. In addition, the article will be used in the course, Cellular Pathology to instruct residents and students in the applications of electron microscopy and basic electron microscopy techniques. Application received by Commissioner of Customs: March 19, 1975.

Docket Number: 75-00428-00-46040. Applicant: University of Chicago Operator of Argonne National Laboratory, 9700 South Cass Avenue, Argonne, Illinois 60439. Article: Accessories for JEM 100C Electron Microscope consisting of Single Tilt (+45°), Heating Holder, Power Control Box for SMM, HF-DF Capability for ASID/ASD, Y Modulation Device, and Cabinet and Power Supply for Accessories. Manufacturer: JEOL, Ltd., Japan. Intended use of article: The articles are accessories to an electron microscope, being purchased from the same manufacturer, which are necessary for the accomplishment of planned basic and applied studies related to the use of materials in energy conversion systems. Application received by Commissioner of Customs: March 19, 1975.

Docket Number: 75-00429-75-46040. Applicant: University of Chicago Operator of Argonne National Laboratory, 9700 South Cass Avenue, Argonne, Illinois 60439. Article: Electron Microscope, Model JEM 100C/SEG with Scanning Attachment. Manufacturer: JEOL, Ltd., Japan. Intended use of article: The article is intended to be used for scientific research encompassing a wide range of basic and applied studies related to the use of materials in energy conversion systems. An important research objective planned for the article is the establishment in situ of heavy-ion bombardment facilities which will allow an external beam of energetic ions to impinge on a specimen while under electron optical observation in both the transmission and scanning imaging modes. Specific applications include the following:

1. Simulation of 14 Mev Neutron Induced Displacement Cascades by Means of Self-Ion Bombardment.
2. Radiation-Induced Segregation Effects,
3. Radiation Blistering,
4. Effects of Irradiation on the Microstructure of Two-Phase Alloys,
5. Irradiation Induced Creep, and
6. Radiation Damage in Non-Metals.

Application received by Commissioner of Customs: March 19, 1975.

Docket Number: 75-00430-33-90000. Applicant: Grossmount District Hospital, P.O. Box 158, La Mesa, California 92041. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for analysis of the human brain, skull, orbits, and phantom studies and tissue equivalent material, taking advantage of the computerized tomographic analysis which will allow resolution of extremely small differences in absorption of different soft tissue and soft tissue equivalent material. These investigations will enable physicians to detect earlier the location of strokes, tumors, arteriovenous malformations, and hemorrhages in a noninvasive fashion which has no morbidity or mortality. The article will also be used in technician training for radiology technologists and the analyses obtained will be used in various neuroradiologic conferences. Application received by Commissioner of Customs: March 19, 1975.

Docket Number: 75-00431-33-46040. Applicant: University of Nebraska-Lincoln, Dept. of Veterinary Science, College of Agriculture, Lincoln, Nebraska 68503. Article: Electron Microscope, Model EM 201C and accessories. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of Article: The article is intended to be used for the following research:

(1) Detection and identification of viral agents in negatively stained preparations obtained from feces and respiratory exudates of calves and pigs experimentally and naturally infected with viruses.

(2) Detection and assay of viruses in negatively stained preparations obtained from cell cultures of feces by density gradient ultracentrifugation.

(3) Ultrastructural study of bovine and porcine intestine and lung from gnotobiotic calves and pigs experimentally infected with various viral and bacterial pathogens and correlation with findings obtained by light microscopy.

(4) Ultrastructural study of thin sections of porcine intestine infected with the larvae of *Ascaris suum*, the swine roundworm.

(5) Ultrastructural study of viral and cellular interactions in infected cell cultures.

The article will also be used in the courses Special Problems in Veterinary Science and Master's and Ph.D. Thesis, to teach electron microscopy to graduate students so that they may use electron microscopy as a "tool" in their research work, and interpretation of electron images and electron photomicrographs as scientific data in research. Application received by Commissioner of Customs: March 19, 1975.

Docket Number: 75-00432-60-10000. Applicant: Cornell University, N.Y. State Agricultural Experiment Station, Food Science and Technology, Food Research Laboratory, Geneva, N.Y. 14456. Article: Kjel-Foss Macro Automatic Kjeldahl Apparatus. Manufacturer: A/S N. Foss Electric, Denmark. Intended use of article: The article is intended to be used for routine protein analysis of animal feeds. Application received by Commissioner of Customs: March 19, 1975.

Docket Number: 75-00433-33-46500. Applicant: The University of Akron, 302 E. Buchtel Avenue, Akron, Ohio 44325. Article: Ultramicrotome, Model Om U3. Manufacturer: C. Reichert Optische Werke, Austria. Intended use of article: The article is intended to be used for the following research:

(1) A study of the mitotic systems in the algal class Xanthophyceae.

(2) A cytohistological study of the Zonation of the apical meristem of *Podophyllum peltatum*.

(3) A study of the effects of low levels of mercuric compounds on the immunological systems of mammals.

(4) A study of the mitotic systems of selected human protozoan parasites.

In addition, the article is intended to be used for educational purposes in the course Principles of Electron Microscopy which is designed for upper undergraduates and graduates who have not had a previous background in the principles of microsectioning. Application received by Commissioner of Customs: March 19, 1975.

ST. JUDE CHILDREN'S RESEARCH HOSPITAL

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00275-33-46040. Applicant: St. Jude Children's Research Hospital, 332 N. Lauderdale, P.O. Box 318, Memphis, Tenn. 38101. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of Article: The article is intended to be used in the following research programs.

(1) Studies to delineate key ultrastructural changes in *Pneumocystis carinii* during its growth from trophozoite to mature cyst.

(2) Elucidation of plasma membrane structure at the molecular level.

(3) Continuing ultrastructural studies on viruses and their interaction with host cells.

(4) Identification and characterization of cell responsive to erythropoietin, the hormone that regulates production of red blood cells.

(5) Identification and characterization of the early events in antibody formation.

The article will also be used to train postdoctoral scholars in the methods of electron microscopy. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time Customs received this application (December 16, 1974). Reasons: The foreign article has a specified resolving capability of 3 Angstroms (Å). The most closely comparable domestic instrument available at the time customs received this application was the Model EMU-4C supplied by the Adam David Company. The Model EMU-4C had a specified resolving capability of 5Å. We are advised by the Department of Health, Education, and

V 40 I 73 APR 15 75 A XUM

Welfare (HEW) in its memorandum dated March 25, 1975 that the best resolution available is pertinent to the purposes for which the foreign article is intended to be used. HEW further advises that domestic instruments did not provide resolution equivalent to that of the foreign article when the application was filed with Customs. We, therefore, find that the EMU-4C was not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used at the time the application was filed with Customs.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time Customs received this application.

UNIVERSITY OF TEXAS SYSTEM CANCER CENTER

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00293-33-43780. Applicant: The University of Texas System Cancer Center, 6723 Bertner Drive, Houston, Texas 77025. Article: Cervitron-II, Intrauterine Applicator, Vaginal Applicator and ^{137}Cesium Sources. Manufacturer: Nuclear Engineering and Equipment, S.A., Switzerland. Intended use of article: The article will be used to investigate the physical and biological properties of the high energy radiations produced in research to develop the articles for use in radiation therapy for cancer patients. The article will also be used to teach medical physicists, dosimetrists, and residents in radiotherapy. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated March 25, 1975 that the high energy of ^{137}Cesium and other sources and the safety of remote afterloading technique are pertinent to the applicant's studies of the properties of absorbing materials, dose absorption by tissue equivalent materials and response of dosimeters. HEW also advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for such purposes as the article is intended to be used. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

National Oceanic and Atmospheric Administration

OFFICE OF COASTAL ZONE MANAGEMENT

Public Hearing on Draft Environmental Impact Statement

Notice is hereby given that the Office of Coastal Zone Management, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce, will hold a public hearing for the purpose of receiving comments on the draft environmental impact statement pertaining to the establishment of an estuarine sanctuary in the Old Woman Creek, Erie County, Ohio, which has been submitted to the Secretary of Commerce for approval under the Coastal Zone Management Act of 1972, as amended. The hearing will be in the auditorium of the Firelands Campus of Bowling Green State University in Huron, Ohio, at 7:30 pm, on May 15, 1975. The views of members of the public and interested organizations are invited. Both written and oral statements will be accepted. Presentations will be scheduled on a first-come, first-served basis; but priority will be given to those who have prepared statements. Time will be allotted at the end of the meeting for those without statements who wish to be heard. In order that the maximum opportunity be afforded all those who wish to be heard, presentations may be limited to a maximum of ten minutes or as otherwise appropriate. No audio-visual equipment will be available. Office of Coastal Zone Management staff may wish to question speakers.

Persons or organizations wishing to be heard on this matter should contact the Office of Coastal Zone Management as soon as possible in order that an appearance schedule may be drawn up and definite times established for presentations. The address is: Office of Coastal Zone Management, National Oceanic and Atmospheric Administration, Washington, D.C., 20235, 202/634-4241.

Written comments may also be submitted by mail to the Office of Coastal Zone Management. Such written comments must be received before May 26, 1975, in order to be considered for inclusion in the final environmental impact statement.

Copies of the draft environmental impact statement may be obtained from the Office of Coastal Zone Management, and copies of the statement as well as of the Ohio estuarine sanctuary proposal, with supporting documents, are also available for inspection by the public at the following locations:

City of Huron Library
333 Williams Street
Huron, Ohio 44839

Department of Natural Resources, Division of Planning
Fountain Square, Building E
Room 2-2
1952 Belcher Road
Columbus, Ohio 43203

Office of Coastal Zone Management
3300 Whitehaven Street NW.,
Page Building 1, Room 301
Washington, D.C. 20235

Comments should address the adequacy of the draft environmental impact statement as well as the desirability of the proposed program.

No verbatim transcript of the hearing will be maintained, but staff present will record the general thrust of remarks.

Following consideration of the comments received at this hearing, as well as written comments submitted to the Office of Coastal Zone Management, the Office of Coastal Zone Management will prepare the final environmental impact statement pursuant to the National Environmental Policy Act of 1969 and implementing guidelines.

R. L. CARNAHAN,
Acting Assistant Administrator, for Administration.

[FR Doc.75-9738 Filed 4-14-75;8:45 am]

Office of the Secretary

CTAB PANEL ON SULFUR OXIDE CONTROL TECHNOLOGY

Meetings

The Panel on Sulfur Oxide Control Technology was formed under the U.S. Department of Commerce Technical Advisory Board (CTAB) to provide the Secretary an assessment of how the utility industry in the Northeastern United States can best utilize sulfur-bearing Appalachian coal in meeting energy needs while complying with the Clean Air Act of 1970. This notice provides the schedule for the following meeting.

Date	Time	Purpose	Meeting place
May 14, 1975	8:30 a.m. to 5:00 p.m.	Consideration of final panel report.	Room 3708, main Commerce Bldg., Washington, D.C.
May 15, 1975	do	do	Room 3872, main Commerce Bldg., Washington, D.C.
May 16, 1975	do	do	Room 4830, main Commerce Bldg., Washington, D.C.

A limited number of seats will be available to the press and to the public. Written statements or inquiries may be filed with the Chairman before or after any of these meetings.

Persons desiring further information on the Panel or on individual meetings should contact Dr. Bruce B. Robinson, Room 3877, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, D.C. 20230.

Dated: April 9, 1975.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology, Department of Commerce.

Office of Education

NATIONAL ADVISORY COUNCIL ON VOCATIONAL EDUCATION

Meeting

Notice is hereby given in accordance with provisions in section 10(d), Federal Advisory Committee Act, PL-92-463, and Title V, U.S. Code, section 552(b) (2) and (6), that the meeting of the National Advisory Council on Vocational Education, to be held on April 30, 1975, will not be open to the public from 5 p.m. to 9 p.m., local time, at the International Inn, 10 Thomas Circle, NW, Washington, D.C. The purpose of the meeting is to discuss personnel matters and documents will be presented which, if open to the public would constitute a clearly unwarranted invasion of personal privacy. This notice is given in addition to notice of regular session previously published (40 FR 16355). The National Advisory Council on Vocational Education is established under Section 104 of the Vocational Education Amendments of 1968 (20 U.S.C. 1244). The Council is directed to advise the Commissioner of Education concerning the administration of, preparation of general regulations for, and operation of, vocational education programs, supported with assistance under the act; review the administration and operation of vocational education programs under the act; including the effectiveness of such programs in meeting the purposes for which they are established and operated, make recommendations with respect thereto, and make annual reports of its findings and recommendations to the Secretary of HEW for transmittal to the Congress; and conduct independent evaluation of programs carried out under the act and publish and distribute the results thereof.

A summary of activities of the meeting shall be kept and shall be available for public inspection at the office of the Council's Executive Director located at Suite 412, 425-13th Street, NW, Washington, D.C. 20004.

Signed at Washington, D.C. on April 10, 1975.

REGINALD PETTY,
Deputy Director.

[Docket No. D-75-315]

ASSOCIATE GENERAL COUNSEL FOR EQUAL OPPORTUNITY, LITIGATION AND ADMINISTRATION

Delegation of Authority

Pursuant to Section B of the delegation of authority to the General Counsel at 36 FR 11052, 6/8/71 and 24 CFR 17.47(b), there is hereby delegated to the Associate General Council for Equal Opportunity, Litigation and Administration the power and authority to consider, ascertain, adjust, determine, compromise, allow, deny and otherwise dispose of claims which meet the following criteria:

1. The claim is filed pursuant to the Federal Tort Claims Act, 28 U.S.C. 2671-80, or the Military Personnel and Civilian Employees' Claims Act of 1964, 31 U.S.C. 241-3;

2. Authority to consider, ascertain, adjust, determine, compromise, allow, deny and otherwise dispose of the claim has not been redelegated to Regional Council pursuant to the Redelegation of Authority at 37 FR 25251 (11/29/72) as amended by 38 FR 21811 (6/13/73) and further amended by Redelegation of Authority to Regional Counsel published concurrently with this Delegation.

3. In the case of a claim filed pursuant to the Federal Tort Claims Act, the amount thereof does not exceed $10,000.

This Delegation supersedes the Delegation of Authority to the Associate General Council for Equal Opportunity, Litigation and Administration effective December 26, 1973 at 39 FR 1470.

Effective date. This Delegation of Authority is effective on publication in the FEDERAL REGISTER, April 15, 1975.

ROBERT R. ELLIOTT,
General Counsel.

REGIONAL COUNSELS

Redelegation of Authority

Pursuant to Section B of the delegation of Authority to the General Counsel at 36 FR 11052, 6/8/71 and 24 CFR 17.7, there is hereby redelegated to each Regional Counsel the power and authority to consider, ascertain, adjust, determine, compromise, allow, deny, and otherwise

V 40 73 APR 15 75 XUM

dispose of claims which result from incidents occurring within the HUD region for which the Regional Counsel has jurisdiction and which meet the following criteria:

1. Claims filed pursuant to the Federal Tort Claims Act, 28 U.S.C. 2671–2680, provided that:

a. If filed by or on behalf of, a person other than a HUD employee, the claim is for property damage and/or personal injury and the amount claimed, in each case, does not exceed $2,500;

b. If filed by, or on behalf of, a HUD employee, the claim is for property damage only, the amount claimed, in each case, does not exceed $2,500 and the damage results from the wrongful or negligent act or omission of another HUD employee while acting within the scope of his employment.

2. Claims filed pursuant to the Military Personnel and Civilian Employees' Claims Act of 1964, 31 U.S.C. 241–3, provided that:

a. The amount claimed, in each case, does not exceed $500.

This redelegation supersedes the Redelegation of Authority to Regional Counsels at 37 FR 2521 (11/29/72).

Effective date. This Redelegation of Authority is effective on publication in the FEDERAL REGISTER, April 15, 1975.

ROBERT R. ELLIOTT,
General Counsel.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. EX75-15; Notice 2]

FWD CORP.

Petition for Temporary Exemption From Federal Motor Vehicle Safety Standard

The National Highway Traffic Safety Administration has decided to grant FWD Corporation an exemption until June 1, 1975, from Motor Vehicle Safety Standard No. 121, *Air Brake Systems* (49 CFR 571.121).

Notice of the petition was published on March 10, 1975 (40 FR 11018) and an opportunity afforded for comment.

FWD stated that it had met with continuing setbacks in its attempts to fulfill the requirements of Standard No. 121. Difficulties had been encountered with suppliers of brake blocks, vendors of antiskid devices, and scheduling time for testing on dynamometers. Petitioner was therefore unable to comply with the standard as of March 1, 1975, and requested a 1-year exemption in order to solve its supplier and test-scheduling problems. It based its hardship plea "on the loss of revenue if the petition is denied." The company had net sales of $23,000,000 in the fiscal year ending September 30, 1974, which would be reduced to $14,775,000 during the current fiscal year assuming a denial. The company had a net loss in 1974 of $2,500,000 which would reach almost $4,000,000 if the petition were denied. The company's work force would then have to be reduced, increasing unemployment in an already depressed geographical area.

Two comments were received in response to the petition, both opposing it. Oshkosh Truck Corporation argues that an exemption "will create a non-competitive condition which will impose economic hardship on Oshkosh Truck Corporation and its dealer organization" and its work force of 750 people by permitting the marketing of a competitive truck at a lower price. It states that the effect of the exemption would be to penalize Oshkosh for timely compliance with the standard. The comment of Mack Trucks, Inc. is similar. It estimates a retail price advantage to FWD of $1,000 to $1,500 per exempted vehicle, and the further competitive advantage of relief "from the expected training and increased maintenance, associated with an overall FMVSS 121 air brake system."

Although FWD is a major manufacturer in the four-wheel drive market, it had a net loss of $2,500,000 in 1974 and projects an even greater one in 1975 if its petition is denied. This is found sufficient to establish substantial economic hardship. The NHTSA understands that dynamometer testing for FWD is scheduled for completion by April 1, 1975, and that assuming the brakes comply, antiskid hardware will be ready for shipment by May 1, 1975. The company therefore should be able to produce conforming vehicles by June 1, 1975. The Administrator notes too that a denial would increase unemployment in a depressed area of Wisconsin. Although it is true that any exemption may provide a competitive advantage, the Administrator views a limited exemption expiring June 1, 1975, as reasonable under the circumstances. It is anticipated that the company will make every effort to comply by the end of this time.

For the reasons discussed above the Administrator finds that a temporary exemption is consistent with the public interest and the objectives of the National Traffic and Safety Act. FWD Corporation is hereby granted NHTSA Temporary Exemption No. 75–13, from 49 CFR 571.121, Motor Vehicle Safety Standard No. 121, *Air Brake Systems*, expiring June 1, 1975.

(Sec. 3, Pub. L. 92–548, 86 Stat. 1159 (15 U.S.C. 1410); delegation of authority at 49 CFR 1.51)

Issued on April 9, 1975.

JAMES B. GREGORY,
Administrator.

AMERICAN REVOLUTION BICENTENNIAL ADMINISTRATION

BICENTENNIAL COMMEMORATIVE MEDALS

Notice of Availability

Under authority of Pub. L. 92–228, the American Revolution Bicentennial Administration (ARBA) has issued annually the official Bicentennial first day cover with accompanying commemorative medal (Philatelic-Numismatic Combination, or "PNC") and the medal separately in both silver and bronze.

There is a small inventory remaining from the 1972 and 1973 series which is offered for sale in quantities or individually on a first come, first served basis. This inventory represents normal overruns to replace units damaged or lost in shipping.

Available are:

1972

PNC	$5.00
Bronze medal	3.50
No silver medal available	

1973

PNC	5.00
Bronze medal	3.50
Silver medal	10.00

Please send your order with check or money order made payable to ARBA (Do not send cash):

CIVIL AERONAUTICS BOARD

[Docket No. 27671; Order 75-4-47]

AMERICAN AIRLINES, INC., ET AL.

"No Frill" Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 9th day of April, 1975.

In the matter of "No Frill" fares proposed by American Airlines, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., and Eastern Air Lines, Inc.

By tariff revisions[1] marked to become effective on April 10, 12, or 14, 1975, American Airlines, Inc. (American), Continental Air Lines, Inc. (Continental), Delta Air Lines, Inc. (Delta), and Eastern Air Lines, Inc. (Eastern) propose "no frill" fares in various markets in which National Airlines, Inc. (National) was recently permitted to establish such fares.[2]

The proposed fares are intended to complete with National's "no frill" fares, and in many respects they are similar.[3]

[1] Revisions to Airline Tariff Publishers Company, Inc., Agent, Tariff C.A.B. Nos. 148, 202 and 220.

[2] Order 75-3-102, March 27, 1975.

[3] National's fares apply in 37 markets where it operates wide-body aircraft, and apply for transportation in the rear compartments of those aircraft. The fares, available on Monday through Thursday, are discounted 35 percent from normal coach fares and will be available through December 16, 1975 except for a summer blackout (July 1 through September 2) and a blackout around Thanksgiving (November 28 through December 1). No meals or snacks are provided, nonalcoholic drinks are available for $0.25, a 7-day advance-purchase requirement applies and reservations are accepted only at the time of purchase. The fares are subject to a cancellation charge of $10.00 or 10 percent of the ticket, whichever is higher.

All four carriers have adopted the same blackout periods and day-of-week application, and would have the same cancellation charge. However, all propose to make the fares available on conventional as well as wide-body equipment. Continental's fares would apply in the economy section of its aircraft, and it would also provide complimentary nonalcoholic beverages and sell alcoholic beverages. American, Delta, and Eastern would permit advance telephone reservations although they would require the same 7-day advance purchase. Finally, except in the New York-Miami/Ft. Lauderdale markets, Delta's competitive fare would take the form of a round-trip excursion fare as would Eastern's in eight markets where it provides only connecting or one-stop service. The fares are similar to the "no frill" fares in terms of discount and restrictions except that they are round-trip fares and the regular on-board services would be provided.

Continental and Eastern contend that they must be permitted to apply the "no frill" fares on conventional jets if they are to remain competitive since National has a substantial advantage in terms of wide-body seats operated in the markets in question. Continental alleges that the Board has not heretofore prevented carriers operating older aircraft from matching fare reductions initiated by carriers operating newer aircraft solely on that basis, and that to do so would serve only to reduce competition and unnecessarily hasten aircraft obsolescence and premature reinvestment in newer aircraft types. Eastern alleges that it is not expanding the concept, but is merely seeking to prevent diversion to National by offering seats proportionate with its market share.

National has filed complaints against the proposals of American, Continental, and Eastern, its principal argument being that they go beyond matching its "no frill" service fares since the fares would be applicable on narrow-body aircraft, and that the carriers make significant changes in the "no frill" concept which distort the underlying economics of the service. National contends that its fares are justified on the basis of the higher productivity, lower seat-mile cost and significantly lower load factors of wide-body jets, and that their spread to narrow-body aircraft would ultimately lead to the addition of conventional jet capacity related solely to this discount-fare traffic.[4] National further contends that, with the fares limited to wide-body equipment, "no frill" fare capacity could not exceed 8.5 percent, while inclusion of narrow-body aircraft would increase that limit to 28 percent of the industry's total capacity.

National also opposes Eastern's plan to accept telephone reservations, contending that such a policy would open a "Pandora's Box" and would result in multiple reservations and added costs which its proposal would avoid. Finally, National argues that Eastern should not be permitted to offer excursion fares in markets where it does not provide single-plane service, since it is not an effective competitor (an argument presumably applicable to Delta also).

Southern has filed a complaint against Eastern's proposal as it relates to the Orlando-Miami market. The carrier alleges that, as a practical matter, "no frill" passengers in the Orlando-Miami market would be afforded the same seating configuration and passenger amenities as coach passengers, and, as such, the fare would be unduly and unjustly discriminatory.[5]

Answers have been filed by Eastern and the Federal Trade Commission (FTC).[6] Eastern essentially elaborates on the need to meet National's "no frill" fares in the fashion proposed, and alleges that National's complaint is nothing but a last minute attempt to turn its "no frill" fare proposal into an unfair advantage by forstalling a legitimate competitive response. Eastern alleges that the alternative of adding wide-body capacity in order to be competitive would be much more dangerous for the industry. Eastern alleges that it will accept telephone reservations because National's "no frill" proposal will not result in the cost savings alleged. Finally, Eastern alleges that the reduced excursion fares, in markets where it does not operate nonstop service, is the only way it can compete with National while containing the service.

The FTC states its belief that vigorous price competition is the best guarantee of the consumer's interest, and urges that the Board not dampen competition by suspending the instant proposals. FTC alleges that there is no reason to believe that the "no frill" service proposed would be unremunerative in the short run, and that the proposals provide a carefully limited experiment. It is also argued that limiting "no frill" fares to wide-body equipment could well lead to under utilization of narrow-body equipment by forcing carriers to meet National's proposal through added and unneeded wide-body capacity.

Upon consideration, the Board has decided to permit the matching "no frill" fares to become effective. However, consistent with our decision with respect to National's "no frill" fares, we will investigate. The essential issue raised by the instant proposals is whether or not the "no frill" fares should be extended to conventional jets. National argues that the fares must be restricted to wide-body aircraft in view of their low seat-mile costs and load factors as compared with conventional jets. However, as indicated in Order 75-3-102 with respect to its "no frill" fares, our evaluation of the latest available data indicates that the cost advantage of wide-body aircraft in the particular markets involved is far short of that claimed by National. It is true, as National alleges, that it has experienced substantially lower load factors on its wide-body aircraft than on its conventional jets. However, this does not appear surprising in view of the relatively low traffic density in most of the markets involved. In any event, a load factor differential does not in our opinion, justify a fare differential in the absence of cost or value of service differences.

On the other hand, we view the proposals of Delta and Eastern to match the "no frill" fares with excursion fares in certain markets as a significant departure from the "no frill" concept which should not be permitted during the limited experimentation with this new fare concept. The excursion fares are not subject to two key features of the "no frill" fares; the cancellation charge would not apply, and no limitation is placed on the seats to be sold. The latter is particularly important, in our opinion, since it eliminates a built-in limitation on the scope of the experiment. The carriers offer no justification for this deviation from National's service proposal other than the allegation by Eastern that this is the only way it can compete with the "no frill" fares. We do not believe that this departure from the "no frill' concept should be permitted in the absence of compelling justification. Eastern has very little traffic in the markets involved, and in Delta's biggest market, that carrier offers nonstop service and could compete with "no frill" fares.

Finally, we will also suspend the provisions of the American, Delta and Eastern tariffs which permit advance telephone reservations. We are not persuaded that this modification would forestall multiple bookings, despite the seven-day advance-ticketing and cancellation penalty provisions which these carriers would retain. For example, a passenger could make two or more reservations several weeks in advance, and wait until shortly before the seven-day deadline to decide which one to secure and simply discard the rest. In our opinion, such an opportunity for multiple reservations would burden the reservation system and lead to increased costs.

The fact that National was the first carrier to launch such an experiment does not, of course, give it any prescriptive right to determine what types of discount fares other carriers should be permitted to offer. If another carrier wishes to design its own experimental promotional fare and files an independent justification for that fare which meets the criteria laid down in the Board's DPFI *Discount Fares* decision, we would be prepared to let the new experiment be conducted, even if it conflicts in material respects with National's "no frill" fare experiment.

[4] National cites Eastern's narrow-body coach load factor for 1974 of 63.8 percent as contrasted with its wide-body coach load factor of 49.5 percent.

[5] Southern points out that while the "no frill" tariff excludes complimentary meals there is no such service on any flights in this 40-minute market today.

[6] On April 2, 1975, National filed a motion for leave to file an otherwise unauthorized document, a reply to the answers of Eastern and the FTC in Docket 27651. Also, on April 4, 1975, Continental filed a motion for leave to file a late answer to National's complaint.

V 40 N 73 A PR 15 75 XUM

But where, as here, carriers seek to justify their tariff filings solely in terms of a need to meet the competition of an earlier-filed fare of another carrier, but nevertheless depart significantly from the conditions and limitations of that earlier fare, then they should demonstrate the competitive necessity for such departures. Here, the applicability of "no frill" fares to narrow-bodied aircraft has been adequately justified in these terms, but the substitution of excursion-type fares by Delta and Eastern in certain markets, and the allowance of telephone reservations by American, Delta, and Eastern, have not been so justified, and accordingly should be suspended.[1] We emphasize again that if any or all of these carriers choose to refile their fare proposals accompanied by an independent justification adequately meeting the Board's Phase 5 criteria, we will be disposed to allow them to experiment as we have National.

To insure that the overall fare level is not burdened by traffic moving on these fares, the Board has decided to include the traffic in its Phase 5 (DPFI) discount-fare adjustment in future evaluation of the industry's revenue need. Accordingly, we will require that the carriers specifically isolate the traffic and revenue, adult and children, in their discount-fare traffic and revenue submissions pursuant to Phase 5.[2]

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404 and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions described in Appendices A and B[3] and rules, regulations and practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial or otherwise unlawful, and if found to be unlawful, to determine and prescribe lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix B hereto are suspended and their use deferred to and including July 10, 1975, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The investigation ordered in paragraph 1 above be, and hereby is, consolidated into the investigation ordered in Docket 27671 (Order 75-3-102, March 27, 1975);

4. The motion of National Airlines, Inc. for leave to file an otherwise unauthorized document in Docket 27651 is hereby authorized;

5. The motion of Continental Air Lines, Inc., for leave to file a late answer to the complaint of National Airlines, Inc., in Docket 27651 is hereby granted;

6. Except to the extent granted herein, Dockets 27651 27663, 27665, and 27666 are hereby dismissed; and

7. A copy of this order be served upon American Airlines, Inc:, Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., Southern Airways, Inc., United Air Lines, Inc., the United States Department of Justice, The United States Department of Transportation, The Council on Wage and Price Stability, The Federal Trade Commission and the Southern Florida Hotel and Motel Association.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.75-9775 Filed 4-14-75;8:45 am]

[1] Continental's tariff also departs in certain respects from National's, but in the absence of a complaint against Continental's filing we are not disposed to question its variant features.

[2] By Order 75-3-102, March 27, 1975, the Board stated it would promptly issue an order establishing guidelines for processing the "no frill" fare investigation. We have now decided that this matter should be handled in the usual manner at the prehearing conference.

[3] Filed as part of original document.

[Docket 27612]

HAWAIIAN AIRLINES, INC.; SENIOR CITIZEN STANDBY FARES

Prehearing Conference

Notice is hereby given that a prehearing conference in the above entitled matter is assigned to be held on May 28, 1975, at 9:30 a.m. (local time), in Room 911, Universal Building, 1825 Connecticut Avenue, NW, Washington, D.C., before Administrative Law Judge Burton S. Kolko.

In order to facilitate the conduct of the conference parties are instructed to submit one copy to each party and four copies to the Judge of (1) proposed statements of issues; (2) proposed stipulations; (3) requests for information; (4) statement of positions of parties; and (5) proposed procedural dates. The Bureau of Economics will circulate its material on or before May 13, 1975, and the other parties on or before May 20, 1975. The submissions of the other parties shall be limited to points on which they differ with the Bureau of Economics, and shall follow the numbering and lettering used by the Bureau to facilitate cross-referencing.

Dated at Washington, D.C., April 9, 1975.

[SEAL] ROBERT L. PARK,
Chief Administrative Law Judge.

[FR Doc.75-9774 Filed 4-14-75;8:45 am]

CITIZENS' ADVISORY COUNCIL ON THE STATUS OF WOMEN

MEETING

Notice is hereby given of a meeting to be held by the Citizens' Advisory Council on the Status of Women, established by Executive Order 11126 of November 1, 1963.

The meeting will begin on May 6, 1975, at 9:15 a.m. in the Family Theater of the White House, when a report of Council activities will be made. The afternoon session will convene at 3 p.m. in Conference Room S3215-A, New Department of Labor Building. The meeting will reconvene at 9:30 a.m. on May 7 in Conference Room S3215-A, New Department of Labor Building, 200 Constitution Avenue, NW, Washington, D.C. 20210.

During the course of the meeting the following subjects will be discussed in the following order: (Tentative Agenda) Status of the Equal Rights Amendment; Women and the Media; Title IX of the Education Amendments of 1972; and Discussion, Recommendations, and Future Programs.

Members of the public are invited to attend the proceedings.

Any written data, views or arguments received by the Council's executive secretary concerning the subjects to be considered on or before May 3rd, together with 25 duplicated copies will be provided to the members and will be included in the minutes of the meeting.

Interested persons wishing to address the Council at the meeting should submit a request to be heard to the executive secretary no later than April 28, 1975, stating the nature of their intended presentation and the amount of time they will need. At the commencement of the meeting the chairperson will announce the extent to which time will permit the granting of such requests.

Communications to the executive secretary should be addressed as follows:

Ms. Catherine East, Executive Secretary, Citizens' Advisory Council on the Status of Women, Room S3306, New Department of Labor Building, 200 Constitution Avenue, NW., Washington, D.C. 20210.

Signed at Washington, D.C. this 9th day of April 1975.

CATHERINE EAST,
Executive Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 358-5; OPP-32000/228]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street SW., Washington D.C. 20460.

On or before June 16, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after June 16, 1975.

Dated: April 8, 1975.

JOHN B. RITCH, JR.,
Director, Registration Division.

APPLICATIONS RECEIVED (OPP-32000/228)

EPA File Sympol 32000-L. Associated Water Conditioners, Inc., Rt. 202, Mt. Kemble Ave., Morristown NJ 07960. NO. 474. Active Ingredients: Poly[oxyethylene(dimethylimino) - ethylene(dimethylimino)ethylene dichloride] 15.0%. Method of Support: Application proceeds under 2(b) of interim policy. PM34.

EPA File Symbol 32000-T. Associated Water Conditioners, Inc., Rt. 202, Mt. Kemble Ave., Morristown NJ 07960. NO. 474. Active Ingredients: Poly[oxyethylene(dimethyliminio) -ethylene(dimethyliminio)ethylene dichloride] 20.0%. Method of Support: Application proceeds under 2(b) of intesim policy. PM34.

EPA File Symbol 4-EUA. Bonide Chemical Co., Inc., 2 Wurs Ave., Yorkville NY 13495. LAWN & TURF FUNGICIDE CONTAINS DYRENE 50% WETTABLE POWDER. Active Ingredients: 4,6-Dichloro-N-(2-Chlorophenyl)-1,3,5-triazin-2-amine 50%. Method of Support: Application proceeds under 2(c) of interim policy. PM34.

V 40 73 APR 15 75 XUM

EPA File Symbol 4-EUL. Bonide Chemical Co., Inc., 2 Wurz Ave., Yorkville NY 13495. DANDELION KILLER GRANULES. Active Ingredients: Triethanolamine 2,4-Dichlorophenoxy-acetate 2.52%. Method of Support: Application proceeds under 2(c) of interim policy. PM23.

EPA File Symbol 704-GI. Chemical Systems, Inc., 1735 W. Fullerton Ave., Chicago IL 60614. Q2-300 DISINFECTANT-DEODORIZER-SANITIZER. Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 5%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 5%. Method of Support: Application proceeds under 2(b) of interim policy. PM31.

EPA File Symbol 8306-RR. Chemical Treatment Co., Hanover Industrial Air Park, 800 Lickinghole Rd., Ashland VA 23005. CT-202. Active Ingredients: Poly[oxyethylene(dimethyliminio) - ethylene(dimethyliminio) ethylene dichloride] 24.0%. Method of Support: Application proceeds under 2(b) of interim policy. PM34.

EPA Reg. No. 1383-39. Delta Foremost Chemical Corp., 3915 Air Park St., Memphis TN 38118. FOREMOST 4585-BS RESID-U-CIDE INSECTICIDE LIQUID EXTRA SPECIAL. Active Ingredients: o-Isopropoxyphenyl Methylcarbamate 0.67%; Petroleum Distillate 85.98%. Method of Support: Application proceeds under 2(c) of interim policy. PM12.

EPA Reg. No. 891-30. Hercules Inc., Synthetics Dept., Wilmington DE 19899. HERCULES TOXAPHENE 90% EMULSIFIABLE CONCENTRATE INSECTICIDE. Active Ingredients: Toxaphene (technical chlorinated camphene containing 67-69% chlorine) 90%; Xylene 35%. Method of Support: Application proceeds under 2(a) of interim policy. Republished: Label revised for additional uses. PM12.

EPA File Symbol 8730-U. Herculite Protective Fabrics Corp., 1107 Broadway, New York NY 10010. PROTECTIVE POUCH HERCON "INSECTAPE". Active Ingredients: 2-(1-Methylethoxy) phenol methylcarbamate 10.0%. Method of Support: Application proceeds under 2(a) of interim policy. PM12.

EPA File Symbol 32460-A. Hydrology Laboratories Inc., PO Box 714, Smithtown NY 11787. FREE-N-CLEAR SWIMMING POOL ALGAECIDE. Active Ingredients: Alkyl (C14 60%, C12 25%, C16 15%) Dimethyl Benzyl Ammonium Chloride 10%. Method of Support: Application proceeds under 2(b) of interim policy. PM24.

FEDERAL ENERGY ADMINISTRATION

ENERGY INDEPENDENCE ACT OF 1975 AND RELATED TAX PROPOSALS

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (NEPA) the Federal Energy Administration (FEA) with the assistance of the Departments of Defense, Housing and Urban Development, Treasury, and the Environmental Protection Agency, has prepared a draft environmental impact statement on the Energy Independence Act of 1975 and Related Tax Proposals.

The document contains an analysis of the environmental impacts of each of the 13 titles contained in the bill as well as the aggregate impacts from the entire energy program and related tax proposals.

Single copies of the draft environmental statement may be obtained from the FEA Office of Communications and Public Affairs, Room 220, Old Post Office Building, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20461.

FEDERAL MARITIME COMMISSION

ASSOCIATED NORTH ATLANTIC FREIGHT CONFERENCES

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW, Room 10126, or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., San Juan, Puerto Rico and San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before May 5, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street NW, Room 10126, or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., San Juan, Puerto Rico and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before April 25, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Concerning the matter of BARBER LINES A/S; ELDER DEMPSTER LINES, LTD.; DAFRA LINES; DELTA STEAMSHIP LINE, INC.; COMPAGNIE MARITIME DES CHARGEURS REUNIS, S.A.; COMPAGNIE MARITIME BELGE, S.A.; FARRELL LINES INC. AND NOPAL WEST AFRICA LINE.

Notice of Agreement Filed by:

John K. Cunningham, Chairman
American West African Freight Conference
67 Broad Street
New York, New York 10004

Agreement No. 10158, among Barber Lines A/S; Elder Dempster Lines, Ltd.; Dafra Lines; Delta Steamship Line, Inc.; Compagnie Maritime Des Chargeurs Reunis, S.A.; Compagnie Maritime Belge, S.A.; Farrell Lines Inc. and Nopal West Africa Line, all of whom are members of the American West African Freight Conference, would permit the named carriers to purchase and install certain stevedoring and terminal equipment in the ports of Lagos and Apapa, Nigeria in order to facilitate and expedite the loading and discharging operations of their vessels in those ports.

By order of the Federal Maritime Commission.

Dated: April 10, 1975.

FRANCIS C. HURNEY,
Secretary.

[FR Doc.75-9791 Filed 4-14-75;8:45 am]

JAPAN/KOREA-ATLANTIC AND GULF FREIGHT CONFERENCE

Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW, Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before May 5, 1975. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Charles F. Warren, Esq.
1100 Connecticut Avenue, NW
Washington, D.C. 20036

Agreement No. 3103-59 is an application on behalf of the member lines of the Japan/Korea-Atlantic and Gulf Freight Conference to extend the presently approved intermodal authority, as set forth in Article 1 of the conference agreement, for a period of eighteen (18) months beyond July 23, 1975. Under the extended authority applied for, it is provided that if the conference does not exercise the intermodal tariff publishing authority granted within the first twelve (12) months of the said extended period, the member lines may publish their own intermodal tariffs thereafter. However, should the conference file its own intermodal tariff after the elapse of said twelve month period and the member lines do likewise, the conference tariff would supersede the member lines' intermodal tariffs only to the extent that origins, destinations and tariff commodity descriptions are the same.

By Order of the Federal Maritime Commission.

Dated: April 10, 1975.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. CI75-576]

AMERADA HESS CORP.

Application

APRIL 8, 1975.

Take notice that on March 27, 1975, Amerada Hess Corporation (Applicant), 1200 Milam, 6th Floor, Houston, Texas 77002, filed in Docket No. CI75-576 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Northern Natural Gas Company (Northern) from three wells located in the Eunice and Monument Fields, Lea County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 34,900 Mcf of natural gas per month to Northern for a period of one year within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell the gas to Northern at 60.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment. Applicant states it seeks authorization for this limited term sale to ascertain the volumes of gas available for future sales.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 25, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

V 40 #73 APR 15 75 XUM

unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9694 Filed 4-14-75;8:45 am]

[Docket No. CI75-569]

BROWN AND McKENZIE, INC.

Application

APRIL 8, 1975.

Take notice that on March 26, 1975, Brown and McKenzie, Inc (Applicant), 1120 Three Greenway Plaza East, Houston, Texas 77046, filed in Docket No. CI75-569 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transcontinental Gas Pipeline Corporation (Transco) from the Iberville Land Co. Well No. 1 in the Happytown Field, St. Martin Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on March 17, 1975, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the expiration of the 60-day emergency period or the issuance an acceptance of a certificate, whichever shall occur first, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 45,000 Mcf of gas per month to Transco at 55.0 cents per Mcf at 15.025 psia, subject to downward Btu adjustment.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 28, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9695 Filed 4-14-75;8:45 am]

[Docket No. RI75-112]

CERTAIN PRODUCER AND PIPELINE RESPONDENTS

Postponement of Prehearing Conference

APRIL 8, 1975.

On April 4, 1975, the Federal Power Bar Association filed a request to postpone the prehearing conference fixed by order issued March 28, 1975, in the above-designated matter.

Upon consideration, notice is hereby given that the prehearing conference in the above matter is postponed until May 7, 1975, at 10 a.m. (e.d.t.). The hearing date will remain as scheduled, May 20, 1975, at 10 a.m. (e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9707 Filed 4-14-75;8:45 am]

[Docket No. RP75-85]

COLORADO INTERSTATE GAS CO.

Petition To Change Method of Accounting for Gas Storage Inventory

APRIL 9, 1975.

Take notice that Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (CIG), on March 31, 1975, petitioned the Federal Power Commission for authority to change from the average cost to the last in, first out (LIFO) method of accounting for its underground storage gas inventory.

CIG states that the petition is made pursuant to § 1.7 of the Commission's rules of practice and procedure and to Paragraph "C" of Account 117, Part 201 of the Commission's Uniform System of Accounts for Natural Gas Companies. CIG states that it is requesting the change to the LIFO inventory method in order to minimize its invested capital in underground storage gas inventory. CIG estimates that the change would reduce its future inventory investment by approximately $2.5 million. CIG states that it is concurrently filing with the Commission in Docket No. RP75-86 a general rate increase applicable to its jurisdictional customers wherein CIG has used the LIFO inventory method for its test period underground storage inventories and requests that the Commission approve CIG's proposed change from the average cost to the LIFO method effective October 1, 1975, the date on which CIG's proposed jurisdictional rate increase is expected to become effective.

Copies of the petition have been served upon the Company's jurisdictional customers and other interested persons, including public bodies.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 25, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9696 Filed 4-14-75;8:45 am]

[Docket No. RP75-47-5]

COLUMBIA GAS TRANSMISSION CORP. AND E. I. DUPONT DE NEMOURS AND CO.

Order

APRIL 8, 1975.

Order denying petition for immediate interim extraordinary relief and extraordinary relief pendente lite, providing for hearing of petition for permanent extraordinary relief, establishing procedures and permitting interventions.

On March 5, 1975, E. I. DuPont de Nemours and Company (DuPont) filed a petition for extraordinary relief pursuant to § 1.7(b) of the Commission's rules of practice and procedure. Specifically, DuPont requests the Commission to issue an order directing Columbia Gas Transmission Corporation (Columbia) to deliver to its distributor affiliate, Columbia Gas of West Virginia, Inc. (Columbia of West Virginia), sufficient volumes of gas to enable the latter to supply DuPont's feedstock and process gas requirements of 39,400 Mcf per day. DuPont asks that the relief be granted pendente lite, and then for however long Columbia's pro rata curtailment plan remains in effect. In addition DuPont seeks immediate, temporary relief for the period March 10 through March 31, 1975, the latter date marking the end of Columbia's winter heating season. DuPont requests that, for this period, the Commission issue an order directing Columbia to increase its deliveries to Columbia of West Virginia to enable the distributor to serve DuPont with 34,400 Mcf per day.

On March 18, 1975, Columbia of West Virginia filed a petition of joinder pursuant to § 1.7(b) of the Commission's rules of practice and procedure. Columbia's purpose in filing its petition is to provide DuPont with proper standing to seek relief.

In support of its application DuPont avers that it presently requires approximately 24,000 Mcf per day as feedstock for the production of ammonia, which is used in the manufacture of fertilizer and other products; 2,000 Mcf per day as feedstock to produce carbon monoxide and hydrogen, which is used in the manufacture of herbicide and fiber intermediates as well as other chemical products; and 13,400 Mcf per day as process natural gas in the synthesis of the above products in its plant facilities located in Belle, West Virginia. As a result of increasing curtailment levels on the Columbia Transmission system, the Public Service Commission of West Virginia (PSC), in an order issued on September 27, 1974, in Case No. 7999, placed volumetric limitations on all large volume industrial customers of Columbia of West Virginia which, as an intrastate distributor, is subject to the jurisdiction of PSC. As a result of these limitations, DuPont's entitlement from Columbia of West Virginia was reduced from 60,000 Mcf per day to 42,000 Mcf per day. DuPont further avers that during the last three months of the 1974-75 heating season, it was curtailed by Columbia of West Virginia at a 55 percent level resulting in a shortfall in its winter period allocation of 20,320 Mcf per day. DuPont further states that it has attempted to minimize this shortfall by attempting to obtain other interstate gas supplies[1] and substitute fuels for feedstock and process purposes, but has only been able to reduce its shortfall to approximately 11,120 Mcf per day. Finally, DuPont notes, it has attempted to convert its process requirements to fuel oil, however, such conversion was estimated to require approximately two years.

On December 12, 1974, DuPont petitioned PSC for extraordinary relief in the amount of 19,400 Mcf per day through March 31, 1975. On February 7, 1975, PSC issued an interim order in which it found that because of the present unavailability of gas from Columbia of West Virginia's supplies and the large volume of additional gas requested, DuPont's petition for extraordinary relief would be denied and the 55 percent curtailment rate continued. DuPont sought rehearing of PSC's order on such petition because (1) the order was founded, in part, on the potential availability to DuPont of certain natural gas reserves in Texas, and upon the occurrence of several preconditions during the current heating season, and (2) but for PSC's order, Columbia of West Virginia would have reduced curtailment of all industries to a 40 percent level. On March 3, 1975, DuPont's petition for rehearing was also denied.

In order to avoid production cutbacks, DuPont states that it has used its winter curtailment allocation at a 30,200 Mcf per day rate instead of the average daily rate of 19,080 Mcf per day, and estimated that it would exhaust its winter curtailment allocation by March 10, 1975, well before the close of the winter heating season on March 31, 1975. On March 21, 1975, DuPont informed this Commission by telegram, that DuPont had, in fact, terminated the production of ammonia at its Belle plant since March 10, 1975. DuPont argues that such termination will result in irreparable injury to itself and those industries which rely on its essential products for their operation, and that the ongoing operation of Columbia Transmission's currently effective pro rata curtailment plan would continue to result in the delivery of volumes used as boiler fuel. The pleadings indicate to us that the shutdown of the Belle plant was the result of a deliberate choice made by DuPont. DuPont chose to take its winter allocation at the rate of 30,200 Mcf per day instead of at the average daily rate of 19,080 Mcf per day, and thereby exhausted its winter allocation 21 days ahead of schedule. It is nowhere alleged that DuPont would have had to shut its plant down had it chosen instead to operate at a reduced capacity through the winter. Nowhere in the pleadings are we given information regarding Columbia of West Virginia's flexibility to meet DuPont's present requirements. In its February 7th order, attached as Appendix B to DuPont's petition, PSC states that the forty other large industrials on Columbia of West Virginia's system could remain in operation even while bearing curtailment at varying rates of between 15 percent and 55 percent (Appendix B, p. 16). We are not told why all industrials, other than DuPont, should only be curtailed at 15 percent.

Under these circumstances we cannot grant DuPont's request for extraordinary relief pendente lite. Dupont's request for immediate extraordinary relief is moot since the winter heating season is over. We shall deny DuPont's request for relief pendente lite without prejudice to its refiling upon a proper showing by PSC as to the reasons for its order of February 7th. Nevertheless, we will order DuPont's request for permanent emergency relief for an expeditious evidentiary hearing. The evidence to be submitted by DuPont and any party supporting DuPont's application must be relevant and material to the following six issues.

First, DuPont is directed to demonstrate the technical infeasibility, if any, of plant conversion to permit the use of fuel oil instead of process gas and particularly the inability of DuPont to acquire No. 2 fuel oil with the requisite low sulfur and metallic content, and that such conversion cannot be implemented within a reasonable time.

Second, DuPont should present evidence on the use of its end products; where and for what agricultural purposes ammonia produced at the Belle plant is used, how much is exported; how and where the non-agricultural ammonia produced is used; how and where the carbon monoxide and hydrogen produced in the Girdler reaction are used; and relevant information on the several end products listed by DuPont on page three of its petition, and referred to on page two of this order.

Third, as additional evidence DuPont and other parties should submit any available evidence on the current and projected supply and demand for fertilizer and other ammonia based products. This evidence should include, but should not be limited to, forecasts for the 1975 Spring planting season.

Fourth, DuPont should present evidence on its current and future ability to obtain additional supplies of natural gas from any source of supply, interstate, or intrastate, including Columbia of West Virginia. In this regard, the Public Service Commission of West Virginia is invited to participate and, inter alia, present at the hearing the basis of its findings and order that all of the industrials, except for DuPont, served by Columbia of West Virginia should bear no more than a 15 percent pro rata curtailment.

Fifth, DuPont should present evidence demonstrating the feasibility, or the lack thereof, of alleviating the impact of curtailment through construction or lease of storage facilities, negotiation of exchange agreements, and production or purchase of liquefied natural gas or synthetic natural gas.

Finally, DuPont should present further evidence of its sales of anhydrous ammonia fertilizer for the past five years, its projected sales over the next two years, its current inventory of fertilizer, and its projected output from all its plants to meet its projected requirements.

Under the Commission's rules of practice and procedure, and General Policy and Interpretations, particularly sections 1.7(b) and 2.78(c), 18 CFR 1.7(b) and 2.78, Columbia of West Virginia's Petition of Joinder shall be construed as a petition for the requested relief on behalf of its customer DuPont. Additionally, DuPont's Petition for Extraordinary Relief shall be construed as a petition to intervene pursuant to § 1.8(b)(2), 18 CFR 1.8(b)(2), of the Commission's rules of practice and procedure.

Pursuant to notice issued on March 19, 1975, and subsequently published in the FEDERAL REGISTER, petitions for and notices of intervention were due on or before April 1, 1975. The Ohio Public Utilities Commission filed a timely notice of intervention, and timely protests were filed by Baltimore Gas and Electric Company and Columbia. Timely petitions for leave to intervene were filed by Elizabethtown Gas Company (including recommended conditions for any grant of immediate extraordinary relief); The Dayton Power[4] and Light Company; Chas. Taylor Sons Company; Union Carbide Corporation; and jointly by Columbia Gas of Kentucky, Inc., Columbia Gas of Maryland, Inc., (together with a protest and request for hearing) Columbia Gas of New York, Inc., Columbia Gas of

[1] DuPont presently has a 5,000 Mcf per day supply contract with Cabot Corporation which expires in September of 1975; and is attempting to use propylene as a feedstock substitute at approximately 4,200 Mcf per day.

V 40 I 73 APR 15 75 XUM

Ohio, Inc., Columbia Gas of Pennsylvania, Inc., Columbia Gas of Virginia, Inc.; Baltimore Gas and Electric Company; The Cincinnati Gas and Electric Company and The Union Light, Heat and Power Company; General Motors Corporation; Columbia (along with a request for a hearing); Standard Oil Company (Sohio); Washington Gas Light Company; and the Cities of Charlottesville and Richmond, Virginia.

The Commission finds: (1) Sufficient good cause does not exist nor would it be in the public interest to grant DuPont's request for interim extraordinary relief or to grant DuPont's request for extraordinary relief pendente lite.

(2) Sufficient good cause exists, and it is in the public interest to set for an expeditious, formal evidentiary hearing DuPont's request for permanent extraordinary relief from Columbia Transmission's pro rata curtailment plan, as hereinafter ordered.

(3) Participation in this proceeding by Columbia Gas of West Virginia, Inc., is required by the public interest.

(4) The participation of the above-named parties who have petitioned to intervene in this proceeding may be in the public interest.

The Commission orders: (A) Petitioner Columbia Gas of West Virginia, Inc. is hereby required to participate in this proceeding as a necessary party in interest, subject to the rules and regulations of this Commission.

(B) DuPont's requests for immediate, temporary extraordinary relief and for extraordinary relief pendente lite are hereby denied.

(C) DuPont and the above-named petitioners are hereby permitted to intervene in this proceeding subject to the rules and regulations of this Commission: Provided, however, That the participation of such intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in said petitions for leave to intervene; and, provided, further, that the admission of such parties as intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(D) Columbia of West Virginia and DuPont should present inter alia evidence which is relevant and material to the following issues:

(1) The technical feasibility of conversion of DuPont's plant to use fuel oil instead of process gas, particularly the ability of DuPont to acquire No. 2 fuel oil with sufficiently low metallic and sulfur content, and the time and economic cost of bringing such converted process facilities on line operationally.

(2) DuPont should present evidence on the use of its end products; where and for what agricultural purposes ammonia produced at the Belle plant is used, how much is exported; how and where the non-agricultural ammonia produced is used; how and where the carbon monoxide and hydrogen produced in the girdler reaction are used; and relevant information on the several end products listed by DuPont on page three of its petition, and referred to on page two of this order.

(3) The degree of severity of the ammonia and fertilizer shortages, and particularly the current supply and demand projections for such products by both industry and government. This evidence should include, but should not be limited to, current projections for the Spring, 1975 planting season.

(4) The current and projected future ability of DuPont to obtain alternate sources of natural gas of either an inter or intrastate nature. The Public Service Commission of West Virginia is invited to attend the hearing and present evidence regarding, inter alia, its findings and order that Columbia of West Virginia's large industrial customers, other than DuPont, should be curtailed at a rate no higher than 15%.

(5) The technical feasibility of construction, or lease of storage facilities, negotiation of exchange agreements, or production or purchase of LNG or SNG.

(6) DuPont should present further evidence of its sales of anhydrous ammonia fertilizer for the past five years, its projected sales over the next two years, its current inventory of fertilizer, and its projected output from all its plants to meet its projected requirements.

(E) Pursuant to the authority of the Natural Gas Act, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held on April 22, 1975, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NW, Washington, D.C., 20426, concerning the issues specified above and other relevant and material issues which the parties seek to raise.

(F) On or before April 14, 1975, Columbia of West Virginia, DuPont and any supporting party shall file with the Commission and serve on all parties, including Commission Staff, their testimony and exhibits in support of their positions including the six issues enumerated above.

(G) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge—See Delegation of Authority [18 CFR 3.5(d)]—shall preside at the hearing in this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. RP75-83]

COLORADO INTERSTATE GAS CO.

Petition To Adopt Normalized Accounting for Book and Rate Purposes

APRIL 9, 1975.

Take notice that Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (CIG), on March 31, 1975, petitioned the Federal Power Commission for authority to adopt normalized accounting for liberalized tax depreciation for book and rate purposes on all of its utility property eligible for such treatment.

CIG states that the petition is made pursuant to the provisions of § 1.7 of the Commission's rules of practice and procedure and is intended both as a means of assisting CIG in its efforts to raise new capital as well as enhancing the quality of its present securities. CIG estimates the annual net effect of changing from the flow-through method currently in use to normalized accounting would be approximately $2.2 million. CIG is concurrently filing with the Commission in Docket No. RP75-86 a general rate increase applicable to its jurisdictional customers wherein CIG has utilized normalized accounting and requests that the Commission authorize such change to become effective October 1, 1975, the date on which the proposed rate increase is expected to become effective.

Copies of this petition have been served upon the Company's jurisdictional customers and other interested persons, including public bodies.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 25, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. RP74-100; PGA 75-8]

NATIONAL FUEL GAS SUPPLY CORP.

Order

APRIL 9, 1975.

Order accepting for filing and suspending proposed PGA rate increase, requiring modification of rates, requiring modification of PGA clause, and permitting refiling of revised rates.

On February 26, 1975, National Fuel Gas Supply Corporation (National Fuel Supply) filed herein a proposed PGA rate increase of $6.5 million annually to recover the increased cost of gas purchased from five pipeline suppliers, one major producer, and numerous small producers. National Fuel Supply requests waiver of the Commission's applicable regulations to permit the proposed increased rates to become effective on March 1, 1975.

Notice of National Fuel Supply's filing was issued on March 7, 1975, providing for protests or petitions to intervene to be filed on or before March 20, 1975. No protests, petitions to intervene, or other comments have been received in response to the notice.

A review of the company's filing discloses certain facts which require that the proposed rates be suspended and made subject to refund. The proposed rates are predicated, in part, on small producer purchases at rates in excess of the level established by Opinion No. 699-H.[1] In addition the proposed rates are based in part, on an erroneous calculation of the applicable rate from Valley Gas Transmission, Inc. This error pertains to the proper cost and rate effect of Valley's payment of Louisiana severance taxes.

In light of the foregoing, National Fuel Supply's proposed rates have not been shown to be just and reasonable, and they will therefore be suspended for one day and permitted to become effective thereafter on March 2, 1975. The amount of error in determining the Valley Gas rate is minor and insufficient to justify rejection of the present filing. However National Fuel will be required to resubmit revised rates within 15 days reflecting the proper calculation of the Valley Gas rate.

We further find that National Fuel Supply's tariff PGA clause should be modified to properly reflect the operations of the company following the realignment of United Natural Gas Company, Pennsylvania Gas Company, and Iroquois Gas Corporation into National Fuel Gas Supply Corporation and National Fuel Gas Distribution Corporation.[2] The applicant supply corporation's PGA clause is patterned after that of its predecessor United Natural Gas Company. Since United Natural purchased only from pipeline suppliers, its PGA clause, and consequently that of the present applicant, permitted filing of a PGA rate increase whenever a change in the weighted average cost of purchased gas exceeds one tenth of a cent. However pursuant to Commission Order No. 452 (47 FPC 1049, 1510), pipeline and producer purchases must be computed separately, and producer-related increases may not be filed more often than once every six months. Since the corporate realignment National Fuel Supply has taken over Iroquois' purchases of gas from producers. As a result, producer supplies now account for almost 10 percent of National Fuel Supply's total gas purchases. It is therefore necessary that National Fuel Supply's PGA clause be revised so as to require separate computation of pipeline and producer PGA rate increases, and to permit the filing of producer-related increases only semi-annually and pipeline-related increases whenever the one mill requirement is met.

Finally, we will permit the filing by National Fuel Supply of revised PGA rates to become effective on March 1, 1975, provided the amounts of small producer rates in excess of the levels authorized in Opinion 699-H are eliminated, and provided the necessary correction is made for the Valley Gas rate. The effect of this procedure will be to make subject to refund only the small producer rates in excess of the authorized levels.

National Fuel Supply requests waiver of the Commission's regulations governing effective date on the ground it received insufficient notice from its suppliers to permit the proposed rates herein to be filed 45 days prior to the effective date of the suppliers' rate increases. We find that good cause exists for waiver of the regulations in this instance.

The Commission orders: (A) National Fuel Supply's proposed PGA rate increase, as filed herein on February 25, 1975, and as set forth on Second Revised Sheet No. 4 to its FPC Gas Tariff, Original Volume No. 1, is hereby suspended for one day and the Commission's applicable regulations are waived to permit the proposed rates to become effective thereafter on March 2, 1975.

(B) Within 15 days from the date of this order National Fuel Supply shall file revised rates reflecting the corrected rate for gas purchased from Valley Gas.

(C) Within 30 days from the date of this order National Fuel Supply shall submit a revised tariff PGA clause in accordance with the terms of Order No. 452 and of this order.

(D) National Fuel Supply is hereby permitted to file, within 15 days from the date of this order, revised rates in accordance with the terms of this order, to be effective March 1, 1975.

(E) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket Nos. E-9136; E-9140]

NEW ENGLAND POWER CO.

Order Granting Late Intervention

APRIL 8, 1975.

On November 29, 1974, The New England Power Company (NEPCO) tendered for filing a proposed rate increase to its primary service for resale customers (Rate R-9). NEPCO's filing was noticed by the Commission on December 5, 1974, with protests and petitions to intervene due on or before December 23, 1974.

An untimely petition to intervene was filed by Green Mountain Power Corporation on March 6, 1975.

Having reviewed the above petition to intervene, we believe that the petitioner has sufficient interest in the proceedings to warrant intervention.

The Commission finds: It is desirable and in the public interest to allow the above-named petitioner to intervene.

The Commission orders: (A) The above-named petitioner is hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission; Provided, however, That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene; and Provided, further, That the admission of such intervenor shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) The intervention granted herein shall not be the basis for delaying or deferring any procedural schedules heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. RP75-87]

NORTHERN NATURAL GAS CO.

Petition for Expedited Hearing and Expedited Decision

APRIL 8, 1975.

Take notice that on March 31, 1975, Northern Natural Gas Company (Northern) filed a Petition For Expedited Hearing and Expedited Decision Regarding Payments to Exxon Company, U.S.A. For Gas Purchase Rights in the Prudhoe Bay Area of Alaska and in the Offshore Area of the Gulf of Mexico.

Northern states that it has executed what it designates as the Prudhoe Oil Pool Gas agreement with Exxon, pursuant to which Northern may acquire up to 2 Tcf of gas from a 25 percent share of Exxon's interest in the Prudhoe Alaska Field and that, as a part of this agreement, Northern may be required to make payments to Exxon eventually aggregating as much as $300 million dollars.

Northern also recites that it has executed what it designated as the Offshore Options agreement with Exxon, pursuant to which Northern has the option to purchase 30 percent of the anticipated gas production from approximately 35,000 acres of offshore Gulf of Mexico leases to be developed by Exxon. According to Northern, the estimated amount of the payments required of Northern under this agreement are as yet undetermined, although Northern alleges they will be substantial, and are expected to approximate $800,000 during the calendar year 1975.

[1] Issued December 4, 1974, in Docket No. R-389B.

[2] Iroquois Gas Corporation; *et al.*, Docket Nos. CP73-294 and CP74-211, order issued May 10, 1974; further order issued July 10, 1974.

V 40 173 APR 15 75 XUM

Northern also states that as consideration for the rights Exxon has granted Northern, Northern has agreed to include Area Rate, Exxon Royalty Reimbursement, and Deregulation provisions in existing gas purchase contracts between Northern and Exxon in the States of Texas, New Mexico and Kansas.

Northern states that under the Prudhoe Oil Pool Gas agreement it is required to proceed diligently to obtain satisfactory rate and accounting authorization from this Commission related to the sums paid thereunder and any other authorizations to effectuate the intent of the parties. Northern also states that its payments to Exxon under the Offshore Agreement are conditioned upon Northern's receiving satisfactory FPC rate and accounting authorization for such payments.

Northern requests an expedited hearing and that the Commission thereafter promptly hold and order, first, that Northern is authorized to collect in rates the cost of service effect of the payments made, and to be made by Northern under its agreements of January 30, 1975 with Exxon, second, that the annual adjustment of Northern's rates for this purpose is appropriate, and third, that Northern is granted authorization, for accounting purposes, to defer that amount of the semiannual payments required by the Exxon agreements which is in excess of the level of payments reflected in current rates from time to time until such amount is reflected in Northern's rates at which time such payments begin to be amortized monthly to expense.

Any person desiring to be heard or to protest said Petition should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 22, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this petition are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9701 Filed 4-14-75;8:45 am]

[Docket No. CP74-307]

PACIFIC INDONESIA LNG CO. AND WESTERN LNG TERMINAL CO.

Amendment to Application

APRIL 8, 1975.

Take notice that on March 26, 1975, Pacific Indonesia LNG Company (PacIndonesia) and Western LNG Terminal Company (Terminal Company), 720 West Eighth Street, Los Angeles, California 90017,[1] filed in Docket No. CP74-207 an amendment to the application filed by PacIndonesia in that docket on February 15, 1974,[2] pursuant to section 7(c) of the Natural Gas Act in order to include Terminal Company as a party applicant in the subject docket, all as more fully set forth in the amendment to application which is on file with the Commission and open to public inspection.

By its application of February 15, 1974, PacIndonesia seeks authorization to construct and operate terminal facilities at Oxnard, California, for liquefied natural gas (LNG) which it proposes to import from the Republic of Indonesia and to sell the regasified LNG to Southern California Gas Company (SoCal). Subsequent to the filing of said application, Applicants state, PacIndonesia and Terminal Company entered into an agreement which provides, inter alia, that Terminal Company will provide the service and facilities for the receipt, storage and regasification of the LNG that PacIndonesia proposes to import and for the delivery of the regasified LNG to SoCal.[3] Applicants claim that the facilities proposed to be built by Terminal Company at Oxnard are similar to the facilities originally proposed to be built by PacIndonesia. Applicants state that the instant amendment is filed to reflect Terminal Company's role in PacIndonesia's application in this docket.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before April 24, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed petitions to intervene, notices of intervention or protests to the granting of the subject application need not file again.

KENNETH F. PLUMB,
Secretary.

[1] Both parties are wholly owned subsidiaries of Pacific Lighting Corporation.

[2] Notice of the application by PacIndonesia was published in the FEDERAL REGISTER on March 7, 1974 (39 FR 8964).

[3] Terminal Company filed on September 17, 1974, in Docket No. CP75-82 an application requesting certification, inter alia, of such service and facilities.

[Docket No. RP72-91 (Phase II), et al.; AP 5-16-74]

SOUTHERN NATURAL GAS CO.

Further Postponement of Hearing

APRIL 8, 1975.

On March 24, 1975, Southern Natural Gas Company filed a motion to extend the hearing date fixed by order issued July 19, 1974, as most recently modified by notice issued February 26, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the hearing date in the above matter is postponed until June 9, 1975, at 10 a.m. (e.d.t.).

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9703 Filed 4-14-75;8:45 am]

[Docket No. RP74-71-2]

SOUTHERN NATURAL GAS CO.

Proposed Settlement Agreement

APRIL 8, 1975.

Take notice that on February 12, 1975, the Administrative Law Judge in the proceeding in Docket No. RP74-71-2 (Phase II) certified to the Commission for action a proposed settlement agreement. The said proceeding involved the complaint of Southern Natural Gas Company (Southern) on July 23, 1974 that Atlanta Gas Light Company (Atlanta) had continued to take up to 90,000 Mcf/d at its Newman-Yates delivery point without a commensurate reduction in its takes for the City of Atlanta Delivery Area as had been ordered by the Commission on July 9, 1974 and clarified on July 18, 1974.

The initial request by Atlanta for emergency relief from Southern's curtailment plan was made, pursuant to § 9.5 of Southern's curtailment plan, for a period of 15 days. Southern notified the Commission and began the delivery of the 90,000 Mcf/d on June 24, 1974. The Commission thereafter promptly initiated hearings regarding the priority of the 15 day emergency sales. These hearings culminated in an initial decision on November 26, 1974.

On July 2, 1974, Atlanta stated in a letter to the Commission that Georgia Power had requested emergency deliveries of 90,000 Mcf/d at the Yates Power Plant to be continued for an additional 30 days beyond the original 15-day period.

The Commission subsequently issued a letter order on July 9, 1974 and a clarifying letter order on July 18, 1974 authorizing the emergency deliveries for an additional 30-day period, subject to certain conditions. A dispute arose as to volumes of natural gas Atlanta was entitled to receive in the Atlanta Area under the conditions of the Commission's letter orders. On the July 24, 1974, the

Commission issued an order entitled Order Denying Enforcement Of Tariff Provisions And Requiring Reports and on September 20, 1974 the Commission denied Atlanta's petition for rehearing of that order.

Thereafter on October 21, 1974, Atlanta filed a Petition for Rehearing and Reconsideration (of the September 20 order), Or in the Alternative Petition for Waiver, and Request for Hearing. The Commission by order of December 4, 1974, denied rehearing, but remanded the overrun penalty and pay-back issues for hearing. The hearing was begun and terminated on February 4, 1975. At that time, the subject settlement agreement was proposed and submitted for certification. No party takes exception to this agreement.

This settlement agreement disposes of the following proceedings or portions thereof: (1) Docket No. RP74-71-2, with respect to emergency deliveries during the period of July 9, 1974, through August 8, 1974, and (2) the appeal pending in the United States Court of Appeals for the District of Columbia in No. 74-2037.

This agreement proposes that Atlanta be required to repay 285,937 Mcf at 14.73 psia to Southern. This volume represents all emergency deliveries by Southern to Atlanta for Plant Yates not offset by a reduction in takes by Atlanta from Southern during the period commencing on July 9, 1974, and extending through August 8, 1974. Upon completion of this repayment, Atlanta would have no further repayment obligation arising from the days in question, including the payment of monetary penalties. Atlanta would repay the subject gas during a period of 30 days commencing on July 9, 1975. Atlanta agrees to reduce its deliveries of gas to the Georgia Power Plant served by Atlanta from the Atlanta Area Delivery Point which will result in a reduction in Atlanta's takes from Southern to the Atlanta Area Delivery Point by 9,531 Mcf each day during the aforementioned 30-day period. Atlanta's reduction in deliveries to the aforementioned Georgia Power Plant shall be measured on the basis that the daily requirements of such plant for gas are 125,000 Mcf at 14.73 psia. Within 15 days following the repayment period specified in the agreement, Atlanta will provide Southern a verified report, with a copy thereof to the Commission, showing the daily reduction in its gas delivered to the power plant of Georgia Power served from the Atlanta Gas Delivery Point by an amount equal to the reduction of daily deliveries provided in the agreement. After a Commission order approving all the terms and conditions of the proposed settlement agreement has become final and no longer subject to appeal, Atlanta will promptly withdraw its petition for review in Case No. 74-2037 pending in the United States Court of Appeals for the District of Columbia Circuit.

Any person, including the parties to this proceeding, wishing to file comments either in support or against this proposed settlement should file them with the Commission on or before April 18, 1975.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9704 Filed 4-14-75;8:45 am]

[Docket No. CP 75-272]

TRUNKLINE GAS CO.

Application

APRIL 8, 1975.

Take notice that on March 17, 1975, Trunkline Gas Company (Applicant), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP 75-272 an application pursuant to section 7(c) of the Natural Gas Act, as implemented by § 157.7(b) of the regulations thereunder (18 CFR 157.7 (b)), for a certificate of public convenience and necessity authorizing the construction during the 12-month period commencing March 10, 1975, and operation of certain natural gas purchase facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to take into its certificated main line pipeline system such natural gas which is or may become available due to expansion, development or production of existing or new sources of supply in the general area of its system or to connect such gas to the system of another natural gas company authorized to transport for or exchange with Applicant such gas.

Applicant states that the total cost of the proposed facilities will not exceed $10,000,000, with no single onshore project to exceed $1,500,000 and no single offshore project to exceed $2,500,000. Applicant states that the proposed facilities will be financed from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 21, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-9705 Filed 4-14-75;8:45 am]

[Docket No. E-8025]

UPPER PENINSULA GENERATING CO.

Application

APRIL 8, 1975.

Take notice that on April 2, 1975, Upper Peninsula Generating Company (Applicant) filed a supplemental and amended application with the Federal Power Commission seeking authority, pursuant to section 204 of the Federal Power Act, to issue additional short-term notes of a principal amount of up to $5 million. Approval of the application would authorize the Applicant to issue short-term notes up to a total principal amount of $20 million outstanding at any one time.

The Applicant is incorporated under the laws of the State of Michigan, with its principal business office at Houghton, Michigan. The Applicant is engaged in the generation of electric energy for sale to its owners, the Upper Peninsula Power Company and Cliffs Electric Service Company.

The Applicant has proposed to issue unsecured promissory notes, payable to such bank or banks from which the Applicant may borrow, for periods not exceeding 12 months from the date of original issue or renewal thereof. The notes will be issued on or before July 1, 1975 and will have a maturity date not later than July 1, 1976. The interest rate on the notes to be issued will be at a rate not exceeding one-quarter of one percent above the prime rate in effect at the time of issue. The notes will not be subject to resale to the public.

The proceeds from the sale of the notes will be used, pending permanent financing, to finance the continuation of the Applicant's construction program and the purchase of coal supplies through July 1, 1975.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 25, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file

V 40 73 APR 15 75 XUM

with the Commission and are available for public inspection.

CITIZENS STATE BANCORP, INC.

Formation of Bank Holding Company

Citizens State Bancorp, Inc., Manhattan, Kansas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 per cent or more of the voting shares of Citizens State Bank & Trust Co., Manhattan, Kansas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Citizens State Bancorp, Inc., Manhattan, Kansas has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to engage in the sale of credit life and credit accident and health insurance directly related to extensions of credit by Citizens State Bank & Trust Co., Manhattan, Kansas. Notice of the application was published on December 19, 1974, in The Manhattan Mercury, a newspaper circulated in Manhattan, Kansas. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 7, 1975.

Board of Governors of the Federal Reserve System, April 4, 1975.

Secretary of the Board.

[FR Doc.75-9715 Filed 4-14-75;8:45 am]

GOOSE RIVER HOLDING CO.

Order Approving Formation of Bank Holding Co.

Goose River Holding Company, Mayville, North Dakota, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 93.1 percent or more of the voting shares of The Goose River Bank, Mayville, North Dakota ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is a non-operating corporation organized for the purpose of becoming a bank holding company through the acquisition of Bank. Bank (deposits of $12.3 million), the only bank in Mayville, is the second largest of five banks in the relevant market, approximated by Traill County, and holds 28.8 percent of the commercial bank deposits in the market.[1] Traill County (population of approximately 10,000) is a predominantly agricultural area in the east central portion of North Dakota directly adjacent to the Minnesota border. Since the proposal is essentially a restructuring of Bank's ownership whereby the ownership of Bank will be shifted from individuals to a corporation owned by the same individuals, consummation of the proposal would eliminate neither existing or potential competition, nor would it increase the concentration of banking resources in any relevant area. Accordingly, on the basis of the facts of record, the Board regards competitive considerations involved in the proposal as being consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant are dependent upon those of Bank, which are considered to be generally satisfactory. Bank's projected income appears adequate to service the debt that will be incurred by Applicant as an incident to the acquisition. Therefore, considerations relating to the banking factors are consistent with approval of the application. Although consummation of the transaction is not expected to produce any immediate changes in Bank's operations nor immediate benefits to the public, considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that the acquisition would be consistent with the public interest and that the application should be approved.

On the basis of the record,[1a] the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Minneapolis pursuant to delegated authority.

[1] All banking data are as of June 30, 1974.

[1a] Dissenting Statement of Vice Chairman Mitchell & Governor Wallich filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Minneapolis.

By order of the Board of Governors,[2] effective April 7, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-9712 Filed 4-14-75;8:45 am]

HOMEWOOD BANCORPORATION, INC.

Order Approving Formation of Bank Holding Company

Homewood Bancorporation, Inc., Homewood, Illinois, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 95.16 percent of the voting shares of the Bank of Homewood, Homewood, Illinois ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the application and all comments received have been considered in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, a non-operating company with no subsidiaries, was organized for the purpose of becoming a bank holding company through the acquisition of Bank. Bank, with deposits of $31.4 million,[1] is the larger of two banks in Homewood and ranks 273rd in the State with 0.06 percent of the deposits. Bank, which is located in the southern portion of the Chicago banking market,[3] ranks 156th and accounts for less than one percent of the deposits of banks in the market. Numerous other banking alternatives are available in the area. Since the purpose of the proposed transaction is essentially a corporate reorganization to transfer control of Bank from individuals to a corporation controlled by the same individuals, consummation of the proposal would not significantly affect existing or potential competition, or have any undue adverse effect on other banks in the area. Accordingly, competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects are generally satisfactory. Although Applicant will incur debt in acquiring Bank, it appears that income from Bank will provide sufficient revenue to service the debt without unduly burdening the capital position of Bank. Therefore, financial and managerial considerations are deemed to be consistent with approval of the application.

Applicant plans several improvements in Bank's services and facilities, including changes in deposit interest rates and minimum requirements, increased emphasis on consumer installment and commercial lending, and remodeling of Bank's building. Therefore, convenience and needs considerations lend weight toward approval of the application. It has been determined that consummation of the proposal would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago, pursuant to delegated authority.

By order of the Secretary of the Board, acting pursuant to delegated authority from the Board of Governors, effective April 8, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-9718 Filed 4-14-75;8:45 am]

ORWIG AND COMPANY, INC.

Acquisition of Bank

Orwig and Company, Inc., Kansas City, Missouri, has applied for the Board's approval under section 3(a)(5) of the Bank Holding Company Act (12 U.S.C. 1842(a)(5)) to acquire through merger, 100 per cent of the voting shares of Merchants Investors, Inc., Kansas City, Missouri. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Orwig and Company, Inc., is also engaged in the following nonbank activity: holding and leasing certain real property. In addition to the factors considered under section 3 of the Act (banking factors), the Board will consider the proposal in the light of the company's nonbanking activities and the provisions and prohibitions in section 4 of the Act (12 U.S.C. 1843). Orwig and Company, Inc. has claimed an exemption under section 4(c)(ii) of the Act (12 U.S.C. 1843(c)(ii)) relating to the acquisition of or engaging in nonbanking activities. This question will be considered in acting upon the subject application.

The application may be inspected at the office of the Board of Governors of the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than May 8, 1975.

Board of Governors of the Federal Reserve System, April 7, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-9711 Filed 4-14-75;8:45 am]

VICTORIA BANKSHARES, INC.

Proposed Acquisition of Central Computers, Inc.

Victoria Bankshares, Inc., Victoria, Texas, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Central Computers, Inc., Victoria, Texas. Notice of the application was published in the following newspapers:

Date	Newspaper	Circulated in
Mar. 12, 1975..	The Victoria Advocate.	Victoria, Tex.
Do.....	Refugio County Press.	Refugio, Tex.
Do.....	The Port Lavaca Wave.	Calhoun, Tex.
Mar. 13, 1975..	The Karnes City Citation.	Karnes, Tex.
Do.....	Gonzales Inquirer.....	Gonzales, Tex.
Mar. 20, 1975..	Edna Herald.....	Jackson, Tex.
Mar. 12, 1975..	Wharton Journal-Spectator.	Wharton, Tex.
Mar. 13, 1975..	Beeville Bee Picayune.	Bee, Tex.
Do.....	The Colorado County Citizen.	Colorado, Tex.
Mar. 12, 1975..	The Cuero Daily Record.	DeWitt, Tex.

Applicant states that the proposed subsidiary would engage in the following activities: Providing bookkeeping and data processing services for the internal operations of Victoria Bankshares, Inc. and its subsidiaries, and storing and processing other banking, financial, or related economic data, such as performing payroll, accounts receivable or payable, or billing services. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 9, 1975.

[2] Voting for this action: Governors Sheehan, Holland and Bucher. Voting against this action: Vice Chairman Mitchell and Governor Wallich. Absent and not voting: Chairman Burns and Governor Coldwell.

[1] All deposit data are as of June 30, 1974.

[3] The Chicago banking market includes all banks in Cook and DuPage Counties plus several banks in Lake County, Illinois.

V 40-73 APR 15 75 XUM

Board of Governors of the Federal Reserve System, April 8, 1975.

GENERAL ACCOUNTING OFFICE

FEDERAL ENERGY ADMINISTRATION

Receipt and Approval of Regulatory Reports Review Proposals

The following request for emergency clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on March 19, 1975. See U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt and the action taken by GAO.

FEDERAL ENERGY ADMINISTRATION

Request was made for approval of FEA form C-604-S-0, "Reconversion of Electric Powerplants to Coal Use". The information to be collected by this form will be used to support FEA's implementation of the Energy Supply and Environmental Coordination Act which prohibits any powerplant from burning gas or oil as its primary energy source.

The Act expires June 30, 1975, and with it the authority for issuing reconversion orders to major fuel burning installations. In order to publish the reconversion orders by June 30, FEA must get responses from some 62 powerplants by early May. In view of the severe time constraints of the program, they have requested that GAO provide emergency clearance thereby giving respondents and FEA an adequate amount of time.

GAO has provided clearance of FEA form C-604-S-0 under number B-181254 (S75021). This clearance expires June 30, 1975.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.75-9744 Filed 4-14-75;8:45 am]

FEDERAL ENERGY ADMINISTRATION

Receipt and Approval of a Proposed Regulatory Report

The following request for emergency clearance of a proposed report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on March 24, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt and the action taken by GAO.

FEDERAL ENERGY ADMINISTRATION

Request was made for approval of the report "Major Fuel Burning Installation Coal Conversion Report". The report is required to be filed for any installation other than a powerplant that has or is a fossil-fuel fired boiler, burner, or other combustor of fuel, or any combination thereof at a single site, that has individually or in combination, a design firing rate of 100 million BTU's per hour or greater, and includes any person who owns, leases, operates, controls or supervises any such installation or unit. This information is to be used to examine the feasibility and effect of issuing orders to specified major fuel burning installations prohibiting them from burning oil or natural gas.

The Energy Supply and Environmental Coordination Act of 1974 authorizes FEA to issue prohibition orders to certain major fuel burning installations, other than power plants, to prohibit them from burning natural gas or petroleum products as their primary energy source. This survey comprises a significant part of the Office of Fuel Utilization's effort to identify candidates for coal conversion in both the utility and industrial sector and subsequently issue mandatory orders prohibiting the burning of oil and natural gas at designated installations. The act expires June 30, 1975, and with it the authority for issuing prohibition orders to major fuel burning installations. In order to publish the prohibition orders by June 30, FEA stated that it would be necessary to receive completed responses by the first week in May. In view of the severe time constraints of the program, FEA requested that GAO provide emergency clearance thereby giving respondents and FEA an adequate amount of time. FEA stated that the burden on respondents is estimated to average 10.5 hours per report.

GAO provided clearance of this collection of information under number B-181254 (S75022) on April 3, 1975. This clearance expires June 30, 1975.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

GENERAL SERVICES ADMINISTRATION

REGIONAL PUBLIC ADVISORY PANEL ON ARCHITECTURAL AND ENGINEERING SERVICES

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of a meeting of the Regional Public Advisory Panel on Architectural and Engineering Services, Region 6, May 2, 1975, from 9:30 a.m. to 3:30 p.m., PES Conference Room, Federal Building, 1500 East Bannister Road, Kansas City, MO. The meeting will be devoted to the initial step of the procedures for screening and evaluating the qualifications of architect-engineers under consideration for selection to furnish professional services for two term A-E contracts; (1) Supplemental Architectural, Structural and Civil Engineering Services; and, (2) Supplemental Mechanical and Electrical Engineering Services. Frank and open discussion of the professional qualifications of the firms being considered is essential to insure selection of the best qualified firms. Accordingly, pursuant to a determination that it will be concerned with a matter listed in 5 U.S.C. 552(b)(5) the meeting will not be open to the public.

J. V. GARRETT,
Acting Regional Administrator.

[FR Doc.75-9895 Filed 4-14-75;8:45 am]

REGIONAL PUBLIC ADVISORY PANEL ON ARCHITECTURAL AND ENGINEERING SERVICES

Meeting

Pursuant to Public Law 92-463, notice is hereby given of a meeting of the Regional Public Advisory Panel on Architectural and Engineering Services, Region 3, April 24, 1975, from 10:00 a.m. to 12 noon, Room 7511, General Services Administration, Regional Office Building, 7th and D Streets SW., Washington, D.C. The meeting will be devoted to Conducting a briefing on A-E selection procedures and the duties of the Panel members as related to these procedures. The meeting will not be concerned with a matter listed in 5 U.S.C. 442(b)(5), therefore, it will be opened to the public. Because this meeting commits travel plans for the participants from five states and the District of Columbia, it will be impractical to reschedule the meeting for a later time. Therefore, the fifteenth day prior notice listing is set aside.

BEN SCHIFFMAN,
Acting Regional Administrator.

INTERNATIONAL TRADE COMMISSION

[AA1921-146]

LOCK-IN AMPLIFIERS AND PARTS THEREOF FROM THE UNITED KINGDOM

Investigation and Hearing

Having received advise from the Treasury Department on April 2, 1975, the lock-in amplifiers and parts thereof from the United Kingdom are being, or are likely to be, sold at less than fair value, the United States International Trade Commission on April 9, 1975, instituted investigation No. AA1921-146 under section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), to determine whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States.

Hearing. A public hearing in connection with the investigation will be held in the Commission's Hearing Room, International Trade Commission Building, 8th and E Streets NW., Washington, D.C. 20436, beginning at 10 a.m., e.d.t., on Tuesday, May 20, 1975. All parties will be given an opportunity to be present, to produce evidence, and to be heard at such hearing. Requests to appear at the public hearing should be received by the Secretary of the Commission, in writing,

at its office in Washington, D.C., not later than noon Friday, May 16, 1975.

By order of the Commission:

Issued: April 10, 1975.

KENNETH R. MASON,
Secretary.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (75-29)]

NASA AD HOC ADVISORY SUBCOMMITTEE TO EVALUATE PROPOSALS FOR PARTICIPATION IN THE SCIENTIFIC DEFINITION OF EXPLORER-CLASS PAYLOADS

Notice of Date and Place of Meeting

One section of the NASA Ad Hoc Advisory Subcommittee on the Space Science Steering Committee to evaluate proposals for participation in the scientific definition of Explorer-class payloads will meet at NASA Headquarters in Washington, D.C. during May. On May 1, 2, and 3, 1975, Subcommittee Section D (High Energy) will meet in Room 6004 of Federal Office Building 6 (400 Maryland Ave., SW.) from 8:30 a.m. to 4:30 p.m. The meetings of other subcommittee sections will be advertised in the FEDERAL REGISTER and convened in the near future.

The Subcommittee sessions will discuss, evaluate and categorize proposals for participation on Mission Definition Teams which will define Explorer-class, cosmic ray, gamma ray, and solar wind payloads. Throughout the Subcommittee sessions, the professional qualifications of the proposers and their potential scientific contributions to the Mission Definition Teams will be candidly discussed and appraised. Discussion of these matters in a public session would invade the privacy of the proposers and the other individuals involved. The meeting will be closed to members of the public. Since the Subcommittee session will be concerned throughout with matters listed in 5 USC 552(b)(6), it is hereby determined that the session will be closed to the public.

For further information please contact Dr. Albert G. Opp at 202-755-8493.

DUWARD L. CROW,
Assistant Administrator for DOD and Interagency Affairs.

APRIL 11, 1975.

NATIONAL CAPITAL PLANNING COMMISSION

FREEDOM OF INFORMATION ACT

Availability of Information

The National Capital Planning Commission will consider the adoption, at its meeting on May 1, 1975, of the following Proposed Regulations[1] relating to the Freedom of Information Act, as amended. Interested organizations, agencies and citizens are requested to submit their views in writing to the Commission prior to April 25, 1975, addressed to:

Daniel H. Shear, Secretary
National Capital Planning Commission
Washington, D.C. 20576.

1. *Introduction.* The following regulations implement the Freedom of Information Act, as amended, 5 U.S.C. 552 (hereinafter the "Act"), and provide procedures by which information may be obtained from the National Capital Planning Commission (hereinafter the "Commission"). Official records made available pursuant to the Act shall be furnished to members of the public as prescribed herein.

II. *Organization.* The Commission is the central planning agency for the Federal Government in the National Capital. The Commission is composed of (1) ex-officio, the Secretary of the Interior, the Secretary of Defense, the Administrator of the General Services Administration, the Mayor of the District of Columbia, the Chairman of the Council of the District of Columbia, and the Chairmen of the Committees on the District of Columbia of the Senate and the House of Representatives, or their alternates, and (2) five citizens, three of whom are appointed by the President, and two of whom are appointed by the Mayor of the District of Columbia.

The Commission is assisted by a staff headed by an Executive Director. The staff is organized functionally as follows:

(1) Current Planning and Programming
(2) Long Range Planning and Regional Affairs
(3) Legal Services/Commission Secretariat
(4) Administrative Services
(5) Public Affairs

III. *Public Access to Information*—:

A. *General Policy.* It is the Commission's general policy to facilitate the broadest possible availability and dissemination of information to the public. The Commission's staff is available to assist the pubic in obtaining information formally by using the procedures herein or informally by discussions with the staff. The Commission's staff may, therefore, continue to furnish informally to the public information which, prior to the amendments to the Act contained in Pub. L. 93-502, enacted November 21, 1974, was customarily furnished in the regular performance of their duties, provided the staff do so in a manner not inconsistent with these regulations. In addition, to the extent permitted by other laws, the Commission will make available records which it is authorized to withhold under the Act when it determines that such disclosure is in the public interest.

B. *Established Place of Obtaining Information.* Information may be obtained only from the Commission's offices, which are located at 1325 G Street NW., Washington, D.C. 20576. Its official hours are 8:30 A.M. to 5 p.m., Monday through Friday, excluding legal holidays.

C. *Information Sources Within the Commission.* Requests for Commission publications offered for sale or informal requests for general information on the Commission should be directed to the Office of Public Affairs. All formal requests for agency records pursuant to the Act must be directed to the Commission Secretary. Any request directed initially to the wrong information source will be correctly routed by the Commission's staff and the requesting party will be so notified. The ten-day time period within which the Commission is required to determine whether to comply with a request shall not begin to run until the request reaches, or with the exercise of due diligence should have reached, the appropriate information source.

D. *Information Routinely Available.* The following types of information shall be routinely available (subject to the fee schedule, *infra*) for public dissemination without recourse to the Commission's formal information request procedures unless such information falls within one of the exemptions to agency disclosure listed in 5 U.S.C. 552(b):

1. Correspondence between the Commission and the public;
2. Executive Director's Recommendations;
3. Committee Reports;
4. Commission Memorandums of Actions; and
5. Maps.

Requests for information, other than maps, shall be directed to the Commission Secretary; map requests shall be directed to the Office of Public Affairs.

E. *Formal Requests for Information.* All formal requests for information pursuant to the Act shall be made in writing to the Commission Secretary. To expedite internal handling of such requests, the words "Freedom of Information Request" shall appear on the face of the envelope bearing such request. The request shall state that the request is made pursuant to the Freedom of Information Act; shall reasonably describe the information sought, including the date the Commission received or produced the requested information, if known; shall state, pursuant to the fee schedule set forth *infra*, the maximum fee the party making the request would be willing to pay for the duplication of the requested records without further approval; and shall, if possible, provide a telephone number at which the requesting party can be contacted to facilitate handling of the request.

F. *Commission Response to Formal Requests.* The Commission Secretary, upon request for information made in compliance with these regulations, shall determine within ten days (excepting Saturdays, Sundays, and legal holidays) after the receipt of any such request whether to comply with such request and shall immediately notify the person making such request of such determination and the reasons therefor and of the right of such person to appeal to the head of the agency any adverse determination. In unusual circumstances as specified *infra*, the ten-day time limit

[1] The schedule of fees, herein III.J., has already been published in the FEDERAL REGISTER (40 FR 6545, February 12, 1975) and adopted by the Commission.

V 40 173 APR 15 75 5 XUM

may be extended by written notice to the person making the request setting forth the reasons for such extension and the date on which a determination is expected to be dispatched. No such notice shall specify a date that would result in an extension for more than ten working days. As used in this paragraph, "unusual circumstances" means, but only to the extent reasonably necessary to the proper processing of the particular request:

1. the need to search for and collect the requested records from establishments that are separate from the Commission's offices;

2. the need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

3. the need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject matter interest therein.

G. *Determination to Grant Request.* If the Commission Secretary makes a determination to grant a request in whole or in part, the person making such request will be so notified in writing. The notice shall also include a description of the information to be made available, a statement of the time when and the place where such information may be inspected or, alternatively, the procedure for duplication and delivery (by mail or other means) of the information to the requesting party and a statement of the total fees chargeable to the requesting person pursuant to the fee schedule *infra*.

H. *Determination to Deny Request-Appeal Procedure.* If the Commission Secretary makes a determination to deny, in whole or in part, a request for information, he shall so notify the party making the request in writing. Any appeal of such determination shall be made in writing to the Chairman of the Commission and shall include a brief statement of the legal, factual, or other basis for the party's objection to the initial decision. The Chairman shall, within twenty days (excepting Saturdays, Sundays, and legal holidays) of the receipt of any such appeal determine whether to grant or deny the appeal and shall, immediately upon making his decision, give written notice of the decision to the party, including a brief statement of the reasons therefor.

I. *Waiver.* Whenever a waiver of any of the procedures set forth herein would further the purpose of the Act by causing the public disclosure of nonconfidential information within the time period required by the Act, the Commission Secretary may, in the context of individual requests for information, waive any of the procedural requirements herein.

J. *Schedule of Fees.* The fees the Commission may charge for the production of information pursuant to the Act is as follows:

1. Publications offered for sale—as marked
2. Commission reports—$0.15/page
3. Committee reports—$0.15/page
4. Commission Memorandums of Actions—$0.15/page
5. Transcripts of Commission meetings and Committee meetings—$0.15/page
6. Other records—$0.15/page
7. Maps—microfilm printout—$0.50/each ozalid maps—$0.20/linear foot

The Commission keeps on file a limited quantity of back copies of Executive Director's Recommendations, Committee Reports, and Commission Memorandums of Actions. The Commission will first attempt to fill specific requests for these documents from its supply of back copies and until the supply is exhausted, the Commission will provide the documents at no charge. Once the supply is exhausted, the requested document will be provided in accord with the fee schedule.

Fees will be waived when less than $5.00 or when it is in the public interest to do so. Such a waiver will be in the public interest, for example, when in the determination of the Commission the request will not impose an undue burden or expense upon it and the request is (1) from another Government organization, Federal, State or local; (2) for the purpose of obtaining information primarily for the benefit of the general public rather than for the primary benefit of the requester, as will be the case with certain requests from news media and from organizations engaged in a nonprofit activity designed for public safety, health, welfare, or education; (3) from employees and former employees seeking information from their own personnel records; (4) from or on behalf of the defending party in connection with a proceeding against such party by the Federal Government; and (5) from a low-income person and the fee would impose a financial hardship.

K. *Prior Approval or Advanced Deposit of Fees.* 1. Where the fees anticipated to result from a request are substantially greater than the amount estimated in the written request, the persons requesting the information shall be immediately notified of the estimated fees and his approval of such fees requested. Such person shall also be afforded the opportunity to revise his or her request to reduce the fees but satisfy his or her needs for information.

2. The Commission Secretary may require that the person requesting information make an advance deposit of the estimated fees.

3. The dispatch of any such request for an estimated fee approval or advance deposit shall suspend, until a reply is received by the Commission Secretary, the period pursuant to 5 U.S.C. 552 and paragraph F *supra* within which the Commission Secretary must respond to a written request for information.

L. *Payment of Fees.* Fees charged a person for the production of information must be paid in full prior to release of the information. In the event that the person is in arrears for previous requests to the Commission for information, no information will be provided for any subsequent requests until the arrears have been paid in full. Payment of fees shall be made by a personal check, postal money order or bank draft on a bank in the United States, made payable to the order of the Treasurer of the United States.

DANIEL H. SHEAR,
Secretary.

APRIL 9, 1975.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN 50-528, STN 50-529, STN 50-530]

ARIZONA PUBLIC SERVICE CO.

Notice of Availability of Draft Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations in 10 CFR Part 51, notice is hereby given that a Draft Environmental Statement, prepared by the Commission's Office of Nuclear Reactor Regulation related to the proposed construction of Palo Verde Nuclear Generating Station, Units 1, 2 and 3 by the Arizona Public Service Company, on behalf of itself, and five joint applicants—the Salt River Project Agricultural Improvement and Power District, Tucson Gas & Electric Company, El Paso Electric Company, Public Service Company of New Mexico, and Arizona Electric Power Cooperative, Inc., in Maricopa County, Arizona, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. and in the Phoenix Public Library, 12 East McDowell Road, Phoenix, Arizona 85004. The Draft Statement (NUREG-75/022) is also being made available at the Arizona State Clearinghouse, Office of Economic Planning & Development, 1645 W. Jefferson Street, Room 428, Phoenix, Arizona 85007 and Maricopa Association of Governments, 1820 W. Washington, Phoenix, Arizona 85007.

The Applicant's Environmental Report, as supplemented, submitted by Arizona Public Service Company is also available for public inspection at the above-designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on October 22, 1974 (39 FR 37527).

Pursuant to 10 CFR Part 51, interested persons may submit comments on the Applicant's Environmental Report, as supplemented, and the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Applicant's Environmental Report and the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments are due by June 3, 1975. Comments by Federal, State, and local officials, or other persons

received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, D.C. and the Phoenix Public Library, 12 East McDowell Road, Phoenix, Arizona 85004. Upon consideration of comments submitted with respect to the draft environmental statement, the Commission's staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested members of the public should be addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Rockville, Maryland this 10th day of April 1975.

For the Nuclear Regulatory Commission.

WM. H. REGAN, Jr.,
Chief, Environmental Projects Branch 4, Division of Reactor Licensing.

[FR Doc.75-9898 Filed 4-14-75;8:45 am]

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on April 9, 1975 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (X) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice thru this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529), or from the Reviewer listed.

NEW FORMS

DEPARTMENT OF AGRICULTURE

Statistical Reporting Service, Marketing Survey for Corn, Soybeans, and Wheat (Illinois), single-time, corn, soybean and wheat growers, Hulett, D. T., 395-4730.

Agricultural Stabilization and Conservation Service, Producer Itemization of Cotton, ASCS-504, annually, cotton producers, Hulett, D. T., 395-4730.

DEPARTMENT OF JUSTICE

Departmental and Other Youth Needs Survey, single-time, youth ages 12-18 years, Reese, B. F., 395-5630.

NATIONAL INSTITUTE OF EDUCATION

Environmental Education Questionnaire; Forms I and II, NIE 106, single-time, teachers and curriculum coordinators, Planchon, P., 395-3886.

REVISIONS

DEPARTMENT OF COMMERCE

Bureau of the Census, Survey of Scientific and Technical Personnel in Industry, single-time, establishments in selected economic areas, Dennis Johnston, 395-3840.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

National Institute of Education, Community Opinion Survey, NIE 83, single-time, teachers in Alum Rock, School District, San Jose, Calif., Planchon, P., 395-3886.

EXTENSIONS

DEPARTMENT OF AGRICULTURE

Agricultural Stabilization and Conservation Service, Report of Production and Disposition (Rice and Wheat), MQ-98, on occasion, rice producers, Marsha Traynham, 395-4529.

Food and Nutrition Service, Regulation Determining Eligibility for Free and Reduced Price Meals, on occasion, State agencies, Marsha Traynham, 395-4529.

PHILLIP D. LARSEN,
Budget and Management Officer.

SECURITIES AND EXCHANGE COMMISSION

AETNA VARIABLE ANNUITY LIFE INSURANCE CO.

Application

APRIL 8, 1975.

Notice of application pursuant to section 11 of the Act for approval of offers of exchange and pursuant to section 6 (c) of the Act for an order of exemption from sections 22(d), 26(a), 27(a)(3) and 27(c)(2) of the Act and Rules 27a-2 thereunder.

In the matter of AEtna Variable Annuity Life Insurance Company and Variable Annuity Account C of AEtna Variable Annuity Life Insurance Company; 151 Farmington Avenue, Hartford, Connecticut 06115; (812-3748).

Notice is hereby given that AEtna Variable Annuity Life Insurance Company ("AEtna Variable"), an Arkansas stock life insurance company registered under the Act as an open-end, diversified, management investment company, and Variable Annuity Account C of AEtna Variable ("Account C"), a new separate account recently registered under the Investment Company Act of 1940 (the "Act") as a unit investment trust hereinafter collectively referred to as "Applicants"), filed an application on January 10, 1975 and an amendment thereto on March 21, 1975, pursuant to section 11 of the Act, for an order approving certain offers of exchange and pursuant to section 6(c) of the Act for an order of exemption from sections 22 (d), 26(a), 27(a)(3), and 27(c)(2) of the Act and Rule 27a-2 thereunder to the extent noted below. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

AEtna Variable, a wholly-owned subsidiary of AEtna Life and Casualty Company ("AEtna") engaged in the business of offering and selling variable annuity contracts, is presently registered under the Act in order to conduct variable annuity operations and is also registered as a broker-dealer under the Securities Exchange Act of 1934. As of December 31, 1974, AEtna Variable had total assets in excess of $421 million and unappropriated surplus in excess of $128 million.

AEtna Variable has undertaken a realignment program which is designed to lead to its variable annuity and variable life insurance operations being subject to the same pattern of regulation under the Act that is applicable to other life insurance companies engaged in such operations. The realignment program will be implemented by transferring all assets funding variable annuity contracts currently offered by AEtna Variable to AEtna Variable Fund, Inc. (the "Fund") in exchange for Fund shares, and transferring such shares and the corresponding contract liabilities to Account C and Variable Annuity Account B of AEtna Variable ("Account B"), another separate account of AEtna Variable which also recently registered as a unit investment trust. AEtna Variable has applied for an order pursuant to section 8(f) of the Act declaring that, upon implementation of the realignment program, it will cease to be an investment company.

Account C is a separate account of AEtna Variable that was established for the purpose of holding reserves attributable to variable annuity contracts issued in connection with (i) pension and profit-sharing plans which meet the requirements of Section 401 of the Internal Revenue Code of 1954 ("Code") or the requirements for deduction of the employer's contributions under section 404 (a)(2) of the Code and (ii) annuity purchase plans adopted pursuant to sections 403(b) or 408 of the Code. As previously stated, all amounts allocated to Account C will initially be invested in shares of the Fund, a diversified, open-end investment company registered under the Act. It is contemplated, however, that, subject to necessary regulatory approvals, shares of AEtna Variable Encord Fund, Inc. ("Encore Fund"), a registered, open-end, diversified, management investment company, will also be made available as an investment medium for contracts participating in Account C if so elected by owners of or participants under such contracts.

AEtna Variable will act as investment adviser to both the Fund and Encore Fund for a fee equivalent to approximately 0.25% on an annual basis. AEtna Variable will also act as principal underwriter for Account B and Account C.

After implementation of the proposed realignment program, Applicants will issue two individual type variable annuity contracts-designated "Individual Retirement Account" and "Retirement

V 40 I 73 APR 15 75 XUM

Planning" contracts and one group type variable annuity contract-designated "Group Variable Retirement" contract-that will participate in Account C. All such contracts will provide that either all or specified portions of purchase payments may be applied to AEtna's Variable's general account for accumulation on a fixed basis.

Certain other contracts issued by AEtna Variable prior to the implementation of its realignment program will also participate in Account C. In general, after implementation of the realignment program, such contracts will no longer be issued, but purchase payments under outstanding contracts may continue to be made and, if made, will be allocated to Account C. One of these contracts, an individual type contract designated the "Pension Trust" contract, may continue to be issued after implementation of the realignment program in any jurisdiction which has not approved the Individual Retirement Account and Retirement Planning contracts for sale.

Section 11. Applicants propose to permit owners of those Pension Trust contracts which participate in Account C and qualify for tax sheltered treatment under Sections 403(b) or 408 of the Code to exchange their contracts for the new Individual Retirement Account or Retirement Planning contracts (the "new individual type contracts"), and to have the values accumulated under such Pension Trust contracts, as of August 1, 1975, transferred to the new individual type contracts without deduction. Any person who purchases such a Pension Trust contract on or after December 3, 1974, the date Account C's registration statement under the Securities Act of 1933 was filed, and who elects to exchange such a contract for a new individual type contract, will also receive from AEtna Variable additional accumulation units equal to the sum of the differences between deductions made from purchase payments under the Pension Trust contract and deductions which would have been made from purchase payments under the Individual Retirement Account or Retirement Planning contract, together with simple interest at the rate of 6 percent per annum. The exchange of contracts will be effected at the end of business on August 1, 1975 and will be permitted only with respect to those Pension Trust contracts which at the time of the exchange are still in the accumulation stage, i.e., with respect to which annuity payments are not being made.

Section 11(a) of the Act provides that it shall be unlawful for any registered open-end company or principal underwriter for such a company to make or cause to be made an offer to the holder of a security of such company or of any other open-end investment company to exchange his security for a security in the same or another such company on any basis other than the relative net asset values of the respective securities to be exchanged, unless the terms of the offer have first been submitted to and approved by the Commission. Section 11(c) of the Act provides that, irrespective of the basis of exchange, the provisions of section 11(a) of the Act shall be applicable to any type of offer of exchange of the securities of registered unit investment trusts for the securities of any other investment company.

Applicants request an order pursuant to section 11(a) of the Act, to permit an offer to be made to certain owners of Pension Trust contracts to exchange such contracts for Individual Retirement Account and Retirement Planning contracts.

Applicants state that the requested order permitting an offer of exchange to be made will make available to owners of Pension Trust contracts any advantages which may result from owning the new individual type contracts. Applicants state that the additional credit to persons who purchase Pension Trust contracts, on or after December 3, 1974, is designed to prevent any disruption in the sale of Pension Trust contracts which might otherwise result when prospective purchasers are notified of the forthcoming issuance of the new individual type contracts which will have a percentage deduction from purchase payments (9 percent) significantly lower than the initial percentage deduction under Pension Trust contracts (17 percent).

Applicants state that since no charges will be assessed in connection with the exchange, the principal abuse at which section 11(a) is directed (the imposition of additional sales charges) will not be present. Applicants represent that no attempt will be made by them to induce an exchange, and that no compensation will be paid to any agents in connection with an exchange. Applicants further assert that an exchange made by persons who purchase Pension Trust contracts on or after December 3, 1974, will be on a basis other than net asset value only by reason of the additional credits the exchanging contract owners will receive, and that such credits will be a benefit to them. As the credit will be paid by AEtna Variable from AEtna Variable's general account, no owners of contracts participating in any of its separate accounts will be prejudiced.

Applicants state that the terms of the new individual type contracts differ significantly from those of the Pension Trust contract and that an exchange would not necessarily be in the best interest of all Pension Trust contract owners. The determination whether to accept the exchange will be made by each contract owner. Whether an exchange will be advantageous will depend on a number of factors, including the level of any premium tax to be paid under the new contract, the number of years before the contract owner's retirement, the number of years before the percentage deduction under the Pension Trust contract would decrease to 6%, whether the contract owner would elect a minimum death benefit guarantee under the new contract, the amount and frequency of payments to be made under the old and new contracts, the significance to be assigned to the absence of an income tax guarantee under the new contract and the absence also of a corresponding charge for such a guarantee, the amount accumulated under the present contract and expected to be accumulated in the future, the prospect for a surrender of the contract in whole or in part, and anticipated changes in the amount or frequency of payments or in other circumstances affecting the foregoing.

AEtna Variable will seek to assist Pension Trust contract owners in determining whether to make an exchange by pointing out the applicable factors. Persons to whom the exchange offer is made will receive a prospectus describing the new individual type contracts, a prospectus describing the Pension Trust contracts, plus such additional information as may be necessary to assist contract owners in determining whether to make an exchange.

Applicants submit that in view of the protections afforded by the proposed disclosure to contract owners to whom the exchange offer will be made, the absence of any effort to induce an exchange, and the absence of charges in connection with such an exchange, the proposed offer of exchange is fair and should be approved by the Commission.

Applicants request a further order, pursuant to section 11(a) of the Act, to permit transfers of participant accounts under group contracts to individual contracts. The Group Variable Retirement contracts to be issued by Applicants provide that if an employer's plan permits, or the contract owner so requests, a participant may have amounts accumulated on his behalf under a group contract transferred to an individual contract without charge. The individual contract will be the contract for which the participant qualifies at the time of the transfer and such contract (usually, the Retirement Planning contract), will be deemed to have been outstanding for the lesser of the number of years the participant has been in the plan or the group contract has been in force. In addition, if a participant becomes an employee of another employer which has a Group Variable Retirement contract or similar group contract in force, AEtna Variable will permit such a participant to transfer amounts accumulated on his behalf to an individual account under the new employer's contract without charge. Other group contracts, including those no longer offered and those which may be offered in the future, may contain similar transfer provisions. Applicants state that the transfer privilege is designed to permit an employee to have payments accumulated for his retirement under a single contract despite a change in employment and submit that such a transfer privilege is fair and should be approved by the Commission.

Section 22(d). Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter thereof shall sell any redeemable security to the public except

at a current public offering price described in the prospectus.

Applicants request an exemption from section 22(d) to permit those owners of Pension Trust contracts which participate in Account C and qualify for tax sheltered treatment under sections 403(b) or 408 of the Code to exchange their contracts for Individual Retirement Account or Retirement Planning contracts, and to permit participants under group contracts to transfer amounts accumulated on their behalf to individual contracts, without any deduction for sales and administrative expenses.

A further exemption from section 22(d) is requested by Applicants to permit deductions from purchase payments for sales and administrative expenses to be based upon the aggregate amount of payments made under the contracts regardless of whether such payments, or a part thereof, are credited to Account C or to the general account of AEtna Variable. Applicants assert that, where a contract provides for a reduction, based upon the aggregate purchase payments made, in the deductions from purchase payments for sales and administrative expenses, the inclusion, in determining the aggregate purchase payments made, of amounts credited to AEtna Variable's general account is necessary to avoid discriminating against those persons who allocate a portion of their purchase payments to AEtna Variable's general account.

Applicants also request an exemption from section 22(d) to permit the transfers, without additional deductions, of amounts accumulated in AEtna Variable's general account on a fixed basis to Account C at the annuity commencement date or an earlier date. Applicants represent that since the same deductions for sales and administrative expenses are made from each purchase payment without regard to whether the net proceeds are applied to the separate account, the general account, or a combination thereof, imposition of an additional deduction when amounts accumulated on a fixed basis are transferred to Account C would be inequitable and discriminatory.

Applicants request a further exemption from section 22(d) to permit the experience rating of sales and administrative expense deductions, including the crediting of additional units, without further deductions for sales charges. AEtna Variable's outstanding group contracts provide, and group contracts issued in the future may provide, that if the deductions for sales and administrative expense exceed actual sales and administrative costs, AEtna Variable in its discretion may allocate all, a portion, or none of such excess as an experience rating credit. Applicants represent that such credit will be made on a nondiscriminatory basis in the form of additional accumulation or annuity units and that such credit will not result in any dilution of the interests of other owners of or participants under variable annuity contracts as payment of the credit will be made from AEtna Variable's general account.

An exemption from section 22(d) is also requested by Applicants to permit a person entitled to any proceeds payable upon the death of another, under a variable annuity contract participating in Account C, to elect, if such an option is provided by the contract or the group contract plan, to purchase a variable annuity contract with such death proceeds, including proceeds attributable to any fixed accumulation, without any deduction for sales and administrative expenses. Applicants anticipate no significant selling expenses that would justify a deduction when a beneficiary elects a variable annuity payment option.

AEtna Variable intends to issue Individual Retirement Account and Retirement Planning contracts in place of Pension Trust contracts in all jurisdictions subsequent to implementation of the program. However, delays in obtaining approval of the new individual type contracts in some jurisdictions may make it necessary to continue to offer Pension Trust contracts in those jurisdictions until such approval is obtained. Consequently, Pension Trust contracts may continue to be sold in certain jurisdictions subsequent to implementation of the Realignment Program. Purchase payments under such contracts, and under other contracts outstanding as of implementation, would continue to be received. Where the contracts are entitled to special tax treatment under the Code, such payments will be allocated to Account C. Sales charges under such contracts differ from the sales charges under the contracts which will be offered subsequent to implementation. Applicants therefore, request a further exemption from section 22(d) to permit Pension Trust contracts to continue to be sold in jurisdictions that have not approved the new individual type contracts until such approval is obtained, and to permit the continued receipt of purchase payments on contracts that were outstanding upon implementation of the Realignment Program.

Section 27(a)(3) and rule 27a-2. Section 27(a)(3) of the Act provides that no registered investment company issuing periodic payment plan certificates and no depositor of or underwriter for such company, may sell any such certificate if the amount of sales load deducted from any one of the first twelve monthly payments exceeds proportionately the amount deducted from any other such payment, or if the amount deducted from any subsequent payment exceeds proportionately the amount deducted from any other subsequent payment. Rule 27a-2 provides an exemption from the prohibitions of section 27(a)(3) for registered separate accounts and depositors of and underwriters for such accounts, provided that the proportionate amount of sales load deducted from any payment under a variable annuity contract participating therein does not exceed the proportionate amount deducted from any prior payment thereunder.

The Individual Retirement Account and Retirement Planning contracts to be issued by Applicants will provide for percentage deductions from purchase payments for sales and administrative expenses to be assessed on the balance of the payment remaining after a flat dollar deduction and any deduction for applicable premium taxes. In addition, an optional minimum death benefit guarantee may be elected for a charge of 1 percent of the total purchase payment, and other optional insurance benefits may be made available at some future time under such contracts or other contracts for charges deducted from purchase payments. Where additional deductions are made for optional insurance benefits, the percentage deduction from purchase payments for sales and administrative expenses is assessed against the net payment remaining after all other deductions. Accordingly, the total deductions from purchase payments for sales and administrative expenses (including any flat dollar deduction and the specified percentage deduction) under each of the above contracts may vary as a percent of the total purchase payment. Depending on the contract involved, such factors may cause the total deductions from any purchase payment for sales and administrative expenses to exceed proportionately such deductions made from a prior payment.

Applicants state that the variation in the deductions for sales and administrative expenses as a percent of total purchase payments results from assessing the percentage deduction for sales and administrative expenses against the payment net of certain other deductions. The flat dollar deduction for sales and administrative expenses reflects more accurately the incidence of certain sales and administrative expenses which are incurred regardless of the size of the purchase payment. Applicants state that the purpose of assessing the percentage deduction for sales and administrative expenses against the net payment remaining after certain other deductions is to avoid assessing a charge against the flat dollar charge and amounts deducted for other purposes, and that assessing such percentage deduction against the net payment provides for lower total deductions than would otherwise result. Accordingly, Applicants request an exemption from the provisions of section 27(a)(3) and Rule 27a-2 to permit, under the circumstances described above, the proportionate amount of deductions for sales and administrative expenses from any purchase payment to exceed proportionately such deductions made from prior payments.

Sections 26(a) and 27(c)(2). Sections 26(a) and 27(c)(2), as here pertinent, provide in substance that a registered unit investment trust and any depositor of and underwriter for such trust are prohibited from selling periodic payment plan certificates unless the proceeds of all payments, other than amounts deducted for sales loads, are deposited with a qualified bank as trustee or custodian and held under an indenture or agreement containing specified provisions. Applicants state that AEtna Variable and

V 40173
APR 15 75

Account C are subject to extensive supervision and control by the Arkansas insurance regulatory authorities and that such control and supervision protect variable annuity contract owners and provide the assurance of performance by AEtna Variable of its obligations to such owners. Applicants further state that under Arkansas insurance law, the assets of Account C attributable to variable annuity contracts shall not be chargeable with liabilities arising out of any other business AEtna Variable may conduct, and that all obligations under the variable annuity contracts participating in Account C are general obligations of AEtna Variable, which AEtna Variable may not abrogate.

It is further contemplated that the Fund shares and Encore Fund shares issued to Account C will be held pursuant to an open account system, will not be represented by any transferable stock certificates which might require a trusteeship or custodianship for safekeeping purposes, and that the underlying securities and similar investments of the Funds will be deposited in the safekeeping of a qualified bank. Applicants represent that, under the foregoing circumstances, the dangers of abandonment of Account C's assets or default with respect to the obligations to security holders appear remote, and accordingly request an exemption from sections 26 (a) and 27(c) (2) to permit Applicants to sell variable annuity contracts without depositing with a qualified bank the net proceeds of payments thereunder.

Applicants consent to the exemptions requested herein from sections 26(a) and 27(c) (2) being made subject to the following conditions: (1) that the charges to variable annuity contract owners for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe, jurisdiction being reserved for such purpose; and (2) that the payments of sums and charges out of the assets of Account C shall not be deemed to be exempted from regulation by the Commission by reason of the requested order, provided that Applicants' consent to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payments of sums and charges out of such assets other than charges for administrative services, and Applicants reserve the right in any proceeding before the Commission or in any suit or action in any court to assert that the Commission has no authority to regulate the payments of such other sums or charges.

Section 6(c) of the Act provides, in part, that the Commission may, by order upon application, conditionally or unconditionally exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision or provisions of the Act or of any rule or regulation under the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 24, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponement thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.75–9753 Filed 4–14–75;8:45 am]

COLUMBIA GAS SYSTEM, INC. AND COLUMBIA GAS TRANSMISSION CORP.

Sale of Notes to Banks

In the matter of the Columbia Gas System, Inc., Columbia Gas Transmission Corporation, 20 Montchanin Road, Wilmington, Delaware, 19807, (70–5039).

Notice of Post-effective Amendment regarding issue and sale of notes to banks by holding company, issue and sale of notes by subsidiary company to holding company, and acquisition by subsidiary company of notes of non-associate company. Notice is hereby given that Columbia Gas System, Inc. ("Columbia"), a registered holding company, and one of its nonutility subsidiary companies, Columbia Gas Transmission Company ("Transmission"), have filed with this Commission a post-effective amendment to the application-declaration in this proceeding pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6, 7, 9, and 10 of the Act and Rule 43 thereunder as applicable to the proposed transactions. All interested persons are referred to the amended application-declaration, which is summarized below, for a complete statement of the proposed transactions.

By order in this proceeding dated August 2, 1971 (HCAR No. 17213), the Commission authorized certain transactions which related to Columbia's program to supplement its sources of natural gas supply through the importation of gas from Prudhoe Bay, Alaska. They essentially involved Columbia's obtaining bank

loans of up to $200,000,000 and lending equal amounts to Transmission. In turn, Transmission was to make an advance payment of such amounts to BP Oil Corporation ("BP Oil") to assist in the financing and development of BP Oil's oil and gas reserves in Prudhoe Bay. The advance payment was the consideration for Transmission's acquisition of a call on such gas reserves.

BP Oil, as of the close of business on December 31, 1973, was merged into Sohio Petroleum Company ("SPC") and a wholly-owned subsidiary, as was BP Oil, of The Standard Oil Company ("Sohio"). SPC has succeeded to all of the properties and assets of BP Oil and has assumed all of its debts, liabilities, undertakings, agreements, and obligations.

To date, Transmission has advanced $175,000,000 to SPC, $60,000,000 on August 3, 1971, when the Crude Oil Sales Agreement was executed, $60,000,000 on October 31, 1974, and $55,000,000 on February 28, 1975.

The agreement between Transmission and SPC has been amended to reduce the amount of Transmission's obligation to make advances to SPC from $200,000,000 to $175,000,000.. The amendment was necessitated principally because of the long delay in the issuance of a Federal permit for the construction of a crude oil pipeline for the transportation of crude oil from the Prudhoe Bay Area of Alaska to Valdez, Alaska.

Columbia, Transmission, and the banks involved propose to amend the Credit Agreement effective as of August 15, 1974, so as to, among other things, (i) reduce the aggregate commitment of the banks thereunder from $200,000,000 to $175,000,000, (ii) change the Determination Date (the date which determines the principal repayment commencement date) from July 1, 1975, to July 1, 1977, (iii) reduce the effective rate of interest, and (iv) reduce the commitment fee from 1 percent to ½ percent per annum for the period from August 15, 1974, to February 28, 1975, on the last $55,000,000 portion of the total $175,000,000 commitment. By agreement with the banks, no commitment fee was paid from August 15, 1974, to October 31, 1974, on the second $60,000,000 advance, paid over by the banks to Columbia on the latter date. Simultaneously, Columbia and Transmission propose to amend the Intercompany Credit Agreement to reflect the above changes. As compared to Columbia's costs under the original agreements, the effect of the changes made by the amendment agreements will be to reduce Columbia's aggregate costs for the bank loans by approximately $18,512,000 and reduce the recovery of costs from SFC by about $13,298,000, leaving a net costs savings to Columbia of $5,214,000.

The fees and expenses to be incurred in connection with the proposed transactions are to be filed by amendment. It is stated that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than May 7, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice No. 742]

ASSIGNMENT OF HEARINGS

APRIL 10, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 139193, Sub 19, Roberts & Oake, Inc., now assigned June 19, 1975, at St. Louis, Missouri, is postponed indefinitely.

MC 130247, Colpitts Travel Agency of Rhode Island, Inc., now assigned April 15, 1975, at Providence, Rhode Island, is postponed indefinitely.

MC 121540, Sub 3, East Nebraska Motor Freight, Inc., now assigned May 1, 1975, at Omaha, Nebraska, will be held in Room 616, Union Pacific Plaza, 110 N. 14th St.

MC-F-12319, Warner Enterprises—Purchase—Kinnison Truck Lines, Inc., now assigned May 5, 1975, at Omaha, Nebraska, will be held in Room 616, Union Pacific Plaza, 110 N. 14th St.

AB-6 Sub 19, Burlington Northern, Inc., Abandonment Between Maryville and Bernard, in Nodaway County, Missouri, now assigned May 8, 1975, at Corydon, Iowa, will be held in the Public Meeting Room, Wayne County Courthouse.

MC 139721, All World Travel, Inc., now assigned May 6, 1975, at Newark, New Jersey, will be held in Room 730, Tax Court, Federal Office Bldg., 970 Broad St.

MC 103993, Sub 884, Morgan Drive-Away, Inc., application dismissed.

MC-F-12331, Aero Trucking, Inc.—Purchase (Portion)—Miller's Motor Freight, Inc., and MC 60014, Aero Trucking, Inc., now assigned April 28, 1975, at Washington, D.C., is postponed to July 28, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 74321, Sub 102, B. F. Walker, Inc., now assigned June 9, 1975, at Atlanta, Georgia, is cancelled and the application is dismissed.

MC 113843, Sub 216, Refrigerated Food Express, Inc., now being assigned June 9, 1975, at St. Louis, Mo.; in a hearing room to be designated later.

MC 134501, Sub 9 and 10, Utt Transport Company, now assigned May 7, 1975, at Washington, D.C., is cancelled and transferred to Modified Procedure.

[SEAL] ROBERT L. OSWALD,
Secretary.

FOURTH SECTION APPLICATIONS FOR RELIEF

APRIL 10, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before April 30, 1975.

FSA No. 42972—*Class and Commodity Rates Between Points in Texas.* Filed by Southwestern Freight Bureau, Agent (No. B-521), for interested rail carriers. Rates on sulphur, in carloads and tank-car loads, as described in the application, from, to and between points in Texas, over interstate routes through adjoining states. Grounds for relief—Intrastate rates and maintenance of rates from and to points in other states not subject to the same competition. Tariff—Supplement 66 to Southwestern Freight Bureau, Agent, tariff 87-J (TLFB Series), I.C.C. No. 1159. Rates are published to become effective on May 13, 1975.

AGGREGATE-OF-INTERMEDIATES

FSA No. 42973—*Class and Commodity Rates Between Points in Texas.* Filed by Southwestern Freight Bureau, Agent (No. B-520), for interested rail carriers. Rates on sulphur and gypsum rock and/or anhydride rock, in carloads and tank-car loads, as described in the application, from, to and between points in Texas, over interstate routes through adjoining states. Grounds for relief—Maintenance of depressed rates published to meet intrastate competition without use of such rates as factors in constructing combination rates. Tariff—Supplement 66 to Southwestern Freight Bureau, Agent, tariff 87-J (TLFB Series), I.C.C. No. 1159. Rates are published to become effective on May 13, 1975.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 265]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

APRIL 15, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to section 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before May 5, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74405. By order of April 3, 1975, the Motor Carrier Board, on reconsideration, approved the transfer to Ellerd Truck Line, Inc., Kilgore, Tex., of Certificate of Registration No. MC 97205 (Sub-No. 1), issued June 1, 1964, to Roy G. Ellerd, Charles Frazier and J. W. Ellerd, a partnership, doing business as Ellerd Truck Lines, Kilgore, Tex., evidencing the authority to perform a transportation service in interstate or foreign commerce corresponding in scope to the intrastate authority in Certificate No. 7766 issued by the Railroad Commission of Texas. Mike Cotten, Esq., Clark, Thomas, Harris, Denius and Winters, P.O. Box 1148, Austin, Tex. 78767.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

APRIL 9, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before April 25, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 51146 (Sub-No. E5), filed May 2, 1974. Applicant: SCHNEIDER TRANSPORT, P.O. Box 2298, Green Bay, Wis. 54306. Applicant's representative: D. F. Martin (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Glass jars, glass bottles, caps and covers* for glass jars and bottles, and *tin cans* utilized by food business houses (except commodities in bulk), from points in Illinois, to points in the Upper Peninsula of Michigan (except

points east of a line beginning at Lake Superior at Grand Marais, Mich., and extending along Michigan Highway 77 to junction U.S. Highway 2, thence along U.S. Highway 2 to Gulliver, Mich., thence south from Gulliver, Mich., over unnumbered highway to Lake Michigan) (Green Bay, Wis.) *; (2) *Glass jars, glass bottles, caps and covers* for glass jars and bottles, and *tin cans* utilized by food business houses (except commodities in bulk), from points in Illinois (except points south and west of a line beginning at the Wisconsin-Illinois State line and extending along U.S. Highway 51 to junction Illinois Highway 17, thence along Illinois Highway 17 to the Illinois-Indiana State line), to points in Washington, Oregon, Montana, Minnesota (except points south of a line beginning at the United States-Canada International Boundary line and extending along U.S. Highway 71 to junction Minnesota Highway 34, thence along Minnesota Highway 34 to junction U.S. Highway 10, thence along U.S. Highway 10 to the Minnesota-North Dakota State line), North Dakota (except points on, south, and east of a line beginning at the Minnesota-North Dakota State line and extending along U.S. Highway 10 to junction U.S. Highway 281).

(Thence along U.S. Highway 281 to the North Dakota-South Dakota State line), South Dakota (except points on, south, and east of a line beginning at the North Dakota-South Dakota State line and extending along U.S. Highway 281 to junction U.S. Highway 212, thence along U.S. Highway 212 to the North Dakota-Wyoming State line), Wyoming (except points south of a line beginning at the South Dakota-Wyoming State line and extending along U.S. Highway 14 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Wyoming-Idaho State line), Idaho (except points on, south, and east of a line beginning at the Montana-Idaho State line and extending along U.S. Highway 191 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 93, thence along U.S. Highway 93 to the Idaho-Nevada State line), Nevada (except points south of Interstate Highway 15), and California (except points east of a line beginning at the Nevada-California State line and extending along Interstate Highway 15 to junction Interstate Highway 5, thence along Interstate Highway 5 to the United States-Mexico International Boundary line) (Green Bay, Wis.) *; (3) *Glass jars, glass bottles, caps and covers* for glass jars and bottles, and *tin cans* utilized by food business houses (except commodities in bulk), from Chicago, Ill., to points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, North Dakota, Montana, Minnesota (except points on and south of a line beginning at the Wisconsin-Minnesota State line and extending along U.S. Highway 12 to junction U.S. Highway 212, thence along U.S. Highway 212 to the North Dakota-Wyoming State line), Wyoming (except points on, south, and east of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 20 to junction Wyoming Highway 220, thence along Wyoming Highway 220 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to the Wyoming-Colorado State line), Colorado (except points east of Colorado Highway 789), and New Mexico (except points east of U.S. Highway 285) (Green Bay, Wis.) *.

(4) *Glass jars, glass bottles, caps and covers* for glass jars and bottles and *tin cans* utilized by food business houses (except commodities in bulk), from Chicago, Ill., to points in the Upper Peninsula of Michigan and Wisconsin (except points south of a line beginning at Lake Michigan at Algoma, Wis., and extending along Wisconsin Highway 54 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction U.S. Highway 8, thence along U.S. Highway 8 to the Wisconsin-Minnesota State line) (Green Bay, Wis.) *; (5) *Glass jars, glass bottles, caps and covers* for glass jars and bottles, and *tin cans* utilized by food business houses (except commodities in bulk), from points in Indiana (except points south of U.S. Highway 24), to points in Washington, Oregon, California, Nevada, Idaho, Montana, North Dakota, Wisconsin (except points on and south of a line beginning at Lake Michigan and extending along U.S. Highway 41 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Interstate Highway 94, thence along Interstate Highway 94 to the Wisconsin-Minnesota State line), Minnesota (except points on and south of a line beginning at junction U.S. Highway 212, thence along U.S. Highway 212 to the Minnesota-South Dakota State line), South Dakota (except points south of U.S. Highway 16), Wyoming (except points on, south, and east of a line beginning at the South Dakota-Wyoming State line and extending along U.S. Highway 16 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction Wyoming Highway 28, thence along Wyoming Highway 28 to junction U.S. Highway 187, thence along U.S. Highway 187 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Wyoming-Utah State line), Utah (except points on and east of a line beginning at the Wyoming-Utah State line and extending along U.S. Highway 30S, thence along U.S. Highway 30S to junction U.S. Highway 91, thence along U.S. Highway 91 to the Utah-Arizona State line) (Green Bay, Wis.) *.

(6) *Glass jars, glass bottles, caps and covers* for glass jars and bottles, and *tin cans* utilized by food business houses (except commodities in bulk), from points in Indiana, to points in Washington, Oregon, Montana, North Dakota, Upper Peninsula of Michigan (except points east of U.S. Highway 41 beginning at Lake Superior at Marquette, Mich., and extending to the Michigan-Wisconsin State line), Wisconsin (except points on and south of a line beginning at Lake Michigan and extending along U.S. Highway 41 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Interstate Highway 94, thence along Interstate Highway 94 to the Wisconsin-Minnesota State line), Minnesota (except points on and south of a line beginning at the Wisconsin-Minnesota State line and extending along U.S. Highway 12 to junction U.S. Highway 212, thence along U.S. Highway 212 to the Minnesota-South Dakota State line), South Dakota (except points south of U.S. Highway 14), Wyoming (except points on and south of a line beginning at the South Dakota-Wyoming State line and extending along U.S. Highway 14 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Wyoming-Idaho State line), Idaho (except points on, south, and east of a line beginning at the Montana-Idaho State line and extending along U.S. Highway 191 to junction U.S. Highway 30N, thence along U.S. Highway 30N to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 93, thence along U.S. Highway 93 to the Idaho-Nevada State line), Nevada (except points on, south, and east of a line beginning at the Idaho-Nevada State line and extending along U.S. Highway 93 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Nevada-California State line), and California (except points south of Interstate Highway 80) (Green Bay, Wis.) *.

(7) *Metal containers* (except containers which because of size or weight require the use of special equipment), and *container ends*, from Kankakee, Ill., to points in North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, and Texas (Madisonville, Ky.) *; (8) *Canned vegetables*, from points in Iowa, to points in Indiana (except points on and north of a line beginning at the Illinois-Indiana State line and extending along Indiana Highway 18 to the junction of Indiana Highway 67, thence along Indiana Highway 67 to the Indiana-Ohio State line), Kentucky (except points on and west of a line beginning at the Illinois-Kentucky State line and extending along U.S. Highway 45 to junction Kentucky Highway 97, thence along Kentucky Highway 97 to the Kentucky-Tennessee State line), and Ohio (except points on and north of a line beginning at the Indiana-Ohio State line and extending along Ohio Highway 81 to junction U.S. Highway 25, thence along U.S. Highway 25 to junction U.S. Highway 6, thence along U.S. Highway 6 to Lake Erie at Sandusky, Ohio) (Hoopeston, Ill.) *; (9) *Canned vegetables*, from points in Iowa, to points in Mercer, Lawrence, Beaver, Washington, Greene, Venango, Butler, Allegheny, Clarion, Armstrong, Jefferson, Indiana, Westmoreland, Fayette, Cambria, Somerset, and Bedford Counties, Pa., and York, Pa. (Hoopeston, Ill.) *.

(10) *New upholstered furniture*, in containers, as is manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper and paper products, from Orange County and Los Angeles, Calif. (except

V 40 73 APR 15 75 XUM

points on and north of a line beginning at the Ventura-Los Angeles County line and extending along California Highway 118 to junction U.S. Highway 66, thence along U.S. Highway 66 to the Los Angeles-San Bernardino County line), to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, New York, Delaware, Michigan (except points on and south of a line beginning at Lake Michigan at South Haven, Mich., and extending along Michigan Highway 43 to junction Interstate Highway 94, thence along Interstate Highway 94 to Lake Huron at Port Huron, Mich.), Pennsylvania (except points on, south, and west of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 322 to junction Interstate Highway 83, thence along Interstate Highway 83 to the Pennsylvania-Maryland State line), Maryland (except points on, south, and west of a line beginning at the Pennsylvania-Maryland State line and extending along Interstate Highway 83 to junction Interstate Highway 95, thence along Interstate Highway 95 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Atlantic Ocean), and the District of Columbia (Redlands, Calif., St. Charles, Ill., and Menominee, Mich.)*; (12) *Paper* and *paper products* (except commodities in bulk), from the plant and warehouse sites of Personal Products Company and Cel Fibre, Inc., at or near Wilmington, Ill., to points in Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina, and the District of Columbia (Muncie, Ind.)*.

(13) *Cellulose materials and products*, and *paper* and *paper products* (except in each instance commodities in bulk), from the plant and warehouse sites of Personal Products Company and Cel Fibre, Inc., at or near Wilmington, Ill., to points Arkansas (except points in Benton County, Ark., and points in the Blytheville Commercial Zone as defined by the Commission) Louisiana, Mississippi, and Alabama (except points south of U.S. Highway 78, and those points on, north, and east of a line beginning at the Tennessee-Alabama State line and extending along U.S. Highway 231 to junction U.S. Highway 278, thence along U.S. Highway 278 to the Alabama-Georgia State line) (plant site of Charmin Paper Products Co., near Neely's Landing, Mo.)*; (14) (A) *Cellulose materials and products*, and *cellulose materials and products* joined to or combined with paper, plastics, synthetics, and cloth (except commodities in bulk), and (B) *Paper* and *paper products*, and *paper* and *paper products* joined to or combined with plastics, synthetics, and cloth (except commodities in bulk), as are manufactured or distributed by manufacturers or converters of cellulose materials and products, and paper products, from the plant and warehouse sites of Personal Products Co., and Cel-Fibre, Inc., at or near Wilmington, Ill., to points in Washington, Oregon, California, Nevada, Idaho, Montana, Wyoming (except points on, south, and east of a line beginning at the South Dakota-Wyoming State line and extending along U.S. Highway 16 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction U.S. Highway 26, thence along U.S. Highway 26 to junction U.S. Highway 189, thence along U.S. Highway 189 to the Wyoming-Utah State line), Utah (except points on and east of a line beginning at the Wyoming-Utah State line and extending along U.S. Highway 189 to junction U.S. Highway 91, thence along U.S. Highway 91 to the Utah-Arizona State line), and Arizona (except points north and east of a line beginning at the Nevada-Arizona State line and extending along U.S. Highway 93 to junction Arizona Highway 93, thence along Arizona Highway 93 to the United States-Mexico International Boundary line) (Green Bay, Wis.)*.

(15) *Fibreboard* and *pulpboard products* (except commodities in bulk), from Elk Grove Village, Ill., to points in Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Maryland, Virginia, North Carolina, and the District of Columbia, restricted to shipments originating at the plant and warehouse sites of Georgia-Pacific Corporation (Muncie, Ind.)*; (16) *Fibreboard and pulpboard products* (except commodities in bulk), from Aurora and Chicago Heights, Ill., to points in Maine, Vermont, Rhode Island, Pennsylvania, and West Virgina, restricted to shipments originating at the plant and warehouse sites of Georgia-Pacific Corporation (Muncie, Ind.)**; (17) *Fibreboard and pulpboard products* (except commodities in bulk), from Chicago Heights, Ill., to points in Washington, Oregon, California, Nevada, Arizona, New Mexico, Texas, Louisiana, Colorado (except points north of U.S. Highway 50), Utah (except points on, north, and east of a line beginning at the Wyoming-Utah State line and extending along Interstate Highway 80 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Utah-Colorado State line), Idaho (except points on, north, and east of a line beginning at the Wyoming-Idaho State line and extending along U.S. Highway 26 to junction U.S. Highway 91, thence along U.S. Highway 91 to the Idaho-Montana State line), and Montana (except points on and east of a line beginning at the Idaho-Montana State line and extending along U.S. Highway 91 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 93, thence along U.S. Highway 93 to United States-Canada International Boundary line), restricted to shipments originating at the plant and warehouse sites of Georgia-Pacific Corporation (Muncie, Ind.)*;

(18) *Fibreboard and pulpboard products* (except commodities in bulk), from Aurora, Ill., to points in Arizona, California, Washington (except points west of U.S. Highway 97), Oregon (except points on, east, and south of a line beginning at the Washington-Oregon State line and extending along U.S. Highway 395 to junction Interstate Highway 80N, thence along Interstate Highway 80N to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 395, thence along U.S. Highway 395 to the Oregon-California State line), Nevada (except points on, north, and east of a line beginning at the Oregon-Nevada State line and extending along U.S. Highway 95 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Nevada Highway 25, thence along Nevada Highway 25 to the Nevada-Utah State line), New Mexico (except points on and north of a line beginning at the Arizona-New Mexico State line, (and extending along U.S. Highway 66 to junction U.S. Highway 85, thence along U.S. Highway 85 to junction U.S. Highway 60, thence along U.S. Highway 60 to the New Mexico-Texas State line), Texas (except points on and north of a line beginning at the New Mexico-Texas State line, and extending along U.S. Highway 84 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction U.S. Highway 190, thence along U.S. Highway 190 to the Texas-Louisiana State line), and Louisiana (except points on and north of a line beginning at the Texas-Louisiana State line and extending along Louisiana Highway 8 to junction U.S. Highway 84, thence along U.S. Highway 84 to the Louisiana-Mississippi State line), restricted to shipments originating at the plant and warehouse sites of Georgia-Pacific Corporation (Muncie, Ind.)*.

(19) *Fibreboard and pulpboard products* (except commodities in bulk), from Elk Grove Village, Ill., to points in Washington, Oregon, California, Nevada, Arizona, Louisiana, Arkansas (except points on and north of a line beginning at the Louisiana-Arkansas State line and extending along U.S. Highway 65 to junction Arkansas Highway 4, thence along Arkansas Highway 4 to junction Arkansas Highway 24, thence along Arkansas Highway 24 to the Arkansas-Oklahoma State line), Oklahoma (except points on and north of a line beginning at the Arkansas-Oklahoma State line and extending along Oklahoma Highway 3 to the junction of Oklahoma Highway 19, thence along Oklahoma Highway 19 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction Oklahoma Highway 9, thence along Oklahoma Highway 9 to the Oklahoma-Texas State line), Texas (except points north of U.S. Highway 66), New Mexico (except points east of U.S. Highway 87), Colorado (except points on, north, and east of a line beginning at the New Mexico-Colorado State line and extending along Interstate Highway 25 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Colorado-Utah State line), Utah (except points on and east of a line beginning at the Idaho-Utah State line and extending along Interstate Highway 80N to junction Interstate Highway 15, thence along Interstate Highway 15 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Utah-Colorado State line), and Idaho (except points on and east of a line beginning at the Utah-Idaho State line and extending along Interstate Highway 80N to junction Idaho Highway 55, thence along Idaho Highway 55 to junction U.S. Highway 95, thence along U.S. Highway 95 to the United States-Canada International Boundary line), restricted to shipments originating at the plant and warehouse sites of Georgia-Pacific Corporation (Muncie, Ind.)*.

(20) *Paper and paper products* (except commodities in bulk), from Escambia County, Fla., to points in Ohio, Pennsylvania, and West Virginia restricted against the transportation of pulpboard, pulpboard products, waste paper, and cardboard cartons, and restricted to the transportation of traffic originating at Escambia County, Fla. (Middlesboro, Ky.)*; (21) *Paper and paper products* (except commodities in bulk), from Escambia County, Fla., to points in Indiana, Iowa, Minnesota, and Michigan (except points south of Michigan Highway 21), and Louisville, Ky., restricted against the transportation of pulpboard, pulpboard products, waste paper, and cardboard cartons, and restricted to the transportation of traffic originating at Escambia County, Fla. (Hopkinsville, Ky.)*; (22) *Paper and paper products* (except commodities in bulk), from Escambia County, Fla., to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, North Dakota, South Dakota, Idaho, Montana, Oregon, Washington, Wyoming (except points south of Interstate Highway 80), and New Jersey (except points south of Interstate Highway 78), restricted against the transportation of pulpboard, pulpboard products, waste paper, and cardboard cartons, and restricted to the transportation of traffic originating at Escambia County, Fla. (Smith Mills, Ky.)*; (24) *Paper and paper products* (except commodities in bulk, and those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities requiring special equipment, and those injurious or contaminating to other lading), from Escambia County, Fla., to Chicago, Ill., restricted against the transportation of pulpboard, pulpboard products, waste paper, and cardboard cartons, and restricted to the transportation of traffic originating at Escambia County, Fla. (Chicago Heights, Ill.)*.

(25) *Paper and paper products* (except commodities in bulk), from the plant site of the U.S. Envelope Co., at Worcester, Mass., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Arkansas, Mississippi, and points in all states west thereof (except Alaska and Hawaii) (Muncie, Ind.)*; (26) *Paper and paper products* (except commodities in bulk), from the plant site of Kimberly-Clark Corporation at New Milford, Conn., to points in North Dakota, South Dakota, Nebraska, Missouri, Arkansas, Mississippi, and points in all those states west thereof (except Alaska and Hawaii) (Muncie, Ind.)*; (27) *Paper and paper products* (except commodities in bulk), from the plant site of Kimberly-Clark Corporation at New Milford, Conn., to points in Iowa and Minnesota, restricted against the transportation of pulpboard, pulpboard products, and waste paper (Youngstown, Ohio)*; (28) *Paper and paper products* (except commodities in bulk), from the plant site of Kimberly-Clark Corporation at New Milford, Conn., to points in Kentucky, Tennessee, and Alabama (except Mobile and points in the commercial zone as defined by the Commission, and points on and north of U.S. Highway 78, including points in the commercial zones of points on U.S. Highway 78, as defined by the Commission), and Wests Virginia (except points on and east of a line beginning at the Maryland-West Virginia State line and extending along U.S. Highway 219 to junction West Virginia Highway 219, thence along West Virginia Highway 219 to junction West Virginia Highway 39, thence along West Virginia Highway 39 to the West Virginia-Virginia State line) (Somerset, Pa.)*.

(29) *Paper and paper products* (except commodities in bulk), from the plant and warehouse sites of Packaging Corporation of America at Burlington, Wis., and from the plant and warehouse sites of Guardian Container Co., Inc., at Kenosha, Wis., restricted to the transportation of traffic originating at the above-named plant and warehouse sites (Muncie, Ind.); (30) *Paper* and *paper products*, from the plant and warehouse sites of Packaging Corporation of America at Burlington, Wis., and from the plant and warehouse sites of Guardian Container Co., Inc., at Kenosha, Wis., to points in South Dakota, North Dakota (except points east of U.S. Highway 281), Nebraska (except points on, south, and east of a line beginning at the Iowa-Nebraska State line and extending along U.S. Highway 20 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Nebraska-Kansas State line), and Kansas (except points on, south, and east of a line beginning at the Nebraska-Kansas State line and extending along U.S. Highway 81 to junction Kansas Highway 61, thence along Kansas Highway 61 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Kansas-Oklahoma State line, restricted to the transportation of traffic originating at the above-named plant and warehouse sites (Sibley, Iowa)*.

(31) (a) *Paper* and *paper products* (except commodities in bulk), from the plant site of Charmin Paper Products Co., near Neelys Landing, Mo., to points in Arizona, California, Oregon, Washington, (except points on, north, and east of a line beginning at the United States-Canada International Boundary line and extending along U.S. Highway 97 to junction Washington Highway 17, thence along Washington Highway 17 to junction U.S. Highway 395, thence along U.S. Highway 395 to the Washington-Oregon State line), Idaho (except points on and east of a line beginning at the Nevada-Idaho State line and extending along U.S. Highway 93 to junction Interstate Highway 80N, thence along Interstate Highway 80N to the junction of U.S. Highway 95, thence along U.S. Highway 95 to the United States-Canada International Boundary line), Nevada (except points on, north, and east of a line beginning at the Idaho-Nevada State line and extending along U.S. Highway 93 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Nevada-Utah State line), and Utah (except points on and north of a line beginning at the Nevada-Utah State line and extending along U.S. Highway 16 to junction U.S. Highway 163, thence along U.S. Highway 163 to the Utah-Arizona State line); (b) *Equipment*, *materials*, and *supplies* used in the manufacture and distribution of paper and paper products (except commodities in bulk), from the destination area described in (a) above to plant site of Charmin Paper Products Co., near Neelys Landing, Mo. (Ashdown, Ark.)*; (32) *Paper* and *paper products* (except commodities in bulk), from Marshall, Mich., to points in Arkansas, Oklahoma, Texas, Colorado, New Mexico, Arizona, Nevada, and California, restricted to the transportation of shipments originating at the plant site and warehouse facilities of St. Regis Paper Company at Marshall, Mich. (Muncie, Ind.)*.

(33) *Paper* and *paper products* produced or distributed by manufacturers, and converters of cellulose materials and products, *materials and supplies* used in the manufacture and distribution of the commodities described above, between points in Wyoming County, Pa., on the one hand, and, on the other, points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, and New Mexico, restricted against the transportation of (1) commodities which because of size or weight require the use of special equipment, (2) varnish and synthetic resins, in bulk, to points in Wyoming County, Pa., and (3) commodities in bulk, from points in Colorado, Wyoming, and Utah (Green Bay, Wis.)*; (34) *Cheese* and *foodstuffs* (except meats, meat products, and meat by-products, and except commodities in bulk) which are materials and supplies utilized by food business houses, from points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Minnesota, Wisconsin (except points on, south, and east of a line beginning at Lake Michigan at Milwaukee, Wis., and extending along U.S. Highway 16 to junction U.S. Highway 151, thence along U.S. Highway 151 to the Wisconsin-Illinois State line), Iowa (except points on and south of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 20 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 30,

V 40 173 APR 15 75 XUM

thence along U.S. Highway 30 to the Iowa-Nebraska State line), Nebraska (except points on, south, and east of a line beginning at the Iowa-Nebraska State line and extending along Nebraska Highway 2 to the junction of U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line), Kansas (except points east of U.S. Highway 183), Oklahoma (except points east of U.S. Highway 83), and Texas (except points on and east of a line beginning at the New Mexico-Texas State line and extending along U.S. Highway 87 to junction Texas Highway 349, thence along Texas Highway 349 to junction U.S. Highway 67, thence along U.S. Highway 67 to the United States-Mexico International Boundary line), to points in Massachusetts (Green Bay, Wis.) *.

(35) *Equipment, materials,* and *supplies* (except commodities in bulk) utilized by food business houses and used in the manufacture and distribution of foodstuffs, from points in Massachusetts to points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Minnesota, Wisconsin (except points on, south, and east of a line beginning at Lake Michigan at Milwaukee, Wis., and extending along U.S. Highway 18 to junction U.S. Highway 151, thence along U.S. Highway 151 to the Wisconsin-Illinois State line), Iowa (except points on and south of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 20 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Nebraska State line), Nebraska (except points on, south, and east of a line beginning at the Iowa-Nebraska State line and extending along Nebraska Highway 2 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line), Kansas (except points on, south, and east of a line beginning at the Nebraska-Kansas State line and extending along U.S. Highway 183 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Colorado State line), Oklahoma (except points east of Oklahoma Highway 136), and points in El Paso County, Tex., to points in Connecticut (Green Bay, Wis.) *; (37) *Equipment, materials,* and *supplies* (except commodities in bulk) utilized by food business houses and used in the manufacture and distribution of foodstuffs, from Connecticut, to points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Minnesota, Wisconsin (except points on, south, and east of a line beginning at Lake Michigan at Milwaukee, Wis., and extending along U.S. Highway 18 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Illinois State line), Iowa (except points on, south, and east of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 20 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Nebraska State line), Nebraska (except points on, south, and east of a line beginning at the Iowa-Nebraska State line and extending along Nebraska Highway 2 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line), Kansas (except points on, south, and east of a line beginning at the Nebraska-Kansas State line and extending along U.S. Highway 183 to junction U.S. Highway 14, thence along U.S. Highway 24 to the Kansas-Colorado State line), Oklahoma (except points east of Oklahoma Highway 136), and points in El Paso County, Tex.) (Green Bay, Wis.) *.

(38) *Cheese* and *foodstuffs* (except meats, meat products, and meat by-products, and except commodities in bulk), which are materials and supplies utilized by food business houses, from Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, California, New Mexico, North Dakota, South Dakota, Minnesota, Wisconsin (except points on, south, and east of a line beginning at Lake Michigan at Milwaukee, Wis., and extending along U.S. Highway 18 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Illinois State line), Iowa (except points on, south, and east of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 151 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Iowa-Missouri State line), Nebraska (except points on, south, and east of a line beginning at the Iowa-Nebraska State line and extending along Nebraska Highway 2 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line), Kansas (except points on, south, and east of a line beginning at the Nebraska-Kansas State line and extending along U.S. Highway 183 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Colorado State line), Oklahoma (except points east of Oklahoma Highway 136), and points in El Paso County, Tex.) (Green Bay, Wis.) *;

(36) *Cheese* and *foodstuffs* (except meats, meat products, and meat by-products, and except commodities in bulk) which are materials and supplies utilized by food business houses, from Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Minnesota, Wisconsin (except points south of U.S. Highway 18), Iowa (except points on, south, and east of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 20 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Nebraska State line), Nebraska (except points on, south, and east of a line beginning at the Iowa-Nebraska State line and extending along Nebraska Highway 2 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line), Kansas (except points east of U.S. Highway 281), Texas (except points on and east of a line beginning at the New Mexico-Texas State line and extending along U.S. Highway 87 to junction Texas Highway 349, thence along Texas Highway 349 to junction U.S. Highway 67, thence along U.S. Highway 67 to the United States-Mexico International Boundary line), and points in Cimarron, Tex., Beaver and Harper Counties, Okla., to Rhode Island (Green Bay, Wis.) *.

(39) *Equipment,* materials and supplies (except commodities in bulk) utilized by food business houses and used in the manufacture and distribution of foodstuffs, from Rhode Island, to points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Colorado, New Mexico, North Daktota, South Dakota, Minnesota, Wisconsin (except points on, south, and east of a line beginning at Lake Michigan at Milwaukee, Wis., and extending along U.S. Highway 18 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Illinois State line), Iowa (except points on, south, and east of a line beginning at the Illinois-Iowa State line and extending along U.S. Highway 151 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Iowa-Missouri State line), Nebraska (except points south and east of a line beginning at the Iowa-Nebraska State line and extending along Nebraska Highway 2 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line), Kansas (except points east of U.S. Highway 281), Texas (except points on and east of a line beginning at the New Mexico-Texas State line and extending along U.S. Highway 87 to junction Texas Highway 349, thence along Texas Highway 349 to junction U.S. Highway 67, thence along U.S. Highway 67 to the United States-Mexico International Boundary line), and points in Cimarron, Tex., Beaver and Harper Counties, Okla., to Rhode Island (Green Bay, Wis.) *.

(40) *Cheese and foodstuffs* (except meats, meat products, and meat by-products and except commodities in bulk) which are materials and supplies utilized by food business houses, from points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, North Dakota, South Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along U.S. Highway 23 to junction U.S. Highway 151, thence along U.S. Highway 151 to junction U.S. Highway 18, thence along U.S. Highway 18 to the Wisconsin-Iowa State line), Iowa (except points on and south of a line beginning at the Wisconsin-Iowa State line and extending along U.S. Highway 18 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line), Nebraska (except points on, south, and east

of a line beginning at the Iowa-Nebraska State line and extending along Nebraska Highway 91 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Nebraska-Kansas State line), Colorado (except points on, south, and east of a line beginning at the Kansas-Colorado State line and extending along U.S. highway 24 to junction U.S. Highway 85, thence along U.S. Highway 85 to the Colorado-New Mexico State line), and New Mexico (except points on and east of a line beginning at the Colorado-New Mexico State line and extending along U.S. Highway 85 to junction New Mexico Highway 3, thence along New Mexico Highway 3 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line), to New Jersey (Green Bay, Wis.) *.

(41) *Equipment, materials,* and *supplies* (except commodities in bulk) utilized by food business houses and used in the manufacture and distribution of foodstuffs, from New Jersey, to points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, North Dakota, South Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction U.S. Highway 151, thence along U.S. Highway 151 to junction U.S. Highway 18, thence along U.S. Highway 18 to the Wisconsin-Iowa State line), Iowa (except points on and south of a line beginning at the Wisconsin-Iowa State line and extending along U.S. Highway 18 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line), Nebraska (except points on and east of a line beginning at the Nevada-Colorado State line and extending along Colorado Highway 71 to junction U.S. Highway 350, thence along U.S. Highway 350 to junction Interstate Highway 25, thence along Interstate Highway 25 to the Colorado-New Mexico State line), and New Mexico (except points on and east of a line beginning at the Colorado-New Mexico State line and extending along U.S. Highway 285 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line), to points in New York, Vermont, New Hampshire, and Maine (Green Bay, Wis.) *; (43) *Equipment, materials,* and *supplies* (except commodities in bulk) utilized by food business houses and used in the manufacture and distribution of foodstuffs, from points in New York, to points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, Minnesota, Wisconsin, (except points on and south of a line beginning at Lake Michigan, at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction U.S. Highway 16, thence along U.S. Highway 16 to the Wisconsin-Minnesota State line), Iowa (except points south of Iowa Highway 9), Colorado (except points on and east of a line beginning at the Nevada-Colorado State line and extending along Colorado Highway 71 to junction U.S. Highway 350, thence along U.S. Highway 350 to junction Interstate Highway 25, thence along Interstate Highway 25 to the Colorado-New Mexico State line), and New Mexico (except points on and east of a line beginning at the Colorado-New Mexico State line and extending along U.S. Highway 285 to junction U.S. Highway 54, thence along U.S. Highway 54 to the New Mexico-Texas State line) (Green Bay, Wis.) *.

(44) *Cheese* and *foodstuffs* (except meats, meat products, and meat by-products and except commodities in bulk) which are materials and supplies utilized by food business houses, from points in Washington, Oregon, California, Nevada, Idaho, Utah, Montana, Wyoming, North Dakota, South Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction Wisconsin Highway 33, thence along Wisconsin Highway 33 to the Wisconsin-Minnesota State line), Iowa (except points south of Iowa Highway 9), Nebraska (except points on and east of a line beginning at the South Dakota-Nebraska State line and extending along U.S. Highway 385 to junction Nebraska Highway 19, thence along Nebraska Highway 19 to the Nebraska-Colorado State line), Colorado (except points on, south, and east of a line beginning at the Nebraska-Colorado State line and extending along Colorado Highway 113 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 550, thence along U.S. Highway 550 to the Colorado-New Mexico State line), and Arizona (except points on and east of a line beginning at the New Mexico-Arizona State line and extending along U.S. Highway 666 to the junction of U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 89, thence along U.S. Highway 89 to the United States-Mexico International Boundary line), to points in Pennsylvania (Green Bay, Wis.) *.

(45) *Equipment, materials,* and supplies (except commodities in bulk) utilized by food business houses and used in the manufacture and distribution of foodstuffs, from Pennsylvania, to points in Washington, Oregon, California, Nevada, Idaho, Utah, Montana, Wyoming, North Dakota, South Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction Wisconsin Highway 33 to the Wisconsin-Minnesota State line), Iowa (except points south of Iowa Highway 9), Nebraska (except points on and east of a line beginning at the South Dakota-Nebraska State line and extending along U.S. Highway 385 to junction Nebraska Highway 19, thence along Nebraska Highway 19 to the Nebraska-Colorado State line), Colorado (except points on, south, and east of a line beginning at the Nebraska-Colorado State line and extending along Colorado Highway 113 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 550, thence along U.S. Highway 550 to the Colorado-New Mexico State line), and Arizona (except points on and east of a line beginning at the New Mexico-Arizona State line and extending along U.S. Highway 666 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 89, thence along U.S. Highway 89 to the United States-Mexico International Boundary line) (Green Bay, Wis.) *.

(46) *Cheese and foodstuffs* (except meats, meat products, and meat by-products, and except commodities in bulk) which are materials and supplies utilized by food business houses, from points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, North Dakota, South Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), Iowa (except points on and south of a line beginning at the Wisconsin-Iowa State line and extending along U.S. Highway 18 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line), Nebraska (except points on, south, and east of a

V 40 N 73 APR 15 75

line beginning at the Iowa-Nebraska State line and extending along U.S. Highway 20 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-Kansas State line), Colorado (except points on and east of a line beginning at the Nebraska-Colorado State line and extending along U.S. Highway 6 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 550, thence along U.S. Highway 550 to the Colorado-New Mexico State line), to points in Maryland, Delaware, and the District of Columbia (Green Bay, Wis.).*

(47) *Equipment*, materials, and supplies (except commodities in bulk) utilized by food business houses and used in the manufacture and distribution of foodstuffs, from points in Maryland, Delaware, and the District of Columbia, to points in Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, Montana, Wyoming, North Dakota, South Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), Iowa (except points on and south of a line beginning at the Wisconsin-Iowa State line and extending along U.S. Highway 18 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line), Nebraska (except points on, south, and east of a line beginning at the Iowa-Nebraska State line and extending along U.S. Highway 20 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-Kansas State line), Colorado (except points on and east of a line beginning at the Nebraska-Colorado State line and extending along U.S. Highway 6 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 550, thence along U.S. Highway 550 to the Colorado-New Mexico State line) (Green Bay, Wis.).*

(48) *Cheese* and *foodstuffs* (except meats, meat products, and meat by-products, and except commodities in bulk) which are materials and supplies utilized by food business houses, from points in Washington, Oregon, Idaho, Montana, North Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), South Dakota (except points on, south, and east of a line beginning at the Iowa-South Dakota State line and extending along South Dakota Highway 46 to junction U.S. Highway 81, thence along U.S. Highway 81 to the South Dakota-Nebraska State line), Wyoming (except points on, south, and east of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 26 to junction Wyoming Highway 220, thence along Wyoming Highway 220 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Wyoming-Utah State line), Utah (except points on and east of a line beginning at the Wyoming-Utah State line and extending along Interstate Highway 80 to junction U.S. Highway 91, thence along U.S. Highway 91 to the Utah-Arizona State line), Nevada (except points south of Interstate Highway 15), and California (except points on and east of a line beginning at the Nevada-California State line and extending along Interstate Highway 15 to junction Interstate Highway 5, thence along Interstate Highway 5 to the United States-Mexico International Boundary line), to points in West Virginia (Green Bay, Wis.).*

(49) *Equipment, materials,* and *supplies* (except commodities in bulk) utilized by food business houses and used in the manufacture and distribution of foodstuffs, from points in West Virginia, to points in Washington, Oregon, Idaho, Montana, North Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), South Dakota (except points on, south, and east of a line beginning at the Iowa-South Dakota State line and extending along South Dakota Highway 46 to junction U.S. Highway 81, thence along U.S. Highway 81 to the South Dakota-Nebraska State line), Wyoming (except points on, south, and east of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 26 to junction Wyoming Highway 220, thence along Wyoming Highway 220 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Wyoming-Utah State line), Utah (except points on and east of a line beginning at the Wyoming-Utah State line and extending along Interstate Highway 80 to junction U.S. Highway 91, thence along U.S. Highway 91 to the Utah-Arizona State line), Nevada (except points south of Interstate Highway 15), and California (except points on and east of a line beginning at the Nevada-California State line and extending along Interstate Highway 15 to junction Interstate Highway 5, thence along Interstate Highway 5 to the United States-Mexico International Boundary line) (Green Bay, Wis.).*

(50) *Cheese* and *foodstuffs* (except meats, meat products, and meat by-products and except commodities in bulk) which are materials and supplies utilized by food business houses, from points in Washington, Oregon, Idaho, Montana, North Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), Iowa (except points south of Iowa Highway 9), South Dakota (except points on, south, and east of a line beginning at the Iowa-South Dakota State line and extending along U.S. Highway 18 to junction U.S. Highway 81, thence along U.S. Highway 81 to the South Dakota-Nebraska State line), Wyoming (except points on, south, and east of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 20 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Wyoming-Utah State line), Utah (except points east of U.S. Highway 91), Nevada (except points on and south of a line beginning at the Utah-Nevada State line and extending along Nevada Highway 25 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Nevada-California State line), and points in Santa Cruz, Santa Clara, Merced, Mariposa, and Mono Counties, Calif., and points north of the described counties in California, to points in Virginia (Green Bay, Wis.).*

(51) *Equipment, materials,* and *supplies* (except commodities in bulk) utilized by food business houses and used in the manufacture and distribution of foodstuffs, from points in Virginia, to points in Washington, Oregon, Idaho, Montana, North Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), Iowa (except points south of Iowa Highway 9), South Dakota (except points on, south, and east of a line beginning at the Iowa-South Dakota State line and extending along U.S. Highway 18 to junction U.S. Highway 81, thence along U.S. Highway 81 to the South Dakota-Nebraska State line), Wyoming (except points on, south, and east of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 20 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Wyoming-Utah State line), Utah (except points east of U.S. Highway 91), Nevada (except points on and south of a line beginning at the Utah-Nevada State line and extending along Nevada Highway 25 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Nevada-California State line), and points in Santa Cruz, Santa Clara, Merced, Mariposa, and Mono Counties, Calif., and points north of the described counties in California (Green Bay, Wis.).*

(52) *Cheese and foodstuffs* (except meat, meat products, and meat by-products, and except commodities in bulk) which are materials and supplies utilized by food business houses, from points in Washington, Oregon, Idaho, Montana, North Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), Iowa (except points south of Iowa Highway 9, South Dakota (except points on and south of a line beginning at the Iowa-South Dakota State line and extending along U.S. Highway 18 to junction U.S. Highway 281, thence along U.S. Highway 281 to the South Dakota-Nebraska State line), Wyoming (except points on and south of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 20 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction Wyoming Highway 28, thence along Wyoming Highway 28 to junction U.S. Highway 187, thence along U.S. Highway 187 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Wyoming-Utah State line), Utah (except points on and south of a line beginning at the Wyoming-Utah State line and extending along U.S. Highway 189 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Utah-Nevada State line), Nevada (except points south of U.S. Highway 50), and California (except points on and south of a line beginning at the Nevada-California State line and extending along Interstate Highway 80 to junction California Highway 17, thence along California Highway 17 to the Pacific Ocean at Santa Cruz, Calif.), to points in North Carolina and South Carolina (Green Bay, Wis.).*

(53) *Equipment, materials,* and *supplies* (except commodities in bulk) utilized by food business houses and used in the manufacture and distribution of foodstuffs, from points in North Carolina and South Carolina to points in Washington, Oregon, Idaho, Montana, North Dakota, Minnesota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Sheboygan, Wis., and extending along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to the Wisconsin-Iowa State line), Iowa (except points south of Iowa Highway 9, South Dakota (except points on and south of a line beginning at the Iowa-South Dakota State line and extending along U.S. Highway 18 to junction U.S. Highway 281, thence along U.S. Highway 281 to the South Dakota-Nebraska State line), Wyoming (except points on and south of a line beginning at the Nebraska-Wyoming State line and extending along U.S. Highway 20 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction Wyoming Highway 28, thence along Wyoming Highway 28 to junction U.S. Highway 187, thence along U.S. Highway 187 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Wyoming-Utah State line), Utah (except points on and south of a line beginning at the Wyoming-Utah State line and extending along U.S. Highway 189 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Utah-Nevada State line), Nevada (except points south of U.S. Highway 50), and California (except points on and south of a line beginning at the Nevada-California State line and extending along Interstate Highway 80 to junction California Highway 17, thence along California Highway 17 to the Pacific Ocean at Santa Cruz, Calif.), to points in North Carolina and South Carolina (Green Bay, Wis.).*

(54) *Cheese* and *foodstuffs* (except meat, meat products, and meat by-products and except commodities in bulk) which are materials and supplies utilized by food business houses, from points in Washington, North Dakota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Manitowoc, Wis., and extending along U.S. Highway 10 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Wisconsin-Minnesota State line), Minnesota (except points south of U.S. Highway 12), South Dakota (except points on and south of a line beginning at the Minnesota-South Dakota State line and extending along U.S. Highway 12 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 212, thence along U.S. Highway 212 to the South Dakota-Wyoming State line), Montana (except points south of U.S. Highway 10), Idaho (except points south of U.S. Highway 12), and Oregon (except points on, south, and east of a line beginning at the Washington-Oregon State line and extending along U.S. Highway 395 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Pacific Ocean at Newport, Oreg.), to points in Kentucky (Green Bay, Wis.).*

(55) *Equipment, materials,* and *supplies* (except commodities in bulk) utilized by food business houses and used in the manufacture and distribution of foodstuffs, from points in Kentucky, to points in Washington, North Dakota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Manitowoc, Wis., and extending along U.S. Highway 10 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Wisconsin-Minnesota State line), Minnesota (except points south of U.S. Highway 12), South Dakota (except points on and south of a line beginning at the Minnesota-South Dakota State line and extending along U.S. Highway 12 to junction U.S. Highway 81, thence along U.S. Highway 81 to junction U.S. Highway 212, thence along U.S. Highway 212 to the South Dakota-Wyoming State line), Montana (except points south of U.S. Highway 10), Idaho (except points south of U.S. Highway 12), and Oregon (except points on, south, and east of a line beginning at the Washington-Oregon State line and extending along U.S. Highway 395 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Pacific Ocean at Newport, Oreg.) (Green Bay, Wis.).*; and (56) *Cheese* and *foodstuffs* (except meat, meat products, and meat by-products and except commodities in bulk) which are materials and supplies utilized by foodbusiness houses, from points in Washington, North Dakota, Wisconsin (except points on and south of a line beginning at Lake Michigan at Manitowoc, Wis., and extending along U.S. Highway 10 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Wisconsin-Minnesota State line), Minnesota (except points south of U.S. Highway 12), South Dakota (except points south of U.S. Highway 12), Montana (except points south of U.S. Highway 12), and Idaho (except points south of U.S. Highway 12), to points in Tennessee (Green Bay, Wis.).* The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 52704 (Sub-No. E1), filed May 20, 1974. Applicant: GLENN McCLENDON TRUCKING CO., INC., P.O. Drawer "H", LaFayette, Ala. 36862. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree Street NW., Atlanta, Ga. 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes; transporting: *Glass bottles*, for beverages and food, (1) from points in Georgia on and south of a line beginning at the Alabama-Georgia State line and extending along U.S. Highway 78 to Atlanta, Ga., thence along Interstate Highway 85 to the Georgia-North Carolina State line to points in Arkansas; (2) from points in Georgia on, north and west of a line beginning at the Alabama-Georgia State line and extending along U.S. Highway 29 to Atlanta, Ga., thence along U.S. Highway 19 to the Georgia-North Carolina State line to points in Florida; (3) from Athens, Ga., to points in Florida and and west of Florida Highway 65 and on and south of Florida Highway 84; (4) from points in Georgia on, east and north of a line beginning at the North Carolina-Georgia State line and extending along U.S. Highway 19 to its junction with Interstate Highway 85, thence along Interstate Highway 85 to the Georgia-South Carolina State line, including Atlanta, Ga., to points in Florida on and west of U.S. Highway 319 and on and south of Florida Highway 44; (5) from Muskogee County, Ga., to points in Florida on and south of Florida Highway 50.

(6) From points in Georgia to points in Louisiana (restricted against traffic moving from points in Georgia on and south of a line from the Alabama-Georgia State line and extending along U.S. Highway 82 to its junction with Georgia Highway 33, thence along Georgia Highway 33 to the Florida-Georgia State line to points in Louisiana on and south of U.S. Highway 190, and restricted against traffic moving from points in Georgia on and south of a line beginning at the Alabama-Georgia State line and extending along Georgia Highway 37 to its junction with Georgia Highway 33, thence along Georgia Highway 33 to the Georgia-Florida State line to points in Louisiana on and south of U.S. Highway 84); (7) from points in Georgia on and north of U.S. Highway 82 including Brunswick (except points on, north and west of U.S. Highway 411), to points in

V 40173 APR 15 75 XUM

Mississippi except points on and east of a line beginning at the Alabama-Mississippi State line extending along U.S. Highway 82 to its junction with U.S. Highway 45, thence along U.S. Highway 45 to the Mississippi-Tennessee State line; (8) from points in Georgia on and south of U.S. Highway 82 to points in Mississippi on and north of U.S. Highway 82; (9) from points in Georgia to points in Texas (restricted against traffic moving from points in Georgia south of a line beginning at the Alabama-Georgia State line and extending along Georgia Highway 37 to its junction with Georgia Highway 33, thence along Georgia Highway 33 to the Georgia-Florida State line to points in Texas on and east of a line beginning at the Texas-Louisiana State line and extending U.S. Highway 84 to its junction with U.S. Highway 59, thence along U.S. Highway 59 to the Gulf of Mexico); (10) from points in North Carolina (except points west of U.S. Highway 221) to points in Arkansas (except points on and east of U.S. Highway 63); (11) from points in North Carolina west of U.S. Highway 221 to points in Arkansas west of U.S. Highway 65 and to Pine Bluff, Ark.

(12) From points in North Carolina to points in Louisiana and Texas; (13) from points in North Carolina to points in Mississippi (except points north of Mississippi Highway 6); (14) from points in Alabama on and east of a line starting at the Alabama-Georgia State line and extending along Georgia Highway 22 to its junction with U.S. Highway 431, thence along U.S. Highway 431 to the Florida-Alabama State line, except traffic from Dothan, Ala., is restricted to tarffic moving to points in Louisiana north of U.S. Highway 82; (15) from points in Macon, Montgomery and Pike Counties, Ala., to points in Arkansas on and north of U.S. Highway 64; (16) from points in Alabama on and east of a line beginning at the Alabama-Georgia State line and extending along U.S. Highway 78 to its junction with U.S. Highway 431, thence along U.S. Highway 431 to the Alabama-Florida State line (except points on and east of U.S. Highway 61 and points south of Interstate Highway 20 and Shreveport, La.; (17) from points in Randolph, Chambers, Lee and Russell Counties, Ala., to points in Mississippi; (18) from points in Barbour, Henry and Houston Counties, Ala., to points in Mississippi on and north of Mississippi Highway 6; (19) from DeKalb, Etowah, Cherokee, Cleburne, Calhoun, Talladega, Clay, Randolph, Tallapoosa, Chambers, Lee, Macon, Russell, Bullock, Barbour, Dale and Henry Counties, Ala., to points in Texas on and west of a line beginning at the Oklahoma-Texas State line and extending along U.S. Highway 259 to its junction with U.S. Highway 69, thence along U.S. Highway 69 to Port Arthur, Tex.; (20) from points in Houston, Montgomery and Pike Counties, Ala., to points in Texas on and west of U.S. Highway 75; (21) from Jefferson County, Ala., to points in Texas on and west of U.S. Highway 83; (22) from Covington, Coffee and Geneva Counties, Ala., to points in Lubbock and Midland Counties, Tex., and points in Texas on and west of U.S. Highway 385; (23) from points in Tennessee on and east of Interstate Highway 75 (except Chattanooga, Tenn.) to points in Louisiana, and from Chattanooga, Tenn., to points in Louisiana on and west of U.S. Highway 171 and on and south of Interstate Highway 10 (except Baton Rouge, La.); (24) from points in Tennessee east of U.S. Highway 27 (except Hamilton County), to points in Mississippi on and south of Interstate Highway 20 and Vicksburg, Miss.; and (25) from points in Tennessee on and east of U.S. Highway 27 to points in Texas, except points in Lamar and Red River Counties, Tex. The purpose of this filing is to eliminate the gateway of LaFayette, Ala.

No. MC 52704 (Sub-No. E2), filed May 20, 1974. Applicant: GLENN McCLENDON TRUCKING CO., INC., P.O. Drawer "H", LaFayette, Ala. 36862. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree Street NW., Atlanta, Ga. 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New glass beverage bottles*, (1) from Atlanta, Ga., and Laurens, S.C., to points in Arkansas, Louisiana and Texas; (2) from Atlanta, Ga., to Ocala, Fla., and to points in Florida on and west of a line beginning at the Florida-Georgia State line and extending along Interstate Highway 75 to its junction with the Florida Turnpike, thence along Florida Turnpike to its junction with Florida Highway 44, thence along Florida Highway 44 to the Atlantic Ocean; (3) from Atlanta, Ga., to points in Mississippi (except points on and east of a line beginning at the Alabama-Mississippi State line and extending along U.S. Highway 82 to its junction with U.S. Highway 45, thence along U.S. Highway 45 to the Mississippi-Tennessee State line); and (4) from Laurens, S.C., to points in Florida on and west of Florida Highway 65. The purpose of this filing is to eliminate the gateway of LaFayette, Ala.

No. MC 83835 (Sub-No. E28), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Texas 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities* which, because of their size or weight, require the use of special equipment, and related parts when their transportation is incidental to the transportation of commodities which by reason of size or weight require special equipment, when transported as machinery, equipment, materials, and supplies used in or in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way; (2) *Commodities* which, because of their size or weight, require the use of special equipment, and related parts when their transportation is incidental to the transportation of commodities, which by reason of size or weight require the use of special equipment, when transported as earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells.

(3) *Self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies moving in connection therewith, when transported as; machinery, equipment, materials, and supplies used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way; (4) *Self-propelled articles*, each weighing 15,000 pounds or more, and related machinery, tools, parts, and supplies moving in connection therewith, when transported as; earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or holesites and (d) the injection or removal of commodities into or from holes or wells; between points in Utah, on the one hand, and, on the other, points in Ohio, Pennsylvania, and West Virginia. The purpose of this filing is to eliminate the gateway of Kansas.

No. MC 83835 (Sub-No. E29), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Commodities* which, because of their size or weight, require the use of special equipment, and related parts when their transportation is incidental to the transportation of commodities which by reason of size or weight require special equipment when transported as; (1) machinery, equipment, materials, and supplies used in, or in

connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, (2) machinery, equipment, materials, and supplies used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way, and (3) earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells.

(B) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts*, and *supplies* moving in connection therewith, when transported as; (1) machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, (2) earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, and (3) machinery, equipment, materials, and supplies used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; between points in Pennsylvania on and west of U.S. Highway 219, on the one hand, and, on the other, points in Utah. The purpose of this filing is to eliminate the gateways of Kansas and Illinois.

No. MC 83835 (Sub-No. E32), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, between all points in Alaska, on the one hand, and, on the other, points in Arkansas, Illinois, Indiana, Iowa, Kentucky, Louisiana, Minnesota, Nebraska, North Dakota, Oklahoma, South Dakota, Missouri, and Texas. The purpose of this filing is to eliminate the gateways of Oklahoma and Texas.

No. MC 83835 (Sub-No. E34), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Texas 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, between points in Alaska, on the one hand, and, on the other, points in the Lower Peninsula of Michigan, Ohio, Pennsylvania, and West Virginia. The purpose of this filing is to eliminate the gateway of Kansas.

No. MC 83835 (Sub-No. E35), filed May 14, 1974. Applicant: WALES TRANSPORT, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Contractors' machinery, equipment, materials, and supplies* (except commodities in bulk), when transported as; machinery, equipment, materials, and supplies used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; and (2) *Contractors' machinery, equipment*, materials, and supplies (except commodities in bulk), when transported as; commodities, the transportation of which, because of size or weight, requires the use of special equipment, and related machinery parts, and related contractors' materials and supplies when their transportation is incidental to the transportation by the carrier of commodities which, because of size or weight, require the use of special equipment, except machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and byproducts, and machinery, and equipment, materials, and supplies used in or in connection with, the construciton, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, when transported as either of the following: (A) earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells; and/or (B) machinery, equipment, materials, and supplies used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way; between points in Alaska, on the one hand, and, on the other, points in the Lower Peninsula of Michigan, Ohio, Pennsylvania, and West Virginia. The purpose of this filing is to eliminate the gateway of Kansas.

No. MC 83835 (Sub-No. E36), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, between points in Arkansas, Louisiana, Missouri, Oklahoma, Texas, Kansas, Nebraska, Colorado, Wyoming, Montana, North Dakota, South Dakota, Minnesota, Iowa, Illinois, Wisconsin, Michigan, Indiana, Ohio, Kentucky, Tennessee, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, West Virginia, Pennsylvania, New York, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, and the District of Columbia, on the one hand, and, on the other, points in Alaska. The purpose of this filing is to eliminate the gateway of Kansas.

No. MC 83835 (Sub-No. E37), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, between points in Arkansas, Louisiana, Missouri, Oklahoma, Texas, Kansas, Nebraska, Colorado, Wyoming, Montana, North Dakota, South Dakota, Minnesota, Iowa, Illinois, Wisconsin, Michigan, Indiana, Ohio, Kentucky, Tennessee, Mississippi, Alabama, Georgia, Florida, South Carolina, North Carolina, Virginia, West Virginia, Pennsylvania, New York, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, Vermont, New Hampshire, Maine, and the District of Columbia, on the one hand, and, on the other, points in Alaska. The purpose of this filing is to eliminate the gateway of Kansas.

V 40 173 APR 15 75

related contractors' materials and supplies when their transportation is incidental to the transportation by the carrier, of commodities which, because of size or weight, require the use of special equipment (except machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof).

Between points in Alaska, on the one hand, and, on the other, points in the Lower Peninsula of Michigan, and points in Wisconsin on and south of a line beginning at the Wisconsin-Minnesota State line and extending along U.S. Highway 16 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Wisconsin Highway 173, thence along Wisconsin Highway 173 to junction Wisconsin Highway 80, thence along Wisconsin Highway 80 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction Wisconsin Highway 97, thence along Wisconsin Highway 97 to junction Wisconsin Highway 153, thence along Wisconsin Highway 153 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Wisconsin Highway 52, thence along Wisconsin Highway 52 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to the Michigan-Wisconsin State line. The purpose of this filing is to eliminate the gateways of Kansas and Illinois.

No. MC 83835 (Sub-No. E47), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Metal tubing and pipe*, when transported as; commodities which, because of their size or weight, require the use of special equipment, and related parts when their transportation is incidental to the transportation of commodities, which by reason of size or weight, require the use of special equipment (except machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products), and materials, equipment, and supplies used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; (2) *Metal tubing and pipe*, when transported as; machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, water or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; (a) from points in New York, Pennsylvania, and West Virginia, to points in Colorado and Oklahoma; from points in Michigan and Ohio, to points in Oklahoma; (c) from points in Ohio, to points in Colorado on and south of a line beginning at the Colorado-Kansas State line to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Colorado-Utah State line; (d) from points in Ohio on and east of a line beginning at the Ohio-Lake Erie State line to junction Interstate Highway 71, thence along Interstate Highway 71 to the Ohio-Kentucky State line to points in Colorado; and (e) from the Lower Peninsula of Michigan to points in Colorado on and south of a line beginning at the Colorado-Oklahoma State line to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction Colorado Highway 101, thence along Colorado Highway 101 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Colorado-Utah State line. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 83835 (Sub-No. E48), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Texas 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal pipe* (except oilfield pipe) when transported as: (A) because of their size or weight, require the use of special equipment, and related parts, when their transportation is incidental to the transportation of commodities, which by reason of size or weight require the use of special equipment, except machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, and/or (B) *metal pipe* (except oilfield pipe) when transported as: earth drilling machinery, and equipment, and machinery, equipment, materials, supplies and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, and/or (c) *metal pipe* (except oilfield pipe) when transported as: machinery, equipment, materials, and supplies used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and byproducts, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way.

(1) From points in New York, Ohio, Pennsylvania, and West Virginia, to points in California and Arizona; (2) from points in Indiana and Michigan, to points in Arizona; (3) from points in New York, Pennsylvania, and West Virginia, to points in Nevada; (4) from points in West Virginia, to points in Utah; (5) from points in Lower Michigan, to points in California, points in California, points in Utah on and south of highways beginning at the Utah-Colorado State line along U.S. Highway 50 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction Utah Highway 26, thence along Utah Highway 26 to junction U.S. Highway 50, thence to the Nevada border, and, points in Nevada on and south of a line beginning at the Utah border along U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 95 Alternate, thence along U.S. Highway 95 Alternate to junction U.S. Highway 40, to the California border; (6) from points in Ohio on and east of Interstate Highway 71 to points in Utah; (7) from points in Ohio to points in Utah on and south of a line beginning at the Colorado line along Utah Highway 88 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Utah Highway 73, thence along Utah Highway 73 to junction Utah Highway 199, to the Nevada line; (8) from points in Pennsylvania, to points in Utah on and south of highways beginning at the Utah-Wyoming State line: Highways I–80, I–80N, 89, 40, to the Wyoming-Nevada State line; (9) from points in Indiana on and south of highways beginning at the Illinois-Indiana State line: Highway 40, to the Ohio-Indiana State line, to points in Utah on and south of highways beginning at the Colorado-Utah State line: Highway 40, to the Nevada-Utah State line; (10) from points in Indiana, to points in Nevada on and south and west of highways beginning at the Nevada-California State line: Highways I–80, Alternate, 35, 50, 23, 89, 6, 25, 93, to the Nevada-Arizona State line.

(11) From points in Ohio, to points in Nevada on and south of highways beginning at the Nevada-Utah State line: Highways 50, 95, 80, to the Nevada-California State line; (12) from points in Ohio on and east of highways beginning at the Ohio-Lake Erie line: Highways I–71, to the Ohio-Kentucky State line, to points in Nevada; (13) from points in Indiana, to points in California on and south and west of highways beginning at the Nevada-California State line: Highways 50, 99, 5, to the Oregon-California State line; (14) from points in New York, to points in Utah on and south of highways beginning at the Wyoming-Utah State line: Highways 189, 80N, 89, 15, 40, to the Nevada-Utah State line. The purpose of this filing is to eliminate the gateway of Tulsa and Wagoner, Okla.

No. MC 83835 (Sub-No. E52), filed June 4, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Steel tanks*, knocked down, when transported as; commodities which, because of their size or weight, require the use of special equipment, and related parts when their transportation is incidental to the transportation of commodities which by reason of size or weight require special equipment, from points in Utah, and points in Colorado on, west, and south of a line beginning at the Colorado-Wyoming State line to junction Colorado Highway 125, thence along Colorado Highway 125 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Colorado-Kansas State line, and, points in New Mexico on and west of a line beginning at the New Mexico-Texas State line to junction U.S. Highway 70, thence along U.S. Highway 70 to junction New Mexico Highway 2, thence along New Mexico Highway 2 to junction U.S. Highway 285 to the United States-Mexico International Boundary line, to points in Indiana, Kentucky, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Virginia, and West Virginia.

(2) *Steel tanks* when transported as; machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with, the construction, operations, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; (3) *Steel tanks*, when transported as; earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; and (4) *Steel tanks*, when transported as; machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; from points in Colorado on, west, and south of a line beginning at the Colorado-Wyoming State line to junction Colorado Highway 125, thence along Colorado Highway 125 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Colorado-Kansas State line, and, points in New Mexico on and west of a line beginning at the New Mexico-Texas State line to junction U.S. Highway 70, thence along U.S. Highway 70 to junction New Mexico Highway 2, thence along New Mexico Highway 2 to junction U.S. Highway 285, thence along U.S. Highway 285 to the United States-Mexico International Boundary line, to points in Indiana, Kentucky, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Virginia, and West Virginia.

No. MC 83835 (Sub-No. E55), filed June 4, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Sprinkler systems*, when transported as; commodities, which, because of their size or weight, require the use of special equipment, and related parts when their transportation is incidental to the transportation of commodities, which by reason of size or weight, require the use of special equipment (except machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and materials, equipment, and supplies used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; (B) *Sprinkler systems*, when transported as; machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; (C) *Sprinkler systems*, when transported as; earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells.

(D) *Sprinkler system*, when transported as; machinery, equipment, materials, and supplies used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; (1) from points in Colorado, Montana, Utah, Wyoming, and points in Nebraska on and west of a line beginning at the Nebraska-South Dakota State line to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction U.S. Highway 281, thence along U.S. Highway 281 to the Nebraska-Kansas State line and points in Kansas on and west of a line beginning at the Kansas-Nebraska State line to junction U.S. Highway 281, thence along U.S. Highway 281 to junction Kansas Highway 96, thence along Kansas Highway 96 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line, to points in Alabama, Florida, Georgia, Mississippi, North Carolina, South Caro-

V 40 I 73
APR 15 75

lina, and Tennessee; (3) from points in New Mexico and points in Texas on and north of a line beginning at the Texas-New Mexico State line to junction Texas Highway 125, thence along Texas Highway 125 to junction Texas Highway 116, thence along Texas Highway 116 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction Texas Highway 79, thence along Texas Highway 79 to the Texas-Oklahoma State line and, points in Oklahoma on, north, and west of a line beginning at the Oklahoma-Arkansas State line to junction U.S. Highway 270, thence along U.S. Highway 270 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Oklahoma-Texas State line to points in Alabama, Florida, Georgia, Kentucky, North Carolina, South Carolina, Tennessee, Virginia, West Virginia, and points in Mississippi on and east of a line beginning at the Mississippi-Louisiana State line to junction Interstate Highway 20, thence along Interstate Highway 20 to junction U.S. Highway 49, thence along U.S. Highway 49 to the Mississippi-Gulf of Mexico line. The purpose of this filing is to eliminate the gateways of Kansas, Oklahoma, and facilities of Perking Automatic Sprinkler Co., Inc., at Little Rock, Ark.

No. MC 82436 (Sub-No. E56), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* the transportation of which because of size or weight require the use of special equipment, and/or self propelled articles, each weighing 15,000 pounds or more, restricted to transportation on trailers, when transported as each of the following (1) *machinery, equipment, materials and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, equipment, materials, and supplies used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; and/or (2) *machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and byproducts, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way; and/or (3) *earth drilling machinery and equipment, and machinery, equipment, materials, supplies*, and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operation at well or hole sites and (d) the injection or removal of commodities into or from holes or wells; between points in Ohio and Pennsylvania on the one hand and, on the other, points in Arkansas, Iowa, Colorado, Louisiana, Minnesota, Missouri, Montana, Nebraska, New Mexico, North Dakota, South Dakota, and Wyoming. The purpose of this filing is to eliminate the gateway of Illinois.

No. MC 95540 (Sub-No. E324), filed May 13, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212–5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits and frozen vegetables*, from those points in Michigan on and east of a line beginning at the United States-Canada International Boundary line and extending along Michigan Highway 247 to junction Michigan Highway 15, thence along Michigan Highway 15 to junction Michigan Highway 52, thence along Michigan Highway 52 to junction Michigan Highway 21, thence along Michigan Highway 21 to junction U.S. Highway 27, thence along U.S. Highway 27 to junction U.S. Highway 127, thence along U.S. Highway 127 to the Ohio-Michigan State line, to those points in Arkansas on and south of a line beginning at the Arkansas-Tennessee State line and extending along Interstate Highway 55 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction U.S. Highway 67/167, thence along U.S. Highway 67/167 to junction Interstate Highway 40, thence along Interstate Highway 40 to the Arkansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of Florence, Ala.

No. MC 95540 (Sub-No. E336), filed May 13, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* (except in bulk and except meat, meat products, meat by-products, and articles distributed by meat packinghouses, as described in sections A and C of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766), from those points in Texas on and south of a line beginning at the United States-Mexico International Boundary line and extending along Interstate Highway 10 to junction U.S. Highway 67/385, thence along U.S. Highway 67 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction Texas Highway 79, thence along Texas Highway 79 to junction Texas Highway 6, thence along Texas Highway 6 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 94, thence along Texas Highway 94 to junction Texas Highway 103, thence along Texas Highway 103 to junction Texas Highway 21, thence along Texas Highway 21 to the Texas-Louisiana State line, to those points in Illinois on and north and east of a line beginning at the Kentucky-Illinois State line and extending along U.S. Highway 45 to junction Illinois Highway 145, thence along Illinois Highway 145 to junction Illinois Highway 142, thence along Illinois Highway 142 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 32, thence along Illinois Highway 32 to junction Illinois Highway 121, thence along Illinois Highway 121 to junction Illinois Highway 51, thence along Illinois Highway 51 to junction Illinois Highway 64, thence along Illinois Highway 64 to junction U.S. Highway 52, thence along U.S. Highway 52 to the Mississippi River. The purpose of this filing is to eliminate the gateway of Florence, Ala.

No. MC 106920 (Sub-No. E15) (Correction), filed June 4, 1974. Published in the FEDERAL REGISTER January 30, 1975. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLanchlen Bank Bldg., 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen dairy products*, as defined by the Commission, from Elmira, N.Y., to points in Georgia on and west of a line beginning at the Georgia-Tennessee State line and extending along U.S. Highway 129 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction U.S. Highway 41 at Perry, Ga., thence along U.S. Highway 41 to junction Georgia Highway 33, thence along Georgia Highway 33 to junction U.S. Highway 319, thence along U.S. Highway 319 to the Georgia-Florida State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio. The purpose of this filing is to correct the territorial description.

No. MC 106920 (Sub-No. E97) (Correction), filed June 3, 1974. Published in the FEDERAL REGISTER February 13, 1975. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Commodities classified as *dairy products* under B in the appendix to the report in modification of permits of motor contract carriers of packinghouse products, 48 M.C.C. 628, and 61 M.C.C. 209 and 766, (1) from points in the lower peninsula of Michigan to points in New Hampshire, Vermont, and Maine,

and (2) from those points in the lower peninsula of Michigan on and west of a line beginning at the Michigan-Ohio State line and extending along U.S. Highway 23 to junction Michigan Highway 21, to junction Michigan Highway 15, to junction Michigan Highway 46, to junction Michigan Highway 24, to junction Michigan Highway 25, to Saginaw Bay, to Philadelphia, Pa., Baltimore, Md., New York, N.Y., Trenton and Newark, N.J., and those points in New York and New Jersey within 25 miles of New York, N.Y. The purpose of this filing is to eliminate the gateway of Darke, Mercer, and Auglaize Counties, Ohio. The purpose of this correction is to expand the territorial descriptions.

No. MC 106920 (Sub-No. E109) (Correction), filed June 3, 1974. Published in the FEDERAL REGISTER February 11, 1975. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities, classified as dairy products* under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packing House Products*, 48 M.C.C. 628, from those points in Missouri south of a line beginning at the Missouri-Illinois State line and extending along Missouri Highway 16 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction Missouri Highway 11, thence along Missouri Highway 11 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Missouri-Kansas State line, and north of a line beginning at the Illinois-Missouri State line and extending along Missouri Highway 61 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction Missouri Highway 21, thence along Missouri Highway 21 to junction Missouri Highway 32, thence along Missouri Highway 32 to junction Missouri Highway 38, thence along Missouri Highway 38 to junction Missouri Highway 5, thence along Missouri Highway 5 to the Missouri-Arkansas State line, to those points in North Carolina on and east of a line beginning at the North Carolina-Virginia State line and extending along Interstate Highway 85 to junction U.S. Highway 15/501, thence along U. S. Highway 15/501 to junction Interstate Highway 95, thence along Interstate Highway 95 to the North Carolina-South Carolina State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio. The purpose of this correction is to expand the territorial description. The purpose of this filing is to correct the territorial descriptions.

No. MC 106920 (Sub-No. E111), Correction), filed June 3, 1974. Published in the FEDERAL REGISTER February 11, 1975. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C., 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities, classified as dairy products* under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packing House Products*, 48 M.C.C. 628, from those points in Missouri south of a line beginning at the Missouri-Illinois State line and extending along Missouri Highway 16 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction Missouri Highway 11, thence along Missouri Highway 11 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Missouri-Kansas State line, and north of a line beginning at the Illinois-Missouri State line and extending along Missouri Highway 61 to junction Missouri Highway 72, thence along Missouri Highway 72 to junction Missouri Highway 21, thence along Missouri Highway 21 to junction Missouri Highway 32, thence along Missouri Highway 32 to junction Missouri Highway 38, thence along Missouri Highway 38 to junction Missouri Highway 5, thence along Missouri Highway 5 to the Missouri-Arkansas State line, to those points in North Carolina on and east of a line beginning at the North Carolina-Virginia State line and extending along Interstate Highway 85 to junction U.S. Highway 15/501, thence along U. S. Highway 15/501 to junction Interstate Highway 95, thence along Interstate Highway 95 to the North Carolina-South Carolina State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio. The purpose of this correction is to expand the territorial description. The purpose of this filing is to correct the territorial descriptions.

No. MC 107107 (Sub-No. E5) (Correction), filed June 4, 1974. Published in the FEDERAL REGISTER March 5, 1975. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 425, Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foods and food products* and *food ingredients* requiring temperature control in transit, from Philadelphia, Pa., to points in Chatham, Wayne, Lowndes, Ware, and Glynn Counties, Ga. (Jacksonville, Fla.)*; and (2) *Meat, meat products*, and *meat by-products*, and *dairy products*, as defined by the Commission, and frozen foods, from Philadelphia, Pa., to those points in Alabama on and south of U.S. Highway 80 and those points in Georgia on and south of U.S. Highway 280 (except Savannah, Ga.) (Florida)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to correct the commodity description in (2) above.

No. MC 107107 (Sub-No. E8) (Correction), filed June 4, 1974. Published in the Federal Register March 5, 1974. Applicant: ALTERMAN TRANSPORT LINES, INC., P.O. Box 425, Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Food* and *food ingredients*, requiring temperature control, in transit and *dairy products*, as defined by the Commission, from Chicago, Ill., to points in Wayne, Chatham, Lowndes, Ware, and Glynn Counties, Ga. (Jacksonville, Fla.)*; and (2) *Frozen foods*, from the Chicago, Ill., commercial zone to points in and west of Hampton, Colleton, Dorchester, and Berkeley Counties, S.C. (Savannah, Ga.)*. The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to correct the commodity description above.

No. MC 107295 (Sub-No. E215), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated and precut buildings or houses*, complete, knocked down or in sections, (1) from points in New Jersey to points in Arkansas, Illinois, Indiana, Iowa, Missouri, Wisconsin, and points in that part of Kentucky located in and west of Allen, Barren, Metcalfe, Green, Taylor, Casey, Lincoln, Garrard, Madison, Clark, Montgomery, Butler, Rowan, Carter, and Boyd Counties, (2) from points in New Jersey to points in Florida, Georgia, and South Carolina. The purpose of this filing is to eliminate the gateway of (1) points in Ohio, (2) Lumberton, N.C.

No. MC 107295 (Sub-No. E216), filed May 9, 1974. Applicant: Pre-Fab Transit Co., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated buildings*, complete, knocked down, or in sections, and when transported in connection with the transportation of such buildings, *component parts*, thereof, and equipment and materials incidental to the erection and completion of such buildings, (1) from points in Florida to points in Arizona, California, Colorado, Idaho, Kansas, Minnesota, Nebraska, Nevada, New Mexico, Oklahoma, Oregon, Utah, Washington, Wyoming, and points in that part of Texas located in and west of Val Verde, Edwards, Kimble, Mason, San Saba, Lampasas, Coryell, McLennan, Hill, Ellis, Kaufman, Van Zandt, Karnes, Hopkins, and Red River Counties from points in Florida to points in that part of located in Williams, Defiance, Paulding, Van Wert, Mercer, Darke, Preble, Butler, and Hamilton Counties. The purpose of this filing is to eliminate the gateway of (1) Pine Bluff, Ark., and (2) points in Illinois.

No. MC 107295 (Sub-No. E217), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated and precut buildings or houses*, complete,

V 40 I 73
APR 15 75

knocked down, or in sections and all component parts necessary to the construction, erection or completion of such buildings or houses, when shipped with same, (1) from points in Pennsylvania to points in Mississippi; (2) from points in that part of Pennsylvania located in and west of McKean, Elk, Jefferson, Indiana, Cambria, and Somerset Counties to points in Alabama, (3) from points in Pennsylvania to points in Florida, to points in that part of Georgia located in and south of Troup, Meriwether, Pike, Lamar, Monroe, Jones, Baldwin, Hancock, Warren, McDuffie, and Columbia Counties and to points in that part of South Carolina located in and east of Edgefield, Saluda, Lexington, Richland, Kershaw, and Chesterfield Counties. The purpose of this filing is to eliminate the gateway of (1) points in Ohio and Illinois, (2) points in Ohio and Illinois, (3) Lumberton, N.C.

No. MC 107403 (Sub-No. E92) (Correction), filed May 29, 1974. Republished in the FEDERAL REGISTER January 13, 1975. Applicant: MATLACK, INC., 10 W. Baltimore Ave., Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry chemicals*, in bulk, in tank vehicles, from Camden, Carneys Pt., Deepwater and Gibbsboro, N.J., to points in Massachusetts and Vermont. The purpose of this filing is to eliminate the gateways of Philadelphia and Elizabeth, N.J. The purpose of this correction is to correct the commodities description.

No. MC 107515 (Sub-No. E567), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meats, meat products*, and *meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, in vehicles equipped with mechanical refrigeration, from Suffolk, Va., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming, with no transportation for compensation on return except as otherwise authorized, restricted to the transportation of shipments originating at the facilities used by Pruden Packing Co., at Suffolk, Va. The purpose of this filing is to eliminate the gateways of Mt. Airy, N.C., and Bristol, Tenn.

No. MC 107515 (Sub-No. E568), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, in vehicles equipped with mechanical refrigeration, from Salem, Ba., to California, Oregon, Washington, Idaho, Utah, Nevada, Arizona, New Mexico, Colorado, Wyoming and Montana. The purpose of this filing is to eliminate the gateways of Twin Oaks, N.C., and Bristol, Tenn.

No. MC 107515 (Sub-No. E570), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, from points in California to New Orleans and Chalmette, La. The purpose of this filing is to eliminate the gateway of Crossroads, Miss.

No. MC 107515 (Sub-No. E573), filed January 27, 1975. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cheese*, (1) from Florida to Oregon, Washington, and that portion of California, on and north of a line beginning at the Nevada-California State line on California Highway 168 to junction California Highway 99, thence along California Highway 99 to junction California Highway 41, thence along California Highway 41 to the Pacific Ocean at or near Morrow Bay, California, (2) from that part of Florida on and east of U.S. 319 to California, (3) from New Albany, Miss. to Oregon, Washington, and that portion of California on and north of a line beginning at the Nevada-California State line on U.S. Highway 6 to junction California Highway 168, thence along California Highway 168 to junction California Highway 145, thence along California Highway 145, to junction California Highway 198, thence along California Highway 198 to junction U.S. Highway 101, thence along U.S. Highway 101 to junction California Highway 68 to the Pacific Ocean at or near Monterey, Calif., from New Orleans, La. to Washington and that portion of Oregon on and north of a line beginning at the Idaho-Oregon State line of I-80 north of junction Oregon 244, thence along Oregon 244 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction Oregon 74, thence along Oregon 74 to junction Oregon 207, thence along Oregon 207 to the Oregon-Washington State line. The purpose of this filing is to eliminate the gateway of Atlanta, Ga., and Chattanooga, Tenn.

No. MC 110817 (Sub-No. E88), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Building, Dallas, Texas 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: 1. *Machinery, materials, supplies and equipment*, incidental to, or used in, the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, except the picking up or stringing of pipe in connection with main or trunk pipe lines; 2. *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment; (b) the completion of holes or wells drilled; (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities to or from holes or wells; 3. *machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and byproducts, water, or sewage, restricted to the transportation of shipments moving to or from pipeline rights of way, between points in that part of Missouri on and south of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 54 to junction Missouri Highway 42, thence along Missouri Highway 42 to junction Missouri Highway 28, thence along Missouri Highway 28 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Missouri Highway 47, thence along Missouri Highway 47 to junction Missouri Highway 21, thence along Missouri Highway 21 to the Missouri-Illinois State line, on the one hand, and, on the other, points in that part of Montana on and west of a line beginning at the International Boundary line, between the United States and Canada, thence along U.S. Highway 91 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Montana Highway 230, thence along Montana Highway 230 to junction Montana Highway 235 to junction U.S. Highway 191, thence along U.S. Highway 191 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 89, thence along U.S. Highway 89 to the Montana-Wyoming State line. The purpose of this filing is to eliminate the gateway of any point in Texas.

No. MC 110817 (Sub-No. E89), filed May 13, 1974. Applicant: E. L. FARMER & COMPANY, Odessa, Tex. Applicant's representative: James W. Hightower, 136 Wynnewood Professional Bldg., Dallas, Texas 75224. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: 1. *Machinery, materials, supplies and equipment*, incidental to, or used in, the construction, development, operation,

and maintenance of facilities for the discovery, development, and production of natural gas and petroleum, except the picking up or stringing of pipe in connection with main or trunk pipe lines; 2. *earth drilling machinery and equipment, and machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment; (b) the completion of holes or wells drilled; (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites; and (d) the injection or removal of commodities to or from holes or wells; 3. *machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and byproducts, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights of way, between points in that part of Missouri on and south of a line beginning at the Missouri-Kansas State line, thence along U.S. Highway 160 to junction Missouri Highway 39, thence along Missouri Highway 39 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Missouri-Illinois State line, on the one hand, and, on the other, points in Montana. The purpose of this filing is to eliminate the gateway of any point in Texas.

No. MC 111401 (Sub-No. E36), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petrochemicals*, in bulk, in tank vehicles, from points in Oklahoma located on and west of a line extending from the Oklahoma-Kansas State line along U.S. Highway 283 to State Highway 51, and on and north of State Highway 51 to the Oklahoma-Texas State line. The purpose of this filing is to eliminate the gateway of Texas City, Tex.

No. MC 111401 (Sub-No. E39), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid petrochemicals*, in bulk, in tank vehicles, from points in Texas located on and east of U.S. Highway 83 and on and south of U.S. Highway 90 to points in Missouri. The purpose of this filing is to eliminate the gateway of Texas City, Tex.

No. MC 111401 (Sub-No. E43), filed May 14, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nitrogen fertilizer solutions*, in bulk, in tank vehicles, from points in Kansas located on the east of U.S. Highway 283 and on and south of Interstate Highway 70 to points in Arizona, and New Mexico on and south of U.S. Highway 66. The purpose of this filing is to eliminate the gateway of Etter, Tex.

No. MC 111401 (Sub-No. E47), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt rejuvenator*, in bulk, in tank vehicles from points in Kansas on and east of U.S. Highway 81 to points in Chaves, Curry, De Baca, Guadalupe, Lincoln, Quay, and Roosevelt Counties, N. Mex. The purpose of this filing is to eliminate the gateway of Stroud, Okla.

No. MC 111401 (Sub-No. E50), filed May 14, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petrochemicals*, in bulk, in tank vehicles, from points in Kansas located on and south of State Highway 96 and on and west of State Highway 99 to points in Arkansas, Iowa, and Missouri. The purpose of this filing is to eliminate the gateway of Wichita, Kans.

No. MC 111401 (Sub-No. E56), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products* (except lubricating oils), in bulk, in tank vehicles, from points in Kansas on and east of U.S. Highway 77 and on and north of U.S. Highway 24 to points in Louisiana. The purpose of this filing is to eliminate the gateway of Ardmore, Cleveland, Cushing, Duncan, Tulsa, and Wynnewood, Okla.

No. MC 111401 (Sub-No. E57), filed May 12, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products* (except lubricating oils), in bulk, in tank vehicles, from points in Oklahoma on and north of Interstate Highway 40 and on west of U.S. Highway 75 to points in Alabama, Kentucky, Mississippi, and Tennessee, restricted against the transportation of liquid wax from Tulsa, Okla., to points in Kentucky and Tennessee, and against the transportation of liquefied petroleum gases and natural gasoline to points in Mississippi. The purpose of this filing is to eliminate the gateway of Ardmore, Cleveland, Custing, Duncan, Tulsa, and Wynnewood, Okla.

No. MC 111401 (Sub-No. E68), filed May 14, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lubricating oil*, in bulk, in tank vehicles, (1) from points in Kansas to points in Alabama, Mississippi; (2) from points in Kansas on and south of U.S. Highway 54 to points in Kentucky, Utah, and Wyoming. The purpose of this filing is to eliminate the gateway of Oklahoma.

No. MC 111401 (Sub-No. E69), filed May 14, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nitrogen fertilizer solutions*, in bulk, in tank vehicles, (1) from points in Oklahoma on and west of State Highway 23 to points in Nebraska; and (2) from points in Oklahoma to points in Arizona and Utah. The purpose of this filing is to eliminate the gateway of Etter, Tex.

No. MC 111401 (Sub-No. E70), filed May 14, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nitrogen fertilizer solutions*, in bulk, in tank vehicles, from points in Texas on and north of U.S. Highway 66 to points in Arizona, Utah, Missouri, and Nebraska. The purpose of this filing is to eliminate the gateway of Etter, Tex.

No. MC 111401 (Sub-No. E71), filed May 14, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Numbers 5 and 6 fuel oils*, in bulk, in tank vehicles from points in Kansas on and south of U.S. Highway 54 and on and west of State Highway 99 to points in Missouri on and east of State Highway 19 and on and south of State Highway 34. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 111401 (Sub-No. E72), filed May 14, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Numbers 5 and 6 fuel oils*, in bulk, in tank vehicles, from points in Colorado on and south of U.S. Highway 160 and on and west of Interstate Highway 25 to points in Missouri

V 40173 APR 15 75 XUM

on and south of Interstate Highway 44. The purpose of this filing is to eliminate the gateway of Tulsa, Okla.

No. MC 111401 (Sub-No. E77), filed May 14, 1974. Applicant: GROENDYKE TRANSPORT, INC., P.O. Box 632, Enid, Okla. 73701. Applicant's representative: Victor R. Comstock (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petrochemicals*, in bulk, in tank vehicles, from points in Colorado to points in Alabama, Florida, Georgia, Louisiana, Mississippi, and South Carolina. The purpose of this filing is to eliminate the gateway of Longview, Tex.

No. MC 114019 (Sub-No. E380) (Correction), filed May 27, 1974, published in the FEDERAL REGISTER February 18, 1975. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, and *commodities*, the transportation of which is partially exempt from regulations under Section 203(b)(6) of the Interstate Commerce Act, when moving in mixed shipment with bananas, from Baltimore, Md., to points in Franklin County, Mass., and those in Berkshire County, Mass., on and north of Interstate Highway 90, points in Cheshire County, N.H., and points in Bennington, Rutland and Windham Counties, Vt. Restriction: Restricted to shipments moving from, to or between warehouses or other facilities of retail food and household supply and furnishings business houses, in peddle service. The purpose of this filing is to eliminate the gateway of Schenectady, N.Y. The purpose of this filing is to correct the territorial descriptions.

No. MC 114211 (Sub-No. E826), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories* therefor when moving with such pipe, the transportation of which, because of size or weight, requires special equipment, from points in that part of Iowa on and north of a line beginning at the Iowa-Nebraska State line extending along U.S. Highway 34 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Iowa Highway 64, thence along Iowa Highway 64 to the Illinois-Iowa State line, to points in Texas. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E827), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, from points in that part of Iowa on, north and west of a line beginning at the Missouri-Iowa State line extending along Iowa Highway 5 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 218, thence along U.S. Highway 218 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Interstate Highway 80, thence along Interstate Highway 80 to the Iowa-Illinois State line, to points in Indiana, restricted to the transportation of traffic (a) originating at the plant sites or warehouse facilities of International Harvester Company and (b) destined to the destination points specified above, except that the restriction in (b) shall not apply to traffic moving in foreign commerce. The purpose of this filing is to eliminate the gateways of Rock Island and Moline, Ill.

No. MC 114211 (Sub-No. E828), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, from points in that part of Iowa on, east and south of a line beginning at the Missouri-Iowa State line extending along U.S. Highway 63 to junction Iowa Highway 149, thence along Iowa Highway 149 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Interstate Highway 74, thence along Interstate Highway 74 to the Iowa-Illinois State line, to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line extending along U.S. Highway 53 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Wisconsin Highway 50, thence along Wisconsin Highway 50 to Kenosha, Wisc., restricted to the transportation of traffic (a) originating at the plant sites or warehouse facilities of International Harvester Company and (b) destined to the destination points specified above except that the restriction in (b) shall not apply to traffic moving in foreign commerce. The purpose of this filing is to eliminate the gateways of Rock Island and Moline, Ill., and Davenport, Iowa.

No. MC 114211 (Sub-No. E832), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Hod *buggies and self-propelled sweepers*, from points in that part of Minnesota on and southwest of a line beginning at the Minnesota-South Dakota State line extending along Minnesota Highway 19 to junction Minnesota Highway 67, thence along Minnesota Highway 67 to junction Minnesota Highway 68, thence along Minnesota Highway 68 to junction Minnesota Highway 4, thence along Minnesota Highway 4 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Minnesota Highway 15, thence along Minnesota Highway 15 to the Iowa-Minnesota State line, to points in New York, Maryland, Massachusetts, Pennsylvania, New Jersey, Delaware, Virginia, and Connecticut. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E833), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and *parts* thereof, from points in that part of Minnesota on and southwest of a line beginning at the Minnesota-South Dakota State line extending along Minnesota Highway 19 to junction Minnesota Highway 67, thence along Minnesota Highway 67 to junction Minnesota Highway 68, thence along Minnesota Highway 68 to junction Minnesota Highway 4, thence along Minnesota Highway 4 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Minnesota Highway 15, thence along Minnesota Highway 15 to the Iowa-Minnesota State line, to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corp., at Minneapolis, Minn.

No. MC 114211 (Sub-No. E834), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and parts thereof, from points in that part of Minnesota on and southwest of a line beginning at the Minnesota-South Dakota State line extending along Minnesota Highway 19 to junction Minnesota Highway 67, thence along Minnesota Highway 67 to junction Minnesota Highway 68, thence along Minnesota Highway 68 to junction Minnesota Highway 4, thence along U.S. Highway 14, thence along Minnesota Highway 15 to the Iowa-Minnesota State line, to points in Florida, Alabama, South Carolina, Georgia, Tennessee, Kentucky, West Virginia, Ohio, Michigan, and to points in that part of Louisiana on and east of a line beginning at the Louisiana-Mississippi State line extending along Louisiana Highway 19 to junction U.S. Highway 61, thence along U.S. Highway

61 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction Louisiana Highway 1, thence along Louisiana Highway 1 to junction Louisiana Highway 24, thence along Louisiana Highway 24 to junction Louisiana Highway 1, thence along Louisiana Highway 1 to Grand Isle, La., and to points in that part of Mississippi on and east of a line beginning at the Mississippi-Tennessee State line extending along Interstate Highway 55 to junction Mississippi Highway 24, thence along Mississippi Highway 24 to junction Mississippi Highway 48, thence along Mississippi Highway 48 to junction Mississippi Highway 33, thence along Mississippi Highway 33 to the Mississippi-Louisiana State line, and to points in that part of Wisconsin on and north of a line beginning at the Wisconsin-Minnesota State line extending along U.S. Highway 8 to junction Wisconsin Highway 32, thence along Wisconsin Highway 32 to junction Wisconsin Highway 64, thence along Wisconsin Highway 64 to Lake Michigan. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E835), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof (except commodities requiring special equipment), from points in that part of South Dakota on and east of a line beginning at the Massachusetts-Connecticut State line extending along U.S. Highway 44 to junction Connecticut Highway 5, thence along Connecticut Highway 8 to the Atlantic Ocean, and to points in Maine, Vermont, New Hampshire, Massachusetts, and Rhode Island, restricted to the transportation of traffic originating at or destined to the plant sites, warehouse sites, and experimental farms of Deere and Company. The purpose of this filing is to eliminate the gateways of Nassau, Minn., and Dubuque, Iowa.

No. MC 114211 (Sub-No. E836), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof (except commodities requiring special equipment), from points in that part of South Dakota on and northwest of a line beginning at the Minnesota-South Dakota State line extending along U.S. Highway 16 west to junction South Dakota Highway 47, thence along South Dakota Highway 47 to the South Dakota-Nebraska State line, to points in Maine, Vermont, New Hampshire, Rhode Island, Massachusetts, Connecticut, New York, Pennsylvania, New Jersey, Delaware, Maryland, and Virginia, restricted to the transportation of traffic originating at or destined to the plant sites, warehouse sites, and experimental farms of Deere and Company. The purpose of this filing is to eliminate the gateways of Nassau, Minn., and Dubuque, Iowa.

No. MC 114211 (Sub-No. E837), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, from points in that part of Nebraska on and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 36 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Missouri-Illinois State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling restricted against the transportation of those commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E838), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and parts thereof, between points in North Dakota, on the one hand, and, on the other, points in that part of Missouri on and west of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 63 to the Missouri-Arkansas State line, and on and south of a line beginning along U.S. Highway 63 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Missouri Highway 5, thence along Missouri Highway 5 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction U.S. Highway 36, thence along U.S. Highway 36 to the Missouri-Kansas State line. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E839), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery* and *contractors' equipment and supplies*, from points in that part of Kansas on, south, and east of a line beginning at the Kansas-Missouri State line extending along U.S. Highway 59 to junction Kansas Highway 4, thence along Kansas Highway 4 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Kansas-Oklahoma State line, to points in that part of North Dakota on and north of a line beginning at the Minnesota-North Dakota State line extending along Interstate Highway 94 to the Montana-North Dakota State line, and to points in that part of Montana on and north of a line beginning at the North Dakota-Montana State line extending along Interstate Highway 94 to junction Montana Highway 200S, thence along Montana Highway 200S to junction Montana Highway 200, thence along Montana Highway 200 to junction Interstate Highway 90, thence along Interstate Highway 90 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Idaho-Montana State line, and to points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line extending along U.S. Highway 12 to the Idaho-Washington State line. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E840), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery and contractors' equipment and supplies*, the transportation of which, because of size or weight, requires special equipment, from points in that part of Missouri on and southeast of a line beginning at the Kansas-Missouri State line extending along U.S. Highway 24 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction Missouri Highway 15, thence along Missouri Highway 15 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Illinois-Missouri State line, to points in Washington and to points in that part of Montana on and north of a line beginning at the Montana-North Dakota State line extending along U.S. Highway 12 to junction Interstate/U.S. Highway 94/10, thence along Interstate U.S. Highway 90/10 to junction Interstate U.S. Highway 90/10, thence along Interstate U.S. Highway 90/10 to junction Montana Highway 41, thence along Montana Highway 41 to junction Interstate Highway 15, thence along Interstate Highway 15 to junction Montana Highway 29, thence along Montana Highway 29 to the Montana-Idaho State line, to points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line extending along the southern boundary of Idaho County to the Idaho-Oregon State line, to points in that part of Oregon on and northwest of a line beginning at the Washington-Oregon State line extending along Oregon Highway 1 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction

V 40173 APR 15 75 XUM

Interstate Highway 5, thence along Interstate Highway 5 to junction Oregon Highway 126, thence along Oregon Highway 126 to the Pacific Ocean. The purpose of this filing is to eliminate the gateways of Minneapolis, Minn., and points in Iowa.

No. MC 114211 (Sub-No. E841), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery, and agricultural implements and parts*, thereof, from points in that part of Nebraska on and east of a line beginning at the Nebraska-South Dakota State line and extending along U.S. Highway 81 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line, to points in Texas, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling and restricted against the movement to oil field commodities. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E842), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery, and agricultural implements and parts*, thereof, from points in that part of Nebraska on and east of a line beginning at the Nebraska-South Dakota State line extending along U.S. Highway 81 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line, to points in Texas, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E843), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery, and agricultural implements and parts*, thereof, the transportation of which, because of size or weight, requires special equipment, from points in that part of Nebraska on and east of a line beginning at the Nebraska-South Dakota State line extending along U.S. Highway 81 to junction Nebraska Highway 92, thence along Nebraska Highway 92 to junction U.S. Highway 77, thence along U.S. Highway 77 to the Nebraska-Kansas State line, to points in Texas, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E844), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, the transportation of which, because of size or weight, requires special equipment, from points in that part of North Dakota on and east of a line beginning at the South Dakota-North Dakota State line extending along U.S. Highway 281 to junction North Dakota Highway 20, thence along North Dakota Highway 20 to the United States-Canada Boundary line, to points in Texas and Oklahoma, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateways of Omaha and Beatrice, Nebr., and points in Iowa.

No. MC 114211 (Sub-No. E846), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* and *fittings* and *accessories* therefor when moving with such pipe, from points in that part of Virginia on and east of a line beginning at the Kentucky-Virginia State line extending along U.S. Highway 23 to junction Alternate U.S. Highway 58, thence along Alternate U.S. Highway 58 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 58, thence along U.S. Highway 58 to the Virginia-Tennessee State line and from points in that part of North Carolina on and south of a line extending along U.S. Highway 321 to junction U.S. Highway 74, thence along U.S. Highway 74 to junction U.S. Highway 601, thence along U.S. Highway 601 to the North Carolina-South Carolina State line and from points in that part of Tennessee on and east of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 27 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Tennessee Highway 58, thence along Tennessee Highway 58 to junction U.S. Highway 27, thence along U.S. Highway 27 to the North Carolina-South Carolina State line, to points in that part of Minnesota on and west of a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 59 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction Minnesota Highway 9, thence along Minnesota Highway 9 to junction U.S. Highway 2, thence along U.S. Highway 2 to junction U.S. Highway 75, thence along U.S. Highway 75 to the United States-Canada Boundary line. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Company located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E848), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors*, from points in that part of Iowa on and north of a line beginning at the Wisconsin-Iowa State line extending along Iowa Highway 9 to junction Iowa Highway 51, thence along Iowa Highway 51 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 150, thence along U.S. Highway 150 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Iowa Highway 57, thence along Iowa Highway 57 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction Iowa Highway 17, thence along Iowa Highway 17 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction Iowa Highway 148, thence along Iowa Highway 148 to junction Iowa Highway 2, thence along Iowa Highway 2 to the Iowa-Nebraska State line, to points in Texas, restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E849), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (other than pipe used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas, and petroleum and their products) and *fittings and accessories* thereof when moving with such pipe, from points in that part of Ohio on and south of a line beginning at the Indiana-Ohio State line extending along U.S. Highway 40 to the Ohio-West Virginia State line, to points in Idaho, Utah, and Arizona. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Company located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E850), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and accessories* therefor when moving with such pipe, from points in that part of Tennessee on and west of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 25E to junction Tennessee Highway 63, thence along Tennessee Highway 63 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction Tennessee Highway 61, thence along Tennessee Highway 61 to junction Tennessee Highway 58, thence along Tennessee Highway 58 to junction Tennessee Highway 153, thence along Tennessee Highway 153 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Tennessee-Georgia State line, to points in that part of Minnesota on and west of a line beginning at the Minnesota-Iowa State line extending along U.S. Highway 71 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 59, thence along U.S. Highway 59 to the United States-Canada Boundary line. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Company located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E851), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (other than pipe used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas, and petroleum and their products, and by-products), and *fittings and accessories* therefor when moving with such pipe, from points in that part of Kentucky on and east of a line beginning at the Ohio-Kentucky State line extending along U.S. Highway 75 to junction U.S. Highway 27, thence along U.S. Highway 27 to the Kentucky-Tennessee State line, from points in that part of Tennessee on and east of a line beginning at the Kentucky-Tennessee State line extending along U.S. Highway 27 to junction Interstate Highway 40, thence along Interstate Highway 40 to junction Tennessee Highway 58, thence along Tennessee Highway 58 to junction Tennessee Highway 30, thence along Tennessee Highway 30 to junction U.S. Highway 411, thence along U.S. Highway 411 to the Tennessee-Georgia State line, from points in that part of North Carolina on and South of a line beginning at the North Carolina-Tennessee State line extending along U.S. Highway 321 to junction U.S. Highway 74, thence along U.S. Highway 74 to junction U.S. Highway 601.

Thence along U.S. Highway 601 to the North Carolina-South Carolina State line, from points in that part of Virginia on and east of a line beginning at the Kentucky-Virginia State line extending along U.S. Highway 23 to junction Alternate U.S. Highway 58, thence along Alternate U.S. Highway 58 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction U.S. Highway 58, thence along U.S. Highway 58 to the Virginia-Tennessee State line, to points in that part of Arizona on and west of a line beginning at the New Mexico-Arizona State line extending along U.S. Highway 66 to junction U.S. Highway 666, thence along U.S. Highway 666 to junction Arizona Highway 61, thence along Arizona Highway 61 to junction Arizona Highway 77, thence along Arizona Highway 77 to junction U.S. Highway 89, thence along U.S. Highway 89 to the United States-Mexico Boundary line, and to points in Idaho and Utah. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Company located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E852), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except in each instance commodities which because of size or weight requires the use of special equipment, and except commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459), from points in Texas to points in Wisconsin, restricted against shipments moving in foreign commerce to points in Canada. The purpose of this filing is to eliminate the gateway of Claremore, Okla.

No. MC 114211 (Sub-No. E853), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, from points in North Dakota, to points in that part of Texas on and east of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 281 to junction Texas Highway 79, thence along Texas Highway 79 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 180, thence along U.S. Highway 180 to junction Texas Highway 351, thence along Texas Highway 351 to junction U.S. Highway 227, thence along U.S. Highway 227 to Del Rio, Tex., and to points in that part of Oklahoma on and east of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 81 to junction U.S. Highway 277, thence along U.S. Highway 277 to the Texas-Oklahoma State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment, or special handling, and restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateways of Omaha and Beatrice, Nebr., and Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E854), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except those with vehicle beds, bed frames, and fifth wheels), *equipment* designed for use in conjunction with tractors, *attachments* for the above-described commodities, and *parts* of the commodities described above in mixed loads with such commodities, from points in that part of Minnesota on, south and east of a line beginning at the Wisconsin-Minnesota State line extending along Minnesota Highway 210 to junction Minnesota Highway 18, thence along Minnesota Highway 18 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Minnesota Highway 27, thence along Minnesota Highway 27 to junction Minnesota Highway 65, thence along Minnesota Highway 65 to junction Interstate Highway 35, thence along Interstate Highway 35 to the Minnesota-Iowa State line, to points in that part of North Dakota on, north and west of a line beginning at the North Dakota-South Dakota State line extending along North Dakota Highway 3 to junction Interstate Highway 94, thence along Interstate Highway 94 to the North Dakota-Minnesota State line. The purpose of this filing is to eliminate the gateway of that part of the Fargo, N. Dak., Commercial Zone located in Moorhead, Minn.

June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural machinery*, and *implements*, other than hand, as described in Section 1(b) of Appendix XII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, and *parts* therefor when their transportation is incidental to the transportation of the machinery and implements, from West Chicago, Ill., to points in New Mexico, restricted to the transportation of traffic originating at the plant site or storage facilities utilized by International Harvester Company at West Chicago, Ill. The purpose of this filing is to eliminate the gateway of Ottumwa, Iowa.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM

Housing Finance and Development Agencies

V 40-73 APR 15 75 XUM

Title 24—Housing and Urban Development

CHAPTER VIII—LOW INCOME HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-75-309]

PART 883—SECTION 8 HOUSING ASSISTANCE PAYMENTS PROGRAM—HOUSING FINANCE AND DEVELOPMENT AGENCIES

Notice was given on December 6, 1974, at 39 FR 42753 that the Department of Housing and Urban Development (HUD) was proposing to amend Title 24 of the Code of Federal Regulations by adding a new Part 1278 to Chapter VIII.

The purpose of this Part, which has been redesignated as Part 883, is to set forth the essential elements of the section 8 Housing Assistance Payments Program—Housing Finance and Development Agencies, including, among other things, (1) the roles and responsibilities of participating housing finance or development agencies (Participating Agencies), HUD, developers, rehabilitators, Owners, and Eligible Families; (2) the basis for determining the amount of housing assistance payments; and (3) the prescribed forms and procedures.

Subpart A sets forth the standards of eligibility for Participating Agencies and method of application by a Participating Agency for a set-aside.

Subpart B sets forth definitions and basic policies for New Construction and Substantial Rehabilitation, which closely parallel those for the other section 8 programs (see 24 CFR, Parts 880 and 881).

Subpart C provides simplified procedures for New Construction and Substantial Rehabilitation projects for which a Participating Agency provides permanent financing (defined to include mortgage insurance) without federal mortgage insurance. Such agency is called a Housing Finance Agency (HFA). Because HFAs assume the risk of default and foreclosure for projects developed under this Subpart, this Subpart provides that HFAs establish their own procedures for obtaining and selecting proposals and, except as specified, that such HFAs are not subject to the regulations for the regular section 8 Housing Assistance Payments Program—New Construction and Substantial Rehabilitation, 24 CFR, Parts 880 and 881, respectively.

Subpart D provides procedures applicable to a Participating Agency utilizing all or part of its set-aside for an existing housing project.

HUD has received more than 35 responses to the December 6, 1974 publication. All of these comments were seriously considered and many changes have been incorporated in these regulations as a result of these and other comments. The principal changes are set forth below.

1. To facilitate understanding and referencing, proposed §§ 1278.203 (Basic Policies) and 1278.318 (Project Operation) have been renumbered to give separate section numbers to the paragraphs within these sections. (See §§ 883.203–883.216 and 883.318–883.327, respectively, of the final regulations). All references below are to the new section numbers.

2. The provisions concerning eligibility of agencies under this Part have been modified so that: (a) pursuant to § 883.102 and § 883.301 and a new § 883.106, an agency which, as determined by HUD, otherwise qualifies for the special procedures under Subpart C may utilize such procedures notwithstanding the fact that the agency does not qualify for or does not wish to utilize a set-aside; and (b) pursuant to §§ 883.102 and 883.103, only agencies with statewide responsibility for financing and/or development of housing are eligible for a set-aside and/or the special procedures under this Part. However, HUD is considering separate guidelines with respect to eligibility of local agencies for set-asides and/or special procedures on an experimental basis.

3. A new § 883.105 has been added to clarify procedures applicable to an agency which uses its set-aside for a New Construction or Substantial Rehabilitation project but which does not qualify for or does not wish to utilize the special procedures under Subpart C with respect to the project.

4. A new § 883.109 has been added to clarify the procedures concerning HUD approval of the terms of financing for projects under Part 883.

5. Because the definitions in § 883.202 are set forth in alphabetical order, paragraph designations are unnecessary and have, therefore, been deleted.

6. The definition of "Eligible Family," as set forth in § 883.202, has been modified to clarify that disabled persons are included within this definition.

7. A definition of the term "HUD" has been added to § 883.202 to include HUD's designee.

8. A definition of "Minimum Property Standards" (applicable to New Construction projects pursuant to § 883.208(a)(2)) has been added to § 883.202. This term means HUD Minimum Property Standards or standards which the Secretary finds are equivalent to or exceed such HUD standards.

9. Definitions of the terms "New Construction" and "Substantially Rehabilitated Housing" have been added to § 883.202. These definitions provide that, among other things, housing which is already under construction or undergoing rehabilitation may be eligible for participation under Part 883 if certain specified conditions are satisfied.

10. Section 883.203 has been revised so that (a) pursuant to § 883.203(a), if the HFA is using its set-aside for the project, the maximum total annual contribution that may be contracted for in the Annual Contributions Contract, Appendix I (ACC), will include, in addition to the total of the Gross Rents for all the Contract units in the project, a contingency for possible increases in the Contract Rents resulting from higher financing costs (see paragraph 13(b) of this preamble); and (b) pursuant to § 883.203(b), in order to assure that housing assistance payments will be increased on a timely basis, whenever the HUD-approved Estimate of Required Annual Contributions exceed the maximum ACC commitment then in effect, and would cause the amount in the Project Account to be less than an amount equal to 40 percent of such maximum ACC commitment, HUD will, within a reasonable time, take such additional steps authorized by section 8(c)(6) of the United States Housing Act of 1937 (USHAct), as may be necessary to carry out this assurance.

11. Sections 883.204(b) and 883.204(c) have been modified to increase the percent of Contract Rent payable in the event of vacancies from 70 to 80.

12. A new § 883.204(e) has been added to provide for a reduction in the amount of housing assistance payments under the Contract where the interim financing is continued beyond one year from the effective date of the Contract and the interest cost of the interim financing, for any period of three months after such first year, is less than the cost of debt service under the permanent financing on which the Contract Rents were based. (See also section 1.7g of the Housing Assistance Payments Contract Appendix III (Contract).)

13. Section 883.205, the provisions concerning approval of Contract Rents, has been modified so that, among other things (a) pursuant to a new § 883.205(b)(2), the HFA must submit certifications concerning its projected rate of borrowing for the project (for both interim and permanent financing) and the spread, if any, between this projected rate and the projected rate at which funds will be loaned to the Owner, and (b) pursuant to a new § 883.205(c), if, after the project is permanently financed, the actual debt service under the permanent financing is lower than the anticipated debt service on which the Contract Rents were based, the initial Contract Rents, or the Contract Rents then in effect, will be reduced commensurately and the amount of savings will be credited to the Project Account. If the actual debt service is higher and the HFA is using its set-aside for the project, such Contract Rents will be increased commensurately, subject to the conditions and limitations set forth in this provision. An alternative provision is included in the Agreement to Enter into Housing Assistance Payments Contract, Appendix II (Agreement) for adjustment of Contract Rents where permanent financing alone, rather than a combination of interim and permanent financing, is utilized. (See also sections 1.5e and 1.5f of the Agreement and section 1.9e of the Contract.)

14. Section 883.206(a) has been modified so that the Contract term for a New Construction project (other than mobile homes) will be related to the term of the HFA financing (not to exceed 40 years for any unit).

15. Section 883.206(c), relating to the Contract term for a Substantial Rehabilitation project, has been modified so that (a) where the relative cost of the rehabilitation is less than 15 percent of the value of the project after completion of the rehabilitation, the total Contract term for any unit may not exceed 5 years; and (b) where such relative cost is higher, the total Contract term will cover the financing of the cost of rehabilitation, or the remaining term of the existing indebtedness, if that be greater, or will cover the financing of the cost of the rehabilitation and of the acquisition or refinancing of the existing indebtedness (not to exceed 40 years for any unit).

16. Section 883.207(c), the provision authorizing special additional adjustments under limited circumstances, has been modified to (a) clarify the circumstances under which such adjustments may be granted and (b) permit the HFA (as well as the Owner) to demonstrate to HUD the need for such adjustment. (See also section 1.9c of the Contract.)

17. Section 883.208(a)(1) has been modified to eliminate the provision that housing developed for use in this program should correspond to the predominant housing patterns of the locality in terms of structure and density.

18. Section 883.211 has been clarified with respect to situations where the Agreement or the Contract is pledged as security for financing and a new 883.211(b) has been added to clarify the status of the Housing Assistance Payments Contract in the event of foreclosure and assignment or sale.

19. Section 883.212 has been modified to permit the Owner to require each Family to make a security deposit in the amount of one month's Gross Family Contribution. (See also section 1.10b of the Contract.)

20. The definitions of "large family" and "very large family," as used in § 883.214 for purposes of identifying those Families for whom housing assistance payments will equal the difference between 15 percent of gross income and the Gross Rent, have been modified as follows:

(a) The term "large family" means a family which includes six or more minors (other than the head of the family or the spouse), and

(b) The term "very large family" means a family which includes eight or more such family members.

21. Section 883.215, which sets forth the responsibilities of the Owner, has been modified so that the HFA, rather than HUD, will (a) make adjustments in the Allowance for Utilities and Other Services and (b) approve contracts between the Owner and other entities for the performance of Owner services.

22. Section 883.302, sections 2.16 and 2.17 of the ACC, and sections 2.7, 2.8, and 2.9 of the Contract have been clarified with respect to: (a) the rights of the Owner in the event of failure of the HFA to comply with the Contract and (b) the rights and obligations of the HFA and the rights of HUD for determinations of Owner defaults under the Contract and the taking of corrective action.

23. Section 883.309(a), relating to HFA submission of the Proposal to HUD, has been clarified and simplified.

24. The certifications which the HFA must submit to HUD with the Proposal have been expanded so that, pursuant to §§ 883.309(d)(1) and 883.309(d)(4), the HFA must certify that the developer, builder, Owner and management agent (if any) are acceptable for purposes of meeting all the obligations of the Agreement and Contract.

25. Section 883.311(b) has been modified to provide for notification to a unit of general local government (which had been given an opportunity to comment on the Proposal) as to HUD's final action with respect to the Proposal.

26. The provisions relating to the HFA's acceptance of the Notification of Application Approval and the preparation and execution of the ACC and Agreement, §§ 883.312 and 883.313, have been clarified.

27. Section 883.312(d) has been modified so that the HFA-certified working drawings and specifications will be retained in the HFA files (and be available for examination by HUD) rather than be submitted to HUD with the certification.

28. Section 883.315(c), respecting changes from the approved Proposal, has been (a) clarified as to the time within which the HFA must submit such changes to HUD for approval and (b) modified to permit Contract Rents with HUD approval to be increased where required by changes in local codes or ordinances made subsequent to execution of the Agreement.

29. The certifications required from the HFA at project completion, as set forth in § 883.316(a), have been expanded to include a certification that, among other things, the project has been constructed or rehabilitated in accordance with applicable zoning, building and housing codes, etc.

30. Section 883.327, which provides for the reduction of Contract units utilized by the Owner over a substantial period of time for other than Eligible Families has been modified to provide for restoration of the withdrawn units under certain circumstances. (See also section 1.12 of the Contract.)

31. A new § 883.401 has been added which sets forth procedures applicable to a Participating Agency which uses all or part of its set-aside for an existing housing program. Pursuant to this provision, such Agency is subject to the regular existing housing regulations, 24 CFR, Part 882 except that: (a) it may submit an application to HUD at any time, without reference to a HUD Invitation for an existing housing program; and (b) its application will be exempt from the provisions of section 213(a) of the Housing and Community Development Act unless the unit of general local government in which assistance is to be provided objects, in its Local Housing Assistance Plan, to the exemption.

Although many modifications were made as a result of the comments received, some recommendations in the comments are not reflected in the final regulations. The more recurrent and significant of these comments are discussed below.

Several comments were directed at subject matter which is covered in other regulations. For example, comments concerning Fair Market Rents and Automatic Annual Adjustment Factors are covered by the regulations relating to these items, 24 CFR, Part 888. Similarly, comments concerning computation of income for purposes of determining eligibility and amount of Gross Family Contribution are covered by the regulations respecting these determinations, 24 CFR, Part 889.

Some comments recommended that the 60 day limitation on payments to Owners for vacant units during rent-up (see § 883.204(b)) be eliminated. This limitation, however, is required by section 8(c)(4)(B) of the United States Housing Act of 1937 (USH Act), which states that: "• • • payments may be made with respect to unoccupied units for a period not exceeding 60 days."

Many comments suggested that the HFA, as administrator of the Contract, should receive a fee for the cost of administration similar to the fee allowed to public housing agencies (PHAs) in the other section 8 programs. In HUD's judgment, however, HFAs participating under this Part are compensated sufficiently in the form of lower interest rates from the tax-exempt financing and/or mortgage insurance premiums. As a result, unlike PHAs in the other section 8 programs, there is no justification for providing the HFAs with a separate fee.

Many comments objected to the provision which prohibits an HFA from both administering the Housing Assistance Payments Contract for a project and contracting to perform the management and maintenance for the same project. This prohibition is retained in the final regulations (see § 883.215(b)) in order to avoid the conflict of interest that would exist if the entity which is the Contract administrator, and is therefore responsible for enforcement of compliance with management and maintenance requirements, were itself the entity whose compliance must be evaluated and enforced.

Some comments stated that the provision requiring HUD approval of the terms of financing where the Agreement or Contract is offered or pledged as security for any loan or obligation (§ 883.211(a)) should be eliminated. This provision, however, is retained in the final regulations because it is required by section 8(c)(4) of the USH Act.

Many comments objected to the provision which requires that Contract Rents reflect the savings in interest to the HFA as a result of tax-exempt financing (see § 883.205(b)(1)). However, because the interest savings is the result of favorable Federal tax treatment to the HFA, the benefit should be reflected in the Contract Rents the payment of which is supported by Federal subsidy.

V 40 73 APR 15 75 XUM

Among the criteria that HUD will consider in determining whether to grant a set-aside and the amount of such set-aside, is the ability and willingness of an HFA to limit the number of units leased by assisted families to 20 percent or less in projects of more than 50 units and not designed for the elderly or handicapped (see § 883.104(d)(5)). Several comments expressed concern that this criterion will operate to the disadvantage of HFAs servicing rural areas where large projects are not appropriate. In response to this concern it should be noted that this criterion is only one of seven factors and which HUD may consider is not necessarily of equal weight with the other factors. In addition, this criterion is consistent with the second of the two stated statutory purposes of section 8, "promoting economically mixed housing."

Although it was necessary to limit the comment period to fifteen days because of the statutory requirement that these regulations be made effective as of January 1, 1975, more than 60 days have elapsed since publication of the proposed regulations. Moreover, HUD has considered all comments received, including more than 20 which were received after the 15-day comment period. Therefore, an additional specified comment period will not be provided at this time. However, HUD will consider any additional comments which are submitted and may make further modifications of these regulations if they are of sufficient significance. Comments should be addressed to the Rules Docket Clerk, Office of the General Counsel, Room 10245, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410. A copy of each communication will be available for public inspection during business hours.

A finding of Inapplicability with respect to the National Environmental Policy Act of 1969 has been made with respect to these regulations. A copy of this Finding of Inapplicability is available for inspection during regular business hours at the above address.

In order to comply with the statutory requirement that these regulations be made effective as of January 1, 1975, the Assistant Secretary for Housing Production and Mortgage Credit/FHA Commissioner has determined that these regulations be made effective as of that date.

Effective date. These regulations are effective as of January 1, 1975.

Accordingly, Title 24 is amended as follows:

A new Part 883, Section 8, Housing Assistance Payments Program—Housing Finance and Development Agencies is added to Chapter VIII to read as set forth below.

Subpart A—Applicability and Scope

Sec.
883.101 Purpose.
883.102 Eligibility of agencies for purposes of this part.
883.103 Request for participation.
883.104 Set-asides.
883.105 Agencies using set-asides but not special procedures.
883.106 Agencies using special procedures for projects for which preliminary proposals were selected by HUD.
883.107 Agencies financing projects using neither special procedures nor set-asides.
883.108 Cooperation between participating agencies and other entities.
883.109 Approval of financing terms.

Subpart B—Definitions and Basic Policies

883.201 Applicability of Subpart B.
883.202 Definitions.
883.203 Maximum total ACC commitment and project account.
883.204 Housing assistance payments to owners.
883.205 Contract rents.
883.206 Term of housing assistance payments contract.
883.207 Rent adjustments.
883.208 Types of housing and property standards.
883.209 Site and neighborhood standards.
883.210 Relocation.
883.211 Use of contract as security for financing.
883.212 Security and utility deposits.
883.213 Establishment of income limit schedules; 30 percent occupancy by very low-income families.
883.214 Establishment of amount of housing assistance payments.
883.215 Responsibilities of the owner.
883.216 Separate project requirement.

Subpart C—Program Development—New Construction and Substantial Rehabilitation

Sec.
883.301 Applicability of Subpart C.
883.302 General responsibilities of the HFA and relationships to HUD.
883.303 Compliance with Federal requirements.
883.304 Applicability of section 213 of HCD Act; Justification for new construction or Substantial Rehabilitation.
883.305 Submission of Application.
883.306 HUD review and approval of Application.
883.307 Obtaining Proposals.
883.308 Simultaneous submission of application and proposal.
883.309 HFA submission of proposals.
883.310 HUD evaluation of proposals.
883.311 Notification of acceptability of Proposal.
883.312 HFA's submission of acceptance of notification, certification of design and construction quality, ACC, and Agreement.
883.313 HUD execution of annual contributions contract and agreement.
883.314 Submission of estimates of required Annual Contributions.
883.315 Construction or rehabilitation period.
883.316 Project completion.
883.317 Execution of housing assistance payments contract.
883.318 Marketing.
883.319 Lease requirements.
883.320 Termination of tenancy.
883.321 Maintenance, operation and inspections.
883.322 Reexamination of family income, composition, and extent of exceptional medical or other unusual expenses.
883.323 Overcrowded and underoccupied units.
883.324 Adjustment of allowance for Utilities and Other Services.
883.325 Continued family participation.
883.326 Inapplicability of low-rent public housing model lease and grievance procedures.
883.327 Reduction of number of contract units for failure to lease to eligible families.
883.328 HUD review of contract compliance.
883.329 HFA reporting requirements [Reserved]

Subpart D—Program Development—Existing Housing

883.401 Modification of existing housing regulations.

Appendices

NOTE: Various prescribed forms which relate to internal HUD processing procedures are not included herein, but will appear in the HUD Housing Finance and Development Agencies Handbook.

I ANNUAL CONTRIBUTIONS CONTRACT

II AGREEMENT TO ENTER INTO HOUSING ASSISTANCE PAYMENTS CONTRACT

III HOUSING ASSISTANCE PAYMENTS CONTRACT

AUTHORITY: Sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)); sec. 5(b), U.S. Housing Act of 1937 (42 U.S.C. 1437c(b)); sec. 8, U.S. Housing Act of 1937 (42 U.S.C. 1437f).

Subpart A—Applicability and Scope

§ 883.101 Purpose.

Various States have established statewide housing finance or development agencies to encourage the provision of housing for low and moderate income persons and families. To enable these agencies to effectively develop programs to meet housing needs within their respective jurisdictions, set-asides under the Housing Assistance Payments Program may be provided under the provisions of this Subpart. Some of these agencies also finance the construction and rehabilitation of housing and assume the risks of default and foreclosure on developments they finance. To allow these agencies flexibility in developing programs to meet housing needs, special policies and procedures are provided.

§ 883.102 Eligibility of agencies for purposes of this part.

(a) *Eligibility for Set-Asides.* A Participating Agency ("Agency") (see § 883.103) is eligible to receive set-asides under this Subpart.

(b) *Eligibility for Special Procedures.* With respect to any project for which an Agency provides permanent financing without Federal mortgage insurance, it may utilize the special procedures set forth in Subpart C of this Part. When utilizing these special procedures, the Agency is an HFA as defined in § 883.202.

(c) *"Provide Permanent Financing."* For purposes of this Part, an Agency is deemed to "provide permanent financing" if HUD determines that: (1) the Agency provides permanent financing from its own funds, including the sale of its obligations; or (2) permanent financing for projects developed or administered by the Agency is provided by the State government or by an agency or instrumentality thereof other than the Agency; or (3) the permanent financing (by a public or private entity other than the Agency) is backed by the commitment of the Agency to assume the risks of loss on default or foreclosure of the loan.

§ 883.103 Request for participation.

In order to qualify for a set-aside and/or the special procedures set forth in this Part, an agency must submit a letter showing that it is a housing finance and/or development agency with statewide responsibility and that it qualifies as a public housing agency ("PHA"), as defined in the U.S. Housing Act of 1937, and requesting participation to the Assistant Secretary for Housing Production and Mortgage Credit, U.S. Department of Housing and Urban Development ("HUD"), Washington, D.C. 20410. Enclosed with the letter shall be two copies of: (a) the relevant enabling legislation, (b) any rules and regulations adopted or to be adopted by the agency to govern its operations, and (c) an opinion from the agency counsel that the agency is legally qualified and authorized to participate in the Housing Assistance Payments Program. This opinion shall include an explanation of the basis and extent of the agency's legal authority, if any, for housing development or administration in the areas of operation of any existing PHAs (see definition of PHA in § 883.202). After prompt review, the agency shall be notified whether or not, and in what respects, it is qualified to participate. Copies of the notification shall be provided to the HUD Regional Office and appropriate field office(s). An agency so notified that it is qualified to participate is defined in § 883.202 as a Participating Agency ("Agency").

§ 883.104 Set-asides.

(a) *Notification of Availability of Set-Asides.* HUD will set aside for use by Agencies portions of allocations of contract authority for the Housing Assistance Payments Program and will promptly notify Agencies that set-asides will be available. The notice shall also state the time within which requests for set-asides must be received.

(b) *Applying for Set-Asides.* In order to receive a set-aside, an Agency must submit a letter requesting a set-aside to the appropriate HUD field office director(s) with copies to the HUD Regional Administrator and the Assistant Secretary for Housing Production and Mortgage Credit. Such letter shall include information sufficient to enable a determination to be made on the basis of the criteria outlined in paragraph (d) of this section. The letter shall include an opinion from the Agency counsel that there have been no changes in the scope of the Agency's legal authority to participate subsequent to the determination of its eligibility pursuant to § 883.103, or a statement of any such changes as may have occurred and an opinion from the Agency counsel as to the effect of such changes on the Agency's eligibility.

(c) *HUD Allocation of Set-Asides.* Promptly after submission by an Agency of the letter specified in paragraph (b) of this section, HUD shall notify that Agency by letter of its determination. If a set-aside is granted, the letter of notification to the Agency shall (1) direct its attention to its obligation under § 883.213(b), (2) indicate the portion of the set-aside to be used in metropolitan and non-metropolitan areas, and (3) indicate the portion of the set-aside to be used for dwelling units of three or more bedrooms. Promptly following receipt of the HUD letter, the Agency shall make a public announcement that it has been allocated a set-aside, specify the amount of the set-aside, and indicate where and when applications to the Agency may be submitted by developers or Owners.

(d) *Determination of Set-Aside.* The determination of whether to grant a set-aside and the amount of any set-aside shall be made on the basis of the criteria set forth in this paragraph (d). The amount of any set-aside otherwise warranted under this paragraph shall not be reduced by reason of any New Communities set-aside granted to the Agency.

(1) The degree of the Agency's expertise in connection with the development of housing, and the Agency's ability to administer the set-aside;

(2) The extent to which the housing needs of the State have been evaluated, a program has been developed to provide housing in those areas with the most critical needs, and the Agency is prepared to use the set-aside to implement that program (in determining relative housing needs, the Agency should consider factors such as those specified in section 213(d) of the HCD Act);

(3) The extent to which the Agency's program complements the allocation program of the HUD field office;

(4) Where applicable, the Agency's ability and willingness to serve inner-city and rural non-farm housing needs;

(5) The Agency's ability and willingness to provide permanent financing without Federal mortgage insurance;

(6) The Agency's ability and willingness to limit the number of units leased by assisted families to 20 percent or less of the units in projects of more than 50 units and not designed for use primarily by the elderly and the handicapped; and

(7) The Agency's ability and willingness to provide dwelling units of three or more bedrooms, where the need for such units is shown, taking into account the responsibility of the HUD field office to achieve the goal of providing a number of large dwelling units equal to at least 20 percent of all the assisted units approved under the Section 8 Housing Assistance Payments Program.

(e) *Bonus Set-Aside for 20 Percent Projects.* It is expected that, wherever possible, Agencies will limit the percentage of subsidized families in a project. If this percentage is 20 percent or less in newly constructed or substantially rehabilitated projects, in accordance with the guideline stated in paragraph (d)(6) of this section, the Agency will receive an additional set-aside out of subsequent allocations to the field office. This additional set-aside shall be determined as follows: HUD will authorize a set-aside of one additional unit for every four units which were committed for leasing by assisted families in accordance with the 20 percent guideline prior to the time such subsequent allocation is made; however, a unit may be counted only once in determining the amount of the additional set-aside. For purposes of this paragraph, a unit shall be deemed committed if an Agreement to Enter into Housing Assistance Payments Contract has been executed with respect to such unit. For example, if an Agency has entered into an Agreement to Enter into Housing Assistance Payments Contract with a developer for a structure of 100 units, of which 20 units are to be leased by assisted families, the set-aside for the next fiscal year will include an additional five units.

(f) *Termination of Set-Asides.* Set-asides not assigned to projects on or before the 45th day prior to the end of each Federal fiscal year are automatically terminated as of that date, unless the Assistant Secretary for Housing Production and Mortgage Credit shall agree in writing to extend the date. For purposes of this paragraph, set-aside authority is deemed assigned on the date the field office issues a Notification of Application Approval for a specific number of units and a specific amount of annual contributions for a new construction or substantial rehabilitation project or, in the case of an existing housing program, when an Annual Contributions Contract List is approved by HUD. However, with respect to any new construction or substantial rehabilitation project, unless an Agreement to Enter into Housing Assistance Payments Contract, executed by the Agency and the Owner, is submitted to HUD within six months of the date of Notification of Application Approval, the Notification shall expire and the units not covered by such Agreement(s) shall automatically be cancelled, unless the Assistant Secretary for Housing Production and Mortgage Credit agrees in writing to extend the date.

(g) *Transfer of Set-Asides.* Where a specific portion of an Agency's set-aside is assigned to a particular project (as defined in paragraph (f) of this section) and it is subsequently determined that the portion so assigned cannot be used for that project, the Agency may retain use of that portion only by proceeding in the following manner:

(1) *Project terminated or reduced on or before the 45th day prior to the end of the Federal fiscal year.* If the determination to terminate or reduce the number of assisted units in a particular project is made on or before the 45th day prior to the end of the Federal fiscal year in which the set-aside was assigned to that project, the Agency shall notify the HUD field office of that determination. The portion of the set-aside for the particular project will be cancelled or reduced accordingly and the portion thereby released will be available for assignment to another project through the 45th day prior to the end of the same fiscal year.

(2) *Project termination or reduction after the 45th day prior to the end of the*

V 40173 APR 15 75 XUM

Federal fiscal year. If the determination to terminate or reduce the number of assisted units in a particular project is made after the 45th day prior to the end of the Federal fiscal year in which an assignment was made to that project, the Agency may transfer the released portion of the set-aside to another project or projects provided each of the following conditions is satisfied:

(i) The Agency notifies the HUD field office promptly after the determination is made and provides full and complete information concerning the proposed transfer, including names and locations of the projects involved, the specific amount of set-aside to be transferred, and a written statement of assurance that an Agreement, executed by the Agency and the Owner, will be submitted to HUD within six months;

(ii) The proposed transfer is in fact made to a specific project in a specific location and is subject to the condition that an Agreement, executed by the Agency and the Owner, is submitted to HUD within six months of the date of the transfer, unless the Assistant Secretary for Housing Production and Mortgage Credit agrees in writing to extend such date; and that if such an Agreement is not submitted to HUD within such time, the transferred set-aside shall automatically terminate and the Agency's total set-aside for the current fiscal year shall not be increased to compensate for such termination.

§ 883.105 Agencies using set-asides but not special procedures.

If an Agency has a set-aside but does not qualify for or does not wish to utilize the special procedures under Subpart C with respect to a New Construction or Substantial Rehabilitation project, it shall follow the provisions set forth in 24 CFR Part 880 or 881, whichever is applicable, except as follows:

(a) The Agency may submit a Preliminary Proposal to the HUD field office at any time without reference to any HUD Invitation for Preliminary Proposals pursuant to 24 CFR 880.203 or 881.203. At the same time, the Agency shall submit an Application in the form prescribed by HUD.

(b) Such Preliminary Proposal and related Final Proposal shall be evaluated on the basis of acceptability in accordance with the requirements of the applicable Part, but they shall not be subject to the competitive ranking and selection provisions of 24 CFR 880.208(e) or 881.208(e).

§ 883.106 Agencies using special procedures for projects for which preliminary proposals were selected by HUD.

If a Preliminary Proposal which was submitted to and selected by a HUD field office pursuant to the New Construction or Substantial Rehabilitation Regulations (24 CFR 880.203–.206 and –.208 or 24 CFR 881.203–.206 and –.208) is for a project which is to be permanently financed without Federal mortgage insurance by an Agency which wishes to use the special procedures under Subpart C for that project (whether or not the Agency uses a set-aside for the project), the Agency, in lieu of the submission of a Final Proposal pursuant to said regulations, shall submit a Proposal pursuant to § 883.309, and the Proposal shall otherwise be subject to and be processed in accordance with the provisions of Subpart C. The Proposal submitted pursuant to § 883.309 shall be consistent with the Preliminary Proposal; any material deviation will be cause for reconsideration by HUD of the § 883.309 Proposal and may result in its rejection.

§ 883.107 Agencies financing projects using neither special procedures nor Set-Asides.

If an Agency provides permanent financing with Federal mortgage insurance for a section 8 project and does not utilize its set-aside for such project, the New Construction or Substantial Rehabilitation Regulations (24 CFR, Part 880 or 881), including the special provisions in those regulations with respect to bond and note financing, shall apply.

§ 883.108 Cooperation between participating agencies and other entities.

An objective of the program is to encourage cooperation between Agencies and other entities. Accordingly, formal or informal agreements of cooperation between such entities are encouraged. However, such agreements shall not diminish or relieve an Agency of its obligations and responsibilities to HUD under the ACC and this Part.

§ 883.109 Approval of financing terms.

(a) An Agency, prior to receiving HUD approval of its first Proposal for a section 8 project under this Part, shall submit to the appropriate HUD field office or offices copies of the documents relating to the method of financing of newly constructed or substantially rehabilitated housing which may involve section 8, such documents to include the bond resolutions or indentures, loan agreements, regulatory agreements, notes, and mortgages or deeds of trust and other related documents, if any (but not the "official statement" or "prospectus," copies of which shall be furnished to HUD when issued). HUD review shall be limited to those matters related to or affecting section 8. After prompt review, HUD shall notify the Agency that the documents are acceptable or, if unacceptable, shall request clarification or changes. In the event an Agency which has obtained HUD approval of those portions of its financing documents related to or affecting section 8 proposes substantive changes in the documents affecting section 8, whether by way of amendment, replacement or supplementation, such changes must be submitted to HUD for prior approval.

(b) The Agency shall retain in its files, and make available for HUD inspection, the documentation relating to its financing of section 8 projects, including any certifications of compliance with the applicable Department of Treasury regulations regarding arbitrage.

Subpart B—Definitions and Basic Policies

§ 883.201 Applicability of Subpart B.

The provisions of this Subpart are applicable to newly constructed and substantially rehabilitated housing developed under Subpart C of this Part pursuant to section 8 of the Act. Existing housing projects administered by Agencies shall be subject to the regulations for the Housing Assistance Payments Program—Existing Housing under section 8 of the Act, except as modified in Subpart D of this Part.

§ 883.202 Definitions.

Agency. See definition of Participating Agency.

Agreement to Enter Into Housing Assistance Payments Contract ("Agreement"). A written agreement between the Owner and the HFA, approved by HUD, that, upon satisfactory completion of the housing in accordance with the HUD-approved Proposal, the HFA will enter into a Housing Assistance Payments Contract with the Owner. (See Appendix II.)

Allowance for Utilities and Other Services ("Allowance"). An amount determined by the HFA to be a reasonable allowance for the cost of utilities (except telephone) and charges for other services payable directly by the Family. In the case of a Proposal under which the Families must pay directly for one or more utilities or services, the amount of the Allowance is deducted from the Gross Rent in determining the Contract Rent and is included in the Gross Family Contribution.

Annual Contributions Contract ("ACC"). A written agreement between HUD and the HFA to provide annual contributions to the HFA with respect to the project. (See Appendix I.)

Application. An application for assignment of a portion of a set-aside to a specific project.

Contract. See definition of Housing Assistance Payments Contract.

Contract Rent. The rent payable to the Owner under his Contract including the portion of the rent payable by the Family. In the case of a cooperative, the term "Contract Rent" means charges under the occupancy agreements between the members and the cooperative.

Decent, Safe, and Sanitary. Housing is Decent, Safe, and Sanitary at project completion if the HFA certifies that the dwelling units and related facilities meet the requirements of the Agreement. (See § 883.316.) Housing continues to be Decent, Safe, and Sanitary if it is being maintained in a condition substantially the same as that on completion, in all pertinent respects, including the following:

(a) Condition of the exterior (including the grounds) and the interior of the structure of the housing unit;

(b) Operating condition of sanitary facilities and of solid and liquid waste disposal facilities;

(c) Operating condition of kitchen facilities, including range and refrigerator, sink, and space for storage of food and for storage of utensils and dishes;

(d) Operating condition of heating, lighting and ventilating equipment and/or other facilities; and

(e) Size, number of rooms, and furnishability in relation to the size and type of Family in occupancy in accordance with any applicable State or local codes.

Eligible Family ("Family"). A Family which qualifies as a Lower-Income Family and which meets the other requirements of the Act and this Part. The term Family includes an elderly, handicapped, disabled, or displaced person and the remaining member of a tenant family as defined in section 3(2) of the Act. A Family's eligibility for housing assistance payments continues until the Gross Family Contribution equals the Gross Rent for the dwelling unit it occupies, but the termination of eligibility at such point shall not affect the family's other rights under its Lease nor shall such termination preclude resumption of payments as a result of subsequent changes in Income or other relevant circumstances during the term of the Contract.

Fair Market Rent. (a) The rent, including utilities (except telephone), ranges and refrigerators, parking, and all maintenance, management and other services, which, as determined at least annually by HUD, would be required to be paid in order to obtain privately developed and owned, newly constructed rental housing of modest (non-luxury) nature with suitable amenities and sound architectural design meeting the objectives of the HUD Minimum Property Standards.

(b) Separate Fair Market Rents will be established for dwelling units by various sizes (number of bedrooms) and types (e.g., elevator, row, detached, mobile homes; housing designed for the elderly or handicapped shall be a separate type for this purpose).

(c) The Fair Market Rents will be published in the Federal Register, and, in order to allow for the period of construction, computation of the published Fair Market Rents will include HUD's estimate of anticipated rent increases during an appropriate future period as stated in the publication. Accordingly, for any given project for which the scheduled construction time will be less than such future period, an appropriate reduction will be made in determining the approvable Contract Rent.

(d) The Fair Market Rent, minus the amount of any applicable Allowance for Utilities and Other Services payable directly by the Family, shall be the maximum amount that can be approved as the Contract Rent, except that the maximum approvable amount may be lower as stated in paragraph (c) of this definition and may be higher or lower as provided in § 883.205.

Financing Cost Contingency. The contingency included in the ACC pursuant to § 883.203.

Gross Family Contribution. The portion of the Gross Rent payable by an Eligible Family, i.e., the difference between the amount of the housing assistance payment payable on behalf of the Family and the Gross Rent.

Gross Rent. The Contract Rent plus any Allowance for Utilities and Other Services.

HCD Act. The Housing and Community Development Act of 1974.

Housing Assistance Payments Contract ("Contract"). A written contract between the Owner and the HFA, approved by HUD, for the purpose of providing housing assistance payments to the Owner on behalf of Eligible Families. (See Appendix III.)

Housing Finance Agency ("HFA"). A Participating Agency which provides permanent financing (as defined in § 883.102(c)) without Federal mortgage insurance for newly constructed or substantially rehabilitated housing.

Housing Assistance Payment on Behalf of Eligible Family. The amount of housing assistance payment on behalf of an Eligible Family determined in accordance with schedules and criteria established by HUD. (See § 883.214.)

HUD. The Department of Housing and Urban Development or its designee.

Income. Income from all sources of each member of the household as determined in accordance with criteria established by HUD.

Lease. A written agreement between an Owner and an Eligible Family for the leasing of a Decent, Safe, and Sanitary dwelling unit in accordance with the applicable Contract, which agreement is in compliance with the provisions of this Part.

Local Housing Assistance Plan. A housing assistance plan submitted by a unit of general local government and approved by HUD under section 104 of the HCD Act or, in the case of a unit of general local government not participating under Title I of the HCD Act, a housing plan which contains the elements set forth in section 104(a)(4) of the HCD Act and which is approved by the Secretary as meeting the requirements of section 213 of that Act.

Lower-Income Family. A family whose Income does not exceed 80 percent of the median Income for the area as determined by HUD with adjustments for smaller or larger families, except that HUD may establish Income limits higher or lower than 80 percent on the basis of its findings that such variations are necessary because of the prevailing levels of construction costs, unusually high or low Incomes, or other factors.

Minimum Property Standards. HUD Minimum Property Standards or standards which the Secretary finds are equivalent to or exceed such HUD standards.

New Communities. New community developments approved under Title IV of the Housing and Urban Development Act of 1968 and Title VII of the Housing and Urban Development Act of 1970.

New Construction. Newly constructed housing for which, prior to the start of construction, an Agreement is executed between the Owner and the HFA. However, housing already under construction may be eligible for participation if all subsequent actions are in compliance with this Part and if the HFA certifies that:

(a) At the date of application to HUD, a substantial amount of construction (generally at least 25 percent) remains to be completed; and

(b) At the date of application to HUD, the project cannot be completed without a commitment for assistance under this Part; and

(c) At the time construction was initiated, all the parties reasonably expected that the project would be completed without assistance under this Part; provided, however, that this condition (c) shall not apply to a project if the HFA submits a Proposal to HUD not later than June 30, 1975, with respect to that project, together with a certification that the Agency's commitment to provide the permanent financing for the project was on the condition that all or a substantial number of units would be for occupancy by low income families with Federal housing assistance.

Owner. Any private person or entity, including a cooperative, or a PHA, having the legal right to lease or sublease newly constructed dwelling units.

Participating Agency ("Agency"). An agency which has been notified by HUD in accordance with § 883.103 that it is qualified to participate under this Part.

Project Account. The account established and maintained in accordance with § 883.203.

Proposal. A proposal to provide newly constructed or substantially rehabilitated housing submitted by the HFA to HUD pursuant to § 883.309.

Public Housing Agency ("PHA"). Any State, county, municipality, or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of housing for low-income families.

Secretary. The Secretary of Housing and Urban Development.

Spread. The difference between the net interest cost on HFA obligations issued in connection with a project and the effective rate of interest (i.e., including the servicing charge) payable by the Owner.

Substantial Rehabilitation. (a) The improvement, in accordance with HUD requirements, of a property to Decent, Safe, and Sanitary condition from a condition requiring more than routine or minor repairs or improvements of such extent as to necessitate execution of an Agreement prior to the performance of the work. Substantial Rehabilitation may vary in degree from gutting and extensive reconstruction to cosmetic improvements coupled with cure of substantial accumulation of deferred maintenance. Cosmetic improvements alone do not qualify as Substantial Rehabilitation under this definition.

V 40 173 APR 15 75 5 XUM

(b) Substantial Rehabilitation also includes renovation, alteration or remodeling for the conversion or adaptation of structurally sound property to the design and condition required for use under this Part (e.g., conversion of a hotel to housing for the elderly).

Substantially Rehabilitated. "Substantially Rehabilitated" housing shall mean housing requiring Substantial Rehabilitation for which, prior to the start of rehabilitation, an Agreement is executed between the Owner and the HFA. However, housing already undergoing rehabilitation may be eligible for participation if all subsequent actions are in compliance with this Part and if the HFA certifies that:

(a) At the date of application to HUD, a substantial amount of rehabilitation (generally at least 25 percent) remains to be completed; and

(b) At the date of application to HUD, the project cannot be completed without commitment for assistance under this Part; and

(c) At the time rehabilitation was initiated, all of the parties reasonably expected that the project would be completed without assistance under this Part; provided, however, that this condition (c) shall not apply to a project if the HFA submits a Proposal to HUD not later than June 30, 1975, with respect to that project, together with a certification that the Agency's commitment to provide the permanent financing for the project was on the condition that all or a substantial number of units would be for occupancy by low income families with Federal housing assistance.

Very Low-Income Family. A family whose Income does not exceed 50 percent of the median Income for the area, as determined by HUD, with adjustments for smaller or larger families.

§ 883.203 Maximum total ACC commitment and project account.

(a) *Maximum Total ACC Commitment.* The maximum total annual contribution that may be contracted for in the ACC for a project shall be the total of the Gross Rents for all the Contract units in the project, plus a Financing Cost Contingency (if the HFA is using its set-aside for the project) for possible increases in Contract Rents resulting from higher financing costs, pursuant to § 883.205(c)(2).

(b) *Project Account.* In order to assure that housing assistance payments will be increased on a timely basis to cover increases in Contract Rents or decreases in Family Income:

(1) A Project Account shall be established and maintained, in an amount as determined by the Secretary consistent with his responsibilities under section 8(c)(6) of the Act, out of amounts by which the maximum ACC commitment per year (exclusive of any Financing Cost Contingency) exceeds amounts paid under the ACC for any year. This account shall be established and maintained by HUD as a specifically identified and segregated account, and payment shall be made therefrom only for the purposes of (i) housing assistance payments, and (ii) other costs specifically authorized or approved by the Secretary.

(2) Whenever the HUD-approved Estimate of Required Annual Contributions (see § 883.314) exceeds the maximum ACC commitment then in effect (exclusive of any Financing Cost Contingency), and would cause the amount in the Project Account to be less than an amount equal to 40 percent of such maximum ACC commitment, HUD shall, within a reasonable period of time, take such additional steps authorized by section 8(c)(6) of the Act as may be necessary to carry out this assurance, including (as provided in that section of the Act) "the reservation of annual contributions authority for the purpose of amending housing assistance contracts or the allocation of a portion of new authorizations for the purpose of amending housing assistance contracts."

§ 883.204 Housing assistance payments to owners.

(a) *General.* Housing assistance payments shall be made to Owners for units under lease by Eligible Families, in accordance with the Contract and as provided in this section. These housing assistance payments will cover the difference between the Contract Rent and that portion of said rent payable by the Family as determined in accordance with the HUD-established schedules and criteria. No section 8 assistance may be provided for any unit occupied by an Owner; however, cooperatives are considered rental housing rather than owner-occupied housing for this purpose.

(b) *Vacancies During Rent-up.* If a Contract unit is not leased as of the effective date of the Contract, the Owner shall be entitled to housing assistance payments in the amount of 80 percent of the Contract Rent for the unit for a vacancy period not exceeding 60 days from the effective date of the Contract, in accordance with the procedure set forth in § 883.217(b), provided that the Owner (1) commenced marketing and otherwise complied with § 883.315(e), (2) has taken and continues to take all feasible actions to fill the vacancy, including, but not limited to, contacting applicants on his waiting list, if any, requesting the HFA and other appropriate sources to refer eligible applicants, and advertising the availability of the unit, and (3) has not rejected any eligible applicant, except for good cause acceptable to the HFA.

(c) *Vacancies After Rent-up.* (1) If an Eligible Family vacates its unit (other than as a result of action by the Owner which is in violation of the Lease or the Contract or any applicable law), the Owner shall receive housing assistance payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days; provided, however, that if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, results in more than the Contract Rent, such excess shall be payable to HUD or as HUD may direct. (See also § 883.212.) The Owner shall not be entitled to any payment under this paragraph (c)(1) unless he: (i) immediately upon learning of the vacancy, has notified the HFA of the vacancy or prospective vacancy and the reasons for the vacancy, and (ii) has taken and continues to take the actions specified in paragraphs (b)(2) and (b)(3) of this section.

(2) If the Owner evicts an Eligible Family, he shall not be entitled to any payment under paragraph (c)(1) of this section unless the request for such payment is supported by a certification that (i) he gave such Family a written notice of the proposed eviction, stating the grounds and advising the Family that it had 10 days within which to present its objections to the Owner in writing or in person and (ii) the proposed eviction was not in violation of the Lease or the Contract or any applicable law.

(d) *Prohibition of Double Compensation for Vacancies.* The Owner shall not be entitled to housing assistance payments with respect to vacant units under this section to the extent he is entitled to payments from other sources (for example, payments for losses of rental income incurred for holding units vacant for relocatees pursuant to Title I of the HCD Act or payments under § 883.212).

(e) *Recoupment of Savings in Financing Cost.* (1) In the event that the interim financing is continued beyond one year from the effective date of the Contract and the interest cost of the interim financing for any period of three months, after such first year, is less than the anticipated debt service under the permanent financing on which the Contract rents were based (see § 883.205(b)(2)), an appropriate amount reflecting the savings in financing cost shall be credited by HUD to the Project Account pursuant to § 883.203, and withheld from housing assistance payments to the Owner. If during the course of the same year there is any period of three months in which the financing cost is greater than the anticipated debt service under the permanent financing, an adjustment shall be made so that only the net amount of savings in financing cost for the year is credited by HUD to the Project Account and withheld by the HFA from the Owner as aforesaid (no increased payments shall be made to the Owner on account of any net excess for the year of actual interim financing cost over the anticipated debt service under the permanent financing). Nothing in this paragraph (e) shall be construed as requiring a reduction in the Contract Rents or precluding adjustments of Contract Rents in accordance with § 883.207.

(2) The computation and recoupment under this paragraph (e) may be made on an annual or on a quarterly or other periodic basis, but in any event no later than as of the end of each fiscal year; provided, however, that if recoupment is to be made less often than quarterly, the amounts of recoupment shall be computed on at least a quarterly basis and the funds deposited in a special account

from which withdrawals may be made only with the authorization of the HFA.

§ 883.205 Contract rents.

(a) *Fair Market Rent Limitation.* The sum of the initial Contract Rents and any Allowances for Utilities and Other Services shall not exceed the Fair Market Rents for newly constructed rental housing, except that they may be exceeded: (1) by up to 10 percent if the field office director determines that special circumstances warrant such higher rents and the higher rents are determined by HUD to be reasonable in relation to the quality, location, amenities, method, and terms of financing, and management and maintenance services of the project, or (2) by up to 20 percent, where the Assistant Secretary for Housing Production and Mortgage Credit determines that special circumstances warrant such higher rents or determines that such higher rents are necessary to the implementation of a Local Housing Assistance Plan, and that such higher rents meet the test of reasonableness in clause (1) of this paragraph (a).

(b) *HFA Certifications as to Reasonableness of Rents and as to Financing.* (1) The HFA shall certify to HUD that the Contract Rents as proposed have been determined to be reasonable in relation to the rents for comparable units, taking into account the quality, location, amenities, and management and maintenance services of the project and that the Contract Rents reflect the savings, if any, from the reduced costs of tax-exempt financing or abatement of real property taxes, together with a specific explanation of how the Contract Rents reflect such savings and the amount thereof.

(2) The HFA shall also submit a certification specifying (i) its projected rate (net interest costs) of the borrowing from which funds will be used for financing (interim and permanent) the project, (ii) the projected rate at which interim financing will be provided to the Owner for the project, (iii) the projected capital cost of the project and the projected rate and the term of the permanent financing to be provided to the Owner for the project, (iv) the projected monthly debt service for such permanent financing on which the Contract Rents are based, and (v) the spread, if any, between the projected rate of borrowing and the projected rate of lending to the Owner. The HFA shall also certify (vi) that the spread, if any, between its actual rate of borrowing and the actual rate of lending to the Owner for the project will not be greater than the projected spread nor greater than the spread allowed for the borrowing as a whole under the Department of Treasury regulations regarding arbitrage, and (vii) that the terms of the financing, the amount of the obligations issued with respect to the project, and the use of the funds raised will be in compliance with applicable Department of Treasury regulations regarding arbitrage.

(c) *Adjustments to Reflect Actual Cost of Permanent Financing.* After the project is permanently financed, the HFA shall submit a certification as to the actual financing terms, and the following provisions shall apply (see also alternative provision in the Agreement for adjustment where permanent financing alone, rather than a combination of interim and permanent financing, is utilized):

(1) If the actual debt service under the permanent financing is lower than the anticipated debt service on which the Contract Rents were based, the initial Contract Rents, or the Contract Rents currently in effect, shall be reduced commensurately, and the amount of the savings shall be credited to the Project Account. The maximum ACC commitment shall not be reduced except by the amount of the contingency, if any, which was included for possible increases under paragraph (c)(2) of this section.

(2) If the actual debt service under the permanent financing is higher than the anticipated debt service on which the Contract Rents were based, and the HFA is using its set-aside for the project, the initial Contract Rents, or the Contract Rents currently in effect, shall be increased commensurately, not to exceed the limitations in this paragraph (c)(2) and the amount of the Financing Cost Contingency in the ACC pursuant to § 883.203(a), if the projected borrowing rate (net interest cost) was not less than the average net interest cost for the preceding quarter (at the time the projection was submitted to HUD in accordance with paragraph (b)(2) of this section) of the "20 Bond Index" published weekly in the *Bond Buyer*, plus 50 basis points. An adjustment under this paragraph (c)(2) shall not be more than is necessary to reflect an increase in debt service (based upon the original projected capital cost and the actual term of the permanent financing for the project) resulting from an increase in interest rate of not more than:

(i) One and one-half percent if the projected spread (see paragraph (b)(2) of this section) was three-fourths of one percent or less, or

(ii) One percent if such projected spread was more than three-fourths of one percent but not more than one percent, or

(iii) One-half of one percent if such projected spread was more than one percent.

(3) After Contract Rents have been adjusted in accordance with paragraph (c)(1) or (c)(2) of this section, the maximum amount of the ACC commitment shall be reduced by the amount of any unused portion of the Financing Cost Contingency referred to in § 883.203, and such portion shall be reallocated to the then current set-aside of the HFA, if any. At the same time, if the Contract Rents have been increased in accordance with paragraph (c)(2) of this section, the maximum Contract amount shall be increased commensurately.

§ 883.206 Term of Housing Assistance Payments Contract.

(a) *New Construction Projects (other than Mobile Homes).* The Contract may be for an initial term of not more than five years for any dwelling unit, with provision for automatic renewal (unless agreed otherwise) for additional terms of not more than five years each. Since the Contract under which housing assistance payments are made concerns a project financed by a loan or loan guarantee from a State agency, the total Contract term may be equal to the term of the HFA financing, not to exceed 40 years for any dwelling unit.

(b) *New Construction Projects—Mobile Homes.* The Contract may be for an initial term of not more than five years for any mobile home, subject to renewal for additional terms of not more than five years each, as may be mutually agreed upon by the Owner and the HFA with the approval of HUD; provided that the total Contract term for any mobile home shall not exceed 20 years, or such shorter term as HUD may establish, taking into account the amount of the capital expenditures required for the project, the period and rate of amortization for the financing, and the approved rents to the Owner. For purposes of this paragraph (b), the term "mobile home" means the original home and any replacement(s), combined.

(c) *Substantial Rehabilitation Projects.* (1) Where the relative cost of the rehabilitation is less than 15 percent of the value of the project after completion of the rehabilitation, the Contract shall be for one term of not more than five years for any dwelling unit.

(2) Where the relative cost of the rehabilitation is 15 percent or more, the Contract may be for an initial term of not more than five years for any dwelling unit, with provision for automatic renewal (unless agreed otherwise) for additional terms of not more than five years each, for a total Contract term which will cover the financing of the cost of rehabilitation, or the remaining term of the existing indebtedness, if that be longer, or which will cover the financing of the cost of the rehabilitation and of acquisition or refinancing of the existing indebtedness; provided, however, that the total Contract term, including renewals, for any dwelling unit shall not exceed 40 years.

(d) If any project is completed in stages, the dates for the initial and the renewal terms shall be separately related to the units in each stage; provided, however, that the total Contract term for the units in all the stages, beginning with the effective date of the Contract with respect to the first stage, may not exceed the overall maximum term allowable for any one unit, plus two years.

§ 883.207 Rent adjustments.

(a) *Funding of Adjustments.* Housing assistance payments will be made in increased amounts commensurate with Contract Rent adjustments under this paragraph, up to the maximum amount

V 40 173 APR 15 75 XUM

authorized under the ACC and the Contract, exclusive of the Financing Cost Contingency (see § 883.203).

(b) *Automatic Annual Adjustments.* (1) Automatic Annual Adjustment Factors will be determined by HUD at least annually; interim revisions may be made as market conditions warrant. Such Factors and the basis for their determination will be published in the Federal Register. These published Factors will be reduced appropriately by HUD where utilities are paid directly by Families.

(2) On each anniversary date of the Contract, the Contract Rents shall be adjusted by applying the applicable Automatic Annual Adjustment Factor most recently published by HUD. Contract Rents may be adjusted upward or downward, as may be appropriate; however, in no case shall the adjusted rents be less than the Contract Rents on the effective date of the Contract.

(c) *Special Additional Adjustments.* Special additional adjustments may be granted, when approved by HUD, to reflect increases in the actual and necessary expenses of owning and maintaining the Contract units which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner or the HFA clearly demonstrates that such general increases have caused increases in the Owner's operating costs which are not adequately compensated for by automatic annual adjustments. The Owner or the HFA shall submit to HUD financial statements which clearly support the increase.

(d) *Overall Limitation.* Notwithstanding any other provisions of this Part, adjustments as provided in this section shall not result in material differences between the rents charged for assisted and comparable unassisted units, as determined by the HFA (and approved by HUD, in the case of adjustments under paragraph (c) of this section).

§ 883.208 Types of Housing and Property Standards.

(a) *New Construction.* (1) Newly constructed single-family homes, mobile homes and multifamily structures may be utilized in this program. Congregate housing may be developed for elderly, disabled, or handicapped Families and individuals. Single room occupant housing planned specifically as a relocation resource for eligible single persons may also be developed. High-rise elevator projects for Families with children may not be utilized unless HUD determines there is no practical alternative.

(2) Participation in this program requires compliance with (i) Minimum Property Standards, (ii) in the case of mobile homes, the American National Standards Institute Standard No. A–119.1 or applicable State standards, in accordance with applicable HUD regulations as to certification and standards issued pursuant to Title I of the National Housing Act, 24 CFR 201.520–1, (iii) in the case of congregate or single room occupant housing, the appropriate HUD guidelines and standards, (iv) HUD requirements pursuant to section 209 of the HCD Act for projects for the elderly or the handicapped, (v) HUD requirements pertaining to noise abatement and control, and (vi) applicable State and local laws, codes, ordinances, and regulations.

(b) *Substantial Rehabilitation.* (1) Existing structures of various types may be appropriate for this program including apartment hotels, single-family houses, and multifamily structures. Hotels or office buildings may be suitable for conversion under this program to housing designed for elderly or handicapped families and individuals, including congregate housing. Single room occupant housing planned specifically as a relocation resource for eligible single persons may also be developed. Units in high-rise elevator buildings may not be used for Families with children unless HUD determines there is no practical alternative. Mobile homes may not be utilized in this program.

(2) Participation in this program requires compliance with (i) HUD Minimum Design Standards for Rehabilitation for Residential Properties, (ii) in the case of congregate or single room occupant housing, the appropriate HUD guidelines and standards, (iii) HUD requirements pursuant to section 209 of the HCD Act for projects for the elderly or the handicapped, (iv) HUD requirements pertaining to noise abatement and control, (v) HUD regulations issued pursuant to the Lead Based Paint Poisoning Prevention Act, 42 USC 4801, and (vi) applicable State and local laws, codes, ordinances, and regulations.

§ 883.209 Site and Neighborhood Standards.

Proposed sites must meet the standards in this section.

(a) *New Construction or Substantial Rehabilitation Projects.* (1) Adequate utilities (water, sewer, gas and electricity) and streets shall be available to service the site.

(2) The site and neighborhood shall be suitable from the standpoint of facilitating and furthering full compliance with the applicable provisions of Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Order 11063, and HUD regulations issued pursuant thereto.

(3) The site shall promote greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons.

(4) The site shall be free from serious, adverse environmental conditions, or there shall be evidence that any such conditions will be corrected by the time the housing is completed. (For new construction projects, see paragraph (b)(3) of this section.)

(5) The site shall comply with any applicable conditions in any HUD-approved Local Housing Assistance Plan, if applicable under the provisions of § 883.304(a).

(6) The housing shall be accessible to social, recreational, educational, commercial, and health facilities and services, and other municipal facilities and services that are at least equivalent to those typically found in neighborhoods consisting largely of unsubsidized, standard housing of similar market rents.

(7) Travel time and cost via public transportation or private automobile, from the neighborhood to places of employment providing a range of jobs for lower-income workers, shall not be excessive. (While it is important that elderly housing not be totally isolated from employment opportunities, this requirement need not be adhered to rigidly for such projects.)

(8) The project may not be on a site which has occupants unless the relocation requirements referred to in Sec. 883.210 are met.

(9) The project may not be in an area that has been identified by HUD as having special flood hazards and in which the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, unless the project is covered by flood insurance as required by the Flood Disaster Protection Act of 1973, and it meets any relevant HUD standards and local requirements.

(b) *New Construction Projects Only.* (1) The site shall be adequate in size, exposure and contour to accommodate the number and type of units proposed.

(2) The site shall not be located in:

(i) An area of minority concentration unless (A) sufficient, comparable opportunities exist for housing for minority families, in the income range to be served by the proposed project, outside areas of minority concentration, or (B) the project is necessary to meet overriding housing needs which cannot otherwise feasibly be met in that housing market area. (An "overriding need" may not serve as the basis for determining that a site is acceptable if the only reason the need cannot otherwise feasibly be met is that discrimination on the basis of race, color, religion, creed, sex, or national origin renders sites outside areas of minority concentration unavailable.)

(ii) A racially mixed area if the project will cause a significant increase in the proportion of minority to non-minority residents in the area.

(3) The site shall be free from adverse environmental conditions, natural or manmade, such as instability, flooding, septic tank back-ups, sewage hazards, or mudslides; harmful air pollution, smoke or dust; excessive noise, vibration or vehicular traffic; rodent or vermin infestation; or fire hazards. The neighborhood must not be one which is seriously detrimental to family life or in which substandard dwellings or other undesirable elements predominate, unless there is actively in progress a concerted program to remedy the undesirable conditions.

§ 883.210 Relocation.

(a) In the evaluation of Proposals, consideration shall be given to whether

there are site occupants who would have to be displaced, whether there is a feasible plan for relocation of site occupants, the degree of hardship which displacement might cause, and the availability of funding for relocation payments and assistance.

(b) In the case of a project owned by a PHA, no Agreement shall be executed for housing which is to be constructed or rehabilitated on a site which has occupants unless the Agreement provides that, pursuant to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, the PHA undertakes liability for (1) the provision of relocation payments and assistance as prescribed in sections 202, 203, and 204 of that Act; (2) the provision of relocation assistance programs offering the services described in section 205 of that Act; and (3) assuring that within a reasonable period of time prior to displacement, Decent, Safe, and Sanitary replacement dwellings will be available to displaced persons. The Agreement shall provide that the PHA will provide full funding for the required relocation payments and assistance unless other commitments, satisfactory to HUD, have been made for the funding of such payments and assistance. (In the case of a privately owned project, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 is inapplicable.)

§ 883.211 Use of Contract as security for financing.

(a) An Owner or HFA may pledge, or offer as security for any loan or obligation, an Agreement or Contract entered into pursuant to this Part, and an HFA may pledge ACC payments as security for housing assistance payments pursuant to the Contract; provided, however, that such security is in connection with a project constructed or rehabilitated pursuant to this Part, the terms of the financing or any refinancing have been approved by HUD in accordance with § 883.109, and the HFA has submitted a certification that the terms and conditions of the financing for the particular project are consistent with those specified in the documents which were approved by HUD. Any such pledge shall be limited to the amounts payable under the Contract or ACC in accordance with its terms.

(b) In the event of foreclosure, or assignment or sale to the HFA (or mortgagee if the HFA is not the mortgagee) in lieu of foreclosure, or in the event of assignment or sale agreed to by the HFA (or mortgagee if the HFA is not the mortgagee) and approved by HUD (which approval shall not be unreasonably delayed or withheld), housing assistance payments shall continue in accordance with the terms of the Contract.

§ 883.212 Security and utility deposits.

(a) An Owner may require Families to pay a security deposit in an amount equal to one month's Gross Family Contribution. If a Family vacates its unit, the Owner, subject to State and local law, may utilize the deposit as reimbursement for any unpaid rent or other amount owed under the Lease. If the Family has provided a security deposit, and it is insufficient for such reimbursement, the Owner may claim reimbursement from the HFA not to exceed an amount equal to the remainder of one month's Contract Rent. Any reimbursement under this section shall be applied first toward any unpaid rent. If a Family vacates its unit owing no rent or other amount under the Lease or if the amount owed is less than the amount of the security deposit, the Owner shall refund the full amount or the unused balance, as the case may be, to the Family.

(b) In those jurisdictions where interest is payable by the Owner on security deposits, the refunded amount shall include the amount of interest payable. All security deposit funds shall be deposited by the Owner in a segregated bank account, and the balance of this account, at all times, shall be equal to the total amount collected from tenants then in occupancy, plus any accrued interest. The Owner shall comply with all State and local laws regarding interest payments on security deposits.

(c) Families shall be expected to obtain the funds to pay security and utility deposits, if required, from their own resources and/or other private or public sources.

§ 883.213 Establishment of income limit schedules; 30 percent occupancy by very low-income families.

(a) HUD will establish schedules of Income limits for determining whether families qualify as Lower-Income Families and Very Low-Income Families.

(b) At least 30 percent of all Contract units developed under each annual set-aside of an HFA shall, in the initial rent-up, be leased to Very Low-Income Families, and thereafter best efforts shall be exercised to maintain at least 30 percent occupancy of Contract units by Very Low-Income Families. The HFA shall incorporate suitable provisions in each Contract to assure achievement of these results.

§ 883.214 Establishment of amount of housing assistance payments.

The amount of Housing Assistance Payment on Behalf of Eligible Family, to be determined in accordance with schedules and criteria established by HUD, will equal the difference between (a) no less than 15 percent nor more than 25 percent of the Family's Income and (b) the Gross Rent, taking into consideration the Income of the Family, the number of minor children in the household, and the extent of medical or other unusual expenses incurred by the Family, except that, in the case of a large Very Low-Income Family or a very large Lower-Income Family or a Family with exceptional medical or other unusual expenses, the amount of the housing assistance payment shall be the difference between 15 percent of the Family's Income and the Gross Rent. The term large Family means a Family which includes six or more minors (other than the head of the Family or spouse). The term very large Family means a Family which includes eight or more minors (other than the head of the Family or spouse).

§ 883.215 Responsibilities of the owner.

(a) The Owner shall be responsible (subject to supervision and audit by the HFA and HUD's rights under § 883.302) for management and maintenance of the project. These responsibilities shall include but not be limited to:

(1) Payment for utilities and services (unless paid directly by the Family), insurance and taxes;

(2) Performance of all ordinary and extraordinary maintenance;

(3) Performance of all management functions including the taking of applications, selection of Families including verification of Income and other pertinent requirements, and determination of eligibility and amount of Gross Family Contribution in accordance with HUD-established schedules and criteria;

(4) Collection of Family rents;

(5) Termination of tenancies, including evictions;

(6) Preparation and furnishing of information required under the Contract;

(7) Reexaminations of Family Income, composition, and extent of exceptional medical or other unusual expenses, and redeterminations, as appropriate, of the amount of Gross Family Contribution and amount of housing assistance payment in accordance with HUD-established schedules and criteria;

(8) Redeterminations of amount of Gross Family Contribution and amount of housing assistance payment in accordance with HUD-established schedules and criteria as a result of an adjustment by the HFA of any applicable Allowance for Utilities and Other Services; and

(9) Compliance with equal opportunity requirements.

(b) Subject to HFA approval, any private Owner may contract with any private or public entity to perform for a fee the services required by paragraph (a) of this section, provided that such contract shall not shift any of the Owner's responsibilities or obligations. However, no entity which is responsible for administration of the Contract may contract to perform management and maintenance of the project; provided, however, that this prohibition shall not preclude management by the HFA in the event it takes possession as the result of foreclosure or assignment in lieu of foreclosure.

§ 883.216 Separate project requirement.

A project may not include more than one type of section 8 assistance, shall be processed with a separate ACC List and ACC Part I and shall be assigned a separate project number. All units to be placed under a single Contract shall comprise a separate project. However, the field office director may, with the concurrence of the HFA, designate as a single project the units to be covered by

V 40 173 APR 15 75 XUM

two or more such Contracts (provided that new construction and substantial rehabilitation units are not combined in the same project) where:

(a) The units are placed under ACC on the same date; and

(b) Such consolidation is necessary in the interest of administrative efficiency.

Subpart C—Program Development—New Construction and Substantial Rehabilitation Programs

§ 883.301 Applicability of Subpart C.

(a) *Projects to Which Subpart C Applies.* The provisions of this Subpart apply only to newly constructed or substantially rehabilitated projects for which a Participating Agency provides permanent financing without Federal mortgage insurance. Except as provided in § 883.106, such projects shall not be subject to the provisions of the regulations for the section 8 Housing Assistance Payments Program—New Construction, 24 CFR Part 880 (herein referred to as the "New Construction Regulations") or to the section 8 Housing Assistance Payments Program—Substantial Rehabilitation, 24 CFR Part 881 (herein referred to as the "Substantial Rehabilitation Regulations").

(b) *Projects Utilizing Federal Mortgage Insurance.* The provisions of this Subpart shall not apply to those projects for which an Agency provides permanent financing but relies on Federal mortgage insurance. Such projects are subject to the policies and procedures set forth in the New Construction or Substantial Rehabilitation Regulations.

(c) *Projects Owned by HFA.* The provisions of this Subpart shall not apply to projects owned by an HFA. Such projects are subject to the policies and procedures set forth in the New Construction or Substantial Rehabilitation Regulations.

§ 883.302 General responsibilities of the HFA and relationships to HUD.

(a) *General Responsibilities and Relationships.* Subject to audit and review by HUD to assure compliance with Federal requirements and objectives, HFAs shall assume responsibility for project development and for supervision of the development, management and maintenance functions of Owners.

(b) *HFA Certifications and HUD Review.* Generally, in reviewing any HFA certification required by this Part, HUD shall accept the certification as correct. However, if HUD has substantial reason to question the correctness of any element, HUD shall promptly bring the matter to the attention of the HFA and ask that the HFA review its findings. After such review, HUD will act in accordance with the judgment or evaluation of the HFA unless HUD determines that the certification is not supported by the evidence.

(c) *Defaults by HFA and/or Owner.* (1) The ACC and the Contract shall contain a provision to the effect that in the event of failure of the HFA to comply with the Contract with the Owner, the Owner shall have the right, if he is not in default, to demand that HUD determine, after notice to the HFA giving it a reasonable opportunity to take corrective action, whether a substantial default exists, and if HUD determines that such a default exists, that HUD assume the HFA's rights and obligations under the Contract and carry out the obligations of the HFA to the Owner.

(2) The ACC shall contain a provision to the effect that if the HFA fails to comply with any of its obligations (including specifically failure to enforce its rights under the Contract, in the event of any default by the Owner, to achieve compliance to the satisfaction of HUD or to terminate the Contract in whole or in part, as directed by HUD), HUD may, after notice to the HFA giving it a reasonable opportunity to take corrective action, determine that there is a substantial default and require the HFA to assign to HUD all of the HFA's rights and interests under the Contract. In such case, HUD will continue to pay annual contributions in accordance with the terms of the ACC and the Contract.

(3) The Contract shall contain a provision to the effect (i) that if the HFA determines that the Owner is in default under the Contract, the HFA shall notify the Owner, with a copy to HUD, of the actions required to be taken to cure the default and of the remedies to be applied by the HFA, including abatement of housing assistance payments and recovery of overpayments, where appropriate; and (ii) that if he fails to cure the default, the HFA has the right to terminate the Contract or to take other corrective action, in its discretion or as directed by HUD. The Contract shall also provide that HUD has an independent right to determine whether the Owner is in default and to take corrective action and apply appropriate remedies, except that HUD shall not have the right to terminate the Contract without proceeding in accordance with paragraph (c)(2) of this section.

§ 883.303 Compliance with Federal requirements.

(a) *Equal Opportunity.* All participants under this Part shall comply with (1) Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Orders 11063 and 11246, and section 3 of the Housing and Urban Development Act of 1968; and (2) all rules, regulations, and requirements issued pursuant thereto.

(b) *National Environmental Policy Act.* All participants under this Part must comply with the National Environmental Policy Act and all rules, regulations, and requirements issued pursuant thereto.

(c) *Clean Air Act and Federal Water Pollution Control Act.* Participation in this program requires compliance with the Clean Air Act and the Federal Water Pollution Control Act and all rules, regulations, and requirements issued pursuant thereto.

(d) *Davis-Bacon Wage Rates.* Not less than the wages prevailing in the locality, as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act (49 Stat. 1011), shall be paid to all laborers and mechanics employed in the development of any project with nine or more assisted units.

§ 883.304 Applicability of section 213 of HCD Act; justification for new construction or substantial rehabilitation.

(a) An application for housing to be newly constructed or substantially rehabilitated under this Subpart is exempt from the provisions of section 213(a) of the HCD Act unless the unit of general local government in which the assistance is to be provided objects in its Local Housing Assistance Plan to the exemption. In the latter case or where there is no Local Housing Assistance Plan, no application for housing may be approved by HUD unless HUD requirements implementing the provisions of section 213 of the HCD Act have been satisfied.

(b) New construction or substantial rehabilitation projects shall be permitted only where (1) there is not and there is not likely soon to be an adequate supply of existing housing which, with the aid of housing assistance payments provided under the Section 8 Housing Assistance Payments Program—Existing Housing, can meet the needs of Eligible Families, or (2) the proposed project is specifically approved by HUD in accordance with priorities established from time to time by the Secretary including priorities for New Communities.

§ 883.305 Submission of application.

Where an HFA intends to use a portion of its set-aside under this Subpart, a separate Application on the prescribed HUD form shall be submitted by the HFA to the HUD field office for each project. Such application shall be accompanied by certifications that:

(a) The HFA has made a public announcement that it has been allocated a set-aside, in accordance with § 883.104(c);

(b) After taking into account any approved Local Housing Assistance Plan, the HFA has determined that the provisions of § 883.304(b) have been satisfied;

(c) Based upon an HFDA or HFDA approved housing needs study, there is need for housing assistance for the number and size of units applied for; and

(d) The proposed project complements the allocation program of the HUD field office

§ 883.306 HUD review and approval of application.

(a) *Review of Application.* Applications from HFAs shall be processed as received. Based on the policies set forth in § 883.302, HUD shall review an Application submitted by an HFA to determine whether or not the Application contains a complete and accurate presentation of all the elements required. Notwithstanding the requirements of § 883.302, HUD shall make an independent determination that the provisions of Sec. 883.304(b) are satisfied. In addition, HUD shall take such action as is necessary to satisfy the requirements of section 213 of the HCD Act, where applicable (see § 883.304(a)). Where HUD finds that the HFA is not complying with any equal opportunity requirements, appropriate corrective action, as directed by HUD, shall be taken by the HFA before the Application is approved.

(b) *Notification to HFA.* After completion of the action, if any, necessary to satisfy the requirements of section 213 of the HCD Act, the HUD field office shall promptly complete its review and notify the HFA by letter that:

(1) The Application is approved (if the Application is approved, the HUD field office shall send the HFA a Notification of Application Approval utilizing the form provided by HUD);

(2) The Application is disapproved (if the Application is disapproved, the letter shall indicate the reasons in detail for disapproval); or

(3) The HUD field office has substantial reason to question a determination of the HFA. If the determinations of the HFA are questioned, the letter shall specify the reasons. Promptly after receipt of the HFA's response to the HUD letter, the HUD field office shall notify the HFA of approval or disapproval of the Application.

§ 883.307 Obtaining proposals.

HFAs shall establish their own procedures (by publishing invitation, negotiation, or otherwise, in accordance with applicable State and local law) for obtaining and selecting Proposals for submission to HUD pursuant to § 883.309.

§ 883.308 Simultaneous submission of application and proposal.

If the HFA is ready to submit a Proposal pursuant to § 883.309 and wishes to use a portion of its set-aside, it may submit the Proposal together with its Application pursuant to § 883.305.

§ 883.309 HFA submission of proposals.

(a) *Submission to HUD.* Proposals shall be submitted by the HFA to HUD with the certifications required by paragraph (d) of this section.

(b) *Previous Participation and A–95 Clearance.* (1) The HFA and the HUD field office shall, where feasible, develop procedures by which the previous participation review and the A–95 clearance are initiated prior to Proposal submission. (A–95 clearance does not apply in the case of substantial rehabilitation projects.) No proposal may be approved until HUD has completed its previous participation review and made the results known to the HFA and until the HUD field office has received a copy of the response from the appropriate A–95 Clearinghouse.

(2) If the HFA initiates the A–95 review, a copy of its letter of transmittal to the appropriate A–95 Clearinghouse shall be included together with its Proposal submission to HUD. The letter to the Clearinghouse shall request that copies of the response from the Clearinghouse be forwarded to the HUD field office.

(3) If special procedures as described in paragraphs (b)(1) and (b)(2) of this section are not adopted, the HUD field office shall conduct its previous participation review and/or initiate A–95 clearance in conformance with its normal procedures after the Proposal has been submitted.

(c) *Proposal Contents.* Each Proposal shall contain the following:

(1) The identity of the developer, builder, Owner and management agent, if any.

(2) A copy of the description of the proposed housing (and for substantial rehabilitation projects, a description of the proposed rehabilitation) agreed to by the HFA and the Owner (including appropriate sketches or schematic drawings).

(3) A neighborhood map showing the location(s) of the site(s) and the racial composition of the neighborhood.

(4) The anticipated date for completion of construction. If the project is to be completed in stages, identification of the units comprising each stage and the estimated dates for commencement and completion of each stage.

(5) The Contract Rents required by unit size and structure types; which utilities and services are to be included in the Contract Rent; which utilities and services, if any, are to be paid directly by the Families; the amount of the Allowance for Utilities and Other Services; and a list of the equipment to be included in the Contract Rent.

(6) In the case of a project owned by a PHA, a statement that the PHA undertakes liability for (i) the provision of relocation payments and assistance as prescribed in sections 202, 203 and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, (ii) the provision of relocation assistance programs offering the services described in section 205 of the Act; (iii) assuring that within a reasonable period of time prior to displacement, Decent, Safe, and Sanitary replacement dwellings will be available to displaced persons; and (iv) full funding of the required relocation payments and assistance unless other commitments, satisfactory to HUD, have been made for the funding of such payments and assistance. In the latter case, the PHA shall specify such other commitments. (In the case of a privately owned project, the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 is inapplicable.)

(7) Submission of an Affirmative Fair Housing Marketing Plan (if the Proposal is for five or more units), a signed assurance of compliance with Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Order 11063, and certifications required pursuant to Executive Order 11246.

(8) Submissions as required by HUD regulations and other requirements pursuant to section 3 of the Housing and Urban Development Act of 1968.

(9) The proposed term of the Contract, including all renewals, and justification for such term in accordance with § 883.206.

(d) *HFA Certifications.* The HFA shall submit, with the Proposal, the following certifications:

(1) That the developer, builder, and Owner are acceptable for purposes of meeting all the obligations of the Agreement.

(2) That the proposed site(s) meets the standards specified in §§ 883.209(a)(1), (4), (6), and (7) and 883.209(b)(1) and (3).

(3) The certifications required by Sec. 883.205(b).

(4) That the Owner and management agent, if any, are acceptable for purposes of meeting all the obligations of the Contract, including management and maintenance responsibilities.

(5) That consideration has been given to whether there are site occupants who would have to be displaced, whether there is a feasible plan for relocation of site occupants, the degree of hardship which displacement might cause, and the availability of funding for relocation payments.

(6) That the form of Lease required by the HFA to be used by the Owner will meet the requirements of § 883.319.

§ 883.310 HUD evaluation of proposals.

HUD's evaluation of Proposals submitted by HFAs shall be limited to determining whether the following requirements are satisfied:

(a) The Proposal and the HFA certifications contain all elements required in § 883.309, and the certifications are acceptable in accordance with § 883.302(b).

(b) The proposed Contract Rents plus any Allowances for Utilities and Other Services do not exceed the HUD-established fair market rents except as provided in § 883.205.

(c) The proposed site meets the site and neighborhood requirements of §§ 883.209(a)(2), (3)(5), (8) and (9) and 883.209(b)(2).

(d) The Proposal satisfies the requirements of the National Environmental Policy Act. In determining whether this requirement is met, HUD shall complete all appropriate environmental reviews as required pursuant to HUD regulations.

(e) The Proposal complies with equal opportunity requirements set forth in § 883.303(a) and the Affirmative Fair Housing Marketing Plan is approvable by HUD.

(f) The Proposal complies with such other requirements as the Secretary may from time to time prescribe.

§ 883.311 Notification of acceptability of proposal.

(a) *HUD Determination.* HUD shall notify the HFA and the Owner that the Proposal is:

(1) Approved.

(2) Approvable only if specified deficiencies are corrected and that HUD will approve the Proposal if it receives within a specified time evidence of such necessary corrections.

V 40173 APR 15 75 XUM

(3) Not approved with an indication of the reasons for disapproval.

(b) *Notification.* The appropriate A-95 Clearinghouse, and the unit of general local government (where it had previously been given an opportunity to comment on the Proposal), shall be notified by HUD of its final action.

§ 883.312 HFA's submission of acceptance of notification, certification of design and construction quality, ACC and agreement.

(a) *HFA's Acceptance.* The HFA shall indicate its acceptance of the notification of approval of the Proposal, including any terms or conditions contained in the notification, by returning to HUD a copy indicating its acceptance, together with a covering letter stating the date by which the HFA will submit the documentation specified in paragrap (b) of this section and the date when construction or rehabilitation, as appropriate, is expected to begin. This acceptance shall be furnished within the time prescribed in the notification. If the HFA does not accept the notification by the date specified, HUD may rescind the notification.

(b) *Documentation to Follow Acceptance.* The HFA shall submit to HUD, by the date specified in its acceptance of the notification pursuant to paragraph (a) of this section, the following documents:

(1) A Certification of Design and Construction Quality in accordance with paragraph (c) of this section;

(2) Four copies of the ACC, prepared by the HFA in accordance with the HUD prescribed form (see Appendix I) and executed by the HFA; and

(3) Four copies of the Agreement, prepared by the HFA in accordance with the HUD prescribed form (see Appendix II) and executed by the HFA and the Owner.

(c) *Certification of Working Drawings and Specifications.* The HFA shall submit to HUD a certification by the HFA, based upon an analysis and report by the design architect of the project or by an architect employed or engaged by the HFA, that (1) the working drawings and specifications have been completed and are consistent with the approved Proposal, and (2) the proposed construction or rehabilitation in accordance with these plans and specifications is permissible under the applicable zoning, building, housing, and other codes, ordinances or regulations as modified by any waivers obtained from the appropriate officials. This certification shall also cover compliance with the appropriate Minimum Property Standards (or the HUD Minimum Design Standards for Rehabilitation for Residential Properties) and other standards, guidelines and criteria applicable pursuant to § 883.208 (a) (2) and (b) (2), except that in the case of mobile homes the mobile homes shall be certified as being in compliance with (1) the American National Standards Institute Standard No. A-119.1 or (2) applicable State standards, in accordance with applicable HUD regulations as to certification and standards issued pursuant to Title I of the National Housing Act, 24 CFR 201.520–1.

(d) *Working Drawings and Specifications.* The HFA shall retain in its files one set of the working drawings and specifications covered by the HFA certification in accordance with paragraph (c) of this section. These drawings and specifications shall be available for examination by HUD so long as the Contract is in effect or for such shorter period of time as approved by HUD.

§ 883.313 HUD execution of Annual Contributions Contract and Agreement.

HUD shall review the Certification of Design and Construction Quality, the ACC, and the Agreement and, if found acceptable, shall execute the ACC and approve the Agreement. After execution, HUD shall return two copies of the ACC and the Agreement to the HFA, retaining two copies for its records.

§ 883.314 Submission of estimates of required annual contributions.

(a) *First Fiscal Year Submission.* Not earlier than 150 and not later than 90 days prior to the estimated date of the beginning of the first fiscal year, the HFA shall submit an Estimate of Required Annual Contributions covering the estimated amount required for the first fiscal year.

(b) *Subsequent Fiscal Year Submissions.* Not earlier than 150 and not later than 90 days prior to the beginning of each subsequent fiscal year, the HFA shall submit an Estimate of Required Annual Contributions, with supporting documentation, for any requested changes in the amount of housing assistance payments.

(c) *Revisions of Estimates.* Any of the above Estimates may be revised to reflect changes in circumstances and available data.

(d) *HUD Approval.* All Estimates of Required Annual Contributions and any revisions thereto submitted by the HFA shall be subject to HUD approval.

§ 883.315 Construction or rehabilitation period.

(a) *Timely Performance of Work.* After execution of the Agreement, the Owner shall promptly proceed with construction or rehabilitation as provided in the Agreement. In the event work is not so commenced, diligently continued, and/or completed, the HFA may rescind the Agreement, or take other appropriate action.

(b) *Delays.* Although extensions of time may be granted for the reasons specified in the Agreement, no increases in Contract Rents may be granted on that account.

(c) *Changes.* The Owner shall submit for HFA approval any changes from the approved Proposal which would materially reduce or alter his obligations or any changes which would alter the design or materially reduce the quality or amenities of the project. Approval of such changes may be conditioned on a reduction of Contract Rents. If such changes are made without prior approval by the HFA, the Owner may be required to reduce the Contract Rents or remedy the defects or deficiencies as a condition for acceptance of the project. Contract Rents may not be increased by reason of any changes or modifications except those required by changes in local codes or ordinances made subsequent to execution of the Agreement, and then only if HUD approval is obtained prior to incorporation of any such changes in the project. If any changes under this paragraph are approved by the HFA, the HFA is required to submit to HUD, at such times as it deems appropriate but not later than the certification of completion described in Sec. 883.316, a statement specifying the changes approved and either (1) a certification by the HFA that such changes do not justify a reduction of Contract Rents, or (2) a statement of the amounts by which Contract Rents were reduced and a certification that such reduction is appropriate and adequate in light of the changes approved.

(d) *Equal Opportunity Review.* Equal opportunity review may be conducted at any time deemed advisable by HUD.

(e) *Commencement of Marketing.* The Owner shall commence and diligently continue marketing as soon as possible, but in any event no later than 90 days (or 60 days in the case of substantial rehabilitation) prior to the estimated completion date. The Owner shall notify the HFA of the date of commencement of marketing. The Owner shall also comply with all reporting requirements under the Affirmative Fair Housing Marketing Regulations. Not later than 30 days prior to the estimated completion date and periodically thereafter, the Owner shall notify the HFA of any units which he anticipates will be vacant on the effective date of the Contract. At the time the Contract is executed, the Owner will be required to submit a list of the dwelling units leased as of the effective date of the Contract and a list of the units not so leased, if any. The Owner will be entitled to housing assistance payments for any unleased units, pursuant to § 883.204(b), only if he has fully complied with the requirements of that section and of this paragraph.

§ 883.316 Project completion.

(a) *Certifications Upon Completion.* Upon completion of the project, the HFA shall submit to the HUD field office the following certifications:

(1) A certification by the HFA that:

(i) The project has been completed in accordance with the requirements of the Agreement;

(ii) The project is in good and tenantable condition;

(iii) There are no defects or deficiencies in the project other than punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified);

(iv) There has been no change in evidence of management capability or in the proposed management program (if one was required) specified in the Proposal, other than changes approved in writing by the HFA in accordance with the Agreement;

(v) There has been compliance with the provisions of the Agreement relating to the payment of not less than prevailing wage rates and that to the best of the HFA's knowledge and belief there are no claims of underpayment in alleged violation of said provisions of the Agreement. In the event there are any such pending claims to the knowledge of the Owner, HUD, or the HFA, the HFA certification shall include a statement that the Owner has placed a sufficient amount in escrow, as determined by HUD, to assure such payments; and

(vi) The project has been constructed or rehabilitated in accordance with applicable zoning, building, housing and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials.

(2) A certification by the Owner that:

(i) The project has been completed in accordance with the requirements of the Agreement;

(ii) The project is in good and tenantable condition;

(iii) There are no defects or deficiencies in the project except for ordinary punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified);

(iv) There has been no change in evidence of management capability or in the proposed management program (if one was required) specified in the Proposal, other than changes approved in writing by the HFA in accordance with the Agreement; and

(v) He has complied with the provisions of the Agreement relating to the payment of not less than prevailing wage rates and to the best of his knowledge and belief there are no claims of underpayment in alleged violation of said provisions of the Agreement. In the event there are any such pending claims to the knowledge of the Owner, HUD, or the HFA, the Owner's certification shall include a statement that he has placed a sufficient amount in escrow, as determined by HUD, to assure such payments.

(3) In the case of substantial rehabilitation projects, a certification by the Owner that the property has been treated and is in compliance with HUD Lead Based Paint Regulations 24 CFR, Part 35. If the property was constructed prior to 1950, the Owner shall provide a certification that each Family upon occupancy will receive the notice required by HUD Lead Based Paint regulations and procedures regarding the hazards of lead based paint poisoning, the symptoms and treatment of lead poisoning and the precautions to be taken against lead poisoning and that records showing receipt of such notice by each tenant will be maintained for at least three years.

(b) *Additional Work To Be Completed.* If the HFA certification states that the project is complete except for ordinary punchlist items or incomplete work awaiting seasonal opportunity, the project may be accepted and the Contract executed subject to completion of such items within a reasonable time. When the Owner reports to the HFA that the remaining work has been completed, the HFA shall inspect the work, and if it finds that the work has been completed satisfactorily, it shall so certify to HUD. If HUD fails to receive such additional certification within a reasonable time from acceptance of the project, HUD may, upon 30 days notice to the HFA and the Owner, cancel its approval of the Contract and require its termination or exercise its other rights under the Contract or the ACC.

(c) *Completion in Stages.* If the project is to be completed in stages, the procedures of this section shall apply to each stage.

§ 883.317 Execution of housing assistance payments contract.

(a) *Time of Execution.* If the HUD field office determines that the certifications required by § 883.316 are in conformance with the requirements of that section, it will authorize execution of the Contract. The Contract shall be executed first by the Owner and the HFA and then approved by HUD.

(b) *Unleased Units.* At the time of execution of the Contract, the HFA shall examine the lists of dwelling units leased and not leased, referred to in § 883.315 (e), and shall determine whether or not the Owner has met his obligations under that section with respect to any unleased units. The HFA shall state in writing its determination with respect to the unleased units and for which of those units it will make housing assistance payments. The Owner shall indicate in writing his concurrence with this determination or his disagreement, reserving his rights to claim housing assistance payments for the unleased units pursuant to the Contract, without prejudice by reason of his signing the Contract. Copies of all documents referred to in this paragraph shall be furnished to HUD.

§ 883.318 Marketing.

(a) *Compliance with Equal Opportunity Requirements.* Marketing of units and selection of Families by the Owner shall be in accordance with the Owner's HUD-approved Affirmative Fair Housing Marketing Plan, if required, including any HFA requirements, and with all regulations relating to fair housing advertising including use of the equal opportunity logotype, statement, and slogan in all advertising. Projects shall be managed and operated without regard to race, color, creed, religion, sex, or national origin.

(b) *Eligibility, Selection and Admission of Families.* (1) The Owner shall be responsible for determination of eligibility of applicants, selection of families from among those determined to be eligible, and computation of the amount of housing assistance payments on behalf of each selected Family, in accordance with schedules and criteria established by HUD.

(2) For every family that applies for admission, the Owner and the applicant shall complete and sign the form of application prescribed by HUD, except that if there are no vacant units and the Owner's waiting list is such that there would be an unreasonable length of time before the applicant could be admitted, the Owner may advise the applicant that the Owner is not accepting applications for that reason. The Owner shall retain copies of all completed applications together with any related correspondence for three years. For each Family selected for admission, the Owner shall submit one copy of the completed and signed application to the HUD field office and to the HFA. Housing assistance payments will not be made on behalf of an admitted Family until after this copy has been received by the HFA with a certification by the Owner that he has sent a copy to HUD.

(3) If the Owner determines that the applicant is eligible on the basis of income and family composition and is otherwise acceptable but the Owner does not have a suitable unit to offer, the Owner shall place such Family on his waiting list and so advise the Family.

(4) If the Owner determines that the applicant is eligible on the basis of income and family composition and is otherwise acceptable and if the Owner has a suitable unit, the Owner and the Family shall enter into a Lease. Such Lease shall be on the form of Lease included in the Owner's approved Proposal and shall otherwise be in conformity with the provisions of this Part.

(5) Records on applicant families and approved Families shall be maintained by the Owner so as to provide the HFA and HUD with racial, ethnic and gender data and shall be retained by the Owner for three years.

(6) In the case of a project owned by a PHA, (i) if the PHA places a Family on its waiting list, it shall notify the Family of the approximate date of availability of a suitable unit insofar as such date can be reasonably determined, and (ii) if the PHA determines that an applicant is ineligible on the basis of income or family composition, or that the PHA is not selecting the applicant for other reasons, the PHA shall promptly send the applicant a letter notifying him of the determination and the reasons and that the applicant has the right within a reasonable time (specified in the letter) to request an informal hearing. If, after conducting such an informal hearing, the PHA determines that the applicant shall not be admitted, the PHA shall so notify the applicant in writing and such notice shall inform the applicant that he has the right to request a review by HUD of the PHA's determination. The procedures of this subparagraph do not preclude the applicant from exercising his other rights if he believes he is being discriminated against on the basis of race, color, creed, religion, sex, or national origin. The PHA shall retain for three years a copy of the application, the letter, the applicant's response if any, the record of any informal hearing, and a statement of final disposition.

§ 883.319 Lease requirements.

The Lease shall contain all required provisions specified in paragraph (b) of this section and none of the prohibited

V 40173 APR 15 75 XUM

provisions listed in paragraph (c) of this section and shall otherwise conform to the form of Lease required or approved by the HFA.

(a) *Term of Lease.* The term of the Lease shall be for not less than one year. The Lease may (or, in the case of a Lease for a term or more than one year, shall) contain a provision permitting termination upon 30 days advance written notice by either party.

(b) *Required Provisions.* The Lease between the Owner (Lessor) and the Family (Lessee) shall contain the following provisions:

ADDENDUM TO LEASE

The following additional Lease provisions are incorporated in full in the Lease between _____ (Lessor) and _____ _____ (Lessee) for the following dwelling unit: _____. In case of any conflict between these and any other provisions of the Lease, these provisions shall prevail.

a. The total rent shall be $_____ per month.

b. Of the total rent, $_____ shall be payable by the Housing Finance Agency (HFA) as housing assistance payments on behalf of the Lessee and $_____ shall be payable by the Lessee. These amounts shall be subject to change by reason of changes in the Lessee's family income, family composition, or extent of exceptional medical or other unusual expenses, in accordance with HUD-established schedules and criteria; or by reason of adjustment by the HFA of any applicable Allowance for Utilities and Other Services. Any such change shall be effective as of the date stated in a notification to the Lessee.

c. The Lessor shall not discriminate against the Lessee in the provision of services, or in any other manner, on the grounds of race, color, creed, religion, sex, or national origin.

d. The Lessor shall provide the following services and maintenance:

Lessor _____
By _____
Date _____
Lessee _____
Date _____

(c) *Prohibited Provisions.* Lease clauses which fall within the classifications listed below shall not be included in any Lease.

(1) *Confession of Judgment.* Prior consent by tenant to any lawsuit the landlord may bring against him in connection with the Lease and to a judgment in favor of the landlord.

(2) *Distraint for Rent or Other Charges.* Authorization to the landlord to take property of the tenant and hold it as a pledge until the tenant performs any obligation which the landlord has determined the tenant has failed to perform.

(3) *Exculpatory Clause.* Agreement by tenant not to hold the landlord or landlord's agents liable for any acts or omissions whether intentional or negligent on the part of the landlord or the landlord's authorized representative or agents.

(4) *Waiver of Legal Notice by Tenant Prior to Actions for Eviction or Money Judgments.* Agreement by tenant that the landlord may institute suit without any notice to the tenant that the suit has been filed.

(5) *Waiver of Legal Proceedings.* Authorization to the landlord to evict the tenant or hold or sell the tenant's possessions whenever the landlord determines that a breach or default has occurred, without notice to the tenant or any determination by a court of the rights and liabilities of the parties.

(6) *Waiver of Jury Trial.* Authorization to the landlord's lawyer to appear in court for the tenant and to waive the tenant's right to a trial by jury.

(7) *Waiver of Right to Appeal Judicial Error in Legal Proceedings.* Authorization to the landlord's lawyer to waive the tenant's right to appeal on the ground of judicial error in any suit or the tenant's right to file a suit in equity to prevent the execution of a judgment.

(8) *Tenant Chargeable with Costs of Legal Actions Regardless of Outcome.* Agreement by the tenant to pay attorney's fees or other legal costs whenever the landlord decides to take action against the tenant even though the court finds in favor of the tenant. (Omission of such clause does not mean that the tenant as a party to a lawsuit may not be obligated to pay attorney's fees or other costs if he loses the suit.)

§ 883.320 Termination of tenancy.

The Owner shall be responsible for termination of tenancies, including evictions. However, conditions for payment of housing assistance payments for any resulting vacancies shall be as set forth in § 883.204(c)(2).

§ 883.321 Maintenance, operation and inspections.

(a) *Maintenance and Operation.* The Owner shall maintain and operate the project so as to provide Decent, Safe, and Sanitary housing and he shall provide all the services, maintenance and utilities which he agrees to provide under the Contract, subject to abatement of housing assistance payments or other applicable remedies if he fails to meet these obligations.

(b) *Inspection Prior to Occupancy.* Prior to occupancy of any unit by a Family, the Owner and the Family shall inspect the unit and both shall certify, on forms prescribed by HUD, that they have inspected the unit and have determined it to be Decent, Safe, and Sanitary in accordance with the criteria provided in the prescribed forms. Copies of these reports shall be kept by the Owner for at least three years.

(c) *HFA Inspections.* The HFA shall inspect or cause to be inspected each Contract unit and related facilities at least annually and at such other times (including prior to initial occupancy and rerenting of any unit) as may be necessary to assure that the Owner is meeting his obligation to maintain the units in Decent, Safe, and Sanitary condition and to provide the agreed upon utilities and other services. The HFA shall take into account complaints by occupants and any other information coming to its attention in scheduling inspections and shall notify the Owner and the Family of its determination.

(d) *Units Not Decent, Safe, and Sanitary.* If the HFA notifies the Owner that he has failed to maintain a dwelling unit in Decent, Safe, and Sanitary condition and the Owner fails to take corrective action within the time prescribed in the notice, the HFA may exercise any of its rights or remedies under the Contract, including the abatement of housing assistance payments, even if the Family continues to occupy the unit. If, however, the Family wishes to be rehoused in another dwelling unit with section 8 assistance and the HFA does not have other section 8 funds for such purposes, the HFA may use the abated housing assistance payments for the purpose of rehousing the Family in another dwelling unit. Where this is done, the Owner shall be notified that he will be entitled to resumption of housing assistance payments for the vacated dwelling unit if:

(1) The unit is restored to Decent, Safe, and Sanitary condition;

(2) The Family is willing to and does move back to the restored dwelling unit; and

(3) A deduction is made for the expenses incurred by the Family for both moves.

§ 883.322 Reexamination of family income, composition, and extent of exceptional medical or other unusual expenses.

Reexamination of Family Income, composition, and the extent of medical or other unusual expenses incurred by the Family shall be made by the Owner at least annually (except that such reviews may be made at intervals no longer than two years in the case of elderly Families), and appropriate redeterminations shall be made by the Owner of the amount of the Gross Family Contribution and the amount of the housing assistance payment, all in accordance with schedules and criteria established by HUD.

§ 883.323 Overcrowded and underoccupied units.

If the HFA determines that a Contract unit assisted under this Part is not Decent, Safe, and Sanitary by reason of increase in Family size, or that a Contract unit is larger than appropriate for the size of the Family in occupancy, housing assistance payments with respect to such unit will not be abated, unless the Owner fails to offer the Family a suitable unit as soon as one becomes vacant and ready for occupancy. In the case of an overcrowded unit, if the Owner does not have any suitable units or if no vacancy of a suitable unit occurs within a reasonable time, the HFA will assist the Family in finding a suitable dwelling unit and require the Family to move to such a unit as soon as possible. The Owner may receive housing assistance payments for the vacated unit if he complies with the requirements of § 883.204(c)(1).

§ 883.324 Adjustment of allowance for utilities and other services.

The HFA shall determine, as part of its annual inspection and at such other

times as it deems appropriate, whether an adjustment is required in the Allowance for Utilities and Other Services applicable to the dwelling units in the project, on grounds of changes in utility rates or other change of general applicability to all units in the project. If the HFA determines that an adjustment should be made, the HFA shall prescribe the amount of the adjustment and direct the Owner to make promptly a corresponding adjustment in the amount of rent to be paid by the affected Families and the amount of housing assistance payment.

§ 883.325 Continued family participation.

A Family must continue to occupy its approved unit to remain eligible for participation in the Housing Assistance Payments Program except that if the Family (a) wishes to vacate its unit at the end of the Lease term (or prior thereto but in accordance with the provisions of the Lease), or (b) is required to move for reasons other than violation of the Lease on the part of the Family, and if the Family wishes to receive the benefit of housing assistance payments in another approvable unit, the Family should give reasonable notice of the circumstance to the HFA so that the HFA may have the opportunity to consider the Family's request.

§ 883.326 Inapplicability of low-rent public housing model lease and grievance procedures.

Model lease and grievance procedures established by HUD for PHA-owned low-rent public housing are applicable only to PHA-owned projects under the section 8 Housing Assistance Payments Program.

§ 883.327 Reduction of number of contract units for failure to lease to eligible families.

(a) If at any time, beginning six months after the effective date of the Contract, the Owner fails for a continuous period of six months to have at least 80 percent of the Contract Units leased or available for leasing by Eligible Families, the HFA, with the approval of HUD, may on 30 days notice reduce the number of Contract units to not less than the number of units under lease or available for leasing by Eligible Families, plus 10 percent of such number if the number is 10 or more, rounded to the next highest number.

(b) At the end of the initial term of the Contract and of each renewal term, the HFA, with the approval of HUD, may, by notice to the Owner, reduce the number of Contract units to not less than (1) the number of units under lease or available for leasing by Eligible Families at that time, or (2) the average number of units so leased or available for leasing during the last year, whichever is the greater number, plus 10 percent of such number, if the number is 10 or more, rounded to the next highest number.

(c) HUD will agree to an amendment of the ACC to provide for subsequent restoration of any reduction made pursuant to paragraphs (a) or (b) of this section if HUD determines that the restoration is justified as a result of changes in demand and in the light of the Owner's record of compliance with his obligations under the Contract and if annual contributions contract authority is available; and HUD will take such steps authorized by section 8(c)(6) of the Act as may be necessary to carry out this assurance (see § 883.203).

§ 883.328 HUD review of contract compliance.

HUD will review project operations at such intervals as it deems necessary to ensure that the Owner is in full compliance with the terms and conditions of the Contract. Equal Opportunity review may be conducted with the scheduled HUD review or at any time deemed appropriated by HUD.

§ 883.329 HFA reporting requirements. [Reserved]

Subpart D—Program Development—Existing Housing

§ 883.401 Modification of existing housing regulations.

If an Agency wishes to use all or part of its set-aside for an existing housing program, it shall follow the provisions set forth in the regulations for the Section 8 Housing Assistance Payments Program—Existing Housing, 24 CFR Part 882 except as follows:

(a) The Agency may submit to HUD at any time, without reference to any HUD Invitation for existing housing program applications, an application pursuant to 24 CFR 882.203. Such an application shall be in accordance with the provisions of 24 CFR 882.204.

(b) The Agency shall at the same time submit to HUD, on the prescribed HUD form, an Application for Assignment of Portion of Set-Aside to Specific Project, accompanied by:

(1) A certification that it has made a public announcement that it has been allocated a set-aside, in accordance with § 883.104(c); and

(2) A demonstration that the proposed project complements the allocation program of the HUD field office.

(c) In implementing the provisions of 24 CFR Part 882, with respect to the provisions of section 213 of the HCD Act, the application shall be exempt from the provisions of section 213(a) of the HCD Act unless the unit of general local government in which the assistance is to be provided objects in its Local Housing Assistance Plan to the exemption. In the latter case or where there is no Local Housing Assistance Plan, no application for housing may be approved by HUD unless HUD requirements implementing the provisions of section 213 of the HCD Act have been satisfied.

APPENDIX I—ANNUAL CONTRIBUTIONS CONTRACT

U.S. Department of Housing and Urban Development, section 8 Housing Assistance Payments Program, Housing Finance and Development Agencies, Master section 8 annual Contributions Contract # _____, New Construction or Substantial Rehabilitation.

This Annual Contributions Contract (ACC) is entered into on the _____ day of _____, 19__, (the date of execution by the Government) by and between the United States of America (herein called the "Government"), pursuant to the United States Housing Act of 1937, as amended (42 U.S.C. 1437, *et seq.*), herein called the "Act," and the Department of Housing and Urban Development Act (42 U.S.C. 3531), and _____, a housing finance agency (herein called the "HFA"), which is organized and existing under the laws of the State of _____, and is a "public housing agency" as defined in the Act. In consideration of the mutual covenants hereinafter set forth, the parties hereto agree as follows:

0.1. *Project or Projects.* The HFA is undertaking to provide Decent, Safe, and Sanitary housing for Families (as defined in section 2.1) pursuant to section 8 of the Act by means of Housing Assistance Payments Contracts ("Contracts") with Owners (as defined in section 2.1). Such undertaking may involve an agreement for the use of housing to be constructed ("New Construction") or an agreement for the use of existing housing to be substantially rehabilitated ("Substantial Rehabilitation"). In each instance, the numbers and sizes of dwelling units with respect to which a certain maximum Annual Contributions commitment is made shall constitute a Project hereunder and shall be identified by a stated Project number.

0.2. *Part I and Part II of this Annual Contributions Contract.* (a) Certain provisions of this ACC, principally those which are specifically applicable to a designated Project, are contained in Part I. A separate Part I has been executed with respect to each Project hereunder, and each such Part I, so executed, constitutes a part of this ACC.

(b) The remaining provisions of this ACC, which are applicable to all projects hereunder, are contained in Part II, which, although not separately executed, constitutes a part of this ACC.

0.3. *Fiscal Year.* Except for the first Fiscal Year of each Project, there shall be one Fiscal Year for all Projects hereunder. Such established Fiscal Year shall be the 12-month period ending _____ of each calendar year. The first Fiscal Year for each Project shall be as provided in the Part I applicable to such Project.

0.4. *Schedule of Projects.* Attached to this Master Section 8 ACC, as Attachment A, is a list identifying each ACC Part I and ACC Part I amendment by project number, date, and ACC List number and data.

PART I

New Construction Project No.-----
or
Substantial Rehabilitation Project No.-----
Effective Date -----
[Date of execution by the Government of this ACC Part I]
ACC List Number and Date -----

1.1 *The Project.* The HFA proposes to enter into a Housing Assistance Payments Contract ("Contract") with respect to newly constructed or substantially rehabilitated dwelling units pursuant to an Agreement to Enter into Housing Assistance Payments Contract ("Agreement") executed prior to the commencement of construction or rehabilitation. The numbers and sizes of units will be as follows:

Size of unit	*Number of units*

The HFA shall enter into an Agreement and Contract in accordance with the numbers and sizes of units specified above. The HFA shall not enter into any Agreement or Contract or take any other action which will result in a claim for a total Annual Contribution in respect to the Project in excess of the maximum amount stated in section 1.4(a).

1.2 *Authorization of Actions by HFA.* In order to carry out the Project, the HFA is authorized to (a) enter into an Agreement, (b) enter into a Contract, (c) make housing assistance payments on behalf of Families, and (d) take all other necessary actions, all in accordance with the forms, conditions and requirements prescribed or approved by the Government; Provided, however, that the HFA shall take no actions which would result in any obligation on the Government beyond that provided in the Government-approved Agreement and Contract.

1.3 *Term of Contract and ACC.*—(a) *Term of Contract.* [Alternative provisions—incorporate alternative 1 or 2, as applicable.]

Alternative 1—General: If a combination of interim and permanent financing is utilized for the Project, the total Contract term for any unit, including all renewals, shall not exceed -- years [insert number equal to the anticipated term of the permanent financing, plus a period not to exceed 7 years] or a period terminating on the date of the last payment of principal due on said permanent financing, whichever is less. If permanent financing alone, rather than a combination of interim and permanent financing, is utilized for the Project, the total Contract term for any unit, including all renewals, shall not exceed -- [insert number equal to the term of the permanent financing, plus a period not to exceed 13 months] or a period terminating on the date of the last payment of principal due on said permanent financing, whichever is less; Provided, however, that in the case of Substantial Rehabilitation where the relative cost of the rehabilitation is less than 15 percent of the value of the Project after completion, the Contract shall be for one term of not more than five years for any dwelling unit. If the Project is completed in stages, the total Contract term for the units in all stages, beginning with the effective date of the Contract with respect to the first stage, shall not exceed the total Contract term specified in the first or second sentence of this paragraph (a), whichever is applicable, plus two years.

Alternative 2—for mobile homes project: The total Contract term for any mobile home unit, including all renewals, shall not exceed -- years. [Insert number as authorized by the Government, pursuant to 24 CFR 883.206, but in no event more than 20.] If the Project is accepted in stages, the total Contract term for the mobile home units in all stages, beginning with the effective date of the Contract with respect to the first stage, shall not exceed the total Contract term specified in the first sentence of this paragraph (a), plus 2 years. For purposes of this paragraph (a), the term "mobile home" means the original mobile home and any replacement(s), combined.

(b) *Term of ACC.* This ACC shall remain in effect so long as the Contract is in effect but in no event shall the term of the ACC exceed the number of years authorized under section 1.3(a) of this ACC plus two years, beginning with the first Fiscal Year.

1.4 *Annual Contributions.* (a) Notwithstanding any other provisions of this ACC (other than paragraph (d) of this Section) or any provisions of any other contract between the Government and the HFA, the Government shall not be obligated to make any Annual Contribution or any other payment with respect to any Fiscal Year in respect to the Project in excess of $------ per year (Maximum ACC Commitment); Provided, however, that this amount shall be reduced commensurately with any reduction in the number of Contract Units or in the Contract Rents under the Contract or pursuant to any other provision of this ACC or the Contract.

(b) If the HFA is using its set-aside for the project, the Maximum ACC Commitment includes a Financing Cost Contingency of $------ to be used in the event of an increase in Contract Rents, pursuant to the provisions of the Contract, where the cost of debt service on the basis of the actual permanent financing is higher than that on which the Contract Rents were based. At the time the project goes into permanent financing, the Maximum ACC Commitment shall be reduced by the amount of this contingency, or portion thereof, which is not used for such purpose.

(c) Subject to the Maximum ACC Commitment, the Government shall pay for each Fiscal Year an Annual Contribution to the HFA in respect to the Project in an amount equal to the amount of housing assistance payments payable during each Fiscal Year (see section 1.5) by the HFA pursuant to the Contract, as authorized by section 1.2 (subject to reduction by the amount of any Project Receipts other than Annual Contributions, which Receipts shall be available for Project Expenditures).

(d) In order to assure that housing assistance payments will be increased on a timely basis to cover increases in Contract Rents or decreases in Family Incomes:

(1) A Project Account shall be established and maintained, in an amount as determined by the Government consistent with its responsibilities under section 8(c)(6) of the Act, out of amounts by which the Maximum ACC Commitment per year (exclusive of any Financing Cost Contingency) exceeds amounts paid under the ACC for any year. This account shall be established and maintained by the Government as a specifically identified and segregated account. To the extent funds are available in said account, the maximum Annual Contribution otherwise payable for any Fiscal Year may be increased by such amount, if any, as may be required for increases reflected in the estimate of required Annual Contribution applicable to such Fiscal Year as approved by the Government in accordance with section 2.11. Any amount remaining in said account after payment of the last Annual Contribution with respect to the Project shall be applied by the Government in accordance with law.

(2) Whenever the Government approved estimate of the required Annual Contribution exceeds the Maximum ACC Commitment then in effect (exclusive of any Financing Cost Contingency), and would cause the amount in the Project Account to be less than an amount equal to 40 percent of such Maximum ACC Commitment, the Government shall, within a reasonable period of time, take such additional steps authorized by section 8(c)(6) of the Act as may be necessary to carry out this assurance, including (as provided in that section of the Act) "the reservation of annual contributions authority for the purpose of amending housing assistance contracts or the allocation of a portion of new authorizations for the purpose of amending housing assistance contracts."

(e) The Government will make periodic payments on account of each Annual Contribution upon requisition therefor by the HFA in the form prescribed by the Government. Each requisition shall include certifications by the HFA that housing assistance payments have been or will be made only:

(1) In accordance with the provisions of the Contract as such provisions apply respectively to (i) units under lease by Families and (ii) units not under lease by Families; and

(2) With respect to units which the HFA has inspected or caused to be inspected, pursuant to section 2.4 of Part II of this ACC, within one year prior to the making of such housing assistance payments.

(f) Following the end of each Fiscal Year, the HFA shall promptly pay to the Government, unless other disposition is approved by the Government, the amount, if any, by which the total amount of periodic payments during the Fiscal Year exceeds the total amount of the Annual Contribution payable for such Fiscal Year in accordance with this Section.

1.5 *Fiscal Year.* The Fiscal Year for the Project shall be the Fiscal Year established by section 0.3 of this ACC; Provided, however, that the first Fiscal Year for the Project shall be the period beginning with the effective date of the Contract and ending on the last day of said established Fiscal Year which is not less than 12 months after such effective date. If the first Fiscal Year exceeds 12 months, the Maximum ACC Commitment may be adjusted by the addition of the pro rata amount applicable to the period of operation in excess of 12 months.

1.6 *Periodic Adjustment of Contract Rents.* The Contract may provide for periodic adjustments in the Contract Rents chargeable by the Owner and commensurate increases in amounts of housing assistance payments up to the Maximum ACC Commitment.

1.7 *Affirmative Fair Housing Marketing Regulation.* The HFA shall require the Owner to comply with the Affirmative Fair Housing Marketing Regulation (subject to any exceptions therein) including the submission for Government approval of an Affirmative Fair Housing Marketing Plan and compliance with such approved Plan, as if Owner were expressly subject to said Regulation.

1.8 *Expeditious Carrying Out of Project.* The HFA shall proceed expeditiously with the Project. If the HFA fails to proceed expeditiously, and no Agreement with the Owner has yet been entered into, the Government, by notice to the HFA, may terminate or reduce its obligation hereunder with respect to the Project. If an Agreement has been entered into, and the HFA or the Owner is not proceeding expeditiously with the Project, the Government will take appropriate

action, including the Governmental action provided for in the Agreement.

1.9 *Responsibility for Administration of Contract.* Subject to audit and review by the Government to ensure compliance with Federal requirements and objectives, the HFA shall assume responsibility for Project development and for supervision of the development, management and maintenance functions of the Owner.

PART II

2.1 *Definitions.* (a) "Families" means Lower-Income Families (including "Very Low-Income Families") and includes Families consisting of a single person in the case of Elderly Families and Displaced Families and includes the remaining member of a tenant family.

(b) "Elderly Families" means Families whose heads (or their spouses), or whose sole members, are persons who are at least 62 years of age or are under a disability as defined in section 223 of the Social Security Act or in section 102(5) of the Developmental Disabilities Services and Facilities Construction Amendments of 1970, or are handicapped. The term Elderly Families includes two or more elderly, disabled, or handicapped individuals living together, or one or more such individuals living together with another person who is determined under regulations of the Secretary of Housing and Urban Development ("Secretary") to be a person essential to their care or well being.

(c) "Displaced Families" means Families displaced by governmental action, or Families whose dwellings have been extensively damaged or destroyed as a result of a disaster declared or otherwise formally recognized pursuant to Federal disaster relief laws.

(d) "Lower-Income Families" means Families whose Incomes do not exceed 80 percent of the median Income for the area, as determined by the Secretary with adjustments for smaller and larger families, except that the Secretary may establish Income limits higher or lower than 80 percent of the median for the area on the basis of his findings that such variations are necessary because of prevailing levels of construction costs, unusually high or low family Incomes, or other factors.

(e) "Very Low-Income Families" means Families whose Incomes do not exceed 50 percent of the median Income for the area, as determined by the Secretary with adjustments for smaller and larger families.

(f) "Income" means Income from all sources of each member of the household, as determined in accordance with criteria prescribed by the Secretary.

(g) "Owner" means the person or entity, including a cooperative, with which the Agreement and Contract are entered into.

(h) "Rent" or "rental" mean, with respect to members of a cooperative, the charges under the occupancy agreements between such members and the cooperative.

(i) "Project Receipts" with respect to each Project means the Annual Contributions payable hereunder and all other receipts, if any, accruing to the HFA from, out of, or in connection with such Project.

(j) "Project Expenditures" with respect to each Project means all costs allowable under Part I of this ACC, with respect to such Project.

(k) "Substantial Default" means the occurrence of any of the events listed in section 2.16.

2.2 *Lower-Income Housing Use; Compliance with Act and Regulations.* The HFA shall use the Annual Contribution solely for the purpose of providing Decent, Safe, and Sanitary dwellings for Families in compliance with all applicable provisions of the Act and all regulations issued pursuant thereto.

2.3 *Eligibility and Amount of Housing Assistance Payments.* (a) The HFA shall comply with the Income limits established by the Government.

(b) At least 30 percent of all Contract units developed under each annual set-aside of the HFA shall, in the initial rent-up, be leased to Very Low-Income Families, and thereafter best efforts shall be exercised to maintain at least 30 percent occupancy of Contract units by Very Low-Income Families. The HFA shall incorporate suitable provisions in each Contract to assure achievement of these results.

(c) The HFA shall comply or assure compliance with the schedules and criteria established by the Government with respect to the amounts of housing assistance payments made on behalf of Families.

(d) The HFA shall make or cause to be made periodic reexaminations of the Income, composition, and extent of exceptional medical or other unusual expenses of Families for whom housing assistance payments are being made, for the purpose of confirming or adjusting, in accordance with the applicable schedules established by the Government, the amount of rent payable by the Family and the amount of housing assistance payment.

(e) The HFA shall determine, as part of its annual inspection and at such other times as it deems appropriate, whether an adjustment is required in the Allowance for Utilities and Other Services applicable to the dwelling unit on grounds of changes of general applicability. If the HFA determines that an adjustment should be made, the HFA shall prescribe the amount of the adjustment and notify the Owner accordingly, and the HFA shall cause the Owner to make a corresponding adjustment in the amount of rent to be paid by the affected Family and the amount of housing assistance payment.

(f) Prior to the approval of eligibility of a Family by the HFA or the Owner, as the case may be, and thereafter on the date established for each reexamination of the status of such Family, the HFA or the Owner, as the case may be, shall review or cause to be reviewed a written application, signed by a responsible member of such Family, which application shall set forth all data and information necessary for a determination of the amount, if any, of housing assistance payment which can be made with respect to the Family.

2.4 *Inspections.* (a) The HFA shall require, as a condition for the making of housing assistance payments, that the Owner maintain the assisted dwelling units and related facilities in Decent, Safe, and Sanitary condition.

(b) The HFA shall inspect or cause to be inspected dwelling units and related facilities prior to commencement of occupancy by Families, and thereafter at least annually, adequate to assure that Decent, Safe, and Sanitary housing accommodations are being provided and that the agreed-to services are being furnished.

2.5 *Nondiscrimination in Housing.* (a) The HFA shall comply with all requirements imposed by Title VI of the Civil Rights Act of 1964, Public Law 88-352, 78 Stat. 241; the regulations of the Department of Housing and Urban Development issued thereunder, 24 CFR, Subtitle A, Part 1, section 1.1, *et seq.*; the requirements of said Department pursuant to said regulations; and Executive Order 11063, to the end that, in accordance with that Act and the regulations and requirements of said Department thereunder, and said Executive Order, no person in the United States shall, on the ground of race, color, creed, religion, or national origin, be excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program or be otherwise subjected to discrimination. The HFA shall, by contractual requirement, covenant, or other binding commitment, assure the same compliance on the part of any subgrantee, contractor, subcontractor, transferee, successor in interest, or other participant in the program or activity, such commitment to include the following clause:

"This provision is included pursuant to the regulations of the Department of Housing and Urban Development, 24 CFR, Subtitle A, Part 1, Section 1.1, *et seq.*; issued under Title VI of the said Civil Rights Act of 1964, and the requirements of said Department pursuant to said regulations; and the obligation of the [contractor or other] to comply therewith inures to the benefit of the United States, the said Department, and the HFA any of which shall be entitled to invoke any remedies available by law to redress any breach thereof or to compel compliance therewith by the [contractor or other.]"

(b) The HFA shall incorporate or cause to be incorporated into all Housing Assistance Payments Contracts a provision requiring compliance with all requirements imposed by Title VIII of the Civil Rights Act of 1968, and any rules and regulations issued pursuant thereto.

(c) The HFA shall not, on account of creed or sex, discriminate in the sale, leasing, rental, or other disposition of housing or related facilities (including land) included in any Project or in the use of occupancy thereof, nor deny to any Family the opportunity to apply for such housing, nor deny to any eligible applicant the opportunity to lease or rent any dwelling in any such housing suitable to its needs. No person shall *automatically* be excluded from participation in or be denied the benefits of the Housing Assistance Payments Program because of membership in a class such as unmarried mothers, recipients of public assistance, etc.

2.6 *Equal Employment Opportunity.* (a) The HFA shall not discriminate against any employee or applicant for employment because of race, color, creed, religion, sex, or national origin. The HFA shall take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to race, color, creed, religion, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

(b)(1) The HFA shall incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR, Chapter 60, which is to be performed pursuant to this contract, the following Equal Opportunity clause:

"EQUAL EMPLOYMENT OPPORTUNITY

"During the performance of this contract, the contractor agrees as follows:

"(A) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, creed, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees

V 40 73
APR 15 75

are treated during employment, without regard to their race, color, religion, creed, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the HFA setting forth the provisions of this Equal Opportunity clause.

"(B) The contractor will in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, creed, sex, or national origin.

"(C) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the HFA advising the said labor union or workers' representative of the contractor's commitments under this Section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

"(D) The contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

"(E) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the Government and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

"(F) In the event of the contractor's noncompliance with the Equal Opportunity clause of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part, and the contractor may be declared ineligible for further contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor or as otherwise provided by law.

"(G) The contractor will include the portion of the sentence immediately preceding Paragraph (A) and the provisions of Paragraphs (A) through (G) in every subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Government may direct as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Government, the contractor may request the United States to enter into such litigation to protect the interests of the United States."

(3) The HFA agrees that it will assist and cooperate actively with the Government and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that it will furnish the Government and the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the Government in the discharge of the Government's primary responsibility for securing compliance.

(3) The HFA further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order No. 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and Federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by the Government or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order.

2.7 *Training, Employment, and Contracting Opportunities for Businesses and Lower Income Persons.* (a) The project assisted under this ACC is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that to the greatest extent feasible opportunities for training and employment be given lower income residents of the Project area and contracts for work in connection with the Project be awarded to business concerns which are located in or owned in substantial part by persons residing in the area of the Project.

(b) Notwithstanding any other provision of this ACC, the HFA shall carry out the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary set forth in 24 CFR Part 135 (published in 38 Federal Register 29220, October 29, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this ACC. The requirements of said regulations include but are not limited to development and implementation of an affirmative action plan for utilizing business concerns located within or owned in substantial part by persons residing in the area of the Project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by § 135.20(b) of the regulations in all contracts for work in connection with the Project. The HFA certifies and agrees that it is under no contractual or other disability which would prevent it from complying with these requirements.

(c) Compliance with the provisions of section 3, the regulations set forth in 24 CFR Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this ACC shall be a condition of the Federal financial assistance provided to the Project, binding upon the HFA, its successors and assigns. Failure to fulfill these requirements shall subject the HFA, its contractors and subcontractors, its successors, and assigns to the sanction specified by this ACC and to such sanctions as are specified by 24 CFR, § 135.135.

(d) The HFA shall incorporate or cause to be incorporated into any contract pursuant to this contract such clause or clauses as are required by the Government for compliance with its regulations issued pursuant to the Housing and Urban Development Act, as amended. The HFA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.8 *Cooperation In Equal Opportunity Compliance Reviews.* The HFA shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.9 *Relocation; Clean Air Act and Federal Water Pollution Control Act*—(a) *Relocation.* In the case of a project owned by a public housing agency, as defined in the Act, the HFA understands and agrees that relocation of, and payments to, site occupants will be carried out in accordance with all regulations and requirements of the Government and in compliance with the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Pub. L. 91-646; 84 Stat. 1894; 42 U.S.C. 4601). The HFA warrants and agrees that such requirements will be complied with. The assurances required by section 210 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 are hereby given by the HFA.

(b) *Clean Air Act and Federal Water Pollution Control Act.* The HFA shall incorporate or cause to be incorporated, into any contract for construction or substantial rehabilitation, such clause or clauses as are required by the Government for compliance with the regulations issued by the Environmental Protection Agency pursuant to the Clean Air Act, as amended, the Federal Water Pollution Control Act, as amended, and Executive Order 11738. The HFA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.10 *Labor Standards.* The HFA shall incorporate or cause to be incorporated into any contract for construction or substantial rehabilitation of nine or more dwelling units, such clause or clauses as are required by the Government for compliance with its regulations issued pursuant to the Copeland Act, the Davis-Bacon Act, and the Contract Work Hours and Safety Standards Act. The HFA shall cooperate with the Government in the conducting of compliance reviews pursuant to said Acts and Regulations.

2.11 *Estimates of Required Annual Contribution.* The HFA shall from time to time submit to the Government estimates of required annual contribution at such times and in such form as the Government may require. All estimates and any revisions thereof submitted under this Section shall be subject to Government approval.

2.12 *Insurance and Fidelity Bond Coverage.* For purposes of protection against hazards arising out of or in connection with the administrative activities of the HFA in carrying out the Project, the HFA shall carry adequate (a) comprehensive general liability insurance, (b) workmen's compensation coverage (statutory or voluntary), (c) automobile liability insurance against property damage and bodily injury (owned and non-owned), and (d) fidelity bond coverage of its officers, agents, or employees handling cash or authorized to sign checks or certify vouchers.

2.13 *Books of Account and Records; Reports.* (a) The provisions of this Section shall apply only to books, documents, papers, records, statements, reports and data that are pertinent to compliance with this ACC and other Agreements or Contracts entered into pursuant thereto.

(b) The HFA shall maintain complete and accurate books of account and records, as may be prescribed from time to time by the Government, in connection with the Projects, including records which permit a speedy and effective audit, and will among other things fully disclose the amount and the disposition by the HFA of the Annual Contributions and other Project Receipts, if any.

(c) The books of account and records of the HFA shall be maintained for each Project as separate and distinct from all other

Projects and undertakings of the HFA except as authorized or approved by the Government.

(d) The HFA shall furnish the Government such financial, operating, and statistical reports, records, statements, and documents at such times, in such form, and accompanied by such supporting data, all as may reasonably be required from time to time by the Government.

(e) The Government and the Comptroller General of the United States, or his duly authorized representatives, shall have full and free access to the Projects and to all the books, documents, papers, and records of the HFA that are pertinent to its operations with respect to financial assistance under the Act, including the right to audit, and to make excerpts and transcripts from such books and records.

(f) The HFA shall incorporate or cause to be incorporated in all Contracts the following clauses:

"HFA AND GOVERNMENT ACCESS TO PREMISES AND OWNER'S RECORDS

"(1) The Owner shall furnish such information and reports pertinent to the Contract as reasonably may be required from time to time by the HFA and the Government.

"(2) The Owner shall permit the HFA or the Government or any of their duly authorized representatives, to have access to the premises and, for the purpose of audit and examination, to have access to any books, documents, papers and records of the Owner that are pertinent to compliance with this Contract, including the verification of information pertinent to the monthly requests to the HFA for housing assistance payments."

(g) Audits required by the Government will be performed or paid for by the Government.

2.14 *General Depositary Agreement and General Fund.* (a) The HFA shall maintain one or more agreements, which are herein collectively called the "General Depositary Agreement," in the form prescribed by the Government, with one or more banks (each of which shall be, and continue to be, a member of the Federal Deposit Insurance Corporation) selected as depositary by the HFA. Immediately upon the execution of any General Depositary Agreement, the HFA shall furnish to the Government such executed or conformed copies thereof as the Government may require. No such General Depositary Agreement shall be terminated except after 30 days notice to the Government.

(b) All monies received by or held for account of the HFA in connection with the Projects shall constitute the General Fund.

(c) The HFA shall, except as otherwise provided in this ACC, deposit promptly with such bank or banks, under the terms of the General Depositary Agreement, all monies constituting the General Fund.

(d) The HFA may withdraw monies from the General Fund only for (1) the payment of Project Expenditures, and (2) other purposes specifically approved by the Government. No withdrawals shall be made except in accordance with a voucher or vouchers then on file in the office of the HFA stating in proper detail the purpose for which such withdrawal is made.

(e) If the HFA (1) in the determination of the Government, is in Substantial Default, or (2) makes or has made any fraudulent or willful misrepresentation of any material fact in any of the documents or data submitted to the Government pursuant to this ACC or in any document or data submitted to the Government as a basis for this ACC or as an inducement to the Government to enter into this ACC, the Government shall have the right to require any bank or other depositary which holds any monies of the General Fund, to refuse to permit any withdrawals of such monies; Provided, however, that upon the curing of such Default the Government shall promptly rescind such requirement.

2.15 *Pooling of Funds under Special Conditions and Revolving Fund.* (a) The HFA may deposit under the terms of the General Depositary Agreement monies received or held by the HFA in connection with any other housing project developed or operated by the HFA pursuant to the provisions of any contract for annual contributions, administration, or lease between the HFA and the Government.

(b) The HFA may also deposit under the terms of the General Depositary Agreement amounts necessary for current expenditures of any other project or enterprise of the HFA, including any project or enterprise in which the Government has no financial interest; Provided, however, that such deposits shall be lump-sum transfers from the depositaries of such other projects or enterprises, and shall in no event be deposits of the direct revenues or receipts of such other projects or enterprises.

(c) If the HFA operates other projects or enterprises in which the Government has no financial interest, it may from time to time, withdraw such amounts as the Government may approve from monies on deposit under the General Depositary Agreement for deposit in and disbursement from a revolving fund provided for the payment of items chargeable in part to the Projects and in part to other projects or enterprises of the HFA: Provided, however, that all deposits in such revolving fund shall be lump-sum transfers from the depositaries of the related projects or enterprises and shall in no event be deposits of the direct revenues or receipts.

(d) The HFA may establish petty cash or change funds in reasonable amounts, from monies on deposit under the General Depositary Agreement.

(e) In no event shall the HFA withdraw from any of the funds or accounts authorized under this Section 2.15 amounts for the Projects or for any other project or enterprise in excess of the amount then on deposit in respect thereto.

2.16 *Defaults by HFA and/or Owner under ACC or Contract.*—(a) *Rights of Owner if HFA Defaults.* (1) In the event of failure of the HFA to comply with the Contract with the Owner, or if such Contract is held to be void, voidable or ultra vires, or if the power or right of the HFA to enter into such Contract is drawn into question in any legal proceeding, or if the HFA asserts or claims that such Contract is not binding upon the HFA for any such reason, the Government may, after notice to the HFA giving it a reasonable opportunity to take corrective action, determine that the occurrence of any such event constitutes a Substantial Default hereunder. Where the Government so determines, it may assume the HFA's rights and obligations under such Contract, and the Government shall, for the duration of such Contract, continue to pay Annual Contributions for the purpose of making housing assistance payments with respect to dwelling units under such Contract, shall perform the obligations and enforce the rights of the HFA, and shall exercise such other powers as the Government may have to cure the Default.

(2) All rights and obligations of the HFA assumed by the Government pursuant to this section 2.16(a) will be returned as constituted at the time of such return (1) when the Government is satisfied that all defaults have been cured and that the Project will thereafter be administered in accordance with all applicable requirements, or (ii) when the Housing Assistance Payments Contract is at an end, whichever occurs sooner.

(3) The provisions of this section 2.16(a) are made with, and for the benefit of, the Owner or his assignees who will have been specifically approved by the Government prior to such assignment. If the Owner and the assignees are not in default, they may, in order to enforce the performance of these provisions, (i) demand that the Government, after notice to the HFA giving it a reasonable opportunity to take corrective action, make a determination whether a Substantial Default exists under paragraph (a)(1) of this section, (ii) if the Government determines that a Substantial Default exists, demand that the Government take the actions authorized in paragraph (a)(1) to carry out the obligations of the HFA to the Owner, and (iii) proceed against the Government by suit at law or in equity.

(4) The provisions of paragraphs (a) (1), (2) and (3) of this section shall be included in the Contract.

(b) *Rights of Government if HFA Defaults Under ACC or Contract.* (1) If the HFA defaults in the observance or performance of the provisions of section 2.4; fails to comply with its obligations under any duly issued Certificate of Family Participation in accordance with its terms; fails to comply with the requirements of sections 2.5, 2.6, 2.7, or 2.8; defaults in the performance or observance of any other term, covenant, or condition of this ACC or of any term, covenant, or condition of any Contract; fails, in the event of any default by the Owner, to enforce its rights under the Contract by way of action to achieve compliance to the satisfaction of the Government or to terminate the Contract in whole or in part, as directed by the Government; or fails to comply with the applicable provisions of the Act and all regulations issued pursuant thereto; the Government may, after notice to the HFA giving it a reasonable opportunity to take corrective action, determine that the occurrence of any such event constitutes a Substantial Default hereunder as to the Project. Upon the occurrence of a Substantial Default with respect to any Project, the HFA shall, if the Government so requires, assign to the Government all of its rights and interests under the Contract including any funds, and the Government shall continue to pay Annual Contributions with respect to dwelling units covered by Housing Assistance Payments Contracts in accordance with the terms of this ACC and of such Contracts until reassigned to the HFA.

(2) All rights and obligations of the HFA, assumed by the Government pursuant to this section 2.16(b) will be returned as constituted at the time of such return (1) when the Government is satisfied that all defaults have been cured and that the Project will thereafter be administered in accordance with all applicable requirements, or (ii) when the Housing Assistance Payments Contract is at an end, whichever occurs sooner.

(c) *Rights of HFA and Government if Owner Defaults Under Contract. (New Construction and Substantial Rehabilitation Projects).* For New Construction and Substantial Rehabilitation projects, the Contract shall contain the following provisions:

"a. A default by the Owner under this Contract shall result if:

"(1) The Owner has violated or failed to comply with any provision of, or obligation under, this Contract or of any Lease; or

"(2) The Owner has asserted or demonstrated an intention not to perform some or all of his obligations under this Contract or under any Lease.

V 40173
APR 15 75

"b. Upon a determination by the HFA that a default has occurred, the HFA shall notify the Owner, with a copy to the Government, of (1) the nature of the default, (2) the actions required to be taken and the remedies to be applied on account of the default (including actions by the Owner to cure the default, and, where appropriate, abatement of housing assistance payments in whole or in part and recovery of overpayments), and (3) the time within which the Owner shall respond with a showing that he has taken all the actions required of him. If the Owner fails to respond or take action to the satisfaction of the HFA and the Government, the HFA shall have the right to terminate this Contract in whole or in part or to take other corrective action to achieve compliance, in its discretion or as directed by the Government.

"c. Notwithstanding any other provisions of this Contract, in the event the Government determines that the Owner is in default of his obligations under the Contract, the Government shall have the right, after notice to the Owner and the HFA giving them a reasonable opportunity to take corrective action, to abate or terminate housing assistance payments and recover overpayments in accordance with the terms of the Contract. In the event the Government takes any action under this Section, the Owner and the HFA hereby expressly agree to recognize the rights of the Government to the same extent as if the action were taken by the HFA. The Government shall not have the right to terminate the Contract except by proceeding in accordance with section 2.16(b) of the ACC."

2.17 *Remedies Not Exclusive and Non-Waiver of Remedies.* The availability of any remedy provided for in this ACC or in the Contract shall not preclude the exercise of any other remedy under this ACC or the Contract or under any provisions of law, nor shall any action taken in the exercise of any remedy be deemed a waiver of any other rights or remedies. Failure to exercise any right or remedy shall not constitute a waiver of the right to exercise that or any other right or remedy at any time.

2.18 *Interest of Members, Officers, or Employees of HFA, Members of Local Governing Body, or Other Public Officials.* (a) Neither the HFA nor any of its contractors or their subcontractors shall enter into any contract, subcontract, or arrangement, in connection with any Project, in which any member, officer, or employee of the HFA, or any member of the governing body of the locality in which the Project is situated, or any member of the governing body of the State or locality in which the HFA was activated, or any other public official of such jurisdiction who exercises any responsibilities or functions with respect to the Project during his tenure or for one year thereafter has any interest, direct or indirect. If any such present or former member, officer, or employee of the HFA, or any such governing body member or such other public official of such jurisdiction involuntarily acquires or had acquired prior to the beginning of his tenure any such interest, and if such interest is immediately disclosed to the HFA and such disclosure is entered upon the minutes of the HFA, the HFA, with the prior approval of the Government, may waive the prohibition contained in this subsection: Provided, however, that any such present member, officer, or employee of the HFA shall not participate in any action by the HFA relating to such contract, subcontract, or arrangement.

(b) The HFA shall insert in all contracts entered into in connection with any Project or any property included or planned to be included in any Project, and shall require its contractors to insert in each of its subcontracts, the following provisions:

"No member, officer, or employee of the HFA, no member of the governing body of the State or locality (city and county) in which the project is situated, and no other public official of such State or locality who exercises any functions or responsibilities with respect to the project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this contract or in any proceeds or benefits arising therefrom. In the case of a project owned by a public housing agency, the foregoing prohibition shall also apply to members of the governing body of the locality (city and county) in which such public housing agency was activated."

(c) The provisions of the foregoing subsections (a) and (b) of this section 2.18 shall not be applicable to the General Depositary Agreement, or utility service the rates for which are fixed or controlled by a governmental agency.

2.19 *Interest of Member of or Delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this ACC or to any benefits which may arise therefrom.

APPENDIX II—AGREEMENT TO ENTER INTO HOUSING ASSISTANCE PAYMENTS CONTRACT

PART I

This Agreement to Enter into Housing Assistance Payments Contract ("Agreement") is made and entered into by and between the _____ ("HFA"), which is a public housing agency as defined in the United States Housing Act of 1937, 42 U.S.C. 1437, *et seq.* ("Act"), at section 1437a(6), and _____ ("Owner").

Whereas, the Owner proposes to complete a housing project consisting of _____ [if new construction, insert "improvements and land"; if substantial rehabilitation insert "the substantial rehabilitation of certain property"], as described in the approved Proposal; and

Whereas, the Owner and the HFA propose to enter into a Housing Assistance Payments Contract ("Contract") upon the completion of said project for the purpose of making housing assistance payments to enable eligible Lower-Income Families ("Families") to occupy units in said project; and

Whereas, the HFA has entered into an Annual Contributions Contract dated _____, 19__, with the United States of America acting through the Department of Housing and Urban Development ("Government") with respect to Project No. _____ ("ACC"), under which the Government will provide financial assistance to the HFA pursuant to section 8 of the Act for the purpose of making housing assistance payments; and

Whereas, the Owner is also the developer or rehabilitator, or, if the developer or rehabilitator is other than the Owner, the developer's or rehabilitator's name is _____.

Now therefore, the parties hereto agree as follows:

1.1 *Significant Dates; Contents of Agreement*—a. *Time for Completion of Project.* The time for completion of the project (see section 1.2a) is _____ calendar days after the effective date of this Agreement.

b. *Date for Commencement of Work.* The date for commencement of work (see section 1.2b) is _____, 19__.

c. *Contents of Agreement.* This Agreement consists of Part I, Part II, and the following exhibits:

Exhibit A: The approved Proposal including, among other things, the HFA's certifications, the Affirmative Fair Housing Marketing Plan (if required), and evidence of management capability;

Exhibit B: The Housing Assistance Payments Contract ("Contract") to be executed upon acceptable completion of the project;

Exhibit C: The Annual Contributions Contract;

Exhibit D: The schedule of completion in stages, if applicable;

Exhibit E: The schedule of minimum rates of wages, if applicable; and

Additional exhibits: [Specify additional exhibits, if any. If none, insert "None."]

This Agreement, including said exhibits, comprises the entire agreement between the parties hereto, and neither party is bound by any representations or agreements of any kind except as contained herein. Nothing contained in this Agreement shall create or affect any relationship between the HFA and any contractors or subcontractors employed by the Owner in the completion of the project.

1.2 *Schedule of completion*—a. *Time for Completion.* The project shall be completed in accordance with section 1.4 no later than the end of the period stated in section 1.1a, or in stages as provided for in Exhibit D which identifies the units comprising each stage and the date of commencement and time for completion of each stage. Where completion in stages is provided for, all references to project completion shall be deemed to refer to project completion and/or completion of any stage, as appropriate.

b. *Timely Performance of Work.* The Owner agrees that no later than the date stated in section 1.1b the work will be commenced and diligently continued. In the event the work is not commenced, diligently continued, and/or completed as aforesaid, the HFA reserves the right, subject to Government approval, to rescind this Agreement or take other appropriate action. The Owner shall report to the HFA the date work was commenced and shall thereafter furnish the HFA with periodic progress reports (quarterly or as otherwise required by the HFA).

c. *Delays.* In the event there is delay in the completion due to strikes, lockouts, labor union disputes, fire, unusual delays in transportation, unavoidable casualties, weather, acts of God, or any other causes beyond the Owner's control, or by delay authorized by the HFA, the time for completion shall be extended to the extent that completion is delayed due to one or more of these causes. No increases in the rents set forth in Exhibit B ("Contract Rents") may be granted on account of any such delays.

1.3 *Construction or rehabilitation period*—a. *Changes.* The Owner shall submit for HFA approval any changes from Exhibit A which would materially reduce or alter his obligations or any changes which would alter the design or materially reduce the quality or amenities of the project. Approval of such changes may be conditioned on a reduction of Contract Rents. If such changes are made without prior approval by the HFA, the Owner may be required to reduce the Contract Rents or remedy the defects or deficiencies as a condition for acceptance of the project. Contract Rents may not be increased by reason of any changes or modifications except those required by changes in local codes or ordinances made subsequent to execution of the Agreement, and then only if Government approval is obtained prior to incorporation of any such changes in the project. If any changes under this paragraph are approved by the HFA, the HFA is required to submit to the Government, at such times as it deems appropriate but not later than the certification of completion described in Section 1.4, a statement specifying the changes approved and either (1) a certification by the HFA that such changes do not justify a reduction of Contract Rents, or (2) a statement of the amounts by which Contract Rents were reduced and a certification that such reduction is appropriate and adequate in light of the changes approved.

b. *Commencement of Marketing.* The Owner shall commence and diligently continue marketing as soon as possible, but in any event no later than 90 days (or 60 days in the case of substantial rehabilitation) prior to the estimated completion date. The Owner shall notify the HFA of the date of commencement of marketing. The Owner shall also comply with all reporting requirements under the Affirmative Fair Housing Marketing Regulations. Not later than 30 days prior to the estimated completion date and periodically thereafter, the Owner shall notify the HFA of any units which he anticipates will be vacant on the effective date of the Contract. At the time the Contract is executed, the Owner shall submit a list of the dwelling units leased as of the effective date of the Contract and a list of the units not so leased, if any. The Owner will be entitled to housing assistance payments for any unleased units pursuant to section 1.7b of the Contract only if he has fully complied with the requirements of this paragraph and the provisions of that Section.

1.4 *Project Completion*—a. *Certifications Upon Completion.* Upon completion of the project, the HFA shall submit to the Government the following certifications:

(1) A certification by the HFA that:

(i) The project has been completed in accordance with the requirements of the Agreement;

(ii) The project is in good and tenantable condition;

(iii) There are no defects or deficiencies in the project other than punchlist items, or incomplete work awaiting seasonal opportunity such as landscaping and heating system test (such excepted items to be specified);

(iv) There has been no change in evidence of management capability or in the proposed management program (if one was required) specified in the Proposal, other than changes approved in writing by the HFA in accordance with the Agreement; and

(v) He has complied with the provisions of the Agreement relating to the payment of not less than prevailing wage rates and to the best of his knowledge and belief there are no claims of underpayment in alleged violation of said provisions of the Agreement. In the event there are any such pending claims to the knowledge of the Owner, the Government, or the HFA, the Owner's certification shall include a statement that he has placed a sufficient amount in escrow, as determined by the Government, to assure such payments.

(2) In the case of substantial rehabilitation projects, a certification by the Owner that the property has been treated and is in compliance with Government Lead Based Paint Regulations, 24 CFR, Part 35. If the property was constructed prior to 1950, the Owner shall provide a certification that each family upon occupancy will receive the notice required by Government Lead Based Paint regulations and procedures regarding the hazards of lead based paint poisoning, the symptoms and treatment of lead poisoning and the precautions to be taken against lead poisoning and that records showing receipt of such notice by each tenant will be maintained for at least three years.

b. *Additional Work to be Completed.* If the HFA certification states that the project is complete except for ordinary punchlist items or incomplete work awaiting seasonal opportunity, the project may be accepted and the Contract executed subject to completion of such items within a reasonable time. When the Owner reports to the HFA that the remaining work has been completed, the HFA shall inspect the work, and if it finds that the work has been completed satisfactorily, it shall so certify to the Government. If the Government fails to receive such additional certification within a reasonable time from acceptance of the project, the Government may, upon 30 days notice to the HFA and the Owner, cancel its approval of the Contract and require its termination or exercise its other rights under the Contract or the ACC.

c. *Completion in Stages.* If the project is to be completed in stages, the procedures of this Section shall apply to each stage.

1.5 *Housing Assistance Payments Contract.*—a. *Time of Execution.* If the Government determines that the certifications of completion comply with the requirements of section 1.4 of this Agreement, the Government shall authorize execution of the Contract. Upon receipt of this authorization, the Contract shall be executed first by the Owner and the HFA, and then approved by the Government.

b. *Completion in Stages.* If completion is in stages, pursuant to section 1.4, the Contract shall be executed upon completion of the first stage, and the number and types of completed units and their Contract rents shall be shown in Schedule A–1 of the Contract. Thereafter, upon completion of each successive stage, the signature block provided in the Contract for that stage shall be executed by the Owner and the HFA and approved by the Government, and Schedule A–2, A–3, etc., covering the additional units, shall become part of the Contract.

c. *Unleased Units at Time of Execution.* At the time of execution of the Contract, the HFA shall examine the lists of dwelling units leased and not leased, referred to in Section 1.3b, and shall determine whether or not the Owner has met his obligations under that Section with respect to any unleased units. The HFA shall state in writing its determination with respect to the unleased units and for which of those units it will make housing assistance payments pursuant to the Contract. The Owner shall indicate in writing his concurrence with this determination or his disagreement, reserving his rights to claim housing assistance payments for the unleased units pursuant to the Contract, without prejudice by reason of his signing the Contract. Copies of all documents referred to in this paragraph shall be furnished to the Government.

d. *Contract Rents.* The rents to the Owner, by unit size, amounts of housing assistance payments, and all other applicable terms and conditions shall be as specified in the proposed Housing Assistance Payments Contract except as provided in section 1.3a, and except that if the project is permanently financed prior to project completion, the Contract Rents shall be subject to adjustment in accordance with paragraph e or f of this Section, as appropriate. (If permanent financing does not occur until after project completion, the adjustments contemplated by paragraph f will be made in accordance with the comparable provisions contained in the Contract.)

e. *Adjustments of Contract Rents to Reflect Actual Costs Where Only Permanent Financing Is Utilized.* (1) In the event that only permanent financing is utilized for the project, the HFA shall, at the time the terms of said financing are agreed to by the lender, certify to the Government:

(i) The interest rate on said permanent financing, and

(ii) Any change in the amount of mortgage loan required for the project because of the difference between the interest rate payable on said permanent financing and the anticipated interest rate which would have been payable if interim financing had been utilized during the construction period for the project.

(2) The Contract Rents, the maximum Contract commitment and the Maximum ACC Commitment shall be adjusted to reflect the foregoing. In no event shall the maximum Contract commitment or the Maximum ACC Commitment be increased by more than the amount of the Financing Cost Contingency, as specified in Section 1.4(b) of the ACC. Any unused portion of the Financing Cost Contingency shall be reallocated to the then current set-aside of the HFA, if any.

f. *Adjustments of Contract Rents to Reflect Actual Costs of Permanent Financing Where Interim and Permanent Financing Are Utilized.* In the event that interim financing is utilized for the project, at the time the terms of the permanent financing are agreed to by the lender; the HFA shall submit a certification to the Government as to the actual financing terms and the following provisions shall apply:

(1) If the actual debt service under the permanent financing is lower than the anticipated debt service on which the Contract Rents were based, and the HFA is using Rents shall be reduced commensurately, and the amount of the savings shall be credited to the Project Account. The maximum ACC commitment shall not be reduced except by the amount of the contingency, if any, which was included for possible increases under paragraph e(2) of this Section.

(2) If the actual debt service under the permanent financing is higher than the anticipated debt service on which the Contract Rents were based, and the HFA is using its set-aside for the project, the initial Contract Rents shall be increased commensurately, not to exceed the limitations in this paragraph e(2) and the amount of the Financing Cost Contingency, if the projected borrowing rate (not interest cost) was not less than the average net interest cost for the preceding quarter (at the time the

V 40 N 73 APR 15 75 XUM

projection was submitted to the Government) of the "20 Bond Index" published weekly in the *Bond Buyer*, plus 50 basis points. An adjustment under this paragraph e(2) shall not be more than is necessary to reflect an increase in debt service (based upon the original projected capital cost and the actual term of the permanent financing for the project) resulting from an increase in interest rate of not more than:

(i) One and one-half percent if the projected spread as submitted to the Government was three-fourths of one percent or less, or

(ii) One percent if such projected spread was more than three-fourths of one percent but not more than one percent, or

(iii) One-half of one percent if such projected spread was more than one percent.

(3) After Contract Rents have been adjusted in accordance with paragraph e(1) or e(2) of this Section, the maximum amount of the ACC commitment shall be reduced by the amount of any unused portion of the Financing Cost Contingency, and such portion shall be reallocated to the then current set-asides of the HFA, if any. At the same time, if the Contract Rents have been increased in accordance with paragraph e(2) of this section, the maximum Contract amount specified in section 1.1g of the Contract shall be increased commensurately.

g. *No Changes in Contract.* Each party has read or is presumed to have read the proposed Contract. It is expressly agreed that there shall be no change in the terms and conditions of the Contract other than as provided in this Agreement.

1.6. *Government Assurance to Owner.* The approval of this Agreement by the Government signifies that the Government has executed the ACC and that the ACC has been properly authorized; that the faith of the United States is solemnly pledged to the payment of annual contributions pursuant to said ACC; and that funds have been obligated by the Government for such payments to assist the HFA in the performance of its obligations under the Contract. The Government and the HFA shall not, without the consent of the Owner, amend or modify the ACC in any manner which would reduce the amount of annual contributions payable thereunder for housing assistance payments except as authorized in the ACC and the Contract.

1.7 *Relocation Requirements for Project Owned by a Public Housing Agency.*[1] [Alternative provisions—Incorporate alternative 1 or 2, as applicable.] *Alternative 1—For projects which were without site occupants as of the date indicated in this alternative.* The Owner hereby certifies that the site of the project was without occupants as of the date the HFA made a commitment to provide the permanent financing for the project or the date the HFA submitted the Proposal to HUD, whichever was earlier.

Alternative 2—For projects which do not qualify for alternative 1.—a. *Owner Compliance with Relocation Act.* The Owner agrees that, pursuant to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, it undertakes liability for (1) the provision of relocation payments and assistance as prescribed in sections 202, 203, and 204 of the Act; (2) the provision of relocation assistance programs offering the services described in section 205 of the Act; and (3) assuring that within a reasonable period of time prior to displacement, Decent, Safe, and Sanitary replacement dwellings will be available to displaced persons.

b. *Relocation Payments Other than by Owner.* The Government has determined that

[1] Strike this Section unless the project is owned by a public housing agency.

satisfactory commitments have been made for the funding of relocation payments required by sections 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 as follows:

---

c. *Relocation Payments by Owner.* If paragraph b is inapplicable, the following shall apply:

(1) The maximum potential amount of all relocation payments as estimated by the Government is $_____.

(2) The Owner has deposited this amount in an escrow account under the terms of which payments may be made only upon presentation of written authorization by the Government for the purpose of meeting relocation payments.

(3) The Owner hereby voluntarily undertakes liability for all relocation payments and agrees that, if the funds in the escrow account shall prove to be insufficient to meet all such relocation payments, he will deposit such additional amounts as the Government determines to be necessary for such purpose.

(4) When the Government determines that there is no longer any potential liability for relocation payments, any balance in the escrow account shall be paid to the Owner.

(5) The Owner agrees to hold harmless and to indemnify the Government for any costs incurred under sections 202, 203, and 204 of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 in connection with the relocation of site occupants, and the Owner further agrees that the Government shall have the right to be reimbursed for any such costs by withholding from housing assistance payments payable to the Owner.

1.8 *Authority of the HFA.* The HFA warrants that it is a "public housing agency" as defined in section 3(6) of the Act and that it is in fact and in law authorized to execute this Agreement.

Effective date. This Agreement shall be effective as of the date of approval by the Government.

In witness whereof, the parties hereto have executed this Agreement in four original counterparts.

WARNING: 18 U.S.C. 1001 provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

Approved: United States of America, Secretary of Housing and Urban Development.

PART II

2.1 *Training, employment, and contracting opportunities for businesses and Lower-Income Persons.*[2] a. The project assisted under

[2] Strike this Section if the Contract Rents under the proposed Housing Assistance Payments Contract, over the maximum term of said Contract, are $500,000 or less.

this Agreement is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

b. Notwithstanding any other provision of this Agreement, the Owner shall carry out the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135 (published in 38 FR 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this Agreement. The requirements of said regulations include, but are not limited to, development and implementation of an affirmative action plan for utilizing business concerns located within, or owned in substantial part by persons residing in, the area of the project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by section 135.20 (b) of the regulations and paragraph d of this Section in all contracts for work in connection with the project. The Owner certifies and agrees that he is under no contractual or other disability which would prevent him from complying with these requirements.

c. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this Agreement, shall be a condition of the Federal financial assistance provided to the project, binding upon the Owner, his successors and assigns. Failure to fulfill these requirements shall subject the Owner, his contractors and subcontractors, his successors, and assigns to the sanction specified by this Agreement, and to such sanctions as are specified by 24 CFR Section 135.135.

d. The Owner shall incorporate or cause to be incorporated into any contract or subcontract for work pursuant to this Agreement in excess of $50,000 cost, the following clause:

"EMPLOYMENT OF PROJECT AREA RESIDENTS AND CONTRACTORS

"A. The work to be performed under this Agreement is on a project assisted under a program providing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area, and contracts for work in connection with the project be awarded to business concerns

[3] As used in section 2.2, "HUD" means the United States of America acting through the Department of Housing and Urban Development.

which are located in, or owned in substantial part by persons residing in, the area of the project.

"B. The parties to this Agreement will comply with the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR, Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of this Agreement. The parties to this Agreement certify and agree that they are under no contractual or other disability which would prevent them from complying with these requirements.

"C. The contractor will send to each labor organization or representative of workers with which he has a collective bargaining agreement or other contract or understanding, if any, a notice advising the said labor organization or workers' representative of his commitments under this section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

"D. The contractor will include this section 3 clause in every subcontract for work in connection with the project and will, at the direction of the applicant for or recipient of Federal financial assistance, take appropriate action pursuant to the subcontract upon a finding that the subcontractor is in violation of regulations issued by the Secretary of Housing and Urban Development, 24 CFR, Part 135. The contractor will not subcontract with any subcontractor where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR, Part 135, and will not let any subcontract unless the subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

"E. Compliance with the provisions of section 3, the regulations set forth in 24 CFR Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of the Agreement, shall be a condition of the Federal financial assistance provided to the project, binding upon the applicant or recipient for such assistance, its successors, and assigns. Failure to fulfill these requirements shall subject the applicant or recipient, its contractors and subcontractors, its successors, and assigns to those sanctions specified by the grant or loan agreement or contract through which Federal assistance is provided, and to such sanctions as are specified by 24 CFR 135.135."

e. The Owner agrees that he will be bound by the above Employment of Project Area Residents and Contractors clause with respect to his own employment practices when he participates in federally assisted work.

2.2 *Equal Employment Opportunity.*[3] a. The Owner shall incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR, Chapter 60, which is to be performed pursuant to this Agreement, the following Equal Opportunity clause:

"EQUAL EMPLOYMENT OPPORTUNITY

"During the performance of this contract, the contractor agrees as follows:

"(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, creed, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, creed, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment, or recruitment advertising, layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by or at the direction of the Government setting forth the provisions of this Equal Opportunity clause.

"(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, creed, sex, or national origin.

"(3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by or at the direction of the Government advising the said labor union or workers' representative of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

"(4) The contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

"(5) The contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by HUD and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

"(6) In the event of the contractor's noncompliance with the Equal Opportunity clauses of this contract or with any of the said rules, regulations, or orders, this contract may be cancelled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor or as otherwise provided by law.

"(7) The contractor will include the portion of the sentence immediately preceding Paragraph (1) and the provisions of Paragraphs (1) through (7) in every subcontract or purchase order unless exempted by the rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the Government may direct as a means of enforcing such provisions including sanctions for noncompliance; Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Government, the contractor may request the United States to enter into such litigation to protect the interest of the United States."

b. The Owner agrees that he will be bound by the above Equal Opportunity clause with respect to his own employment practices when he participates in federally assisted construction work.

c. The Owner agrees that he will assist and cooperate actively with HUD and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor, that he will furnish HUD and the Secretary of Labor such information as they may require for the supervision of such compliance, and that he will otherwise assist HUD in the discharge of HUD's primary responsibility for securing compliance.

d. The Owner further agrees that he will refrain from entering into any contract or contract modification subject to Executive Order No. 11246 of September 24, 1965, with a contractor debarred from, or who has not demonstrated eligibility for, Government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by HUD or the Secretary of Labor pursuant to Part II, Subpart D of the Executive Order.

2.3 *Cooperation in Equal Opportunity Compliance Reviews.* The HFA and the Owner shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to all applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.4 *Flood insurance.* If the project is located in an area that has been identified by the Secretary of Housing and Urban Development as an area having special flood hazards and if the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, the Owner agrees that the project will be covered, during its anticipated economic or useful life, by flood insurance in an amount at least equal to its development or project cost (less estimated land cost) or to the maximum limit of coverage made available with respect to the particular type of property under the National Flood Insurance Act of 1968, whichever is less.

2.5 *Clean Air Act and Federal Water Pollution Control Act.*[4] In compliance with regulations issued by the Environmental Protection Agency ("EPA"), 40 CFR, Part 15, 39 FR 11099, pursuant to the Clean Air Act, as amended ("Air Act"), 42 U.S.C. 1857, *et seq.*, the Federal Water Pollution Control Act, as amended ("Water Act"), 33 U.S.C. 1251, *et seq.*, and Executive Order 11738, the Owner agrees that:

a. Any facility to be utilized in the performance of this Agreement or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to section 15.20 of said regulations;

b. He will promptly notify the HFA of the receipt of any communication from the EPA indicating that a facility to be utilized for the Agreement is under consideration to be listed on the EPA List of Violating Facilities;

c. He will comply with all the requirements of section 114 of the Air Act and section 308 of the Water Act relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 and section 308 of the Air Act and the Water Act, respectively, and all regulations and guidelines issued thereunder; and

d. He will include or cause to be included the provisions of this Section in every nonexempt subcontract, and that he will take such action as the Government may direct as a means of enforcing such provisions.

[4] Strike this Section if the Contract Rents under the proposed Housing Assistance Payments Contract, over the maximum term of said Contract, are $100,000 or less.

V 40173 APR 15 75 XUM

2.6 *Prevailing wage rates.*[1] a. Attached hereto and incorporated herein as Exhibit D is a schedule of minimum rates of wages applicable to this Agreement.

b. All laborers and mechanics employed in the construction of the project shall be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by the regulations issued by the Secretary of Labor under the Copeland Act (29 CFR Part 3)), the full amounts due at the time of payment computed at wage rates not less than those contained in the wage determination decision of the Secretary of Labor of the United States, which is incorporated herein, regardless of any contractual relationship which may be alleged to exist between the Owner or any subcontractor and such laborers and mechanics; and the wage determination decision and the Department of Labor Wage Rate Information Poster shall be posted by the Owner at the site of the work in a prominent place where it can be easily seen by the workers. For the purpose of this clause, contributions made or costs reasonably anticipated under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics subject to the provisions of paragraph c of this Section. Also for the purpose of this clause, regular contributions made or costs incurred for more than a weekly period under plans, funds, or programs, but covering the particular weekly period, are deemed to be constructively made or incurred during such weekly period.

c. The Owner may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, or any bona fide fringe benefits not expressly listed in section 1(b)(2) of the Davis-Bacon Act or otherwise not listed in the wage determination decision of the Secretary of Labor which is included in this Agreement, only when the Secretary of Labor has found, upon the written request of the Owner, that the applicable standards of the Davis-Bacon Act have been met. Whenever practicable, the Owner should request the Secretary of Labor to make such findings before the making of the Agreement. In the case of unfunded plans and programs, the Secretary of Labor may require the Owner to set aside in a separate account assets for the meeting of obligations under the plan or program.

d. The Owner shall comply with the Copeland (Anti-Kickback) Regulations (29 CFR, Part 3) of the Secretary of Labor which are herein incorporated by reference.

e. Any class of laborers or mechanics (including apprentices and trainees) which is not listed in the wage determination and which is to be employed under the Agreement shall be classified or reclassified conformably to the wage determination. In the event that agreement cannot be reached on the proper classification or reclassification of a particular class of laborers and mechanics (including apprentices and trainees) to be used, the question will be referred by HUD to the Secretary of Labor for final determination.

f. Whenever the minimum wage rate prescribed in the Agreement for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly wage rate and the Owner is obligated to pay a cash equivalent of such a fringe benefit, an hourly cash equivalent thereof shall be established. In the event that agreement cannot be reached upon a cash equivalent of the fringe benefit, the question will be referred by HUD to the Secretary of Labor for final determination.

g. (1) (i) Apprentices will be permitted to work as such only when they are registered individually under a bona fide apprenticeship program registered with a State apprenticeship agency which is recognized by the Bureau of Apprenticeship and Training, U.S. Department of Labor; or, if no such recognized agency exists in a State, under a program registered with the Bureau of Apprenticeship and Training, U.S. Department of Labor. The allowable ratio of apprentices to journeymen in any craft classification shall not be greater than the ratio permitted to the Owner as to his entire work force under the registered program. Any employee listed on a payroll at an apprentice wage rate, who is not a trainee as defined in subsection (b) immediately following or is not registered as above, shall be paid the wage rate determined by the Secretary of Labor for the classification of work he actually performed. The Owner will be required to furnish to the other party to this Agreement written evidence of the registration of his program and apprentices, as well as of the appropriate ratios and wage rates for the area of construction prior to using any apprentices on the contract work.

(ii) Trainees will be permitted to work as such when they are bona fide trainees employed pursuant to a program approved by the U.S. Department of Labor, Manpower Administration, Bureau of Apprenticeship and Training, and where subsection (c) immediately following is applicable, in accordance with the provisions of paragraph g(2) of this Section.

(iii) On contracts in excess of $10,000 the employment of all laborers and mechanics, including apprentices and trainees, as defined in 29 CFR Section, 5.2(c) shall also be subject to the provisions of paragraph g(2) of this Section. Apprentices and trainees shall be hired in accordance with the provisions of paragraph g(2).

(2) The Owner agrees that:

(i) He will make a diligent effort to hire for the performance of the Agreement a number of apprentices or trainees, or both, in each occupation, which bears to the average number of the journeymen in that occupation to be employed in the performance of the Agreement the applicable ratio as determined by the Secretary of Labor;

(ii) He will assure that 25 percent of such apprentices or trainees in such occupation are in their first year of training, where feasible. Feasibility here involves a consideration of (A) the availability of training opportunities for first year apprentices, (B) the hazardous nature of the work for beginning workers, (C) excessive unemployment of apprentices in their second and subsequent years of training;

(iii) During the performance of the Agreement he will, to the greatest extent possible, employ the number of apprentices or trainees necessary to meet currently the requirements of (i) and (ii) immediately preceding;

(iv) He will maintain records of employment by trade of the number of apprentices and trainees, apprentices and trainees by first year of training, and of journeymen, and the wages paid and hours of work of such apprentices, trainees and journeymen; and he will make these records available for inspection upon request of the Department of Labor and HUD;

(v) If he claims compliance based on the criterion stated in 29 CFR 5a.4(b), he will maintain records of employment, as described in the immediately preceding paragraph, on non-Federal and nonfederally assisted construction work done during the performance of the contract in the same labor market area; and he will make these records available for inspection upon request of the Department of Labor and HUD;

(vi) He will supply one copy of the written notices required in accordance with 29 CFR 5a.4(c) at the request of Government compliance officers, and will supply at three-month intervals during the performance of the Agreement and after completion of Agreement performance a statement describing steps taken toward making a diligent effort and containing a breakdown by craft, of hours worked and wages paid for first year apprentices and trainees, other apprentices and trainees, and journeymen. One copy of the statement will be sent to HUD and one to the Secretary of Labor.

2.7 *Submittal of payrolls and related reports.* a. Payrolls and basic records relating thereto shall be maintained during the course of the work and preserved for a period of three years thereafter for all laborers and mechanics employed in the construction of the project. Such records shall contain the name and address of each such employee, his correct classification, rates of pay (including rates of contributions or costs anticipated of the types described in section 1(b)(2) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made, and actual wages paid. Whenever the Secretary of Labor has found under section 2.6c that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the Owner shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

b. The Owner shall submit weekly to the other party to this Agreement such copies and summaries of all his payrolls and those of each of his subcontractors as such other party may require. Each payroll and summary shall be accompanied by a statement signed by the employer or his agent indicating that the payrolls are correct and complete, that the wage rates contained therein are not less than those determined by the Secretary of Labor, and that the classifications set forth for each laborer or mechanic conform with the work he performed. A submission of a "Weekly Statement of Compliance," which is required under this Agreement and the Copeland Regulations of the Secretary of Labor (29 CFR, Part 3), and the filing with the initial payroll or any subsequent payroll of a copy of any findings by the Secretary of Labor under Section 2.6c shall satisfy this requirement. The Owner shall make the records required under the labor standards clauses of this Agreement available for inspection by authorized representatives of HUD and the Department of Labor, and will permit such representatives to interview employees during working hours on the job.

c. The Owner shall also furnish to the other parties to this Agreement any other information or certifications relating to employees in such form as such other party may request.

[1] As used in sections 2.6 through 2.11, "HUD" means the United States of America acting through the Department of Housing and Urban Development. Strike sections 2.6 through 2.11 if the project involves fewer than nine Contract units.

2.8 *Disputes concerning wage rates and classifications of labor.* a. All disputes concerning prevailing wage rates or classifications arising under this Agreement involving (1) significant sums of money, (2) large groups of employees, or (3) novel or unusual situations shall be promptly reported to HUD for decision or, at the option of HUD, referral to the Secretary of Labor of the United States. The decision of HUD or the Secretary of Labor, as the case may be, shall be final.

b. All questions arising under this Agreement relating to the application or interpretation of the Copeland (Anti-Kickback) Act shall be referred to the Secretary of Labor of the United States for ruling or interpretation, and such ruling or interpretation shall be final.

2.9 *Wage Claims and Adjustments.* In cases of underpayment of salaries or wages to any laborers or mechanics (including apprentices and trainees) by the Owner (or any of his subcontractors), the Owner shall be required to place an amount in escrow, as determined by HUD, sufficient to pay persons employed on the work covered by the Agreement the difference between the salaries or wages actually paid such employees for the total number of hours worked, and the amounts withheld may be disbursed by HUD for and on account of the Owner or the subcontractor to the respective employees to whom they are due.

2.10 *Contract Work Hours and Safety Standards Act—Overtime Compensation.* a. Neither the Owner nor any subcontractor contracting for any part of the work which may require or involve the employment of laborers or mechanics shall require or permit any laborer or mechanic in any workweek in which he is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in excess of eight hours in any calendar day or in excess of forty hours in any such workweek, as the case may be.

b. In the event of any violation of the clause set forth in paragraph a of this Section, the Owner and any subcontractor responsible therefore shall be liable to any affected employee for his unpaid wages. In addition, such Owner and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed, with respect to each individual laborer or mechanic employed in violation of the clause set forth in paragraph a of this Section, in the sum of $10 for each calendar day on which such employee was required or permitted to work in excess of eight hours or in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph a.

c. The Owner shall deposit in escrow such amounts determined by HUD to be necessary to satisfy any liability of the Owner or any subcontractor for liquidated damages as provided in paragraph b of this Section.

2.11 *Termination; Debarment; Subcontracts.* a. A breach of the provisions of the foregoing sections 2.6, 2.7, 2.8, 2.9, and 2.10 may be grounds for termination of this Agreement and for debarment as provided in 29 CFR 56.

b. The Owner shall insert in any subcontracts sections 2.6 (and with respect to section 2.6g(2), copies of 29 CFR 5a.4, 5a.5, 5a.6 and 5a.7 shall be attached), 2.7, 2.8, 2.9, 2.10, and 2.11a, and also a clause requiring the subcontractors to include these Sections in any lower tier subcontract which they may enter into, together with a clause requiring this insertion in any further subcontracts that may in turn be made.

2.12 *Disputes.* a. Except as otherwise provided herein, any dispute concerning a question of fact arising under this Agreement which is not disposed of by agreement of the HFA and the Owner may be submitted by either party to the Department of Housing and Urban Development field office director who shall make a decision and shall mail or otherwise furnish a written copy thereof to the Owner and the HFA.

b. The decision of the field office director shall be final and conclusive unless, within 30 days from the date of receipt of such copy, either party mails or otherwise furnishes to the Government a written appeal addressed to the Secretary of Housing and Urban Development. The decision of the Secretary or duly authorized representative for the determination of such appeals shall be final and conclusive, unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this Section, the appellant shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, both parties shall proceed diligently with the performance of the Agreement and in accordance with the decision of the field office director.

c. This section does not preclude consideration of questions of law in connection with decisions rendered under paragraphs a and b of this Section; Provided, however, that nothing herein shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

2.13 *Interest of Members, Officers, or Employees of HFA, Members of State or local Governing Body, or other Public Officials.* No member, officer, or employee of the HFA, no member of the governing body of the State or locality (city and county) in which the project is situated, and no other public official of such State or locality who exercises any functions or responsibilities with respect to the project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this Agreement or in any proceeds or benefits arising therefrom. In the case of a project owned by a public housing agency, the foregoing prohibition shall also apply to members of the governing body of the locality (city and county) in which such public housing agency was activated.

2.14 *Interest of Member of or Delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this Agreement or to any benefits which may arise therefrom.

2.15 *Nonassignability.* a. The Owner agrees that he has not made and will not make any sale, assignment, or conveyance or transfer in any other form, of this Agreement or the project or any part thereof or any of his interest therein, without the prior consent of the HFA and the Government; Provided, however, that in the case of an assignment as security for the purpose of obtaining financing of the project, the HFA and the Government shall consent in writing if the terms of the financing have been approved by the Government. An assignment by the Owner to a limited partnership of which the Owner is the sole general partner shall not be considered an assignment herein.

b. The Owner agrees that he will not change to a different developer or rehabilitator from the one named in the preamble of this Agreement, except with the prior consent of the HFA and the Government.

c. The Owner agrees that the approved developer or rehabilitator has not made, and will not make, except with the prior consent of the HFA and the Government, any assignment or transfer in any form of the developer's or rehabilitator's contract to construct or rehabilitate the project, or any part thereof, or any of the developer's or rehabilitator's interests therein.

d. The Owner agrees to notify the HFA and the Government promptly of any proposed action covered by paragraph a or b or c of this Section. The Owner further agrees to request the written consent of the HFA and the Government in regard thereto, except in the case of an assignment as security as provided in paragraph a of this Section.

e. For the purpose of this Section, a transfer of stock in the Owner, developer or rehabilitator in whole or in part, by a party holding ten percent or more of the stock of said Owner, developer or rehabilitator or a transfer by more than one stockholder or the owner of 10 percent or more of the stock of said Owner, or any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the parties in control of the Owner, developer or rehabilitator or the degree thereof, by any other method or means, whether by increased capitalization, merger with another corporation, corporate or other amendments, issuance of new or additional stock or classification of stock or otherwise, shall be deemed an assignment, conveyance, or transfer with respect to this Agreement, the project or the construction or rehabilitation contract. With respect to this provision, the Owner, and the party signing this Agreement on behalf of said Owner, represent that they have the authority of all of the existing stockholders of the Owner to agree to this provision on behalf of said stockholders and to bind them with respect thereto.

Appendix III—Housing Assistance Payments Contract

Part I

This Housing Assistance Payments Contract ("Contract") is entered into by and between the ----------, a housing finance agency ("HFA"), which is a public housing agency as defined in the United States Housing Act of 1937, 42 U.S.C. 1437, *et seq.* ("Act"), at section 1437a(6), and ---------- ("Owner"), and approved by the United States of America acting through the Department of Housing and Urban Development ("Government"), pursuant to the Act and the Department of Housing and Urban Development Act, 42 U.S.C. 3531, *et seq.*

The parties hereto agree as follows:

1.1 *Significant Dates and Other Items; Contents of Contract.* a. *Effective Date of Contract.* The effective date of this Contract is ----------, 19--- [This date shall be no earlier than the date of approval by the Government.]

b. *Initial Term of Contract.* The initial term of this Contract (see section 1.4a) shall be -- years [not to exceed five years], beginning with the effective date of this Contract and ending ----------, 19---.

c. *Number and Length of Optional Additional Terms.* The number and length of optional additional terms (see section 1.4a) shall be ------ terms of -- years each [not to exceed five years each].

d. *Maximum Total Term of Contract.* The maximum total term of this Contract for any unit, including renewals, shall be as specified in section 1.4a.

e. *Fiscal Year.* The ending date of each Fiscal Year (see section 1.4b) shall be ---------- [insert March 31, June 30, September 30, or December 31, as determined by the Government].

V 40 73 APR 15 75 5 XUM A

f. Annual Contributions Contract. The Annual Contributions Contract applicable to this Contract ("ACC") (see Section 1.5a) is the ACC dated _____ with respect to Project No. _____.

g. Maximum Housing Assistance Commitment. The maximum amount of the commitment for housing assistance payments under this Contract (see Section 1.6a) is $_____ per annum. [Enter amount specified in the ACC for housing assistance payments, exclusive of the Financing Cost Contingency.] This amount shall be subject to increase pursuant to section 1.5e(2) or 1.5f(3) of the Agreement or section 1.9e(3) of this Contract, as appropriate.

h. Percent of Units to be Leased to Very Low-Income Families. In the initial renting of the Contract Units, the minimum percentage of those units required to be leased to Very Low-Income Families (see section 1.10c(1)) shall be __ percent.

i. Contents of Contract. This Contract consists of Part I, Part II, and the following exhibits:

Exhibit A: The schedule showing the number of units by size ("Contract Units") and their applicable rents ("Contract Rents");

Exhibit B: The project description;

Exhibit C: The statement of services, maintenance and utilities to be provided by Owner;

Exhibit D: The Affirmative Fair Housing Marketing Plan, if applicable; and

Additional exhibits: [Specify additional exhibits, if any. If none, insert "None."]

This Contract, including said exhibits, comprises the entire agreement between the parties hereto, and neither party is bound by any representations or agreements of any kind except as contained herein.

1.2 *Owner's warranties—a. Legal Capacity.* The Owner warrants that he has the legal right to execute this Contract and to lease dwelling units covered by this Contract.

b. Completion of Work. The Owner warrants that the project as described in Exhibit B is in good and tenantable condition and that the project has been completed in accordance with the terms and conditions of the Agreement to Enter into Housing Assistance Payments Contract ("Agreement") or will be completed in accordance with the terms on which the project was accepted. The Owner further warrants that he will remedy any defects or omissions covered by this warranty if called to his attention within 12 months of the effective date of this Contract. The Owner and the HFA agree that the continuation of this Contract shall be subject to the conditions set forth in section 1.4b of the Agreement.

1.3 *Families to be Housed; HFA assistance—a. Families To Be Housed.* The Contract Units are to be leased by the Owner to eligible Lower-Income Families ("Families") for use and occupancy by such Families solely as private dwellings.

b. HFA Assistance. (1) The HFA hereby agrees to make housing assistance payments on behalf of Families for the Contract Units, to enable such Families to lease Decent, Safe, and Sanitary housing pursuant to section 8 of the Act. Such housing assistance payments shall equal the difference between the Contract Rents for units leased by Families and the portion of such rents payable by Families as determined by the Owner in accordance with schedules and criteria established by the Government.

(2) If there is an Allowance for Utilities and Other Services and if such Allowance exceeds the Gross Family Contribution, the Owner shall pay the Family the amount of such excess on behalf of the HFA upon receipt of funds from the HFA for that purpose.

1.4 *Term of Contract; Fiscal year—a. Term of Contract.* [Alternative provisions—incorporate alternative 1 or 2 as applicable.]

Alternative 1—General: The initial term of this Contract shall be as stated in Section 1.1b. This Contract may be renewed for the number and length of additional terms stated in section 1.1c, provided that the total Contract term for any unit, including renewals, shall not exceed the following: (1) if a combination of interim and permanent financing is utilized for the project, __ years [insert number equal to the anticipated term of the permanent financing plus a period not to exceed 7 years] or a period terminating on the date of the last payment of principal due on said permanent financing, whichever is less, or (2) if permanent financing alone, rather than a combination of interim and permanent financing, is utilized for the project, __years [insert number equal to the term of the permanent financing plus a period not to exceed 13 months] or a period terminating on the date of the last payment of principal due on said permanent financing, whichever is less. Renewals shall be automatic unless either party notifies the other in writing, no later than 60 days prior to the expiration of the current term, of his desire not to renew, and the other party agrees in writing that there shall be no renewal. If the project is completed in stages, the dates for the initial term and renewal terms shall be separately related to the units in each stage; Provided, however, that the total Contract term for the units in all the stages, beginning with the effective date of the Contract with respect to hte first stage, shall not exceed the total Contract term for any unit specified in this paragraph, plus two years.

Alternative 2—For mobile homes project: In the case of mobile homes, the initial term of this Contract for each mobile home shall be as stated in section 1.1b. This Contract may be renewed with respect to any mobile home for the number and length of additional terms as stated in section 1.1c, provided that the total Contract term for any mobile home, including renewals, shall not exceed — years. [Insert number as authorized by the Government pursuant to 24 CFR 883.206.] Renewals shall become effective only if either party gives written notice, with a copy to the Government, no later than 60 days prior to the expiration of the current term, of his desire to renew, and the other party and the Government give their written concurrence and approval, respectively, before the expiration of the current term. If the project is completed in stages, the dates for the initial term and renewal terms shall be separately related to the mobile homes in each stage; Provided, however, that the total Contract term for the mobile homes in all the stages, beginning with the effective date of the Contract with respect to the first stage, shall not exceed the total Contract term stated in Section 1.1d, plus two years. For purposes of this paragraph a, the term "mobile home" means the original mobile home and any replacement(s), combined.

Alternative 3—For Certain Substantial Rehabilitation Projects: For a Substantial Rehabilitation project, where the relative cost of the rehabilitation is less than 15 percent of the value of the project after completion of the rehabilitation, the Contract shall be for one term of not more than five years for any dwelling unit. If the project is completed in stages, this term shall be separately related to the units in each stage; provided, however, that the total Contract term for the unit in all the stages, beginning with the effective date of the Contract with respect to the first stage, shall not exceed said Contract term, plus two years.

b. Fiscal year. The Fiscal Year for the project shall be the 12-month period ending on the date stated in Section 1.1e; Provided, however, that the first Fiscal Year for the project shall be the period beginning with the effective date of the Contract and ending on the last day of said established Fiscal Year which is not less than 12 months after such effective date. If the first Fiscal Year exceeds 12 months, the maximum total annual housing assistance payment in Section 1.6a may be adjusted by the addition of the pro rata amount applicable to the period of operation in excess of 12 months.

1.5 *Annual Contributions Contract—a. Identification of Annual Contributions Contract.* The HFA has entered into an Annual Contributions Contract with the Government, as identified in Section 1.1f, under which the Government will provide financial assistance to the HFA pursuant to section 8 of the Act for the purpose of making housing assistance payments. A copy of the ACC shall be provided upon request.

b. HFA Pledge of ACC Payments. The HFA hereby pledges to the payment of housing assistance payments pursuant to this Contract the annual contributions payable under the ACC for such housing assistance payments. The HFA shall not, without the consent of the Owner, amend or modify the ACC in any manner which would reduce the amount of such annual contributions, except as authorized in the ACC and this Contract.

c. Government Approval of Housing Assistance Payments Contract. The approval of this Contract by the Government signifies that the Government has executed the ACC and that the ACC has been properly authorized; that the faith of the United States is solemnly pledged to the payment of annual contributions pursuant to said ACC; and that funds have been obligated by the Government for such payments to assist the HFA in the performance of its obligations under the Contract.

1.6 *Maximum Housing Assistance Commitment; Project Account—a. Maximum Housing Assistance Commitment.* Notwithstanding any other provisions of this Contract (other than paragraph b of this Section) or any provisions of any other contract between the HFA and the Owner, the HFA shall not be obligated to make and shall not make any housing assistance payments under this Contract in excess of the amount per annum stated in section 1.1g; Provided, however, that this amount shall be reduced commensurately with any reduction in the number of Contract Units or in the Contract Rents or pursuant to any other provision of the ACC or this Contract (except reductions in Contract Rents pursuant to section 1.9e (1)).

b. Project Account. As provided in the ACC, in order to assure that housing assistance payments will be increased on a timely basis to cover increases in Contract Rents or decreases in Family Incomes:

(1) A Project Account shall be established and maintained, in an amount as determined by the Government consistent with its responsibilities under section 8(c)(6) of the Act, out of amounts by which the Maximum ACC Commitment per year (exclusive of any Financing Cost Contingency) exceeds amounts paid under the ACC for any Fiscal Year. This account shall be established and maintained by the Government as a specifically identified and segregated account. To the extent funds are available in said account, the maximum total annual housing assistance payments for any Fiscal Year may exceed the maximum amount stated in paragraph a of this Section to cover increases in

Contract Rents or decreases in Family Incomes (see section 1.9). Any amount remaining in said account after payment of the last housing assistance payment with respect to the project shall be applied by the Government in accordance with law.

(2) Whenever the Government approved estimate of the required Annual Contribution exceeds the Maximum ACC Commitment then in effect (exclusive of any Financing Cost Contingency), and would cause the amount in the Project Account to be less than an amount equal to 40 percent of such Maximum ACC Commitment, the Government shall, within a reasonable period of time, take such additional steps authorized by section 8(c)(6) of the Act as may be necessary to carry out this assurance, including (as provided in that section of the Act) "the reservation of annual contributions authority for the purpose of amending housing assistance contracts or the allocation of a portion of new authorizations for the purpose of amending housing assistance contracts."

1.7 *Housing Assistance Payments to Owners—a. General.* (1) Housing assistance payments shall be paid to the Owner for units under lease by Families in accordance with the Contract. The housing assistance payment will cover the difference between the Contract Rent and that portion of said rent payable by the Family as determined in accordance with the Government-established schedules and criteria.

(2) The amount of housing assistance payment payable on behalf of a Family and the amount of rent payable by such Family shall be subject to change by reason of changes in Family Income, Family composition, or extent of exceptional medical or other unusual expenses in accordance with the Government-established schedules and criteria; or by reason of adjustment by the HFA of any applicable Allowance for Utilities and Other Services. Any such change shall be effective as of the date stated in a notification of such change to the Family.

b. Vacancies During Rent-up. If a Contract Unit is not leased as of the effective date of the Contract, the Owner shall be entitled to housing assistance payments in the amount of 80 percent of the Contract Rent for the unit for a vacancy period not exceeding 60 days from the effective date of the Contract, provided that the Owner (1) commenced marketing and otherwise complied with section 1.3b of the Agreement, (2) has taken and continues to take all feasible actions to fill the vacancy, including, but not limited to, contacting applicants on his waiting list, if any, requesting the HFA and other appropriate sources to refer eligible applicants, and advertising the availability of the unit, and (3) has not rejected any eligible applicant, except for good cause acceptable to the HFA.

c. Vacancies After Rent-up. (1) If a Family vacates its unit (other than as a result of action by the Owner which is in violation of the Lease or the Contract or any applicable law), the Owner shall receive housing assistance payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days; Provided, however, that if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, results in more than the Contract Rent, such excess shall be payable to the Government or as the Government may direct. (See also Section 1.10b.) The Owner shall not be entitled to any payment under this subparagraph unless he: (i) immediately upon learning of the vacancy, has notified the HFA of the vacancy or prospective vacancy and the reasons for the vacancy, and (ii) has taken and continues to take the actions specified in paragraphs b(2) and b(3) of this Section.

(2) If the Owner evicts a Family, he shall not be entitled to any payment under paragraph c(1) of this Section unless the request for such payment is supported by a certification that (1) he gave such Family a written notice of the proposed eviction, stating the grounds and advising the Family that it had 10 days within which to present its objections to the Owner in writing or in person and (ii) the proposed eviction was not in violation of the Lease or the Contract or any applicable law.

d. Limitation on Payments for Vacant Units. The Owner shall not be entitled to housing assistance payments with respect to vacant units under this Section to the extent he is entitled to payments from other sources (e.g., payments for losses of rental income incurred for holding units vacant for relocatees pursuant to Title I of the Housing and Community Development Act of 1974 or payments under Section 1.10b of this Contract).

e. HFA Not Obligated for Family Rent. The HFA has not assumed any obligation for the amount of rent payable by any Family or the satisfaction of any claim by the Owner against any Family other than in accordance with Section 1.10b of this Contract.

f. Owner's Monthly Requests for Payments. (1) The Owner shall submit monthly requests to the HFA or as directed by the HFA for housing assistance payments. Each such request shall set forth: (i) the name of each Family and the address and/or number of the unit leased by the Family; (ii) the address and/or the number of units, if any, not leased to Families for which the Owner is claiming payments; (iii) the Contract Rent as set forth in Exhibit A for each unit for which the Owner is claiming payments; (iv) the amount of rent payable by the Family leasing the unit (or, where appropriate, the amount to be paid the Family in accordance with Section 1.3b(2)); and (v) the total amount of housing assistance payments requested by the Owner.

(2) Each of the Owner's monthly requests shall contain a certification by him that to the best of his knowledge and belief (i) the dwelling unit is in Decent, Safe, and Sanitary condition, (ii) all the other facts and data on which the request for funds is based are true and correct, (iii) the amount requested has been calculated in accordance with the provisions of this Contract and is payable under the Contract, and (iv) none of the amount claimed has been previously claimed or paid.

(3) If the Owner has received an excessive payment, the HFA or the Government, in addition to any other rights to recovery, may deduct the amount from any subsequent payment or payments.

(4) The Owner's monthly requests for housing assistance payments shall be made subject to penalty under 18 U.S.C. 1001, which provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

g. Recoupment of Savings in Financing Cost. (1) In the event that the interim financing is used and is continued beyond one year from the effective date of the Contract and the interest cost of the interim financing for any period of three months, after such first year, is less than the anticipated debt service under the permanent financing on which the Contract Rents were based, an amount reflecting the savings in financing cost, computed in accordance with paragraph g(2) of this Section, shall be credited by the Government to the Project Account, and withheld from housing assistance payments to the Owner. If during the course of the same year there is any period of three months in which the financing cost is greater than the anticipated debt service under the permanent financing, an adjustment shall be made so that only the net amount of savings in financing cost for the year is credited by the Government to the Project Account and withheld by the HFA from the Owner as aforesaid (no increased payments shall be made to the Owner on account of any net excess for the year of actual interim financing cost over the anticipated debt service under the permanent financing). Nothing in this paragraph g shall be construed as requiring a reduction in the Contract Rents or precluding adjustments of Contract Rents in accordance with section 1.9.

(2) The computation and recoupment under this paragraph (g) may be made on an annual or on a quarterly or other periodic basis, but in any event no later than as of the end of each Fiscal Year; Provided, however, that if recoupment is to be made less often than quarterly, the amounts of recoupment shall be computed on at least a quarterly basis and the funds deposited in a special account from which withdrawals may be made only with the authorization of the HFA. The manner of computing the amount of recoupment shall be as follows:

(i) Determine the amount by which the interest cost for the interim financing for the period in question is less than the anticipated debt service under the permanent financing on which the Contract Rents were based;

(ii) Determine what percentage the amount found under paragraph g(2)(i) of this section is of the aggregate Contract Rents for all contract Units for the period in question;

(iii) Apply the percentage found in paragraph g(2)(ii) of this section to the aggregate Contract Rents for those Contract Units which are included in the Owner's claim(s) for housing assistance payments for the period in question; and

(iv) The amount found in paragraph g(2)(iii) of this section shall be credited to the Project Account and withheld from the next housing assistance payment or payments to the Owner.

1.8 *Maintenance, operation and inspection—a. Maintenance and Operation.* The Owner agrees (1) to maintain and operate the Contract Units and related facilities so as to provide Decent, Safe, and Sanitary housing, and (2) to provide all the services, maintenance and utilities set forth in Exhibit C. If the HFA determines that the Owner is not meeting any of these obligations, the HFA shall have the right, in addition to its other rights and remedies under this Contract, to abate housing assistance payments in whole or in part.

b. Inspections Prior to Occupancy. (1) Prior to occupancy of any unit by a Family, the Owner and the Family shall inspect the unit and both shall certify, on forms prescribed by the Government, that they have inspected the unit and have determined it to be Decent, Safe, and Sanitary in accordance with the criteria provided in the prescribed forms. Copies of these reports shall be kept on file by the Owner for at least three years.

(2) The HFA shall inspect or cause to be inspected each Contract Unit and related facilities at least annually and at such other times (including prior to initial occupancy and rerenting of any unit) as may be necessary to assure that the Owner is meeting

V 40 173 APR 15 75 XUM

his obligation to maintain the units in Decent, Safe, and Sanitary condition and to provide the agreed upon utilities and other services. The HFA shall take into account complaints by occupants and any other information coming to its attention in scheduling inspections and shall notify the Owner and the Family of its determination.

c. *Units Not Decent, Safe, and Sanitary.* If the HFA notifies the Owner that he has failed to maintain a dwelling unit in Decent, Safe, and Sanitary condition and the Owner fails to take corrective action within the time prescribed in the notice, the HFA may exercise any of its rights or remedies under the Contract, including abatement of housing assistance payments, even if the Family continues to occupy the unit. If, however, the Family wishes to be rehoused in another dwelling unit with section 8 assistance and the HFA does not have other section 8 funds for such purposes, the HFA may use the abated housing assistance payments for the purpose of rehousing the Family in another dwelling unit. Where this is done, the Owner shall be notified that he will be entitled to resumption of housing assistance payments for the vacated dwelling unit if (1) the unit is restored to Decent, Safe, and Sanitary condition, (2) the Family is willing to and does move back into the restored unit, and (3) a deduction is made for the expenses incurred by the Family for both moves.

d. *Notification of Abatement.* Any abatement of housing assistance payments shall be effective as provided in written notification to the Owner. The HFA shall promptly notify the Family of any such abatement.

e. *Overcrowded and Underoccupied Units.* If the HFA determines that a Contract Unit is not Decent, Safe, and Sanitary by reason of increase in Family Size, or that a Contract Unit is larger than appropriate for the size of the Family in occupancy, housing assistance payments with respect to such unit will not be abated, unless the Owner fails to offer the Family a suitable unit as soon as one becomes vacant and ready for occupancy. In the case of an overcrowded unit, if the Owner does not have any suitable units or if no vacancy of a suitable unit occurs within a reasonable time, the HFA will assist the Family in finding a suitable dwelling unit and require the Family to move to such a unit as soon as possible. The Owner may receive housing assistance payments for the vacated unit if he complies with the requirements of section 1.7c(1).

1.9 *Rent adjustments*—a. *Funding of Adjustments.* Housing assistance payments will be made in increased amounts commensurate with Contract Rent adjustments under this Section up to the maximum amount authorized under Section 1.6 of this Contract.

b. *Automatic Annual Adjustments.* (1) Automatic Annual Adjustment Factors will be determined by the Government at least annually; interim revisions may be made as market conditions warrant. Such Factors and the basis for their determination will be published in the Federal Register. These published Factors will be reduced appropriately by the Government where utilities are paid directly by the Families.

(2) On each anniversary date of the Contract, the Contract Rents shall be adjusted by applying the applicable Automatic Annual Adjustment Factor most recently published by the Government. Contract Rents may be adjusted upward or downward, as may be appropriate; however, in no case shall the adjusted Contract Rents be less than the Contract Rents as the effective date of the Contract.

c. *Special Additional Adjustments.* Special additional adjustments may be granted, when approved by the Government, to reflect increases in the actual and necessary expenses of owning and maintaining the Contract Units which have resulted from substantial general increases in real property taxes, utility rates, or similar costs (i.e., assessments, and utilities not covered by regulated rates), but only if and to the extent that the Owner or the HFA clearly demonstrates that such general increases have caused increases in the Owner's operating costs which are not adequately compensated for by automatic annual adjustments. The Owner or the HFA shall submit to the Government financial statements which clearly support the increase.

d. *Overall Limitation.* Notwithstanding any other provisions of this Contract, adjustments as provided in this Section shall not result in material differences between the rents charged for assisted and comparable unassisted units, as determined by the HFA (and approved by the Government, in the case of adjustments under paragraph c of this Section).

e. *Adjustment to Reflect Actual Cost of Permanent Financing.* This paragraph e shall apply if the project is not permanently financed until after the effective date of the Contract. After the project is permanently financed, the HFA shall submit a certification to the Government as to the actual financing terms and the following provisions shall apply:

(1) If the actual debt service under the permanent financing is lower than the anticipated debt service on which the Contract Rents were based, the Contract Rents currently in effect shall be reduced commensurately, and the amount of the savings shall be credited to the Project Account. The Maximum ACC Commitment shall not be reduced except by the amount of the contingency, if any, which was included for possible increases under paragraph e(2) of this Section.

(2) If the actual debt service under the permanent financing is higher than the anticipated debt service on which the Contract Rents were based, and the HFA is using its set-aside for the project, the Contract Rents currently in effect shall be increased commensurately, not to exceed the limitations in this paragraph e(2) and the amount of the Financing Cost Contingency in the ACC, if the projected borrowing rate (net interest cost) was not less than the average net interest cost for the preceding quarter (at the time the projection was submitted to the Government) of the "20 Bond Index" published weekly in the *Bond Buyer*, plus 50 basis points. An adjustment under this paragraph e(2) shall not be more than is necessary to reflect an increase in debt service (based upon the original projected capital cost and the actual term of the permanent financing for the project) resulting from an increase in interest rate of not more than:

(i) One and one-half percent if the projected spread as submitted to the Government was three-fourths of one percent or less, or

(ii) One percent if such projected spread was more than three-fourths of one percent but not more than one percent, or

(iii) One-half of one percent if such projected spread was more than one percent.

(3) After Contract Rents have been adjusted in accordance with paragraph e(1) or e(2) of this section, the maximum amount of the ACC commitment shall be reduced by the amount of any unused portion of the Financing Cost Contingency, and such portion shall be reallocated to the then current set-aside of the HFA, if any. At the same time, if the Contract Rents have been increased in accordance with paragraph e(2) of this section, the maximum Contract amount specified in section 1.1g shall be increased commensurately.

f. *Incorporation of Rent Adjustment.* Any adjustment in Contract Rents shall be incorporated into Exhibit A by a dated addendum to the exhibit establishing the effective date of the adjustment.

1.10 *Marketing and Leasing of Units*—a. *Compliance with Equal Opportunity.* Marketing of units and selection of Families by the Owner shall be in accordance with the Owner's Government-approved Affirmative Fair Housing Marketing Plan, shown as Exhibit D, and with all regulations relating to fair housing advertising.

b. *Security and Utility Deposits.* (1) The Owner may require Families to pay a security deposit in an amount equal to one month's Gross Family Contribution. If a Family vacates its unit, the Owner, subject to State and local law, may utilize the deposit as reimbursement for any unpaid rent or other amount owed under the Lease. If the Family has provided a security deposit, and it is insufficient for such reimbursement, the Owner may claim reimbursement from the HFA, not to exceed an amount equal to the remainder of one month's Contract Rent. Any reimbursement under this Section shall be applied first toward any unpaid rent. If a Family vacates its unit owing no rent or other amount under the Lease, or if the amount owned is less than the amount of the security deposit, the Owner shall refund the full amount or the unused balance, as the case may be, to the Family.

(2) In those jurisdictions where interest is payable by the Owner on security deposits, the refunded amount shall include the amount of interest payable. All security deposit funds shall be deposited by the Owner in a segregated bank account, and the balance of this account, at all times, shall be equal to the total amount collected from tenants then in occupancy, plus any accrued interest. The Owner shall comply with all State and local laws regarding interest payments on security deposits.

(3) Families shall be expected to obtain the funds to pay security and utility deposits, if required, from their own resources and/or other private or public sources.

c. *Eligibility, Selection and Admission of Families.* (1) The Owner shall be responsible for determination of eligibility of applicants, selection of families from among those determined to be eligible, and computation of the amount of housing assistance payments on behalf of each selected Family in accordance with schedules and criteria established by the Government. In the initial renting of the Contract Units, the Owner shall lease at least that percentage of those units which is stated in Section 1.1h to Very Low-Income Families (determined in accordance with the Government-established schedules and criteria) and shall thereafter exercise his best efforts to maintain at least that percentage of occupancy of the Contract Units by Very Low-Income Families as determined in accordance with such schedules and criteria.

(2) The Lease entered into between the Owner and each selected Family shall be on the form of Lease approved by the Government.

(3) The Owner shall make a reexamination of Family Income, composition, and the extent of medical or other unusual expenses incurred by the Family, at least annually (except that such reviews may be made at intervals of no longer than two years in the case of elderly Families), and appropriate redeterminations shall be made by the Owner of the amount of Family contribution and the amount of housing assistance payment, all in accordance with schedules and criteria established by the Government. In connection with the reexamination, the Owner shall

determine what percentage of Families in occupancy are Very Low-Income Families. If there are fewer than the agreed to percentage of Very Low-Income Families in occupancy, the Owner shall report the fact to the HFA and shall adopt changes in his admission policies to achieve, as soon as possible, at least the agreed to percentage of occupancy by such Families.

d. *Rent Redetermination after Adjustment in Allowance for Utilities and Other Services.* In the event that the Owner is notified of an HFA determination making an adjustment in the Allowance for Utilities and Other Services applicable to any of the Contract Units, the Owner shall promptly make a corresponding adjustment in the amount of rent to be paid by the affected Families and the amount of housing assistance payments.

e. *Processing of Applications and Complaints.* The Owner shall process applications for admission, notifications to applicants, and complaints by applicants in accordance with applicable HFA or Government requirements and shall maintain records and furnish such copies or other information as may be required by the HFA or the Government.

f. *Review; Incorrect Payments.* In making housing assistance payments to Owners, the HFA or the Government will review the Owner's determinations under this Section. If as a result of this review, or other reviews, audits or information received by the HFA or the Government at any time, it is determined that the Owner has received improper or excessive housing assistance payments, the HFA or the Government shall have the right to deduct the amount of such overpayments from any amounts otherwise due the Owner, or otherwise effect recovery thereof.

1.11 *Termination of Tenancy.* The Owner shall be responsible for termination of tenancies, including evictions. However, conditions for payment of housing assistance payments for any resulting vacancies shall be as set forth in Section 1.7c.

1.12 *Reduction of Number of Contract Units for failure to lease to Eligible Families*—a. *After First Year of Contract.* If at any time, beginning six months after the effective date of this Contract, the Owner fails for a continuous period of six months to have at least 90 percent of the Contract Units leased or available for leasing by Families, the HFA, with Government approval, may on 30 days notice reduce the number of Contract Units to not less than the number of units under lease or available for leasing by Families, plus 10 percent of such number if the number is 10 or more, rounded to the next highest number.

b. *At End of Initial and Each Renewal Term.* At the end of the initial term of the Contract and of each renewal term, the HFA, with Government approval, may, by notice to the Owner reduce the number of Contract Units to not less than (1) the number of units under lease or available for leasing by Families at that time or (2) the average number of units so leased or available for leasing during the last year, whichever is the greater, plus 10 percent of such number if the number is 10 or more, rounded to the next highest number.

(c) *Restoration of Units.* The Government will agree to an amendment of the ACC to provide for subsequent restoration of any reduction made pursuant to paragraphs a or b of this Section if the Government determines that the restoration is justified as a result of changes in demand and in the light of the Owner's record of compliance with his obligations under the Contract and if annual contributions contract authority is available; and the Government will take such steps authorized by section 8(c) (5) of the Act as may be necessary to carry out this assurance (see Section 1.6).

WARNING: 18 U.S.C. 1001 provides, among other things, that whoever knowingly and willfully makes or uses a document or writing containing any false, fictitious, or fraudulent statement or entry, in any matter within the jurisdiction of any department or agency of the United States, shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

PART II

2.1 *Nondiscrimination in housing.* a. The Owner shall not in the selection of Families, in the provision of services, or in any other manner, discriminate against any person on the grounds of race, color, creed, religion, sex, or national origin. No person shall be *automatically* excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program because of membership in a class such as unmarried mothers, recipients of public assistance, etc.

b. The Owner shall comply with all requirements imposed by Title VIII of the Civil Rights Act of 1968, and any rules and regulations pursuant thereto.

c. The Owner shall comply with all requirements imposed by Title VI of the Civil Rights Act of 1964, Public Law 88–352, 78 Stat. 241; the regulations of the Department of Housing and Urban Development issued thereunder, 24 CFR, Subtitle A, Part 1, section 1.1, *et seq.*; the requirements of said Department pursuant to said regulations; and Executive Order 11063 to the end that, in accordance with that Act, the regulations and requirements of said Department thereunder, and said Executive Order, no person in the United States shall, on the grounds of race, color, creed, religion or national origin, be excluded from participation in, or be denied the benefits of, the Housing Assistance Payments Program, or be otherwise subjected to discrimination. This provision is included pursuant to the regulations of the

V 40 73 APR 15 75 5 XUM

Department of Housing and Urban Development, 24 CFR, Subtitle A, Part 1, section 1.1, *et seq.*, issued under Title VI of the said Civil Rights Act of 1964, and the requirements of said Department pursuant to said regulations; and the obligation of the Owner to comply therewith inures to the benefit of the Government, the said Department, and the HFA any of which shall be entitled to invoke any remedies available by law to redress any breach thereof or to compel compliance therewith by the Owner.

2.2 *Training, employment, and contracting opportunities for businesses and Lower-Income Persons.* a. The project assisted under this Contract is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

b. Notwithstanding any other provision of this Contract, the Owner shall carry out the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR Part 135 (published in 38 FR 29220, October 23, 1973), and all applicable rules and orders of the Secretary issued thereunder prior to the execution of this Contract. The requirements of said regulations include, but are not limited to, development and implementation of an affirmative action plan for utilizing business concerns located within, or owned in substantial part by persons residing in, the area of the project; the making of a good faith effort, as defined by the regulations, to provide training, employment, and business opportunities required by section 3; and incorporation of the "section 3 clause" specified by § 135.20(b) of the regulations and paragraph c of this Section in all contracts for work in connection with the project. The Owner certifies and agrees that he is under no contractual or other disability which would prevent him from complying with these requirements.

c. Compliance with the provisions of section 3, the regulations set forth in 24 CFR, Part 135, and all applicable rules and orders of the Secretary issued thereunder prior to approval by the Government of the application for this Contract, shall be a condition of the Federal financial assistance provided to the project, binding upon the Owner, his successors and assigns. Failure to fulfill these requirements shall subject the Owner, his contractors and subcontractors, his successors, and assigns to the sanction specified by this Contract and to such sanctions as are specified by 24 CFR, Section 135.135.

d. The Owner shall incorporate or cause to be incorporated into any contract or subcontract for work pursuant to this Contract in excess of $50,000 cost, the following clause:

"EMPLOYMENT OF PROJECT AREA RESIDENTS AND CONTRACTORS

"A. The work to be performed under this Contract is on a project assisted under a program providing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 1701u. Section 3 requires that, to the greatest extent feasible, opportunities for training and employment be given lower-income residents of the project area and contracts for work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in, the area of the project.

"B. The parties to this Contract will comply with the provisions of said section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of this Contract. The parties to this Contract certify and agree that they are under no contractual or other disability which would prevent them from complying with these requirements.

"C. The contractor will send to each labor organization or representative of workers with which he has a collective bargaining agreement or other contract or understanding, if any, a notice advising the said labor organization or workers' representative of his commitments under this section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

"D. The contractor will include this section 3 clause in every subcontract for work in connection with the project and will, at the direction of the applicant for or recipient of Federal financial assistance, take appropriate action pursuant to the subcontract upon a finding that the subcontract is in violation of regulations issued by the Secretary of Housing and Urban Development, 24 CFR Part 135. The contractor will not subcontract with any subcontractor where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR Part 135, and will not let any subcontract unless the subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

"E. Compliance with the provisions of section 3, the regulations set forth in 24 CFR Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of the Contract, shall be a condition of the Federal financial assistance provided to the project, binding upon the applicant or recipient for such assistance, its successors, and assigns. Failure to fulfill these requirements shall subject the applicant or recipient, its contractors and subcontractors, its successors, and assigns to those sanctions specified by the grant or loan agreement or contract through which Federal assistance is provided, and to such sanctions as are specified by 24 CFR 135.135."

e. The Owner agrees that he will be bound by the above Employment of Project Area Residents and Contractors clause with respect to his own employment practices when he participates in federally assisted work.

2.3 *Cooperation in Equal Opportunity Compliance Reviews.* The HFA and the Owner shall cooperate with the Government in the conducting of compliance reviews and complaint investigations pursuant to all applicable civil rights statutes, Executive Orders, and rules and regulations pursuant thereto.

2.4 *Flood insurance.* If the project is located in an area that has been identified by the Secretary of Housing and Urban Development as an area having special flood hazards and if the sale of flood insurance has been made available under the National Flood Insurance Act of 1968, the Owner agrees that the project will be covered, during its anticipated economic or useful life, by flood insurance in an amount at least equal to its development or project cost (less estimated land cost) or to the maximum limit of coverage made available with respect to the particular type of property under the National Flood Insurance Act of 1968, whichever is less.

2.5 *Clean Air Act and Federal Water Pollution Control Act.*[2] In compliance with regulations issued by the Environmental Protection Agency ("EPA"), 40 CFR, Part 15, 39 FR 11099, pursuant to the Clean Air Act, as amended ("Air Act"), 42 U.S.C. 1857, *et seq.*, the Federal Water Pollution Control Act, as amended ("Water Act"), 33 U.S.C. 1251, *et seq.*, and Executive Order 11738, the Owner agrees that:

a. Any facility to be utilized in the performance of this Contract or any subcontract shall not be a facility listed on the EPA List of Violating Facilities pursuant to section 15.20 of said regulations;

b. He will promptly notify the HFA of the receipt of any communication from the EPA indicating that a facility to be utilized for the Contract is under consideration to be listed on the EPA List of Violating Facilities;

c. He will comply with all the requirements of section 114 of the Air Act and section 308 of the Water Act relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 and section 308 of the Air Act and the Water Act, respectively, and all regulations and guidelines issued thereunder; and

d. He will include or cause to be included the provisions of this Section in every nonexempt subcontract, and that he will take such action as the Government may direct as a means of enforcing such provisions.

2.6 *HFA and Government access to Premises and Owner's Records.* a. The Owner shall furnish such information and reports pertinent to the Contract as reasonably may be required from time to time by the HFA or the Government.

b. The Owner shall permit the HFA or the Government or any of their duly authorized representatives to have access to the premises and, for the purpose of audit and examination, to have access to any books, documents, papers and records of the Owner that are pertinent to compliance with this Contract, including the verification of information pertinent to the monthly requests for housing assistance payments.

2.7 *Failure or inability of HFA to comply with Contract.* The following provisions of the ACC are hereby made a part of this Contract:

"(a) *Rights of Owner if HFA Defaults.* (1) In the event of failure of the HFA to comply with the Contract with the Owner, or if such Contract is held to be void, voidable or ultra vires, or if the power or right of the HFA to enter into such Contract is drawn into question in any legal proceeding, or if the HFA asserts or claims that such Contract is not binding upon the HFA for any such reason, the Government may, after notice to the HFA giving it a reasonable opportunity to take corrective action, determine that the occurrence of any such event constitutes a Substantial Default hereunder. Where the Government so determines, it may assume the HFA's rights and obligations under such Contract, and the Government shall, for the duration of such Contract, continue to pay Annual Contributions for the purpose of making housing assistance payments with respect to dwelling units under such Contract, shall perform the obligations and enforce the rights of the HFA, and shall exercise such other powers as the Government may have to cure the Default.

"(2) All rights and obligations of the HFA assumed by the Government pursuant to this section 2.16(a) will be returned as constituted at the time of such return (i) when the Government is satisfied that all defaults have been cured and that the Project will thereafter be administered in accordance with all applicable requirements, or (ii) when the Housing Assistance Payments Contract is at an end, whichever occurs sooner.

"(3) The provisions of this section 2.16(a) are made with, and for the benefit of, the Owner or his assignees who will have been specifically approved by the Government prior to such assignment. If the Owner and the assignees are not in default, they may, in order to enforce the performance of these provisions, (i) demand that the Government, after notice to the HFA giving it a reasonable opportunity to take corrective action, make a determination whether a Substantial Default exists under paragraph (a)(1) of this section, (ii) if the Government determines that a Substantial Default exists, demand that the Government take the actions authorized in paragraph (a)(1) to carry out the obligations of the HFA to the Owner, and (iii) proceed against the Government by suit at law or in equity."

2.8 *Rights of HFA and Government if owner defaults.* a. A default by the Owner under this Contract shall result if:

(1) The Owner has violated or failed to comply with any provision of, or obligation under, this Contract or of any Lease; or

(2) The Owner has asserted or demonstrated an intention not to perform some or all of his obligations under this Contract or under any Lease.

b. Upon a determination by the HFA that a default has occurred, the HFA shall notify the Owner, with a copy to the Government, of (1) the nature of the default, (2) the actions required to be taken and the remedies to be applied on account of the default (including actions by the Owner to cure the default, and, where appropriate, abatement of housing assistance payments in whole or in part and recovery of overpayments), and (3) the time within which the Owner shall respond with a showing that he has taken all the actions required of him. If the Owner fails to respond or take action to the satisfaction of the HFA and the Government, the HFA shall have the right to terminate this Contract in whole or in part or to take other corrective action to achieve compliance, in its discretion or as directed by the Government.

c. Notwithstanding any other provisions of this Contract, in the event the Government determines that the Owner is in default of his obligations under the Contract, the Government shall have the right, after notice to the Owner and the HFA giving them a reasonable opportunity to take corrective action, to abate or terminate housing assistance payments and recover overpayments in accordance with the terms of the Contract. In the event the Government takes any action under this Section, the Owner and the HFA hereby expressly agree to recognize the rights of the Government to the same extent as if the action were taken by the HFA. The Government shall not have the right to terminate the Contract except by proceeding in accordance with Section 2.16(b) of the ACC.

2.9 *Remedies not exclusive and non-waiver of remedies.* The availability of any remedy under this Contract or the ACC shall not preclude the exercise of any other remedy under this Contract or the ACC or under any provisions of law, nor shall any action taken in the exercise of any remedy be deemed a waiver of any other rights or remedies. Failure to exercise any right or remedy shall not constitute a waiver of the right to exercise that or any other right or remedy at any time.

2.10 *Disputes.* a. Except as otherwise provided herein, any dispute concerning a question of fact arising under this Contract which is not disposed of by agreement of the HFA and the Owner may be submitted by either party to the Department of Housing and Urban Development field office director who shall make a decision and shall mail or otherwise furnish a written copy thereof to the Owner and the HFA.

b. The decision of the field office director shall be final and conclusive unless, within 30 days from the date of receipt of such copy, either party mails or otherwise furnishes to the Government a written appeal addressed to the Secretary of Housing and Urban Development. The decision of the Secretary or duly authorized representative for the determination of such appeals shall be final and conclusive, unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this Section, the appellant shall be afforded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, both parties shall proceed diligently with the performance of the Contract and in accordance with the decision of the field office director.

c. This Section does not preclude consideration of questions of law in connection with the decisions rendered under paragraphs a and b of this Section; Provided, however, that nothing herein shall be construed as making final the decision of any administrative official, representative, or board, on a question of law.

2.11 *Interest of Members, Officers, or Employees of HFA, Members of Local Governing Body or Other Public Officials.* No member, officer, or employee of the HFA, no member of the governing body of the State or locality (city and county) in which the project is situated, and no other public official of such State or locality who exercises any functions or responsibilities with respect to the project, during his tenure or for one year thereafter, shall have any interest, direct or indirect, in this Contract or in any proceeds or any benefits arising threfrom. In the case of a project owned by a public housing agency, the foregoing prohibition shall also apply to members of the governing body of the locality (city and county) in which such public housing agency was activated.

2.12 *Interest of Member of or Delegate to Congress.* No member of or delegate to the Congress of the United States of America or resident commissioner shall be admitted to any share or part of this Contract or to any benefits which may arise therefrom.

2.13 *Assignment, sale, or foreclosure.* a. The Owner agrees that he has not made and will not make any sale, assignment, or conveyance or transfer in any other form, of this Contract or the project or any part thereof or any of his interest therein, without the prior consent of the HFA and the Government; Provided, however, that in the case of an assignment as security for the purpose of obtaining financing of the project, the HFA and the Government shall consent in writing if the terms of the financing have been approved by the Government. An assignment by the Owner to a limited partnership of which the Owner is the sole general partner shall not be considered an assignment herein.

b. The Owner agrees to notify the HFA and the Government promptly of any proposed action covered by paragraph a of this Section. The Owner further agrees to request the written consent of the HFA and the Government in regard thereto, except in the case of an assignment as security as provided in paragraph a of this Section.

c. For the purpose of this section, a transfer of stock in the Owner in whole or in part, by a party holding ten percent or more of the stock of said Owner, or a transfer by more than one stockholder or the Owner of ten percent or more of the stock of said Owner, or any other similarly significant change in the ownership of such stock or in the relative distribution thereof, or with respect to the parties in control of the Owner or the degree thereof, by any other method or means, whether by increased capitalization, merger with another corporation, corporate or other amendments, issuance of new or additional stock or classification of stock or otherwise, shall be deemed an assignment, conveyance, or transfer with respect to this Contract or the project. With respect to this provision, the Owner and the party signing this Contract on behalf of said Owner, represent that they have the authority of all of the existing stockholders of the Owner to agree to this provision on behalf of said stockholders and to bind them with respect thereto.

d. In the event of foreclosure, or assignment or sale to the HFA (or mortgagee if the HFA is not the mortgagee) in lieu of foreclosure, or in the event of assignment or sale agreed to by the HFA (or mortgagee if the HFA is not the mortgagee) and approved by the Government which approval shall not be unreasonably delayed or withheld), housing assistance payments shall continue in accordance with the terms of the Contract.

DAVID M. DEWILDE,
Acting Assistant Secretary-Commissioner.

■

BROADCAST STATION LICENSE RENEWAL APPLICATION FORM

Proposed Revision of Form 303

V40-73 APR 15 75 XUM

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 1]

[Docket No. 20419; FCC 75-375; 30977]

BROADCAST STATION LICENSE RENEWAL APPLICATION FORM

Proposed Revision

In the matter of revision of FCC Form 303, application for renewal of broadcast station license, and certain rules relating thereto; Docket No. 20419; FCC 75-375; 30977.

1. Notice of inquiry and proposed rulemaking is hereby given in the above-captioned matter, relating to changes in the forms to be filed by applicants for renewal of licenses for commercial broadcast stations.

2. At present, applicants seeking renewal of their licenses for commercial broadcast stations file FCC Form 303—Application For Renewal Of Broadcast Station License. Except for recent revisions in section IV-B, Statement of TV Program Service, the remainder of FCC Form 303 has not been revisited since the mid-1960's. Experience with the form since that time has shown that it is not always productive of the information needed by the Commission to make the public interest determination required by section 307(d) of the Communications Act of 1934, as amended, 47 U.S.C. 307 (d). We believe, therefore, that several questions which yield information of marginal utility can be deleted entirely, and that other questions can be reapproached and, with slight revision, be made to produce only that information needed by the Commission to make its section 307(d) determination.

3. Accordingly, in this proceeding we proposed to revise FCC Form 303, particularly as it applies to commercial radio broadcast stations. Because of the pronounced differences between aural and visual broadcasting, we believe separate forms for radio stations on the one hand and TV stations on the other are desirable. We propose, therefore, the adoption of FCC Form 303-R, entitled "Application For Renewal Of License For Commercial Radio Broadcast Station."

4. A copy of proposed FCC Form 303-R is attached as Appendix A.[1] For comparison purposes, a copy of existing FCC Form 303 is attached as Appendix B.

5. Before proceeding to a summary of the questions set forth in FCC Form 303-R, as proposed, it should be pointed out that the Commission must obtain certain information from applicants seeking renewal of their broadcast licenses to discharge its statutory responsibilities. It is clear, however, that the Commission should solicit only that information which is reasonably related to the question whether station operation has been (and thus, will continue to be) in the public interest. Therefore, in requesting information from renewal applicants, the Commission must not only weigh its public interest value but, also, the burden imposed on applicants in gathering and supplying the requested information. With these considerations in mind, we have attempted to develop a shorter form for radio renewal applicants. The proposed form, we believe, will ease the burden on such applicants, improve our information base, and expedite our renewal process. In short, we make these proposals in the belief that they will reduce the complex renewal scheme which has developed over the years and, at the same time, provide us with the information needed to discharge our statutory obligation. We also recognize, of course, that further improvements may be possible. Accordingly, in this notice we specifically invite comments on any other alternatives which may be available.

6. With regard to FCC Form 303-R, as proposed, it will be observed at the outset that the instructions thereto have been omitted. The instructions, which will remain substantially unaltered from those set forth in existing FCC Form 303, will be presented in a pamphlet similar in format to that utilized by the Department of Treasury, Internal Revenue Service. As visualized, this pamphlet will be divided into three parts. Part I will contain a summary of pertinent filing and operating requirements applicable to commercial AM and FM stations. Part II, in addition to containing four copies of proposed FCC Form 303-R, will consist of a question by question guide on how to prepare the proposed form. Part III will consist of pertinent Commission publications (e.g., Primer on Ascertainment of Community Problems by Broadcast Renewal Applicants, the 1960 Programming Policy Statement, etc.). A brief outline of the instruction pamphlet, as now visualized, is included as part of Appendix A and comments are invited on other topics which could be included in the instruction pamphlet. (A similar instruction pamphlet may also be developed for television renewal applicants.)

7. FCC Form 303, as it relates to radio, consists of six sections and 61 questions. Proposed FCC Form 303-R, by comparison, also consists of six parts, namely: Part I, *General Information;* Part II, *Financial;* Part III, *Legal;* Part IV, *Engineering;* Part V, *Programming;* and Part VI, *Equal Employment Opportunity*. Proposed FCC Form 303-R, however, has been reduced to 33 questions, several of which are optional and need not be answered by an applicant in most circumstances. The proposed form may be answered by an applicant in most circumstances. The proposed form may be further reduced in size in view of several other matters currently under study by the Commission. For instance, depending on the course of action we decided to pursue involving a current study of our ownership reporting requirements, it is possible that questions 6, 7 and 8, Part III, may be eliminated entirely. Similarly, several of the questions in Part IV, *Engineering*, may be eliminated depending on the results of our current study related to automated transmitters. As noted above, therefore, it is possible that further improvements in the form can be made.

8. We believe that the questions contained in FCC Form 303-R, as proposed, are self explanatory. The following brief summary, however, may be helpful in comparing the proposed FCC Form 303-R with existing FCC Form 303 and in the preparation of comments.

PART I—GENERAL INFORMATION

Question 1 concerns the name and address of the applicant and is identical to the information sought in Section I, FCC Form 303. The name of the applicant, of course, must be stated exactly as it appears on the station's license.

Question 2 requests information concerning the facilities for which renewal is sought and is comparable to Question 1, Section I, FCC Form 303.

Question 3 requests information as to whether renewal is also being sought for an Auxiliary Antenna, Auxiliary Transmitter, and Alternate Main Transmitter. At present, applicants are required to file separate Section II's for each transmitter or antenna involved. Pursuant to the proposed procedure, applicants need only list the type transmitter or antenna under Question 1, Part IV.

PART II—FINANCIAL

Question 4 requests the submission of a balance sheet and is identical to Question 3, Section I, FCC Form 303.

Question 5 requests an explanation of the applicant's financial plans in the event that current liabilities exceed current assets. At present it is necessary to request this information from approximately 25 percent of renewal applicants by letter. Consequently, we believe the inclusion of the question in the renewal form will expedite processing.

PART III—LEGAL

Question 6 relates to the filing of an Ownership Report (FCC Form 323) and is similar in format to Question 4, Section I, FCC Form 303.

Question 7 relates to section 310(a) of the Communications Act and concerns the citizenship of the applicant and the interests of aliens and foreign governments. This question is similar in nature to Questions 5 and 6, Section I, FCC Form 303. (We are not in this proceeding seeking comments on alien and foreign ownership. We anticipate that reporting of such interests will be explored in a separate proceeding relating to the ownership reporting requirements of applicants in the near future.)

Question 8 relates to the applicants other business interests. The question, in this respect, is identical to the first part of Question 7, Section I, FCC Form 303. The question has been modified, however, to eliminate information concerning the applicant's other broadcast interests. Such information is contained in the Ownership Report and, thus, is merely a duplication of effort.

Question 9 expands the reporting requirements of existing Question 2, Section I, FCC Form 303, to solicit information relating to any suits or judgments concerning certain crimes or anti-trust matters since the filing of the applicant's last major application. (i.e., 301, 302, 314, 315.) In this respect, proposed Question 4 is similar in nature to the anti-trust questions contained in those forms. This question also requests identification of the crimes or anti-trust matters involving the applicant or any person directly controlling the applicant. Respondents are requested to submit specific comments related to the matters which should be reported under this question.

PART IV—ENGINEERING

Question 10 relates to the model and type number of the applicant's transmitter(s) and is similar to the information presently requested in Question 1, Section II, FCC Form 303.

Question 11 requests information relating to operating constants for *both* AM and FM stations. In this respect interested parties should compare Question 7 with Questions 2 and 3, Section II, FCC Form 303.

Question 12 relates to stations operating with directional remote control with a first class operator on duty during all broadcast hours. Such applicants, pursuant to the requirements of §.73.66(c) of the Commission's rules must submit at renewal time the skeleton proof of performance measurements and the ratio between those measurements and the measurements contained in the last complete proof of performance filed with the Commission. There is no similar question in Section II, FCC Form 303.

Question 13 relates to stations operating with directional remote control with a first class operator on duty less than during all broadcast hours. Such applicants, pursuant to the provisions of §§ 73.66(c) and 73.93, Note 2, of the Commission's rules must submit at renewal time the last two skeleton proof of performance measurements and the last partial proof measurements. Additionally, the applicants must submit the ratio between the partial proof measurements and the measurements contained in the last complete proof of performance filed with the Commission.

Question 14 requests certain readings pertaining to directional antenna stations, and is similar to Question 4, Section II, FCC Form 303.

Question 15 requests the applicant to describe the manufacturer and type of antenna monitor used to take the readings required by Question 12, above. The same information is currently requested in Question 4, Section II, FCC Form 303.

Question 16 requests information as to whether there have been any changes in the fundamental audio or radio circuits of the transmitter affecting the station's previously filed schematic diagram. Again if the answer is "Yes," applicant must submit a brief statement of explanation and an accurate diagram. This question is similar to Question 9, Section II, FCC Form 303.

Question 17 relates to § 73.47 of the Commission's rules, which requires equipment performance measurements to be conducted within the four month period prior to the filing of an application for renewal of license. This question also requires the applicant to submit a statement of explanation if the equipment performance measurements show the station's transmitting system not to be in accordance with the Commission's rules. The question is similar to Question 10 (a), (b) and (c) of Section II, FCC Form 303.

Question 18 requests information as to whether the station's apparatus, antenna or operation differs from that described in the applicant's last application. If "Yes," applicant must attach a statement of explanation. The question is similar in content to Question 11, Section II, FCC Form 303.

Question 19, as does Question 12, Section II, FCC Form 303, requests the submission of the transmitter operating logs for the composite week.

PART V—PROGRAMMING INFORMATION

Question 20 relates to documentation which an applicant will be required to place in its public inspection file concerning its efforts to consult with a representative cross-section of community leaders and a generally random sample of members of the general public. In this respect, it should be noted that in considering the filings in Docket No. 19715, *Ascertainment of Community Problems by Broadcast Applicants*, 40 FCC 2d 379 (1973), we have approved in principle a continuous ascertainment procedure for renewal applicants. Question 20, as well as Questions 21 and 22, are designed to implement our tentative resolution of Docket No. 19715. Since, however, a final Report and Order in Docket No. 19715 is yet to be adopted and released, the proposed ascertainment questions are subject to revision.

Question 21 requests the applicant to submit its community leader checklists for each year of the license term. As noted above, this question is also designed to implement our tentative resolution of Docket No. 19715 which calls for consultations with community leaders throughout the license term.

Question 22 relates to the applicant's efforts to program to serve the problems, needs and interests of its service area. The question requests a statement as to whether the applicant has placed in its public inspection file at the appropriate times its annual list (i) of those problems, needs and interests which, in the applicant's judgment, warranted treatment by its station, and (ii) typical and illustrative programming broadcast in response to those problems. The question also asked the applicant to submit those listings each year of the past license period as an exhibit with its application.

Question 23 relates to the applicant's previous program proposals, composite week performance, and future program proposals in the areas of (i) Entertainment and Sports, (ii) News, (iii) Public Affairs, (iv) All other programs, exclusive of Entertainment and Sports, (v) Commercial Matter, and (vi) Noncommercial Matter. This question also requests the applicant to state the number of public service announcements previously proposed, actually broadcast, and proposed. For a discussion of this question, see paragraphs 9–10, *infra*.

Question 24 requests the applicant to list those programs in the composite week included in the Public Affairs and All other programs, exclusive of Entertainment and Sports categories, indicating their Title, Source, Type, Brief Description, and Time Broadcast and Duration. Although not identical, this question is similar to Question 4, Part II, Section IV-A of FCC Form 303.

Question 25 requests the applicant to explain the reasons for any substantial variation between previous proposals and actual operation during the composite week.

Question 26 requests the applicant to list the number of 60-minute segments of the composite week containing over 18-minutes of commercial matter. Question 7 is, in this regard, similar to Question 23, Part IV, Section IV-A of FCC Form 303.

Question 27 is related to any substantial variation between applicant's previous commercial proposals and actual commercial operation and is based on Question 24. C., Part IV, Section IV-B of FCC Form 303.

Question 28 relates to the applicant's proposed commercial practices and is similar in content to Question 26, Part V, Section IV-A of FCC Form 303.

Question 29 relates to the applicant's past and proposed programming format.

Question 30 relates to the Commission's AM-FM duplication rule (§ 73.242 (a)) and is similar in content to Question 11, Part II, Section IV-A of FCC Form 303.

Question 31 asks whether the applicant has placed in its public inspection file the composite week logs used as a basis for responding to questions set forth in Part V of proposed FCC Form 303-R. This represents a departure from existing Commission practice, which requires that the logs be submitted with the application. However, in view of the requirements of Question 4 of proposed FCC Form 303-R, we do not believe that it is necessary to have the logs submitted to the Commission unless a substantial question is raised by the Commission on its own motion or the public about the applicant's past programming operations.

Question 32 provides the applicant an opportunity to provide any additional information it believes necessary to ade-

[1] We are not, of course, wedded to the format of proposed FCC Form 303-R. The final format will be established at the conclusion of this proceeding.

V 40 73 APR 15 75 XUM

quately reflect its operation during the past license period.

PART VI—EQUAL EMPLOYMENT OPPORTUNITY

Question 33 is designed to elicit information concerning the specific practices undertaken by the applicant during the past license term to assure equal employment opportunities for minorities and women and the practices applicant proposed to follow to assure such opportunities. (See paragraphs 10, 11 and 12, below.)

9. In conjunction with the above, several observations are in order. As noted, Question 23, Part V differs in several respects from current reporting requirements. First, the question now requests information relating to the applicant's previous programming proposals, actual composite week performance, and future proposals in six areas, namely: (1) Entertainment and Sports; (2) News; (3) Public Affairs; (4) All other programs, exclusive of Entertainment and Sports; (5) Commercial Matter; and (6) Noncommercial Matter. With regard to items (1), (2), (3) and (4), commercial and noncommercial matter (e.g., public service announcements, station promos, etc.) are to be *excluded* in computing the number of minutes and percentage of time devoted to each program category. Item (5), of course, includes a computation of commercial matter, and item (6) includes a computation of noncommercial matter such as public service announcements, station identification announcements, promos etc. Question 23, in this respect, is designed to give a complete picture of the applicant's programming operations.

10. Second, and more importantly perhaps, the question is designed to reveal at a glance whether there has been a substantial deviation from the previous proposals in applicant's prorgamming operations. An applicant is not, of course, expected to adhere inflexibly in day-to-day operations to the specific programming proposals contained in its previous application. At the same time, it is clear that an applicant cannot completely disregard its previous programming proposals in the hope that its application will slip by and still be acted upon favorably. Question 23, therefore, will enable the applicant, members of the public and the Commission to determine whether there has been a substantial *unexplained* deviation between previous proposals and actual performance.

11. It will also be observed that proposed Question 23, Part V retains separate categories for (a) Public Affairs and (b) All other programs, exclusive of Entertainment and Sports. In this respect, it has been suggested that much of the informational programming traditionally included in the "All other" program category—e.g., communications for agencies such as the Veterans Administration, Social Security Administration, and Community Bulletin Board, etc.—perform a service very much akin to public affairs programming for persons who depend greatly on this type of information. We, therefore, invite specific comments on whether—for radio—Public Affairs and All other programs, exclusive of Entertainment and Sports should be combined into one category, whether Public Affairs and News should be combined, or whether a new program category such as a Community Service Programs should be developed. Any other suggested alternatives interested parties may have are, of course, invited by this Notice.

12. In connection with Question 23, Part V we also propose to amend the definition of Public Affairs program as set forth in note 1(d) of §§ 73.112, 73.282, and 73.670 of the Commission's rules.

The Commission's definition of Public Affairs uses the term to be defined as the definition for itself. The present definition, for example, after mentioning a variety of program formats, (e.g., talks, speeches, round tables, documentaries, etc.) concludes by stating that a public affairs program is one "primarily concerning local, national and international public affairs." Clearly, therefore, a more precise definition is needed. An alternative definition suggested by Dempsey and Kopovitz in its Further Comments in Docket No. 19154 is as follows:

> Public Affairs programs (PA) include talks, commentaries, discussions, speeches, editorials, political programs, documentaries, forums, panels, round tables, and similar programs which deal with: (1) local community problems, or (2) other problems or topics of concern to the general public which are local, state, national or international in scope. Also included would be programs (exclusive of news inserts) providing extended coverage, whether live or recorded, of public events or proceedings concerned with the aforementioned problems or topics.

Subsection (2) of the proposed definition is included to make clear that programs such as Social Security Reports, and like programs, are comprehended by the Public Affairs definition and would be classified as Public Affairs, rather than All other. Any other suggestions as to an appropriate Public Affairs definition are, of course, invited by this Notice.

13. Question 23 is designed to elicit information on the number of public service announcements previously proposed, actually broadcast during the composite week, and proposed for a typical week. It has been suggested that the question should also request information concerning the local or national character of such announcements. See Questions 4.B. and 9.B., Section IV–B of FCC Form 303. Our initial reaction is that for radio such information may not be necessary because it appears most such announcements are local in nature. Nonetheless, comments are specifically invited on this suggested change in Question 23 of Part V. It has also been suggested that Question 23 should be designed to request information concerning the amount of programing broadcast between 6:00 a.m. and midnight and between midnight and 6:00 a.m. Compare FCC Form 303, Section IV–B, Question 8. In view of Question 24, however, it is not clear whether such information would serve a useful purpose. Nonetheless, respondents should consider such a proposal and submit any comments they may have thereon.

14. In connection with Part VI, Equal Employment Opportunity, it should be noted that proposed Question 1 relates to both the applicant's past and proposed practices to assure equal employment opportunities for minorities and women. We are not, in this proceeding, soliciting comments on the required contents of any equal employment opportunity program. This matter is presently under consideration by the Commission and clarifying guidelines will be issued in the near future. In this proceeding, however, comments are specifically requested on our proposal to delete from current Section VI of the Commission's various application forms the request for a brief description of any discrimination complaint filed against a broadcast applicant, including identity of the persons involved, the date of filing, the court or agency, the file number (if any), and the disposition or current status of the matter. It has been called to our attention that the requirements of this part of Section VI may in contravention of the spirit of section 709(a) of the Civil Rights Act of 1964, as amended. More importantly, it appears that the requests of such detailed information may violate the right of privacy afforded employers *and* employees under the exemptions contained in section 552(b)(6) of the Freedom of Information Act, 5 U.S.C. 522(B)(6). Comments are, therefore, invited on this proposal.

15. In addition to the foregoing, it has been suggested that proposed FCC Form 303–R should be designed to elicit information as to whether the applicant anticipates that its next annual problem-program listing will contain specific problems and programs not included in its most recent listing. See FCC Form 303, Section IV–B, Question 2. In view of our proposed ascertainment procedures, which are designed for continuous ascertainment throughout the license term, it is debatable whether such a question will provide useful information. However, we are asking for specific comments on such a proposal.

16. Finally, it should be noted that Questions 2, 4, 5, 6, and 7 of Section I, and Questions 1–A and B of Section IV–B; of FCC Form 303, which will continue to be filed by television renewal applicants, will be revised to conform to new or revised Question 3 of Part I; Questions 7, 8, and 9 of Part III; Part IV; Questions 20 and 21 of Part V; and Part VI of proposed FCC Form 303–R. Also, in view of the separate form for radio, Section II of the FCC Form 303 will be revised to apply to television only. Revised Section II of FCC Form 303 is attached as Appendix C.

17. In view of the above, comments are invited on: (1) the proposed new form (Appendix A); (proposed changes in our rules relating to the use of Commission's form); and (3) the proposed revision of Section II of FCC Form 303 (Appendix C). Authority for the adoption of the form and changes in the rules is contained in sections 4(i), 303(r), 308(b), and 319(a) of the Communications Act.

18. In accordance with the procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before June 3, 1975, and reply comments on or before June 18, 1975. It is hoped that comments, either formal or informal, will be submitted by interested parties from all segments of the public, the communications bar, national and state broadcasting associations, and individual licensees. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. To assist the Commission in responding to the requirements of the General Accounting Office, respondents may also give their best estimate of the number of man-hours—or fraction thereof—which may be required to complete proposed FCC Form 303–R. Factors which could be considered are the time needed to gather and compile the data and the clerical time needed to complete the proposed form. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it.

19. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all statements, briefs, and comments filed shall be furnished to the Commission. However, in an effort to obtain the widest possible response in this proceeding from licensees and members of the public, informal comments (without extra copies) will be accepted. Copies of all pleadings filed in this matter will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C.

Adopted: April 1, 1975.

Released: April 11, 1975.

FEDERAL COMMUNICATIONS COMMISSION,[2]

[SEAL] VINCENT J. MULLINS, *Secretary.*

[2] Commissioners Lee and Reid concurring in the result.

INSTRUCTIONS FOR FCC FORM 303-R

APPLICATION FOR RENEWAL OF LICENSE FOR COMMERCIAL AM AND FM RADIO BROADCAST STATION

From the Commission

This pamphlet contains instructions needed to complete FCC Form 303-R -- Application For Renewal Of License For Commercial Radio Broadcast Stations.

This pamphlet also contains a brief summary of several of the pertinent operating and filing requirements applicable to AM and FM broadcast stations.

This pamphlet has been prepared to assist licensees in the operation of their stations and in the preparation of FCC Form 303-R. If further assistance is needed, please call the Renewal Branch, Renewal and Transfer Division, Federal Communications Commission, Washington, D. C. 20554

Applicants can help us and themselves if they check their forms to make sure all questions are answered.

FEDERAL COMMUNICATIONS COMMISSION

APPLICATION FOR RENEWAL OF LICENSE FOR COMMERCIAL AM OR FM RADIO BROADCAST STATION

COMMISSION USE ONLY
File No.

PART I - GENERAL INFORMATION

1. NAME OF APPLICANT

STREET ADDRESS

CITY | STATE | ZIP CODE

2. RENEWAL REQUESTED FOR FOLLOWING EXISTING FACILITIES

CALL LETTERS | FREQUENCY | CHANNEL NO.

POWER IN KILOWATTS: NIGHT | DAY
MINIMUM HOURS OPERATION DAILY

HOURS OF OPERATION

UNLIMITED ☐
DAYTIME ONLY ☐
LIMITED ☐

SHARING WITH (SPECIFY STATIONS)
OTHER (SPECIFY)

STATION LOCATION
CITY | STATE

3. RENEWAL IS ALSO REQUESTED FOR THE FOLLOWING:

DAY	NIGHT	
		AUXILIARY ANTENNA
		AUXILIARY TRANSMITTER
		ALTERNATE MAIN TRANSMITTER

PART II - FINANCIAL

4. Attach as Exhibit No 4.a detailed balance sheet of the applicant as at the close of a month within 90 days of the date of this application.

5. Do current liabilities exceed current assets?
☐ YES ☐ NO
If "Yes", attach as Exhibit No. 5 details of applicant's plans to finance the continued operation of the station, together with the manner in which applicant intends to liquidate its liabilities.

PART III - LEGAL

6. Is applicant's Ownership Report (FCC Form 323) filed with this application?
☐ YES ☐ NO
If "No", give the date of filing of the last Ownership Report (_____) and the station's call letters (_____) of the renewal application with which it was filed.

7. Is the applicant in compliance with the provisions of Section 310(a) of the Communications Act of 1934, as amended, relating to the interests of aliens and foreign governments?
☐ YES ☐ NO

8. Does the applicant or any officer, director or principal stockholder (any person owning 25% or more of applicant's stock) have a 25% or more interest in any other business?
☐ YES ☐ NO
If "Yes," attach as Exhibit No. 8 a complete listing.

9. Since the filing of applicant's last major application, has the applicant or any person directly or indirectly controlling the applicant been made party to a suit or finally adjudged guilty by any court or administrative body of any felony or other crime involving moral turpitude or violation of any federal, territorial or local law relating to lotteries, restraints and monopolies and combinations, contracts or agreements in restraints of trade, or of using unfair methods of competition?
☐ YES ☐ NO
If "Yes", attach as Exhibit No. 9 a full disclosure concerning the persons and matters involved, identifying the court or administrative body, and the proceeding (by dates and file numbers), stating the facts upon which the proceeding was based or the nature of the offense committed, and the disposition of the matter (if any).

PART IV - ENGINEERING

10. Transmitters
Model | Type No.

11. Operating constants:	Normal Reading Day	Night
Total plate current to last radio stage in amperes.		
Plate voltage applied to last radio stage in volts.		
Efficiency Factor F of the transmitter at operating power		
Transmitter power output		
Antenna Ammeter		

12. For AM stations operating with directional remote control and a first class radio telephone operator on duty during all broadcast hours, submit as Exhibit No. 12 the skeleton proof of performance measurements made in accordance with Section 73.66(c) of the Commission's Rules. Include in this Exhibit the ratio between the skeleton proof measurements and the measurements contained in the last complete proof of performance filed with Commission and the pertinent meter indications at the time the skeleton proofs were made.

13. For AM stations operating with directional remote control and less than a first class radio telephone operator on duty during all broadcast hours, submit as Exhibit No. 13 the last two skeleton proof of performance measurements and the last partial proof of performance measurement made in accordance with Sections 73.66(c) and 73.93, Note 2, respectively, of the Commission's Rules. Include in this Exhibit that ratio between the partial proof of performance measurements and the measurements contained in the last complete proof of performance filed with the Commission and the pertinent meter indications at the time the partial proof was made.

V 40-73 APR 15 75 XUM

14. Directional Antenna Operating Values (AM Only)

Tower	Phase Reading in Degrees			Antenna Base Current			Remote Indications of Antenna Current		
	Day	Night	Ratio	Day	Night	Ratio	Day	Night	Ratio
1			X						
2			X						
3			X						
4			X						
5			X						
6			X						

15. In the space provided, give the manufacturer and type of antenna monitor used to take the readings in Question No. 12 above.

16. Have changes been made in the fundamental audio or radio circuits of the transmitter affecting the schematic diagram heretofore filed with the Commission?

☐ YES ☐ NO

If "Yes," attach as Exhibit No. 16 an accurate corrected diagram and brief explanation.

17. (a) Have equipment performance measurements been made within the past four months?

☐ YES ☐ NO

(b) Give date of last measurements

(c) Do these measurements show the transmitting system performance to be in accordance with the Commission's Rules?

☐ YES ☐ NO

If answer to 17(a) or 17(c) is "No," attach as Exhibit No. 17 a complete explanation.

18. In what respect, if any, does the apparatus, antenna, or operation differ from that described in the last application for license or renewal of license?

19. Attach as Exhibit No. 19 one exact copy of the transmitter operating logs for the seven days comprising the composite week analyzed in Section V of the application. If original logs are submitted they will be returned.

I certify that I am the ☐ Technical Director, ☐ Chief Engineer, ☐ Registered Professional Engineer, or ☐ Consultant for the applicant of the radio station for which this application is submitted and that I have examined the foregoing statement of technical information and that it is true to the best of my knowledge and belief. (This signature may be omitted provided the engineer's original signed report of the data from which the information contained herein has been obtained is attached hereto.

DATE	SIGNATURE

PART V - PROGRAMMING INFORMATION

20. Has applicant placed in its public information file at the appropriate times the required documentation relating to its efforts to ascertain the community problems, needs, and interests?

☐ YES ☐ NO

If "No," attach as Exhibit No. 20 a complete statement of explanation.

21. Attach as Exhibit No. 21 your Community Leader Checklist for each year of the license term.

22. Has the applicant placed in its public inspection file at the appropriate times its annual list of those problems, needs and interests which, in the applicant's judgement, warranted treatment by its station and typical and illusttative programming in response thereto?

☐ YES ☐ NO

Attach these listings as Exhibit No. 22.

23. Complete lines 1 through 6 of the following chart. State the amount of time (rounded to the nearest minute) that applicant (a) previously proposed to devote, (b) actually b/c during the composite week, and (c) now proposes to devote to the program types designated below. In line 7 state the number of Public Service Announcements (a) previously proposed, (b) actually broadcast during the composite week, and (c) the minimum now proposed to be broadcast during a typical week.

Program Categories	Previously Proposed (a)		Composite Week Performance (b)		Now Proposed (c)	
	Minutes of Operation	% of Total Time	Minutes of Operation	% of Total Time	Minutes of Operation	% of Total Time
(1) Entertainment and Sports						
(2) News						
(3) Public Affairs						
(4) All other programs, exclusive of entertainment and sports						
(5) Commercial matter						
(6) Noncommercial matter						
TOTALS		100%		100%		100%
(7) Public Service Announcements	NUMBER		NUMBER		NUMBER	

24. In Exhibit No. 24 list those programs (excluding religious programs) in the composite week included in the public affairs and all other programs, exclusive of entertainment and sports program categories indicating their title, source, type, brief description, time broadcast and duration.

25. Did the amount of time applicant devoted to nonentertainment programming (lines 2, 3 and 4 of the above chart) during the composite week vary substantially from the representations made in applicant's last application?

☐ YES ☐ NO

If "Yes", attach as Exhibit No. 25 a statement explaining the variations.

26. State the number of 60-minute segments in the composite week (beginning with the first full clock hour and ending with the last clock hour of each broadcast day) containing over 18 minutes of commercial matter: _____ segments
Below list each segment, specifying the amount of commercial time in the segment and the day and time broadcast.

Amount of Commercial Time in Segment — Day and Time Broadcast

27. Do the applicant's commercial practices for the period covered by this application vary substantially from the representations made in applicant's last application?

☐ YES ☐ NO

If "Yes," explain in Exhibit No. 27 the variations and the reasons therefor.

28. State the minimum amount of commercial matter applicant proposes normally to allow in any 60-minute segment (Minutes: _____). State the percentage of hourly segments per week this amount is expected to be exceeded (Percentage: _____), and the limits per hourly segment that would then apply under those circumstances to regular commercial matter (Minutes: _____) and to political commercial matter (Minutes: _____).

V 40-73 APR 15 75 XUM

29. Describe briefly applicant's program format(s) during the past 12 months.

Describe briefly applicant's proposed format.

30. If this application is for an FM station, did the programming duplicate that of an AM station?

☐ YES ☐ NO

If "Yes," state: the call letters of the AM station; _____

the population of the community of license of the FM station; _____

the number of hours duplicated during the composite week; and _____

the total number of FM broadcast hours in the composite week. _____

31. Has applicant placed in its public inspection file an exact copy of the program logs for the composite week used as a basis for responding to the questions herein?

☐ YES ☐ NO

32. Applicant may submit as Exhibit No. any additional information which, in its judgment, is necessary adequately to describe or to present fairly its services and operations in relation to the public interest.

PART VI - EQUAL EMPLOYMENT OPPORTUNITY

33. Submit as Exhibit No. 33 specific practices undertaken by applicant during the past license term to assure equal employment opportunity for minorities and women and the practices applicant proposes to follow during the coming license term to assure equal employment opportunities for minorities and women.

The APPLICANT hereby waives any claim to the use of any particular frequency or of the ether as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934.)

The APPLICANT represents that this application is not filed for the purpose of impeding, obstructing, or delaying determination on any other application with which it may be in conflict.

The APPLICANT acknowledges that all the statements made in this application and attached exhibits are considered material representations, and that all the exhibits are a material part hereof and are incorporated herein as if set out in full in the application.

CERTIFICATION

I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith.

→ Signed and dated this____ day of _____ 19____.

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND IMPRISONMENT. U. S. CODE, TITLE 18, SECTION 1001.	NAME OF APPLICANT

APPENDIX B

FCC Form 303
June 1974

Form Approved
Budget Bureau No. 52-R016.16

Section I

UNITED STATES OF AMERICA
FEDERAL COMMUNICATIONS COMMISSION

APPLICATION FOR RENEWAL OF BROADCAST STATION LICENSE

File No.

Name and post office address of applicant (See Instruction D)

Send notices and communications to the following-named person at the post office address indicated:

INSTRUCTIONS

A. This form is to be used in all cases when applying for Renewal of Broadcast Station License. It consists of this part, Section I, and the following sections:

Section II Renewal Application Engineering Data
Section IV-A Statement of AM or FM Program Service
Section IV-B Statement of Television Program Service
Section VI Equal Employment Opportunity Program

B. Prepare and file three copies of this form and all exhibits with the Federal Communications Commission, Washington, D.C. 20554

C. Number exhibits serially in the space provided in the body of the form and list each exhibit in the space provided on page 2 of this Section. Date each exhibit.

D. The name of the applicant must be stated exactly as it appears on the current license.

E. Information called for by this application which is already on file with the Commission need not be refiled in this application provided (1) the information is now on file in another application or FCC form filed by or on behalf of this applicant; (2) the information is identified fully by reference to the file number (if any), the FCC form number, and the filing date of the application or other form containing the information and the page or paragraph referred to, and (3) after making the reference, the applicant states: "No change since date of filing." Any such reference will be considered to incorporate into this application all information, confidential or otherwise, contained in the application or other form referred to. The incorporated application or other form will thereafter, in its entirety, be open to the public.

F. This application shall be personally signed by the applicant, if the applicant is an individual; by one of the partners, if the applicant is a partnership; by an officer, if the applicant is a corporation; by a member who is an officer, if the applicant is an unincorporated association; by such duly elected or appointed officials as may be competent to do so under the laws of the applicable jurisdiction, if the applicant is an eligible government entity; or by the applicant's attorney in case of the applicant's physical disability or of his absence from the United States. The attorney shall, in the event he signs for the applicant, separately set forth the reason why the application is not signed by the applicant. In addition, if any matter is stated on the basis of the attorney's belief only (rather than his knowledge), he shall separately set forth his reasons for believing that such statements are true.

G. *BE SURE ALL NECESSARY INFORMATION IS FURNISHED AND ALL PARAGRAPHS ARE FULLY ANSWERED. IF ANY PORTIONS OF THE APPLICATION ARE NOT APPLICABLE, SPECIFICALLY SO STATE. DEFECTIVE OR INCOMPLETE APPLICATIONS MAY BE RETURNED WITHOUT CONSIDERATION.*

1. Renewal requested for following existing facilities

Call letters	Frequency	Channel No.

Power in kilowatts		Minimum hours operation daily
Night	Day	

Hours of operation

Unlimited ☐	Sharing with (Specify Stations)	Other (Specify)
Daytime only ☐		
Limited ☐		

Station location

City	State

2. Is applicant or any person directly or indirectly controlling applicant, party to a suit in any Federal Court involving the monopolizing, or an attempt to monopolize radio communication directly or indirectly through control of the manufacturer or sale of radio apparatus, by exclusive traffic arrangements, or by any other means, or of using unfair methods of competition? Yes ☐ No ☐

If the answer is "Yes", attach as Exhibit No. a full description of the proceeding, identifying the court and showing where records of the proceeding may be obtained. (See Section 313 of the Communications Act of 1934.)

3. Attach as Exhibit No. a detailed balance sheet of the applicant as at the close of a month within 90 days of the date of this application.

4. Is the applicant's Ownership Report filed with this application? Yes ☐ No ☐
(See 1.615 of Commission's Rules.)
If answer is "No", give date of filing of last Ownership Report and call letters, station location and file number of renewal application with which it was filed.

5. Any change in the citizenship of the applicant? Yes ☐ No ☐

6. Is the applicant a representative of an alien or foreign government? Yes ☐ No ☐

7. List below other businesses in which the applicant or any officer, director, or principal stockholder (any person owning 25% or more of applicant's stock) has a 25% or more interest. List also any radio station other than the station which is the subject of this application in which any of the above named persons have any interest, and the nature and extent of their interest in the broadcast station.

V40-73 APR 15 75 XUM

FCC Form 303 — Section I, Page 2

THE APPLICANT hereby waives any claim to the use of any particular frequency or of the ether as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. (See Section 304 of the Communications Act of 1934).

THE APPLICANT represents that this application is not filed for the purpose of impeding, obstructing, or delaying determination on any other application with which it may be in conflict.

THE APPLICANT acknowledges that all the statements made in this application and attached exhibits are considered material representations, and that all the exhibits are a material part hereof and are incorporated herein as if set out in full in the application.

CERTIFICATION

I certify that the statements in this application are true, complete, and correct to the best of my knowledge and belief, and are made in good faith.

Signed and dated this ..... day of ....., 19..... .

FEES. EFFECTIVE JANUARY 1, 1964, INCLUDE FILING FEE WITH THIS APPLICATION. SEE PART I OF FCC RULES FOR AMOUNT OF FEE. DO NOT SEND CASH. MAKE CHECK OR MONEY ORDER PAYABLE TO THE FEDERAL COMMUNICATIONS COMMISSION.

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND IMPRISONMENT. U.S. CODE, TITLE 18, SECTION 1001.

FCC Form 303 — FEDERAL COMMUNICATIONS COMMISSION — Section IV-A, Page 1

Instructions, General Information and Definitions For AM-FM Broadcast Application

1. *Applicants for renewal of license* shall answer all questions in this Section IV-A as part of their renewal application. In answering questions on proposed operation where no substantial change from past operation is proposed, applicant may so state.

2. *Applicants for new AM or FM stations and assignees and transferees of control* shall file this Section IV-A with respect to Ascertainment of Community Needs (Part I), Proposed Programming (Part III), Proposed Commercial Practices (Part V), General Station Policies and Practices (Part VI) and Other Matters and Certification (Part VII).

3. *Assignors and transferors of control* shall file information on Past Programming (Part II), Past Commercial Practices (Part IV) and Other Matters and Certification (Part VII). Questions on past programming shall be answered on the basis of the most recent composite week. Assignors and transferors who have filed an application for renewal of license within eighteen months prior to filing an application for assignment or transfer need not answer any portion of Section IV but must refer to the pertinent filing and identify it.

4. *Applicants for major changes in facilities* (as defined in Sections 1.571(a)(1) and 1.573(a)(1) of the Commission's Rules) need not file this Section IV-A unless a substantial change in programming is proposed or unless the information is requested by the Commission.

5. A. Where any of the information required is already on file with the Commission, such information need not be resubmitted, *provided* that the previous application or filing containing the information is specifically referred to and identified and the applicant states that there has been no change since the information was filed.

B. The replies to the following questions constitute representations on which the Commission will rely in considering this application. Thus time and care should be devoted to the replies so that they will reflect accurately applicant's responsible consideration of the questions asked. It is not, however, expected that the licensee will or can adhere inflexibly in day-to-day operation to the representations made herein.

C. Replies relating to future operation constitute representations against which the subsequent operation of the station will be measured. Accordingly, if during the license period the station substantially alters its programming format or commercial practices, the licensee should notify the Commission of such changes; otherwise it is presumed the station is being operated substantially as last proposed.

6. The applicant's attention is called to the Commission's "Report and Statement of Policy re: Commission En Banc Programming Inquiry," released July 29, 1960. (FCC 60-970; 25 Federal Register 7291; 20 Pike and Fischer Radio Regulation 1902), copies of which are available upon request to the Commission; and also to the material contained in Attachments A and B to this Section.

7. A legible copy of this Section IV-A and the exhibits submitted therewith shall be kept on file available for public inspection at any time during regular business hours. It shall be maintained at the main studio of the station or any other accessible place (such as a public registry for documents or an attorney's office) in the community to which the station is or is proposed to be licensed.

8. *Network Programs.* Where information for the composite week is called for herein with respect to commercial matter or program type classification in connection with national network programs, the applicant may rely on information furnished by the network.

9. *Signature.*

This Section IV-A shall be signed in the space provided at the end hereof. It shall be personally signed by the applicant, if the applicant is an individual; by one of the partners, if the applicant is a partnership; by an officer of applicant, if a corporation or association. ***SIGNING OF THIS SECTION IS A REPRESENTATION THAT THE PERSON WHO SIGNS IS FAMILIAR WITH THE CONTENTS OF THIS SECTION AND ASSOCIATED EXHIBITS, AND SUPPORTS AND APPROVES THE REPRESENTATIONS THEREIN ON BEHALF OF THE APPLICANT.***

Definitions

The definitions set out below are to be followed in furnishing the information called for by the questions of this Section IV-A. The inclusion of various types and sources of programs in the paragraphs which follow is not intended to establish a formula for station operation, but is a method for analyzing and reporting station operation.

10. *Sources* of programs are defined as follows:

(a) *A local program* (L) is any program originated or produced by the station, or for the production of which the station is primarily responsible, and employing live talent more than 50% of the time. Such a program, taped or recorded for later broadcast, shall be classified as local. A local program fed to a network shall be classified by the originating station as local. All non-network news programs may be classified as local. Programs primarily featuring records or transcriptions shall be classified as recorded even though a station announcer appears in connection with such material. However, identifiable units of such programs which are live and separately logged as such may be classified as local (e.g., if during the course of a program featuring records or transcriptions a non-network 2-minute news report is given and logged as a news program, the report may be classified as local).

(b) *A network program* (NET) is any program furnished to the station by a network (national, regional or special). Delayed broadcasts of programs originated by networks are classified as network.

(c) *A recorded program* (REC) is any program not defined above, including, without limitation, those using recordings, transcriptions, or tapes.

11. *Types* of programs are defined as follows:

If a program contains two or more identifiable units of program material which constitute different program types as herein defined, each such unit may be separately logged and classified.

The definitions of the first eight types of programs, (a) through (h) are not intended to overlap each other, and these types will normally include all the programs broadcast. The programs classified under (i) through (k) will have been classified under the first eight and there may be further duplication among types (i) through (k).

(a) *Agricultural programs* (A) include market reports, farming or other information specifically addressed, or primarily of interest, to the agricultural population.

V 40 I 73 APR 15 75 XUM

FCC Form 303 — Section IV-A, Page ii

Definitions - Cont.

(b) ***Entertainment programs*** (E) include all programs intended primarily as entertainment, such as music, drama, variety, comedy, quiz, etc.

(c) ***News programs*** (N) include reports dealing with current local, national, and international events, including weather and stock market reports; and when an integral part of a news program, commentary, analysis and sports news.

(d) ***Public Affairs programs*** (PA) include talks, commentaries, discussions, speeches, editorials, political programs, documentaries, forums, panels, round tables, and similar programs primarily concerning local, national, and international public affairs.

(e) ***Religious programs*** (R) include sermons or devotionals; religious news; and music, drama, and other types of programs designed primarily for religious purposes.

(f) ***Instructional programs*** (I) include programs, other than those classified under Agricultural, News, Public Affairs, Religious or Sports, involving the discussion of, or primarily designed to further an appreciation or understanding of, literature, music, fine arts, history, geography, and the natural and social sciences; and programs devoted to occupational and vocational instruction, instruction with respect to hobbies, and similar programs intended primarily to instruct.

(g) ***Sports programs*** (S) include play-by-play and pre- or post-game related activities and separate programs of sports instruction, news, or information (e.g., fishing opportunities, golfing instruction, etc.).

(h) ***Other programs*** (O) include all programs not falling within definitions (a) through (g).

* * * * * * * *

(i) ***Editorials*** (EDIT) include programs presented for the purpose of stating opinions of the licensee.

(j) ***Political programs*** (POL) include those which present candidates for public office or which give expression (other than in station editorials) to views on such candidates or on issues subject to public ballot.

(k) ***Educational institution programs*** (ED) include any program prepared by, in behalf of, or in cooperation with, educational institutions, educational organizations, libraries, museums, PTA's or similar organizations. Sports programs shall not be included.

12. ***Commercial matter*** (CM) includes commercial continuity (network and non-network) and commercial announcements (network and non-network) as follows:

(a) ***Commercial continuity*** (CC) is the advertising message of a program sponsor.

(b) ***A commercial announcement*** (CA) is any other advertising message for which a charge is made, or other consideration is received.

(1) Included are (i) "bonus" spots, (ii) trade-out spots, and (iii) promotional announcements of a future program where consideration is received for such an announcement or where such announcement identifies the sponsor of the future program beyond mention of the sponsor's name as an integral part of the title of the program (e.g., where the agreement for the sale of time provides that the sponsor will receive promotional announcements, or when the promotional announcement contains a statement such as "LISTEN TOMORROW FOR THE [NAME OF PROGRAM] BROUGHT TO YOU BY [SPONSOR'S NAME]").

(2) Other announcements including but not limited to the following are *not* commercial announcements:

(i) Promotional announcements, except as defined above;

(ii) Station identification announcements for which no charge is made;

(iii) Mechanical reproduction announcements;

(iv) Public service announcements;

(v) Announcements made pursuant to Sections 73.119(d) or 73.289(d) of the Rules that materials or services have been furnished as an inducement to broadcast a political program or a program involving the discussion of controversial public issues;

(vi) Announcements made pursuant to the local notice requirements of Sections 1.580 (pre-grant) and 1.594 (designation for hearing) of the Rules.

13. ***A public service announcement*** (PSA) is any announcement (including network) for which no charge is made and which promotes programs, activities, or services of federal, state or local governments (e.g., recruiting, sales of bonds, etc.) or the programs, activities or services of non-profit organizations (e.g., UGF, Red Cross blood donations, etc.), and other announcements regarded as serving community interests, excluding time signals, routine weather announcements and promotional announcements.

14. ***A program*** is an identifiable unit of program material, logged as such, which is not an announcement as defined above (e.g., if, within a 30-minute entertainment program, a station broadcasts a one-minute news and weather report, this news and weather report may be separately logged and classified as a one-minute news program and the entertainment portion as a 29-minute program).

15. ***Composite Week*** - Seven days designated annually by the Commission in a Public Notice and consisting of seven different days of the week.

16. ***Typical Week*** - A week which an applicant projects as typical of his proposed weekly operation.

FCC Form 303	FEDERAL COMMUNICATIONS COMMISSION	Section IV-A
STATEMENT OF AM OR FM PROGRAM SERVICE	Name of Applicant	
Call letters of station	City and state which station is licensed to serve	

PART I

Ascertainment of Community Needs

1. A. State in Exhibit No.____ the methods used by the applicant to ascertain the needs and interests of the public served by the station. Such information shall include (1) identification of representative groups, interests and organizations which were consulted and (2) the major communities or areas which applicant principally undertakes to serve.

B. Describe in Exhibit No.____ the significant needs and interests of the public which the applicant believes his station will serve during the coming license period, including those with respect to national and international matters.

C. List in Exhibit No.____ typical and illustrative programs or program series (excluding Entertainment and News) that applicant plans to broadcast during the coming license period to meet those needs and interests.

NOTE: Sufficient records shall be kept on file at the station, open for inspection by the Commission, for a period of 3 years from the date of filing of this statement (unless requested to be kept longer by the Commission) to support the representations required in answer to Question 1. These records should not be submitted with this application and need not be available for public inspection.

PART II

Past Programming

2. A. State the total hours of operation during the composite week: _____

B. Attach as Exhibit No. ___ one exact copy of the program logs for the composite week used as a basis for responding to questions herein. Applicants utilizing automatic program logging devices must comply with the provisions of Sections 73.112(c) and 73.282(c). Automatic recordings will be returned to the applicant. Exact copies of program logs will not be returned.

If applicant has not operated during all of the days of the composite week which would be applicable to the use of this form, applicant should so notify the Commission and request the designation of substitute day or days as required.

3. A. State the amount of time (rounded to the nearest minute) the applicant devoted in the composite week to the program types (see Definitions) listed below. Commercial matter within a program segment shall be excluded in computing time devoted to that particular program segment (e.g., a 15-minute news program containing 3 minutes' commercial matter shall be counted as a 12-minute news program).

	Hours	Minutes	% of Total Time on Air
(1) News	.....	.....	..... %
(2) Public Affairs	.....	.....	..... %
(3) All other programs, exclusive of Entertainment and Sports	.....	.....	..... %

B. If in the applicant's judgment the composite week does not adequately represent the station's past programming, applicant may in addition provide in Exhibit No.____ the same information as required in 3-A above (using the same format) for a calendar month or longer during the year preceding the filing of this application. Applicant shall identify the time period used. Applicant need not file the program logs used in responding to this question unless requested by the Commission.

4. List in Exhibit No.____ typical and illustrative programs or program series (excluding Entertainment and News) broadcast during the year preceding the filing of this application which have served public needs and interests in applicant's judgment. Denote, by underlining the Title, those programs, if any, designed to inform the public on local, national or international problems of greatest public importance in the community served by the applicant. Use the format below.

Title	Source*	Type*	Brief Description	Time Broadcast & Duration	How Often Broadcast

5. Submit in Exhibit No.____ the following information concerning the applicant's news programs:

A. The staff, news gathering facilities, news services and other sources utilized; and

B. An estimate of the percentage of news program time devoted to local and regional news during the composite week.

6. In connection with the applicant's public affairs programming, describe its policy during the past renewal period with respect to making time available for the discussion of public issues and the method of selecting subjects and participants.

*See Definitions

V 40-73 APR 15 75 XUM A

STATEMENT OF AM OR FM PROGRAM SERVICE Section IV-A, Page 2

7. Describe briefly the applicant's program format(s) during the past 12 months (e.g., country and western music, talk, folk music, classical music, foreign language, jazz, standard pops, etc.) and the approximate percentage of time per week devoted to such format(s).

8. State how and to what extent (if any) applicant's station contributed during the past license period to the over-all diversity of program services available in the area or communities served.

9. Was the applicant affiliated with one or more national, regional or special radio networks during the past license period?
Yes_____ No_____. If "yes," give name(s) of network(s): _____

10. State the number of public service announcements broadcast by the applicant during the composite week: _____

11. A. If this application is for an FM station, did the programming duplicate that of any AM station?
Yes_____ No_____. ("Duplicate" means simultaneous broadcasting of a particular program over both the AM and FM stations or the broadcast of a particular FM program within 24 hours before or after the identical program is broadcast over the AM station—Section 73.242(a) of the Rules and Regulations.)
B. If the answer is "yes," identify the AM station by call letters; describe its relation to the FM station; and state the number of hours each day in the composite week that were duplicated.

12. A. In applicant's judgment, does the information supplied in this Part II adequately reflect its past programming?
Yes _____ No _____.
B. If "no," applicant may attach as Exhibit No._____ such additional information as may be necessary to describe accurately and present fairly its program service.
C. If applicant's programming practices for the period covered by this statement varied substantially from the programming representations made in applicant's last renewal application, the applicant shall submit as Exhibit No. _____ a statement explaining the variations and the reasons therefor.

PART III

Proposed Programming

13. State the proposed total hours of operation during a typical week:_____

14. State the minimum amount of time the applicant proposes to devote normally each week to the program types (see Definitions) listed below. Commercial matter within a program segment shall be excluded in computing time devoted to that particular program segment (e.g., a fifteen-minute news program containing 3 minutes' commercial matter shall be computed as a 15-minute news program.)

	Hours	Minutes	% of Total Time on Air
(1) News	.....	.....	..... %
(2) Public Affairs	.....	.....	..... %
(3) All other programs, exclusive of Entertainment and Sports	.....	.....	..... %

15. Submit in Exhibit No._____ the following information concerning the applicant's proposed news programs:
A. The staff, news gathering facilities, news services and other sources to be utilized; and
B. An estimate of the percentage of news program time to be devoted to local and regional news during a typical week.

STATEMENT OF AM OR FM PROGRAM SERVICE Section IV-A, Page 3

16. In connection with the applicant's proposed public affairs programming describe its policy with respect to making time available for the discussion of public issues and the method of selecting subjects and participants.

17. Describe the applicant's proposed programming format(s), e.g., country and western music, talk, folk music, classical music, foreign language, jazz, standard pops, etc., and the approximate percentage of time per week to be devoted to such format(s).

18. State how and to what extent (if any) applicant proposes to contribute to the over-all diversity of program services available in the area or communities to be served.

19. State the minimum number of public service announcements applicant proposes to present during a typical week: _____

20. Will the applicant be affiliated with one or more national, regional, or special radio networks? Yes_____ No_____.
If "yes," give name(s) of networks(s): _____

21. A. If this application is for an FM station will the programming duplicate that of any AM station? Yes_____ No_____. ("Duplicate" means simultaneous broadcasting of a particular program over both AM and FM stations or the broadcast of a particular FM program within 24 hours before or after the identical program is broadcast over the AM station—Section 73.242(a) of the Rules and Regulations.)
B. If the answer is "yes," identify the AM station by call letters; describe its relation to the FM station; and state the number of hours each day proposed to be duplicated.

PART IV

Post Commercial Practices

22. Give the following information with respect to the composite week:

	All Hours	6 A.M. - 6 P.M.
A. Total broadcast time	.....	.....
B. Time devoted to commercial matter:		
(1) Amount in hours and minutes	.....	.....
(2) Percentage	..... %	..... %

V 40-73 APR 15 75 XUM

STATEMENT OF AM OR FM PROGRAM SERVICE Section IV-A, Page 4

23. State the number of 60-minute segments of the composite week (beginning with the first full clock hour and ending with the last clock hour of each broadcast day) containing the following amounts of commercial matter:

A. Up to and including 10 minutes ....
B. Over 10 and up to and including 14 minutes ....
C. Over 14 and up to and including 18 minutes ....
D. Over 18 minutes ....

List each segment in category (D) above, specifying the amount of commercial time in the segment, and the day and time broadcast.

24. A. In the applicant's judgment, does the information supplied in this Part IV for the composite week adequately reflect its commercial practices? Yes_____ No_____.

B. If "no," applicant may attach as Exhibit No._____ such additional material as may be necessary to describe adequately and present fairly its commercial practices.

C. If applicant's commercial practices for the period covered by this statement varied substantially from the commercial representations made in applicant's last renewal application, the applicant shall submit as Exhibit No._____ a statement explaining the variations and the reasons therefor.

PART V

Proposed Commercial Practices

25. State the maximum percentage of commercial matter which the applicant proposes normally to allow during the following segments of a typical week:

6 a.m. - 6 p.m. ..... _____%
All hours ..... _____%

If applicant proposes to permit this level to be exceeded at times, state under what circumstances and how often this is expected to occur, and the limits that would then apply.

26. What is the maximum amount of commercial matter in any 60-minute segment which the applicant proposes normally to allow?

If applicant proposes to permit this amount to be exceeded at times, state under what circumstances and how often this is expected to occur, and the limits that would then apply.

STATEMENT OF AM OR FM PROGRAM SERVICE Section IV-A, Page 5

PART VI

General Station Policies and Procedures

27. State the name(s) and position of the person(s) who determines the day-to-day programming decisions and directs the operation of the station covered by this application and whether he is employed full-time in the operation of the station.

28. A. Does the applicant have established policies with respect to programming and advertising standards (whether developed by the station or contained in a code of broadcasting standards and practices) to guide the operation of the station?

Yes_____ No_____.

B. If "yes," attach as Exhibit No._____ a brief summary of such policies. (If the station relies exclusively upon the published code of any national organization or trade association, a statement to that effect will suffice)

29. State the methods by which applicant undertakes to keep informed of the requirements of the Communications Act and the Commission's Rules and Regulations, and a description of the procedures established to acquaint applicant's employees and agents with such requirements and to ensure their compliance.

30. If, as an integral part of its station identification announcements, applicant makes or proposes to make reference to any business, profession or activity other than broadcasting in which applicant or any affiliate or stockholder is engaged or financially interested, directly or indirectly, set forth typical examples and approximate frequency of their use.

31. State the number of station employees: _____. If the station has or proposes to have ten or more employees, state in Exhibit No._____ the number of full-time and part-time employees in the programming, sales, technical, and general and administrative departments. Do not list the same employee in more than one category. However, if an employee performs multiple services, this may be so shown by identifying him with his various duties e.g., if two employees are combination announcers and salesmen, the list would include an entry of "two programming-sales".

STATEMENT OF AM OR FM PROGRAM SERVICE — Section IV-A, Page 6

PART VII

Other Matters and Certification

32. Applicant may submit as Exhibit No._____ any additional information which, in its judgment, is necessary adequately to describe or to present fairly its services and operations in relation to the public interest.

33. The undersigned has familiarized himself with paragraph 9 of the Instructions to Section IV-A concerning signature requirements and in light of its provisions does hereby:

A. Acknowledge that all the statements made in this Section IV-A and the attached exhibits are considered material representations and that all the exhibits are a material part hereof and are incorporated herein as if set out in full in the application form; and

B. Certify that the statements herein are true, complete, and correct to the best of his knowledge and belief and are made in good faith.

FCC Form 303 — STATEMENT OF TV PROGRAM SERVICE — Section IV-B, Page i

Instructions, Definitions and General Information for Television Renewal Applicants

I. INSTRUCTIONS

1. **Applicants for renewal of license** for television stations shall file Section IV-B as part of their renewal application. Where any information required is already on file with the Commission, such information need not be resubmitted *provided* that the previous application or filing containing the information is specifically referred to and identified and the applicant states that there has been no change since the information was filed.

2. The "current guidelines" of the Commission referred to in Question 1.B are found in the Primer on Ascertainment of Community Problems by Broadcast Applicants (27 FCC 2d 650, 21 RR 2d 1507, 36 Fed Reg 4092). The "appropriate materials" referred to in Question 1.B are those materials which the Primer refers to as "showings" which must be made by the applicant.

3. Except for Questions 7.B., 7.C., 12.B. and 12.C., which are optional, applicants shall answer all questions contained in Section IV-B. In answering questions on proposed operation where no substantial change from past operation is proposed, applicants may so state.

4. A. Exhibits submitted in response to Questions 2, 3, 12.B., 12.C., 13 and 14 shall be limited to two pages.

B. Exhibits submitted in response to Question 6 shall be limited to three pages.

C. Exhibits submitted in response to Questions 7.B. and 7.C. shall each be limited to six pages.

D. Applicants may, at their option, supplement information contained in Exhibits submitted as part of this Section IV-B by placing additional material in their public inspection file. Such additional material shall be identified as a continuation of the particular exhibit and is subject to inspection by the public and the Commission.

5. A legible copy of Section IV-B and all the exhibits submitted therewith shall be kept on file available for public inspection at any time during regular business hours. It shall be maintained at the main studio of the station or any other accessible place (such as a public registry for documents or an attorney's office) in the community in which the station is licensed.

II. DEFINITIONS

The definitions set out below are to be followed in furnishing the information called for by the questions of Section IV-B. The inclusion of various types and sources of programs in the paragraphs which follow is not intended to establish a formula for station operation, but is a method for analyzing and reporting station operation.

1. A. **Sources** of programs are defined as follows:

(i) **A Local Program** is any program originated or produced by the station, or for the production of which the station is substantially responsible, and which also employs live talent more than 50% of the time. Such a program, taped, recorded or filmed for later broadcast shall be classified as local. A local program fed to a network shall be classified by the originating station as local. All non-network and non-syndicated news programs may be classified as local. Programs primarily featuring syndicated or feature films, or other non-locally recorded programs shall not be classified as local, even though a station personality appears in connection with such material. However, identifiable units of such programs which are live and separately logged as such may be classified as local (e.g., if during the course of a feature film program a non-network 2-minute news report is given and logged as a news program, the report may be classified as local).

V 40 73 APR 15 75 XUM

(ii) **A Network Program** (NET) is any program furnished to the station by a network (national, regional or special). Delayed broadcasts of programs originated by networks are classified as network.

(iii) **A Recorded Program** (REC) is any program not defined in (i) and (ii) above, including without limitation, syndicated programs, taped or transcribed programs, and feature films.

B. **Types** of programs are defined as follows:

(i) **News Programs** includes reports dealing with the current local, national and international events, including weather and stock market reports; and commentary, analysis, or sports news when it is an integral part of a news program.

(ii) **Public Affairs Programs** includes talks, commentaries, discussions, speeches, editorials, political programs, documentaries, forums, panels, round tables, and similar programs primarily concerning local, national and international public affairs.

(iii) **All Others** (excluding entertainment and sports) includes all other programs which are not intended primarily as entertainment (e.g., music drama, variety, comedy, quiz, etc.) and do not include play-by-play and pre-or post-game related activities and separate programs of sports instruction, news, or information (e.g., fishing opportunities, golfing instructions, etc.).

(iv) **A Local Program** --See II. 1.A. (i) above.

NOTE: If a program contains two or more identifiable units of program material which constitute different program types as herein defined, each such unit may be separately classified.

C. **Commercial Matter** (CM) includes commercial continuity (network and non-network) and commercial announcements (network and non-network) as follows:

(i) **Commercial Continuity** is the advertising message of a program sponsor.

(ii) **A Commercial Announcement** is any other advertising message for which a charge is made, or other consideration is received.

(1) Included are (i) "bonus" spots, (ii) trade-out spots, and (iii) promotional announcements of a future program where consideration is received for such an announcement or where such announcement identifies the sponsor of the future program beyond mention of the sponsor's name as an integral part of the title of the program, (e.g., where the agreement for the sale of time provides that the sponsor will receive promotional announcements, or when the promotional announcement contains a statement such as "TOMORROW SEE -- [NAME OF PROGRAM] -- BROUGHT TO YOU BY -- [SPONSOR's NAME]").

(2) Other announcements including but not limited to the following are *not* commercial announcements:

(i) Promotional announcements, except as defined above;

(ii) Station identification announcements for which no charge is made;

(iii) Mechanical reproduction announcements;

(iv) Public service announcements;

(v) Announcements made pursuant to Section 73.654(d) of the Rules that materials or services have been furnished as an inducement to broadcast a political program involving the discussion of controversial public issues;

(vi) Announcements made pursuant to the local notice requirements of Sections 1.580 (pre-grant) and 1.594 (designation for hearing) of the Rules.

2. **A Public Service Announcement** (PSA) is any announcement (including network) for which no charge is made and which promotes programs, activities, or services of federal, state, or local governments (e.g., recruiting, sales of bonds, etc.) or the programs, activities or services of non-profit organizations (e.g., UGF, Red Cross blood donations, etc.), and other announcements regarded as serving community interests, excluding time signals, routine weather announcements and promotional announcements.

3. **A Program** is an identifiable unit of program material, logged as such, which is not an announcement as defined above (e.g., if, within a 30-minute entertainment program, a station broadcasts a one-minute news and weather report, this news and weather report may be separately logged and classified as a one-minute news program and the entertainment portion as a 29-minute program).

4. **Network Programs.** Where information for the composite week is called for herein with respect to commercial matter or program type classifications in connection with network programs, the applicant may rely on information furnished by the network.

III. GENERAL INFORMATION

1. **Composite Week.** Seven days designated annually by the Commission in a Public Notice and consisting of seven different days of the week. A composite week is also used to complete FCC Form 303-A (Annual Programming Report).

2. **Typical Week.** A week which an applicant projects as typical of his proposed weekly operation.

3. A. Replies to questions contained in Section IV-B constitute representations on which the Commission will rely in considering an application for renewal. Thus, time and care should be devoted to the replies so that they will reflect accurately the applicant's responsible consideration of the questions asked. It is not, however, expected that an applicant will or can adhere inflexibly in day-to-day operation to the representations made herein.

B. Replies relating to future operation constitute representations against which subsequent operation of the station will be measured. Accordingly, if during the license period the station substantially alters its programming format or commercial practices, the applicant should notify the Commission of such changes at that time; otherwise it is presumed that the station is being operated substantially as proposed in Section IV-B.

4. The applicant's attention is called to the Commission's *Report and Statement of Policy re: Commission En Banc Programming Inquiry*, FCC 60-970, 25 Federal Register 7291, 20 Pike and Fischer Radio Regulations 1902, copies of which are available upon request to the Commission; and also to the material contained in Attachment A to this Section.

5. **Signature.**

Section IV-B shall be signed in the space provided at the end hereof. It shall be personally signed by the applicant, if the applicant is an individual; by one of the partners, if the applicant is a partnership; by an officer of applicant, if a corporation or association. **SIGNING OF THIS SECTION IS A REPRESENTATION THAT THE PERSON IS FAMILIAR WITH THE CONTENTS OF THIS SECTION AND ASSOCIATED EXHIBITS AND SUPPORTS AND APPROVES THE REPRESENTATIONS THEREIN ON BEHALF OF THE APPLICANT.**

APR 15 75

FCC Form 303 | TELEVISION | Section IV-B

Name of Applicant

Call letters of station | City and state which station is licensed to serve

1. The applicant is familiar with Section 1.526(a)(9) of the Commission's Rules and the Commission's current requirements regarding the ascertainment of the problems and needs of its service area and does hereby represent that:
   A. In accordance with Section 1.526(a)(9) it has placed in its public inspection file at the appropriate times its annual lists for the current license period of significant problems and needs of its service area and typical and illustrative programs broadcast to help meet each of these problems and needs, and has submitted with this renewal application copies of each of these lists;
   B. It has made good faith efforts to ascertain the problems and needs of the public within its service area in accordance with the current guidelines of the Commission, and upon the filing of this application has placed in the station's public inspection file the appropriate materials regarding those ascertainment efforts.

2. As a result of its recent ascertainment efforts, does the applicant anticipate that the next annual list of problems and needs of its service area and programs broadcast to help meet them (which will be the first list for the new license period) will contain specific problems and needs and/or programs or program series not included in the most recent list?

   _____ Yes _____ No

   If "Yes", indicate in Exhibit No._____ the specific problems and needs and/or programs or program series.

3. Describe in Exhibit No. _____ the procedures applicant has or proposes to have for the consideration and disposition of complaints or suggestions from the public.

4. A. State for the most recent composite week (a) the total number of public service announcements broadcast and (b) the number of public service announcements broadcast between 8AM-11PM.

   (a) _____ (b) _____

   B. Of the total number of public service announcements broadcast during the most recent composite week state (a) the number which in the licensee's judgment were primarily designed to promote programs, activities or services of organizations or organizational units located in the service area, (b) the number which in the licensee's judgment were primarily designed to promote programs, activities or services of organizations or organizational units located outside of the service area and (c) the number which in the licensee's judgment do not readily fall into either category (a) or (b) and/or are a combination of both.

   (a) _____ (b) _____ (c) _____

   C. Attach as Exhibit No.____one exact copy of the program logs for the most recent composite week used as a basis for responding to Questions 4, 10 and 11 herein. Applicants utilizing automatic program logging devices must comply with the provisions of Section 73.670(c). Automatic recordings will be returned to the applicant. Exact copies of program logs will not be returned.

5. A. Was the applicant affiliated with one or more national television networks during the past license period?

   _____ Yes _____ No

   If "Yes", give name(s) of Network(s): _____

   _____

   If the applicant had more than one such affiliation, which network was the principal source of network programs?

   _____

   B. If a network affiliate, did the applicant regularly carry (i.e., carry more than 50% of the programs offered during the current license period) available network news and public affairs:

	Yes	No
(1) News	☐	☐
(2) Public Affairs	☐	☐

FCC Form 303 | TELEVISION | Section IV-B, Page 2

6. In Exhibit No.____ give a brief description of programs, program segments or program series broadcast during the license period which were primarily directed to children twelve years old and under. Indicate the source, time and day of broadcast, frequency of broadcast, and program type.

7. A. In the applicant's judgment, does the information supplied in the Annual Programming Reports (FCC Form 303-A) submitted during the current license period, the information supplied in the annual listings of typical and illustrative programs and program segments broadcast to help meet significant problems and needs of the service area for the current license period, and the information supplied in Questions 4, 5 and 6 above adequately reflect its programming during the current license period?

   Yes _____ No _____

   B. If the answer to "A" is "No", the applicant may attach as Exhibit No.____ such additional information (including the listing of entertainment programs the applicant considers to be of special merit) as may be necessary to describe accurately and present fairly its program service.

   C. If the applicant's programming reflected in the Annual Programming Reports submitted during the current license period varied substantially from the programming representations made in the last renewal application, the applicant may submit as Exhibit No._____ a statement explaining the variations and the reasons therefor.

V 40-73 APR 15 75

FCC Form 303 TELEVISION Section IV-B, Page 3

8. Indicate the minimum amount of time the applicant proposes to devote normally each week to the categories below. Commercial time should be excluded in all computations except for the entries in columns 2, 6 and 10 of the total time operating line (line a).

ANTICIPATED TYPICAL WEEK DATA	FROM 6AM TO MIDNIGHT				FROM 6PM TO 11PM (5PM TO 10PM CENTRAL AND MOUNTAIN TIME)				FROM MIDNIGHT TO 6AM

4/ Percentages are of the total minutes of operation reported at the top of Column 10.

FCC Form 303 TELEVISION Section IV-B, Page 4

9. A. State (a) the minimum total number of public service announcements and (b) the minimum number of public service announcements between 8AM-11PM the applicant proposes to broadcast during a typical week.

(a) _____ (b) _____

B. Of the total number of public service announcements the applicant proposes to broadcast during a typical week state (a) the number which it expects will be primarily designed to promote programs, activities or services of organizations or organizational units located in the service area, (b) the number it expects will be primarily designed to promote programs, activities or services of organizations or organizational units located outside of the service area and (c) the number which it expects will not fall readily into either category (a) or (b) and/or will be a combination of both.

(a) _____ (b) _____ (c) _____

PAST COMMERCIAL PRACTICES

10. State the number of 60-minute segments during the most recent composite week (beginning with the first full clock hour and ending with the last full clock hour of each broadcast day) containing the following amounts of commercial matter.

A. Up to and including 8 minutes _____

B. Over 8 and up to and including 12 minutes _____

C. Over 12 and up to and including 16 minutes _____

D. Over 16 minutes _____

List each segment in category "D" above, specifying the amount of commercial time in the segment, and the day and time of broadcast.

Segment	Amount of Commercial Time in Segment	Day and Time Broadcast

If more space is needed continue in Exhibit No. _____

V 40 73 APR 15 75

FCC Form 303 | TELEVISION | Section IV-B, Page 5

11. State the number of 60-minute segments in the 6PM-11PM (5PM-10PM Central and Mountain Time) time period during the most recent composite week containing the following amounts of commercial matter.

A. Up to and including 8 minutes _____

B. Over 8 and up to and including 12 minutes _____

C. Over 12 and up to and including 16 minutes _____

D. Over 16 minutes _____

List each segment in category "D" above, specifying the amount of commercial time in the segment, and the day and time broadcast.

Segment	Amount of Commercial Time in Segment	Day and Time Broadcast

If more space is needed continue in Exhibit No. _____

12. A. In the applicant's judgment, does the information supplied in Questions 10 and 11 adequately reflect its commercial practices during the current license period?

Yes _____ No _____

B. If "No", applicant may attach as Exhibit No. _____ such additional material as may be necessary to describe adequately and present fairly its commercial practices.

C. If the applicant's commercial practices for the period covered by Questions 10 and 11 varied substantially from the representations made in the applicant's last renewal application, the applicant may explain in Exhibit No. _____ the variations and the reasons therefor.

FCC Form 303 | TELEVISION | Section IV-B, Page 6

PROPOSED COMMERCIAL PRACTICES

13. What is the maximum amount of commercial matter in any 60-minute segment which the applicant proposes normally to allow?

_____

If the applicant proposes to permit this amount to be exceeded at times, state in Exhibit No. _____ under what circumstances and how often this is expected to occur, and the limits that would then apply.

14. What is the maximum amount of commercial matter in any 60-minute segment between the hours of 6PM-11PM (5PM-10PM Central and Mountain Time) which the applicant proposes normally to allow?

_____

If the applicant proposes to permit this amount to be exceeded at times, state in Exhibit No. _____ under what circumstances and how often this is expected to occur, and the limits that would then apply:

15. ## CERTIFICATION

The undersigned is familiar with paragraph 5, Part III, of the General Information to Section IV-B concerning signature requirements and in light of its provisions does hereby:

A. Acknowledge that all the statements made in Section IV-B and the attached exhibits are considered material representations and that all the exhibits are a material part hereof and are incorporated herein as if set out in full in the application form; and

B. Certify that the statements herein are true, complete, and correct to the best of its knowledge and belief and are made in good faith.

FCC Form 303 | STATEMENT OF TV PROGRAM SERVICE | Section IV-B, Page 7

ATTACHMENT A

Attention is invited to the Commission's "Report and Statement of Policy Re: Commission En Banc Programming Inquiry" released July 29, 1960 - FCC 60-970 (25 Federal Register 7291; 20 Pike and Fischer Radio Regulation 1902).

Pursuant to the Communications Act of 1934, as amended, the Commission cannot grant, renew or modify a broadcast authorization unless it makes an affirmative finding that the operation of the station, as proposed, will serve the public interest, convenience and necessity. Programming is of the essence of broadcasting.

A broadcast station's use of a channel for the period authorized is premised on its serving the public. Thus, the public has a legitimate and continuing interest in the program service offered by the station, and it is the duty of all broadcast permittees and licensees to serve as trustees for the public in the operation of their stations. Broadcast permittees and licensees must make positive, diligent and continuing efforts to provide a program schedule designed to serve the needs and interests of the public in the areas to which they transmit an acceptable signal.

In its above-referenced "Policy Statement," the Commission has indicated the general nature of the inquiry which should be made in the planning and devising of a program schedule:

> "Thus we do not intend to guide the licensee along the path of programming; on the contrary, the licensee must find his own path with the guidance of those whom his signal is to serve. We will thus steer clear of the bans of censorship without disregarding the public's vital interest. What we propose will not be served by pre-planned program format submissions accompanied by complimentary references from local citizens. What we propose is documented program submissions prepared as the result of assiduous planning and consultation covering two main areas: first, a canvass of the listening public who will receive the signal and who constitute a definite public interest figure; second, consultation with leaders in community life—public officials, educators, religious (groups), the entertainment media - agriculture, business, labor, professional and eleemosynary organizations, and others who bespeak the interests which make up the community."

Over the years, experience has shown both broadcasters and the Commission that certain recognized elements of broadcast service have frequently been found necessary or desirable to serve the broadcast needs and interests of many communities. In the Policy Statement, referred to above, the Commission set out fourteen such elements. The Commission stated:

> "The major elements usually necessary to meet the public interest, needs and desires of the community in which the station is located as developed by the industry, and recognized by the Commission, have included: (1) Opportunity for Local Self-Expression, (2) The Development and Use of Local Talent (3) Programs for Children, (4) Religious Programs, (5) Educational Programs, (6) Public Affairs Programs, (7) Editorialization by licensees (8) Political Broadcasts, (9) Agricultural Programs, (10) News Programs, (11) Weather and Market Reports, (12) Sports Programs, (13) Service to Minority Groups, (14) Entertainment Programming."

It is emphasized that broadcasters, mindful of the public interest, must assume and discharge responsibility for planning, selecting and supervising all matter broadcast by their stations, whether such matter is produced by them or provided by networks or others. This duty was made clear in the Commission's Policy Statement, page 14, paragraph 3:

> "Broadcasting licensees must assume responsibility for all material which is broadcast through their facilities. This includes all programs and advertising material which they present to the public. With respect to advertising material the licensee has the additional responsibility to take all reasonable measures to eliminate any false, misleading, or deceptive matter and to avoid abuses with respect to the total amount of time devoted to advertising continuity as well as the frequency with which regular programs are interrupted for advertising messages. This duty is personal to the licensee and may not be delegated. He is obligated to bring his positive responsibility affirmatively to bear upon all who have a hand in providing broadcast matter for transmission through his facilities so as to assure the discharge of his duty to provide (an) acceptable program schedule consonant with operating in the public interest in his community. The broadcaster is obligated to make a positive, diligent and continuing effort, in good faith, to determine the tastes, needs and desires of the public in his community and to provide programming to meet those needs and interests. This, again, is a duty personal to the licensee and may not be avoided by delegation of the responsibility to others."

Broadcast Application — FEDERAL COMMUNICATIONS COMMISSION — Section VI	
EQUAL EMPLOYMENT OPPORTUNITY PROGRAM	Name of Applicant
Call letters of station	City and state which station is licensed to serve

Applicants for construction permit for a new facility, for assignment of license or construction permit or for transfer of control (other than *pro forma* or involuntary assignments and transfers), and applicants for renewal of license who have not previously done so, file equal employment opportunity programs or amendments to those programs in the following exhibit. Existing licensees and permittees at the time of the effective date of this form are not required to file an equal employment opportunity program until filing for renewal of license.

PART I

Submit as Exhibit No.____the applicant's equal employment opportunity program for the station, and its network operation if the applicant operates a network, indicating specific practices to be followed in order to assure equal employment opportunity for Negroes, Orientals, American Indians and Spanish Surnamed Americans in each of the following aspects of employment practice: recruitment, selection, training, placement, promotion, pay, working conditions, demotion, layoff, and termination. The program should reasonably address itself to such specific practices as the following, to the extent they are appropriate in terms of station size, location, etc. A program need not be filed if the station has less than five fulltime employees or if it is in an area where the relevant minorities are represented in such insignificant numbers that a program would not be meaningful. In the latter situation, a statement of explanation should be filed.

1. To assure nondiscrimination in recruiting:

   a. Posting notices in station employment offices informing applicants of their equal employment rights and their right to notify the Federal Communications Commission or other appropriate agency if they believe they have been the victim of discrimination.

   b. Placing a notice in bold type on the employment application informing prospective employees that discrimination because of race, color, religion, national origin, or sex, is prohibited and that they may notify the Federal Communications Commission or other appropriate agency if they believe they have been discriminated against.

   c. Placing employment advertisements in media which have significant circulation among minority-group people in the recruiting area.

   d. Recruiting through schools and colleges with significant minority-group enrollments.

   e. Maintaining systematic contacts with minority and human relations organizations, leaders and spokesmen to encourage referral of qualified minority applicants.

   f. Encouraging present employees to refer minority applicants.

   g. Making known to all recruitment sources that qualified minority members are being sought for consideration whenever the station hires.

2. To assure nondiscrimination in selection and hiring:

   a. Instructing personally those of your staff who make hiring decisions that minority applicants for all jobs are to be considered without discrimination.

   b. Where union agreements exist:

      (1) Cooperating with your unions in the development of programs to assure qualified minority persons of equal opportunity for employment;

      (2) Including an effective nondiscrimination clause in new or re-negotiated union agreements.

   c. Avoiding use of selection techniques or tests which have the effect of discriminating against minority groups.

3. To assure nondiscriminatory placement and promotion:

   a. Instructing personally those of the station staff who make decisions on placement and promotion that minority employees are to be considered without discrimination, and that job areas in which there is little or no minority representation should be reviewed to determine whether this results from discrimination.

   b. Giving minority group employees equal opportunity for positions which lead to higher positions. Inquiring as to the interest and skills of all lower paid employees with respect to any of the higher paid positions, followed by

(CONTINUED ON NEXT PAGE)

V 40-73 APR 15 75

EQUAL EMPLOYMENT OPPORTUNITY PROGRAM SECTION VI, Page 2

assistance, counselling, and effective measures to enable employees with interest and potential to qualify themselves for such positions.

c. Reviewing seniority practices and seniority clauses in union contracts to insure that such practices or clauses are nondiscriminatory and do not have a discriminatory effect.

4. To assure nondiscrimination in other areas of employment practices:

a. Examining rates of pay and fringe benefits for present employees with equivalent duties, and adjusting any inequities found.

b. Advising all qualified employees whenever there is an opportunity to perform overtime work.

PART II

Assignors and transferors other than in the case of *pro forma* or involuntary assignments and transfers, and renewal applicants file the following exhibit:

Submit a report as Exhibit ___ indicating the manner in which the specific practices undertaken pursuant to the station's equal employment opportunity program have been applied and the effect of these practices upon the applications for employment, hiring and promotions of minority group members.

PART III

Assignors, transferors and applicants for renewal file the following exhibit:

Submit as Exhibit ___ a brief description of any complaint which has been filed before any body having competent jurisdiction under Federal, State, territorial or local law, alleging unlawful discrimination in the employment practices of the applicant, including the persons involved, the date of filing, the court or agency, the file number (if any), and the disposition or current status of the matter.

APPENDIX C

Broadcast Renewal Application	Federal Communications Commission	Section II
Renewal Application Engineering Data -- TV Stations	Name of Applicant:	

1. Description of transmitters. Note: Include all transmitter for which applicant seeks renewal of license. If necessary, attach a separate sheet as Exhibit No. ___ describing additional transmitters. State the use for which the transmitter is desired (e.g., main night, alternate main, alternate exciters, alternate final amplifier, and auxiliary). Give the nominal operating power output, in kilowatts, of both visual and aural transmitters as indicated by the operating logs. In accordance with Section 73.689 of the Commission's Rules, power is to be determined by the direct method using a non-inductive load.

	Make	Type No.	Use	Power

RESOLUTION CHART

100 MILLIMETERS

INSTRUCTIONS Resolution is expressed in terms of the lines per millimeter recorded by a particular film under specified conditions. Numerals in chart indicate the number of lines per millimeter in adjacent "T-shaped" groupings.

In microfilming, it is necessary to determine the reduction ratio and multiply the number of lines in the chart by this value to find the number of lines recorded by the film. As an aid in determining the reduction ratio, the line above is 100 millimeters in length. Measuring this line in the film image and dividing the length into 100 gives the reduction ratio. Example: the line is 20 mm. long in the film image, and 100 ÷ 20 = 5.

Examine "T-shaped" line groupings in the film with microscope, and note the number adjacent to finest lines recorded sharply and distinctly. Multiply this number by the reduction factor to obtain resolving power in lines per millimeter. Example: 7.9 group of lines is clearly recorded while lines in the 10.0 group are not distinctly separated. Reduction ratio is 5, and 7.9 x 5 = 39.5 lines per millimeter recorded satisfactorily. 10.0 x 5 = 50 lines per millimeter which are not recorded satisfactorily. Under the particular conditions, maximum resolution is between 39.5 and 50 lines per millimeter.

Resolution, as measured on the film, is a test of the entire photographic system, including lens, exposure, processing, and other factors. These rarely utilize maximum resolution of the film. Vibrations during exposure, lack of critical focus, and exposures yielding very dense negatives are to be avoided.
